The Compliance Commissioner has accordingly found that respondents have violated the export control regulations in the respects above-indicated and has recommended that their export license and forwarding privileges be suspended with respect to shipment to any destination of any commodities included on the export control Positive List. He has recommended that such suspension be for 2 months in the case of Lerner and Lerner International, 4 months in the cases of Einhorn, Consolidated Export Company, Whitehall Metal Products Company, and George Rediker, and 1 year in the case of Finkelman and Finkelman & Schonberg. In view of the volume and nature of the business or Rediker Bros. Shipping Company, Inc., however, and because a protracted suspension would not only be financially disastrous but would also injure customers whom the company represents, the Compliance Commissioner has recommended a suspension of only 20 days for that company.

The findings and recommendations of the Compliance Commissioner, together with the record in this matter, have been carefully considered and it appears that such findings are supported by the evidence and that such recommendations are fair and reasonable and should be adopted. Now, therefore, it is ordered as follows:

(1) All outstanding export licenses issued to or held by respondents or any of them are hereby revoked and shall be forthwith returned to the Office of Industry and Commerce for cancellation.

(2) Respondents are hereby severally denied the privilege of obtaining or using, or participating directly or indirectly, either as licensee, consignor, forwarder, consignee, or in any other capacity, in the obtaining or using of export licenses, authenticated shipper's export declarations, or other export control documents, for exportation to any destination of any commodity included at the time of any proposed shipment in the Positive List established by the Office of Industry and Commerce.

(3) Such denial of the above-specified privileges (except as they apply to Rediker Bros. Shipping Company, Inc.) shall take effect upon publication of this order in the FEDERAL REGISTER and shall continue in effect for 2 months in the case of Lerner and Lerner International; for 4 months in the cases of Einhorn, Consolidated Export Company, Whitehall Metal Products Company, and George Rediker; and for 1 year in the case of Finkelman and Finkelman & Schonberg.

(4) In the case of Rediker Bros. Shipping Company, Inc., such denial of the above-specified privileges shall take effect at the opening of business on September 25, 1950, and shall terminate at the close of business on October 14, 1950. During such period neither Rediker Bros. Shipping Company, Inc., nor any other person on its behalf shall file, procure the validation or authentication of, or use any export license, shipper's export declaration, or other export control documents, in connection with the forwarding or exporting of any Positive List commodity or otherwise participate as forwarder or in any other capacity in the exportation of any such commodity.

(5) Such denials of the privileges specified in the preceding paragraphs shall extend and apply not only to the named respondents but also to any other person, trade name, firm, corporation, or other business organization now or hereafter owning or controlling, owned or controlled by, or under common ownership or control with, such named respondents or in which any individual respondent may now or hereafter be a partner or hold a position of responsibility involving the preparation, filing, procurement or use of any export control documents or the supervision of any persons so engaged.

Issued this 31st day of August 1950.

RAYMOND S. HOOVER,
Issuance Officer.

Approved:

JOHN F. HAVENER,
Assistant Director.

CIVIL AERONAUTICS BOARD

[Docket No. 4503]

PAN AMERICAN WORLD AIRWAYS, INC.; FAIRBANKS - SEATTLE SPACE AVAILABLE FARE

NOTICE OF HEARING

In the matter of the investigation to determine the lawfulness of the Fairbanks-Seattle space available fare proposed in the tariff of Pan American World Airways, Inc.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 403, 404, and 1002 thereof, that hearing in the above-entitled proceeding is assigned to be held on September 12, 1950, at 10:00 a. m. (e. d. s. t.) in Room 4823, Commerce Building, 14th Street and Constitution Avenue NW., Washington, D. C., before Examiner F. Merritt Ruhlen.

Without limiting the scope of the issues presented by the order of investigation, particular attention will be directed to the following matters and questions:

1. Are the fares, rules, and regulations under consideration unjust or unreasonable or unjustly discriminatory or unduly preferential or prejudicial; and

2. If the fares, rules, and regulations under consideration in this proceeding

are unjust or unreasonable or unjustly discriminatory or unduly preferential or prejudicial, what are the lawful fares which the Board should determine and prescribe?

For more detailed information with respect to the issues involved attention is directed to the prehearing Conference Report issued in this proceeding.

Notice also is given that any persons, other than parties of record as of September 1, 1950, desiring to be heard in this proceeding must file with the Board on or before September 12, 1950, a statement setting forth the issues of fact or law raised by this proceeding on which he desires to be heard.

For further details with respect to this investigation, interested parties are referred to the pertinent orders of the Civil Aeronautics Board on file in the docket.

Dated at Washington, D. C., September 1, 1950.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

FEDERAL POWER COMMISSION

[Docket No. G-1440]

LOUISIANA-NEVADA TRANSIT CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 5, 1950.

On July 11, 1950, Louisiana-Nevada Transit Company (Applicant), a Nevada corporation having its principal place of business at Ada, Oklahoma, filed an application, supplemented August 22, 1950, for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas transmission facilities pursuant to section 7 of the Natural Gas Act, as amended. The facilities are more particularly described in the application on file with the Commission and open to public inspection.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure. No request to be heard or protest has been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on July 27, 1950 (15 F. R. 4858).

The Commission finds:

(1) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32) of the Commission's rules of practice and procedure.

(2) Good cause exists for the prescribing of a shorter period of notice than provided for in §§ 1.19 and 1.20 of the Commission's rules of practice and procedure (18 CFR 1.20).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on September 15, 1950, at 9:45 a. m. (e. d. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 5, 1950.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25384]

ETHYLENE GLYCOL FROM PORT NECHES, TEX., TO MINNESOTA

APPLICATION FOR RELIEF

SEPTEMBER 6, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3721.

Commodities involved: Diethylene glycol, ethylene glycol and propylene glycol, carloads.

From: Port Neches, Tex.

To: Minneapolis, Minnesota Transfer, and St. Paul, Minn.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3721, Supplement 150.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

UNION PACIFIC RAILROAD CO.

UNLOADING OF AUTO TIRES AT LOS ANGELES, CALIF.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 6th day of September A. D. 1950.

It appearing, that N&W 47931, auto tires, at Los Angeles, California, on hand on the Union Pacific Railroad Company, for an unreasonable length of time and that this delay in unloading such car impedes its use; in the opinion of the Commission an emergency exists requiring immediate action: It is ordered, that:

Auto tires at Los Angeles, Calif., be unloaded. (a) The Union Pacific Railroad Company, its agents or employees, shall unload immediately N&W 47931 loaded with auto tires now on hand at Los Angeles, California, consigned Consolidated Tire Stores Company.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate

Commerce Act shall charge or demand or collect or receive any demurrage or storage charges for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., September 8, 1950, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify the Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, That this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

[Sec. 5a Application 24]

SAN FRANCISCO MOVERS TARIFF BUREAU

APPLICATION FOR APPROVAL OF AGREEMENT

SEPTEMBER 6, 1950.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed September 5, 1950, by: Roberts of San Francisco, 430 Main Street, San Francisco, Calif.

Agreement involved: Application for approval of an agreement between and among motor common carriers, members of San Francisco Movers Tariff Bureau, relating to procedures for the joint consideration, initiation, or establishment of rates, rules, and regulations governing the transportation of household goods and related articles in interstate commerce between points in California.

The complete application may be inspected at the office of the Commission in Washington, D. C.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the General Rules of Practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-25, 59-11, 59-17]

UNITED LIGHT AND RAILWAYS CO. ET AL

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 1st day of September A. D. 1950.

In the matter of The United Light and Railways Company, American Light & Traction Company, et al.; File Nos. 59-11, 59-17, 54-25.

The Commission having on December 30, 1947, issued its order approving a plan filed by American Light & Traction Company (now American Natural Gas Company ("American")), a registered holding company, and its then parent, The United Light and Railways Company ("Railways"), also a registered holding company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935; and

The Commission in said order approving said Plan, having reserved jurisdiction with respect to the reasonableness and allocation of all fees, expenses and remuneration incurred and to be incurred in connection with the Plan and the consummation thereof, and the Commission having from time to time released jurisdiction with respect to fees and expenses incurred and paid in connection with the various steps of the Plan, and having on December 27, 1949, issued its order releasing jurisdiction with respect to all fees and expenses requested in the proceeding in connection with the Plan; and

Allied Chemical & Dye Corporation ("Allied") having filed an application on April 3, 1950, and an amendment thereto on June 26, 1950, requesting an allowance for reimbursement on account of expenditures, including fees of counsel and experts, incurred and paid in connection with the Plan as follows:

Fees of counsel:	
Cook, Lehman, Nathan, Goldmark & Loeb	$116,000
Alfred A. Cook	50,000
Joseph L. Weiner	91,500
Arthur Kramer	10,000
Pitney, Hardin & Ward	1,250
	268,750
Fees of experts:	
Dean Langmuir	7,400
Ralph E. Badger	6,000
Benjamin Graham	5,000
Loeb & Eames, Inc	5,000
H. Zindler	4,000
	27,400
Other disbursements:	
Printing, transcripts, and photostats	20,102
Traveling expenses of counsel and Allied personnel	6,638
Expenses of experts	1,600
Miscellaneous	4,839
	33,179
	329,329

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application:

It is hereby ordered, That the record in the proceedings on said Plan be reopened and that the hearings be reconvened on October 2, 1950, at 10:00 a. m., e. s. t., for the purpose of considering said application of Allied for allowance for reimbursement on account of expenditures as set forth in said application, such hearing to be held at the office of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise participate in this proceeding shall file with the Secretary of the Commission on or before September 29, 1950, a written request with respect thereto as provided in Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities having advised the Commission that it has made a preliminary examination of the application and upon the basis thereof, without prejudice to its specifying additional matters and questions upon further examination, the following matters are presented for consideration:

Whether the expenditures for fees and expenses for which reimbursement is sought are reasonable in amount, are for necessary services in connection with the Plan and the proceedings with respect thereto, whether it is appropriate and lawful to grant the application for reimbursement, and whether the reimbursement, if any, should be made by American, Railways or both and if by both in what proportions.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters.

It is further ordered, That any person desiring to assert any additional claims for compensation or reimbursement for fees and expenses in connection with the proceedings upon the Plan shall, on or before September 29, 1950, file such claim or a notification of intention to assert such claim, and, in the event such claims are filed during the course of the hearings, no notice of such filing will be given unless specifically ordered by the Commission. Any person desiring to receive further notice of the filing of such additional claims should file an appearance in these proceedings or otherwise specifically request such notice.

It is further ordered, That the Secretary of the Commission shall serve notice of the said hearing by mailing a copy of this notice and order by registered mail to Allied Chemical & Dye Corporation, American Natural Gas Company, The United Light and Railways Company, to all persons granted participation in the proceedings, and notice of said hearing shall be given to all other persons by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2439]

NEW HAMPSHIRE ELECTRIC CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 5th day of September A. D. 1950.

New Hampshire Electric Company ("New Hampshire"), an electric utility subsidiary of New England Gas and Electric Association, a registered holding company, having filed an application, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and Rule U-50 of the general rules and regulations promulgated thereunder, with respect to the following proposed transaction:

New Hampshire proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $3,600,000 principal amount of First Mortgage Sinking Fund _____ Percent Bonds, Series A, due 1975. The interest rate and the price to the company for the bonds will be determined by competitive bidding, except that the invitation for bids will specify that the price to the company shall not be less than 100 percent nor more than 102.75 percent of the principal amount. The proceeds of the sale of the bonds will be used to retire $1,880,000 aggregate principal amount of outstanding First Mortgage Bonds and $1,250,000 principal amount of notes due banks, the balance will be set aside for the purpose of financing additions, extensions and improvements to the company's plant and property.

The proposed issuance and sale of bonds has been approved by the Public Service Commission of New Hampshire.

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that the said application be granted:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act, that said application be, and the same hereby is, granted effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further condition that the proposed issuance and sale of bonds shall not be consummated until the results of competitive bidding, pursuant to Rule U-50 have been made a matter of record herein and a further order shall have been entered with respect thereto, which order shall contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction be, and the same hereby is, reserved.

It is further ordered, That jurisdiction be, and the same hereby is, reserved over all fees and expenses to be incurred in connection with the proposed transaction.

By the Commission.

[Vesting Order 15018]

DIMITRIE C. AMZAR

In re: Bank account owned by Dimitrie C. Amzar, F-28-20799-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Dimitrie C. Amzar, whose last known address is Postschliessfach 210, Wiesbaden, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of the Swiss Bank Corporation, New York Agency, 15 Nassau Street, New York 5, New York, in the amount of $482.40, as of May 31, 1950, representing a portion of an Ordinary Blocked Account, entitled "Swiss Bank Corporation, Zurich," maintained with the aforesaid bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Dimitrie C. Amzar, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[Vesting Order 15023]

GOSHO KABUSHIKI KAISHA

In re: Debts owing to Gosho Kabushiki Kaisha, also known as Gosho K. K. F-39-1991-C-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to

law, after investigation, it is hereby found:

1. That Gosho Kabushiki Kaisha, also known as Gosho K. K., the last known address of which is Osaka, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Osaka, Japan, and is a national of a designated enemy country (Japan);

2. That the property described as follows:

a. That certain debt or other obligation owing to Gosho Kabushiki Kaisha, also known as Gosho K. K., by Geo. H. McFadden & Bro., 60 Beaver Street, New York 4, New York, arising out of the balance of an Open Account carried on the books of the aforesaid Geo. H. McFadden & Bro., in the name of Gosho K. K., Osaka, Japan, together with any and all accruals to the aforesaid debt or other obligations, and any and all rights to demand, enforce and collect the same, and

b. That certain debt or other obligation of Geo. H. McFadden & Bro., 60 Beaver Street, New York 4, New York, arising out of the balance of an Open Account carried on the books of the aforesaid Geo. H. McFadden & Bro., in the name of Gosho K. K., Shanghai, China, together with any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Gosho Kabushiki Kaisha, also known as Gosho K. K., the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

GEORGE FORELL AND MARY THORN

In re: Bank accounts owned by George Forell and Mary Thorn. F-28-30868-E-1, F-28-30869-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That George Forell and Mary Thorn, whose last known addresses are Dolman, Germany and Wernigarade, Saxony, Germany, respectively, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of The San Francisco Bank, 526 California Street, San Francisco, California, arising out of a savings account, account number 759203, entitled Regina Christmann, Trustee for George Forell, maintained at the aforesaid bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, George Forell, the aforesaid national of a designated enemy country (Germany);

3. That the property described as follows: That certain debt or other obligation of the San Francisco Bank, 526 California Street, San Francisco, California, arising out of a savings account, account number 754264, entitled Regina Christmann, Trustee for Mary Thorn, maintained at the aforesaid bank, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Mary Thorn, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

FEDERAL REGISTER

VOLUME 15 NUMBER 176

Washington, Tuesday, September 12, 1950

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10159

PROVIDING FOR THE ADMINISTRATION OF THE ACT FOR INTERNATIONAL DEVELOPMENT

By virtue of the authority vested in me by the Act for International Development, approved June 5, 1950 (Title IV of Public Law 535, 81st Congress), hereinafter referred to as the act, and as President of the United States, it is hereby ordered as follows:

1. The Secretary of State is authorized and directed (a) to perform the functions and exercise the powers and authority vested in the President by the act, except those so vested by section 413 (a) thereof, and except those so vested by section 409 thereof except as provided below, and (b), in cooperation with the heads of other appropriate departments and agencies and wholly-owned corporations of the Government, to plan and execute the programs authorized by the act.

2. For the purpose of promoting the effective implementation of the act, the heads of all departments and agencies the participation of which is requested by the Secretary of State are hereby authorized and directed to provide for such participation to the maximum extent consistent with law.

3. There is established pursuant to section 409 of the act the International Development Advisory Board. The members of the Board shall serve for terms of two years. The Board shall meet at the request of the Secretary of State to advise and consult with him on general policy matters. The Secretary of State is authorized to create and appoint such additional committees in special fields of activity as he may find, after consultation with the heads of other appropriate departments and agencies, to be necessary and desirable, in accordance with the provisions of section 409 of the act.

4. The Secretary of State shall establish an Interdepartmental Advisory Council on Technical Cooperation, to be composed of the heads of participating departments and agencies or their representatives. The Council shall be advisory to the Secretary of State.

EXECUTIVE ORDER 10160

PROVIDING FOR THE PRESERVATION OF RECORDS FOR CERTAIN PURPOSES OF THE DEFENSE PRODUCTION ACT OF 1950

By virtue of the authority vested in me by the Defense Production Act of 1950, and as President of the United States, and in order to provide an appropriate basis for action under Title IV of the Defense Production Act of 1950, it is hereby ordered:

1. Every person who sold or delivered goods or services, or offered them for sale or delivery, in the course of trade or business during the period from May 24, 1950, to June 24, 1950, inclusive, shall preserve all his records for such period relating to:

(a) The prices received or asked for such goods or services; and

(b) The labor, material, acquisition, and other costs incurred in connection with such goods or services.

2. This order does not apply to:

(a) Records of an individual relating to wages or salary received by such individual;

(b) Records relating to sales of agricultural commodities by the individual producer thereof; and

(c) Records relating to the following, which are exempt from control under section 402 (e) of the Defense Production Act of 1950: (i) prices or rentals for real property; (ii) rates or fees charged for professional services; (iii) prices or rentals for (a) materials furnished for publication by any press association or feature service, or (b) books, magazines, motion pictures, periodicals, or newspapers, other than as waste or scrap; or rates charged by any person in the business of operating or publishing a newspaper, periodical, or magazine, or operating a radio-broadcasting or television station, a motion-picture or other thea-

EXECUTIVE ORDER 10161

DELEGATING CERTAIN FUNCTIONS OF THE PRESIDENT UNDER THE DEFENSE PRODUCTION ACT OF 1950

By virtue of the authority vested in me by the Constitution and statutes, including the Defense Production Act of 1950, and as President of the United States and Commander in Chief of the armed forces, it is hereby ordered as follows:

PART I—PRIORITIES AND ALLOCATIONS

SECTION 101. The functions conferred upon the President by Title I of the Defense Production Act of 1950 are hereby delegated as follows:

(a) To the Secretary of the Interior with respect to petroleum, gas, solid fuels, and electric power.

(b) To the Secretary of Agriculture with respect to food, and with respect to the domestic distribution of farm equipment and commercial fertilizer.

(c) To that commissioner of the Interstate Commerce Commission who is responsible for the supervision of the Bureau of Service of the Commission, with respect to domestic transportation, storage, and port facilities, or the use thereof, but excluding air transport, coastwise, intercoastal, and overseas shipping.

(d) To the Secretary of Commerce with respect to all materials and facilities except as provided in paragraphs (a), (b), and (c) of this section 101.

SEC. 102. Each delegate referred to in section 101 of this Executive order shall, in connection with carrying out the priorities and allocations functions delegated to him by such section, (a) receive from appropriate agencies of the Government information relating to the direct and indirect military, other governmental, civilian, and foreign requirements for materials and facilities, (b) review and evaluate such requirements in the light of available materials and facilities, and (c) exercise his priorities and allocations powers in such manner as will in his judgment promote adequate supplies and their proper distribution.

SEC. 103. (a) Each delegate referred to in section 101 of this Executive order shall be a claimant before the other such delegates, respective, in the case of materials and additional facilities deemed by the claimant delegate to be necessary for the provision of an adequate supply of the materials and facilities with respect to which delegation is made to the claimant delegate by the said section 101.

(b) Each delegate under section 101 of this Executive order may, with the approval of the Chairman of the National Security Resources Board, designate agencies and officers of the Government, additional to the claimants referred to in section 103 (a) of this Executive order, to be claimants before such delegate with respect to stated materials and facilities.

PART II—REQUISITIONING

SEC. 201. (a) Except as provided in section 201 (b) of this Executive order, the functions conferred upon the President by Title II of the Defense Production Act of 1950 are hereby delegated to the officers to whom functions are delegated by section 101 of this Executive order, respectively, according to the designations of materials and facilities set forth in paragraphs (a), (b), (c), and (d) of the said section 101.

(b) The functions conferred upon the President by sections 201 (b) and 201 (c) of the Defense Production Act of 1950, exclusive of determinations with respect to the termination of the need for the national defense of any property requisitioned under Title II of the said Act, are hereby delegated to the Administrator of General Services.

PART III—EXPANSION OF PRODUCTIVE CAPACITY AND SUPPLY

SEC. 301. The Department of the Army, the Department of the Navy, the Department of the Air Force, the Department of Commerce, the Department of the Interior, the Department of Agriculture, and the General Services Administration, in this Part referred to as guaranteeing agencies, and each delegate under section 101 of this Executive order shall develop and promote measures for the expansion of productive capacity and of production and supply of materials and facilities necessary for the national defense.

SEC. 302. (a) Each guaranteeing agency is hereby authorized, in accordance with section 301 of the Defense Production Act of 1950, subject to the provisions of this section, in order to expedite production and deliveries or services under Government contracts, and without regard to provisions of law relating to the making, performance, amendment, or modification of contracts, to guarantee in whole or in part any public or private financing institution (including any Federal Reserve Bank), by commitment to purchase, agreement to share losses, or otherwise, against loss of principal or interest on any loan, discount, or advance, or on any commitment in connection therewith, which may be made by such financing institution for the purpose of financing any contractor, subcontractor, or other person in connection with the performance, or in connection with or in contemplation of the termination, of any contract or other operation deemed by the guaranteeing agency to be necessary to expedite production and deliveries or services under Government contracts for the procurement of materials or the performance of services for the national defense.

(b) Each Federal Reserve Bank is hereby designated and authorized to act, on behalf of any guaranteeing agency, as fiscal agent of the United States in the making of such contracts of guarantee and in otherwise carrying out the purposes of the said section 301, in respect of private financing institutions.

(c) All actions and operations of Federal Reserve Banks, under authority of or pursuant to the said section 301 of the Defense Production Act of 1950, shall be subject to the supervision of the Board of Governors of the Federal Reserve System. Said Board is hereby authorized, after consultation with the heads of the guaranteeing agencies, (1) to prescribe such regulations governing the actions and operations of fiscal agents hereunder as it may deem necessary, (2) to prescribe, either specifically or by maximum limits or otherwise, rates of interest, guarantee and commitment fees, and other charges which may be made in connection with loans, discounts, advances, or commitments guaranteed by the guaranteeing agencies through such fiscal agents, and (3) to prescribe regulations governing the forms and procedures (which shall be uniform to the extent practicable) to be utilized in connection with such guarantees.

SEC. 303. Within such amounts of funds as the President shall have made available, and upon the certificate by the Secretary of the Interior in respect of metals and minerals (except as to paragraph (c) of this section), or by the Secretary of Agriculture in respect of lumber, or by the appropriate delegate referred to in section 101 of this Executive order in respect of other materials and facilities, or by such other officer or officers of the Government as the President may designate, as to the necessity

[F. R. Doc. 50-8017; Filed, Sept. 9, 1950; 10:45 a. m.]

for loans, purchases, or commitments, as the case may be:

(a) The Reconstruction Finance Corporation is hereby authorized and directed to make loans (including participations in, or guarantees of, loans) to private business enterprises (including research corporations not organized for profit) for the expansion of capacity, the development of technological processes, and the production of essential materials, including the exploration, development, and mining of strategic and critical metals and minerals, as authorized by and subject to section 302 of the Defense Production Act of 1950.

(b) The Administrator of General Services is hereby authorized and directed to purchase and make commitments to purchase metals, minerals, and other raw materials, including liquid fuels, for Government use or resale, as authorized by and subject to section 303 of the said Act: *Provided*, That the Secretary of Agriculture is also authorized to exercise the functions under section 303 with respect to agricultural commodities.

(c) The Secretary of the Interior is hereby authorized and directed to encourage the exploration, development, and mining of critical and strategic minerals and metals, as authorized by and subject to the provisions of the said section 303.

SEC. 304. The functions conferred upon the President by section 303 (d) of the Defense Production Act of 1950 with respect to the installation of additional equipment, facilities, processes, or improvements to plants, factories, and other industrial facilities owned by the United States Government, and with respect to the installation of Government-owned equipment in plants, factories, and other industrial facilities owned by private persons, are hereby delegated to the Administrator of General Services.

PART IV—ECONOMIC STABILIZATION

SEC. 401. (a) There is hereby created a new and independent agency to be known as the Economic Stabilization Agency, hereafter in this Part referred to as the Agency. There shall be at the head of the Agency an Economic Stabilization Administrator, hereafter in this Part referred to as the Administrator, who shall be appointed by the President by and with the advice and consent of the Senate.

(b) The Administrator shall seek to preserve and maintain the stabilization of the economy. To this end he shall:

(1) Plan and develop both short and long-range price and wage stabilization policies and measures and create the necessary organization for their administration.

(2) Inform the public, agriculture, industry and labor concerning the need for stabilization and encourage and promote voluntary action to this end.

(3) Consult and advise with the Government officials responsible for procurement, production, manpower, and rent control, and for fiscal, credit and monetary policies, concerning measures within their jurisdiction which will assist stabilization.

(4) Establish price ceilings and stabilize wages and salaries where necessary.

(c) The functions conferred upon the President by Title IV of the Defense Production Act of 1950 are hereby delegated to the Administrator.

SEC. 402. There shall be in the Agency a Director of Price Stabilization, who shall be appointed by the President by and with the advice and consent of the Senate, and who shall perform such functions with respect to price stabilization as may be determined by the Administrator.

SEC. 403. (a) There shall be in the Agency a Wage Stabilization Board composed of nine members who shall be appointed by the President. Three of the members so appointed shall be representative of the public, three shall be representative of labor, and three shall be representative of business and industry. One of the members representing the public, to be designated by the President, shall be chairman of the Board.

(b) The Wage Stabilization Board shall make recommendations to the Administrator regarding the planning and development of wage stabilization policies and shall perform such further functions with respect to wage stabilization as may be determined by the Administrator after consultation with the Board.

SEC. 404. The Administrator is hereby designated to initiate such consultations and conferences with management, labor, and representatives of the Government and public as he deems appropriate and to advise the President of such action as may be called for in carrying out the provisions of Title V of the Defense Production Act of 1950.

PART V—REAL ESTATE CREDIT

SEC. 501. (a) Subject to the provisions of section 501 (b) of this Executive order, the functions conferred upon the President by section 602 of the Defense Production Act of 1950 are hereby delegated to the Board of Governors of the Federal Reserve System.

(b) The said Board shall obtain the concurrence of the Housing and Home Finance Administrator with respect to provisions relating to real estate construction credit involving residential property before prescribing, changing, or suspending any real estate construction credit regulation pursuant to the authority of section 602 of the Defense Production Act of 1950.

SEC. 502. (a) The functions conferred upon the President by section 605 of the Defense Production Act of 1950, to the extent that such functions relate to loans on real estate involving residential property, are hereby delegated to the Housing and Home Finance Administrator.

(b) In carrying out the functions delegated by section 502 (a) of this Executive order, and under the authority so delegated or under authority vested in him by any applicable law, the Administrator shall from time to time issue such regulations and take such other action as may be necessary to insure (1) that the restrictions imposed on real estate construction credit by the provisions of the regulations issued from time to time by the Board of Governors of the Federal Reserve System (with the concurrence of the Housing and Home Finance Administrator in the provisions of such regulations relating to credit involving residential property) under the authority delegated by section 501 of this Executive order shall be applicable to the fullest extent practicable with respect to loans on real estate (of the types referred to in section 605 of the Defense Production Act of 1950) involving residential property, and (2) that the relative credit preferences accorded to veterans under existing law are preserved in accordance with the provisions of section 605 of the Defense Production Act of 1950.

PART VI—LABOR SUPPLY

SEC. 601. The Secretary of Labor shall utilize the functions vested in him so as to meet most effectively the labor needs of defense industry and essential civilian employment, and to this end he shall:

(a) Assemble and analyze information on labor requirements for defense and other activities and on the supply of workers.

(b) Consult with and advise each delegate referred to in section 101 of this Executive order and each official exercising guarantee or loan functions under Part III of this Executive order concerning (1) the effect of contemplated actions on labor supply and utilization, (2) the relation of labor supply to materials and facilities requirements, (3) such other matters as will assist in making the exercise of priority and allocations functions consistent with effective utilization and distribution of labor.

(c) Formulate plans, programs, and policies for meeting defense and essential civilian labor requirements.

(d) Utilize the public employment service system, and enlist the cooperation and assistance of management and labor to carry out these plans and programs and accomplish their objectives.

(e) Determine the occupations critical to meeting the labor requirements of defense and essential civilian activities and with the Secretary of Defense, the Director of Selective Service, and such other persons as the President may designate develop policies applicable to the induction and deferment of personnel for the armed services, except for civilian personnel in the reserves.

PART VII—VOLUNTARY AGREEMENTS

SEC. 701. (a) The functions conferred upon the President by section 708 (a) of the Defense Production Act of 1950 are hereby delegated as follows:

(1) To the Secretaries of the Interior, Agriculture, and Commerce, and to the commissioner of the Interstate Commerce Commission referred to in section 101 of this Executive order, respectively, according to the designations of materials and facilities set forth in paragraphs (a), (b), (c), and (d) of such section 101.

(2) To the Board of Governors of the Federal Reserve System with respect to financing.

(3) To the Economic Stabilization Administrator with respect to stabilization.

(b) The functions conferred upon the President by section 708 (b) of the Defense Production Act of 1950 are hereby delegated as follows:

(1) To the Secretary of Commerce in respect of Title I of the Defense Production Act of 1950.

(2) In other respects to the delegates referred to in section 701 (a) of this Executive order, respectively, according to the provisions of paragraphs (1), (2), and (3) thereof.

(c) The delegation of authority made by section 701 (b) of this Executive order is subject to the conditions (1) that each delegate concerned shall consult with the Attorney General and the Chairman of the Federal Trade Commission not less than ten days before making any request or finding under section 708 (b) of the Defense Production Act of 1950, (2) that each delegate concerned shall obtain the approval of the Attorney General to any request under said section 708 (b) before making the request, and (3) that the authority delegated may not be redelegated.

PART VIII—COORDINATION

SEC. 801. In the interest of consistent and coordinated administration of functions delegated by this Executive order, each officer to whom functions are delegated shall be guided by such policies and program directives as the President may from time to time prescribe.

SEC. 802. The Chairman of the National Security Resources Board shall, in the interest of assisting the President to coordinate the functions delegated by this Executive order, and on behalf of the President:

(a) Resolve interagency issues which otherwise would require the attention of the President.

(b) Prescribe policy and program directives having the approval of the President.

(c) Obtain reports and information on the status of work in the various agencies designated in this Executive order.

(d) Take such measures to obtain coordination of related policies and activities among the various agencies as he may determine.

(e) Advise the President on the progress of the defense production program and make such recommendations as he may deem proper.

SEC. 803. The Council of Economic Advisers shall adapt its continuing studies of employment, production and purchasing power needs and objectives so as to furnish guides to the agencies under this Executive order in promoting balance between defense and civilian needs and in avoiding inflation in a stable and growing economy. In the performance of this function, the Council shall obtain necessary information from the agencies concerned and engage in regular consultation with them.

PART IX—GENERAL PROVISIONS

SEC. 901. As used in this Executive order:

(a) The term "functions" includes powers, duties, authority, responsibilities, and discretion.

(b) The term "materials" includes raw materials, articles, commodities, products, supplies, components, technical information, and processes, but excludes fissionable materials as defined in the Atomic Energy Act of 1946.

(c) The term "petroleum" shall mean crude oil and synthetic liquid fuel, their products, and associated hydrocarbons, including pipelines for the movement thereof.

(d) The term "gas" shall mean natural gas and manufactured gas, including pipelines for the movement thereof.

(e) The term "solid fuels" shall mean all forms of anthracite, bituminous, subbituminous, and lignitic coals, and coke and its byproducts.

(f) The term "electric power" shall mean all forms of electric power and energy, including the generation, transmission, distribution, and utilization thereof.

(g) The term "metals and minerals" shall mean all raw materials of mineral origin, including their refining and processing but excluding their fabrication.

(h) The term "food" shall mean all commodities and products, simple, mixed, or compound, or complements to such commodities or products, that are capable of being eaten or drunk by either human beings or animals, irrespective of other uses to which such commodities or products may be put, at all stages of processing from the raw commodity to the products thereof in vendible form for immediate human or animal consumption. For the purposes of this Executive order the term "food" shall also include all starches, sugars, vegetable and animal fats and oils, cotton, tobacco, wool, mohair, hemp, flax fiber, and naval stores, but shall not include any such material after it loses its identity as an agricultural commodity or agricultural product.

(i) The term "farm equipment" shall mean equipment manufactured for use on farms in connection with the production or processing of food.

(j) The term "fertilizer" shall mean fertilizer in form for distribution to the users thereof.

(k) The term "domestic transportation, storage, and port facilities" shall include locomotives, cars, motor vehicles, watercraft used on inland waterways, in harbors, and on the Great Lakes, and other vehicles, vessels, and all instrumentalities of shipment or carriage, irrespective of ownership, and all services in or in connection with the carriage of persons or property in intrastate, interstate, or foreign commerce within the United States, except movement of petroleum and gas by pipeline; and warehouses, piers, docks, wharves, loading and unloading equipment, and all other structures and facilities used in connection with the transshipment of persons and property between domestic carriers and carriers engaged in coastwise, intercoastal, and overseas transportation.

SEC. 902. (a) Except as otherwise provided in section 902 (c) of this Executive order, each officer or agency having functions under the Defense Production Act of 1950 delegated or assigned thereto by this Executive order may exercise and perform, with respect to such functions, the functions vested in the President by Title VII of the said Act.

(b) The functions which may be exercised and performed pursuant to the authority of section 902 (a) of this Executive order shall include, but not by way of limitation, (1) except as otherwise provided in section 701 (c) of this Executive order, and except as otherwise required by section 403 of the Defense Production Act of 1950, the power to redelegate functions, and to authorize the successive redelegation of functions, to agencies, officers, and employees of the Government, (2) the power to create an agency or agencies, under the jurisdiction of the officer concerned, to administer functions delegated by this Executive order, and (3) in respect of Parts I, II, IV, and V of this Executive order, the power of subpoena: *Provided*, That the subpoena power shall be utilized only after the scope and purpose of the investigation, inspection, or inquiry to which the subpoena relates have been defined either by the appropriate officer referred to in section 902 (a) of this Executive order or by such other person or persons as he shall designate.

(c) There are excluded from the functions delegated by section 902 (a) of this Executive order (1) the functions delegated by Part VII of this Executive order, (2) the functions of the President under sections 703 (b) and 710 (a) of the Defense Production Act of 1950, (3) the functions of the President with respect to regulations under sections 710 (b), 710 (c), and 710 (d) of the said Act, and (4) the functions of the President with respect to fixing compensation under section 703 (a) of the said Act.

(d) The functions conferred upon the President by section 710 (a) of the Defense Production Act of 1950 are hereby delegated as follows:

(1) Each officer or agency having functions under the said Act delegated or assigned to such officer or agency by this Executive order shall submit to the Chairman of the United States Civil Service Commission such requests for classification of positions in grades 16, 17, and 18 of the General Schedule as may be necessary, and shall accompany any such request with a certificate stating that the duties of the position are essential and appropriate for the administration of the said Act.

(2) Each requested position shall be placed in the appropriate grade of the General Schedule in accordance with the standards and procedures of the Classification Act of 1949. No person shall be employed in a position of grade 16, 17, or 18 under authority of section 710 (a) of the Defense Production Act of 1950 except pursuant to notice of the Chairman of the United States Civil Service Commission of the classification of the position.

SEC. 903. All agencies of the Government (including departments, establishments, and corporations) shall furnish to each officer to whom functions are delegated or assigned by this Executive order such information relating to de-

fense production or procurement, or otherwise relating to the functions delegated or assigned to such officer by this Executive order, as he may deem necessary.

SEC. 904. Each delegate referred to in section 101 of this Executive order shall, when and if he shall deem it necessary and appropriate, appoint a committee composed of representatives of such agencies of the Government as he may determine. Any committee so appointed shall advise and consult with the delegate concerned, as he may request, in connection with the carrying out of the functions delegated to him by sections 101, 201, and 302 of this Executive order, and shall advise the delegate concerned regarding requirements of materials and facilities.

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter III—Foreign and Territorial Compensation

Subchapter C—Civil Service Commission

PART 350—TERRITORIAL POST DIFFERENTIALS AND TERRITORIAL COST-OF-LIVING ALLOWANCES

COVERAGE AND EXCLUSION OF CERTAIN EMPLOYEES

Sections 350.2 and 350.3 are amended to read as follows:

§ 350.2 *Employees and agencies covered.* Section 207 of the act, part II of Executive Order 10000, and the regulations in this part apply to civilian employees of the United States Government whose rates of basic compensation are fixed by statute. They do not apply to employees in the Panama Canal Zone whose rates of basic compensation are fixed by statute, or to any other such groups of employees for whom additional compensation or salary differentials for service outside the continental United States or in Alaska are otherwise specifically authorized by law. Subject to the provisions of section 207 of the act, part II of Executive Order 10000, and the regulations in this part, every executive department, independent establishment, and wholly owned Government corporation shall pay (a) a territorial post differential to each of its employees whose rate of basic compensation is fixed by statute, who is located at a place for which a territorial post differential has been established, and who is otherwise eligible to receive such payments, and (b) a territorial cost-of-living allowance to each of its employees whose rate of basic compensation is fixed by statute, who is located at a place for which a territorial cost-of-living allowance has been established, and who is otherwise eligible to receive such payments.

§ 350.3 *Exclusion of certain employees.* No territorial post differential or territorial cost-of-living allowance shall be paid to Governors of territories as defined in the regulations in this part; to foreign service officers and foreign service reserve officers under the Department of State; or, during the period of his contract, to any employee serving under a contract, as defined in § 350.1 (h), on the effective date of the regulations in this part. Any employee serving under a contract shall be compensated according to the terms of such contract for the period thereof.

(Sec. 202, Part II, E. O. 10000, Sept. 16, 1948, 13 F. R. 5453; 3 CFR, 1948 Supp.)

Effective: August 15, 1950.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] L. A. MOYER,
Executive Director.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine, Department of Agriculture

[B. E. P. Q. 542, Rev.]

PART 319—FOREIGN QUARANTINE NOTICES

SUBPART—FRUITS AND VEGETABLES

ADMINISTRATIVE INSTRUCTIONS PRESCRIBING METHOD OF TREATMENT OF ORANGES, GRAPEFRUIT, AND MANILA MANGOES FROM MEXICO

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by § 319.56–2 of the regulations supplemental to the Fruit and Vegetable Quarantine (Notice of Quarantine No. 56, 7 CFR 319.56), the following administrative instructions are hereby issued to prescribe method of treatment which will meet the treatment requirements imposed under § 319.56–2 as a condition of the issuance of permits for the importation from Mexico of commercially-sound oranges, grapefruit, and Manila mangoes.

§ 319.56–2g *Administrative instructions prescribing method of treatment of oranges, grapefruit, and manila mangoes from Mexico*—(a) *Conditions for issuance of permits.* (1) Either of the approved vapor-heat schedules of treatment specified in paragraph (b) of this section will meet the treatment requirements imposed under § 319.56–2 as a condition of the issuance of permits for the importation from Mexico of commercially-sound oranges, free of leaves and other plant debris.

(2) The approved vapor-heat schedule of treatment specified in paragraph (b) (1) of this section will meet the treatment requirements imposed under § 319.56–2 as a condition of the issuance of permits for the importation from Mexico of commercially-sound grapefruit and Manila mangoes, free of leaves and other plant debris.

(3) The treatment must be conducted in a heat-treating room approved by the Bureau of Entomology and Plant Quarantine and must be conducted under the supervision of an inspector of that Bureau, who at all times shall have access to such fruits while they are undergoing treatment.

(4) The Bureau will approve only those rooms which are properly constructed and adequately equipped to handle and treat such fruits, at locations acceptable to the inspector in areas where required supervision can be furnished. No treating plant will hereafter be approved until it is equipped with a self-recording temperature and humidity indicator acceptable to the inspector.

(5) All handling in Mexico subsequent to treatment of such fruits intended for shipment to the United States must be carried out to meet requirements satisfactory to the inspector and under such supervision as he may deem necessary.

(6) All costs of construction, equipping, maintaining and operation of treating rooms and those associated with prescribed post-treatment safeguards shall be borne by the owner of such fruits, or his representative.

(7) Supervision at places contiguous to ports of entry where inspectors are regularly stationed will be furnished without cost to the owner of the fruit, or his representative.

(8) In cases where treating rooms may be located in the interior of Mexico, or at places removed from ports of entry where inspectors are regularly stationed, those in interest must make advance arrangements for approval of the plant and for supervision, and furnish the Chief of the Bureau of Entomology and Plant Quarantine with acceptable assurance that they will provide transportation and per diem for the supervising inspectors without cost to the United States Department of Agriculture.

(9) In the tests and experiments so far conducted with the approved treating schedules such fruits have not been injured. It is, however, emphasized that inexactness and carelessness in using the approved schedules for vapor-heat treatment may result in injury to the fruit treated. In authorizing the use of the treatment specified in paragraph (b) of this section, the United States Department of Agriculture does not accept responsibility for fruit injury.

(b) *Vapor-heat method of treatment and approved schedules.* In approved vapor-heat treatment the fruit is heated by saturated vapor at 110° F. which in condensing on the fruit gives up its latent heat. This latent heat is essential in assuring mortality of eggs and larvae of the fruitflies known to occur in Mexico and in raising the temperature of the fruit evenly and quickly so as to prevent damage to the fruit. In practice in such treatments the saturated vapor is accompanied by a fine water mist and air admixture. The fruit is cooled immediately after treatment, and no wax or paraffin, either dry or in solution, is used until after the treatment has been completed. Vapor-heat treatment is approved only if the vapor conditions within the heat-treating room, the manner of stacking the field boxes containing the fruit in the room, and all other conditions affecting the efficacy of the treatment are satisfactory, in the opinion of the supervising inspector, to assure mortality of eggs and larvae of the fruitflies known to occur in Mexico. The following schedules of vapor-heat treatment, when conducted in accordance with the principles stated above in this paragraph and in paragraph (a) of this section, are approved:

(1) The temperature of the fruit shall be raised to 110° F., at the approximate center of the fruit, in a period of 8 hours and shall be held at that level during the following 6 hours. This method is adapted to sterilization plants that do not have the capacity to increase the temperature of the fruit steeply at the beginning of the treating period.

(2) The temperature of the fruit shall be raised to 110° F., at the approximate center of the fruit, in a period of 6 hours and shall be held at that level during the following 4 hours. The temperature of the fruit must be raised rapidly during the first 2 hours, after which it may be gradually raised to 110° F. in the following 4 hours.

These administrative instructions shall be effective the 12th day of September 1950 and at that time shall supersede B. E. P. Q. No. 542, effective September 4, 1945 (7 CFR 319.56–2g).

The foregoing administrative instructions merely restate a method of treatment previously approved in administrative instructions now in effect and further authorize a new alternative schedule for use of vapor-heat for treatment of oranges which shortens the period of treatment and thereby provides a less burdensome means than the one presently authorized by which Mexican shippers of oranges may qualify their fruit for importation. Accordingly the foregoing administrative instructions relieve restrictions now in effect. Research has disclosed moreover that this new alternative schedule of treatment for oranges may be used without increasing the risk of spread of injurious insects. In order to be of maximum benefit to such shippers, such new alternative method should be made available as soon as possible. Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and public procedure on the foregoing administrative instructions are unnecessary, impracticable, and contrary to the public interest, and since these instructions relieve restrictions they may properly be made effective under said section 4 less than thirty days after their publication in the FEDERAL REGISTER.

(Sec. 3, 33 Stat. 1270, sec. 9, 37 Stat. 318; 7 U. S. C. 143, 162)

Done at Washington, D. C., this 30th day of August 1950.

AVERY S. HOYT,
[SEAL] *Chief, Bureau of Entomology and Plant Quarantine.*

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM

SUBPART—1951

The need for conserving the agricultural resources of our Nation has received increasing recognition in recent years from agricultural leaders, farmers, State and national legislative bodies, and the general public. There has also been increasing recognition that it is not the responsibility of farmers alone to conserve our agricultural resources—that the conservation of our agricultural resources is so vital to the general welfare of the people, and is a problem of such magnitude, that it merits the support of the entire Nation.

The Department of Agriculture is engaged in conservation activities of several types. These include research with respect to the causes, effects, and prevention of wind and water erosion, the dissemination of information on conservation developments, and technical and financial assistance in the performance of conservation measures. The Agricultural Conservation Program is an essential part of the whole conservation program of the Department. It has proved to be one of the most effective ways of bringing about increased performance of approved soil and water conservation measures on the Nation's farms and accelerated application on those farms of the methods, recommendations, and practices developed under the research and other conservation activities of the Department.

The Agricultural Conservation Program operates as a Government-farmer partnership for the benefit of the general public and the farmer. All of the Nation's farmers are eligible to participate in the program. Through the program the Federal Government bears a part of the cost of needed soil and water conservation practices which otherwise would not be carried out to the desired extent. The farmers bear the greater portion of the cost of the practices carried out under the program and, in addition, bear the full cost of other conservation measures.

The Agricultural Conservation Program is administered locally by State, county, and community Production and Marketing Administration committees. The county and community committees are elected by the farmers of their respective counties and communities. The State committee is also a farmer committee, its members being appointed by the Secretary of Agriculture. These farmer committees, with the advice of technical committees composed of representatives of Federal, State, and local agricultural agencies, select and develop the conservation practices which make up the State and county programs. These farmer committees also determine in a large degree the manner and extent to which the Agricultural Conservation Program applies to individual farms, and they have the responsibility of administering the program in the interest of the entire Nation and in such a manner as to obtain the greatest possible conservation with available funds.

Assistance will be given to farmers carrying out conservation practices under the 1951 Agricultural Conservation Program (referred to in this subpart as the 1951 program) in accordance with the provisions contained herein and such modifications thereof as may hereafter be made. The provisions of this program contained herein are applicable to the continental United States.

DISTRIBUTION AND CONTROL OF FUNDS

Sec.
701.201 State funds.
701.202 Control of funds.
701.203 Adjustments.

BASIS FOR APPROVAL OF PRACTICES, ADAPTATION OF PRACTICES AND RATES OF ASSISTANCE, SPECIAL PRACTICES, POOLING AGREEMENTS, COMPLIANCE WITH REGULATORY MEASURES, AND STATE OR FEDERAL AID

701.204 Basis for approval of practices.
701.205 Adaptation of practices and rates of assistance.
701.206 Special practices.
701.207 Pooling agreements.
701.208 Compliance with regulatory measures.
701.209 Practices carried out with State or Federal aid.

CONSERVATION PRACTICES AND MAXIMUM RATES OF ASSISTANCE

701.210 Conservation practices and maximum rates of assistance.

Practices to Protect Soil from Wind and Water Erosion

701.211 Practice A–1: Constructing terraces to control the flow of water on sloping land.
701.212 Practice A–2: Constructing diversion terraces or ditches to collect or divert excess water.
701.213 Practice A–3: Restoring severely eroded farm land to productive use.
701.214 Practice A–4: Establishing permanant sod waterways to dispose of excess water without causing erosion.
701.215 Practice A–5: Constructing outlets for water channels or building flumes or chutes to dispose of water without gullying.
701.216 Practice A–6: Constructing erosion control dams or wire diversions to prevent or heal the gullying of farm land and to reduce run-off of water.
701.217 Practice A–7: Constructing permanent riprap.
701.218 Practice A–8: Farming on the contour to protect against washing or blowing of soil, to reduce run-off, and to conserve water.

Sec.
701.219 Practice A–9: Cross-slope farming to protect against washing and blowing of soil and to reduce run-off of water in areas where contouring is impracticable.
701.220 Practice A–10: Field strip cropping to protect soil from wind or water erosion.
701.221 Practice A–11: Managing crop residues to protect soil from wind or water erosion.
701.222 Practice A–12: Bringing adequate amounts of clod-forming subsoil to the surface on sandy cropland subject to wind erosion to protect soil from blowing.
701.223 Practice A–13: Establishing a cover of adapted biennial and perennial legumes and grasses in orchards and vineyards to protect against erosion.
701.224 Practice A–14: Establishing a permanent cover of kudzu, perennial lespedeza, perennial grasses, or a mixture of legumes and perennial grasses, on steep slopes or in waterways, or on land so subject to erosion that it should be retired from cultivation.
701.225 Practice A–15: Mulching to control wind erosion or in connection with tree planting on blow land.
701.226 Practice A–16: Stream or shore control to prevent erosion or flood damage to farm land.

Practices To Develop Cropping Systems That Protect the Soil and Restore, Improve, and Maintain Soil Productivity

701.230 Practice B–1: Growing adapted green manure or cover crops for soil protection and improvement.
701.231 Practice B–3: Establishing or improving permanent pasture by seeding, sodding, or sprigging adapted legumes and grasses or other adapted forage plants.
701.232 Practice B–4: Increasing the total farm acreage of biennial and perennial legumes and perennial grasses, or mixtures of these legumes and grasses.
701.233 Practice B–5: Applying mineral elements to make possible the establishment and adequate growth of soil-conserving crops.
701.234 Practice B–6: Clearing land for permanent pasture or for biennial or perennial legumes or perennial grasses needed for a better soil conserving cropping system.
701.235 Practice B–7: Mulching for soil improvement and maintenance purposes.
701.236 Practice B–8: Controlling perennial weeds as a necessary step in soil or water conservation.
701.237 Practice B–9: Constructing permanent fences to permit establishment of permanent vegetative cover.

Practices To Restore and Maintain Range and Permanent Pasture

701.241 Practice C–1: Improving and maintaining a desirable vegetative cover on range land.
701.242 Practice C–2: Livestock water development to obtain proper distribution of livestock and prevent overgrazing.
701.243 Practice C–3: Constructing stock trails through rock or similar natural barriers to obtain better distribution of grazing.
701.244 Practice C–4: Constructing or maintaining fireguards to protect grazing land.
701.245 Practice C–5: Constructing permanent fences to obtain better distribution of grazing, thereby preventing overgrazing.
701.246 Practice C–6: Managing pastures, other than range, to obtain better cover.

Practices To Conserve and Obtain Efficient Use of Agricultural Water

701.249 Practice D–1: Subsoiling to permit better penetration of water.
701.250 Practice D–2: Furrowing, chiseling, ripping, scarifying, or listing non-crop grazing land to retard run-off and improve water penetration.
701.251 Practice D–3: Constructing spreader ditches or dikes to collect or spread water.
701.252 Practice D–4: Reorganizing farm irrigation systems to conserve water and prevent erosion.
701.253 Practice D–5: Leveling land for more efficient use of irrigation water or to prevent erosion.
701.254 Practice D–6: Constructing or enlarging dams for irrigation water.
701.255 Practice D–7: Lining earthen reservoirs for irrigation water.

Drainage Practices To Permit Land-Use Adjustments Needed in Establishing Soil Conserving Cropping Systems or To Permit Other Measures Required To Conserve Soil and Water Resources

701.259 Practice E–1: Installing or improving drainage systems.

Practices To Establish, Restore, and Maintain Farm Woodland

701.262 Practice F–1: Planting forest trees and shrubs on farm land for forestry purposes, windbreaks, and for erosion control.
701.263 Practice F–2: Improving a stand of forest trees.
701.264 Practice F–3: Maintaining a stand of trees and shrubs in windbreaks.
701.265 Practice F–4: Constructing firebreaks or fire lanes.
701.266 Practice F–5: Constructing permanent fences to protect farm woodlots from grazing.

Practices to Meet Special Conservation Needs

701.269 Practice G–1: Special conservation practices.

PAYMENTS

701.272 Division of payments.
701.273 Increase in small payments.
701.274 Payments limited to $2,500.

CONSERVATION MATERIALS AND SERVICES

701.275 Availability.
701.276 Cost to producer in cash.
701.277 Deduction.

GENERAL PROVISIONS RELATING TO PAYMENT

701.279 Breaking out permanent vegetative cover.
701.280 Failure to maintain practices under previous programs.
701.281 Practices defeating purposes of programs.
701.282 Depriving others of payment.
701.283 Failure to carry out approval erosion-control measures.
701.284 Filing of false claims.
701.285 Misuse of purchase orders.
701.286 Payment computed and made without regard to claims.
701.287 Assignments.
701.288 Excess cotton acreage.

APPLICATION FOR PAYMENT

701.291 Persons eligible to file application.
701.292 Time and manner of filing applications and information required.

APPEALS

Sec.
701.293 Appeals.

STATE HANDBOOKS, BULLETINS, INSTRUCTIONS, AND FORMS

701.294 State handbooks, bulletins, instructions, and forms.

DEFINITIONS

701.295 Definitions.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

701.296 Authority.
701.297 Availability of funds.
701.298 Applicability.

AUTHORITY: §§ 701.201 to 701.298 issued under sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended; 16 U. S. C. 590g–590q.

DISTRIBUTION AND CONTROL OF FUNDS

§ 701.201 *State funds.* Funds available for conservation practices will be distributed among States on the basis of their conservation needs, but the proportion allocated to any State shall not be reduced more than 15 percent from its proportionate 1950 distribution.

§ 701.202 *Control of funds.* The State committee will allocate the funds available for conservation practices among the counties within the State. The county committee, in accordance with the method approved by the State committee, will determine the amount of assistance to be made available to each farm, taking into consideration the county allocation and the conservation needs of the county and of the individual farms.

§ 701.203 *Adjustments.* If, in any State, the total estimated earnings under the program exceed the total funds available for assistance, assistance will be reduced equitably.

BASIS FOR APPROVAL OF PRACTICES, ADAPTATION OF PRACTICES AND RATES OF ASSISTANCE, SPECIAL PRACTICES, POOLING AGREEMENTS, COMPLIANCE WITH REGULATORY MEASURES, AND STATE OR FEDERAL AID

§ 701.204 *Basis for approval of practices.* Practices to be approved will include only those which maintain or increase soil fertility, control and prevent soil erosion caused by wind or water, encourage conservation and better agricultural use of water, conserve and increase range and pasture forage, or conserve and improve farm woodland. The practices to be approved for any State or area will be those best adapted to achieve sound soil and water conservation and use, which will not be carried out in desired volume on the basis of relative conservation needs unless assistance is given therefor. Except as provided in §§ 701.205 and 701.206, the conservation practices for which assistance will be given in any State or area, and the rates of assistance for such practices, will be those recommended by the State committee and approved by the Agricultural Conservation Programs Branch, Production and Marketing Administration (referred to in this subpart as the ACP Branch), within the limitations specified in this subpart.

§ 701.205 *Adaptation of practices and rates of assistance.* In order to encourage the performance of practices which are needed most on all farms or on groups of farms in a county, the county committee, with the approval of the State committee, may designate from the practices approved for the State or area those practices which will be applicable on all farms or designated groups of farms in the county, and may approve rates of assistance lower than the rates of assistance approved for general use in the State or area. For recurring practices, the State committee may authorize the county committee to approve rates of assistance for individual farms lower than the rates of assistance approved for general use in the county or area, on the basis of the experience of the producer in performing the practices. The State commmittee, upon recommendation of the county committee and concurrence of the ACP Branch, may approve a rate of assistance for one practice in a county higher than the maximum rate specified for such practice in this subpart: *Provided*, That the increased rate of assistance is needed to introduce a new conservation practice into the county, or to bring about a needed increase in the extent to which a practice otherwise would be carried out.

§ 701.206 *Special practices.* To permit further local adaptation of the program to the conservation needs of the county, the county committee may recommend, and the State committee with the concurrence of the ACP Branch may approve, practices for the county from the practices included in this subpart which are not included in the list of practices approved for the State.

§ 701.207 *Pooling agreements.* Producers in any local area may agree in writing, with the approval of the county and State committees, to perform designated amounts of practices which the State committee determines are necessary to conserve or improve the agricultural resources of the community. For purposes of payment, practices carried out under such an approved written agreement will be regarded as having been carried out on the farms of the producers who performed the practices.

§ 701.208 *Compliance with regulatory measures.* Producers who carry out conservation practices for assistance under the 1951 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance of the practices in keeping with applicable laws. The producer who receives assistance for the practice shall be responsible to the Federal Government for any losses it may sustain because the producer infringes on the rights of others, or fails to comply with applicable laws.

§ 701.209 *Practices carried out with State or Federal aid.* The assistance for any practice shall not be reduced because it is carried out with materials or services furnished by the ACP Branch or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total assistance for any practice performed shall be reduced for purposes of payment by the value of the aid, as determined by the county committee. Materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

CONSERVATION PRACTICES AND MAXIMUM RATES OF ASSISTANCE

§ 701.210 *Conservation practices and maximum rates of assistance.* (a) This subpart contains a general description of the conservation practices of the 1951 program, and the maximum rates of assistance for the practices. Prior approval of the county committee is required for the practices contained in §§ 701.211–701.217, 701.218 (b), 701.222, 701.226, 701.234, 701.236, 701.237, 701.241 (a), (b), (e), 701.242–701.246, 701.249 (c), 701.251–701.255, 701.259, 701.263–701.266. Prior approval, where required, must be given before the practice is performed, and shall include a determination that the practice is needed on the farm and, where applicable, location, types of materials, species, types and kinds of seeds, planting or seeding dates, designated types or methods of construction, and other similar information which will insure proper performance of the practice.

(b) Information with respect to the several practices for which assistance will be given when carried out on a particular farm, and the exact specifications and rates of assistance for such practices, may be obtained from the county committee for the county in which the farm is located, or from the State committee (11 F. R. 177A–285). The average cost as specified under the maximum assistance for certain practices in this subpart may be the average cost for a State, a county, a part of a county, or a farm, as determined by the State committee.

Practices To Protect Soil From Wind and Water Erosion

§ 701.211 *Practice A–1: Constructing terraces to control the flow of water on sloping land.* Necessary outlets or waterways must be provided.

Maximum assistance. 70 percent of the average cost of construction of the terraces.

§ 701.212 *Practice A–2: Constructing diversion terraces or ditches to collect or divert excess water.*

Maximum assistance. 70 percent of the average cost of earth moving, but not in excess of $0.12 per cubic yard of earth moved.

§ 701.213 *Practice A–3: Restoring severely eroded farm land to productive use.* Land on which this practice is carried out must be established in permanent protective cover during the 1951 program year. This practice is not applicable to land on which strip or placer mining operations have been carried out.

Maximum assistance. 50 percent of the average cost of grading, leveling, shaping, or filling.

§ 701.214 *Practice A–4: Establishing permanent sod waterways to dispose of excess water without causing erosion.* Applicable only to waterways established in 1951, unless the county committee determines that an old waterway needs reshaping and reseeding or resodding.

Maximum assistance. (1) 80 percent of the cost of seeding or sodding, but not in excess of $0.75 per 1,000 square feet.

(2) 70 percent of the average cost of moving earth with dirt-moving equipment in shaping and filling.

§ 701.215 *Practice A–5: Constructing outlets for water channels or building flumes or chutes to dispose of water without gullying.*

Maximum assistance. (1) 50 percent of the average cost of material used, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

(2) $0.50 per square yard of exposed surface of log dams.

(3) $0.50 per square yard of exposed surface of wire-bound mulch.

(4) $0.15 per square yard of exposed surface of wire dams.

§ 701.216 *Practice A–6: Constructing erosion control dams or wire diversions to prevent or heal the gullying of farm land and to reduce run-off of water.*

Maximum assistance. (1) 70 percent of the average cost of moving earth in the construction of dams, wings, and walls, but not in excess of $0.12 per cubic yard of earth moved.

(2) 50 percent of the average cost of concrete or rubble masonry used, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

(3) 50 percent of the average cost of pipe.

(4) $1.50 per cubic yard of rock used, for rock or rock and brush dams.

(5) 50 percent of the average cost of wire diversions.

§ 701.217 *Practice A–7: Constructing permanent riprap.* Applicable only along stream banks, in gullies, on the face of dams, or in water courses, for controlling erosion. The types of materials must be specified in the State handbook.

Maximum assistance. (1) 50 percent of the average cost, but not in excess of $1 per square yard of exposed riprap surface, or

(2) 50 percent of the average cost, but not in excess of $1.50 per cubic yard of riprap material.

§ 701.218 *Practice A–8: Farming on the contour to protect against washing or blowing of soil, to reduce run-off, and to conserve water*—(a) *Practice A–8–a: Establishing contour strip cropping.* The types of eligible protected and protective crops and uses must be designated. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops. No assistance will be given under this practice for any acreage for which assistance was given for establishing contour or cross-slope strip cropping under a previous program, or for which assistance is given under paragraph (c) or (d) of this section.

Maximum assistance. $4 per acre.

(b) *Practice A–8–b: Removing stone walls and hedgerows to permit terracing, contour farming, or cross-slope farming.*

Maximum assistance. 50 percent of the cost of removal as determined by the county

committee, but not in excess of $5 per square rod of surface occupied by the stone wall or hedgerow before removal.

(c) *Practice A–8–c: Contour farming row crops.* The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out.

Maximum assistance. (1) $1.50 per acre where all cultural operations are on the contour.

(2) $1 per acre where only the planting and cultivating are on the contour.

(d) *Practice A–8–d: Contour farming drilled or close-sown crops.*

Maximum assistance. (1) $0.75 per acre where all cultural operations are on the contour.

(2) $0.50 per acre where only the seeding operation is on the contour.

(e) *Practice A–8–e: Contour listing, contour chiseling, basin listing, pit cultivation, or emergency listing at right angles to prevailing winds, and other approved tillage operations to control wind or water erosion, when not a part of a seeding operation.*

Maximum assistance. (1) $0.60 per acre when used to protect summer-fallowed land.

(2) $0.30 per acre on other cropland.

(f) *Practice A–8–f: Planting orchards and vineyards on the contour.*

Maximum assistance. $7.50 per acre.

§ 701.219 *Practice A–9: Cross-slope farming to protect against washing and blowing of soil and to reduce run-off of water in areas where contouring is impracticable*—(a) *Practice A–9–a: Establishing cross-slope strip cropping.* Contour lines must be established and all cultural operations performed as nearly as practicable on the contour. The types of eligible protected and protective crops and uses must be designated. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops. No assistance will be given under this practice for any acreage for which assistance was given for establishing contour or cross-slope strip cropping under a previous program, or for which assistance is given under paragraph (b) or (c) of this section.

Maximum assistance. $3 per acre.

(b) *Practice A–9–b: Cross-slope farming row crops.* Contour lines must be established and all cultural operations performed as nearly as practicable on the contour. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out.

Maximum assistance. $1 per acre.

(c) *Practice A–9–c: Cross-slope farming drilled or close-sown crops.* Contour lines must be established and all cultural operations performed as nearly as practicable on the contour.

Maximum assistance. $0.35 per acre.

§ 701.220 *Practice A–10: Field strip cropping to protect soil from wind or water erosion.* The maximum and minimum widths of the strips and the types of eligible protected and protective crops and uses must be designated. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops.

Maximum assistance. (1) $0.50 per acre for systems with strips in excess of 10 rods in width.

(2) $0.75 per acre for systems with strips not in excess of 10 rods in width.

§ 701.221 *Practice A–11: Managing crop residues to protect soil from wind or water erosion*—(a) *Practice A–11–a: Crop residue management.* Performing tillage operations which will partially incorporate a heavy growth of stubble or straw into the surface soil to prevent erosion. No assistance will be given if the acreage has been burned over or the straw removed.

Maximum assistance. (1) $1 per acre when used to protect summer-fallowed land.

(2) $0.60 per acre on other cropland.

(b) *Practice A–11–b: Leaving stalks of sorghum, Sudan grass, millet, or broomcorn as a protection against wind erosion.* The stalks must be left on the land until spring farming operations are begun. No grazing is permitted. The stalks on broadcast or close-drilled crops must be left at least 8 inches high and at least 10 inches high on wide-drilled or row crops. Applicable only in wind-erosion areas approved by the State committee and included in the State handbook.

Maximum assistance. $0.35 per acre.

§ 701.222 *Practice A–12: Bringing adequate amounts of clod-forming subsoil to the surface on sandy cropland subject to wind erosion to protect soil from blowing.* The heavier subsoil must be brought to the surface. Applicable only in wind-erosion areas designated by the State committee and included in the State handbook. No assistance will be given on any acreage for which assistance was given for this practice under any previous program.

Maximum assistance. (1) $1.50 per acre for plowing 12 inches but less than 15 inches deep.

(2) $2 per acre for plowing 15 inches but less than 18 inches deep.

(3) $3 per acre for plowing 18 inches or deeper.

§ 701.223 *Practice A–13: Establishing a cover of adapted biennial and perennial legumes and grasses in orchards and vineyards to protect against erosion.* Volunteer stands and any acreage cut for hay are not eligible. Approved kinds of cover must be designated in the State handbook.

Maximum assistance. 70 percent of the average cost of seed.

§ 701.224 *Practice A–14: Establishing a permanent cover of kudzu, perennial lespedeza, perennial grasses, or a mixture of legumes and perennial grasses, on steep slopes or in waterways, or on land so subject to erosion that it should be retired from cultivation.*

Maximum assistance. (1) 80 percent of the average cost of seed, or

(2) 60 percent of the average cost (other than land preparation) of sodding, crowning, or sprigging.

§ 701.225 *Practice A–15: Mulching to control wind erosion or in connection with tree planting on blow land.* Only straw, hay, or cotton burs are eligible for assistance. The types of materials must be specified in the State handbook and cannot include manure.

Maximum assistance. $1 per ton of material used.

§ 701.226 *Practice A–16: Stream or shore control to prevent erosion or flood damage to farm land.* Channel clearance or levee construction under this practice is limited to small water courses.

Maximum assistance. 50 percent of the cost of the clearing, shaping, and protective operations, as determined by the county committee.

Practices To Develop Cropping Systems That Protect the Soil and Restore, Improve, and Maintain Soil Productivity

§ 701.230 *Practice B–1: Growing adapted green manure or cover crops for soil protection and improvement.* Pasturing consistent with good management is permitted. Volunteer stands are not eligible for assistance.

(a) *Practice B–1–a: Winter annual legumes or annual ryegrass.* The practice must be carried out in keeping with technical specifications approved by the State committee and included in the State handbook, or a good stand and good growth must be obtained.

Maximum assistance. 70 percent of the average cost of seed.

(b) *Practice B–1–b: Summer annual legumes.* A good stand and good growth must be obtained and left on the land or turned under. Vegetable and truck crops for sale, soybeans or mung beans for seed or oil, all peanuts, and seedings interplanted with row crops are not eligible for assistance.

Maximum assistance. 70 percent of the average cost of seed.

(c) *Practice B–1–c: Adapted nonlegumes.* A good stand and good growth must be obtained and left on the land or turned under. Small grains and any acreage harvested for seed or hay are not eligible for assistance.

Maximum assistance. 70 percent of the average cost of seed.

(d) *Practice B–1–d: Small grains.* A good stand and good growth must be obtained and left on the land or turned under. Acreages harvested for hay or grain are not eligible for assistance.

Maximum assistance. (1) $2.50 per acre for rye or wheat.

(2) $1.50 per acre for oats, millet, barley, or buckwheat.

(e) *Practice B–1–e: Red clover, alsike clover, sweetclover, or alfalfa used for green manure.* A good stand and good growth must be turned under. Assistance for alfalfa is limited to first- or second-year alfalfa from which no hay, seed, or pasture is taken in 1951. No assistance will be given for turning under as green manure any crop established with program assistance.

Maximum assistance. $1.50 per acre.

§ 701.231 *Practice B–3: Establishing or improving permanent pasture by seeding, sodding, or sprigging adapted legumes and grasses or other adapted forage plants.* Where rates of assistance are determined on an acre basis, the recommended seeding rates, kinds of seeds, and proportions of seeds in a mixture must be set forth in the State handbook.

Maximum assistance. (1) 80 percent of the average cost of seed, or

(2) 60 percent of the average cost (other than land preparation) of sodding or sprigging.

§ 701.232 *Practice B–4: Increasing the total farm acreage of biennial and perennial legumes and perennial grasses, or mixtures of these legumes and grasses.* Assistance will be given only for the acreage established in excess of the usual acreage of all biennial and perennial legumes and perennial grasses for the farm, as determined by the county committee. The method of determining the usual acreage shall be included in the State handbook. Where rates of assistance are on an acre basis, the recommended seeding rates, kinds of seeds, and proportions of seeds in a mixture must be set forth in the State handbook. Acreages of these grasses and legumes for which assistance for new seedings is given under another 1951 practice may not be considered in determining the increased acreages eligible for assistance under this practice.

Maximum assistance. 80 percent of the average cost of seed.

§ 701.233 *Practice B–5: Applying mineral elements to make possible the establishment and adequate growth of soil-conserving crops*—(a) *Practice B–5–a: Liming materials.*

Maximum assistance. (1) Bulk ground limestone containing at least 80 percent calcium carbonate equivalent:

(a) 55 percent of the average cost on a delivered-to-the-farm basis plus 30 percent of that part of such cost which is in excess of $2 per ton, or

(b) 45 percent of the average cost on a spread-on-the-land basis plus 30 percent of that part of such cost which is in excess of $2 per ton.

(2) The rate for other liming materials may not exceed the lower of:

(a) The rate for an equivalent amount of bulk ground limestone containing at least 80 percent calcium carbonate equivalent, or

(b) The larger of 55 percent of the average cost of the equivalent material on a delivered-to-the-farm basis plus 30 percent of that part of such cost which is in excess of $2 per ton, or 45 percent of the average cost of the equivalent material on a spread-on-the-land basis plus 30 percent of that part of such cost which is in excess of $2 per ton.

(b) *Practice B–5–b: Superphosphate, rock phosphate, colloidal phosphate, potash, or basic slag.* (1) Application of superphosphate, potash, or basic slag must be made at a time so that the eligible crop will receive the principal benefit of the material. Applicable only in connection with the following crops and uses:

(i) Legumes and grasses, excluding small grains (except as provided in subparagraph (ii) of this paragraph), vegetable and truck crops for sale, soybeans or mung beans for seed or oil, all peanuts, Sudan grass, and sorghums.

(ii) Small grains when seeded with eligible grasses or legumes or when overseeded with eligible grass or legumes in the same seeding season, and small grains for green manure or cover crops in orchards.

(iii) Superphosphate alone when added to manure in stables or on dropping boards and applied to the above crops or to any crop on a farm using a rotation in which at least one-half of the cropland is devoted to conserving crops.

(iv) Rock or colloidal phosphate when applied to any cropland which the county committee determines is in or going into a regular rotation that includes legumes (other than vegetable and truck crops for sale, soybeans or mung beans for seed or oil, and all peanuts) or perennial grasses.

(2) Rates of assistance must be established for each of the following materials if included in the State handbook: Normal superphosphate containing 20 percent or less available phosphoric acid (P_2O_5); concentrated superphosphate containing more than 20 percent available phosphoric acid (P_2O_5); rock phosphate; colloidal phosphate; potash; and basic slag. Assistance for mixed fertilizers will be determined on the basis of the rates established for normal superphosphate and potash.

Maximum assistance. (1) Superphosphate, rock phosphate, containing at least 28 percent total phosphoric acid (P_2O_5), potash, or basic slag—60 percent (50 percent under subparagraph (iv) of paragraph (b) (1) of this section) of the average—cost of the straight material at siding, dealer's warehouse, or plant.

(2) For colloidal phosphate or lower grade rock phosphate, the rate may not exceed the lower of:

(a) The rate for an equivalent amount of rock phosphate containing at least 28 percent total phosphoric acid (P_2O_5), or

(b) 60 percent (50 percent under subparagraph (iv) of paragraph (b) (1) of this section) of the average cost of the lower grade material at siding, dealer's warehouse, or plant.

(c) *Practice B–5–c: Minor elements.* Materials used as insecticides are not eligible for assistance. Assistance for boron will be limited to that used in connection with perennial legumes.

Maximum assistance. 60 percent of the average cost at siding, dealer's warehouse, or plant.

§ 701.234 *Practice B–6: Clearing land for permanent pasture or for biennial or perennial legumes or perennial grasses needed for a better soil conserving cropping system.* Eligible legumes or grasses must be established as soon as practicable. Temporary use of the land for other crops may be permitted where the county committee determines this is essential to establishing the eligible legumes or grasses. No assistance will be given for clearing a stand of merchantable timber or pulpwood.

Maximum assistance. 50 percent of the average cost of clearing, but not in excess of $10 per acre cleared.

§ 701.235 *Practice B–7: Mulching for soil improvement and maintenance purposes.* Assistance will be limited to mulching material hauled on the field or area. No assistance will be given for applying mulching material containing manure.

(a) *Practice B–7–a: Applying mulching material to tree fruit orchards or to vineyards.*

Maximum assistance. 60 percent of the average cost of material delivered to the farm, but not in excess of $5 per ton, air-dry weight.

(b) *Practice B–7–b: Applying mulching material to vegetable land.* The material must be incorporated into the soil.

Maximum assistance. 60 percent of the average cost of material delivered to the farm, but not in excess of $5 per ton, air-dry weight.

§ 701.236 *Practice B–8: Controlling perennial weeds as a necessary step in soil or water conservation.* The names of weeds, the conditions under which the practice may be approved, and the measures needed to provide effective control must be designated in the State handbook. No crop may be taken from the land where clean cultivation is used.

Maximum assistance. (1) $7.50 per acre for continuous clean cultivation, except for Johnson grass and quackgrass.

(2) $5 per acre for continuous clean cultivation for Johnson grass and quackgrass.

(3) 50 percent of the average cost of State committee approved chemicals and 50 percent of the average cost of applying the chemicals.

§ 701.237 *Practice B–9: Constructing permanent fences to permit establishment of permanent vegetative cover.* The area fenced must be farm land that is established in 1951 in biennial or perennial legumes or perennial grasses. This practice is applicable only to areas that the county committee determines cannot be properly established in necessary protective cover until fenced for protection against livestock.

Maximum assistance. 50 percent of the average cost of fencing material used.

Practices To Restore and Maintain Range and Permanent Pasture

§ 701.241 *Practice C–1: Improving and maintaining a desirable vegetative cover on range land.*—(a) *Practice C–1–a: Grazing land management to maintain or improve range and watershed condition by performing those practices necessary to secure proper distribution of grazing livestock, or making changes in management or adjustments in use which the county committee determines are necessary to accomplish moderate utilization of the forage crop.* No assistance will be given if the county committee determines that any area of the ranch is overgrazed.

Maximum assistance. The smaller of:

(1) The amount approved by the county committee, or

(2) $50 plus $0.04 per acre of grazing land.

(b) *Practice C–1–b: Natural reseeding of desirable range forage plants by deferred grazing.* Applicable only to seriously depleted areas of range land or to range land from which competitive plants have been removed and deferment of grazing is necessary to natural reestablishment of desirable grass cover. Assistance will not be given on more than

25 percent of the grazing land in the unit nor for any of the deferred area which is cut for hay; except that the State committee, with the approval of the ACP Branch, may waive the percentage limitation for any local area where deferment of a larger percentage is necessary to conserve the range resources. No assistance will be given if the county committee determines that any area of the ranch is overgrazed.

Maximum assistance. $0.25 per acre deferred, except that where the carrying capacity is less than one animal unit for each 30 acres, the rate must be reduced proportionately and set forth in the State handbook.

(c) *Practice C–1–c: Artificial reseeding.* Seeding, sodding, or sprigging adapted perennial grasses, perennial legumes, and other pasture forage plants for range improvement. Where rates of assistance are determined on an acre basis, the recommended seeding rates, kinds of seeds, and proportions of seeds in a mixture must be set forth in the State handbook. No assistance will be given if the county committee determines that the area seeded is overgrazed.

Maximum assistance. (1) 80 percent of the average cost of seed, or

(2) 60 percent of the average cost (other than land preparation of sodding or sprigging.

(d) *Practice C–1–d: Establishing for seed production an increased acreage of perennial range and pasture grasses or pasture legumes.* Eligible grasses and legumes must be designated in the State handbook and be restricted to those not usually grown for commercial seed production or which are grown for commercial seed production only on a very limited scale as compared to the national need. The State handbook must specify the methods of seeding, cultivation, and protection. Assistance will be given only for seedings on acreage in addition to that devoted to seed production of the grass or legume in 1950.

Maximum assistance. 80 percent of the average cost of establishment, excluding fertilization.

(e) *Practice C–1–e: Controlling competitive plants and shrubs on noncropland.* Eligible plants must be designated in the State handbook. No assistance will be given if the county committee determines that the area is overgrazed. The $5 per acre maximum will apply to the total assistance under the 1949, 1950, and 1951 programs for the control or elimination of all competitive plants and shrubs on an area.

Maximum assistance. 50 percent of the average cost, but not in excess of $5 per acre.

§ 701.242 *Practice C–2: Livestock water development to obtain proper distribution of livestock and prevent overgrazing.* The practice will not be approved if the county committee determines that the area to be served by the development is overgrazed.

(a) *Practice C–2–a: Constructing wells for livestock water.* Adequate storage facilities must be provided. Pumping equipment must be installed, except for artesian wells. Assistance will not be given for wells constructed at or for the use of headquarters.

Maximum assistance. (1) $1 per linear foot of well with bore taking casings less than 4 inches in diameter, and all artesian wells.

(2) $2 per linear foot of well with bore taking casings 4 inches but less than 6 inches in diameter.

(3) $3 per linear foot of well with bore taking casings 6 inches or more in diameter.

(b) *Practice C–2–b: Developing springs and seeps for livestock water.*

Maximum assistance. (1) $0.50 per cubic foot of excavation in rock, and

(2) $0.30 per cubic foot of excavation in soil or gravel; or

(3) $0.50 per cubic foot of storage capacity constructed.

(c) *Practice C–2–c: Constructing dams, pits, and ponds for collecting and storing livestock water, including the enlargement of inadequate structures.* No assistance will be given for cleaning or maintaining an existing structure.

Maximum assistance. (1) 70 percent of the average cost of earth moving, but not in excess of $0.12 per cubic yard of material moved.

(2) 50 percent of the average cost of concrete or rubble masonry used, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

(3) 50 percent of the average cost of fencing material, pipe, and seeding or sodding the dam and filter strips.

(d) *Practice C–2–d: Installing pipelines for livestock water.*

Maximum assistance. 50 percent of the average cost of pipe, except that the assistance for pipe in excess of 2 inches in diameter may not exceed the assistance which may be given for 2-inch pipe.

(e) *Practice C–2–e: Constructing supplemental new large water storage at wells and springs for livestock water.* No assistance will be given under this practice in connection with a spring or well for which assistance was given under the 1951 or previous programs, unless the minimum storage required as a condition of payment for the spring or well has been installed and maintained.

Maximum assistance. 50 percent of the average cost of material used, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

(f) *Practice C–2–f: Lining earthen reservoirs for livestock water.*

Maximum assistance. 50 percent of the average cost of approved material used, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

§ 701.243 *Practice C–3: Constructing stock trails through rock or similar natural barriers to obtain better distribution of grazing.* No assistance will be given if the county committee determines that the grazing area thus made available is overgrazed.

Maximum assistance. 50 percent of the average cost of construction.

§ 701.244 *Practice C–4: Constructing or maintaining fireguards to protect grazing land.* The fireguards must have a minimum width of 10 feet.

Maximum assistance. $1.20 per 1,000 linear feet.

§ 701.245 *Practice C–5: Constructing permanent fences to obtain better distribution of grazing, thereby preventing overgrazing.* No assistance will be given for maintaining existing fences.

Maximum assistance. 50 percent of the average cost of fencing material used.

§ 701.246 *Practice C–6: Managing pastures, other than range, to obtain better cover.* Applicable only to farms or ranches having not more than 160 acres of pasture or range land. The methods of management must be included in the State handbook. No assistance will be given under this practice on any farm or ranch for which assistance is given under the practice contained in § 701.241 (a) or (b).

Maximum assistance. 50 percent of the cost of supplemental improvements specified in the State handbook, but not in excess of $100.

Practices To Conserve and Obtain Efficient Use of Agricultural Water

§ 701.249 *Practice D–1: Subsoiling to permit better penetration of water.*

(a) *Practice D–1–a: Subsoiling to a depth which will effectively shatter the hardpan or plow sole.* No assistance will be given on any acreage for which assistance was given for this practice under any previous program.

Maximum assistance. (1) $2.25 per acre for intervals up to 4 feet.

(2) $1.50 per acre for intervals over 4 feet but not over 7 feet.

(b) *Practice D–1–b: Rotary subsoiling.*

Maximum assistance. $0.25 per acre.

(c) *Practice D–1–c: Deep plowing.* This practice is applicable only where needed to improve water penetration on irrigated cropland.

Maximum assistance. 50 percent of the cost, but not in excess of $5 per acre for plowing 24 inches or deeper.

§ 701.250 *Practice D–2: Furrowing, chiseling, ripping, scarifying, or listing noncrop grazing land to retard run-off and improve water penetration.* The operations must be as nearly as practicable on the contour.

Maximum assistance. $0.25 per 1,000 linear feet.

§ 701.251 *Practice D–3: Constructing spreader ditches or dikes to collect or spread water.*

Maximum assistance. 70 percent of the average cost of earth moving, but not in excess of $0.12 per cubic yard of earth moved.

§ 701.252 *Practice D–4: Reorganizing farm irrigation systems to conserve water and prevent erosion.* The reorganization must be carried out in accordance with a written plan approved by the county committee.

Maximum assistance. (1) 70 percent of the average cost, but not in excess of $0.12 per cubic yard of earth or gravel moved, or $1.50 per cubic yard of rock moved, in the construction or enlargement of permanent ditches, dikes, or laterals. No assistance will be given for cleaning a ditch.

(2) 50 percent of the average cost of approved material used in lining ditches or reservoirs, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

(3) 50 percent of the average cost of material used in constructing or installing siphons, flumes, drop boxes or chutes, weirs, diversion gates, and pipe, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry. No assistance will be given for repairs or replacements of existing structures.

(4) 50 percent of the average cost of pipe used in the installation of permanently located main lines and standpipes for overhead irrigation. No assistance will be given for repairs or replacements of existing structures, or for the installation of laterals.

§ 701.253 *Practice D–5: Leveling land for more efficient use of irrigation water or to prevent erosion.* No assistance will be given for floating or for carrying out this practice on any land for which assistance for leveling, other than by benchland plowing, was given under a previous program. Not applicable in connection with any land for which water is not available.

Maximum assistance. 50 percent of the average cost of earth moving, but not in excess of the maximum amount per acre specified in the State handbook.

§ 701.254 *Practice D–6: Constructing or enlarging dams for irrigation water.* No assistance will be given for material moved in cleaning or maintaining a reservoir. No assistance will be given for repairs or maintenance of existing structures.

Maximum assistance. (1) 70 percent of the average cost of earth moving, but not in excess of $0.12 per cubic yard of material moved.

(2) 50 percent of the average cost of concrete or rubble masonry used, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

(3) 50 percent of the average cost of pipe and outlet gates.

§ 701.255 *Practice D–7: Lining earthen reservoirs for irrigation water.*

Maximum assistance. 50 percent of the average cost of approved material used, but not in excess of $10 per cubic yard of concrete or $6 per cubic yard of rubble masonry.

Drainage Practices to Permit Land-Use Adjustments Needed in Establishing Soil Conserving Cropping Systems or to Permit Other Measures Required to Conserve Soil and Water Resources.

§ 701.259 *Practice E–1: Installing or improving drainage systems.*

(a) *Practice E–1–a: Open farm drainage ditches.* No assistance will be given for cleaning or maintaining a ditch. Assistance will be limited to permanent ditches.

Maximum assistance. 70 percent of the average cost of earth moving, but not in excess of $0.12 per cubic yard of material moved.

(b) *Practice E–1–b: Tile, fiber pipe, lumber box, sump well, or tide gate drains.* No assistance will be given for repairing or maintaining existing drains.

Maximum assistance. 50 percent of the average cost of material delivered to the farm and 50 percent of the average cost of installation, except that the rate for tile or fiber pipe may not exceed that for the 8-inch size, and that the rate for lumber box drains may not exceed that for such drains with a cross section of 50 square inches.

Practices to Establish, Restore, and Maintain Farm Woodland

§ 701.262 *Practice F–1: Planting forest trees and shrubs on farm land for forestry purposes, windbreaks, and for erosion control.* Plantings must be protected from fire and grazing.

Maximum assistance. 80 percent of the average cost of trees and planting, excluding land preparation and cultivation.

§ 701.263 *Practice F–2: Improving a stand of forest trees.* Technical assistance must be utilized. The minimum stand of desirable species which must be present in order for the acreage to be eligible must be shown in the State handbook. No assistance will be given for improving areas from which merchantable timber, pulpwood, or Christmas trees are harvested.

Maximum assistance. 70 percent of the average cost.

§ 701.264 *Practice F–3: Maintaining a stand of trees and shrubs in windbreaks.* Applicable only in connection with windbreaks planted between January 1, 1946, and January 1, 1951. Replanting is required if necessary to bring the stand up to normal. Windbreaks must be protected from fire and grazing.

Maximum assistance. $3 per acre.

§ 701.265 *Practice F–4: Constructing firebreaks or fire lanes.*

Maximum assistance. (1) $0.50 per 1,000 linear feet for each foot of width for widths not in excess of 15 feet, and

(2) $0.40 per 1,000 linear feet for each foot of width in excess of 15 feet, up to 25 feet.

§ 701.266 *Practice F–5: Constructing permanent fences to protect farm woodlots from grazing.* No assistance will be given for maintaining an existing structure.

Maximum assistance. 50 percent of the average cost of fencing material used.

Maximum assistance. 50 percent of the average cost of fencing material used.

Practices To Meet Special Conservation Needs

§ 701.269 *Practice G–1: Special conservation practices.* With the approval of the State committee and the concurrence of the ACP Branch, the county committee may select for use in the county practices included in this subpart for which there is need locally, but which are not selected for use in the State.

Maximum assistance. The maximum assistance for the practices set forth in this subpart.

PAYMENTS

§ 701.272 *Division of payments.*—(a) *Conservation practice payments.* The payment earned in carrying out practices with conservation materials or services shall be credited to the producer to whom the materials or services are furnished. Payment for practices performed with conservation materials and services shall have priority over payment for other practices. The payment earned in carrying out other practices shall be paid to the producer who carried out the practices. If more than one producer contributed to the carrying out of such practices, the payment shall be divided in the proportion that the county committee determines the producers contributed to the carrying out of the practices. In making this determination, the county committee shall take into consideration the value of the labor, equipment, or material contributed by each producer toward the carrying out of each practice on a particular acreage, assuming that each contributed equally, unless it is established to the satisfaction of the county committee that their respective contributions thereto were not in equal proportion. The furnishing of land will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance of producer.* In case of death, incompetency, or disappearance of any producer, his share of the payment shall be paid to his successor, determined in accordance with the provisions of Part 716 of this chapter (ACP–122).

§ 701.273 *Increase in small payments.* The payment computed for any person with respect to any farm shall be increased as follows:

(a) Any payment amounting to $0.71 or less shall be increased to $1.

(b) Any payment amounting to more than $0.71 but less than $1 shall be increased by 40 percent.

(c) Any payment amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of payment computed	Increase in payment
$1 to $1.99	$0.40
$2 to $2.99	.80
$3 to $3.99	1.20
$4 to $4.99	1.60
$5 to $5.99	2.00
$6 to $6.99	2.40
$7 to $7.99	2.80
$8 to $8.99	3.20
$9 to $9.99	3.60
$10 to $10.99	4.00
$11 to $11.99	4.40
$12 to $12.99	4.80
$13 to $13.99	5.20
$14 to $14.99	5.60
$15 to $15.99	6.00
$16 to $16.99	6.40
$17 to $17.99	6.80
$18 to $18.99	7.20
$19 to $19.99	7.60
$20 to $20.99	8.00
$21 to $21.99	8.20
$22 to $22.99	8.40
$23 to $23.99	8.60
$24 to $24.99	8.80
$25 to $25.99	9.00
$26 to $26.99	9.20
$27 to $27.99	9.40
$28 to $28.99	9.60
$29 to $29.99	9.80
$30 to $30.99	10.00
$31 to $31.99	10.20
$32 to $32.99	10.40
$33 to $33.39	10.60
$34 to $34.99	10.80
$35 to $35.99	11.00
$36 to $36.99	11.20
$37 to $37.99	11.40
$38 to $38.99	11.60
$39 to $39.99	11.80
$40 to $40.99	12.00
$41 to $41.99	12.10
$42 to $42.99	12.20
$43 to $43.99	12.30
$44 to $44.99	12.40
$45 to $45.99	12.50
$46 to $46.99	12.60
$47 to $47.99	12.70
$48 to $48.99	12.80
$49 to $49.99	12.90
$50 to $50.99	13.00
$51 to $51.99	13.10
$52 to $52.99	13.20
$53 to $53.99	13.30
$54 to $54.99	13.40
$55 to $55.99	13.50
$56 to $56.99	13.60
$57 to $57.99	13.70
$58 to $58.99	13.80
$59 to $59.99	13.90
$60 to $185.99	14.00
$186 to $199.99	(1)
$200 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 701.274 *Payments limited to $2,500.* (a) The total of all payments made in connection with the 1951 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $2,500.

(b) All or any part of any payment which has been or otherwise would be made to any person under the 1951 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device designed to evade, or which has the effect of evading, the provisions of this section.

CONSERVATION MATERIALS AND SERVICES

§ 701.275 *Availability.* (a) Liming materials, phosphates, seeds, and other farming materials or services may be furnished by the ACP Branch to producers for carrying out approved practices. Materials or services may not be furnished to producers who are on the register of indebtedness, except in those cases where the agency to which the debt is owed notifies the ACP Branch that it temporarily waives its rights for set-off in order to permit the furnishing of materials and services.

(b) Title to any material distributed by the ACP Branch, either directly or through purchase orders, shall vest in the ACP Branch until the material is applied or planted, or all charges for the materials are satisfied.

§ 701.276 *Cost to producer in cash.* The producer shall pay that part of the cost of the material or service, as established by the ACP Branch, which is in excess of the credit for the use of the material or service in carrying out approved practices. The small payment increase on an amount equivalent to the credit value of properly used conservation materials and services may be advanced as a credit against that part of the cost required to be paid by the producer.

§ 701.277 *Deduction.* (a) A deduction shall be made for materials or services furnished by the ACP Branch from the payment of the producer to whom materials or services are furnished. The deduction shall be the sum of the credit value of the conservation materials and services furnished and any amount of small payment increase advanced to the producer, except that (1) where the cost to the ACP Branch is less than the credit rate, the deduction shall be equal to the cost; (2) where the increase in small payment was advanced to the producer under a previous program and the material or service was transferred to the 1951 program, the amount of the increase in small payment to be deducted shall be determined on the 1951 credit value; and (3) where the material or service was transferred to the 1951 program from a previous program and the practice for which furnished is not offered in the county under the 1951 program, the producer may be relieved of the above deductions upon determination by the county committee that the material or service was used in performing the practice for which the material or service was furnished. If the producer misuses any material or service furnished, an additional deduction equal to the original amount of the deduction, excluding any amount of small payment increase advanced to the producer, for the material or service misused shall be made.

(b) Materials or services will be considered as misused, for the purpose of this section, in the following instances:

(1) Where the county committee determines that any conservation material has been applied to crops which are not designated as eligible crops by the county and State committees, unless failure to properly use the material was due to conditions beyond the producer's control.

(2) Where the county committee determines that a structure, such as a terrace or dam, has been willfully or negligently destroyed by a producer in the program year in which the structure was completed.

(3) Where the county committee determines that material has been willfully or negligently destroyed, or has been rendered unusable, by the producer.

(4) Where the county committee determines that, with respect to seed furnished in connection with a green manure or cover crop, the crop is harvested for grain or hay, or is too heavily grazed, and such uses are prohibited by the practice specifications.

(5) Where the county committee determines that a producer has disposed of material by sale, barter, or some other unauthorized means.

(6) Where the county committee is unable to determine the use or disposition of material because of the failure of a producer to furnish requested information by the closing date designated by the ACP Branch for filing performance reports. However, if the requested information is filed at a later date and the material was properly used, the material will not be considered as misused.

(c) If the deduction for the materials or services exceeds the payment for the producer to whom the materials or services are furnished, the amount of the difference shall be paid by the producer to the Treasurer of the United States.

(d) Any producer to whom materials are furnished shall be responsible to the ACP Branch for any damage to the materials, unless he shows that the damage was caused by circumstances beyond his control. If materials are abandoned or not used during the program year, they may, at the option of the ACP Branch, be transferred to another producer or otherwise disposed of by the ACP Branch at the expense of the producer who abandoned or failed to use the material, or be retained by the producer for use in a subsequent program year.

GENERAL PROVISIONS RELATING TO PAYMENT

§ 701.279 *Breaking out permanent vegetative cover.* In any area designated by the ACP Branch as an area subject to serious wind erosion, a deduction of $3 shall be made for each acre of native sod or any other permanent vegetative cover broken out during the 1951 program year without the approval of the county committee, if the county committee finds, in accordance with standards approved by the State committee, that the land broken out is not suited to the continuing production of cultivated crops and will become a wind-erosion hazard to the community. The deduction shall be made from the payment of the person responsible for breaking out the land after the payment has been increased in accordance with the provisions of § 701.273.

§ 701.280 *Failure to maintain practices under previous programs.* If the county committee determines that any conservation practice carried out under previous agricultural conservation programs is not maintained in accordance with good farming practices, or the effectiveness of any such practice is destroyed during the 1951 program year, a deduction shall be made for the extent of the practice destroyed or not maintained. The deduction rate shall be the 1951 practice rate or, if the practice is not offered in 1951, the practice rate in effect during the year the practice was performed. The deduction shall be made from the payment of the person responsible for destroying or not maintaining the practice, after the payment has been increased in accordance with the provisions of § 701.273.

§ 701.281 *Practices defeating purposes of programs.* If the State committee finds that any producer has adopted or participated in any practice, including the misuse of a purchase order for conservation materials or services, which tends to defeat the purpose of the 1951 or previous programs, it may withhold, or require to be refunded, all or any part of any payment which has been or would be computed for such person.

§ 701.282 *Depriving others of payment.* If the State committee finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of any payment under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the amount of any payment which has been or would otherwise be made to him in connection with the 1951 program.

§ 701.283 *Failure to carry out approved erosion-control measures.* Payment will not be made to any person with respect to any farm which he owns or operates in a county, if the county committee finds that he has been negligent and careless in his farming operations by failing to carry out approved erosion-control measures on land under his control to the extent that any part of such land has become an erosion hazard during the 1951 program year to other land in the community.

§ 701.284 *Filing of false claims.* If the State committee finds that any producer has knowingly filed claim for payment under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 701.285 *Misuse of purchase orders.* If the State committee finds that any producer has knowingly used a purchase order issued to him for conservation materials or services for a purpose other than that for which it was issued, and that such misuse of the purchase order tends to defeat the purpose for which it was issued, such producer shall not be eligible to receive any payment under the program and shall refund all payments that may have been made to him under the program. The withholding or refunding of payments will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 701.286 *Payment computed and made without regard to claims.* Any payment or share of payment shall be computed and made without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 701.287, and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (Part 718 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 701.287 *Assignments.* Any person who may be entitled to any payment in connection with the 1951 program may assign his payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1951. No assignment will be recognized, unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70.

§ 701.288 *Excess cotton acreage.* (a) Any person who makes application for payment with respect to any farm located in a county in which cotton is planted in 1951 shall file with such application a statement that he has not knowingly planted cotton or caused cotton to be planted during 1951 on land in any farm in which he has an interest in excess of the cotton allotment under sec. 344 of the Agricultural Adjustment Act of 1938, as amended, for the farm for 1951.

(b) Any person who knowingly plants cotton or causes cotton to be planted on his farm in 1951 in excess of the 1951 cotton acreage allotment for the farm under sec. 344 of the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment whatsoever on that farm or on any other farm under 1951 programs authorized by secs. 7–17 of the Soil Conservation and Domestic Allotment Act, as amended. Cotton will not be deemed to have been planted on any farm in excess of the farm acreage allotment if, after the acreage originally planted to cotton has been determined and notice thereof sent to the operator of the farm, the planted acreage is adjusted to the farm acreage allotment in the period allowed under the notice. If the operator is notified that the cotton acreage allotment has been exceeded and the planted acreage is not adjusted to such acreage allotment in the period allowed under the notice, the cotton acreage allotment shall be deemed to have been knowingly exceeded by all producers having an interest in the cotton on the farm. Notice of overplanting mailed to the operator of the farm shall be deemed to be notice to all persons sharing in the production of cotton on the farm.

(c) For the purposes of this section, the acreage planted to cotton will include only acreage planted to upland cotton.

APPLICATION FOR PAYMENT

§ 701.291 *Persons eligible to file application.* An application for payment with respect to a farm may be made by any producer who is entitled to share in the payment determined for the farm, except where his only payment is earned with conservation materials or services furnished by the ACP Branch and the entire small payment increase, if any, earned by the use of the materials or services has been advanced to the producer.

§ 701.292 *Time and manner of filing applications and information required.* Payment will be made only upon application submitted on the prescribed form to the county office. Where conservation materials or services are furnished by the ACP Branch, there need be reported on the application for payment with respect to such materials and services only the total credit and deduction value of the materials and services furnished. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting to another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the county office within the time fixed by the Director, ACP Branch, which time shall be not later than December 31, 1952. At least 2 weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible to file the form or information within the period prescribed. Such notice shall be given by mailing notice to the office of each county committee and making copies available to the press.

APPEALS

§ 701.293 *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his payment with respect to the farm. The county committee shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the county committee, he may, within 15 days after the decision is forwarded to or made available to him, appeal in writing to the State committee. The State committee shall notify him of its decision in writing within 30 days after the submission of the appeal. If he is dissatisfied with the decision of the State committee, he may, within 15 days after its decision is forwarded to or made available to him, request the Director, ACP Branch, to review the decision of the State committee. Written notice of any decision rendered under this section by the county or State committee shall also be issued to each other producer on the farm who may be adversely affected by the decision.

STATE HANDBOOKS, BULLETINS, INSTRUCTIONS, AND FORMS

§ 701.294 *State handbooks, bulletins, instructions, and forms.* The ACP Branch is authorized to make determinations and to prepare and issue State handbooks, bulletins, instructions, and forms required in administering the 1951 program. Copies of State handbooks, bulletins, instructions, and forms containing detailed information with respect to the 1951 program as it applies to specific States, counties, areas, and farms will be available in the office of the State committee (15 F. R. 177A–285) and the office of the county committee. Producers wishing to participate in the program should obtain from the State committee or county committee all information needed in order to comply with all provisions of the program.

DEFINITIONS

§ 701.295 *Definitions.* For the purposes of the 1951 program:

(a) "Secretary" means the Secretary of Agriculture of the United States.

(b) "Director" means the Director of the Agricultural Conservation Programs Branch, Production and Marketing Administration.

(c) "State" means any one of the continental United States.

(d) "State committee" means the group of persons designated within any State to assist in the administration of the agricultural conservation program in that State.

(e) "Technical committee" means the group of agricultural technicians selected by the State committee to advise the State committee in the selection and development of conservation practices for the agricultural conservation program.

(f) "County" means parish or county.

(g) "County committee" means the group of persons elected within any county to assist in the administration of the agricultural conservation program in that county.

(h) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, and, wherever applicable, a State, political subdivision of a State, or any agency thereof.

(i) "Producer" means any person who, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(j) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the county committee, in accord-

ance with instructions issued by the ACP Branch, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm shall be regarded as located in the county in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(k) "Cropland" means farm land which in 1950 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes or will constitute, if tillage is continued, a wind-erosion hazard to the community.

(l) "Program year" means the period, designated in the State handbook, during which conservation practices must be carried out to be eligible for assistance. The program year may begin on or after September 1, 1950, and end not later than December 31, 1951.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 701.296 *Authority.* The program is approved pursuant to the authority vested in the Secretary of Agriculture under secs. 7–17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q), and is contingent upon legislative authority to the Secretary to exercise after December 31, 1950, the powers now conferred on him by section 8 of the Soil Conservation and Domestic Allotment Act, as amended.

§ 701.297 *Availability of funds.* (a) The provisions of the 1951 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the making of the payments herein provided is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such payments will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1951 program will not be available for the payment of applications filed in the county office after December 31, 1952.

§ 701.298 *Applicability.* (a) The provisions of the 1951 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior; (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it; and (4) farms in counties or areas for which a special agricultural conservation program under the Soil Conservation and Domestic Allotment Act, as amended, is approved for 1951 by the Secretary.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by a State or political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as Federal land banks and production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Home Owners' Loan Corporation, the Federal Farm Mortgage Corporation, the departments comprising the National Military Establishment, or by any other Government agency designated by the ACP Branch; (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it; and (6) Indian lands, except that where grazing operations are carried out on Indian lands administered by the Department of the Interior, such lands are within the scope of the program only if covered by a written agreement approved by the Department of the Interior giving the operator an interest in the grazing and forage growing on the land and a right to occupy the land in order to carry out the grazing operations.

Done at Washington, D. C., this 6th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50-7948: Filed, Sept. 11, 1950; 8:46 a. m.]

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Regulation W]

PART 222—CONSUMER INSTALMENT CREDIT

1. This part is issued to be effective on and after September 18, 1950, in the form as follows:

Sec.
222.1 Scope and application of part.
222.2 General requirements and registration.
222.3 Instalment sales; general rules.
222.4 Instalment loans; general rules.
222.5 Renewals, revisions, and additions.
222.6 Certain technical provisions.
222.7 Exempt credits.
222.8 Miscellaneous provisions; definitions.
222.9 Supplement.

AUTHORITY: §§ 222.1 to 222.9 issued under sec. 5, 40 Stat. 415, as amended, Title VI, Pub. Law 774, 81st Cong.; 50 U. S. C. App., 5. E. O. 8843, Aug. 9, 1941, 6 F. R. 4035; 3 CFR, 1941 Supp.

§ 222.1 *Scope and application of part.* This part is issued by the Board of Governors of the Federal Reserve System (hereinafter called the "Board"), under authority of section 5 (b) of the act of October 6, 1917, as amended, U. S. C., title 50, App., section 5 (b); Executive Order No. 8843, dated August 9, 1941 (hereinafter called the "Executive Order"); and the "Defense Production Act of 1950," particularly section 601 thereof.

The part applies, in general, to any person who is engaged in the business of extending instalment credit in amounts of $5,000 or less, or discounting, purchasing or lending on, obligations arising out of such credit. It applies whether the person is a bank, loan company, or finance company, or a person who is so engaged in connection with any other business, such as by extending such credit as a dealer, retailer, or other person in connection with the selling of consumers' durable goods.

§ 222.2 *General requirements and registration*—(a) *General requirements.* Each person engaged in the business of making instalment sales [1] or instalment loans,[2] or engaged in the business of lending on the security of or discounting or purchasing obligations arising out of such credit, is referred to in this part as a "Registrant"; and no Registrant shall make or receive any payment which constitutes or arises directly or indirectly out of any such credit extended by him or out of any such obligation lent on or discounted or purchased by him, except on the following conditions:

(1) He must have a license, and each Registrant is hereby granted such a license, but such license of a Registrant may be suspended in the manner and on the grounds stated in § 222.8 (b); and

(2) The credit extended, renewed, revised or consolidated by him, or giving rise to the obligation discounted or purchased by him or acquired by him as collateral must comply with the applicable requirements of this part.

(b) *Registration.* Within 60 days after the effective date of this part, or 60 days after he becomes subject to § 222.2 (a), whichever is later, each Registrant shall file, with the Federal Reserve Bank or any branch thereof in the district in which the main office of the Registrant is located, a registration statement on a form obtainable from any Federal Reserve Bank or branch. Such statement shall be filed regardless of whether or not the Registrant had filed such a statement under Part 222 as in effect at any time prior to the effective date of this part.

§ 222.3 *Instalment sales; general rules.* Except as otherwise provided by this part, each instalment sale shall comply with the following requirements: [3]

(a) *Down payment and maturity.* There shall be a down payment not less than that specified for the listed article in § 222.9, such down payment to be calculated as therein specified; and the time balance specified in § 222.6 (c) shall have a maturity not exceeding the maximum maturity specified for the listed article in § 222.9.

(b) *Amounts and intervals of instalments; record.* Except as permitted by § 222.6 (a) for seasonal incomes, etc., the time balance shall be payable in instalments which shall be (1) substantially equal in amount or so arranged that no instalment is substantially greater than any preceding instalment, (2) payable at approximately equal intervals not exceeding one month, and (3) not less than $5 per month or $1.25 per week on the aggregate instalment indebtedness of one debtor to the same creditor. The information specified in § 222.6 (c) shall be set forth in a bona fide record of any transaction subject to this section.

(c) *Time of down payment.* The down payment shall be obtained at or before the time of delivery of the listed article; except that in the case of an article listed in Group D of § 222.9, the down payment shall be obtained at or before the time of beginning the agreed-upon repairs, alterations, or improvements.

§ 222.4 *Instalment Loans; General Rules.* Except as otherwise provided by this part, each instalment loan shall comply with the following requirements: [4]

(a) *Instalment loans to purchase listed articles.* If the Registrant knows or has reason to know that the proceeds of an instalment loan are to be used to purchase any listed article:

(1) The principal amount lent (excluding any interest or finance charges and the amount of any insurance premium) shall not exceed the maximum loan value specified for the article in § 222.9, such loan value to be calculated as therein specified; and

(2) The maturity of the instalment credit (including any interest or finance charges, and the amount of any insurance premium and of any items included in the cash price of the article) shall not exceed the maximum maturity specified for the listed article in § 222.9.

(b) *Unclassified instalment loans.* In the case of an instalment loan which is not subject to §222.4 (a), the maturity of the instalment credit (including any interest or finance charges and the amount of any insurance premiums) shall not exceed the maximum maturity specified for unclassified instalment loans in § 222.9.

(c) *Amounts and intervals of instalments; record.* Whether subject to § 222.4 (a) or § 222.4 (b), the instalment credit, except as permitted by § 222.6 (a) for seasonal incomes, etc., shall be payable in instalments which shall be (1) substantially equal in amount or so arranged that no instalment is substantially greater than any preceding instalment, (2) payable at approximately equal intervals not exceeding one month, and (3) not less than $5 per month or $1.25 per week on the aggregate instalment indebtedness of one debtor to the same creditor. The terms of payment shall be set forth in a bona fide record of any instalment credit subject to this section.

(d) *Statement of the Borrower.* No Registrant shall make any instalment loan subject to § 222.4 (a) or 4 (b) unless he shall have accepted in good faith a signed Statement of the Borrower as to the purposes of the loan. Such Statement shall state whether or not any of the proceeds of the loan are to be used to make a down payment on the purchase of a listed article or to be used to purchase any listed article, and if any of the proceeds of the loan are to be used for the latter purpose such Statement shall identify such listed article and shall state the cash price [5] thereof and the value of any trade-in. If a Registrant relies in good faith on the facts set out by the obligor in such Statement, it shall be deemed to be correct for the purposes of the Registrant.

(e) *Loans to make down payments prohibited.* A Registrant shall not make any instalment loan if he knows or has reason to know that any part of the proceeds thereof is to be used to make a down payment in connection with the purchase of any listed article.

§ 222.5 *Renewals, revisions, and additions*—(a) *General requirements.* In the case of an instalment sale or instalment loan which results from a renewal or revision of any instalment credit already outstanding, or which results from the combination of any such outstanding credit with an additional instalment credit, the renewed, revised, or consolidated obligation shall (regardless of when the outstanding credit originated) comply with all the requirements of this part as if it were a new credit except that:

(1) The requirements as to Statement of the Borrower and down payment or maximum loan value, if any, shall not apply to the outstanding credit already held by the Registrant; and

(2) The renewed, revised, or consolidated obligation may, in so far as the maturity and instalment requirements are concerned, be treated as if it were a new credit with the maximum maturity calculated from the date of the renewal, revision or consolidation. The payments on such renewed, revised, or consolidated obligation shall not be less than $5 per month or $1.25 per week on the aggregate instalment indebtedness of one debtor to the same creditor.

(b) *Statement of Changed Conditions.* Notwithstanding any other provision of this part, if a Registrant accepts in good faith a Statement of Changed Conditions as provided in the following paragraph, an instalment credit that refinances any outstanding obligation (whether or not such obligation is held by the Registrant or is itself payable in instalments) may have a maturity not exceeding the maximum maturity specified in § 222.9 for refinancing pursuant to such Statements, but such maximum maturity shall be applicable only to the credit refinanced. The payments on the credit refinanced need not be as large as $5 per month or $1.25 per week.

The requirements of a Statement of Changed Conditions will be complied with only if the Registrant accepts in good faith a written statement signed by the obligor that the contemplated refinancing is necessary in order to avoid undue hardship upon the obligor or his dependents resulting from contingencies that were unforeseen by him at the time of obtaining the original credit or which were beyond his control, which statement also sets forth briefly the principal facts and circumstances (1) with respect to the original credit and (2) with respect to such contingencies, and specifically states in addition that the contemplated refinancing is not pursuant to a preconceived plan or an intention to evade or circumvent the requirements of this part.

(c) *Bona fide collection effort; serviceman's pre-induction debt.* Nothing in this part shall be construed to prevent any Registrant from making any renewal or revision, or taking any action that he shall deem necessary in good faith (1) for the Registrant's own protection in connection with any obligation which is in default and is the subject of bona fide collection effort by the Registrant, or (2) with respect to any obligation of any member or former member of the armed forces of the United States incurred prior to his induction into such service and assignment to active duty: *Provided*, That the instalment sale of any repossessed article must comply with the applicable requirements of this part.

§ 222.6 *Certain technical provisions*—(a) *Payment schedules for seasonal incomes, etc.* The schedule of instalment payments otherwise specified by this part may be modified, within the applicable maximum maturity, as follows:

(1) If the income received by the obligor from the main sources of his income customarily fluctuates materially from month to month or from season to season and the Registrant has a record of the facts relied upon by him in good faith in that connection, such schedule may be adapted to such customary flow of income: *Provided*, (i) At least half of the credit is to be repaid within the first half of the applicable maximum maturity or at least two-thirds of the credit is to be repaid within the first two-thirds of the applicable maximum maturity, or (ii) payments are reduced or omitted in not more than 4 months of any calendar year but are otherwise in equal monthly amounts; or

(2) The Registrant may require terms of payment which (i) provide a final or other instalment payment which, as a result of rounding off preceding instalments by amounts less than $1, is not more than 50 percent greater in amount than the amount of any preceding in-

[1] "Instalment sale" is defined to include only instalment credit arising out of the sale of an article listed in § 222.9, hereinafter called a "listed article."

[2] Both "instalment sale" and "instalment loan" are defined to exclude credits in a principal amount exceeding $5,000. Certain instalment sales and instalment loans, including some that are in a principal amount exceeding $2,500, are exempted from this part by § 222.7.

[3] Certain instalment sales, including some that are in a principal amount exceeding $2,500, are exempted from this part by § 222.7.

[4] Certain instalment loans, including some that are in a principal amount exceeding $2,500, are exempted from this part by § 222.7.

[5] Part 5 of § 222.9 permits the use of a bona fide estimated cash price in certain cases.

stalment, or (ii) provide during the first 4 months of the maturity of the obligation additional instalment payments which are in substantially equal amounts and at approximately equal intervals if, as a result, no instalment is more than twice as large as any preceding instalment.

(b) *Calculating date of first instalment and maximum maturity.* In calculating the maximum maturity of an instalment obligation, a Registrant may, at his option, use any date not more than 15 days subsequent to the actual date of the loan or delivery of the listed article sold; and except as permitted by § 222.6 (a), the first installment shall be scheduled for payment not later than one month or, in accordance with such option, one month and 15 days subsequent to the actual date of the loan or delivery of the listed article sold.

(c) *Record of instalment sale.* The record of an instalment credit arising from the sale of a listed article and required by § 222.3 (b) shall set forth (in any order) the following information:

(1) A brief description identifying the article purchased;

(2) The cash price of the article;

(3) The amount of the purchaser's down payment (i) in cash and (ii) in goods accepted in trade, together with a brief description identifying such goods and stating the monetary value assigned thereto in good faith;

(4) The amount of any insurance premium for which credit is extended and of any finance charges or interest by way of discount included in the principal amount of the obligation, or the sum of these amounts;

(5) The time balance owed by the purchaser, which is the sum of items (2) and (4) minus item (3); and

(6) The terms of payment.

The record need not include a description of the article if it is purchased by means of a coupon book or similar medium of instalment credit upon which there has been made a cash down payment of at least as great as the highest down payment required by this part on any article sold by the Registrant. The record need not include the information called for by items (2) and (4) if the Registrant is one who, with respect to the article, customarily quotes to the public a time price only which includes the finance or other charges if any, provided he sets forth such time price in such record, and provided he obtains a cash down payment which is at least as large as would be required if the percentage specified for the article in § 222.9 were applicable to the time price.

(d) *Credit for mixed purposes.* In case a credit is partly subject to one section of Part 222 and partly subject to another section, the amount and terms of such credit shall be such as would result if the credit were divided into two or more parts and each part were treated as if it stood alone; except that the maturity of any such credit may be the maximum maturity applicable to the listed article giving rise to the major part of the credit. In case a credit is partly subject to Part 222 (whether for a listed article or because otherwise required to be scheduled for payment within any maximum maturity specified by Part 222) and partly not subject to Part 222, the amount and terms of such credit will comply with the requirements of Part 222 if they satisfy the requirements of Part 222 applicable to the regulated portion.

(e) *Mail orders.* An instalment sale shall not be deemed to be in violation of the down payment requirement of § 222.3 (a) if the sale is made upon the receipt of a mail order for one or more articles and the cash deposit received with the order fails by no more than $1 to equal the sum of the down payments required by this part for all of the articles included in the order.

(f) *Delivery in anticipation of instalment sale.* Except as provided in the following paragraph, in case any listed article is delivered in anticipation of, or under any arrangement whereby delivery of a listed article precedes, an instalment sale of that article or a similar article (such as, but not limited to, a delivery "on approval," "on trial," or as a "demonstrator"), the Registrant shall require, at or before the time of such delivery, a deposit equal to the down payment that would be required on such an instalment sale.

In order to qualify as an exception to the preceding paragraph, the article must be an article listed in Group B or in Group C of § 222.9, the delivery must be exclusively for the purpose of a bona fide trial, approval, or demonstration, and the Registrant must, within 10 days after such delivery, obtain the down payment referred to in the preceding paragraph or the return of the article. Every such case shall be evidenced by a written agreement signed by the respective parties, of which a copy shall be given the prospective purchaser at the time of or before the delivery of the article, and such written agreement shall state clearly and prominently that (1) the delivery is exclusively for the purpose of a bona fide trial, approval, or demonstration, and (2) the prospective purchaser will make the required down payment (the amount of which shall be stated in the agreement) within 10 days after delivery of the article for trial, approval, or demonstration or will return or release the article within such 10-day period.

(g) *Sets and groups of articles.* In determining whether the down payment and maximum loan value requirements of this part are applicable, any set, group or assembly commonly considered, sold or used as a single unit shall be deemed to be a single listed article if the component parts thereof are sold or delivered at substantially the same time.

(h) *Evasive side agreements.* No credit complies with the requirements of this part if at the time the obligation arises there is any agreement, arrangement, or understanding (1) by which the obligation is to be renewed or revised on terms which would permit final payment to be deferred beyond the date permitted by this part for such credit at its inception, or (2) by which the obligor is to be enabled to make repayment on conditions inconsistent in any other respect with those required by this part, or (3) by which there is to be any evasion or circumvention, or any concealment of any evasion or circumvention, of any requirement of this part.

(i) *Side loan to make down payment.* A Registrant shall not extend any credit for financing the purchase of any listed article if he knows or has reason to know that there is, or that there is to be, any other credit of any kind extended in connection with the purchase of the listed article which would bring the total amount of credit extended in connection with such purchase beyond the amount of instalment credit permitted by this part; but, if the Registrant accepts in good faith a written statement signed by the obligor that no such other credit exists or is to be extended, such statement shall be deemed to be correct for the purposes of the Registrant.

(j) *Purchase of article in lieu of trade-in.* Anything which the seller of a listed article buys, or arranges to have bought, from the purchaser at or about the time of the purchase of the listed article shall be regarded as a trade-in for the purposes of this part.

(k) *Misuse of coupon plans.* No coupon, ticket or similar medium of credit, whether paid for in instalments or otherwise, shall be accepted by any Registrant in payment, in whole or in part, for any listed article if such acceptance, in effect, would permit the article to be sold on terms not complying with the requirements of this part.

§ 222.7 *Exempt credits.* The provisions of this part, other than § 222.8 (a), do not apply to any of the following:

(a) *Credits over $2,500 not involving automobiles.* Any credit in a principal amount exceeding $2,500, unless it is (1) an instalment sale of an article listed in Group A of § 222.9, or (2) an instalment loan the proceeds of which are to be used to purchase an article listed in Group A.

(b) *Business or agricultural loans.* Any loan for business purposes to a business enterprise or for agricultural purposes to a person engaged in agriculture, provided the loan is not for the purpose of purchasing a listed article.

(c) *Credit to dealers and certain salesmen.* Any credit extended to a wholesaler or retailer to finance the purchase of any article for resale, or any credit extended to a bona fide salesman of automobiles in order to finance the purchase of a new automobile to be used by him principally as a demonstrator.

(d) *Credit to Governmental agencies, religious institutions, etc.* Any credit extended to the Federal Government, any State government, any political subdivision, or any department, agency or establishment thereof, or to any church, hospital, clinic, sanitarium, school, college, or other religious, educational, charitable, or eleemosynary institution.

(e) *Credits under Government rehabilitation and readjustment programs.* Any credit (1) extended by the Land Bank Commissioner on behalf of the Federal Farm Mortgage Corporation or by any Federal land bank and found, pursuant to regulations issued by the Commissioner, to be necessary to maintain or increase production of essential agricultural commodities, (2) extended or insured by the Farmers' Home Administration, (3) extended in accordance with the regulations of the Secretar of the Interior for the economic development or rehabilitation of Indians, (4) extended under section 4 (a) (4) of the Reconstruction Finance Corporation Act, as amended, because of floods or other catastrophes, or (5) extended, guaranteed or insured in whole or in part by the Administrator of Veterans' Affairs pursuant to the provisions of Title III of the Servicemen's Readjustment Act of 1944, as amended, or by any State agency pursuant to similar State legislation.

(f) *Loans to pay fire and casualty insurance premiums.* Any loan to finance a premium in excess of one year on a fire or casualty insurance policy if the loan is fully secured by the unearned portion of such premium and the policy is not related to any listed article sold to the borrower, or financed for him, by the Registrant.

(g) *Credit for purchasing securities.* Any credit which is subjected to the Board's regulations issued under the Securities Exchange Act of 1934, as amended, or which is otherwise for the purpose of purchasing or carrying stocks, bonds, or other investment securities.

(h) *Real estate credit.* Any credit extended for the purpose of financing or refinancing (1) the construction or purchase of an entire residential building or other entire structure, (2) the construction or purchase of any other entire unit designed for residential occupancy if such unit does not result from repairs, alterations, or improvements upon an existing structure, or (3) any credit subjected to regulations issued under the Defense Production Act of 1950 concerning real estate construction credit.

(i) *Loans to meet medical expenses, etc.* Any loan as to which the Registrant accepts in good faith a written statement signed by the borrower certifying that the proceeds are to be used for bona fide educational, medical, hospital, dental, or funeral expenses, or to pay debts incurred for such expenses, and that such proceeds (unless they are to be used exclusively for educational expenses) are to be paid over in amounts specified in such statement to persons whose names, addresses, and occupations are stated therein.

(j) *Disaster credits.* Any credit extended to finance the repair or replacement of property damaged or lost as a result of a flood or other similar disaster which the Federal Reserve Bank of the district in which the disaster occurred finds has created an emergency affecting a substantial number of the inhabitants of the stricken area, provided such credit is extended prior to the end of the sixth calendar month following the month in which the disaster occurred and the Registrant has a record of the facts relied upon by him in good faith describing the damage or loss.

(k) *Certain loans on savings shares or accounts.* Any loan which is made by a bank, savings and loan association, or similar institution, and is fully secured by withdrawable shares issued by or savings accounts held with the lender.

§ 222.8 *Miscellaneous provisions; definitions.*—(a) *Preservation of records; inspections.* Every Registrant shall preserve, for the life of the obligation to which they relate, such books of account, records, and other papers (including any statements or agreements required by or obtained pursuant to this part) as are relevant to establishing whether or not a credit qualifies for exemption under § 222.7, or whether or not it is otherwise in conformity with the requirements of this part: *Provided, however,* That the Registrant may preserve photographic reproductions in lieu of such books of account, records, or other papers.

For the purpose of determining whether or not there has been compliance with the requirements of this part, every Registrant shall permit the Board or any Federal Reserve Bank by its duly authorized representatives, to make such inspections of his business operations as the Board or Federal Reserve Bank may deem necessary or appropriate, including inspections of books of account, contracts, letters or other relevant papers wherever located, and, for such purpose, shall furnish such reports as the Board or the Federal Reserve Bank may require. When ordered to do so by the Board, every Registrant shall furnish, under oath or otherwise, such information relative to any transaction within the scope of the authority cited in § 221.1 as the Board may deem necessary or appropriate for such purpose, including the production of books of account, contracts, letters or other papers in the custody or control of such person.

(b) *Suspension of license.*[*] The license of any Registrant may, after reasonable notice and opportunity for hearing, be suspended by the Board, in its entirety or as to particular activities or particular offices for specified periods, because of any willful or negligent failure to comply with any provision of this part or any requirement of the Board pursuant thereto.

A license which is suspended for a specified period will again become effective upon the expiration of such period. A license which is suspended indefinitely may be restored by the Board, in its discretion, if the Board is satisfied that its restoration would not lead to further violations of this part and would not be otherwise incompatible with the public interest.

(c) *Enforceability of contracts.* Except as may subsequently be otherwise provided, all provisions of this part are designated, pursuant to section 2 (d) of the Executive Order, as being "for administrative purposes" within the meaning of said section 2 (d), which provides that noncompliance with provisions of this part so designated shall not affect the right to enforce contracts.

(d) *Clerical errors.* Any failure to comply with this part resulting from a mistake in determining, calculating, or recording any price, down payment, or credit, or other similar matter, shall not be construed to be a violation of this part if the Registrant establishes that such failure to comply was the result of excusable error and was not occasioned by a regular course of dealing.

(e) *Noncompliance due to facts outside Registrant's knowledge.* The prohibitions of this part shall not apply to a Registrant with respect to any failure to comply with this part in connection with (1) a credit extended by him if, at the time thereof, he did not know or have reason to know any fact by reason of which such credit failed to comply; (2) an obligation purchased, discounted or acquired as collateral by him if, when he purchased or discounted the obligation or acquired it as collateral, the obligation did not show on its face any failure to comply and he did not know any fact by reason of which the credit giving rise to the obligation failed to comply; or (3) an obligation renewed, revised, or consolidated by him if, at the time when he renewed, revised or consolidated it, he did not know or have reason to know any fact by reason of which such renewal, revision or consolidation failed to comply. With respect to any loan on the security of an obligation which arises out of a credit subject to this part, the prohibitions of this part shall be deemed to apply only to payments arising out of the obligation rather than to payments arising out of the loan.

(f) *Transactions outside United States.* Nothing in this part shall apply with respect to any credit extended in Alaska, the Panama Canal Zone, or any territory or possession outside the continental United States.

(g) *Right of registrant to impose stricter requirements.* Any Registrant has the right to refuse to extent credit, or to extend less credit than the amount permitted by this part, or to require that repayment be made within a shorter period than the maximum permitted by this part.

(h) *Contracts outstanding on effective date of part.* Nothing in this part shall prevent the performance of any valid contract or obligation entered into prior to the effective date of this part; but, when any obligation arising out of any credit extended prior to such date is combined with any credit extended on or after such date or is the subject of any renewal or revision made on or after such date, such credit shall be treated for the purposes of this part as having been extended on the date of such consolidation, renewal or revision.

(i) *Transactions subjected to regulation by amendment.* Whenever this part is amended to add any article to the list of articles in § 222.9 or so as to apply to any additional class of transactions, the amendment shall not prevent the performance of any valid contract made prior to the effective date of the amendment; but any renewal, revision or consolidation of any obligation arising from

[*] In addition, section 604 of the Defense Production Act of 1950 authorizes the Board to institute court proceedings to restrain violations and to compel compliance with the regulation or any order of the Board made in pursuance thereof. Furthermore, section 603 of such act provides that "Any person who willfully violates any provision or section 601 [of the act] * * * or any regulation or order issued thereunder, upon conviction thereof, shall be fined not more than $5,000 or imprisoned not more than one year or both."

a credit covering such newly added article or class of transactions shall be subject to the applicable requirements of this part.

(j) *Definitions.* For the purposes of this part, unless the context otherwise requires:

(1) "Person" has the meaning given it in subsection (a) of section 702 of the Defense Production Act of 1950.[7]

(2) "Registrant" has the meaning given it in § 222.2 (a).

(3) "Credit" means "Extension of credit" as defined in the Executive Order.[8]

(4) "Instalment credit" means a credit which the obligor undertakes to repay in two or more scheduled payments or as to which the obligor undertakes to make two or more scheduled payments or deposits usable to liquidate the credit, or which has a similar purpose or effect.

(5) "Instalment sale" means an instalment credit in a principal amount of $5,000 or less[9] which is made as principal, agent or broker, by any seller of any article listed in § 222.9 (herein called a "listed article") and which arises out of a sale of such listed article. For this purpose, "sale" includes a lease, bailment, or other arrangement for the use of property, or any other transaction, which is similar in purpose or effect to a sale.

(6) "Instalment loan" means an instalment credit, other than an instalment sale, in the form of a loan which is in a principal amount of $5,000 or less;[9] but the definition does not include any loan upon the security of any obligation which arises out of any instalment sale or instalment loan.

(7) "Cash price" means the bona fide cash purchase price of an article (net of any rebate or sales discount), including the bona fide cash purchase price of any accessories, the bona fide charge for any services sold or financed in connection with the article, any bona fide charges for delivery or installation, and any applicable sales taxes, but excluding any charges for interest, finance, or insurance.

§ 222.9 *Supplement.*

PART 1. *Listed articles, down payments, loan values.* For the purposes of this part, the following articles, whether new or used, are "listed articles," and the following required down payments and maximum loan values are prescribed (such down payments and loan values to be calculated as specified in Parts 4 and 5 of this section; but such down payment and loan value requirements shall not apply in the case of a listed article having a cash price of less than $100, exclusive of any applicable sales tax: [10]

Group A—33⅓ percent minimum down payment, 66⅔ percent maximum loan value:

1. Automobiles (passenger cars designed for the purpose of transporting less than 10 passengers, including taxicabs).

Group B—15 percent minimum down payment, 85 percent maximum loan value:

1. Cooking stoves and ranges, designed for household use.
2. Dishwashers, mechanical, designed for household use.
3. Ironers designed for household use.
4. Refrigerators and food freezers, mechanical, designed for household use.
5. Washing machines or clothes drying machines designed for household use.
6. Combination units incorporating any listed article in the foregoing classifications of this Group B.
7. Air conditioners, room unit; dehumidifiers, mechanical.
8. Radio or television receiving sets, phonographs, or combinations.
9. Sewing machines designed for household use.
10. Suction cleaners designed for household use.

Group C—10 percent minimum down payment, 90 percent maximum loan value:

1. Furniture, household (including ice refrigerators, bed springs, mattresses and lamps); and floor coverings, soft surface.

Group D—10 percent minimum down payment, 90 percent maximum loan value:

Residential repairs, alterations, or improvements.

Materials, articles and services (other than articles listed elsewhere in this section) in connection with repairs, alterations, or improvements upon urban, suburban, or rural real property in connection with existing structures. This does not relate to structures, or distinct parts thereof, which as so repaired, altered, or improved are designed exclusively for nonresidential use.

PART 2. *Maturities.* The maximum maturities for listed articles and for unclassified instalment loans are:

	Months
Group A	21
Group B	18
Group C	18
Group D	30
Unclassified instalment loans	18

PART 3. *Refinancing pursuant to Statement of Changed Conditions.* The maximum maturity of any refinancing pursuant to a Statement of Changed Conditions as specified in § 222.5 (b) is 24 months.

PART 4. *Calculation of down payments for automobiles.* The maximum loan value of any automobile shall be the specified percentage of the cash price or of the "appraisal guide value," whichever is lower, and the required down payment shall be the difference between the cash price and the maximum loan value as so calculated. Such required down payment in the case of an automobile may be obtained in the form of cash, trade-in, or both.

"Appraisal guide value," for any given period, means the estimated average retail value as stated in the edition and issue designated by the Board for that period of any regularly published automobile appraisal guide designated by the Board for this purpose, as to guide, edition, and issue, for use in the territory in which such automobile is sold, plus any applicable sales taxes. Information as to the guide or guides, and editions and issues thereof, designated for any given territory may be obtained from any Federal Reserve Bank or branch.

PART 5. *Calculation of down payments for articles in Groups B, C, and D.* In the case of any article listed in Group B, Group C, or Group D, the required down payment and the maximum loan value shall be (1) the specified percentage of the cash price of the article, or (2), in the event of a trade-in by the purchaser, the specified percentage of the net price of the listed article after deducting from the cash price of that article the amount allowed for the trade-in. Such down payment shall be obtained in cash in addition to any trade-in.

If the cash price of an article listed in Group D cannot be determined at the time the required down payment must be obtained or at the time of the loan, (1) the Registrant may substitute for the cash price in calculating such down payment a bona fide estimated cash price, or (2) the borrower may substitute for the cash price, and in calculating the maximum loan value the Registrant may rely in good faith on a bona fide estimated cash price as so stated in the Statement of the Borrower.

2. (a) Part 222 is issued by the Board of Governors of the Federal Reserve System under authority of section 5 (b) of the act of October 6, 1917, as amended, U. S. C., title 50, App., section 5 (b); Executive Order No. 8843, dated August 9, 1941 (hereinafter called the "Executive Order"); and the "Defense Production Act of 1950", particularly section 601 thereof.

The purpose of this part is to prescribe appropriate terms in connection with consumer credit, including appropriate supporting rules, in order to carry out the purposes and policy of the aforementioned authorities.

(b) Section 709 of the Defense Production Act of 1950 provides that the functions exercised under such act shall be excluded from the operations of the Administrative Procedure Act (60 Stat. 237) except as to the requirements of section 3 thereof.

In the formulation of this part and in accordance with the requirement of the aforesaid section 709, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Approved this 8th day of September 1950.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

[F. R. Doc. 50-8019; Filed, Sept. 11, 1950; 10:00 a. m.]

[7] Such act provides that "The word 'person' includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing: *Provided*, That no punishment provided by this act shall apply to the United States, or to any such government, political subdivision, or government agency."

[8] The pertinent part of the Executive Order reads as follows: "Extension of credit" means any loan or mortgage; any instalment purchase contract, any conditional sales contract, or any sale or contract of sale under which part or all of the price is payable subsequent to the making of such sale or contract; any rental-purchase contract, or any contract for the bailment or leasing of property under which the bailee or lessee either has the option of becoming the owner thereof or obligates himself to pay as compensation a sum substantially equivalent to or in excess of the value thereof; any contract creating any lien or similar claim or property to be discharged by the payment of money; any purchase, discount, or other acquisition of, or any extension of credit upon the security of, any obligation or claim arising out of any of the foregoing; and any transaction or series of transactions having a similar purpose or effect.

[9] Certain instalment sales and instalment loans, including some that are in a principal amount exceeding $2,500, are exempted from this part by § 222.7.

[10] The exclusion of sales taxes in this part of this section does not affect the use of the term "Cash Price" elsewhere in this part. "Cash Price" as defined in § 222.8 (j) (7) generally includes applicable sales taxes.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

TEST FEE SCHEDULES AND STANDARD SAMPLES

MISCELLANEOUS AMENDMENTS

In accordance with the provisions of section 4 (a) and (c) of the Administrative Procedure Act, it has been found that notice and hearing on these schedules of fees are unnecessary for the reason that such procedure, because of the nature of these rules, serves no useful purpose. These schedules are effective from July 1, 1950.

Subchapter A—Test Fee Schedules

PART 202—METROLOGY

1. Section 202.206, *"Class S" Laboratory weights*, is hereby amended by the revision of item c and the addition of new items d and e, to read as follows. Former items d and e are hereby redesignated items f and g respectively.

Item	Description	Fee
202.206c	Determination of actual value of each weight not greater than 200 g., for testing and certifying or reporting the value of each weight	$1.00
202.206d	Determination of actual value of each weight greater than 200 g., but not greater than 2 kg.; for testing and certifying or reporting the value of each weight	2.00
202.206e	Determination of actual value of each weight greater than 2 kg., but not greater than 25 kg., for testing and certifying or reporting the value of each weight	3.00

2. Section 202.209, *Microbalance weights*, is added to read as follows:

§ 202.209 *Microbalance weights.* Small weights of special design, frequently of odd denominations, used for the calibration of quartz torsion microbalances or similar instruments to a better precision than 0.001 mg are included in this class.

Item	Description	Fee
202.209a	As a part of the calibration of a group of microbalance weights, in order to minimize errors from variation of surface films, accumulation of atmospheric dust, etc., it is necessary that a group of our standards be calibrated based on 1 g. standards with accuracy of 0.0001 mg. below 100 mg., each time a group of microbalance weights is calibrated. If the microbalance weights are of a series which can be included in this group of observations; that is, if they are of a 5, 2, 2, 1 series, a 5, 3, 2, 1 series, or other convenient series, they will be included in the calibration of our standards and certified with an accuracy of 0.0001 mg. For regular inspection, cleaning, handling, and the above calibration, each group	$112.00
202.209b	Determination of value for weights which are not of a series that can be intercompared and conveniently included in the above series of observations on our standards. For the calibration of each weight with an accuracy of 0.0002 mg	7.00
202.209z	For special tests not covered by the above schedule, fees will be charged dependent upon the nature of test.	

PART 203—HEAT AND POWER

1. Section 203.201, *Gas calorimeters*, is hereby amended to read as follows:

§ 203.201 *Gas calorimeters.*

Item	Description	Fee
203.201a	Test gas calorimeter, water-flow type, calorimeter only	$82.00

2. Section 203.501, *Internal combustion engine fuels*, is amended to add Item 203.501e to read as follows:

Item	Description	Fee
203.501e	Measurements of physical properties of primary reference fuels for octane number determination, including check measurements on a representative sample of the packaged product	$620.00

PART 204—ATOMIC AND MOLECULAR PHYSICS

1. Section 204.402, *Radioactive standards*, Item 204.402p is amended to read as follows:

Item	Description	Fee
204.402p	Beta-Ray Standards, consisting of RaD+E in equilibrium, deposited on a silver disk 1 inch in diameter and faced with 2 mil of palladium, having on date of preparation rates of 100, 200, or 500 disintegrations per second, for each disintegration rate	$10.00

2. Section 204.701, *Neutron standardization*, is added to read as follows:

§ 204.701 *Neutron standardization.*

Item	Description	Fee
204.701a	Determination of the ratio of the rate of emission of neutrons to that of the primary national standard	$143.00
204.701z	For special tests not covered by the above schedule, fees will be charged dependent on the nature of the test	-------

Standard B—Standard Samples

PART 230—STANDARD SAMPLES ISSUED OR IN PREPARATION BY THE NATIONAL BUREAU OF STANDARDS

SUBPART B—STANDARD SAMPLES WITH SCHEDULE OF WEIGHTS AND FEES

1. Section 230.11, *Descriptive list*, schedule (m), *Spectrographic standards*, Item (1) *Steels*, is amended to read as follows:

(m) *Spectrographic standards*—(1) *Steels.*

Sample Nos.[1]		Name	Price per sample [2]
401	801	B. O. H., 0.4 C	$5.00
402	802	B. O. H., 0.8 C	5.00
403	803	A. O. H., 0.4 C	5.00
404a	804a	Basic electric	5.00
405a	805a	Medium manganese	5.00
406	(3)	Chromium-vanadium	5.00
(3)	807	Chromium-vanadium	$5.00
408	808	Chromium-nickel	5.00
409	(3)	Nickel	5.00
(3)	809a	Nickel	5.00
410a	810a	2 Cr-1 Mo	5.00
411	(3)	Cr-Mo (SAE X4130)	5.00
411a	811a	Cr-Mo (SAE X4130)	5.00
412	(3)	Cr-Mo (SAE 4130)	5.00
412a	812a	Cr-Ni-Mo	5.00
413	813	A. O. H., 0.4 C	5.00
414	(3)	Cr-Mo (SAE 4140)	5.00
415	(3)	Bessemer, 0.4 C	5.00
415a	815a	Bessemer, 0.5 C	5.00
416a	816a	Nitralloy G	5.00
417	(3)	A. O. H., 0.4 C	5.00
417a	817a	B. O. H., 0.4 C	5.00
418	818	Cr-Mo (SAE 4130)	5.00
419	819	Mi-Mo (SAE 4620)	5.00
420	820	Ingot iron, 0.01 C	5.00
421	821	Cr-W, 0.9 C	5.00
425	825	Mn-Ni-Cr (N. E. 9440) (boron only)	5.00
426	826	Cr-Mo (SAE 4140) (boron only)	5.00
427	827	Cr-Mo (SAE 4150) (boron only)	5.00
428	828	Mn-Cr (boron only)	5.00
429	829	Ni-Cr-B (boron only)	5.00
430	830	Ni-Cr-B (boron only)	5.00
431	831	Tin metal A	$8.00
432	832	Tin metal B	8.00
433	833	Tin metal C	8.00
434	834	Tin metal D	8.00
435	835	Tin metal E	8.00
831		Tin metal A	14.00
832		Tin metal B	14.00
833		Tin metal C	14.00
834		Tin metal D	14.00
835		Tin metal E	14.00

[1] Sizes are: 400 series, rods ¼ in. in diameter, 4 in. long (25 g.); 800 series, rods ½ in. in diameter, 2 in. long (50 g.).

[2] For each sample in the 400 or 800 series.

[3] Standard available in only one size.

(Sec. 9, 31 Stat. 1450, as amended; 15 U. S. C. 277. Interpret or apply sec. 8, 31 Stat. 1450, as amended; 15 U. S. C. 276)

[SEAL] E. C. CRITTENDEN,
Acting Director.

Approved:

THOMAS W. S. DAVIS,
Acting Secretary of Commerce.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

MARITIME ADMINISTRATION RESERVE FLEETS

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.900 is hereby prescribed to govern the use and navigation of waters in the vicinity of the National Defense Reserve Fleets of the Maritime Administration, effective on and after publication of these regulations in the FEDERAL REGISTER due to the urgent necessity of providing appropriate protection for the Reserve Fleets at the earliest possible date, as follows:

§ 207.900 *Restricted areas in vicinity of Maritime Administration Reserve Fleets.* (a) The regulations in this section shall govern the use and navigation of waters in the vicinity of the following National Defense Reserve Fleets of the Maritime Administration, Department of Commerce:

(1) Hudson River Reserve Fleet, Jones Point, New York.
(2) Baltimore Reserve Fleet, Hawkins Point Pier, Thoms Cove, Maryland.
(3) James River Reserve Fleet, Fort Eustis, Virginia.
(4) Wilmington Reserve Fleet, Brunswick River near Wilmington, North Carolina.
(5) Mobile Reserve Fleet, Tensaw River near Bay Minette, Alabama.
(6) Beaumont Reserve Fleet, Neches River near Beaumont, Texas.
(7) Suisun Bay Reserve Fleet near Benicia, California.
(8) Astoria Reserve Fleet, Cathlamet Bay near John Day Point, Oregon.
(9) Oylmpia Reserve Fleet, Budd Inlet at Olympia, Washington.

(b) No vessels or other watercraft, except those owned or controlled by the United States Government, shall cruise or anchor between Reserve Fleet units, within 500 feet of the end vessels in each Reserve Fleet unit, or within 500 feet of the extreme units of the fleets, unless specific permission to do so has first been granted in each case by the enforcing agency.

(c) The regulations in this section shall be enforced by the respective Fleet Superintendents and such agencies as they may designate.

(Sec. 4, 28 Stat. 362, as amended; 33 U. S. C. 1) [Regs. 15 Aug. 1950, 800.2121—ENGWO]

[SEAL] EDWARD F. WITSELL,
Major General, U. S. A.,
The Adjutant General.

[F. R. Doc. 50-7959; Filed, Sept. 11, 1950; 8:50 a. m.]

TITLE 37—PATENTS, TRADEMARKS, AND COPYRIGHTS

Chapter III—Government Patents Board

PART 300—GENERAL PROVISIONS

Pursuant to section 4 (b) of Executive Order 10096, January 23, 1950 (15 F. R. 391), the following interim rules and regulations for the administration of a uniform patent policy for the Government are hereby issued:

Sec.
300.1 Definition of "Government employee" for the purposes of Executive Order 10096.
300.2 Index of rights of the United States in and to each invention made by a Government employee.
300.3 Availability of copies, summaries, analyses and abstracts of inventions.

AUTHORITY: §§ 300.1 to 300.3 issued under section 4 (b), Executive Order 10096, January 23, 1950, 15 F. R. 391.

NOTE: §§ 300.1 to 300.3 are derived from Administrative Order No. 1, "Interim Rules and Regulations for the Administration of a Uniform Patent Policy for the Government, issued by the Chairman of the Government Patents Board," and approved by the President September 6, 1950.

§ 300.1 *Definition of "Government employee" for the purposes of Executive Order 10096.* The term "Government employee" for the purposes of Executive Order 10096, January 23, 1950 (15 F. R. 389) is defined to mean any officer or employee, civilian or military, of any Government agency including, until further order, any part-time consultant or part-time employee except as otherwise may be provided by contract or by agency regulation or practice.

§ 300.2 *Index of rights of the United States in and to each invention made by a Government employee.* Subject to considerations of national security, or public health, safety or welfare, the Chairman of the Government Patents Board will arrange for all rights of the United States or any Government agency in and to each invention made by a Government employee, including licenses, to be indexed.

§ 300.3 *Availability of copies, summaries, analyses and abstracts of inventions.* Subject to considerations of national security, or public health, safety or welfare, and under arrangements made and policies adopted by the Chairman of the Government Patents Board, as to each invention made by a Government employee which is owned by the United States or any Government agency and as to each invention made by a Government employee in or to which the United States or any Government agency has a right or interest and which has been patented or published, the Chairman of the Government Patents Board will make available copies, summaries, analyses and abstracts thereof to all Government agencies and to public libraries, universities, trade associations, scientists and scientific groups, industrial and commercial organizations, and all other interested groups of persons.

ARCHIE M. PALMER,
Chairman, Government Patents Board.

[F. R. Doc. 50-7995; Filed, Sept. 11, 1950; 8:52 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

HUNGARY

In § 127.276 *Hungary* (39 CFR 127.276; 15 FR 4606) amend paragraph (b) (4) to read as follows:

(b) *Parcel post.* • • •

(4) *Observations.* (i) The use of cloth, canvas, or boxes is recommended to protect the contents of packages.

(ii) Gift parcels with duty prepaid: (a) Under present Hungarian customs regulations, only gift parcels on which customs duties have been prepaid by senders in the United States are considered as "relief shipments" in Hungary. Such parcels are delivered to the addresses without collection of customs duty and without the necessity for an import permit. The United States Relief Parcel Service, Inc., 1220 Second Avenue, New York 21, N. Y., is authorized by the Hungarian Government to collect the duty, which the senders pay to that firm before mailing their parcels. Duty is charged on the weight of each parcel, in units of $1.50 for each 5 pounds or fraction thereof. The firm then sends the mailer one or more "duty-exemption" stickers to be pasted to the wrapper of each parcel.

(b) At least 80 percent by weight of the contents of each duty-paid parcel must consist of used clothing, including footwear, and not more than 20 percent may be new clothing or foodstuffs. Coffee, cocoa and tea are limited to 1 pound of coffee, ½ pound of cocoa, and ¼ pound of tea, which may be included in the foodstuffs sent in parcels weighing between 40 and 44 pounds only. Duty-paid parcels may not contain any nylon articles (new or used), yard goods, jewels or other luxury items, books or other printed matter, narcotics, or any articles intended for sale.

(c) Parcels bearing "duty-exemption" stickers must also bear customs declarations (Form 2966) bearing a complete list of the contents, and postage must be paid at the regular rates.

(iii) Other parcels: (a) Parcels mailed without prepayment of duty as outlined above, even though sent as gifts, are subject to customs duty in Hungary and the addressees must obtain import permits the same as for commercial shipments. Mailers of such parcels may be notified by the United States Relief Parcel Service, Inc., of the arrival of their parcels in Hungary and be given an opportunity to pay the duty through that firm. If this is not done and if the addressees are unable or unwilling to take delivery of the parcels they may be treated as undeliverable. Accordingly, it should be recommended to senders, if they do not wish to pay the duty or the return postage on their parcels, that they complete the customs declaration and dispatch note to indicate clearly that the parcel is to be abandoned if undeliverable.

(b) As an exception to the foregoing provisions, medicines (other than narcotics) sent as gifts will be delivered free of duty if the addressees submit to the Hungarian customs authorities a certificate that they are without means and that the medicines are needed by themselves or their families.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369; and the terms of postal conventions and agreements entered into pursuant to R. S. 398, 48 Stat. 943; 5 U. S. C. 372)

[SEAL] V. C. BURKE,
Acting Postmaster General.

[F. R. Doc. 50-7941; Filed, Sept. 11, 1950; 8:45 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter A—General Rules and Regulations

[Rev. S. O. 861]

PART 95—CAR SERVICE

DEMURRAGE ON CARS HELD UNDER LOAD AT GREAT LAKES PORTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 6th day of September A. D. 1950.

It appearing, that as the result of strikes on certain railroads serving Great Lakes ports and strike of certain dock workers at Great Lakes ports, a large number of cars of distressed coal, remnants of transshipment consignments, has accumulated which contributes to the present storage of open top railroad cars; in the opinion of the Commission an emergency exists requiring immediate action at Great Lakes ports: it is ordered, that:

§ 95.861 *Demurrage on cars held under load at Great Lakes ports.* (a) Rule 6 of B. T. Jones' Tariff I. C. C. 4137, supplements thereto or reissues thereof, providing car demurrage rules and charges on coal and other carload freight as described therein, applying at ports, sidings or storage yards named therein, held for lake shipment or delivery to vessels, be, and it is hereby, suspended to the extent provided in paragraph (b).

(b) On all loaded cars, constituting remnants of transshipment consignments, on hand the effective date of this order and held at points described in the above tariff, over eight (8) days as follows:

Lake coal, vessel fuel coal, coke, crushed stone, gravel, sand or other carload freight, when loaded in open top equipment reconsigned at the ports and storage yards named herein, for rail delivery, will be subject to the provisions of Rule 2 and Rule 3 from the first 7:00 A. M., after date on which notice of arrival was sent or given, as provided in Rule 3 (b) of this tariff to date and time reconsignment orders are received by this railroad.

(c) *Reconsigning charges.* Cars reconsigned under the provisions of this order shall not be subject to reconsigning charges.

(d) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign commerce.

(e) *Regulations suspended; announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this order is hereby suspended and each railroad subject to this order, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (section 141.9 (k)) of this chapter, announcing such suspension.

(f) *Effective date.* This order shall become effective at 7:00 A. M., September 7, 1950.

(g) *Expiration date.* This order shall expire at 7:00 a. m., September 18, 1950, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this order shall vacate and supersede Service Order No. 861 and Corrected Service Order No. 861, and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 50-7958; Filed, Sept. 11, 1950; 8:50 a. m.]

Subchapter B—Carriers by Motor Vehicle

[Ex Parte No. MC-43]

PART 207—LEASE AND INTERCHANGE OF VEHICLES

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

It appearing, that by order of June 26, 1950 (15 F. R. 4338, July 8, 1950), the Commission prescribed certain rules governing the lease and interchange of motor vehicles to become effective September 18, 1950, and that petitions for reconsideration have been filed by the teamsters union and others:

It is ordered, That the said order of June 26, 1950, be, and it is hereby, postponed indefinitely.

Dated at Washington, D. C., this 5th day of September A. D. 1950.

(49 Stat. 543, 546, 547, 557, 558, 559, 563, 566, 52 Stat. 1237, 1240, 1241, 54 Stat. 926, 927, 63 Stat. 465; 49 U. S. C. and Sup., 302, 304, 315, 316, 320, 324)

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 526]

EXEMPTION OF RECEIVING OF SOYBEANS FOR STORAGE BY COTTONSEED CRUSHING MILLS

NOTICE OF PRELIMINARY DETERMINATION OF INDUSTRY OF A SEASONAL NATURE

An application has been filed by the Mississippi Cottonseed Crushers Association of Jackson, Mississippi, for a determination that the industry engaged in receiving soybeans for storage in cottonseed crushing mills constitutes an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 (Sec. 7 (b) (3), 52 Stat. 1063; 29 U. S. C. 207 (b) (3)), and Part 526 of the regulations issued thereunder (29 CFR Part 526).

It appears from the application that:

(1) There is an industry which is engaged in the receiving of soybeans for storage in cottonseed crushing mills.

(2) The bulk of the soybean crop which moves to cottonseed crushing mills matures during the months of September, October and November and is received from growers by these mills immediately after harvesting.

(3) Cottonseed crushing mills engaged in storing soybeans receive for storage more than 50 percent of the annual volume in a period or periods amounting in the aggregate to not more than 14 workweeks.

Accordingly, upon consideration of the facts stated in said application, the Administrator hereby determines, pursuant to § 526.5 (b) (2) of the regulations relating to industries of a seasonal nature (29 CFR 526.5 (b) (2)), that a prima facie case has been shown for finding that there is an industry engaged in the receiving of soybeans for storage in cottonseed crushing mills and that such industry is of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and § 526.3 (b) of Part 526 of the regulations issued thereunder (29 CFR 526.3 (b)).

The term "receiving of soybeans for storage in cottonseed crushing mills" includes the unloading, weighing, placing into storage and storing of soybeans in cottonseed crushing mills and any operations or services necessary or incident to the foregoing, including incidental selling, during the period or periods when soybeans are being received for storage.

If no objection and request for hearing is received within 15 days following the publication of this preliminary determination the Administrator, pursuant to § 526.5 (b) (2) of the regulations will make a finding upon the prima facie case. Objections and requests for hearing from any interested person should be submitted in writing to the Wage and Hour and Public Contracts Divisions, Department of Labor Building, 14th Street and Constitution Avenue, NW., Washington 25, D. C. The application for exemption may be examined in Room 5118 at this address.

Signed at Washington, D. C., this 7th day of September 1950.

WM. R. MCCOMB,
Administrator.

NOTICES

DEPARTMENT OF AGRICULTURE

Office of the Secretary

DESIGNATION OF DISASTER AREAS HAVING NEED FOR AGRICULTURE CREDIT

Pursuant to the authority contained in Public Law 38, 81st Congress, approved April 6, 1949, the following counties were designated as disaster areas having a need for agricultural credit:

Idaho. The following county was designated, on August 4, 1950, as a disaster area due to flood:

Boundary.

North Carolina. The following counties were designated, on May 26, 1950, as disaster areas due to freezes:

Anson. Moore.
Montgomery.

The following counties were designated, on July 5, 1950, as disaster areas due to hail storm:

Edgecombe. Wake.
Johnston. Wilson.
Nash.

The following counties were designated, on July 14, 1950, as disaster areas due to severe hail and windstorm:

Franklin. Iredell.

Virginia. The following county was designated, on June 8, 1950, as a disaster area due to adverse weather conditions:

Rappahannock.

West Virginia. The following counties were designated, on July 10, 1950, as disaster areas due to flood:

Barbour. Lewis.
Doddridge. Ritchie.
Gilmer. Tyler.
Harrison. Upshur.

Done at Washington, D. C., this 6th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

ANDERSON RANCH RESERVOIR, ARROWROCK DIVISION, BOISE IRRIGATION PROJECT, IDAHO

ANNOUNCEMENT OF ANNUAL WATER RENTAL CHARGES

AUGUST 2, 1950.

Boise Irrigation Project, Idaho, Arrowrock Division, Anderson Ranch Reservoir; announcement of annual water rental charges (Act of June 17, 1902, 32 Stat. 388, as amended or supplemented).

1. Pursuant to article 22 of the contract between the United States and the Wilder Irrigation District, dated August 1, 1941, concerning the construction of Anderson Ranch Dam and Reservoir and related matters, and to like articles in similar contracts with the contractors listed below, irrigation water will be furnished from Anderson Ranch Reservoir on a rental basis during the irrigation season of 1950 to the following contractors:

New York Irrigation District.
Boise-Kuna Irrigation District.
Nampa & Meridian Irrigation District.
Wilder Irrigation District.
Pioneer Irrigation District.
Settlers Irrigation District
Farmers Union Ditch Company.
New Dry Creek Ditch Company.
Boise Valley Irrigation Ditch Company.
South Boise Mutual Irrigation Company, Ltd.
Ballantyne Ditch Company.
Big Bend Irrigation District.

2. The repayment contracts between the United States and the contractors listed above provide that water will be furnished on a rental basis to the contractors, in amounts proportionate to their contracted space in Anderson Ranch Reservoir, under the conditions which exist at present, i. e., prior to the substantial completion of Anderson Ranch Dam and Reservoir or prior to its completion to a point where stored water in an amount exceeding 275,000 acre-feet become available for irrigation use.

3. Contractors who do not plan to take their proportionate shares of water from Anderson Ranch Reservoir during the 1950 irrigation season should notify the Bureau of Reclamation in writing at the address given below, so that such water may be made available for other contractors who may require more than their proportionate shares.

4. Water rental charges for the 1950 irrigation season shall be $1.20 per acre-foot, payable by each contractor in advance of the release of water from Anderson Ranch Reservoir. Requests for water and the payments required by this announcement should be made to the Central Snake River District, Bureau of Reclamation, 214 Broadway, Boise, Idaho. Payments are preferred by check payable to Treasurer of the United States.

H. T. NELSON,
Regional Director.

[Public Announcement 3]

SOUTH COLUMBIA BASIN IRRIGATION DISTRICT, COLUMBIA BASIN PROJECT, WASHINGTON

PUBLIC ANNOUNCEMENT OF SALE OF PART-TIME FARM UNITS

AUGUST 11, 1950.

Columbia Basin Project, Washington, South Columbia Basin Irrigation District, Irrigation Block 2, public announcement of the sale of part-time farm units.

LANDS COVERED

SECTION 1. *Offer of part-time farm units for sale.* It is hereby announced that certain part-time farm units in Irrigation Block 2 (First Burbank Pumping Unit) of the Columbia Basin Project, Washington, will be sold to qualified applicants in accordance with the provisions of this announcement. Applications to purchase part-time farm units may be made beginning at 2:00 p. m., September 8, 1950.

The official plat of the block is on file in the office of the County Auditor, Walla Walla County, Walla Walla, Washington, and copies are on file in the offices of the Bureau of Reclamation at Coulee Dam and Ephrata, Washington, and the regional office at Boise, Idaho.

The part-time farm units to which this announcement pertains are described as follows:

a. Part-Time Farm Units in Irrigation Block 2, Columbia Basin Project, Walla Walla County, Washington, available to Veterans of World War II.

1 Part-time farm unit No.	2 Part-time farm unit area No.	3 Total acreage	4 Irrigable acreage	5 Price	6 Estimated cost special distribution system
20	4	4.58	2.42	$100.00	$513.00
21	4	3.41	3.07	100.00	611.00

71	2	1.66	1.33	100.00	350.00
75	2	.54	.39	100.00	209.00

SEC. 2. *Limit of acreage which may be purchased.* With certain minor exceptions, not more than one full- or part-time farm unit in the entire project may be held by any one owner or family. A family is defined as comprising husband or wife, or both, together with their children under 18 years of age, or all of such children if both parents are dead.

PREFERENCES OF APPLICANTS

SEC. 3. *Preference right of veterans of World War II.* A preference right to purchase the part-time farm units described in subsection 1a above, representing 75 percent of the total number of units offered for sale by this announcement, will be given to veterans of World War II (and in some cases to their husbands or wives or minor children) who submit applications during a 45-day period beginning at 2:00 p. m., September 8, 1950, and ending at 2:00 p. m., October 23, 1950, and who at the time of making application are within one of the five following classes:

a. Persons, including those under 21 years of age, who have served in the Army, Navy, Marine Corps, or Coast Guard of the United States for a period of at least ninety (90) days at any time on or after September 16, 1940, and prior to the termination of World War II, and have been honorably discharged.

b. Persons, including those under 21 years of age, who have served in said Army, Navy, Marine Corps, or Coast Guard during the period prescribed in subsection a above, regardless of length of service, and who have been discharged on account of wounds received or disability incurred during such period in the line of duty, or, subsequent to a regular discharge have been furnished hospitallization or awarded compensation by the government on account of such wounds or disability.

c. The spouse of any person in either of the first two classes listed in this section, if the spouse has the consent of such person to exercise his or her preference right. (See section 10 of this announcement regarding provision that a married woman must be head of a family.)

d. The surviving spouse of any person in either of the first two classes listed in this section, or in the case of the death or marriage of such spouse, the minor child or children of such person, by guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

e. The surviving spouse of any person whose death has resulted from wounds received or disability incurred in the line of duty while serving in said Army, Navy, Marine Corps, or Coast Guard during the period described in subsection a. above, or in the case of death or marriage of such spouse, the minor child or children of such person by a guardian duly appointed and qualified and who furnishes to the examining board acceptable evidence of such appointment and qualification.

SEC. 4. *Definition of honorable discharge.* An honorable discharge means:

a. Separation from the service by means of an honorable discharge or by the acceptance of resignation or a discharge under honorable conditions.

b. Release from active duty under honorable conditions to an inactive status, whether or not in a reserve component, or retirement.

Any person who obtains an honorable discharge as herein defined shall be entitled to veterans preference even though such person thereafter resumes active military duty.

SEC. 5. *Submission of proof of veterans status.* All applicants for the purchase of part-time farm units who claim veterans preference must attach to their applications a complete photostatic or other copy (both sides) of their certificates of honorable discharge, or of an official document of the respective branch of the service which shows clearly an honorable discharge, as defined in section 4 of this announcement, or constitutes evidence of other facts on which the claim for preference is based, and which clearly shows the period of service.

If preference is claimed by a surviving spouse or on behalf of the minor child or children of a deceased veteran, proof of the relationship asserted and of the veteran's service and death must be attached to the application. If the preference is claimed by the spouse of a living veteran, proof of such relationship and of the veteran's service and written consent to the exercise of the preference right must be attached to the application.

SEC. 6. *Preference rights of persons not establishing veterans preference.* A preference right to purchase the part-time farm units described in subsection 1.b. above, representing 25 percent of the total number of units offered for sale by this announcement, will be given to persons who do not establish veterans preference and who file applications during a 45-day period beginning at 2:00 p. m., September 8, 1950, and ending at 2:00 p. m., October 23, 1950.

QUALIFICATIONS REQUIRED OF PURCHASERS

SEC. 7. *Examining board.* An examining board of three members has been appointed by the Regional Director, Region 1, Bureau of Reclamation, to determine the qualifications and fitness of applicants for the purchase of part-time farm units offered for sale by this announcement. This board will make careful investigations to verify the statements and representations made by applicants. Any false statement may constitute grounds for rejection of an application and cancellation of the applicant's right to purchase a part-time farm unit under this announcement.

SEC. 8. *Minimum qualifications.* Certain minimum qualifications have been established which are considered necessary for the successful development of part-time farm units. Applicants must, in the judgment of the examining board, meet these qualifications in order to be eligible for the purchase of a part-time farm unit. Failure to meet them in any single respect will be sufficient cause for rejection of an application. No credit will be given for qualifications in excess of the required minimum. The minimum qualifications are as follows:

a. *Character and industry.* An applicant must be possessed of honesty, temperate habits, thrift, industry, seriousness of purpose, and a record of good moral conduct.

b. *Capital.* An applicant must possess at least $1,500 in excess of liabilities. Assets included in this net worth must consist of cash or property or assets readily convertible into cash. In considering the value of property convertible into cash, values represented by household goods or passenger cars will not be recognized by the board unless the application is accompanied by a statement specifying that the applicant, if successful, will convert such property into cash.

SEC. 9. *References.* An applicant shall list in section 9 of the part-time farm unit application blank the names and complete current addresses of five persons who are qualified and willing to give their frank opinions as to the applicant's character and industry. Persons named as references must be responsible citizens who are permanent residents of their own communities and whose standing in their communities can be checked. Each person named as a reference should have either a personal knowledge of the applicant's character and industry, or be able to verify the information he supplies with respect to these matters. Relatives will not be accepted as references.

SEC. 10. *Principal qualifications.* All applicants for the purchase of a part-time farm unit (except guardians) must meet the following requirements:

a. Be a citizen of the United States or have filed an adequate declaration of intention to become a citizen of the United States.

b. Not own outright or control under a contract to purchase an established farm unit or part-time farm unit on the Columbia Basin Project, Washington, and not own a total acreage of irrigable land in any Federal reclamation project which, together with the irrigable acreage of the part-time farm unit to be purchased, exceeds 160 acres at the time of execution of a contract for the purchase of a part-time farm unit.

c. Be the head of a family if a married woman, or a person under 21 years of age and not entitled to veterans preference. The head of a family is ordinarily the husband, but a wife or a minor child who is obliged to assume major responsibility for the support of the family may be the head of a family. Any applicant who is required to be the head of a family must submit evidence of such status which is satisfactory to the board.

WHERE AND HOW TO APPLY FOR A PART-TIME FARM UNIT

SEC. 11. *Application blanks.* Any person desiring to purchase a part-time farm unit offered for sale by this announcement must fill out the attached part-time farm unit application blank. Additional application blanks may be obtained from the offices of the Bureau of Reclamation at Ephrata, Washington; Coulee Dam, Washington; Post Office Box 937, Boise, Idaho, or Washington 25, D. C. Full and frank answers must be made to each question in the part-time farm unit application blank.

SEC. 12. *Filing of applications and proof of veterans status.* An application for the purchase of a part-time farm unit offered by this announcement must be filed with the Land Settlement Section, Bureau of Reclamation, Ephrata, Washington, in person or by mail.

No advantage will accrue to an applicant who presents an application in person. Every application must be accompanied by proof of veteran status if veterans preference is claimed. (See section 5 of this announcement.)

SEC. 13. *Applications become bureau records.* Each application submitted, including corroborating evidence, will become a part of the permanent records of the Bureau of Reclamation and cannot be returned to the applicant. For this reason, original discharge or citizenship papers should not be submitted.

SEC. 14. *Importance of complete applications.* It shall be the sole responsibility of an applicant to submit a complete application, including the corroborating evidence required by this announcement. Failure of an applicant to provide complete answers to all questions in the part-time farm unit application blank, or failure to provide all other information required by this announcement, will subject an application to rejection.

SELECTION OF QUALIFIED APPLICANTS

SEC. 15. *Priority of applications.* All applications will be classified for priority purposes and considered as follows:

a. *First priority group.* All complete applications filed prior to 2:00 p. m. October 23, 1950, which are accompanied by proof sufficient, in the opinion of the board, to establish eligibility for veterans preference. All such applications will be treated as simultaneously filed.

b. *Second priority group.* All complete applications filed prior to 2:00 p. m., October 23, 1950, by applicants who do not claim veterans preference or which are not accompanied by proof sufficient, in the opinion of the board, to establish eligibility for veterans preference. All such applications will be treated as simultaneously filed.

c. *Third group.* All complete applications filed after 2:00 p. m., October 23, 1950, whether or not accompanied by proof of veterans preference. Such applications will be considered in the order in which they are filed, if any part-time farm units become available for sale to applicants within this group.

SEC. 16. *Preliminary examination to determine priority groups; right of appeal.* Each application will be examined for the purpose of ascertaining (a) that the application is complete and (b) that the applicant's right to veterans preference has been fully established. Any incomplete application will be rejected. Any applicant without veterans preference, or any applicant claiming veterans preference but failing to establish proof of qualification for such preference shall be placed in the second priority group, if the application was filed before 2:00 p. m., October 23, 1950.

In case of rejection or placement in the second priority group, the applicant shall be notified by the board by registered mail, with return receipt requested, of such rejection or placement, the reasons therefor, and of the right to appeal in writing to the Regional Director, Region 1, Bureau of Reclamation. All appeals must be received in the office of the Land Settlement Section, Bureau of Reclamation, Ephrata, Washington, within 15 days of the applicant's receipt of such notice, or in any event, within 30 days from the date when the notice is mailed to the last address furnished by the applicant. The Land Settlement Section will forward the appeal promptly to the Regional Director. If an appeal is decided by the Regional Director in favor of the applicant, the application will be referred to the board for inclusion in the drawing. All decisions on appeals shall be based exclusively on information obtained prior to rejection of applications or placement in the second priority group. The Regional Director's decision on all appeals shall be final.

SEC. 17. *Public drawings.* After the expiration of the appeal periods fixed by the above-mentioned notices and after decision on all appeals, the board will conduct public drawings of the names of the applicants in each of the two priority groups as defined in section 15 of this announcement. Applicants need not be present at the drawings in order to participate therein. The names of a sufficient number of applicants in each priority group (not less than three times the number of part-time farm units to be offered for sale to each priority group) shall be drawn and numbered consecutively in the order drawn for the purpose of establishing the order in which the applications will be further examined by the board to determine whether the applicants meet the minimum qualifications prescribed in this announcement, and to establish the priority of qualified applicants for the selection of part-time farm units. After such drawings, the board shall notify each applicant of his respective standing as a result of the drawing.

SEC. 18. *Submission of corroborating evidence.* A sufficient number of applicants for the purchase of the part-time farm units whose names were drawn will be notified by registered mail with return receipt requested to submit the information indicated in items "a." through "d." below. Such information must be received within 20 days of the applicant's receipt of such notice or within 30 days from the date when the notice was mailed to the last known address furnished by the applicant.

a. A statement from an officer of a bank or other responsible and reputable credit agency, or other proof satisfactory to the board corroborating the applicant's statement of his net worth. (See subsection 8. b. of this announcement.)

b. References, on forms to be provided, from at least three of the five persons listed in section 9 of the part-time farm unit application blank. The applicant shall be responsible for seeing that the reference forms are completed and mailed to the board by the persons completing them.

c. If the applicant is not native born, evidence of citizenship or of declared intention to become a citizen. (See subsection 10.a. of this announcement.)

d. If the applicant is a married woman or a non-veteran under 21 years of age, evidence of status as head of family. (See subsection 10.c. of this announcement.)

SEC. 19. *Final examination.* After the information requested above has been received or the time for submitting it has expired, the board shall examine, in the order drawn, a sufficient number of applications to determine the applicants who will be permitted to purchase part-time farm units. This examination will determine the sufficiency, authenticity, and reliability of the information and evidence submitted by the applicants. If the examination indicates that an applicant is qualified, the applicant shall be required to appear for a personal interview with the board for the purposes of: (a) affording the board any additional information desired relative to his qualifications; (b) affording the applicant any information desired relative to conditions in the area and the problems and obligations relative to development of a part-time farm unit, and (c) affording the applicant an opportunity to examine the part-time farm units.

If an applicant fails to appear before the board for a personal interview on the date requested, he will thereby forfeit his priority position as determined by the drawing.

If the board finds that an applicant's qualifications fulfill the requirements prescribed in this announcement, such applicant shall be notified, in person or by registered mail, that he is a qualified applicant and shall be given an opportunity to select one of the part-time farm units then available for purchase. Such notice will require the applicant to make a field examination of the part-time farm units available to him and in which he is interested, to select a part-time farm unit, and to notify the board of such selection within the time specified in the notice. If the applicant fails to supply any of the information required, or if the board finds that an applicant's qualifications do not meet the requirements prescribed in this announcement, the applicant shall be disqualified and shall be notified by the board by registered mail of such disqualification and the reasons therefor and of the right to appeal to the Regional Director within the time and in the manner prescribed in section 16 of this announcement.

SELECTION OF PART-TIME FARM UNITS

SEC. 20. *Order of selection*—a. *Priority groups.* The applicants who have been notified of their qualification for the purchase of a part-time farm unit will successively exercise the right to select a part-time farm unit in accordance with the priorities established in the two priority groups by the drawings. If a part-time farm unit becomes available through failure of a successful applicant to exercise his right of selection or failure to complete his purchase contract, it will be offered to the next qualified applicant in the same priority group who has not made a selection at the time the part-time farm unit is again available. An applicant who is considered to be disqualified as a result of the personal interview will be permitted to exercise his right to select, notwithstanding his disqualification, unless he voluntarily surrenders this right in writing. If, on appeal, the action of the board in disqualifying an applicant as a result of the personal interview is reversed by the Regional Director, the applicant's selection shall be effective, but if such action of the board is upheld by the Regional Director, the part-time farm unit selected by this applicant will become available for selection by qualified applicants who have not exercised their right to select.

If any part-time farm units that are available to either of the priority groups remain unselected after all qualified applicants in that group have made selections, such units shall be made available to qualified applicants remaining in the other priority group.

b. *Third group.* Any part-time farm units remaining unselected after all qualified applicants in both priority groups have had an opportunity to select a part-time farm unit will be offered to applicants in the third group in the order in which their applications were filed, subject to the determination by the board, made in accordance with the procedure prescribed for priority group applicants, that such applicants meet the minimum qualifications prescribed by this announcement.

c. *Disposal of unsold units.* If any part-time farm units offered by this announcement remain unsold for a period of two years following the date of this announcement, the District Manager, Columbia River District, Bureau of Reclamation, may sell, lease, or otherwise dispose of such units to qualified applicants without regard to the provisions of section 17 of this announcement.

SEC. 21. *Failure to select.* If any applicant refuses to select a part-time farm unit or fails to do so within the time specified by the board, such applicant shall forfeit his position in his group. His name will be placed last in that group.

PURCHASE OF SELECTED UNIT

SEC. 22. *Execution of purchase contract.* When a part-time farm unit is selected by an applicant as provided in section 20 of this announcement, the District Manager will promptly give the applicant a written notice confirming the availability to him of the unit selected and will furnish the necessary purchase contract, together with instructions concerning its execution and return. In that notice the District Manager will also inform the applicant of the amount of the irrigation charges assessed by the South Columbia Basin Irrigation District against the part-time farm unit which he has selected, or if such charges have not been assessed, of an estimate of the amount of the charges for the year in which the purchase is made, to be deposited with the District Manager.

SEC. 23. *Terms of sale.* Contracts for the sale of part-time farm units pursuant to this announcement will contain, among others, the following principal provisions:

a. *Down payment.* An initial or down payment of $100 to apply on the purchase price of the part-time farm unit as indicated in section 1 of this announcement will be required. Larger proportions, or the entire amount of the price, may be paid initially at the purchaser's option.

b. *Schedule for payment of balance; interest rate.* If only a portion of the purchase price is paid initially, the remainder shall be payable within a period of 10 years following the date of the contract. The schedule of payments, which will be established by the District Manager, will provide for equal annual payments to retire the principal with interest at 3 percent per annum. Payment of any or all installments, or any portion thereof, may be made without penalty before their due dates at the purchaser's option.

c. *Payment for Special Irrigation Water Distribution System.* The cost of the Special Irrigation Water Distribution System, constructed by the United States between the points of water delivery for part-time farm unit areas and each part-time farm unit in those areas, shall be repaid to the United States by the purchasers of the part-time farm units. The term "part-time farm unit area" means the area embracing one or more part-time farm units which are to be served by a single special irrigation water distribution system. This cost will be divided among the part-time farm units and the share of the cost so apportioned to any particular part-time farm unit will be included as a separate item in the total amount to be paid to the United States under the sales contract. The exact amount to be charged against each unit will be determined by the District Manager prior to execution of contracts by purchasers.

It is the policy to distribute against the units covered by this announcement the total cost of the special distribution systems, as determined at the time of the execution of the contracts. It is now believed that the estimated cost for each unit, as indicated in section 1 of this announcement, will prove to be adequate, but the amounts to be stated in the contracts may possibly be greater than the estimates to be consistent with the policy above stated.

The amount allocated to each part-time farm unit shall be paid with interest at 3 percent per annum according to a schedule established by the District Manager which will provide for 10 equal annual installments that coincide with those established for payment of the remainder of the purchase price. Any of these payments may be made without penalty at an earlier date. In instances where the combined amount of the annual installment on the remainder of the cost of the land and the annual installments for the special irrigation distribution system is more than $50, the District Manager will establish schedules for semiannual payments if the purchasers so desire.

d. *Operation and maintenance of the Special Irrigation Distribution System.* The Special Irrigation Water Distribution System shall be operated and maintained by the collective action of purchasers within the part-time farm unit area served by that system. This shall be done through an organization acceptable to the board of directors of the South Columbia Basin Irrigation District and having authority to order and apportion, among the part-time farm units eligible to receive water, the water to be delivered and to collect as a minimum, the necessary costs of the operation and maintenance of the special irrigation water distribution system.

e. *Building requirements.* A primary objective of the United States in its part-time farm unit program is to bring about early development by the establishment of suitable dwellings on all units. To attain this objective, the purchasers shall be required to furnish evidence of substantial completion of a dwelling on the part-time farm unit within 18 months of the date of the sales contract or commencement on the part-time farm unit within that period of a dwelling which will be substantially completed within 2½ years from the date of the contract. If the dwelling is only started within the above said 18-month period, the District Manager may require assurance in writing from a reputable person or agency that the construction of a dwelling on the part-time farm unit to be substantially completed within the required time will be financed. If title to the part-time farm unit is desired before the dwelling is substantially completed, this assurance of financing will be required. The United States will, if necessary, place the deed to the purchaser in escrow with an agent mutually agreeable to the parties to the contract upon condition that the deed be released to the purchaser or a person designated by the purchaser upon commencement of the construction of said dwelling. In extraordinary situations, the requirements concerning the completion date of the dwelling may be extended by the District Manager pursuant to his determination that such extension would be in the interest of the orderly development of the block, but in no case shall more than two extensions be made, neither of which shall exceed six months in length.

Dwellings, to meet the approval of the District Manager, shall be of long-lived materials, suitable for year-round occupancy and of attractive appearance. Unless these requirements are waived by the District Manager, dwellings shall be provided with domestic water piped in under pressure and sewage disposal facilities that meet the standards established by the Washington State Department of Health.

SEC. 24. *Copies of contract form.* The terms listed above, and all other standard contract provisions are contained in the purchase contract form, copies of which may be obtained by writing to the Bureau of Reclamation, Ephrata, Washington; Coulee Dam, Washington; Post Office Box 937, Boise, Idaho, or Washington 25, D. C.

IRRIGATION COSTS

SEC. 25. *Development period charges.* A 10-year development period has been announced for Irrigation Block 2, during which payment of construction charge installments will not be required. This development period will commence with the calendar year 1951. It is estimated that the cost of operating and maintaining the project irrigation system during the development period for the entire irrigation block, consisting of approximately 1,200 irrigable acres, will average $6,000 per annum. This figure is preliminary and subject to correction as experience provides data for calculation of more accurate estimates. A notice announcing charges for the first year of the development period will be issued prior to January 1, 1951, by the Regional Director, who has the responsibility for fixing these charges. The present plans of the Regional Director are these:

a. It will be the policy of the United States to deliver water to each part-time farm unit area at one point.

b. An allotment of water will be determined for each group of part-time farm units receiving service through one turnout on the basis of the acreage of land in each water duty class in the group.

c. Charges will be fixed with the object each year of collecting the average estimated cost of operation and maintenance per irrigable acre in the block multiplied by some factor determined to represent the additional costs resulting from the small size of part-time units. In any case, a minimum charge per irrigable acre will be fixed and assessed against each part-time farm unit whether water is used or not. Water use above the amount paid for by the minimum charge will be charged on a per acre-foot basis. In addition to the charge made by the Bureau of Reclamation, the Irrigation District will levy an additional charge to cover administrative costs and delinquencies in collections.

SEC. 26. *Construction repayment period charges—a. Operation and maintenance charges.* After the development period has ended, assessment procedure will be wholly determined by the Irrigation District Board of Directors. However, charges for operation and maintenance of the project irrigation system will be uniform for irrigation blocks throughout the project, except as they may be varied by land classes. There will be a minimum charge per irrigable acre which will entitle the water users to one acre-foot of water per acre less than the estimated normal requirement, and water in excess of the quantity covered by the minimum charge will be paid for on an acre-foot basis in accordance with a graduated, ascending scale as provided in the contract with the South Columbia Basin Irrigation District.

b. *Construction charges.* The contract between the United States and the South Columbia Basin Irrigation District requires the payment of construction charges for the project irrigation system during the forty years following the development period. The average annual construction charge per irrigable acre for the entire project will be $2.12. Thus, the total construction charge payment will average $85 per irrigable acre. The contract further provides that construction charges shall be graduated according to the relative repayment ability of the land; consequently, the charge per irrigable acre will be larger for the better lands than for the poorer lands.

WILLIAM E. WARNE,
Assistant Secretary of the Interior.

FEDERAL POWER COMMISSION

[Docket No. G-1452]

TEXAS GAS TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

SEPTEMBER 5, 1950.

On July 31, 1950, Texas Gas Transmission Corporation (Applicant), a Delaware corporation with its principal place of business in Owensboro, Kentucky, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the acquisition and operation of certain natural gas facilities subject to the jurisdiction of the Commission, all as more fully described in such application on file with the Commission and open to the public.

Applicant has requested that this application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for non-contested proceedings, and it appears to be a proper one for disposition under the aforesaid rule, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on August 12, 1950 (15 F. R. 5321-5322).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing be held on September 20, 1950, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 6, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50-7940; Filed, Sept. 11, 1950; 8:45 a. m.]

GENERAL SERVICES ADMINISTRATION

SECRETARY OF STATE

DELEGATION OF AUTHORITY WITH RESPECT TO PURCHASES AND CONTRACTS FOR SUPPLIES AND SERVICES

1. Pursuant to the authority vested in me by the provisions of the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress, and having determined that such action is advantageous to the Government in terms of economy, efficiency, and national security, I hereby delegate to the Secretary of State authority to make purchases and contracts for supplies and services pursuant to the provisions of Title III of the aforesaid act for the following items and purposes:

a. Stenographic reporting services.
b. Translating services.
c. Analysis and tabulation of technical information.
d. Preparation of special maps, globes, and geographic aids.
e. Maintenance, improvement, and repair of diplomatic and consular properties in foreign countries, including minor construction on Government-owned properties.
f. Maintenance and operation of commissary and mess services abroad.
g. Fuel and utilities for Government-owned or leased property abroad.
h. Rental or lease, for periods not exceeding ten years, of offices, buildings, grounds, and living quarters for the use of the Foreign Service abroad.
i. Electrical appliances, motor driven equipment (other than motor vehicles), and household furniture and furnishings not otherwise provided for, for use abroad.
j. Household equipment to be loaned pursuant to law.
k. United States representation in United Nations.
l. United States representation in United Nations Educational, Scientific, and Cultural Organization.
m. International Refugee Organization.
n. International Civil Aviation Organization.
o. International Contingencies—participation by the United States in international activities for which specific appropriations have not been provided pursuant to treaties, conventions, or special acts of Congress.
p. International Boundary and Water Commission, United States and Mexico—drilling and testing of foundations and dam sites, purchase of planographs and lithographs, and leasing of private property to remove therefrom sand, gravel, stone, and other materials.
q. International Information and Educational Activities—radio activities and acquisition and production of motion pictures and visual materials and purchase or rental of technical equipment and facilities therefor, narration and script-writing, by contract or otherwise, acquisition of printed materials, purchase of objects for presentation to foreign governments, schools, or organizations, and information and educational activities outside the continental United States.
r. Philippine Rehabilitation—all expenses outside the United States.
s. Supplies or services which are to be procured and used outside the limits of the United States and its possessions.

2. The authority contained herein may be delegated and redelegated in accordance with section 307 (a) of the aforesaid act.

3. This delegation of authority shall be effective July 1, 1950.

Dated: September 6, 1950.

JESS LARSON,
Administrator.

COMMISSIONER AND REGIONAL DIRECTORS OF PUBLIC BUILDING SERVICE

DELEGATION OF AUTHORITY WITH RESPECT TO SURPLUS PROPERTY DISPOSAL

1. Pursuant to the authority vested in me by the provisions of the Federal Property and Administrative Services Act of 1949 (Public Law 152, 81st Congress), Delegation of Authority No. 33, July 6, 1950, 15 F. R. 4459 is hereby revised to provide as follows:

a. Any authority delegated and transferred to the Commissioner of Liquidation Service by Delegation of Authority No. 17, February 9, 1950, 15 F. R. 850, relating to surplus real property and related personal property, is hereby delegated to the Commissioner of Public Buildings Service. Such authorities relating to surplus property as have been delegated or redelegated or continued in effect by the Commissioner of Liquidation Service or the Liquidator of War Assets, which have not subsequently been expressly revoked, shall remain in full force and effect until superseded by the Administrator of General Services or the Commissioner of Public Buildings Service. Consistent with the foregoing, Regional Directors, Public Buildings Service are hereby authorized to exercise the authorities relating to surplus property heretofore exercised by Regional Directors, Liquidation Service, and to execute any appropriate documents incidental to the exercise of such authority.

b. The authority delegated herein may be redelegated to any officer, official or employee of the Public Buildings Service.

c. The authority conferred herein shall be exercised in accordance with such regulations, policies, administrative procedures and controls as are in effect on and after the effective date hereof.

d. This delegation of authority shall be effective as of July 1, 1950.

2. Delegation of Authority No. 17, February 9, 1950, 15 F. R. 850, is hereby superseded as of the effective date of this delegation.

Dated: September 6, 1950.

[SEAL] JESS LARSON,
Administrator.

GOVERNMENT PATENTS BOARD

Office of the Chairman

[Administrative Order No. 2]

SECRETARY OF COMMERCE

DELEGATION OF FUNCTIONS WITH REFERENCE TO PROTECTION ABROAD OF INVENTIONS RESULTING FROM RESEARCH FINANCED BY THE GOVERNMENT

The functions and duties transferred to the Chairman of the Government Patents Board by paragraph 5 of Executive Order 10096 (15 F. R. 389) of January 23, 1950, are, until further order, hereby delegated to the Secretary of Commerce: *Provided, however,* That

(a) All matters of policy arising under this delegation shall be subject to the approval of the Chairman of the Government Patents Board; and

(b) The Secretary of Commerce shall submit to the Chairman of the Government Patents Board a written report quarterly, or otherwise as the Chairman may request, on all operations under this delegation during the preceding calendar quarter or other period designated.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25389]

PULPBOARD FROM BOGALUSA, LA., TO MARION, N. J.

APPLICATION FOR RELIEF

SEPTEMBER 7, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1018.

Commodities involved: Pulpboard or fibreboard, carloads.

From: Bogalusa, La.

To: Marion, N. J.

Grounds for relief: Competition with rail-water-truck carriers.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1018, Supplement 107.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

IRON AND STEEL ARTICLES FROM BIRMINGHAM, ALA., TO DYERSBURG, TENN.

APPLICATION FOR RELIEF

SEPTEMBER 7, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 920.

Commodities involved: Iron and steel articles and tin or terne plate, carloads.

From: Birmingham, Ala., and points taking same rates.

To: Dyersburg, Tenn.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 920, Supplement 186.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

GRAIN AND GRAIN PRODUCTS FROM OHIO AND MISSISSIPPI RIVER CROSSINGS TO THE SOUTH

APPLICATION FOR RELIEF

SEPTEMBER 7, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to the tariffs named below.

Commodities involved: Grain, grain products and related articles, carloads.

From: Ohio and Mississippi River crossings.

To: Points in the south.

Grounds for relief: To restore former relationships and gateway equalizations.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1128, Supplements 38 and 40, and C. A. Spaninger's tariff I. C. C. No. 1129, Supplement 21.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

PLATE OR SHEET PIPE FROM LOUISIANA TO TEXAS

APPLICATION FOR RELIEF

SEPTEMBER 7, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3894.

Commodities involved: Plate or sheet pipe, not less than 24 inches in diameter, carloads.

From: Points in Louisiana.

To: Points in Texas.

Grounds for relief: Circuitous routes and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3894, Supplement 22.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in is discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-62]

THE SOUTHEAST CO.

NOTICE OF FILING OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 6th day of September A. D. 1950.

Notice is hereby given that an application has been filed with this Commission, pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 ("act"), by The Southeast Company ("Southeast"), formerly known as Southeast Power & Light Company ("Southeast Power"), a registered holding company, for an order under the act declaring that the company has ceased to be a holding company.

All interested persons are referred to said application which is on file in the offices of the Commission for a complete statement relating to the requested finding and order, which is summarized as follows:

The application represents that Southeast does not now own, control or hold with power to vote, any outstanding voting securities of a public utility company or of a company which is a holding company as defined in the act. The Commission's files show that on January 25, 1936, Southeast Power registered with the Commission as a holding company at which time it held all the outstanding common stock of Southeast Arkansas Telephone & Power Company ("Southeast Arkansas"), Tuskegee Light & Power Company ("Tuskegee"), and Ouachita Ice & Utilities, Inc. ("Ouachita"), and 2,000 of the 3,000 shares of outstanding common stock of West Memphis Power & Water Company ("West Memphis"), all of which companies were electric utility companies. Southeast represents that all the assets of West Memphis, Southeast Arkansas and Ouachita have been disposed of and the companies dissolved, and that the common stock of Tuskegee, Alabama. Applicant further represents that its stockholders have voted to liquidate and dissolve the company and distribute its assets, which liquidation and dissolution are now in progress.

Notice is further given that any interested person may, not later than September 25, 1950, request the Commission in writing that a hearing be held on such matter stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 25, 1950, said application, as filed or as amended, may be granted.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2325]

CONSOLIDATED NATURAL GAS CO. ET AL.

SUPPLEMENTAL ORDER PERMITTING ISSUANCE AND SALE OF NOTES

In the matter of Consolidated Natural Gas Company, The Peoples Natural Gas Company, New York State Natural Gas Corporation, and Hope Natural Gas Company. File No. 70-2325.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 6th day of September, A. D., 1950.

Consolidated Natural Gas Company ("Consolidated"), a registered holding company, and its subsidiaries, The Peoples Natural Gas Company ("Peoples"), New York State Natural Gas Corporation ("New York State"), and Hope Natural Gas Company ("Hope"), having filed an amendment to a joint application-declaration heretofore filed pursuant to sections 6 (b), 7, 9 (a), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 with respect to the following transaction:

The amendment requests the entry of a supplemental order modifying the Commission's order dated March 10, 1950 herein, permitting Consolidated, pursuant to the terms of a loan agreement entered into with four commercial banks, to issue and sell, from time to time, during 1950, an aggregate of $14,000,000 principal amount of its 2 percent promissory notes due March 15, 1951, subject to renewal each year for four additional years at the option of Consolidated, and subject to Consolidated obtaining an order of the Commission authorizing each such renewal. The requested supplemental order would permit the issuance and sale of an additional $6,000,000 of such notes resulting in an aggregate of $20,000,000, subject to the same terms and conditions as heretofore permitted.

Our Order of March 10, 1950, also permitted the issuance and sale by Peoples and New York State, to Consolidated, during the year 1950, of $6,000,000 and $8,000,000 principal amounts, respectively, of their 2 percent promissory notes maturing March 1, 1951, subject to renewals on the same terms as the notes to be sold by Consolidated. The requested supplemental order would permit the issuance and sale (i) of an additional $2,000,000 principal amount of such notes by Peoples resulting in an aggregate of $8,000,000; and (ii) of an additional $2,500,000 principal amount of such notes by New York State, resulting in an aggregate of $10,500,000; and (iii) of $2,000,000 principal amount of like notes by Hope. The proceeds from the sale of such notes will be used to finance, in part, the construction and gas storage programs of the subsidiaries.

It is stated that the necessity for the present proposal arises in most part from increases over original estimates of the cost of the construction and gas storage programs of the several subsidiaries herein. It is also stated that the issuance and sale of notes by Consolidated and its subsidiaries are part of a general financial plan adopted by Consolidated and its subsidiaries for the purpose of securing needed capital funds on an interim basis for a period not to exceed five years. It is indicated that during the five-year period the notes herein proposed together with such further notes as shall be issued and sold by Consolidated, will be refinanced by the issuance and sale of debentures or capital stock, or both. Any renewal of notes or issuance of further notes or other securities will be subject to further order of this Commission.

The proposed issuance and sale of notes by Peoples and Hope have been approved by the Pennsylvania Public Utility Commission and the West Virginia Public Service Commission, respectively. It appears that the proposed issuance and sale of notes by Consolidated and by New York State are not subject to the jurisdiction of any State regulatory commission.

Said amendment having been duly filed and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said amendment within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the applicable requirements of the act are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said amended joint application-declaration be granted and permitted to become effective, and deeming it appropriate to grant a request of applicants-declarants that the order become effective at the earliest date possible:

It is hereby ordered, That the amended joint application-declaration be, and the same hereby is, granted and permitted to become effective forthwith, and the Commission's order of March 10, 1950, herein is hereby modified so as to permit the issuance and sale, from time to time during the year 1950, of 2 percent promissory notes (i) by Consolidated to commercial banks in an aggregate principal amount of $20,000,000, and (ii) by Peoples, New York State and Hope to Consolidated of an aggregate principal amount of $8,000,000, $10,500,000 and $2,000,000, respectively, subject to the terms and conditions prescribed by Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2464]

NEW ENGLAND GAS AND ELECTRIC ASSN. AND NEW HAMPSHIRE ELECTRIC CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Seurities and Exchange Commission, held at its office in the city of Washington, D. C., on the 6th day of September A. D. 1950.

Notice is hereby given that a joint application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Gas and Electric Association ("Negea"), a registered holding company, and its utility subsidiary, New Hampshire Electric Company ("New Hampshire"). Applicants-declarants have designated sections 6 (b), 9, 10 and 12 of the act as applicable to the proposed transactions.

All interested persons are referred to said joint application-declaration which is on file in the office of the Commission for a statement of the transactions therein proposed which may be summarized as follows:

It is proposed that New Hampshire issue 15,000 shares of $4.50 Preferred Stock of a par value of $100 per share and 140,000 shares of Common Stock, no par value, with an aggregate stated value of $2,100,000, and to exchange the same for all of its presently outstanding common stock which is held by Negea, consisting of 150,000 shares of common stock of no par value having an aggregate stated value of $3,595,000. The stated purpose of the proposed transactions is to facilitate disposition by Negea of its interests in New Hampshire.

The proposed issuances and exchange of securities have been approved by the Public Service Commission of New Hampshire.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the proposed transactions and that said joint application-declaration should not be permitted to become effective except pursuant to the further order of this Commission:

It is ordered, Pursuant to the applicable provisions of the act and rules and regulations promulgated thereunder, that a hearing with respect to said joint application-declaration be held on September 26, 1950, at 10:00 a. m., e. s. t., at the offices of this Commission, 425

Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 101 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise participate in this proceeding shall file with the Secretary of the Commission, on or before September 25, 1950, a written request therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the application-declaration and that, upon the basis thereof and without prejudice to additional matters or questions being specified upon further examination, the following matters or questions are presented for consideration:

(1) Whether the issuance and exchange of preferred stock are solely for the purpose of financing the business of New Hampshire.

(2) Whether the preferred stock meets the standards of section 7 (c) of the act.

(3) Whether the preferred stock is reasonably adapted to the security structure and earning power of New Hampshire.

(4) Whether the issuance and exchange of preferred stock are necessary and appropriate to the economical and efficient operation of New Hampshire's business.

(5) What terms and conditions, if any, with respect to the proposed transactions should be prescribed in the public interest or for the protection of investors and consumers.

(6) Generally whether the proposed transactions comply with the applicable provisions of the act, rules and regulations and orders promulgated thereunder.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this notice of filing and order for hearing to Negea and New Hampshire and to the Public Service Commission of New Hampshire and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935; and that further notice shall be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 50-7944; Filed, Sept. 11, 1950; 8:46 a. m.]

[File No. 70-2466]

STANDARD GAS AND ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 5th day of September 1950.

Notice is hereby given that an application has been filed pursuant to the Public Utility Holding Company Act of 1935 ("Act") and the rules and regulations promulgated thereunder by Standard Gas and Electric Company ("Standard Gas"), a registered holding company. The applicant designates sections 9 and 10 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 15, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter, such application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized below:

In partial compliance with the Commission's order of August 8, 1941, which requires in effect, among other things, that Standard Gas sever its relationship, both direct and indirect, with Louisville Gas and Electric Company, a Kentucky corporation ("Louisville"), Standard Gas has notified the Commission pursuant to the provisions of Rule U-44 (c) under the act that it intends to sell 137,857 shares of common stock, without par value, of Louisville owned by Standard Gas (File No. 70-2465). Bids for such stock will be invited by a newspaper advertisement which will provide that interested persons shall notify Standard Gas of their desire for an opportunity to purchase such stock. Thereafter Standard Gas will advise all such persons of the conditions of sale and the time for submitting bids, which time shall be not less than twelve hours after such advice has been given.

The foregoing proposed sale is not a part of the present application but in connection therewith and for the stated purpose of facilitating the proposed sale, Standard Gas seeks permission by the present application to acquire shares of the Louisville common stock, in order to stabilize the market price thereof, by purchases on the New York Stock Exchange during the period beginning on the day upon which Standard Gas invites offers to purchase its present holdings of Louisville common stock and ending at the time of the acceptance of an offer or the rejection of all offers, but in no event for a period longer than three days.

Standard Gas represents that any shares of common stock of Louisville acquired pursuant to said stabilization program will be disposed of promptly by Standard Gas after appropriate notice to the Commission.

Standard Gas requests that the Commission's order herein be entered as soon as practicable and that it become effective upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 54-169, 4-63, 68-84]

MARKET STREET RAILWAY CO. ET AL.

NOTICE OF FILING OF MODIFIED AMENDED PLAN AND NOTICE OF AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 5th day of September, 1950.

In the matter of Market Street Railway Co., File No. 54-169; Market Street Railway Company, Standard Gas and Electric Company, and Certain of Its Subsidiary Companies, File No. 4-63; Russell M. Van Kirk, Bloomfield Hulick, Edmund T. Willetts, Committee for the Market Street Railway Company Prior Preference Capital Stock, File No. 68-84.

By Order dated May 3, 1950 (Holding Company Act Release No. 9834), the Commission approved, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("Act") an Amended Plan of Market Street Railway Company ("Market Street"), providing for the distribution of its assets and for its liquidation and dissolution, as theretofore modified pursuant to the Commission's Findings and Opinion dated September 30, 1949 (Holding Company Act Release No. 9376) and its Supplemental Findings and Opinion dated March 10, 1950 (Holding Company Act Release No. 9718). Market Street is a non-utility subsidiary company of Standard Gas and Electric Company ("Standard Gas") and Standard Power and Light Corporation ("Standard Power"), registered holding companies under the Act.

Thereafter, in accordance with the request of Market Street, the Commission applied to the United States District Court for the Northern District of California, Southern Division, for enforcement of the Amended Plan as so modified (In the matter of Market Street Railway Company, Civil Action File No. 29723). Said Court, following a hearing on the Commission's application and objections thereto, entered an order dated July 11, 1950, finding the amended plan, as so modified, fair and equitable and appropriate to effectuate the provisions of the act except insofar as it fails to provide for compensation to William J. Cogan, Esq., for his services, and except with respect to the amount of fees allowed for the services of Milton Paulson, Esq., and his associates, as to which the Court reserved jurisdiction pending reconsideration by the Commission. Said order of the Court remanded the matter to the Commission for the purpose of fixing an allowance to Cogan, for reconsideration of the allowance to Paulson, and for consideration of modifications to the amended plan, as theretofore modified, not inconsistent with the opinion of the Court rendered on July 7, 1950.

On August 7, 1950, the Commission filed its notice of appeal to the United States Court of Appeals for the Ninth Circuit, appealing from those portions of the District Court Order dated July 11, 1950, which found that the Commission's disapproval of any allowance of fee for Cogan is not supported by substantial evidence and that the amended plan of Market Street, as theretofore modified, insofar as it fails to provide for compensation to Cogan for his services, is not fair and equitable and appropriate to effectuate the provisions of section 11 of the act, and which remanded the proceeding to the Commission for the purpose of fixing an allowance to Cogan.

Notice is hereby given that Market Street has filed with the Commission, pursuant to section 11 (e) of the act, a modified amended plan, further modifying its amended plan so as to provide for the liquidation and dissolution of Market Street in two steps, and an application for approval thereof.

All interested persons are referred to said modified amended plan and to said application, which are on file in the offices of the Commission, for a full statement of the transactions therein proposed, which are summarized as follows:

1. Market Street will wind up and liquidate its affairs in two steps. Step one purports to consist of those provisions of the amended plan, as formerly modified, which have already been approved by the Commission and the District Court, and its provisions are to be carried out independently of the provisions included in step two. Step two purports to consist of provisions requiring further action by the Commission and the Court, which may be affected by the Commission's appeal from portions of the Court order.

2. Step one provides:

(a) All rights of the holders of preferred stock, second preferred stock and common stock of Market Street shall cease and terminate on the effective date of step one;

(b) Market Street will, on or soon as practicable after the effective date of step one:

(i) Pay Standard Gas $512,500 in settlement of its open account indebtedness to Standard Gas and the action brought by Standard Gas thereon, and exchange releases with Standard Gas. The release to be delivered by Market Street to Standard Gas will cover all liability of Standard Gas and its subsidiaries (including Standard Power, formerly a subsidiary and now the parent of Standard Gas) to Market Street;

(ii) Pay the Estate of Russell M. Van Kirk, deceased, as fees or compensation, the sum of $7,500, and reimburse the Van Kirk Committee for expenses in an amount not exceeding the sum of $5,000;

(iii) Make or cause to be made a pro rata partial distribution to the holders of its outstanding shares of Prior Preference Stock in the amount of $15 per share;

(iv) Sell its remaining office furniture and fixtures, and collect and reduce to cash all of its other assets;

(v) Dispose of all claims including the actions for injury and damages pending against it;

(vi) Dispose of claims for workmen's compensation and benefits; and

(vii) Dissolve.

3. Step two provides that Market Street will:

(a) Pay or provide for the payment of all such other fees, compensation and expenses in connection with the modified amended plan as shall have been allocated, awarded or approved by the Commission. Market Street represents that its funds remaining after the carrying out of step one will be sufficient to cover in full all claims which have been asserted, including the fees and expenses claimed by Cogan and Paulson. Market Street states that in connection with the consummation of step two it will consider what action it will take with respect to requests of certain employees for severance pay; and

(b) Distribute all remaining assets on a pro rata basis to the holders of its Prior Preference Stock.

4. Market Street requests that the Commission find the modified amended plan necessary to effectuate the provisions of section 11 (b) of the act, and fair and equitable to the persons affected by the modified amended plan; that the Commission, subject to its reservation of jurisdiction to pass on the issues involved in step two, make an order approving the modified amended plan; and that the Commission then apply to the Court in the above-mentioned enforcement proceeding, by supplemental application or petition, in accordance with the provisions of sections 11 (e) and 18 (f) of the act, to enforce and carry out the terms and provisions of step one of the modified amended plan.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors that notice be given and the hearing herein be reconvened with respect to the modified amended plan;

It is ordered, That the hearing herein be reconvened on September 22, 1950, at 10:30 o'clock a. m., e. d. s. t., at the office of the Commission, 425 Second Street NW., Washington 25, D. C. On that day the hearing room clerk in Room 193 will designate the room in which the hearing will be held. Any person who has not heretofore entered an appearance herein desiring to be heard or otherwise wishing to participate in the hearing should file with the Secretary of the Commission on or before September 19, 1950, a written request relative thereto, pursuant to Rule XVII of the Commission's rules of practice.

It is further ordered, That Richard Townsend or any other hearing officer or officers of the Commission designated by it for the purpose shall preside at the reconvened hearing, and is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the modified amended plan and the application for approval thereof, and that, upon the basis thereof and in the light of the proceedings heretofore had herein before the Commission and the Court, the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether in the light of the abovementioned order of the Court dated July 11, 1950, and the appeal taken by the Commission from portions thereof, the Commission may appropriately approve the modified amended plan, reserve jurisdiction with respect to the issues included in step two thereof, and apply to the Court for enforcement of step one thereof;

2. Whether the modified amended plan as submitted or as it may hereafter be modified is necessary to effectuate the provisions of section 11 (b) of the act, and is fair and equitable to the persons affected thereby, and, if not, in what respects said modified amended plan, including any modifications thereof, should be required to be further modified and amended;

3. Whether the proposed modified amended plan and the transactions set forth therein are in all respects in the public interest and in the interest of investors and consumers, and consistent with all the applicable requirements of the act and the rules thereunder and, if not, what modifications should be required to be made therein and what terms and conditions, if any, should be imposed to satisfy the applicable statutory standards;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That notice of the foregoing shall be given by mailing a copy of this notice and order by registered mail to Market Street Railway Company, Standard Gas and Electric Company, Standard Power and Light Corporation, the California Railroad Commission, the City of San Francisco, California, William J. Cogan, Esq., M. Mitchell Bourquin, Esq., Milton Paulson, Esq., Dreyfus and McTernan, Esqs., Douglas Newman, Esq., Helmer Hansen, Esq., and Emil Morosini, Esq. and that further notice shall be given by general release of this Commission which shall be distributed to the press and mailed to persons on the mailing list for releases under the Act; and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[Vesting Order 14988]

ANNA BORCHERS

In re: Judgment rights owned by Anna Borchers.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Anna Borchers, F–28–2111, whose last known address is 18 Eichstrasse, Hanover, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: All right, title and interest created in Anna Borchers by virtue of that certain judgment entered on or about the 26th day of August, 1933, in the Supreme Court of New York in and for Kings County in the cause entitled Anna Borchers vs. Louise Pughelli and Ralph Pughelli, also known as Pughielli, File No. 4914–33, including particularly, but not limited to, the right to enforce and collect all obligations thereunder,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 11, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 15035]

EMIL LOTTHAMMER

In re: Household furniture and furnishings owned by Emil Lotthammer.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Emil Lotthammer, whose last known address is 8 Blauenstrasse, Arlinger, Pforzheim, Baden, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: Household furniture and furnishings stored at 91 Oliver Street, Lockport, New York, more particularly described in Exhibit A, attached hereto and by reference made a part hereof,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Emil Lotthammer, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

FELIX CARO

REVOCATION OF NOTICE OF INTENTION TO RETURN VESTED PROPERTY

The Notice of Intention to Return Vested Property relating to the Claim No. 3259 of Felix Caro, executed July 21, 1950, and published in the FEDERAL REGISTER August 1, 1950 (15 F. R. 4933), is hereby revoked.

Executed at Washington, D. C., on September 6, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50–7965; Filed, Sept. 11, 1950; 8:50 a. m.]

MARIE VIVAN

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to § 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of the publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Property, and Location

Marie Vivan Passiano, Udine, Italy, Claim No. 36371, $3,150.00 in the Treasury of the United States. All right, title, interest and claim of Maria Vivan in and to any and all causes of action arising out of the death of Giovanni Battisti Vivan under the common law and any Federal or State statutes with the exception of those arising under the Workman's Compensation Law of the State of Michigan and against the Waterway Construction Company, Detroit, Michigan and the Associated Indemnity Company, San Francisco, California.

Executed at Washington, D. C., on September 6, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50–7966; Filed, Sept. 11, 1950; 8:50 a. m.]

FUSHIMINOMIYA KINEN SHOGAKKAI

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof the following property, located in the Treasury of the United States, Washington, D. C., subject to any increase or decrease resulting from the administration of such property prior to return and after adequate provision for taxes and conservatory expenses:

Claimant	Claim No.	Property
Fushiminomiya Kinen Shogakkai, c/o Iga Mori, 716 Wyllie St., Honolulu, T. H.	11379	$3,832.33
J. Tokairin, d/b/a Tohoku Hotel (a sole proprietorship), 87 Laimi Rd., Honolulu, T. H.	29154	37.82

FEDERAL REGISTER

VOLUME 15 NUMBER 177

Washington, Wednesday, September 13, 1950

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1951 C. C. C. Wheat Bulletin A]

PART 601—WHEAT

SUBPART—1951 GRAIN AND RELATED COMMODITIES

Sec.

601.1201 Applicability of §§ 601.1201 to 601.1207.
601.1202 Definitions.
601.1203 Determination of a producer's share of the 1951 farm acreage allotment and wheat acreage.
601.1204 Time of determining share in allotment and share in crop.
601.1205 Compliance requirements; producers.
601.1206 Compliance requirements; wheat.
601.1207 Appeals.

AUTHORITY: §§ 601.1201 to 601.1207 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1441, 1421.

§ 601.1201 *Applicability of §§ 601.1201 to 601.1207.* Sections 601.1201 to 601.1207 shall govern the eligibility of producers and wheat under the 1951-crop wheat price support operations insofar as compliance with 1951 wheat acreage allotments is concerned.

§ 601.1202 *Definitions.* As used in §§ 601.1201 to 601.1207, and in all instructions, forms and documents in connection herewith, the words and phrases defined in this section shall have the meaning herein assigned to them unless the context or subject matter otherwise requires.

(a) *Farm.* "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the PMA county committee in accordance with instructions issued by the Assistant Administrator for Production and Marketing Administration, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, farm machinery, and labor substantially separate from that of any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area in which the major portion of the farm is located.

(b) *Ownership tract.* "Ownership tract" means all adjacent or nearby farm or range land under the same ownership which is operated by the same person, including also any field-rented tract under the same ownership. An ownership tract shall be regarded as located in the county in which the farm of which it is considered to be a part is located.

(c) *Person.* "Person" means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and, wherever applicable, a State, political subdivision of a State, the Federal Government, or any agency thereof.

(d) *Operator.* "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(e) *Producer.* "Producer" means any person having an interest in the wheat crop as landlord, tenant, sharecropper, or farm owner.

(f) (1) "Wheat acreage" means any acreage seeded for the production of wheat in 1951, excluding wheat mixtures in wheat mixture States and wheat seeded for use as green manure, cover crop, or hay in green manure, cover crop and hay counties, plus the acreage of volunteer wheat which reaches maturity: *Provided*, That acreage seeded to wheat will not be considered as wheat acreage to the extent that (i) it has been totally destroyed by any cause beyond

the control of the producer and cannot be reseeded on the same acreage and (ii) an additional acreage of wheat, subsequently seeded with prior approval of the county committee is substituted for the destroyed acreage.

(2) "Wheat mixture" means a mixture of wheat and other small grains (excluding vetch) containing when seeded, less than 50 percent by weight of wheat and which when harvested, produces less than 50 percent of wheat by weight.

(3) "Wheat mixture States" means States recommended by the respective PMA State committees and approved by the Director of the Grain Branch, Production and Marketing Administration, as States in which the seeding of wheat mixtures is a normal farming practice.

(4) "Green manure, cover crop, and hay counties" means counties recommended by the appropriate PMA State committees and approved by the Director of the Grain Branch, Production and Marketing Administration, as counties in which the use of wheat as green manure, cover crop, or hay is a normal farming practice.

(g) *Farm acreage allotment.* "Farm acreage allotment" means the wheat acreage allotment determined for a farm as its share of the 1951 county wheat acreage allotment. In States where county allotments are apportioned among ownership tracts, the farm acreage allotment is the sum of the acreage allotments established for the ownership tracts comprising the farm. Farm acreage allotments are established in accordance with the 1951 Wheat Acreage Allotment Regulations (15 F. R. 3614). If no wheat acreage allotment is established under such regulations, the farm shall be deemed to have a farm acreage allotment of zero acres.

§ 60.1203 *Determination of a producer's share of the 1951 farm acreage allotment and wheat acreage*—(a) *In States where the county allotment is apportioned to ownership tracts.* (1) Where one ownership tract constitutes a farm, the farm acreage allotment and the wheat acreage shall be divided according to each producer's share in the 1951 wheat crop at the time the wheat is seeded. If there is no wheat acreage on the farm, the allotment shall be divided according to the crop sharing arrangement under the leasing agreement or in the absence of a leasing agreement in accordance with the usual leasing custom in the locality.

(2) Where the farm contains more than one ownership tract, each producer's share of the farm acreage allotment shall be a number of acres determined by multiplying the wheat acreage allotment established for his individual tract(s) by his percentage share in any wheat acreage on such tract(s) at the time the wheat is seeded. If there is no wheat acreage on the tract(s), the allotment shall be divided according to the crop sharing arrangement under the leasing agreement or in the absence of a leasing agreement in accordance with the usual leasing custom in the locality.

If the wheat acreage is not in excess of the farm acreage allotment each producer's share of the wheat acreage on the farm shall be a number of acres determined by multiplying the wheat acreage on the farm by his percentage share of the farm acreage allotment, whether or not there is any wheat acreage on his tract.

If the wheat acreage is in excess of the farm acreage allotment, each producer's share of the wheat acreage on the farm shall be computed as follows:

(i) If the wheat acreage on his tract does not exceed the acreage allotment for the tract, his share of the wheat acreage on the farm shall be deemed to be an acreage equal to his share of the acreage allotment for the farm.

(ii) If the wheat acreage on his tract exceeds the acreage allotment for the tract his share of the wheat acreage on the farm shall be deemed to be equal to his share of the acreage allotment for the farm plus a number of acres determined by multiplying the excess acreage for the farm by a percentage figure obtained by dividing his share of the excess acreage on his tract by the sum of the excess acreages for all tracts on the farm.

(b) *In States where the county allotment is apportioned to farms.* The farm acreage allotment and the wheat acreage shall be divided according to each producer's share in the 1951 wheat crop at the time the wheat is seeded. If there is no wheat acreage on the farm, the farm acreage allotment shall be divided as determined by the PMA county committee using as a guide the leasing agreement, usual leasing custom in the locality or judgment as to what the division would have been if wheat had been seeded.

§ 601.1204 *Time of determining share in farm acreage allotment and share in wheat acreage.* The producer's share in the farm acreage allotment and wheat acreage for purposes of determining compliance with farm acreage allotments shall be determined on the basis of the producer's interest at the time of seeding. Determination of eligibility on this basis will not make a producer eligible or ineligible in the aggregate because he buys, sells, or otherwise acquires or loses a farm after seeding. The wheat produced on any farm acquired or lost will be eligible only if the wheat was eligible at the time of planting and the producer acquiring the farm was not ineligible at the time of seeding. This means that even though the acreage on the farm may not be in excess of the allotment, if the producer disposing of such tract or farm was ineligible under § 601.1205, the wheat produced on such tract or farm will not be eligible for price support.

§ 601.1205 *Compliance requirements; producers.* (a) In order to be eligible for price support on 1951 crop wheat a producer's share of the total wheat acreage on all farms in the county in which he has an interest must not exceed his share of the total farm acreage allotments, as determined by the PMA county committee: *Provided*, That such producer shall not be eligible for price support if it is determined by the State PMA committee that the total of such producer's share of the total wheat acreage on all farms wherever situated, in which he has an interest, exceeds his share of the total farm acreage allotments for all such farms.

The wheat acreage on a farm shall not be deemed to be in excess of the farm acreage allotment unless such acreage allotment was knowingly exceeded. If the producer operating the farm knowingly exceeded the allotment, all producers having an interest in the wheat acreage shall be deemed to have knowingly exceeded the allotment. Wheat produced on a farm for which an allotment is not established shall not be eligible for price support.

If the wheat acreage seeded on any farm after notification of the farm acreage allotment, plus any volunteer wheat reaching maturity, exceeds the farm acreage allotment, the allotment shall be considered as having been knowingly exceeded unless it is determined by the PMA county and State committees on the basis of the evidence submitted to it that such farm acreage allotment was unknowingly exceeded. If the producer operating a farm on which the farm acreage allotment has been exceeded made no direct effort, by measuring or otherwise, to stay within the allotment, he shall be determined to have knowingly exceeded the allotment.

(b) A producer even though meeting the requirements of paragraph (a) of this section, shall be ineligible for price support on 1951 crop wheat if:

(1) The individual compliance of such producer is offset by non-compliance of a partnership, association, corporation, trust or other business enterprise in which he has a financial interest and the policies of which he is in a position to control.

(2) The compliance of such producer as a partnership, association, estate, corporation, trust, or other business enterprise is offset by non-compliance of a person who is in a position to control the operations or policies of such partnership, association, estate, corporation, trust or other business enterprise.

(3) The compliance of such producer is offset by non-compliance:

(i) On land rented by him to another producer for cash where such land was not rented for cash during the 1950 crop year, or

(ii) On a farm with respect to which he furnishes labor, work stock or financial assistance for the production of the 1951 wheat crop for a share of such crop or the proceeds thereof, or

(iii) On a farm operated by a member of his immediate family with respect to which he provides the major portion of the equipment, and the arrangment described in subdivision (i), (ii), or (iii) of this subparagraph, was entered into for the purpose of evading the eligibility requirements of the regulations in this part.

§ 601.1206 *Compliance requirements; wheat.* In order to be eligible for price support, the 1951 crop wheat must be produced by an eligible producer on a farm on which the wheat acreage is within the farm acreage allotment.

§ 601.1207 *Appeals.* Any producer who is dissatisfied with any determination respecting his compliance or eligibility may, within 15 days after notification to him of such determination by the county committee, appeal to the State committee in writing. Such appeal should contain all the facts constituting the basis of his claim that the determination is improper. If the producer is dissatisfied with the decision of the PMA State committee, he may within 15 days after the date of mailing to him of the decision of the PMA State committee, request the Director, Grain Branch, PMA, to review his case, whose decision is final.

Done at Washington, D. C., this 8th day of September 1950. Witness my hand and seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50–8013; Filed, Sept. 12, 1950; 8:49 a. m.]

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 813, Amdt. 4]

PART 813—SUGAR QUOTAS AND PRORATIONS OF QUOTA DEFICITS

REVISION OF PRORATION OF 1950 QUOTA

Basis and purpose. This amendment is issued pursuant to the Sugar Act of 1948 and is made for the purpose of prorating among the foreign countries other than Cuba and the Republic of the Philippines that part of the prorations of the basic quota to such foreign countries remaining unfilled on September 1. This amendment also reallots to certain foreign countries the unfilled portions of the Philippine deficit heretofore allotted to other foreign countries.

Section 204 (b) of the act provides that if on the first day of September in any calendar year any part or all of any proration of the basic quota to a foreign country has not been filled the Secretary may revise the prorations and allot the unfilled portions to those foreign countries which have filled their prorations by such date.

This amendment revises the prorations of the basic quota and reallots the Philippine deficit allotted to foreign countries other than Cuba and the Republic of the Philippines. In order to afford adequate opportunity to ship the additional sugar authorized by this amendment, and thereby protect the interest of consumers, it is essential that the revised prorations be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of the Administrative Prodecure Act is unnecessary, impracticable and contrary to the public interest and the amendments herein made shall become effective on the date of their publication in the FEDERAL REGISTER. It should be

noted that the act accords to each country the right to import the amount of its basic proration by providing that no reduction therein shall be made by reason of a determination under section 204 (b).

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922; 7 U. S. C. Sup. I, 1100) and the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), Sugar Regulation 813 (14 F. R. 7753) as amended (15 F. R. 3861, 4676, 5790), establishing quotas for 1950, is hereby further amended as follows:

1. Section 813.13 is amended by adding thereto new paragraphs (e) and (f) as follows:

§ 813.13 *Determination and proration of area deficits.* * * *

(e) *Deficit in prorations of foreign countries other than Cuba and the Republic of the Philippines.* It is hereby determined, pursuant to section 204 (b) of the act, that by September 1, 1950, unfilled prorations to foreign countries of the quota for foreign countries other than Cuba and the Republic of the Philippines together with a portion of the unfilled balance of the unallotted reserve established under section 202 (c) of the act amounted to 42,217,365 pounds of sugar and that the Dominican Republic, Haiti and Peru had filled their prorations of such quota by September 1, 1950.

(f) *Allotment of unfilled prorations of quota for foreign countries other than Cuba and the Republic of the Philippines.* An amount of sugar equal to the unfilled prorations to foreign countries determined in paragraph (e) of this section is hereby prorated, pursuant to subsections (b) and (d) of section 204 of the act as follows:

Country:	*Additional prorations in pounds, raw value*
Dominican Republic	15,050,491
Haiti	2,081,316
Peru	25,085,558

2. Section 813.14 (b) is changed to read:

§ 813.14 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines.* * * *

(b) *Other proration.* An amount of sugar equal to that part of the deficit prorated to foreign countries other than Cuba and the Republic of the Philippines under paragraph (b) of § 813.13 is hereby prorated, pursuant to subsections (a) and (d) of section 204 of the act, as follows:

Country:	*Proration in pounds, raw value*
Dominican Republic	16,042,500
Haiti	2,218,500
Peru	26,739,000
	45,000,000

Statement of bases and considerations. As of September 1, 1950, the basic quota for foreign countries other than Cuba and the Republic of the Philippines, established pursuant to section 202 (c) of the act, equaled 93,840,000 pounds of sugar, raw value. On the same date the share of the 1950 Philippine deficit accruing to foreign countries other than Cuba and the Republic of the Philippines, pursuant to section 204 (a) of the act, equaled 45,000,000 pounds of sugar, raw value.

Section 204 (b) of the act provides that if, on the first day of September in any calendar year, any part or all of the proration to any foreign country of the quota for foreign countries other than Cuba and the Republic of the Philippines established under the provisions of section 202 (c) has not been filled, the Secretary may revise the proration of such quota among such foreign countries by allotting an amount of sugar equal to the unfilled proration to those countries which have filled their quotas by such date. Section 204 (c) of the act provides that the quota for any domestic area, the Republic of the Philippines, Cuba, or other foreign countries as established under the provisions of section 202 shall not be reduced by reason of any such determination of a deficit.

The Dominican Republic, Haiti, and Peru are the only foreign countries that have filled their proration of the basic quota for foreign countries other than Cuba and the Republic of the Philippines, established pursuant to section 204 (c) of the act, as of September 1, 1950. Therefore, pursuant to section 204 (b) and section 204 (d) of the act, the unfilled portions of the prorations for all other foreign countries and 400,000 pounds of the unallotted reserve have been prorated to the three foreign countries mentioned above on the basis of the proration now in effect.

The Dominican Republic, Haiti and Peru are the only foreign countries that substantially have filled their prorations of the Philippine deficit as of September 1, 1950, and appear likely to fill additional prorations before the end of the calendar year. In accordance with section 204 (d) the entire Philippine deficit prorated to foreign countries other than Cuba and the Republic of the Philippines is hereby prorated to the Dominican Republic, Haiti and Peru on the basis of the prorations now in effect.

Although the unfilled portions of the prorations which each country received pursuant to section 202 (c) of the act have been prorated to those countries that had filled their prorations as of September 1, 1950, the existing prorations for such countries in effect on that date are not reduced by reason of a deficit having been determined.

After giving effect to the changes set forth in Sugar Regulation 813 and Amendments 1 to 4 thereto, the current sugar quotas in terms of pounds, raw value, for foreign countries other than Cuba and the Republic of the Philippines are as follows:

REALLOTMENT OF BASIC PRORATIONS AND PHILIPPINE DEFICIT TO FOREIGN COUNTRIES OTHER THAN CUBA AND THE PHILIPPINES

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 7, Amdt. 49]

PART 60—AIR TRAFFIC RULES

BIG DELTA, ALASKA; DANGER AREA ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Title 14, § 60.13–1 is amended as follows:

1. A Big Delta, Alaska, temporary area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
BIG DELTA (WAC 77,117).	Beginning at lat. 63°56'00" N, long. 145°40'00" W; due S to lat. 63°38'00" N; WNW to lat. 63°42'00" N, long. 146°15'00" W; due N to lat. 63°55'00" N; NE to lat. 64°01'30" N, long. 145°07'00" W; SE to lat. 64°00'00" N, long. 145°53'00" W; counterlockwise along the arc of a circle with a radius of 5 miles centered at lat. 63°59'40" N, long. 145°44'00" W, to lat. 63°56'00" N, long. 145°40'00" W, point of beginning, excluding that portion overlapped by the permanent Big Delta danger area, and those portions which lie within civil airways.	Surface to 60,000 feet.	Hours of daylight, 7 days a week.	Arctic Test Branch, Army Field Forces, Big Delta, Alaska.

2. The Big Delta, Alaska, permanent area, published on March 17, 1950, in 15 F. R. 1510, and amended on June 8, 1950, in 15 F. R. 3580, is amended by changing the "Using Agency" column to read: "Arctic Test Branch, Army Field Forces, Big Delta, Alaska".

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on September 12, 1950.

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 50-7997; Filed, Sept. 12, 1950; 8:50 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52540]

PART 22—DRAWBACK

MERCHANDISE SOLD TO U. S. GOVERNMENT

Corrected Reprint

NOTE: The copy for T. D. 52540, published on page 5690 of the FEDERAL REGISTER dated August 24, 1950, was in error. The following reprint replaces that version of T. D. 52540.

In order to place in the suppliers of merchandise sold to the United States the responsibility of reserving the right to drawback with the knowledge and consent of the particular department, branch, or agency of the United States Government concerned, the second sentence of § 22.41, Customs Regulations of 1943 (19 CFR 22.41), as amended, is further amended to read as follows: "If the merchandise was so sold, drawback shall be allowed only when claimed by the department, branch, or agency of the United States Government or when the entry is supported by a certificate signed by a proper officer of the department, branch, or agency concerned stating that the right to drawback was reserved by the supplier with the knowledge and consent of the said department, branch, or agency. A Government instrumentality operating with nonappropriated funds is not to be considered a Government agency within the meaning of this section."

Notice of the proposed amendment of the regulation was published in the FEDERAL REGISTER of May 9, 1950 (15 F. R. 2756), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). All relevant matter presented has been duly considered.

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interprets or applies sec. 313, 46 Stat. 693, as amended; 19 U. S. C. 1315)

This amendment shall become effective October 1, 1950.

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: August 17, 1950.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 31—PACIFIC REGION

SUBPART—FORT PECK GAME RANGE, MONTANA, HUNTING OF MIGRATORY WATERFOWL AND COOTS

Basis and purpose: On the basis of observations and reports of field representatives of the Fish and Wildlife Service and of the Montana Department of Fish and Game, it has been determined that the public hunting of waterfowl can be permitted on certain lands of the Fort Peck Game Range without interfering with the primary purpose of the Refuge.

Inasmuch as the following regulations are relaxations of the existing prohibition against the hunting of migratory birds on the Refuge, the notice and public rule making procedure required by the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001 et seq.) are hereby found to be impracticable and the effective date requirement of the Administrative Procedure Act does not apply.

Effective immediately upon publication in the FEDERAL REGISTER §§ 31.126 and 31.127 are added:

§ 31.126 *Waterfowl hunting permitted.* Migratory waterfowl and coots may be taken within the area of the Fort Peck Game Range, Montana, described in § 31.127, in accordance with the Migratory Bird Treaty Act Regulations (§§ 6.1 to 6.12, inclusive, of this chapter), when, in the manner, and to the extent not prohibited by State law or regulation; provided that the privileges herein granted shall be exercised in accordance with the provisions, conditions, restrictions, and requirements of §§ 31.123 to 31.125, inclusive: *Provided*, That the Refuge Manager may suspend hunting on the recommendation of the Corps of Engineers as a security or safety measure.

§ 31.127 *Area open to hunting.* The lands of the United States in section 3 and in the West half west of the road to the dam in section 10, T. 26 N., R. 41 E., Montana Principal Meridian, shall be open to the hunting of migratory waterfowl and coots.

(Sec. 10, 45 Stat. 1224, 16 U. S. C. 715i)

Dated: September 7, 1950.

O. H. JOHNSON,
Acting Director

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 918]

HANDLING OF MILK IN MEMPHIS, TENN., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Memphis, Tennessee, on March 20–24, and March 27–29, 1950, pursuant to notice thereof which was published in the FEDERAL REGISTER (15 F. R. 1112, F. R. Doc. 50–1659).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on August 3, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Notice of such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on August 8, 1950 (15 F. R. 5082). The closing date for filing exceptions was August 23, 1950.

The material issues and the findings and conclusions of the recommended decision (15 F. R. 5082, F. R. Doc. 50–6938) are hereby approved and adopted as the findings and conclusions of this decision as if set forth in full herein subject to the following revisions:

1. Delete the second paragraph beginning in column 2, 15 F. R. 5086 (F. R. Doc. 50–6938) and substitute therefore the following:

The price to handlers for Class I milk received at plants located 40 miles or more from the City Hall in Memphis, should be adjusted to reflect the value of such milk at the various plants. The economic value of milk for fluid uses decreases as the distance at which it is produced increases in relation to the terminal market which in this instance is Memphis. This is due largerly to the cost of transporting milk in fluid form to the market. It is therefore concluded that the Class I price to handlers for milk received from producers at so-called bottling plants located 40 miles or more from Memphis should be reduced as follows: 40 miles but less than 50 miles, 17 cents; 50 miles but less than 60 miles, 18 cents; 60 miles but less than 70 miles, 19 cents; and for each 10 mile zone thereafter an additional 1 cent. Similarly, The Class I price to handlers operating plants, so located, where milk is received, cooled, and shipped to a bottling plant should be reduced a corresponding amount with respect to producer milk which is moved from such a receiving plant to a bottling plant and which is classified as Class I milk. These location differentials would result in a reduction of 25 cents per hundredweight in the Class I price for milk which is received at the Martin, Tennessee, plant and which is moved to a bottling plant. This amount corresponds to the per hundredweight rate applied at the present time by the handler operating such plant. The Class I price for producer milk received at bottling plants in the Jackson, Tennessee, area would be reduced 21 cents per hundredweight by the application of such differentials. It is not appropriate to apply these location differentials to Class II milk since such milk can be disposed of to manufacturing plants located throughout the milkshed. For clarification purposes, it should be noted that the classification of milk disposed of from a so-called receiving station operated by a handler to a fluid milk plant operated by another handler is determined by the application of the transfer provisions which permit, under specified conditions, such handlers to agree on the classification of such milk. In the event a handler operates two or more fluid milk plants (including a so-called receiving station and bottling plant), the utilization of milk received from producers at all of his fluid milk plants is shown on a combined report and the producer milk classified in each class is prorated among the receipts of milk from producers at each plant.

2. Delete the portion of the last paragraph beginning in column 3, 15 F. R. 5086 (F. R. Doc. 50–6938) following the 6th sentence and substitute therefor the following: "• • • In order to accomplish this result, it is concluded that member producers should receive at least the same percentage of a handler's Class I sales during the months of March through August (the months for which producers are paid on the basis of a base price and an excess price) as was purchased by such handler from members of the cooperative association during the months of September through February (the months during which producers establish a base). In the event a handler purchases, during any of the months of March through August, a smaller percentage of his Class I sales from producers who are members of a cooperative association than was purchased from member producers during the preceding period of September through February, a provision is made whereby the returns to producers (members and nonmembers) of such handler will be shared proportionately in the same manner as though such handler had continued to receive milk from the same group of producers. If an equivalent amount of milk were not purchased from the cooperative association by another handler or a nonhandler for Class II use there would be no inequity among producers and the provision should not apply since such member producers would not be penalized by being paid for a disproportionate share of the Class II sales of the market."

3. Delete the last paragraph beginning in column 1, 15 F. R. 5087 (F. R. Doc. 50–6938) and substitute therefor the following:

The proposal for a base rating plan made by producers has wide support among both producers and handlers in the market. Under this plan new bases would be established each year on the basis of total deliveries made by each producer during the months of September through February. Producers in the market are currently required to make a base during a six-month period. Both producers and handlers argued that insofar as possible such plan should not be changed. In view of the established plans in the market and the long range plans made by many of the producers for fall freshening cows, it is concluded that the base forming period for each year should be the months of September through February, and the months for which producers would be paid in accordance with his base so established should be the months of March through August.

Under the plan provided for herein the market administrator would compute each year the base of each producer from whom each handler received milk during the base forming period of September through February and notify each producer of his established base on or before the 20th day following the close of such base forming period. The bases so established would be used in making payments to producers during the following months of March through August. Deliveries of base milk during these months would receive the highest available classification and deliveries in excess of base milk would receive the lowest classification.

In order to prevent the disruption of long range production plans made by producers and to aid in the progress which has been made in a level supply of milk for the market, it is necessary that each handler report his receipts of milk from each producer, and such other information as may be necessary for the market administrator to compute the base of each producer, beginning with September 1, 1950.

4. Delete that portion of the first paragraph beginning in column 2, 15 F. R. 5087 (F. R. Doc. 50–6938) following the 6th sentence and substitute the following: "If a producer begins shipping milk to the market during the months of March through August without an established base, he would receive the excess price until September 1. Such a producer may obtain a base by transfer of established base from another producer. During the period of September through February, he would receive the uniform price the same as all other producers, and he would establish a base for the following months of March through August. These rules should assure the workability of the plan without placing undue hardship upon any producer."

Rulings on exceptions. In arriving at the findings and conclusions included in this decision each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

General findings. (a) The proposed marketing agreement and the proposed order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and in the proposed order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order will regulate the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of July 1950 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order regulating the handling of milk in the Memphis, Tennessee, marketing area in the manner set forth in the attached order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing agreement regulating the handling of milk in the Memphis, Tennessee, marketing area," and "order regulating the handling of milk in the Memphis, Tennessee, marketing area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 8th day of September 1950.

[SEAL] CHARLES F. BRANNAN.
Secretary of Agriculture.

Order[1] Regulating the Handling of Milk in the Memphis, Tennessee, Marketing Area

Sec.
918.0 Findings and determinations.

DEFINITIONS

918.1 Act.
918.2 Secretary.
918.3 Department of Agriculture.
918.4 Person.
918.5 Cooperative association.
918.6 Memphis, Tennessee, marketing area.
918.7 Fluid milk plant.
918.8 Nonfluid milk plant.
918.9 Handler.
918.10 Producer.
918.11 Producer milk.
918.12 Other source milk.
918.13 Producer-handler.

MARKET ADMINISTRATOR

918.20 Designation.
918.21 Powers.
918.22 Duties.

REPORTS, RECORDS, AND FACILITIES

918.30 Reports of receipts and utilization.
918.31 Other reports.
918.32 Records and facilities.
918.33 Retention of records.

CLASSIFICATION

918.40 Skim milk and butterfat to be classified.
918.41 Classes of utilization.
918.42 Shrinkage.
918.43 Responsibility of handlers and reclassification of milk.
918.44 Transfers.
918.45 Computation of the skim milk and butterfat in each class.
918.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

918.50 Basic formula price to be used in determining the Class I price.
918.51 Class prices.
918.52 Butterfat differential to handlers.
918.53 Location differentials to handlers.

APPLICATION OF PROVISIONS

918.60 Producer-handlers.

DETERMINATION OF UNIFORM PRICE

918.70 Net obligation of each handler.
918.71 Computation of the uniform price for each handler.
918.72 Computation of the uniform price for base milk and for excess milk for each handler.

BASE RATING

918.80 Determination of daily base of each producer.
918.81 Determination of monthly base of each producer.
918.82 Base rules.
918.83 Announcement of daily bases.

PAYMENTS

918.90 Payments to market administrator.
918.91 Payments to producers.
918.92 Butterfat differential to producers.
918.93 Location differentials to producers.
918.94 Statement to producers.
918.95 Adjustment of accounts.
918.96 Marketing services.
918.97 Expense of administration.
918.98 Termination of obligations.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

Sec.
918.100 Effective time.
918.101 Suspension or termination.
918.102 Continuing obligations.
918.103 Liquidation.

MISCELLANEOUS PROVISIONS

918.110 Agents.
918.111 Separability of provisions.

AUTHORITY: §§ 918.1 to 918.111 issued under 48 Stat. 31, as amended, 7 U. S. C. 601 et seq.; 5 U. S. C. 133 y–16.

§ 918.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held March 20–24, and March 27–29, 1950, at Memphis, Tennessee, upon a proposed marketing agreement and a proposed order, regulating the handling of milk in the Memphis, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products, handled by handlers, as defined herein, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expenses, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all (a) producer milk (including such handler's own production) received during the month, and (b) other source milk classified as Class I milk during the month.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Memphis, Tennessee, marketing area shall be in conformity to and in com-

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

pliance with the following terms and conditions:

DEFINITIONS

§ 918.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 918.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 918.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified herein.

§ 918.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 918.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 918.6 *Memphis, Tennessee, marketing area.* "Memphis, Tennessee, marketing area," hereinafter called the "marketing area," means all the territory within the boundaries of the cities of Memphis and Jackson, Tennessee.

§ 918.7 *Fluid milk plant.* "Fluid milk plant" means any milk plant, except that of a producer-handler, approved by the appropriate health authority in the marketing area, and used during the month for (a) the processing and packaging of producer milk, all or a portion of which is disposed of as Class I milk in the marketing area to wholesale or retail outlets, including plant stores; or (b) the receipt and cooling of producer milk for shipment to a plant described in paragraph (a) of this section.

§ 918.8 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing, or bottling plant other than a fluid milk plant.

§ 918.9 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of a fluid milk plant(s), (b) a producer-handler, or (c) any cooperative association with respect to milk of producers diverted by it from a fluid milk plant to a nonfluid milk plant for the account of such cooperative association.

§ 918.10 *Producer.* "Producer" means any person, except a producer-handler, who produces milk under a dairy farm inspection permit issued by the appropriate health authority in the marketing area and whose milk is permitted to be used for consumption as milk in the marketing area, which milk is: (a) Received at a fluid milk plant, or (b) diverted from a fluid milk plant to a nonfluid milk plant: *Provided*, That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted.

§ 918.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is purchased or received by a handler either directly from producers or from other handlers.

§ 918.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 918.13 *Producer-handler.* "Producer-handler" means any person who produces milk under a dairy farm permit issued by the appropriate health authority in the marketing area and who processes milk from his own production, and distributes all or a portion of such milk within the marketing area as Class I milk, but who receives no milk from producers.

MARKET ADMINISTRATOR

§ 918.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 918.21 *Powers.* The market administrator shall have the following powers with respect to this order:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 918.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this order, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 918.97 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 918.96, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 3 days after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 918.30 and 918.31 or payments pursuant to § 918.90;

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing on or before the 6th day of each month, the minimum price for Class I milk computed pursuant to § 918.51 (a) and the Class I butterfat differential computed pursuant to § 918.52 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 918.51 (b) and the Class II butterfat differential computed pursuant to § 918.52 (b), both for the previous month;

(j) Notify each handler in writing on or before the 11th day of each month the amount of the net obligation of such handler for milk received from producers during the previous month. Such notification shall show the amount and the value of milk in each class; the amount and the value of overage; and the amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months;

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate and notify each handler in writing:

(1) On or before the 13th day after the end of each of the months of September through February, the uniform price and the location differential for each handler computed pursuant to §§ 918.71 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92; and

(2) On or before the 13th day after the end of each of the months of March through August, the uniform prices for base milk and for excess milk and the location differential for each handler computed pursuant to §§ 918.72 and 918.93, respectively, and the butterfat differential computed pursuant to § 918.92; and

(l) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 918.30 *Reports of receipts and utilization.* On or before the 8th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(e) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 918.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler shall report to the market administrator in detail and on forms prescribed by the market administrator, as follows:

(1) On or before the 8th day after the end of the month, the correct name and address of each producer, the total pounds of milk received from each producer, the number of days on which milk was received from each producer, the amount of any deductions authorized in writing by the producer to be made in making payments to such producer, and the average butterfat content of the milk received from each producer.

(2) Upon request of the market administrator, the information described in subparagraph (1) of this paragraph together with such other information as the market administrator may prescribe for prior calendar months included in the period beginning with September 1950 to the effective date of this order.

(3) On or before the first day other source milk is received, such handler's intention to receive such milk and on or before the last day such milk is received, his intention to discontinue receipt of such milk.

§ 918.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled; and

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month.

§ 918.33 *Retention of records.* All books and records required under this ofder to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 918.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler and which is required to be reported pursuant to § 918.30 shall be classified by the market administrator pursuant to the provisions of §§ 918.41 through 918.46.

§ 918.41 *Classes of utilization.* Subject to the conditions set forth in §§ 918.43 and 918.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream, and any other product required by the appropriate health authority in the marketing area to be made from Grade A milk, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) of this section, (2) disposed of for livestock feed, (3) in shrinkage up to 2 percent of receipts from producers, and (4) in shrinkage of other source milk.

§ 918.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for such handler; and

(b) Prorate the resulting amounts between such handler's receipts of skim milk and butterfat in producer milk and in other source milk.

§ 918.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if vertification by the market administrator discloses that the original classification was incorrect.

§ 918.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion from a fluid milk plant shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a fluid milk plant of another handler unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 8th day after the end of the month within which such transaction occurred: *Provided*, That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 918.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *Provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk: *And provided further*, That the amount of skim milk or butterfat transferred or diverted from a fluid milk plant to which a location differential applies pursuant to § 918.53 to a fluid milk plant described in § 918.7 (a) shall not be classified in Class I to the extent that the resulting uniform price for the transferring handler shall be higher than the resulting uniform price for the transferee-handler.

(b) As Class I milk if transferred to a producer-handler in the form of milk, skim milk, or cream.

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonfluid milk plant, except that of a producer-handler, unless the following conditions are met:

(1) The handler claims classification in Class II;

(2) The market administrator is permitted to audit the books and records showing the utilization of all skim milk and butterfat received at such nonfluid milk plant, for the purpose of verification; and

(3) An amount of skim milk and butterfat not less than that so transferred or diverted was used in Class II: *Provided*, That the skim milk and butterfat so assigned to Class II shall be limited to the amount thereof in Class II in such nonfluid milk plant and any additional amounts of skim milk and butterfat so transferred or diverted shall be assigned to Class I.

§ 918.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report of receipts and utilization submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 918.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 918.45 the market administrator shall determine

the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 918.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(3) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers according to its classification as determined pursuant to § 918.44 (a);

(4) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 918.50 *Basic formula price to be used in determining the Class I price.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section and § 918.51 (b), all for the preceding month.

(a) To the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

add an amount computed by multiplying the butterfat differential computed pursuant to § 918.52 (b) for the month by 5.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) To the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department of Agriculture during the month, add 20 percent thereof, and multiply by 4.0.

(2) For the simple average as computed my the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department of Agriculture, deduct 5 cents, and multiply by 7.5.

§ 918.51 *Class prices.* Subject to the provisions of §§ 918.52 and 918.53, the minimum prices per hundredweight to be paid by each handler for milk received at his fluid milk plant from producers during the month shall be as follows:

(a) *Class I milk.* The price per hundredweight for Class I milk for the month shall be the amount set forth below for such month opposite the price range within which the basic formula price falls:

Basic formula price range (dollars per hundredweight)	Amount per hundredweight: September through February	Amount per hundredweight: March through August
Not more than 1.999	$3.48	$3.68
2.00 but not more than 2.399	3.88	3.48
2.40 but not more than 2.799	4.28	3.88
2.80 but not more than 3.199	4.68	4.28
3.20 but not more than 3.599	5.08	4.68
3.60 but not more than 3.999	5.48	5.08
4.00 but not more than 4.399	5.88	5.48
And for each additional 40 cents or fraction thereof.	An additional 40 cents	

Provided, That the Class I price from the effective date of this provision through the month of February 1951 shall not be less than $5.08 per hundredweight: *And provided further*, That for any month after this provision has been in effect for 13 months the Class I price shall be increased 40 cents per hundredweight if the receipts of milk from producers by all handlers, during the 12 months prior to the month immediately preceding the month for which the Class I price is being computed, was less than 110 percent of the total Class I milk disposed of by all handlers during such 12-month period; or the Class I price for any such month shall be reduced 40 cents per hundredweight if the receipts of milk from producers during such 12-month period are more than 125 percent of the total Class I milk disposed of by all handlers during such 12-month period.

(b) *Class II milk.* The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture.

Present Operator and Location

Collierville Dairy Products Co., Collierville, Tenn.
Coldwater Dairy Products Co., Coldwater, Miss.
Olive Branch Cheese Co., Olive Branch, Miss.
Borden Co., Starkville, Miss.
Carnation Co., Tupelo, Miss.
Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Kosciusko, Miss.

§ 918.52 *Butterfat differential to handlers.* If the average butterfat content of producer milk allocated to any class pursuant to § 918.46 is more or less than 4.0 percent there shall be added to the respective class price computed pursuant to § 918.51 for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department of Agriculture during the period listed below by the applicable factor so listed and dividing the result by 10:

(a) *Class I milk.* Multiply such price reported for the preceding month by 1.25;

(b) *Class II milk.* Multiply such price reported for the current month by 1.20.

§ 918.53 *Location differentials to handlers.* For that portion of milk which is received from producers at a handler's fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by shortest hard surfaced highway distance, as determined by the market administrator, and which is classified as Class I milk, the prices specified in § 918.51 (a) shall be reduced by the amount per hundredweight set forth in the schedule below for the appropriate distance at which is located the fluid milk plant where such milk was received: *Provided*, That with respect to milk received at a fluid milk plant described in § 918.7 (b) the quantity of milk to which the location differential shall apply shall not exceed the quantity of milk actually moved from such plant in fluid form to a fluid milk plant described in § 918.7 (a) plus the quantity of milk moved from such plant in fluid form to a nonfluid milk plant and classified as Class I milk:

Distance from the City Hall in Memphis (miles):	Amount per hundredweight (cents)
40 but less than 50	17
50 but less than 60	18
60 but less than 70	19

Within each 10-mile zone thereafter an additional 1 cent.

APPLICATION OF PROVISIONS

§ 918.60 *Producer-handlers.* Sections 918.40 through 918.46, 918.50 through 918.53, 918.70 through 918.72, 918.80 through 918.83, and 918.90 through 918.97 shall not apply to a producer-handler.

DETERMINATION OF UNIFORM PRICE

§ 918.70 *Net obligation of each handler.* The net obligation of each handler for milk received during each month from producers shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price, (b) add together the resulting amounts, (c) add the amounts computed by multiplying the pounds of coverage deducted from each class by the applicable class price, and (d) add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months.

§ 918.71 *Computation of the uniform price for each handler.* For each of the months of September through February the market administrator shall compute for each handler the uniform price as follows:

(a) Add to the amount computed pursuant to § 918.70 the amount of location differential pursuant to § 918.93;

(b) Subtract, if the average butterfat content of milk received from producers by such handler is more than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers, and multiply the result by the total hundredweight of such milk;

(c) Add the amount represented by any deductions made pursuant to paragraph (d) of this section for fractions of a cent in computing the uniform price for the preceding month;

(d) Divide the resulting amount by the total hundredweight of milk received from producers by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, f. o. b. the marketing area.

§ 918.72 *Computation of the uniform price for base milk and for excess milk for each handler.* For each of the months of March through August, the market administrator shall compute for each handler the uniform price for base milk and for excess milk as follows:

(a) Add to the amount computed pursuant to § 918.70 the amount of location differential pursuant to § 918.93;

(b) Subtract, if the average butterfat content of milk received from producers by such handler is more than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers, and multiply the result by the total hundredweight of such milk;

(c) Subtract, for each of the months of March through August, during which a handler purchased a smaller percentage of his Class I milk from producers who were members of a cooperative association than he so purchased during the preceding period of September through February, an amount computed as follows:

(1) Compute the difference between the percentage which Class I milk purchased from producers who were members of such cooperative association was of the total Class I milk disposed of by such handler during the preceding period of September through February, and the percentage which Class I milk purchased from member producers of such cooperative association was of the total Class I milk disposed of by such handler during the month;

(2) Multiply this percentage difference by the total Class I milk disposed of by such handler during the month; and

(3) Multiply this quantity of milk by the difference between the price of Class I milk and Class II milk for the month: *Provided*, That the total quantity of all handlers to which such difference in price shall apply shall not be greater than the pounds of milk which were received by all handlers from member producers of such cooperative association during the month, and which were classified as Class II milk: *And provided further*, That during any month when the preceding proviso applies to more than one handler the quantities of milk for each handler to be multiplied by such difference in price shall be reduced pro rata until the total of such quantities is equal to the total pounds of milk which were received by all handlers from member producers of such cooperative during the month, and which were classified as Class II milk.

(d) Add, in computing the uniform price of base milk and excess milk diverted by a cooperative association, the sum of the deductions made for the month pursuant to paragraph (c) of this section in computing such uniform prices for all handlers;

(e) Add the amount represented by any deductions made pursuant to paragraphs (h) and (i) of this section for fractions of a cent in computing such uniform prices for the preceding month;

(f) Subject to the conditions set forth in paragraph (g) of this section, compute the value of excess milk received by such handler from producers by multiplying the quantity of such milk by the Class II price;

(g) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (f) of this section from the value obtained pursuant to paragraphs (a) through (e) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of such base milk by the Class I price such value in excess thereof shall be added to the value computed pursuant to paragraph (f) of this section;

(h) Divide the value obtained pursuant to paragraph (g) of this section by the hundredweight of base milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for base milk of 4.0 percent butterfat content, f. o. b. the marketing area; and

(i) Divide the value obtained pursuant to paragraph (f) of this section, subject to the conditions set forth in paragraph (g) of this section, by the hundredweight of excess milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for excess milk of 4.0 percent butterfat content.

BASE RATING

§ 918.80 *Determination of daily base of each producer.* For the months of March through August of each year, the daily base of each producer shall be an amount of milk computed by the market administrator by dividing the total pounds of milk received from such producer by handlers during the preceding months of September through February by the total number of days in such period.

§ 918.81 *Determination of monthly base of each producer.* For each of the months of March through August of each year, the monthly base of each producer shall be an amount of milk computed by the market administrator by multiplying the daily base of such producer by the number of days on which milk was received during such month from such producer by a handler.

§ 918.82 *Base rules.* (a) A landlord who rents on a share basis shall be entitled to the entire daily base to the exclusion of the tenant if the landlord owns the entire herd. A tenant who rents on a share basis shall be entitled to the entire daily base to the exclusion of the landlord if the tenant owns the entire herd. If the cattle are jointly owned by the tenant and landlord, the daily base shall be divided between the joint owners according to ownership of the cattle.

(b) A producer, whether landlord or tenant, may retain his base when moving his entire herd of cows from one farm to another: *Provided*, That at the beginning of a tenant and landlord relationship the base of the landlord and tenant may be combined and may be divided when such relationship is terminated.

(c) The base of a producer may be moved from one handler to another and may be transferred from such producer to another producer.

§ 918.83 *Announcement of daily bases.* On or before March 20, of each year, the market administrator shall notify each producer of his daily base.

PAYMENTS

§ 918.90 *Payments to market administrator.* On or before the 12th day of each month each handler shall pay to the market administrator an amount equal to such handler's net obligation for the previous month as determined pursuant to § 918.70 less deductions authorized in writing by producers from whom he received milk. The market administrator shall maintain a separate fund in which he shall deposit all payments of handlers received pursuant to this paragraph

and out of which he shall make all payments pursuant to § 918.91.

§ 918.91 *Payments to producers.* The market administrator shall pay each producer in the following manner for milk received by a handler from such producer: *Provided*, That if such handler has not made full payment pursuant to § 918.90 for the month the market administrator shall reduce uniformly such payments to such handler's producers and shall complete such payments as soon as the necessary funds are available.

(a) On or before the 15th day after the end of the months of September through February, the market administrator shall pay each producer for milk received by a handler from such producer during the month an amount computed by multiplying the hundredweight of such milk by not less than the uniform price computed for such handler pursuant to § 918.71, subject to the adjustments specified in §§ 918.92, 918.93, and 918.96, and less deductions authorized in writing by such producer.

(b) On or before the 15th day after the end of each of the months of March through August, the market administrator shall pay each producer for milk received by a handler from such producer during the month an amount computed as follows, subject to the adjustments specified in §§ 918.92, 918.93, and 918.96, and less deductions authorized in writing by such producer:

(1) Multiply the hundredweight of base milk received from such producer by such handler by not less than the uniform price for base milk computed for such handler pursuant to § 918.72;

(2) Multiply the hundredweight of excess milk received from such producer by such handler by not less than the uniform price for excess milk computed for such handler pursuant to § 918.72; and

(3) Add together the resulting sums.

(c) In making payments to producers pursuant to paragraphs (a) and (b) of this section the market administrator shall pay, on or before the 2d day prior to the date payments are due to individual producers, to a cooperative association which is authorized to collect payment for milk of its members and from which a request for such payment has been received a total amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to this section.

§ 918.92 *Butterfat differential to producers.* In making payment to producers pursuant to § 918.91, there shall be added to or subtracted from, as the case may be, the applicable uniform prices computed pursuant to §§ 918.71 and 918.72 for the handler who received milk from such producer for each one-tenth of one percent of butterfat content above or below 4.0 percent in such milk the amount shown in the schedule below for the butter price range in which falls the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department of Agriculture during the month:

Butter price range (cents):	Butterfat differential (cents)
Not more than 17.500	2
17.50–22.499	2½
22.50–27.499	3
27.50–32.499	3½
32.50–37.499	4
37.50–42.499	4½
42.50–47.499	5
47.50–52.499	5½
52.50–57.499	6
57.50–62.499	6½
62.50–67.499	7
67.50–72.499	7½
72.50–77.499	8
77.50–82.499	8½
82.50–87.499	9
87.50–92.499	9½
92.50 and over	10

§ 918.93 *Location differentials to producers.* In making payment to producers pursuant to § 918.91, there shall be deducted from the applicable uniform prices, computed pursuant to §§ 918.71 and 918.72 (h), to be paid by a handler for producer milk received at a fluid milk plant located 40 miles or more from the City Hall in Memphis, Tennessee, by the shortest hard surfaced highway distance, as determined by the market administrator, the amount set forth below for the appropriate distance at which is located the fluid milk plant where such milk was received:

Distance from the City Hall in Memphis (miles):	Amount per hundredweight (cents)
40 but less than 50	17
50 but less than 60	18
60 but less than 70	19

Within each 10-mile zone thereafter an additional 1 cent.

§ 918.94 *Statement to producers.* In making the payments pursuant to § 918.91, the market administrator shall furnish each producer or cooperative association with a statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The delivery period and the identity of the handler and the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer;

(c) The minimum rates at which payment to the producer or cooperative association is required under the provisions of §§ 918.91 and 918.92;

(d) The amount or rates per hundredweight of each deduction, together with a description of the respective deductions; and

(e) The net amount of payment to the producer or cooperative association.

§ 918.95 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due the market administrator from such handler, or due such handler from the market administrator, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 918.96 *Marketing services.*—(a) *Deductions.* In making payments to producers pusuant to § 918.91, the market administrator shall deduct 7 cents per hundredweight or such amount not exceeding 7 cents per hundredweight as may be prescribed by the Secretary, with respect to milk (other than milk of a handler's own production) of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association.

(b) *Marketing services to be rendered.* The moneys received by the market administrator pursuant to paragraph (a) of this section shall be used by the market administrator to sample, test, and check the weights of milk received from producers for whom a cooperative association is not performing such services and to provide such producers with market information.

§ 918.97 *Expense of administration.* As his pro rata share of the expense of administration hereof, each handler shall pay to the market administrator, on or before the 15th day after the end of the month, 4 cents per hundredweight or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe with respect to all receipts within the month of (a) milk from producers including such handler's own production, and (b) other source milk which is classified as Class I milk.

§ 918.98 *Termination of obligations.* The provisions of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 918.100 *Effective time.* The provisions hereof or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 918.101.

§ 918.101 *Suspension or termination.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 918.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 918.103 *Liquidation.* Upon the suspension or termination of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 918.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 918.111 *Separability of provisions.* If any provision hereof, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

[Docket No. AO–219]

HANDLING OF MILK IN MEMPHIS, TENN., MARKETING AREA

ORDER OF SECRETARY DIRECTING THAT A REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION OF JULY 1950 AS REPRESENTATIVE PERIOD; AND DESIGNATION OF AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Memphis, Tennessee, marketing area) who, during the month of July 1950, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.

The month of July 1950 is hereby determined to be a representative period for the conduct of such referendum.

Byford W. Bain is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177).

Done at Washington, D. C., this 8th day of September 1950.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 2832 et al.]

MICHIGAN-WISCONSIN SERVICE CASE

NOTICE OF POSTPONEMENT OF ORAL ARGUMENT

In the matter of applications under section 401 of the Civil Aeronautics Act of 1938, as amended, for certificates of public convenience and necessity authorizing scheduled air transportation of persons, property, and mail, and under section 408 for approval of certain control relationships.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401, 408, and 1001 of said act, that the oral argument in the above-entitled proceeding now assigned for September 18, 1950, is reassigned for September 25, 1950, at 10:00 a. m., e. s. t., in Room 5042, Commerce Building, 14th Street and Constitution Avenue NW., Washington, D. C., before the Board.

Dated at Washington, D. C., September 7, 1950.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 50–8000; Filed, Sept. 12, 1950; 8:46 a. m.]

[Dockets Nos. 4443, 4480]

EASTERN AIR LINES, INC. ET AL.; TOUR BASING FARES

NOTICE OF HEARING

In the matter of the investigation to determine the lawfulness of certain tour basing fares proposed by Eastern Air Lanes, Inc., National Airlines, Inc., Pan American World Airways, Inc., Braniff Airways, Inc. and other carriers.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 403, 404, and 1002 thereof, that hearing in the above-entitled proceeding is assigned to be held on September 25, 1950 at 10:00 a. m. e. d. s. t. in Room 5130, Commerce Building, 14th Street and Constitution Avenue NW., Washington, D. C., before Examiner F. Merritt Ruhlen.

Without limiting the scope of the issues presented by the order of investigation, particular attention will be directed to the following matters and questions:

1. Are the proposed fares, and rules and routings applicable thereto, between

Miami and New York on the one hand, and San Juan, Puerto Rico on the other, unjust or unreasonable?

2. Are the proposed fares, and rules and routings applicable thereto, unjustly discriminatory, unduly preferential or unduly prejudicial?

3. To what extent, if any, may reduced tour-basing fares be offered in air transportation which require as a condition to the use thereof that they "shall be used only as the air transportation portion of inclusive all-expense tours • • •"?

For more detailed information with respect to the issues involved attention is directed to the Prehearing Conference Report issued in this proceeding.

Notice also is given that any persons, other than parties of record as of September 8, 1950, desiring to be heard in this proceeding must file with the Board on or before September 25, 1950, a statement setting forth the issues of fact or law raised by this proceeding on which he desires to be heard.

For further details with respect to this investigation, interested parties are referred to the pertinent orders of the Civil Aeronautics Board on file in the docket.

Dated at Washington, D. C., September 8, 1950.

By the Civil Aeronautics Board.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 1907822, 1963073]

ALASKA

RESTORATION ORDER NO. 1297 UNDER FEDERAL POWER ACT

SEPTEMBER 7, 1950.

Pursuant to the following-listed determinations of the Federal Power Commission and in accordance with Departmental Order No. 2238 (a) (16) of August 16, 1946 (11 F. R. 9080), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands in Alaska hereinafter described, so far as they are withdrawn or reserved for power purposes, are hereby opened to disposition under the public-land laws as provided below, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended:

Determination No.	Dates and types of withdrawal	Type of restoration	Land description
DA-53	Power Site Reserve No. 674 of Jan. 23, 1918; Power Site Classification No. 107 of June 12, 1925.	Under the applicable public-land laws.	Seward Meridian, T. 12 N., R. 3 W., sec. 33, NE¼, NE¼NW¼, S½ NW¼, and S½, containing 600 acres.

Portions of the above-described lands are included within a withdrawal for use by the Alaska Road Commission as an administrative site made by Public Land Order No. 644 of May 9, 1950.

Determination No.	Dates and types of withdrawal	Type of restoration	Land description
DA-53	Power Site Reserve No. 674 of Jan. 23, 1918, as modified May 29, 1918, and October 25, 1918; Power Site Classification No. 107 of June 12, 1925.	Under the applicable public-land laws.	Seward Meridian: T. 12 N., R. 3 W., sec. 2, SE¼NE¼, W½NE¼, NE¼SW¼, and NW¼; sec. 3, N½N½; sec. 11, NE¼NE¼, unsurveyed. T. 13 N., R. 3 W., sec. 34; sec. 35, NE¼, SE¼NW¼, W½NW¼, and S½, containing 1,760 acres.

The above-described lands are included in a withdrawal for military purposes made by Public Land Order No. 5 of June 26, 1942.

The above-described lands shall not become subject to the initiation of any rights or to any disposition under the public-land laws until it is so provided by an order of classification to be issued by the Regional Administrator, Bureau of Land Management, Anchorage, Alaska, opening the unreserved lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, with a 90-day preference right period for filing such applications by Veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25394]

BRICK FROM THE SOUTH TO WASHINGTON, D. C., AREA

APPLICATION FOR RELIEF

SEPTEMBER 8, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 1044.

Commodities involved: Brick and related articles, carloads.

From: Producing points in the south.

To: Washington, D. C., South Washington, Waterloo and Rosslyn, Va.

Grounds for relief: Circuitous routes. Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 1044, Supplement 105.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

MOTOR-RAIL-MOTOR RATES; CHICAGO GREAT WESTERN RAILWAY

APPLICATION FOR RELIEF

SEPTEMBER 8, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Associated Motor Carriers Tariff Bureau, for and on behalf of the Chicago Great Western Railway Company and other carriers named in the application.

Commodities involved: Class and commodity rates.

Between: Chicago, Ill., and St. Paul, Minn.

Grounds for relief: Competition with motor carriers.

Schedules filed containing proposed rates: A. R. Fowler's tariff I. C. C. No. 1.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1246]

MISSOURI-KANSAS-TEXAS RAILROAD CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 7th day of September A. D. 1950.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the 7 percent Cumulative Preferred Series A Stock, $100 par value, of Missouri-Kansas-Texas Railroad Company, a security listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to September 18, 1950, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File Nos. 52-28, 54-183]

PITTSBURGH RAILWAYS CO. AND PHILADELPHIA CO.

SUPPLEMENTAL ORDER GRANTING AND PERMITTING APPLICATIONS-DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 7th day of September 1950.

In the matter of Elmer E. Bauer, trustee of Pittsburgh Railways Company, debtor and Philadelphia Company, File No. 52-28; Philadelphia Company, File No. 54-183.

The Commission, by order dated March 27, 1950, having approved a plan and amendments thereto ("Combined

Plan") filed jointly by Elmer E. Bauer, Trustee of Pittsburgh Railways Company, Debtor ("Railways"), a non-utility company, and Philadelphia Company, a registered holding company and the parent of Railways, for the reorganization of the Pittsburgh Railways System under Chapter X of the Bankruptcy Act and section 11 (f) of the Public Utility Holding Company Act of 1935 ("Holding Company Act") and for the discharge under section 11 (e) of the Holding Company Act of Philadelphia Company's guarantees affecting certain Pittsburgh Railways System securities; and

Said order, dated March 27, 1950, having also granted and permitted to become effective the applications and declarations with respect to the transactions involved in consummation of said Combined Plan, subject, among others, to the conditions specified in Rule U-24 of the rules and regulations promulgated under the Holding Company Act; and

Applicant-declarant, Elmer E. Bauer, Trustee, having filed, pursuant to said Rule U-24, a post-effective amendment to said applications-declarations in connection with said Combined Plan, as amended, wherein it is proposed that there be issued by said Trustee Interim Stock Certificates and Interim Bond Certificates to evidence the right of the holders of such proposed Certificates to receive upon final consummation of said Combined Plan definitive securities as more fully set forth in said Combined Plan; and

The Commission having examined the proposed Interim Certificates and finding with respect to said applications-declarations, as further amended, that the requirements of the applicable provisions of the Holding Company Act and the rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said applications-declarations, as further amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-24 and the applicable provisions of the Holding Company Act, that the said applications - declarations, as further amended, be, and the same hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[File Nos. 54-66, 59-61, 59-35]

FEDERAL WATER & GAS CORP. ET AL.

NOTICE OF FILING OF AMENDED PLAN AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 6th day of September A. D. 1950.

In the matter of Federal Water and Gas Corporation and subsidiary companies, File No. 54-66; Federal Water and Gas Corporation and subsidiary companies, Respondents, File No. 59-61; and New York Water Service Corporations, Federal Water and Gas Corporation, File No. 59-35.

I. On October 11, 1948, Federal Water and Gas Corporation ("Federal"), a registered holding company, filed a plan ("Plan") pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, proposing the distribution to its stockholders of .5 of a share of the common stock of Federal's only remaining subsidiary, Scranton-Spring Brook Water Service Company ("Scranton"), for each share of Federal stock held. The Plan was stated to be in further compliance with the Commission's opinions and orders dated February 10, 1943, July 2, 1948, and July 27, 1948. In connection with said Plan, Federal requested the Commission to find that certain claims asserted in a petition filed by New York Water Service Corporation ("New York"), a former subsidiary of Federal, in behalf of itself and its subsidiaries, including South Bay Consolidated Water Company, Inc. ("South Bay"), were not enforceable against Federal.

Answers, opposing the claims contained in New York's petition, were filed by Percival E. Jackson, John Vanneck, Vanneck & Company, and M. & C. Holding Corporation, stockholders of Federal, and by a common stockholders committee, all hereinafter collectively referred to as "Jackson et al."

By notice and order dated October 22, 1948, the Commission ordered that a hearing be held for the purpose of considering certain aspects of New York's claims and the defenses raised thereto (Holding Company Act Release No. 8592), and hearings were held. Subsequent to the filing of New York's petition referred to above, New York's subsidiary, South Bay, was placed in reorganization under Chapter X of the Bankruptcy Act, and its Trustee ("Trustee") asserted claims against Federal which had theretofore been asserted by New York, and also asserted additional claims.

II. Notice is hereby given that Federal has filed amendments to the Plan (said Plan and the amendments thereto being hereinafter referred to as the "Amended Plan"), for the settlement of the claims asserted by New York and by the Trustee, and for the distribution among Federal's stockholders of a portion of its holdings of the common stock of Scranton. All interested persons are referred to said amended Plan, which is on file in the office of this Commission, for a full statement of its provisions, which may be summarized as follows:

1. Federal has entered into an agreement with New York and its subsidiary, Western New York Water Company ("Western New York"), compromising and settling the claims asserted by New York (exclusive of the claims which had been asserted by New York in behalf of South Bay) whereby Federal will pay to New York and to Western New York the sums of $238,225 and $4,700, respectively. The claims asserted by New York (exclusive of the claims asserted by it in behalf of South Bay) amounted to approximately $7,800,000.

2. Federal has entered into an agreement with the Trustee comprising and settling the claims theretofore asserted by New York in behalf of South Bay, and the additional claims asserted by the Trustee, whereby Federal will pay to the Trustee the sum of $250,000. The obligation of Federal to make the said payment to the Trustee is subject to the condition, among others, that it be approved by the Bankruptcy Court on or before December 1, 1950. The claims in behalf of South Bay asserted by New York and the Trustee, together with a claim for interest asserted thereon, are stated to aggregate not less than $3,000,000.

3. For purposes of effecting the distribution of the common stock of Scranton, as described below, Federal will deliver to The New York Trust Company, as agent in making said distribution, 488,258 shares of common stock of Scranton. Federal now owns a total of 794,054 shares of Scranton. The undistributed balance of such shares will be reserved by Federal to meet certain claims asserted by Chenery Corporation and associates as they may eventually be adjudicated, and to discharge all other liabilities of Federal.

4. There will be distributed to Federal's stockholders of record on a date to be fixed by the Board of Directors 0.5 of a share of the common stock of Scranton for each share of Federal held. Holders of certificates of stock of Federal Water Service Corporation and of Utility Operators Company (companies in the merger through which the present Federal Water and Gas Corporation was created) who were entitled, pursuant to the merger agreement dated October 31, 1941, to exchange their stock certificates for common stock of Federal but have failed to effect such exchange, will be entitled to participate in said distribution upon exchanging said certificates for common stock of Federal before the record date or upon surrendering said stock certificates to The New York Trust Company, as distributing agent, in exchange for common stock of Federal, after the record date and before December 28, 1951.

5. As soon as practicable after December 28, 1951, The New York Trust Company will sell at public or private sale any stock of Scranton which it shall not have theretofore delivered to Federal's stockholders and thereafter will hold the net proceeds of said sale, together with any dividends which may have been received by The New York Trust Company on such undistributed stock, for the benefit of the persons who had been entitled to such undistributed stock.

6. Scrip, which will be issued in lieu of fractional shares, when combined with other scrip aggregating one or more full shares of Scranton's common stock, may be exchanged for full shares of Scranton at any time on or before December 28, 1951. Thereafter, the holders of any scrip may receive their proportionate interest in the cash proceeds of sale of such stock and in any dividends that may have been received by The New York Trust Company upon such stock.

7. Federal requests that any order of the Commission approving the Amended Plan shall contain the provisions and recitals necessary or appropriate to entitle the stockholders of Federal to the benefits of Supplement R and section 1808 (f) of the Internal Revenue Code, and section 270-c of the Tax Law of the State of New York.

8. The filing states that consummation of the Amended Plan shall be conditioned upon the entry by an appropriate District Court of the United States of an order approving and enforcing the Amended Plan and directing its consummation, and upon the final affirmance upon review thereof, if any, or the expiration of the time for bringing such review proceedings.

Jackson et al., who, as noted above, had opposed the claims filed by New York, have indicated their approval of the Amended Plan, including the proposed compromise and settlement of such claims as well as the claims put forth by the Trustee in behalf of South Bay.

III. The Commission having considered said Amended Plan of Federal, and it appearing that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held in this matter;

It is ordered, That a hearing be held herein on October 4, 1950, at 10:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On that date the hearing room clerk will advise as to the room in which the hearing will be held. Any persons desiring to be heard or otherwise participate in this proceeding and who have not previously been granted leave therefor, should notify the Commission to that effect in the manner provided in Rule XVII of the Commission's rules of practice, on or before September 27, 1950.

It is further ordered, That Harold B. Teegarden or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a Hearing Officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the filing, and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters or questions upon further examination:

1. Whether the Amended Plan filed herein, as submitted or as it may hereafter be modified, is in all respects necessary to effectuate the provisions of section 11 (b) of the act;

2. Whether the proposed compromise and settlement of the asserted claims of New York and of South Bay are fair and equitable to the persons affected thereby, and whether the Amended Plan filed herein, as submitted or as it may hereafter be modified, is in all other respects fair and equitable to the persons affected thereby;

3. Whether the Amended Plan, as submitted or as it may hereinafter be modified, contains appropriate provisions relating to the time within which the holders of the stock of Federal, Federal Water Service Corporation, and Utility Operators Company may claim the common stock of Scranton and/or cash proposed to be distributed under the Amended Plan;

4. Whether the Amended Plan, as filed or as it may hereafter be modified, makes appropriate provision for the payment of expenses, fees, and remuneration, and, in connection therewith, in what amounts such expenses, fees and remuneration should be paid, and the fair and equitable allocation thereof;

5. Whether the accounting entries in connection with the proposed transactions are in conformity with the standards of the act, and rules promulgated thereunder;

6. Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder, and, if not, what modifications should be required to be made therein, and what terms and conditions should be imposed to satisfy the applicable statutory standards;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve notice of the matters contained herein by mailing forthwith a copy of this notice and order by registered mail to Federal, Jackson et al. (including the Common Stockholders Committee of Federal), New York, and the Trustee of South Bay, or to their respective counsel of record herein; that Federal shall give notice of said hearing by mailing a copy of this notice and order to each of its common stockholders of record, and to holders of certificates of preferred and Class A stock of Federal Water Service Corporation and common stock of Utility Operators Company, that New York shall give notice of said hearing by mailing a copy of this notice and order to each of the holders of its common stock, that the Trustee shall give notice of said hearing by mailing a copy of said notice and order to each holder of the preferred stock of South Bay, all of said notices to be given to said security holders at their last known addresses, at least fifteen days prior to the date of said hearing; that notice shall be given to all persons by general release of this Commission which shall be distributed to the press and mailed to persons on the mailing list for releases under the act; and that further notice shall be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 54-126, 59-76]

EASTERN GAS AND FUEL ASSOCIATES

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 6th day of September A. D. 1950.

The Commission on March 10, 1950, and the United States District Court for the District of Massachusetts on June 29, 1950, having entered orders pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 (the "act") approving a plan for the recapitalization of Eastern Gas and Fuel Associates ("Eastern"), a registered holding company and a subsidiary of Koppers Company, Inc. ("Koppers"), also a registered holding company, which holds 1,551,878 shares (78 percent) of the common stock and 50,180 shares (13.4 percent) of the 6 percent Cumulative Preferred Stock of Eastern;

Said plan providing, among other things, for the exchange of six shares of new Common Stock for each share of 6 percent Cumulative Preferred Stock now outstanding, and the exchange of 0.169 of a share of New Common Stock for each share of present Common Stock now outstanding;

It appearing that Koppers, pursuant to said provisions of the plan, would acquire 563,347.382 shares (21.8 percent) of the new Common Stock of Eastern;

The Commission in its findings and opinion dated February 3, 1950, with respect to the plan, having found that such acquisition of shares of the new Common Stock of Eastern by Koppers, in view of an outstanding order of the Commission dated June 26, 1945 (Holding Company Act Release No. 5888) requiring Koppers to divest itself of its interests in Eastern, and Koppers' indicated intention to do so within a reasonable time after consummation of the plan, is consistent with the standards of section 10 of the act, subject to Koppers' making an appropriate application respecting the acquisition;

Koppers having filed an application for approval of the acquisition of said 563,347.382 shares of the new Common Stock of Eastern, and the Commission finding that, subject to the terms and conditions set forth below, the proposed acquisition has the tendency required by the provisions of section 10 (c) (2) of the act, and that no adverse findings under section 10 (b) and section 10 (c) (1) of the act are necessary:

It is ordered, That said application be and the same hereby is granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24, and to the further condition that the Commission's order of June 26, 1945, directing Koppers to sever its relationship with Eastern and its subsidiaries by disposing of its direct and indirect ownership, control and holding of securities issued by Eastern and its subsidiaries, shall be deemed to require the disposition of all shares of the new Common Stock of Eastern to be acquired by Koppers pursuant to said plan and this order, with the same force and effect as if said shares had been held by Koppers as of

the date of the said order of June 26, 1945.

It is further ordered, That the filing of the application herein, and the entry of this order, shall not be deemed to terminate any exemption available to Koppers and its affiliates based upon its application for exemption, now pending before the Commission, as provided in section 3 (c) of the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 54-170, 54-172]

NIAGARA HUDSON POWER CORP.

SUPPLEMENTAL ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 7th day of September A. D. 1950.

Niagara Hudson Power Corporation ("Niagara Hudson"), a registered holding company, having filed applications for approval of plans under section 11 (e) of the Public Utility Holding Company Act of 1935, namely, a Consolidation Plan providing for the consolidation of the three principal subsidiaries of Niagara Hudson into a single new operating company, then referred to as the "New Operating Company" and now named "Niagara Mohawk Power Corporation" ("Niagara Mohawk"), and a Dissolution Plan providing for the dissolution of Niagara Hudson; and the Commission by order dated August 24, 1949, having approved said plans; and the United States District Court for the Northern District of New York having entered its order dated November 4, 1949, enforcing the plans; and said order enforcing the plans having been reversed in part by judgment of the Court of Appeals dated February 1, 1950, and amended February 14, 1950, but only with respect to that part of the order relating to the Class B Option Warrants of Niagara Hudson, the order in all other respects having been affirmed; and

Niagara Hudson having filed with the Commission an application for a supplemental order approving certain steps and transactions to complete consummation of the Dissolution Plan, including the disposition of its remaining assets and provision for its liabilities, as follows:

It is now proposed that, as soon as possible after January 1, 1951, and concurrently with or immediately subsequent to the distribution of its holdings of Niagara Mohawk common stock to its remaining common stockholders, Niagara Hudson will transfer all of its remaining assets to Niagara Mohawk, and that Niagara Mohawk will assume all of the obligations and liabilities, if any, of Niagara Hudson outstanding at such time, including any liability for the payment of fees and expenses incident to the Consolidation Plan and Dissolution Plan, any tax liabilities not then finally determined, and any payments which may be required to be made to holders of the Class B Option Warrants of Niagara Hudson in the event of the conclusion of pending litigation with respect to such Option Warrants in favor of the holders thereof.

With respect to the distribution to the remaining holders of Niagara Hudson common stock of the shares of Niagara Mohawk common stock presently held by Niagara Hudson, in the ratio of 0.78 shares of Niagara Mohawk common stock for each share of Niagara Hudson common stock, pursuant to the Dissolution Plan, it is proposed that such distribution shall be commenced as soon as possible after the record date fixed by the Board of Directors of Niagara Mohawk for the dividend upon Niagara Mohawk common stock to be made payable on December 31, 1950, which date is presently anticipated by Niagara Hudson to be on or about December 2, 1950.

It is further proposed by Niagara Hudson that any holder of nine or less than nine shares of Niagara Hudson common stock may elect (a) to receive the equivalent number of shares of Niagara Mohawk common stock (plus Niagara Mohawk common stock scrip for any resulting fraction of less than one full share), on the basis of the 0.78 for 1 ratio, or (b) on or before February 1, 1951, to receive an amount of cash equal to the proceeds of the sale of such equivalent number of shares of Niagara Mohawk common stock (including fractions of shares) at the market price for such shares on the New York Stock Exchange at the closing of the market on the business day last preceding the day of presentation of his Niagara Hudson common stock for surrender.

There are presently outstanding bearer scrip certificates of Niagara Hudson representing rights in respect of fractions of shares of its common stock, which were issued incident to the consolidation forming Niagara Hudson on February 1, 1937. Such bearer scrip certificates are presently outstanding in the aggregate amount of 1,996⅔ shares of Niagara Hudson common stock, and a like number of full shares of Niagara Hudson common stock has been reserved by Niagara Hudson for issue upon the presentation and surrender of such bearer scrip certificates when presented in amounts aggregating one or more full shares in accordance with their terms. In order to make appropriate provision for the holders of such scrip certificates outstanding at the time of dissolution of Niagara Hudson, Niagara Hudson proposes to reserve, in lieu of the shares of Niagara Hudson common stock reserved against such outstanding scrip certificates, the equivalent number (on the basis of the ratio of 0.78 for 1) of shares of Niagara Mohawk common stock. Niagara Hudson further proposes to provide that from the time of the distribution to the remaining holders of Niagara Hudson common stock of shares of Niagara Mohawk common stock, such outstanding scrip certificates will be deemed to represent rights in respect of fractions of full shares of Niagara Mohawk common stock, subject to the same terms, provisions and conditions as are provided with respect to the bearer scrip certificates representing rights in respect of fractions of shares of Niagara Mohawk common stock which have been issued or are issuable under the provisions of the Dissolution Plan.

Niagara Hudson having requested that the Commission's supplemental order herein conform to the pertinent provisions of the Internal Revenue Code as amended, including section 1808 (f) and Supplement R thereof, and contain the specifications therein set forth, wherever pertinent; and

Niagara Hudson having requested the Commission, pursuant to section 11 (e) of the act, to apply to the United States District Court for the Northern District of New York for a supplemental order to enforce and carry out the steps and transactions summarized about; and

Said application for supplemental order having been filed on August 14, 1950, and the Commission having issued a notice of filing with respect to said application stating that any interested person might, not later than September 6, 1950, request the Commission in writing that a hearing be held on said application, and the Commission not having received a request for hearing within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that the steps and transactions proposed in connection with the consummation of the Dissolution Plan of Niagara Hudson will have no adverse effect on the security holders of Niagara Hudson or Niagara Mohawk, that such steps are necessary to effectuate the provisions of section 11 (b) of the act, are fair and equitable to the persons affected; and conform to all applicable requirements of the act, and that said requests of Niagara Hudson may appropriately be granted:

It is ordered, Pursuant to section 11 (e) and the other applicable provisions of the act, that said application be and it hereby is granted, subject to the conditions specified in Rule U-24 of the general rules and regulations promulgated under the act and subject to the reservations of jurisdiction contained in the Commission's order herein dated August 24, 1949;

It is further ordered, That counsel for the Commission be, and they hereby are, authorized and directed to make application forthwith, on behalf of the Commission, to the United States District Court for the Northern District of New York, pursuant to the provisions of section 11 (e) of the act and in accordance with subsection (f) of section 18 of the act, for a supplemental order to enforce and carry out the steps and transactions hereby approved;

It is further ordered, That this supplemental order shall not be operative to authorize the consummation of said steps and transactions unless and until the United States District Court for the Northern District of New York shall, upon application thereto, enter a supplemental order enforcing said steps and transactions;

It is further ordered and recited, That the steps and transactions proposed in the aforesaid Dissolution Plan to be effected by Niagara Hudson and Niagara Mohawk, including particularly those herein described and recited, are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, and that said steps and transactions are hereby authorized, approved and directed:

(1) The distribution by Niagara Hudson or by J. P. Morgan & Co. Incorporated, as Exchange and Fiscal Agent, of all Niagara Hudson's remaining shares of Common Stock of Niagara Mohawk to the remaining holders of the Common Stock of Niagara Hudson in exchange for Common Stock of Niagara Hudson and the transfer and surrender of such Niagara Hudson Common Stock to Niagara Hudson.

(2) The sale by J. P. Morgan & Co. Incorporated, as Exchange and Fiscal Agent, of the shares of Niagara Mohawk Common Stock which would have been distributable to the holders of nine or less than nine shares of Niagara Hudson Common Stock had such holders not elected to receive a cash payment equal to the proceeds of sale thereof, and the transfer of such Niagara Mohawk Common Stock by such Exchange and Fiscal Agent.

(3) The distribution by Niagara Hudson, or by J. P. Morgan & Co. Incorporated, as Exchange and Fiscal Agent, of Niagara Mohawk Common Stock Scrip Certificates in exchange for Niagara Hudson Common Stock Scrip Certificates (in the ratio of 0.78 share of Niagara Mohawk Common Stock for each one full share of Niagara Hudson Common Stock), and the transfer and surrender of such Niagara Hudson Common Stock Scrip Certificates.

(4) The transfer by Niagara Hudson to Niagara Mohawk, or to J. P. Morgan & Co. Incorporated, as Scrip Agent, of the number of shares of Niagara Mohawk Common Stock equivalent (on a ratio of 0.78 share-for-1) to the number of full shares of Niagara Hudson Common Stock reserved against Niagara Hudson Common Stock Scrip Certificates.

(5) The transfer by Niagara Hudson of all its remaining assets, rights and privileges, including particularly, without limiting the generality of the foregoing, cash on hand and in banks, to Niagara Mohawk and the assumption by Niagara Mohawk of all of the obligations and liabilities, if any, of Niagara Hudson outstanding at the time of such transfer, incuding payment of all fees and expenses incident to the Consolidation and Dissolution Plans not theretofore paid, the payment of any tax liabilities of Niagara Hudson for years in respect of which no final determination of tax liability has been made, and any payments which may hereafter be required to be made of holders of Class B Option Warrants of Niagara Hudson on final determination of the appeal and proceedings for certiorari in the Supreme Court of the United States in the action of M. Victor Leventritt, Appellant, v. Securities and Exchange Commission and Niagara Hudson Power Corporation, Respondents, in the United States Court of Appeals for the Second Circuit, and of further proceedings, if any, before the Commission and courts resulting from such proceedings or otherwise.

By the Commission.

[File No. 70-2431]

SCRANTON-SPRING BROOK WATER SERVICE CO. AND WINTON WATER CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 7th day of September A. D. 1950.

Scranton-Spring Brook Water Service Company ("Scranton"), a public utility subsidiary company of Federal Water and Gas Corporation, a registered holding company, and The Winton Water Company ("Winton"), a wholly-owned subsidiary of Scranton, having filed a joint application-declaration and an amendment thereto with this Commission pursuant to the provisions of sections 9, 10, and 12 of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-43 promulgated thereunder regarding the following transactions:

Scranton is engaged primarily in the business of storing water and selling it to the public. In this connection Scranton leases three water reservoirs from Winton which comprises the entire plant and property of Winton. Other than said plant and property, Winton's assets consist of cash and receivables from associated companies.

It is proposed that in consideration of the surrender by Scranton to Winton of all the latter's issued and outstanding capital stock for cancellation, Scranton will acquire all of Winton's franchises, rights, powers and property and assume all its obligations.

Upon the completion of the above mentioned transactions Winton will cease to exist, and its properties will be merged into Scranton pursuant to the laws of the State of Pennsylvania.

Said joint application-declaration having been filed on July 6, 1950, and an amendment thereto having been filed on August 28, 1950, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for a hearing with respect to said joint application-declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Pennsylvania Public Utility Commission, the only State Commission having jurisdiction over the proposed transactions, having duly authorized the proposed transactions as above set forth, and applicants-declarants having requested that the Commission order herein with respect to said application-declaration, as amended, become effective upon issuance; and

The Commission finding with respect to the joint application-declaration, as amended, that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective, subject to the terms and conditions specified below; and

The Commission further deeming it appropriate to grant the request of the joint applicants-declarants that the order herein become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935 that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 70-2441, 31-574]

MIDDLE SOUTH UTILITIES, INC., ET AL.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 6th day of September A. D. 1950.

In the matter of Middle South Utilities, Inc., Arkansas Power & Light Company, and MidSouth Gas Company, File No. 70-2441; Equitable Securities Corporation, T. J. Raney & Sons, and Womeldorff & Lindsey, File No. 31-574.

Middle South Utilities, Inc. ("Middle South"), a registered holding company, having filed a declaration with this Commission, pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 thereunder, regarding the proposed sale of all of the gas utility assets of Middle South's utility subsidiary, Arkansas Power & Light Company ("Arkansas"), to MidSouth Gas Company ("Gasco"), for (1) $1,943,118 in cash, subject to certain adjustments, (2) an undertaking by Gasco to construct a pipeline and to transmit natural gas from Helena, Arkansas, to Arkansas's new generating station at Palestine, Arkansas, and (3) an undertaking by Gasco to furnish natural gas service to certain communities in eastern Arkansas; and

Equitable Securities Corporation, T. J. Raney & Sons, and Womeldorff & Lindsey ("Equitable Group"), which firms as a group propose to purchase all of the voting securities to be initially issued by Gasco, having filed a joint application pursuant to sections 3 (a) (3) and 3 (a) (4) of the act requesting an exemption from all of the provisions of the act otherwise applicable to the group as a public utility holding company; and

Equitable Securities Corporation ("Equitable"), having filed an application under section 9 (a) (2) of the act with respect to its proposed acquisition of a part of the voting securities to be initially issued by Gasco; and

Arkansas having requested that any order approving the sale contain the recitals required by sections 371 (d), 371 (f), and 1808 (f) of the Internal Revenue Code, as amended, including Supplement R thereof; and

All of the parties having requested that any order of the Commission approving the proposed transactions and granting the requested exemption application become effective upon issuance; and

A public hearing having been held after appropriate notice, and the Commission having considered the record and having made and filed its findings and opinion herein;

It is ordered, That the declaration with respect to the sale of the gas utility assets of Arkansas be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

It is further ordered, That the application filed by Equitable Securities Corporation under section 9 (a) (2) of the act with respect to the acquisition of certain voting securities of Gasco be, and the same hereby is, granted forthwith, subject to the terms and conditions contained in Rule U-24.

It is further ordered, That the application of Equitable Securities Corporation, T. J. Raney & Sons, and Womeldorff & Lindsey for an exemption as a holding company from the provisions of the act be, and is hereby granted forthwith pursuant to section 3 (a) (4) of the act, subject to the terms and conditions contained in Rule U-24 and to the following additional terms and conditions:

1. That the Equitable Group dispose of the stock of Gasco within one year from date of acquisition unless such time shall, upon application, be extended by this Commission.

2. That the financing of Gasco be carried out substantially in accordance with the representations contained in the exemption application.

3. That the Equitable Group give 10 days' advance notice to this Commission of any transaction with respect to Gasco, which but for the exemption herein granted would require the filing of an application or declaration under sections 6, 7, 9, 10, 11, 12, or 13 of the act, that the Commission may notify the Equitable Group to modify any such proposed transaction within such 10-day period, and that any such proposed transactions shall not be carried out during the pendency of any proceeding which the Commission may institute during an additional 10-day period to determine whether the exemption herein granted should be revoked or modified.

It is further ordered and recited, That the transactions proposed in the declaration filed under section 12 (d) of the act, namely, the sale and transfer by Arkansas of its gas distribution systems or properties and related facilities to MidSouth Gas Company, and the receipt by Arkansas of the consideration therefor as set forth in said declaration, are necessary and appropriate to the integration or simplification of the holding company system of which Arkansas is a member, and are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, all in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including Supplement R thereof.

By the Commission.

DANIEL EMIL KLEPS

In re: Trust under the will of Daniel Emil Kleps, deceased (File No. D-28-10181; E. T. sec. No. 14502).

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Clara (Klara) Muehlbradt, Walter Muehlbradt, Elise Spohr Handorf, Richard Spohr, Karl Spohr and Gertrud Spohr, whose last known address in Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs-at-law, next-of-kin, legatees and distributees, names unknown, of Laura Spohr, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the trust created under the will of Daniel Emil Kleps, deceased, presently being administered by American Security and Trust Company, trustee, Fifteenth and Pennsylvania Avenue, NW., Washington 13, D. C., and in and to the estate of Daniel Emil Kleps, deceased, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof and the domiciliary personal representatives, heirs-at-law, next-of-kin, legatees and distributees, names unknown, of Laura Spohr, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

BERNHARD THEODOR VIERICH

In re: Estate of Bernhard Theodor Vierich, also known as Bernard Theodore Vierich, deceased File D-28-4129; E. T. sec. 7113.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Walter Reinhard, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof in and to the estate of Bernhard Theodor Vierich, also known as Bernard Theodore Vierich, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by The Trust Company of New Jersey, as executor, acting under the judicial supervision of the Hudson County Court, Probate Division, New Jersey;

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[Vesting Order 15021]

SHOHO FUJIIE

In re: Cash owned by Shoho Fujiie, also known as Shoho Fujii. F-39-6082-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Shoho Fujiie, also known as Shoho Fujii, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows: Cash in the sum of $133.52, presently in the possession of the Treasury Department of the United States in Trust Fund Account, Symbol 158915, "Deposits, Funds of Civilian Internees and Prisoners of War," in the name of Shoho Fujiie, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Shoho Fujiie, also known as Shoho Fujii, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[Vesting Order 15026]

MARIA AMALIA AND HEDWIG LANG

In re: Bonds owned by and debts owing to Maria Amalia Lang and Hedwig Lang. F-28-30874.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maria Amalia Lang and Hedwig Lang, each of whose last known address is Darmstadterstrasse 101, Badenhausen Hessen 16, Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. Two (2) Republic of Chile External Sinking Fund Dollar bonds of 1948, each of $1,000.00 face value, bearing the numbers, M 3971 and M 3972 and presently in the custody of Baer Custodian Corporation, 67 Wall Street, New York, New York, in a General Ruling No. 6 account entitled, "Julius Baer & Co., Zurich, Switzerland", together with any and all rights thereunder and thereto,

b. That certain debt or other obligation of Baer Custodian Corporation, 67 Wall Street, New York, New York, in the amount of $2,628.50 as of June 19, 1950, representing a portion of an account entitled, "Julius Baer & Co., Zurich, Switzerland, General Ruling No. 6 Account", together with any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same, and

c. That certain debt or other obligation of Baer Custodian Corporation, 67 Wall Street, New York, New York, in the amount of $280.40 as of June 19, 1950, representing a portion of a blocked account entitled, "Julius Baer & Co., Zurich, Switzerland", together with any and all accruals to the aforesaid debt or other obligation, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Maria Amalia Lang and Hedwig Lang, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[Vesting Order 15032]

ERNST SONNTAG

In re: Stock owned by Ernst Sonntag also known as Ernest Sonntag. F-28-23396.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ernst Sonntag also known as Ernest Sonntag, whose last known address is Plochingerstrasse 13, Wernau am Neckar, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: Ten (10) shares of no par value common stock of Briggs Manufacturing Company, Detroit 12, Michigan, evidenced by a certificate numbered NYA1918, registered in the name of Ernst Sonntag, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise

dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 12796, Amdt.]

TAJIRO SUMIDA

In re: Debts owing to and claims and stock owned by Tajiro Sumida, also known as T. Sumida.

Vesting Order 12796, dated February 1, 1949, is hereby amended as follows and not otherwise:

1. By deleting from subparagraph 2–b of said Vesting Order 12796 the name, Nippu Jiji Co., Ltd., and susbtituting therefor the following: Hawaii Times, Limited (formerly Nippu Jiji Co., Ltd.);

2. By deleting from Exhibit A, attached to said Vesting Order 12796, all reference to forty (40) shares of stock in Nippu Jiji Co., Ltd.; and

3. By inserting after subparagraph 2–f of said Vesting Order 12796, the following new subparagraph:

g. All monies and amounts paid to or for the account of, or received directly or indirectly by, Shinzaburo Sumida, 1052 Ilima Drive, Honolulu, T. H., by reason of the sale of forty (40) shares of common stock of Hawaii Times, Limited, (formerly Nippu Jiji Co., Ltd.) a corporation organized under the laws of the Territory of Hawaii, evidenced by certificate numbered 80 and registered in the name of Shinsaburo Sumida,(.)

All other provisions of said Vesting Order 12796 and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[Vesting Order 15075]

SOPHIE M. HAUK

In re: Estate of Sophie M. Hauk, deceased. File No. D-28-12797; E. T. Sec. 16971.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Gustav Stahl, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof, in and to the estate of Sophie M. Hauk, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by Wilhelmina E. Stahl, as administratrix c. t. a. acting under the judicial supervision of the Probate Court, Suffolk County, Boston, Massachusetts;

and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 6, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

§ 517.203 *Rate of payment.* The rate of payment shall be fifty (50) percent of the export sales price, computed before the deduction of such payment, basis free alongside ship United States port: *Provided, however,* That such payment shall not be in excess of fifty (50) percent of the domestic market price at the time of sale and place of delivery, as determined by the Secretary: *And provided further,* That the place of delivery, for the purpose of determining the domestic market price at the time of sale, shall be a United States port of export which is on the seaboard nearest the area of production from which the fruit originates. Such payment, however, shall not exceed $1.25 per package as listed in § 517.204 (f). The total amount invoiced the foreign buyer and the Secretary shall not exceed the export sales price as described herein.

§ 517.204 *Eligibility for payment—*(a) *Dates of sale and of export.* No payment hereunder will be made in connection with any sale for export unless the date of sale (see § 517.211 (d)) is on or after the effective date of this offer, and the apples are sold or exported on or after the date of such sale and prior to the date specified in paragraph (h) of this section, except that a sale made prior to the effective date of this offer and expressly made contingent upon the Secretary's issuing this or a similar offer will be deemed to be a sale made after such effective date if after such effective date the parties to such contract make the sale binding unconditionally by confirmation or otherwise and if no exportations were made pursuant to such sale prior to such effective date. The apples shall be deemed to have been exported when loaded on board an ocean carrier: *Provided,* such apples have not thereafter been unloaded from such vessel in any port of the United States. The date of export of any lot shall be considered to be the date of loading on board the ocean-going vessel on which movement of such lot from the United States is effected. The date of the on-board ocean bill of lading (or loading tally sheet, see § 517.205 (a) (3)) shall be considered to be the date the apples were loaded on board, unless an "on-board" date is shown.

(b) *Minimum size of lot.* No payment will be made hereunder for the exportation of any lot of less than one hundred (100) packages. A lot is that quantity of apples loaded to any one ocean carrier at any one sailing consigned to any one destination under any one export sale.

(c) *Declaration of sale and intent to export.* No payment will be made hereunder, unless the exporter executes and mails or directly delivers Form FV–427 (8/30/50), "Declaration of Sale and Intent to Export Fresh Apples under Program RMX 96a," to the designated representative of the Secretary, as indicated in § 517.201 (b), nearest the principal office of the exporter. Form FV–427 (8/30/50), must be prepared separately for each export sale and shall be mailed or delivered not later than the end of the second business day (excluding Saturdays, Sundays, and legal holidays) following the date of sale, but in no event later than the date of export. No payment will be made if such form is mailed or delivered after the time hereinbefore specified, unless the Secretary, upon written request by the exporter stating substantial reasons therefor, waives such delay. The Secretary will notify the exporter as promptly as possible after receipt of any executed Form FV–427 (8/30/50), if any information shown in such form does not conform with the terms and conditions of this offer. No payment will be made in excess of the sum to be billed the Secretary as shown in the executed Form FV–427 (8/30/50), unless the Secretary, upon written request by the exporter stating substantial reasons therefor, approves such greater amount.

(d) *Grades.* No payment will be made hereunder unless the fresh apples exported under this program meet the requirements of U. S. No. 1 grade, or better, as defined in United States Standards for Apples, effective September 1, 1937; or, meet the requirements of State Fancy grade, or better, of the State of origin, as defined in the latest respective State standards for apples. In addition, all apples exported under this program must comply with the provisions of the Export Apple and Pear Act and meet the requirements of United States standards for export; except that apples which are packed in boxes or baskets shall be wrapped in oiled paper or a moderate amount of shredded oiled paper shall be scattered throughout the apples in the package, and apples which are tray packed shall have the trays properly treated with oil or the apples shall be wrapped in oiled paper.

(e) *Inspection.* Exporters shall furnish, at no expense to the Secretary, certificates of inspection for each lot of fresh apples exported pursuant to this offer. Such certificates shall be issued by the Federal or Federal-State Inspection Service. Inspection for United States standards for export must be performed within fourteen (14) days prior to date of export: *Provided,* That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an extension of time for such inspection.

(f) *Packaging.* All fresh apples to be exported under this program shall be suitably packed for export in new packages in a manner which shall reasonably assure their arrival in good condition in the country of destination. Export shipments shall be made in the following:

Standard Eastern apple boxes with caps and liner;

Standard Northwestern apple boxes with liners or pads;

Tray-pack, wooden apple boxes (Freight Container Tariff No. 45, inside dimensions 11¾ x 12 ⅛ x 19 $1\frac{1}{16}$ inches); or,

Standard export tub bushel baskets with caps and liners.

(g) *Re-entry or diversion.* The exporter shall undertake, as a part of his "Declaration of Sale and Intent to Export Fresh Apples under Program RMX 96a," which is required in paragraph (c) of this section, that the apples exported under this program will thereafter not re-enter the United States or its territories or possessions, or be diverted to other than an approved country as listed in § 517.202, in fresh or processed form. In the event of such re-entry or diversion to other than an approved country, the exporter shall refund to the Secretary any export payment received under this offer with respect to the quantity so re-entered or diverted.

(h) *Final dates.* The final date for mailing or delivering Form FV–427 (8/30/50), "Declaration of Sale and Intent to Export Fresh Apples Under Program RMX 96a," shall be 12:00 o'clock midnight May 31, 1951. The final date of export shall be 12:00 o'clock midnight May 31, 1951. The final date for filing claims for payment (§ 517.205) shall be 12:00 o'clock midnight June 30, 1951.

§ 517.205 *Claims supported by evidence of compliance.* (a) The exporter shall file a separate claim for payment for each export sale or lot exported under this program with the representative of the Secretary with whom he filed Form FV–427 (8/30/50), "Declaration of Sale and Intent to Export Fresh Apples Under Program RMX 96a," not later than the date specified in paragraph (h) of § 517.204: *Provided,* That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an extension of time for such filing. Each claim for payment shall be filed in an original and three copies on voucher Form FDA–564, "Public Voucher—Diversion Programs," and shall be supported by (1) two certified copies of the sales contract, (2) two certified copies of the sales invoice to the buyer showing the export sales price less the payment to be made by the Secretary, (3) two copies of the on-board ocean bill of lading signed by an agent of the ocean carrier (except that where loss, destruction or damage occurs subsequent to loading on board ocean carrier but prior to issuance of on-board bill of lading, two copies of a loading tally sheet or similar document may be submitted in lieu of such bill of lading), (4) the original (or a signed copy) and one copy of the inspection certificate(s) required in paragraph (e) of § 517.204, and (5) such other documents, if any, as may be required by the Secretary, evidencing sale and exportation of the commodity on which payment is claimed.

(b) The ocean bill of lading must show the quantity and description of the commodity, the date and place of loading on vessel, the fact that such commodity is on board, the destination of the commodity, and the name and address of both the exporter and consignee. If the shipper or consignor

named in such bill of lading is other than the exporter (seller) named in Form FV–427 (8/30/50), the exporter shall furnish with his claim a waiver by such shipper or consignor, in favor of such exporter, of any right to claim payment under this program for the commodity covered by such bill of lading.

(c) The foregoing required evidence will not be accepted as conclusive if the Secretary has reason to believe that exportation of all or any quantity of the apples was not actually accomplished or that there has not been compliance with other requirements of this offer, and in any such instance the Secretary may require such additional evidence as he deems reasonable and pertinent.

§ 517.206 *Records and accounts.* The exporter shall maintain adequate records showing purchases, sales, and deliveries of fresh apples exported or to be exported in connection with this program. Such records, accounts, and other documents relating to any transaction in connection with this program shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture, and shall be preserved for at least two years after the effective date of this program.

§ 517.207 *Amendment and termination.* The Secretary may amend this program at any time upon public announcement of such amendment or may terminate this program at any time, by giving five days public notice thereof; such amendment or termination, however, shall not apply to sales made and declared under the program prior to the effective time of such amendment or termination.

§ 517.208 *Persons not eligible.* No Member of, or Delegate to, Congress or Resident Commissioner shall be admitted to any share or part of any contract made under this program or to any benefit that may arise therefrom, but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 517.209 *Set-off.* The Secretary may set off, against any amount owed to any exporter hereunder, any amount owed by such exporter to Commodity Credit Corporation, the United States Department of Agriculture, or any other agency of the United States.

§ 517.210 *Assignment.* No exporter shall, without the written consent of the Secretary, assign any claim of the exporter against the Secretary hereunder or make a lienholder a joint payee with respect to any such claim. With such consent, an exporter may assign, in accordance with the provisions of the Assignment of Claims Act of 1940, any claim for payment hereunder, or make a lienholder a joint payee with respect to any such claim. In case of such assignment, the Secretary may set off any claim which the Secretary has against the exporter arising out of the exportation on which the assigned claim is based, and may set off any other claim of the United States which the Secretary has against the exporter based on facts existing at the time of the assignment or based on facts arising thereafter prior to the knowledge by the Secretary of the assignment.

§ 517.211 *Definitions.* As used in this subpart, the following terms have the following meanings:

(a) "Secretary" means the Secretary of the United States Department of Agriculture, or any authorized representative of the Secretary.

(b) "Exporter" means any individual, corporation, partnership, association, or other business entity, engaged in the business of selling fresh apples for export, produced and packed in the continental United States.

(c) "Sale" or "sales contract" includes a contract to sell. The contract shall consist of a written instrument signed by buyer and seller or a written offer and acceptance evidenced by an exchange of telegrams, cablegrams, or letters.

(d) "Date of sale" means the date on which both buyer and seller signed a written contract or the date on which there was a written acceptance of a written offer or counteroffer to buy or sell, except that, where the contract is signed or the acceptance takes place during the period this offer is in effect, but the contract or acceptance is intended to take effect either before or after such period, the date of sale shall be the date on which the contract or acceptance is intended to take effect, as determined by the Secretary.

(e) "Public announcement" and "public notice" mean the issuance of a press release or the publication of a notice in the FEDERAL REGISTER.

NOTE: The record keeping and reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This offer shall be effective on September 11, 1950.

Dated this 8th day of September 1950.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 50–8045; Filed, Sept. 13, 1950; 8:48 a. m.]

PART 517—FRUITS AND BERRIES, FRESH

SUBPART—FRESH PEAR EXPORT PROGRAM (FISCAL YEAR 1951)

Sec.
517.231 General statement.
517.232 Approved countries.
517.233 Rate of payment.
517.234 Eligibility for payment.
517.235 Claims supported by evidence of compliance.

AUTHORITY: §§ 517.231 to 517.241 issued under sec. 32, 49 Stat. 774, as amended, sec. 112, 62 Stat. 146; 7 U. S. C. 612c, 22 U. S. C. Sup. 1510.

§ 517.231 *General statement.* (a) In order to encourage the exportation of fresh pears produced in Oregon, Washington, and California, the Secretary of Agriculture, pursuant to the authority conferred by section 32 of Public Law 320, 74th Congress, as amended, and section 112 (f) of the Foreign Assistance Act of 1948, offers to make payments to U. S. exporters of fresh pears which are sold for export to an approved country as designated in § 517.232, subject to the terms and conditions hereinafter set forth (§§ 517.232 to 517.241).

(b) Information pertaining to this offer and forms prescribed for use thereunder may be obtained from the following representatives of the Secretary:

Harry J. Krade, Fruit and Vegetable Branch, PMA, U. S. Department of Agriculture, 921 Tenth Street, Sacramento 14, California.

W. J. Broadhead, Fruit and Vegetable Branch, PMA, U. S. Department of Agriculture, 515 S. W. Tenth Avenue, Portland 5, Oregon.

Norman F. Horsey, Fruit and Vegetable Branch, PMA, U. S. Department of Agriculture, Washington 25, D. C.

§ 517.232 *Approved countries.* An approved country shall be any country, territory, or dependent area specifically named in this section.

  Uruguay.

§ 517.233 *Rate of payment.* The rate of payment shall be fifty (50) percent of the export sales price, computed before the deduction of such payment, basis free alongside ship United States port: *Provided, however,* That such payment shall not be in excess of fifty (50) percent of the domestic market price at the time of sale and place of delivery, as determined by the Secretary: *And provided further,* That the place of delivery, for the purpose of determining the domestic market price at the time of sale, shall be a United States port of export which is on the seaboard nearest the area of production from which the fruit originates. Such payment, however, shall not exceed $1.25 per western standard pear box as described in § 517.234 (h). The total amount invoiced the foreign buyer and the Secretary shall not exceed the export sales price as described herein.

§ 517.234 *Eligibility for payment*—(a) *Dates of sale and of export.* No payment hereunder will be made in connection with any sale for export unless the date of sale (see § 517.241 (d)) is on or after the effective date of this offer, and the pears are sold or exported on or after the date of such sale and prior to the date specified in paragraph (j) of this section, except that a sale made prior to the effective date of this offer and expressly made contingent upon the Secretary's issuing this or a similar offer will be deemed to be a sale made after such effective date if after such effective date the parties to such contract make the sale binding unconditionally by confirmation or otherwise and if no exportations were made pursuant to such sale prior to such effective date. The pears shall be deemed to have been exported when loaded on board an ocean carrier: *Provided,* Such pears have not thereafter been unloaded from such vessel in any port of the United States. The date of export of any lot shall be considered to be the date of loading on board the ocean-going vessel on which movement of such lot from the United States is effected. The date of the on-board ocean bill of lading (or loading tally sheet, see § 517.235 (a) (3)) shall be considered to be the date the pears were loaded on board, unless an "on-board" date is shown.

(b) *Minimum size of lot.* No payment will be made hereunder for the exportation of any lot of less than one hundred (100) boxes. A lot is that quantity of pears loaded to any one ocean carrier at any one sailing consigned to any one destination under any one export sale.

(c) *Declaration of sale and intent to export.* No payment will be made hereunder, unless the exporter executes and mails or directly delivers Form FV–428 (8–30–50), "Declaration of Sale and Intent to Export Fresh Pears under Program RMX 96a," to the designated representative of the Secretary, as indicated in § 517.231 (b), nearest the principal office of the exporter. Form FV–428 (8–30–50) must be prepared separately for each export sale and shall be mailed or delivered not later than the end of the second business day (excluding Saturdays, Sundays, and legal holidays) following the date of sale, but in no event later than the date of export. No payment will be made if such form is mailed or delivered after the time hereinbefore specified, unless the Secretary, upon written request by the exporter stating substantial reasons therefor, waives such delay. The Secretary will notify the exporter as promptly as possible after receipt of any executed Form FV–428 (8–30–50), if any information shown in such form does not conform with the terms and conditions of this offer. No payment will be made in excess of the sum to be billed the Secretary as shown in the executed Form FV–428 (8–30–50), unless the Secretary, upon written request by the exporter stating substantial reasons therefor, approves such greater amount.

(d) *Varieties.* Fresh pears which may be exported under this program shall be any of the following varieties produced in Oregon, Washington or California: Anjou, Bosc, Comice, and Winter Nelis.

(e) *Grade.* No payment will be made hereunder unless the fresh pears exported under this program at least meet the following specification: U. S. No. 1 grade, except for shape, and damage by russeting and limb rubs. The pears shall be not seriously misshapen and shall be free from serious damage caused by russeting and limb rubs: *Provided, however,* That the tolerance allowed for decay or internal break-down shall average not more than two (2) percent, by count, in any lot and shall not exceed ten (10) percent, by count, in any container up to and including January 31, 1951, and shall average not more than three (3) percent, by count, in any lot and shall not exceed ten (10) percent, by count, in any container on and after February 1, 1951. "U. S. No. 1," and the definitions for "seriously misshapen," "serious damage by russeting," and "serious damage by limb rubs," shall have the meanings as defined in "U. S. Standards for Winter Pears," effective July 8, 1940. In addition, all pears exported under this program must comply with the provisions of the Export Apple and Pear Act.

(f) *Sizes.* The sizes of pears which may be exported under this program shall be, for each variety, a size that will pack, in accordance with the

"Standard Pack" requirements of the U. S. Standards for Winter Pears, not to exceed the following number of pears per western standard pear box: Anjou, 195; Bosc, 180; Comice, 180; and Winter Nelis, 225.

(g) *Inspection.* Exporters shall furnish, at not expense to the Secretary, certificates of inspection for each lot of fresh pears exported pursuant to this offer. Such certificates shall be issued by the Federal or Federal-State Inspection Service. A condition inspection must be performed within fourteen (14) days prior to date of export: *Provided,* That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an extension of time for such inspection.

(h) *Packaging.* All fresh pears to be exported under this program shall be suitably packed for export in a manner which shall reasonably assure their arrival in good condition in the country of destination. The pears shall be properly packed for export in new western standard pear boxes (inside dimensions, 8½" x 11½" x 18").

(i) *Re-entry or diversion.* The exporter shall undertake, as a part of his "Declaration of Sale and Intent to Export Fresh Pears Under Program RMX 96a," which is required in paragraph (c) of this section, that the pears exported under this program will thereafter not re-enter the United States or its territories or possessions, or be diverted to other than an approved country as listed in § 517.232, in fresh or processed form. In the event of such re-entry or diversion to other than an approved country, the exporter shall refund to the Secretary any export payment received under this offer with respect to the quantity so re-entered or diverted.

(j) *Final dates.* The final dates for mailing or delivering Form FV–428 (8–30–50), "Declaration of Sale and Intent to Export Fresh Pears Under Program RMX 96a," for exporting, and for filing claim for payment (see § 517.235) shall be 12:00 o'clock midnight on the date specified below for each variety:

Variety	Final dates		
	Mailing or delivering Form FV–428	Exportation	Filing claims for payment
Bosc	Feb. 1, 1951	Feb. 1, 1951	Feb. 28, 1951
Comice	Mar. 15, 1951	Mar. 15, 1951	Apr. 15, 1951
Anjou	May 15, 1951	May 15, 1951	June 15, 1951
Winter Nelis	May 15, 1951	May 15, 1951	June 15, 1951

§ 517.235 *Claims supported by evidence of compliance.* (a) The exporter shall file a separate claim for payment for each export sale or lot exported under this program with the representative of the Secretary with whom he filed Form FV–428 (8–30–50), "Declaration of Sale and Intent to Export Fresh Pears under Program RMX 96a," not later than the date specified in paragraph (j) of § 517.234: *Provided,* That, upon request of the exporter indicating substantial reasons therefor, the Secretary may, if he deems it desirable, grant an extension of time for such filing. Each claim for payment shall be filed in an original and three copies on voucher Form FDA–564, "Public Voucher—Diversion Programs," and shall be supported by (1) two certified copies of the sales contract, (2) two certified copies of the sales invoice to the buyer showing the export sales price less the payment to be made by the Secretary, (3) two copies of the on-board ocean bill of lading signed by an agent of the ocean carrier (except that where loss, destruction or damage occurs subsequent to loading on board ocean carrier but prior to issuance of on-board bill of lading, two copies of a loading tally sheet or similar document may be submitted in lieu of such bill of lading), (4) the original (or signed copy) and one copy of the inspection certificate(s) required in paragraph (g) of § 517.234, and (5) such other documents, if any, as may be required by the Secretary, evidencing sale and exportation of the commodity on which payment is claimed.

(b) The ocean bill of lading must show the quantity and description of the commodity, the date and place of loading on vessel, the fact that such commodity is on board, the destination of the commodity, and the name and address of both the exporter and consignee. If the shipper or consignor named in such bill of lading is other than the exporter (seller) named in Form FV–428 (8–30–50), the exporter shall furnish with his claim a waiver by such shipper or consignor, in favor of such exporter, of any right to claim payment under this program for the commodity covered by such bill of lading.

(c) The foregoing required evidence will not be accepted as conclusive if the Secretary has reason to believe that exportation of all or any quantity of the pears was not actually accomplished or that there has not been compliance with other requirements of this offer, and in any such instance the Secretary may require such additional evidence as he deems reasonable and pertinent.

§ 517.236 *Records and accounts.* The exporter shall maintain adequate records showing purchases, sales, and deliveries of fresh pears exported or to be exported in connection with this program. Such records, accounts, and other documents relating to any transaction in connection with this program shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture, and shall be preserved for at least two years after the effective date of this program.

§ 517.237 *Amendment and termination.* The Secretary may amend this program at any time upon public announcement of such amendment or may terminate this program at any time, by giving five days' public notice thereof; such amendment or termination, however, shall not apply to sales made and declared under the program prior to the effective time of such amendment or termination.

§ 517.238 *Persons not eligible.* No member of, or Delegate to, Congress or Resident Commissioner shall be admitted to any share or part of any contract made under this program or to any benefit that may arise therefrom, but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 517.239 *Set-off.* The Secretary may set off, against any amount owed to any exporter hereunder, any amount owed by such exporter to Commodity Credit Corporation, the United States Department of Agriculture, or any other agency of the United States.

§ 517.240 *Assignment.* No exporter shall, without the written consent of the Secretary, assign any claim of the exporter against the Secretary hereunder or make a lienholder a joint payee with respect to any such claim. With such consent, an exporter may assign, in accordance with the provisions of the Assignment of Claims Act of 1940, any claim for payment hereunder, or make a lienholder a joint payee with respect to any such claim. In case of such assignment, the Secretary may set off any claim which the Secretary has against the exporter arising out of the exportation on which the assigned claim is based, and may set off any other claim of the United States which the Secretary has against the exporter based on facts existing at the time of the assignment or based on facts arising thereafter prior to the knowledge by the Secretary of the assignment.

§ 517.241 *Definitions.* As used in this subpart, the following terms have the following meanings:

(a) "Secretary" means the Secretary of the United States Department of Agriculture, or any authorized representative of the Secretary.

(b) "Exporter" means any individual, corporation, partnership, association, or other business entity, engaged in the business of selling fresh pears for export, produced and packed in the continental United States.

(c) "Sale" or "sales contract" includes a contract to sell. The contract shall consist of a written instrument signed by buyer and seller or a written offer and acceptance evidenced by an exchange of telegrams, cablegrams, or letters.

(d) "Date of sale" means the date on which both buyer and seller signed a written contract or the date on which there was a written acceptance of a written offer or counteroffer to buy or sell, except that, where the contract is signed or the acceptance takes place during the period this offer is in effect, but the contract or acceptance is intended to take effect either before or after such period, the date of sale shall be the date on which the contract or acceptance is intended to take effect, as determined by the Secretary.

(e) "Public announcement" and "public notice" mean the issuance of a press release or the publication of a notice in the FEDERAL REGISTER.

NOTE: The record keeping and reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This offer shall be effective on September 11, 1950.

Dated this 8th day of September 1950.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 50–8044; Filed, Sept. 13, 1950; 8:48 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter B—Immigration Regulations

PART 150—DEPORTATION PROCEEDINGS: INVESTIGATION AND ARREST

PART 151—DEPORTATION PROCEEDINGS: HEARING AND ADJUDICATION

CONDUCT OF DEPORTATION HEARINGS AND VOLUNTARY DEPARTURE OF ALIENS

AUGUST 3, 1950.

The following amendments to Part 150, Deportation Proceedings: Investigation and Arrest, and Part 151, Deportation Proceedings: Hearing and Adjudication, of Chapter I, Title 8 of the Code of Federal Regulations, are hereby prescribed:

1. Section 150.3 is amended to read as follows:

§ 150.3 *Voluntary departure permitted by officers in charge.* (a) Notwithstanding any other provisions of this part, the officer in charge of a district or suboffice may, prior to the issuance or service of a warrant of arrest or after service of such warrant, and before the record of hearing is submitted to the Commissioner in accordance with § 151.7 of this chapter, exercise the authority conferred upon the Attorney General by section 19 (c) (1) of the Immigration Act of 1917, as amended (39 Stat. 889, 54 Stat. 671, 56 Stat. 1044, 62 Stat. 1206; 8 U. S. C. 155 (c) (1)), to permit an alien to depart from the United States to any country of his choice at his own expense if (1) the alien is not subject to deportation upon any ground set forth in section 19 (d) of the Immigration Act of February 5, 1917, as amended, (2) the alien is willing and able to depart promptly from the United States, (3) he will apparently be admitted to the country of destination, and (4) the prompt departure of the alien will be advantageous to the Government.

(b) Permission to depart voluntarily shall not be granted after service of a warrant of arrest unless the alien makes written application for such disposition of his case. In such application he shall state (1) that he understands the charges against him and admits that he is in the United States in violation of the immigration laws, and (2) that he has been informed of his right to representation by counsel and to a hearing but that he desires to depart from the United States voluntarily without further proceedings or hearing on the warrant of arrest and waives such further proceedings or hearing.

2. Section 150.7 is amended to read as follows:

§ 150.7 *Application, prior to hearing, for suspension of deportation*—(a) *Who may apply.* Any alien against whom warrant proceedings have been instituted who believes himself entitled to suspension of deportation may apply therefor prior to hearing by filing Form I–256, in duplicate, properly filled out and executed, together with two photographs as prescribed in § 364.1 of this chapter, at the office of the Service having jurisdiction over the applicant's place of residence.

(b) *Prima facie eligibility not established.* If Form I–256 does not establish prima facie eligibility for suspension of deportation the case shall be referred immediately to a hearing examiner for hearing as to deportability.

(c) *Prima facie eligibility established; documents and investigation required.* If Form I–256 establishes prima facie eligibility for suspension of deportation, the alien shall be advised:

(1) To obtain promptly and furnish to the officer in charge:

(i) Official certifications to establish his relationship to those he claims would suffer economic detriment by his deportation and, if such persons are citizens of the United States, evidence of their citizenship, or

(ii) Documentary evidence that he has resided continuously in the United States for seven years or more and was residing in the United States on July 1, 1948;

(2) To submit the affidavits of two witnesses, preferably citizens, and if the alien is employed, one from his employer, who can vouch for the alien's good moral character for the preceding five years. The officer in charge shall obtain verifications of such entries of the alien and other persons as are pertinent to the case and shall also cause an investigation to be conducted for the purpose of obtaining facts which will bear upon the alien's claim to eligibility for relief. The investigating officer shall make a written report of his investigation to be included in the record.

(d) *Submission of record for hearing.* When the necessary entries have been verified and the documents required of the alien and the report of the investigating officer have been submitted, the case shall be referred to a hearing examiner for hearing under the warrant of arrest.

3. The third sentence of paragraph (b) of § 151.2, *Conduct of hearing,* is amended to read as follows: "He shall certify that, to the best of his knowledge and belief, the record is a true report of everything that was stated during the course of the hearing, including oaths administered, the warnings given to the alien or the witnesses, and the rulings on objections, except statements made off the record."

4. The first sentence of paragraph (c) of § 151.2, *Conduct of hearing,* is amended to read as follows:

(c) *Hearing examiner: specific duties.* At the commencement of the hearing under a warrant of arrest, the hearing examiner shall (1) place the alien under oath or affirmation, (2) enter of record a copy of the warrant of arrest and explain to the alien in simple, understandable language the nature of the charges contained therein, and (3) advice the alien, if not represented by counsel or other qualified representative, that he may be so represented if he desires and require him to state then and there for the record whether he desires such representation.

5. Paragraph (f) of § 151.2, *Conduct of hearing,* is amended to read as follows:

(f) *Examining officer: specific duties.* The examining officer shall interrogate the alien to develop evidence concerning (1) alienage, (2) date, place, and manner of entry into the United States, (3) grounds for deportation, (4) factors bearing on statutory eligibility for discretionary relief, and (5) such other information as may be pertinent to the issues of the case: *Provided,* That the alien need not be so interrogated in any case in which the facts as to such matters are stipulated pursuant to § 151.3 (d). If the alien is suffering from any mental or serious physical disability, the examining officer shall obtain and present for the record a medical certificate showing whether such alien is in condition to be deported without danger to life or health and whether he will require special care and attention in the event of deportation overseas. In cases in which the alien is charged with being deportable by reason of conviction for crime in the United States or abroad, the examining officer shall offer in evidence a certified copy of the record of conviction and sentence and, if it is deemed necessary in order to establish whether the crime involves moral turpitude, a certified copy of the information, indictment, or complaint upon which the alien was convicted.

6. Paragraph (e) of § 151.3, *Contents of record; evidence,* is amended to read as follows:

(e) *Application for discretionary relief.* At any time during the hearing under the warrant of arrest the alien may apply for suspension of deportation, or for the privilege of departing from the United States at his own expense in lieu of deportation, or for the privilege of departing from the United States at his own expense in lieu of deportation with the additional privilege of pre-examination. He may apply in the alternative for more than one of these three forms of relief. The burden of establishing that the alien meets the statutory requirements precedent to the exercise of discretionary relief shall be upon the alien. In addition, he may submit any written or oral material which he believes should be considered in the exercise of discretion by the Commissioner.

7. Paragraphs (c) and (d) of § 151.5, *Recommended decision*, are amended to read as follows:

(c) *Exceptions to written recommended decisions.* The examining officer and the alien or his counsel or representative shall be allowed a reasonable time not to exceed ten days except that the ten-day period shall be reduced to five days in the case of an alien detained by the Service (which periods may be extended by the officer in charge of the district or suboffice only upon a showing of good cause that more time is necessary), in which to submit to the officer in charge of the district or suboffice (1) exceptions to the recommended decision, or (2) proposed findings and conclusions, and (3) supporting reasons for such exceptions or proposed findings or conclusions for consideration by the Commissioner. Any person upon whom service of the written recommended decision has been made may file a written waiver of the right specified above. When exceptions to the recommended decision or proposed findings and conclusions are filed by either the examining officer or by the alien (or his counsel or representative), a copy thereof shall be served upon the other and such other person shall be afforded a period of five days from date of service (which period may be extended by the officer in charge of the district or suboffice only upon a showing of good cause that more time is necessary) within which to file with said officer in charge his reply thereto or to waive the privilege of filing such reply. A waiver of the right to file proposed findings and conclusions or exceptions to the recommended decision shall not be deemed to be a waiver of the right to file said reply.

(d) *Oral recommended decision and exceptions thereto.* In any case in which the examining officer and the alien or his counsel or representative have entered an oral waiver as provided for in § 151.4, the hearing examiner may state for the record in the presence of these persons a brief summary of the evidence, proposed findings of fact and conclusions of law, and his recommended order in the manner provided in paragraph (a) of this section. When the hearing examiner makes such oral recommended decision, he shall then require the examining officer and the alien or his counsel or representative to state for the record whether they take exception to any part thereof. If exceptions are taken, the examining officer and the alien or his counsel or representative shall be afforded the same opportunities accorded him by the provision of paragraph (c) of this section. If exceptions are not taken, such action shall be deemed to be a voluntary waiver of the right thereafter to submit proposed findings, conclusions and supporting reasons for consideration, but shall not be deemed to be a waiver of the privilege of filing a reply as provided for in paragraph (c) of this section.

8. Section 151.7 is amended to read as follows:

§ 151.7 *Submission of record to the Commissioner.* The entire record shall be forwarded promptly to the Commissioner by the officer in charge of the suboffice or district (a) upon receipt of exceptions, proposed findings and conclusions, supporting reasons, and reply as provided in § 151.5, or (b) upon expiration of the time allowed therefor, or (c) upon receipt of waivers from the examining officer and the alien or his counsel or representative of the right or privilege to file proposals, exceptions, and argument to the recommended decision of the hearing examiner and reply to exceptions filed by either of such persons.

This order shall become effective on the date of its publication in the FEDERAL REGISTER. The requirements of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date are inapplicable so far as the amendments to §§ 150.7, 151.2, and 151.3 are concerned, and so far as the amendment to the first sentence of § 151.5 (c) involving the re-wording and change in position of the parenthetical clause is concerned for the reason that the regulations prescribed in those amendments pertain solely to agency management. With respect to the amendment of § 150.3, the existing regulations under that section relating to the deportation of aliens permit, under certain circumstances, the voluntary departure from the United States of an alien prior to the issuance or service of a warrant of arrest and after service of such warrant and before the case is submitted to a hearing examiner for hearing. This order amends § 150.3 to permit also the voluntary departure of an alien after hearing under the warrant of arrest has begun. The change made by amended § 150.3 relieves restrictions on an additional group of aliens and will serve to effect the prompt departure from the United States of a larger number of deportable aliens. The amendment of § 151.5 (c), and related amendments to §§ 151.5 (d) and 151.7, which will require the service of a copy of the proposed findings and conclusions or exceptions filed by either the examining officer or the alien on the other, adds to the fairness of the deportation hearing procedure and is advantageous to the persons involved in any such procedure. Therefore, in so amending §§ 150.3 and 151.5 (c), it is considered that compliance with the provisions of section 4 of the Administrative Procedure Act as to notice of proposed rule making and delayed effective date is impracticable and contrary to the public interest.

(Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37, 54 Stat. 675; 8 U. S. C. 102, 222, 458)

A. R. MACKEY,
Acting Commissioner,
Immigration and Naturalization.

Approved: September 9, 1950.

PEYTON FORD,
Acting Attorney General.

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Administration (Old-Age and Survivors Insurance), Federal Security Agency

[Regs. 3, Further Amdt.]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE

BASIC COMPUTATION OF BENEFITS AND LUMP SUMS

Regulations No. 3, as amended (20 CFR 403.1 et seq.), are further amended by adding to Subpart C of Part 403 the following:

APPENDIX

For the purpose of determining the amount of any monthly benefit for any month after August 1950 or the amount of any lump-sum death payment in the case of a death occurring after August 1950, payable on the wages and self-employment income of an insured individual whose primary insurance amount is required to be an amount determined under section 215 (c) of the Social Security Act, as amended, the primary insurance amount of such individual and his average monthly wage shall be determined as follows:

1. The primary insurance amount of any such individual shall be the amount appearing in column II of the table in paragraph 3 on the line on which in column I appears his primary insurance benefit.

2. The average monthly wage of any such individual, for the purposes of determining the maximum amount of monthly benefits payable on the basis of the wages and self-employment income of such individual, shall be the amount appearing in column III of the table in paragraph 3 on the line on which in column I appears his primary insurance benefit.

3. For the purposes of paragraphs 1 and 2 the following table is applicable:

CONVERSION TABLE

I Primary insurance benefit	II Primary insurance amount	III Average monthly wage for purpose of computing maximum benefits
$10.00	$20.00	$40.00

$44.89–$45.00	68.50	250.00

4. *General applicability.* The provisions of the foregoing amendments shall be applicable notwithstanding any provision to the contrary in Subpart C of Part 403.

5. *Effective date.* The provisions of this appendix shall be effective on and after September 1, 1950.

(Secs. 205, 1102, 49 Stat. 624, 647, as amended, secs. 109, 403, Pub. Law 734, 81st Cong.; 42 U. S. C. 405, 1302. Interprets or applies sec. 104, Pub. Law 734, 81st Cong.)

Dated: September 5, 1950.

[SEAL] A. J. ALTMEYER,
Commissioner for Social Security.

Approved: September 7, 1950.

JOHN L. THURSTON,
Acting Federal Security Administrator.

[F. R. Doc. 50-8046; Filed, Sept. 13, 1950; 8:45 a. m.]

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 34—ISLE ROYALE NATIONAL PARK; COMMERCIAL FISHING

MISCELLANEOUS AMENDMENTS

Paragraph (e), § 34.1 *Definitions* is amended to read as follows:

(e) "Permittee" includes all persons engaged in commercial fishing from bases in the Park, except those life lessees who were engaged in such occupation at the date of the issuance of their leases.

Paragraph (a), § 34.2 *Permits; conditions* is amended to read as follows:

(a) Permittees will be required to pay an annual fee of $25.00.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 1st day of September 1950.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[F. R. Doc. 50-7978; Filed, Sept. 13, 1950; 8:45 a. m.]

PROPOSED RULE MAKING

ATOMIC ENERGY COMMISSION

[10 CFR, Part 50]

CONTROL OF FACILITIES FOR THE PRODUCTION OF FISSIONABLE MATERIAL

NOTICE OF PROPOSED RULE MAKING

Pursuant to the Atomic Energy Act of 1946 (Public Law 585, 79th Congress; 60 Stat. 755–ff) and to section 4 (a) of the Administrative Procedure Act of 1946 (Public Law 404, 79th Congress), notice is hereby given that Title 10, Chapter I, Part 50, Code of Federal Regulations, entitled "Control of Facilities for the Production of Fissionable Material" will be amended by the Atomic Energy Commission substantially as follows:

1. Section 50.71 (a) (7), reading: "Micromicroammeters capable of measuring currents of less than 1.0 micromicroampere" will be changed to read:

(7) Electrometer tube circuits and dynamic condenser electrometers (vibrating reed, vibrating diaphragm, etc.) capable of measuring currents of less than 1 micromicroampere.

2. Section 50.71 (a) (9), reading: "High gain high impedance linear pulse amplifiers" will be changed to read:

(9) Amplifiers designed for application in nuclear measurements, including linear amplifiers, preamplifiers and distributed (chain) amplifiers.

3. Section 50.71 (a) (12), reading: "Electroscopes and electrometers, pocket and survey types, including dosimeters" will be changed to read:

(12) Dosimeters and electrometers, pocket and survey types, including electroscopes incorporating radiation measurement scales.

4. Section 50.71 (a) (14), reading: "Electrometer-type electronic tubes with input grid currents of less than 1.0 micromicroamperes, such as FP–54, RH–507, Ck–570AX, VX–32, and VX–41, and equivalent" will be changed to read:

(14) Electrometer tubes designed to operate with grid currents of less than 0.1 micromicroampere.

5. Section 50.71 (b) (7), reading: "Electrometer tubes (as listed in paragraph (a) (7))" will be changed to read:

(7) Electrometer tubes designed to operate with grid currents of less than 0.1 micromicroampere.

6. Section 50.71 (a) (16), reading as follows, will be added:

(16) Scintillation counters incorporating a photomultiplier tube.

7. Section 50.71 (a) (17), reading as follows, will be added:

(17) Photomultiplier tubes having photocathode sensitivity of 10 or more microamperes per lumen, and an average amplification greater than 10^5.

The purpose of item numbered 1 in the proposed amendment is to specifically designate dynamic condenser electrometers as being within the purview of the regulation.

The purpose of item numbered 2 in the amendment is to specify those types of amplifiers designed for use in the nuclear measurement field.

The purpose of item numbered 3 in the amendment is to exclude metal foil type electroscopes from the purview of the regulation.

The purpose of items numbered 4 and 5 in the amendment is to delete reference to specific electronic tubes as examples and to re-define the technical definition of those tubes subject to control. The technical definition is considered adequate identification of the electronic tubes subject to the regulation. Manufacturers' redesignation of such tubes formerly cited as examples will therefore not affect the completeness or accuracy of this section.

The purpose of items numbered 6 and 7 in the amendment is to specifically designate as included within the purview of the regulation a type of radiation detection and measurement instrument of relatively recent design (scintillation counter) and a principal component (photomultiplier tube).

Comments from persons interested in the proposed amendment will be received by the Commission in writing at any time prior to October 15, 1950.

Dated at Washington, D. C., this 7th day of September 1950.

U. S. ATOMIC ENERGY COMMISSION,
WALTER J. WILLIAMS,
Acting General Manager.

[F. R. Doc. 50-8023; Filed, Sept. 13, 1950; 8:45 a. m.]

NOTICES

DEPARTMENT OF DEFENSE

Department of the Army

STATEMENT OF ORGANIZATION AND FUNCTIONS

The statement of organization and functions which appeared at 15 F. R. 535, February 1, 1950, is amended to include paragraphs (h) and (j), section 2, covering the Office of the Chief of Engineers and the Office of the Chief Signal Officer, as follows:

SEC. 2. *Organization and functions of agencies dealing with the public.* * * *

(h) *Office of the Chief of Engineers*—(1) *Mission.* To plan, direct, and supervise an engineering, construction and real estate service for the Army and the Air Force (including military engineering support), the provision and service of engineer material required by the Army and, as assigned, the Navy and the Air Force, and all matters relating to construction, maintenance, and real estate for the control and improvement of rivers and harbors.

(2) *Origin.* (i) On June 16, 1775, the day before the battle of Bunker Hill, a chief engineer and two assistants were provided for "The Grand Army," by a resolution of the Continental Congress. Late in the following year, General Washington was authorized to raise and organize a Corps of Engineers for a period of six months. Three years later the Congress combined the personnel of this corps with all other Army Engineers and constituted the "Corps of Engineers" as a separate command.

(ii) Subsequent acts and resolutions of the Congress alternately established and disbanded the Corps of Engineers until the act of March 16, 1802. This act authorized the President "to organize and establish a corps of engineers" consisting of seven officers and ten cadets. It provided that this corps "shall be stationed at West Point in the State of New York, and shall constitute a military academy * * *." Since then the Corps of Engineers has been a permanent part of the Army.

(3) *History of military functions.* (i) When the headquarters of the Engineer Department was transferred to Washington in 1818, that Department included the Corps of Engineers, the Military Academy at West Point, and the Topographical Engineers. In 1831 the Topographical Engineers were constituted as a separate bureau and were organized as the Corps of Topographical Engineers by law in 1838. They remained as a separate Corps until the act of March 3, 1863, which merged their functions and personnel into the Corps of Engineers. The Military Academy at West Point remained the responsibility of the Chief of Engineers until 1866 when Congress authorized its transfer to the War Department at large under the direction of the Secretary of War.

(ii) Between 1866 and the present, several important functions to be performed for the Army as a whole were assigned to the Corps of Engineers. The Corps first became responsible for map making in the early part of the nineteenth century when it was charged with topographical and geodetic surveys. In 1917 with the increased use of the observation balloon and development of air warfare, the Corps was made responsible for developing new techniques of camouflage.

(iii) The first statutory addition to the military responsibilities of the Corps of Engineers, after the work of the Topographical Engineers was assigned to the Corps of Engineers, came in 1941. By act of Congress the construction of all War Department installations, the direction of repairs and utilities of these installations, and the acquisition and disposal of all War Department real estate was added to the mission of the Corps of Engineers.

(4) *History of civil functions.* (i) During the early years of the nineteenth century, public improvements were authorized by Congress. The act of April 30, 1824 greatly expanded the number of internal improvements to be undertaken and authorized the Corps of Engineers to be used on that work. A Board of Engineers for Internal Improvements, formed to effectuate this act, immediately started operations. Among the first projects undertaken were the improvement of the navigation of the Ohio and Mississippi Rivers and the continuation of the Cumberland Road. Other smaller roads were planned and constructed to such an extent that it appeared at first that that activity would become more important than rivers and harbors improvements. However, the latter increased rapidly and Government road construction declined as railroads spread throughout the country.

(ii) From 1831 (when the Topographical Engineers were formed into an independent bureau and the river and harbor work assigned to them) to 1852, the Corps of Engineers had only part of this work to perform. The Topographic Engineers performed most of the work that was done.

(iii) In 1852, a general river and harbor bill authorized large scale improvement and these were divided between the Corps of Engineers and the Topographical Engineers on a geographical

basis. The work on the Atlantic and Gulf Coasts was assigned to the Corps of Engineers and that in the northern lakes and western rivers to the Corps of Topographical Engineers. This activity was sustained through 1863, when the work of the Corps was assigned to the Corps of Engineers. The activity was greatly expanded after 1863 and has increased steadily since.

(5) *Legal basis.* (i) The composition of the Corps of Engineers is provided in section 11, National Defense Act, as amended (10 U. S. C. 181, 181a); section 1, act, December 1, 1941 (10 U. S. C. 181b); and sections 502 (c) and (d) of the Officer Personnel Act of 1947 (10 U. S. C., Supp. II, 506 (c) and (d)).

(ii) More than one hundred and twenty separate sections in the U. S. Code charge the Chief of Engineers or the Corps of Engineers or both with certain specific responsibilities having to do with rivers, harbors, dams, bridges, and flood control.

(6) *Dual role of the Chief of Engineers.* The Chief of Engineers is the senior engineer staff officer of the Department of the Army, responsible for furnishing technical advice and recommendations to the Secretary of the Army, the Chief of Staff, and the General and Special Staffs. The Chief of Engineers commands all troops, activities, and installations assigned to his control for the execution of the Engineer mission.

(7) *Major functions* — (i) *Training.* Establishes, in coordination with using agencies, engineer requirements, organization, equipment, allowances, mobilization, training, assignment, allocation, technical supervision, inspection, and development of technical doctrine for the Army.

(ii) *Equipment, supplies, materials.* Effects coordination, integration, standardization, determination of requirements, procurement, storage, issue, maintenance, transfer, and disposal of all equipment, supplies, and materials assigned to the Corps of Engineers.

(iii) *Military maps and aerial photographs.* Develops, procures, prepares, produces, and distributes military maps and reproduces and distributes aerial photographs required by the Army.

(iv) *Intelligence.* Provides Engineer Intelligence for the Army.

(v) *Research and development.* Formulates plans, policies, and procedures for research and development for all items of engineer equipment and supplies required by the Army, and for design, techniques, and materials for use in the performance of civil works responsibilities.

(vi) *Real estate.* Acquires, leases, insures proper utilization of, and disposes of all real estate for the Army; and acquires, leases, and disposes of all real estate for the Air Force.

(vii) *Military construction.* Plans, develops, designs, and undertakes construction of facilities for the Army and Air Force.

(viii) *Repairs and utilities.* Prepares policies, standards and technical procedures for maintenance and repair of buildings, structures, utility plants, and systems and exercises technical staff supervision over operation of repairs and utilities at all Army installations.

(ix) *Industrial mobilization.* Formulates plans, programs, and policies for industrial mobilization with reference to engineer material, supplies, resources, and facilities.

(x) *Civil works.* Plans and directs activities for the fulfillment of civil works responsibilities which include:

(*a*) *Rivers, harbors, and flood control.* Develops, designs, constructs, maintains, and operates river and harbor and flood control improvements in the United States and its possessions.

(*b*) *Navigable waters.* Administers laws relating to the protection and preservation of navigable waters.

(*c*) *Beach erosion.* Develops and recommends projects for Federal cooperation in shore protection and beach erosion measures and develops and constructs shore protection and erosion prevention projects affecting Federal property.

(*d*) *Commercial statistics.* Collects, compiles, and publishes commercial statistics pertaining to rivers and harbors and to port facilities.

(8) *Organization*—(i) *Engineer comptroller.* Advises the Chief of Engineers and provides assistance for the Office of the Chief of Engineers on all budgetary, fiscal, audit, accounting, and management engineering matters and furnishes the Chief of Engineers current information on the progress of Engineer programs.

(*a*) *Budget.* Exercises supervision over Engineer budgetary matters, including the issuance of budget directives, the screening and consolidation of field estimates and requirements, the review of Engineer programs for budgetary implications, and the maintenance of liaison between the Office of the Chief of Engineers and the Office of the Comptroller of the Army.

(*b*) *Accounting.* Supervises fiscal, cost, and property accounting in the Corps of Engineers and formulates, develops, and supervises the administration of standards and methods in these fields.

(*c*) *Funds.* Prepares recommendations for the allocation of funds, for submission to the Comptroller of the Army, allots funds received, and certifies fund availability for the Corps of Engineers.

(*d*) *Audit.* Conducts internal audits of Engineer activities and prescribes policies and procedures for audits performed by field agencies.

(*e*) *Manpower allocation.* Establishes ceilings by grade for military and civilian personnel and prepares allotments for the Office of the Chief of Engineers and field offices.

(*f*) *Management.* Provides a management engineering service for the Office of the Chief of Engineers including the conduct of surveys, the supervision of a progress and performance reporting and evaluation system, the monitorship of regulations, circulars, and other published instructions, and supervision of other aids to management of Engineer activities.

(ii) *Office of technical information.* (a) Advises the Chief of Engineers and initiates and administers policies and programs on public information matters.

(*b*) Collects, prepares, and disseminates public information concerning the activities of the Corps of Engineers.

(*c*) Promotes engineer recruitment for the Army, in cooperation with enlistment activities.

(*d*) Furnishes consultant and research service on historical and archival matters pertaining to the Corps of Engineers.

(iii) *Legal Division.* (a) Formulates legal policies and procedures involving the interpretation of statutes, regulations, and other directives.

(*b*) Furnishes legal advice and prepares action on legal matters (except acquisition, lease, or disposal of real estate) such as contracts, claims, appeals, litigation, torts, war fraud cases, tax controversies, labor problems, patents, and contract readjustment.

(iv) *Personnel Division.* (a) Formulates policies for the direction and coordination of civilian and military personnel operations.

(*b*) Develops and maintains statistical records and budgetary controls for personnel authorization and fund requirements.

(*c*) Performs field inspection of personnel policies, utilization, and procedures.

(*d*) Activates and deactivates Engineer technical service units and detachments.

(*e*) Performs actions pertaining to promotion, demotion, reclassification, decorations, awards, and commendations to Engineer military personnel under the control of the Chief of Engineers.

(*f*) Takes final action for the Chief of Engineers in matters of procurement, classification, promotion, assignment, transfer, detail, and discharge of Engineer enlisted men under the control of the Chief of Engineers.

(*g*) Coordinates the procurement, career management, assignment, reassignment, transfer, detail, and separation from the service of officers and warrant officers of the Corps of Engineers, and of officers of other arms and services who are under the Chief of Engineers' assignment jurisdiction.

(*h*) Computes requirements for officers and warrant officer of the Corps of Engineers.

(v) *Safety Division.* (*a*) Develops and effectuates for the Corps of Engineers a broad, comprehensive and effective safety program relating to personal injury, property and equipment damage, occupational health and sanitation, fire prevention and protection matters (except those relating to repairs and utilities), and design of military construction projects.

(*b*) Formulates policies and procedures for the application of safety engineering to designs, plans, operating and maintenance processes, and training doctrine.

(*c*) Performs research to discover causes of accidents, develops prevention techniques and standards, provides technical safety engineering service, and supervises and directs all accident prevention activities within the Corps of Engineers.

(*d*) Maintains controls for evaluating progress of the safety program and initiates plans to correct deficiencies.

(vi) *Office Service Division.* (*a*) Obtains, stores, and issues office supplies, furniture, equipment, publications, including specifications and blank forms, and special procurement for field installations.

(*b*) Assigns for the Office of the Chief of Engineers office, storage, and warehouse space, telephone and other electrical communications, and transportation.

(*c*) Operates mail and teletypewriter systems and exercises staff supervision over mail-handling procedures and fixed communications system in Engineer field agencies.

(*d*) Exercises staff supervision over the use of administrative vehicles, first and second echelon maintenance, and the maintenance of records of the assignment of license plates to vehicles procured with civil funds.

(*e*) Provides filing, statistical, and electrical accounting machines service for the Office of the Chief of Engineers and provides staff supervision over the distribution and utilization of electric accounting machines throughout the Corps of Engineers.

(*f*) Provides liaison for the Chief of Engineers with The Adjutant General in administering control programs relating to printing publications, blank forms and printing, duplicating and binding equipment.

(*g*) Exercises staff supervision over civil works photographic laboratories.

(*h*) Performs the functions assigned to contracting officer and accountable officer for all property items in the Office of the Chief of Engineers, and conducts conservation program for such items.

(vii) *Engineer Historical Division.* (*a*) Exercises staff supervision over the planning, directing, and supervising of all Engineer historical projects.

(*b*) Performs the historical research and writing required for comprehensive histories of the problems, organization, and operating achievements of the Corps of Engineers during war and peace.

(viii) *Assistant Chief of Engineers for Military Supply and Procurement.* (*a*) Determines the consolidated requirements, administers supply control, and prepares the Engineers sections of Department of the Army Catalog for all Engineer equipment and supplies, including spare parts, which are assigned to the Corps of Engineers for procurement, storage, and issue.

(*b*) Exercises staff supervision over procurement, scheduling of production, receipt, storage, issue, maintenance, transfer, and disposal of Engineer equipment and supplies.

(*c*) Exercises staff supervision over industrial mobilization and procurement planning.

(*d*) Develops and supervises procedures for the expeditious handling of aid to foreign governments.

(*e*) Prepares budget estimates and justifies them before Congressional Committees and the Bureau of the Budget.

(ix) *Maintenance Division.* (*a*) Develops programs for maintenance of Engineer general and special equipment and spare parts in the Army.

(*b*) Exercises staff supervision over the techniques of maintenance in Engineer field agencies, such as base maintenance shops and spare parts depots which have maintenance service missions.

(*c*) Determines and applies assumptions affecting computation and compilation of over-all requirements for all spare parts of Engineers military supply of the Army.

(x) *Procurement Division.* (*a*) Exercises staff supervision over purchasing and production of materials and equipment for Engineer military supply including lumber and allied products, required by the Department of Defense and other Federal agencies.

(*b*) Exercises staff supervision over readiness to purchase and over industrial mobilization and procurement planning of the Corps of Engineers.

(*c*) Develops policies and procedures in regard to inspection activities and exercises staff supervision over Engineering procuring offices conducting inspection of Engineer equipment and material.

(xi) *Requirements and Supply Control Division.* (*a*) Determines and applies assumptions affecting computation and compilation of over-all requirements for all items of Engineer military supply of the Army.

(*b*) Prepares, justifies, and monitors the Engineer section of the Department of the Army Program of Procurement.

(*c*) Performs staff functions pertaining to the preparation of Engineer sections of the Department of the Army Supply Catalog.

(*d*) Prepares supply control studies; serves as central receiving and distribution point for requisitions, and initiates procurement and supervises issue of all items of Engineer supply, except spare parts.

(*e*) Establishes nomenclature and stock number for catalog of Engineer supply items, except spare parts.

(*f*) Performs functions with respect to redistribution, transfer, and disposal of excess Engineer supplies and equipment throughout the Army and the acquisition of excess and surplus property of other Army agencies.

(xii) *Depot Operations Division.* (*a*) Performs staff functions pertaining to Corps of Engineers' supply control and distribution operations.

(*b*) Reviews procurement directives determining availability of items or suitable substitutes from other technical services.

(*c*) Coordinates with the Assistant Chief of Engineers for real estate in proposed dismantling operations and in disposal of personal property located at excess and surplus posts, camps, stations, and industrial plants.

(*d*) Exercises staff supervision over field operations directly relating to the receipt, stock accounting, storage, packing, processing, marking, and shipment of all stock in Engineer storage facilities, including surplus military and nonmilitary stock.

(*e*) Arranges for acquisition and allocation of storage space, materials handling equipment, and related facilities.

(xiii) *Assistant Chief of Engineers for Military Operations.* (*a*) Coordinates mobilization planning activities of the Chief of Engineers.

(*b*) Organizes and trains Engineer troops not assigned to major commands.

(*c*) Plans and directs the Engineer research and development program.

(*d*) Directs Engineer military and intelligence activities exclusive of those under the direct control of oversea commanders, including production and distribution of all maps for the Army.

(*e*) Compiles and disseminates strategic and technical engineering data.

(*f*) Coordinates Engineer activities except for real estate, construction, and repairs and utilities, in oversea operations, including preparation and review of Engineer phases of operational plans and projects and establishment of requirements for class IV engineer matériel and equipment.

(*g*) Prepares budget estimates and justifies them before the Bureau of the Budget and Congressional Committees.

(xiv) *Engineer Intelligence Division.* (*a*) Plans procedures in regard to Engineer intelligence and formulates intelligence training programs.

(*b*) Reviews Engineer intelligence policies.

(*c*) Coordinates the collection, analysis, compilation, and dissemination of Engineer intelligence.

(*d*) Assigns intelligence projects to the Army Map Service, the Beach Erosion Board, the Board of Engineers for Rivers and Harbors, and the U. S. Geological Survey.

(*e*) Implements general policy, prepares instructions for execution of security programs, and acts to prevent and correct violations of security regulations.

(*f*) Initiates and coordinates mapping projects, plans equipment and methods for the preparation of maps and for the reproduction of maps and charts, and formulates plans and policies for the procurement, distribution, and exchange of maps issued or required by the Army.

(*g*) Coordinates mapping operations with foreign governments, evaluates foreign mapping equipment and methods, and recommends exploitation of captured mapping material.

(*h*) Recommends organization, equipment, and functions for photographic, topographic, and mapping organizations.

(*i*) Arranges for procurement of photography from the Air Force for Corps of Engineers civil work projects.

(xv) *Engineer Organization and Training Division.* (*a*) Prepares mobilization, peacetime, and oversea troop basis for Engineer units not assigned to major commands, and reviews and coordinates troop basis for all Engineer units.

(*b*) Furnishes staff supervision for activation, movement, organizing and equipping, and subsequent employment of Engineer units not assigned to major commands.

(*c*) Collects and maintains data on troop capacity of installations under the Chief of Engineers.

(*d*) Develops organization structure for Engineer troops, prepares tables of organization and equipment for Engi-

neer service units where responsibility for preparation has been assigned to the Chief of Engineers, and reviews and edits tables of organization and equipment for Engineer units, where responsibility for preparation has been assigned to the Air Force or to the Chief, Army Field Forces.

(e) Prepares tables of distribution for overhead personnel allocated in bulk to the Chief of Engineers.

(f) Controls expenditures of Engineer School and training funds; prepares tables of allowances and reviews special equipment issues for schools and other training facilities under the jurisdiction of the Chief of Engineers; and reviews and edits equipment modification lists for Engineer service units.

(g) Proposes development, test, and classification action for Engineer equipment when prepared for the Corps of Engineers Technical Committee.

(h) Prepares and proposes new or revised military occupational specialities required primarily for Engineer personnel.

(i) Controls and directs individual training of Engineer personnel and Engineer units not assigned to major commands.

(j) Makes technical inspections of Engineers units and installations not assigned to major commands.

(k) Prepares, edits, and reviews all types of Engineer training literature and visual aids.

(l) Plans and supervises matters relating to the Department of the Army Affiliation Program for Engineer Reserve units.

(m) Exercises staff supervision over Engineer Organized Reserve Corps and National Guard units.

(n) Develops, plans, and coordinates through Army Field Forces, the assignment, activation, and training of Engineer Reserve Officers' Training Corps unit, and exercises staff supervision over the preparation of programs of instruction and subject schedules for training of these units.

(xvi) *Engineer Research and Development Division.* (a) Plans, coordinates and directs research, engineering, and development work pertaining to Engineer military equipment.

(b) Exercises staff supervision over the operation of the Department of Defense research laboratory for conducting studies relating to snow, ice, and permafrost.

(c) Coordinates the formulation of military characteristics and the determination of preferred makes and models of Engineer equipment for procurement, and prepares actions for the Corps of Engineers Technical Committee for establishing or terminating development projects, classification of equipment, and similar matters.

(d) Renders technical consultants service to the Assistant Chief of Engineers for Military Supply and Procurement on equipment under procurement and to the Engineer Organization and Training Division in the establishment of operation and training doctrine.

(e) Coordinates establishment of Engineer nomenclature and equipment sets.

(f) Supervises determination of methods and preparation of plans specifications, and instructions for deterioration prevention measures for engineer equipment, and processing and packing thereof in transit and in storage.

(g) Controls dissemination of Engineer technical information to science and industry.

(xvii) *Assistant Chief of Engineers for Military Construction.* (a) Exercises staff supervision over the design and construction of all fixed installations such as buildings, structures, utilities, and facilities required by the Army.

(b) Directs and supervises the execution of the repairs and utilities mission as defined in AR 420–10 and Special Regulations of the 420-series, for all class I and II installations, in the continental United States and in oversea commands.

(c) Prepares budget estimates for all construction and maintenance programs and justifies them before the Bureau of the Budget and Congressional Committees.

(d) Exercises staff supervision over custodial functions required for maintenance of surplus installations as requested.

(xviii) *Construction Operations Division.* (a) Directs and controls military construction in continental United States and overseas (except occupied areas), and directs construction for other governmental agencies.

(b) Supervises care and custody of Army surplus installations.

(c) Establishes and interprets standards for the review of requests for new military construction; coordinates requirements with the major commands and technical and administrative services; develops construction programs and schedules and furnishes technical advice to the major commands and technical and administrative services of the Army on construction policies.

(xix) *Engineering Division.* (a) Initiates, coordinates, and directs investigational projects to develop new engineering principles on original design theories and methods, controls establishment of design criteria, functional designs, and definitive plans; prepares and keeps current manuals, guide and standard specifications, and typical and standard drawings for disseminating design information.

(b) Makes field inspections and furnishes consulting engineering services to using agencies and to oversea commands.

(c) Prepares criteria, manuals, and typical lay-out diagrams for selection and planning of sites; and reviews master plans for permanent installations, site reports, and site lay-outs for adequacy functional arrangement, and technical sufficiency.

(d) Establishes requirements for protection of vital industrial facilities by placing them underground, by dispersion, or by other suitable means; and develops functional designs and definitive plans for protective structures.

(e) Directs Engineer studies for control and conservation of critical and strategic materials.

(f) Exercises staff supervision over specifications, architectural and structural features, and utility elements of designs which are of repetitive or of a special or highly technical nature, and reviews and approves technical specifications prepared by the field agencies.

(g) Prepares estimates of construction materials required for military construction; provides information concerning costs of construction, labor, materials, and construction methods; and reviews and prepares costs estimates for planning purposes and for letting of contracts.

(h) Prepares manuals, typical and standard drawings, and furnishes technical data for the preparation of guide and standard specifications to control design criteria relating to structures and utilities.

(i) Analyzes proposed construction methods for possible adaptation to military requirements.

(j) Prepares designs and specifications for procurement of Engineer material, for selected projects, and for procurement of special structures for use in combat areas.

(k) Controls, coordinates and develops hospital construction requirements; exercises staff control over the preparation of plans and specifications; prepares functional architectural and specialized equipment criteria for hospitals; prepares programs and working-schedules for the development of designs and working drawings of hospitals.

(xx) *Repairs and Utilities Division.* (a) Conducts studies of materials, methods, and equipment.

(b) Conducts staff visits to assure that work is accomplished uniformly in accordance with policies, procedures, and standards.

(c) Formulates policies, procedures, and standards pertaining to cost accounting, utilities, maintenance of buildings and grounds, and fire prevention.

(d) Conducts educational and supervisory training.

(e) Makes technical reviews of projects.

(xxi) *Asistant Chief of Engineers for Real Estate.* (a) Exercises staff supervision over military and civil real estate matter of the Army.

(b) Plans and schedules the acquisition of land for military and civil works projects.

(c) Acquires all lands and interests therein, procures exclusive or partial jurisdiction over lands, and establishes and maintains records of all real estate under the control of the Army.

(d) Grants leases, licenses, easements, or permits for the occupation and use of Federal property which is under the control of the Army.

(e) Manages and disposes of, by sale, transfer, or otherwise, all surplus real estate under the control of the Army.

(f) Classifies and inspects the use of Army real estate, and effectuates its maximum use.

(g) Settles claims arising out of the use and occupancy of real estate by the Army.

(h) Prepares budget estimates and justifies them before the Bureau of the Budget and Congressional Committees.

(xxii) *Acquisition Division.* (a) Directs and approves preliminary studies and collects data required to justify acquisition of real estate or interests therein and directs and supervises the acquisition of lands and interests therein.

(b) Directs and supervises acquisition, abandonment, vacation, and relocation of roads and highways, cemeteries and other property by condemnation.

(c) Reviews all applications filed with the Assistant Secretary of the Army for certification of necessity for alterations and rental of leased buildings.

(d) Secures space in Federal office buildings for the Department of the Army.

(e) Exercises staff supervision over engineer field agencies in their procurement of options, evidence of title, and in their closing of purchase cases.

(xxiii) *Management and Disposal Division.* (a) Directs and supervises the permanent disposal of Army real estate.

(b) Directs and supervises the temporary management of surplus and inactive or stand-by properties under the control of the Corps of Engineers.

(c) Supervises the redistribution of available properties within the Army.

(d) Directs and supervises all functions incidental to removing real estate temporarily from Army control.

(e) Directs the inspection of facilities owned or leased by the Army to determine degree of utilization.

(xxiv) *Realty Requirements Division.* (a) Maintains complete official record of Army real estate overseas, and directs preparation of detailed reports from oversea installations involving interests in or utilization of real property.

(b) Directs establishment of and maintains complete historical, graphical, and statistical records of all real estate within the continental United States.

(c) Maintains current records of active projects for acquisition management, and disposal of real estate.

(d) Controls conformance to prescribed operating procedures, progress of programs, and standard systems of reporting.

(xxv) *Assistant Chief of Engineers for Civil Works.* (a) Administers river and harbor navigation and flood control projects, including investigations, authorizations, construction, operation, and maintenance of navigation, flood control, multiple-purpose, and hydroelectric power projects.

(b) Procures, assigns, maintains, and disposes of plant and equipment.

(c) Interprets and applies laws relating to navigable waters of the United States and international boundary waters.

(d) Reviews and reports on proposed legislation and appears before Congressional Committees to present testimony.

(e) Prepares budget estimates and justifies estimates before Congressional Committees and Bureau of the Budget.

(f) Issues permits for construction of bridges and other structures in navigable waters.

(g) Prepares and issues regulations governing navigable waters.

(h) Reviews plans, specifications, reports, and estimates pertaining to river and harbor and flood control projects.

(xxvi) *Engineering Division.* (a) Provides consulting and advisory service to Division and Districts on electrical, mechanical, power matters, soil mechanics, structural, hydraulic and general engineering problems.

(b) Establishes design criteria and publishes same in Engineering Manual and Guide Specifications for Civil Works; reviews construction plans and specifications of river and harbor and flood control structures for adequacy and safety of design; and reviews Definite Project Reports.

(c) Coordinates and supervises hydraulic model studies.

(d) Conducts studies of construction costs and establishes procedures and methods for making estimates of cost for civil works projects.

(e) Supervises program for hydroelectric power at Corps of Engineers projects; analyzes allocations of costs as between power and other water utilization; and provides liaison with Federal Power Commission, Bureau of Reclamation and other agencies of the Department of the Interior relative to development for and production of power at Corps of Engineers projects.

(f) Review plans and specifications for proper concrete aggregates and placing control.

(g) Reviews electrical and mechanical features of specifications, plans, reports and estimates and supervises inspection during manufacture of electrical and mechanical equipment.

(h) Reviews hydrologic features of plans, specifications and reports.

(i) Coordinates the plans of Division and District Engineers pertaining to installation and operation of stream gaging stations, precipitation stations, snow courses and laboratories, radio-reporting hydrologic stations and special facilities.

(j) Studies problems related to the measurement of sedimentation in rivers and reservoirs.

(k) Supervises the preparation of storm studies by Division and District Engineers and formulates general program of cooperative studies by Hydrometeorological Section of Weather Bureau for determination of critical rates of rainfall.

(l) Reviews soil mechanics and related features of plans and specifications and reports to determine adequacy of design of earth dams, levees, foundation stability of floodwalls, etc.

(m) Investigates and reports on geological suitability of sites for dams, locks, tunnels, powerhouses; reviews geological and related features of plans and specifications and reports of rivers and harbor and flood control structures; reports on mineral resources affecting economics of projects; and provides representative on Department of the Army General Staff Panel on Seismology, Soil Mechanics, Volcanology, Committee on Geophysical Science.

(xxvii) *Planning and Development Division.* (a) Directs and supervises programming and planning of all civil works activities of the Corps of Engineers for navigation, flood control, major drainage, prevention of beach erosion, hydroelectric power development and related water uses and problems, including assistance to Division and District Engineers in planning flood control and multiple-purpose projects, from the time of their inception until funds for construction or execution thereof are appropriated by Congress.

(b) Supervises administration and takes action on special civil works projects and problems (e. g., the St. Lawrence Seaway; survey of water resources of Alaska, interstate pollution control, interstate water compact, etc.).

(c) Coordinates, formulates, and disseminates broad policies of the Chief of Engineers for all civil works activities.

(d) Justifies estimates before Bureau of the Budget and Congress.

(e) Reviews and analyzes reports of the Chief of Engineers to Congress on authorized investigations for navigation, flood control, beach erosion and multiple-purpose projects.

(f) Presents testimony and exhibits at hearings before Public Works Committees of Congress for authorization for all civil works projects.

(xxviii) *Operations Division.* (a) Directs construction, maintenance, and operation of all authorized flood control and river and harbor projects.

(b) Administers program for use and management of reservoir areas and facilities for recreational, fish and wildlife, and other purposes for the benefit of the public.

(c) Directs procurement, assignment, and disposal of plant and facilities.

(d) Coordinates flood emergency operations.

(e) Supervises and directs construction of a civil works nature performed for other agencies. Directs special programs as assigned.

(f) Supervises maintenance of Washington Aqueduct.

(g) Determines minimum amounts to be included in budget estimates for maintenance, operation, and construction of projects under way, and supervises allotments and transfers of funds, and establishment and control of reserve funds.

(h) Makes operations review of definite project reports, plans and specifications, change orders, highway and railroad relocation plans and agreements, local cooperation agreements, housing plans, land acquisition plans.

(i) Administers laws and regulations relating to navigable waters and international boundary waters, including establishment of harbor lines, issuance of permits, approval of bridge plans, removal of wrecks and obstructions, pollution abatement, regulation of bridge tolls, establishment and use of danger zones.

(j) Directs program for alteration of railway bridges determined obstructive under Public Law 647—76th Congress.

(k) Maintains continuous surveillance of organization and methods employed in field operations, with a view to effecting the most effective, efficient and economical methods of field operations.

(l) Determines jurisdictional watershed lines as boundaries of Divisions and Districts.

• • • • •

(j) *Office of the Chief Signal Officer*—(1) *Mission.* To direct and supervise all signal communications and related activities, including Army photography.

(2) *Origin.* The Signal Corps had its origin in the appointment of a surgeon in the Army as the Signal Officer of the Army with the rank of major under authority of an act of Congress approved June 21, 1860 (12 Stat. 66).

(3) *History*—(i) *First assignment.* The first assignment of the Signal Officer of the Army was in operations against the Navajos. In May 1861 the Signal Officer returned to the War Department and set up facilities for training of signal officers. The headquarters office was established in the War Department in November 1861.

(ii) *Separate branch.* Visual and electric signals were used extensively in the Civil War and assumed such an important role in the operations that the Signal Corps was set up as a separate branch of the Army. The act of March 3, 1863 (12 Stat. 753) established a Signal corps of the Army "during the present rebellion" and provided for a a "chief signal officer, a colonel, who shall be the signal officer of the Army," as well as a number of commissioned officers and enlisted men. This act also provided for an "officer of the signal officer." The United States Army thus became the first army in the world to have a separate Signal Corps, a model for the creation of similar corps in the armies of other nations. At the close of the Civil War, the act of July 28, 1866 (14 Stat. 335) established and fixed the peacetime military establishment, including provision for a Chief Signal Officer of the Army and certain numbers of commissioned officers and enlisted men who were to be detailed to signal duty.

(iii) *Weather forecasting.* The Signal Corps was required by law in 1870 to provide a weather forecasting and storm warning service for the civilian population throughout the country. The act of October 1, 1890 (26 Stat. 653), reorganized the Signal Corps and provided for the transfer of its meteorological service to a Weather Bureau to be set up in the Department of Agriculture as of July 1, 1891. This act also provided for a Chief Signal Officer who would thereafter be charged with military signal duties.

(iv) *Act of 1894.* The act of August 6, 1894 (28 Stat. 234), reorganized the Signal Corps further and provided that upon the vacancy of the then incumbent, the grade of the Chief Signal Officer would be that of a colonel. The joint resolution of July 8, 1898 (30 Stat. 752), repealed the act of August 6, 1894, and provided for an Assistant Chief Signal Officer with a grade of colonel.

(v) *Telephone and submarine cable.* The act of May 18, 1898 (30 Stat. 417), authorized the organization of a Volunteer Signal Corps to take part in the Spanish War. Signal operations were vastly expanded to meet the needs of the Army and the Signal Corps then used telephones and submarine cable for the first time on a large scale.

(vi) *Alaska communications.* The act of May 26, 1900 (31 Stat. 206), originally authorized commercial business to be done over military telegraph and cable lines in Alaska. Operations were started by the Signal Corps in 1901 and from then until 1936 the system was called "Washington-Alaska Military Cable and Telegraph System." It is now operated as the Alaska Communications System.

(vii) *1901 Reorganization Act.* The Reorganization Act of February 2, 1901 (31 Stat. 748), reorganized the Army of the United States, and provided for a Signal Corps composed of a Chief Signal Officer with the rank of brigadier general and stipulated numbers of commissioned officers and enlisted men.

(viii) *Aeronautics.* In 1892 the Signal Corps established a balloon section. An Aeronautical Division was set up in the office of the Chief Signal Officer in 1907 and a small dirigible was purchased in 1908. The Wright Brothers' airplane was accepted by the Signal Corps in 1909 and the first Army Aviation School was opened in 1911. The act of July 18, 1914 (28 Stat. 514) set up an aviation section in the Signal Corps which was continued in the National Defense Act of June 3, 1916 (39 Stat. 166, 174). The aviation section of the Signal Corps was responsible for the operation of military aircraft until a separate Air Corps was established in May 1918.

(ix) *Photography.* Photography in the Signal Corps dates back to 1881–2 when a Signal Corps sergeant was assigned by General Greely to make a photographic record of his Arctic expedition. In 1894, photography was added as a course of study at the Signal School, Fort Riley, Kansas. In 1900, photography was added to the duties of signal companies in addition to their regular duties. In 1909, motion-picture cameras were used to record the flight of the Wright Brothers' airplane. In 1916, the first training film was made. In August 1917, a Photographic Division was set up in the office of the Chief Signal Officer and by the close of World War I three photographic training schools had been established. Aerial photography was transferred to the Air Corps in May 1918, when it was set as a separate organization The use of training films by the Army expanded to the point that in 1937 the Training Film Production Laboratory was set up at Fort Monmouth, New Jersey. Soon after entry of the United States into World War II the Signal Corps Photographic Center was established at Long Island City, New York.

(x) *Homing pigeons.* Communications by homing pigeons was successfully undertaken by the Signal Corps during the First World War.

(xi) *National Defense Act of 1916.* The act of June 4, 1920, amending and revising the National Defense Act of 1916 (41 Stat. 759, 768) among other things, provided for a Chief Signal Officer with the rank of major general and formally set up a separate air service.

(4) *Dual role of the Chief Signal Officer.*—(i) *Staff advice.* The Chief Signal Officer serves as technical staff adviser to the Secretary of the Army, the Chief of Staff, and all elements of the Army on matters pertaining to signal communications and related activities, including Army Photography.

(ii) *Command.* For the execution of the Signal Corps mission, the Chief Signal Officer commands all troops, activities, and installations assigned to his control.

(5) *Legal basis.* The statutory basis of the Signal Corps as currently established in section 13 of the National Defense Act of 1916, as amended by the act of June 4, 1920. A statutory statement of the functions of the Chief Signal Officer is set forth in section 2 of the act of October 1, 1889, 26 Stat. 653, 10 U. S. C. 212. (See also note in sec. 47, Military Laws, 1939.)

(6) *Major functions*—(i) *Advice.* Advises the Secretary of the Army, the Chief of Staff, and other high officials on matters relating to signal communications and other Signal Corps functions and formulates plans, policies, and doctrines on these matters.

(ii) *Plans and programs.* Formulates and maintains Army-wide plans, policies, and programs for the research, development, design standardization, procurement, storage, issue, and maintenance of all items of signal equipment and supplies required by the Army, including equipment and supplies for photography, radar, meteorology, electronic countermeasures, and other Signal Corps functions except those items for which responsibility is assigned to other agencies.

(iii) *Signal communications activities.* Supervises and inspects signal communication activities, units, and other Signal Corps functions within the Army including the organization and operation of the Alaska Communications system, in coordination with the major commands, except tactical systems which are the responsibility of the major commands.

(iv) *Signal communications equipment.* Promulgates and supervises policies and procedures relating to the operation, coordination, integration, and standardization of signal communications equipment and systems within the Army, with the Navy and the Air Force, and with friendly foreign governments, except equipment and systems assigned by the Army to other agencies.

(v) *Industrial mobilization.* Formulates in coordination with the other technical services broad plans, policies, and programs for industrial mobilization of signal communications equipment, facilities, supplies, and resources in support of the over-all Army plan for industrial mobilization, including the Signal Corps affiliation program.

(vi) *Training.* Recommends training objectives, policies, doctrines, and tables of organization and equipment for all signal communications and photographic units, Regular and Reserve components; recommends uniform job classification for signal communications and photographic personnel, except those required for the photographic reproduction of maps and photomaps in quantity, and the assignment of responsibility for training and supply of such personnel; and supervises the organization and operation of the Army portion of the Military Amateur Radio System.

(vii) *Fixed signal communication systems.* Approves or makes recommendations for the approval of projects for the installation, operation, and maintenance of fixed signal communications systems and facilities for the Army and recommends the assignment of implementing responsibility.

(viii) *Call signs and frequencies.* Assigns call signs, radio and radar frequencies, routing indicators, and delivery groups for all Army radio stations and fixed signal communications facilities.

(ix) *Radio propagation.* Prepares and disseminates within the Army information concerning radio propagation and formulates plans for and directs programs on radio propagation research.

(x) *Photographic policies and programs.* Establishes over-all photographic policies and programs for the Army, except those specifically assigned to other agencies, and recommends the assignment of photographic responsibilities.

(xi) *Funds.* Prepares and defends consolidated estimates for and exercises primary administrative control over Signal Service of the Army and Alaska Communications System funds.

(xii) *Signal Corps facilities.* Establishes and operates Signal Corps procurement districts, depots, laboratories, schools, and other facilities required for research, development, standardization, procurement, storage, issue, maintenance, and disposal of Signal Corps equipment and supplies, and the training of Signal communications, electronics, and photographic specialists for the Army.

(xiii) *Army Command and Administrative Network.* Engineers, installs, operates and maintains fixed signal communications equipment and facilities comprising the Army Command and Administrative Network.

(xiv) *Contracts.* Negotiates, executes, and administers contracts for the procurement of commercial signal communications facilities and services used by the Army; the procurement of Signal Corps equipment and supplies; and the investigation, research, and development of Signal Corps equipment.

(xv) *Photographic facilities.* Establishes and operates Signal Corps photographic laboratories, libraries, and motion picture production centers.

(xvi) *Publications.* Prepares and revises directives, publications, and training, technical, and supply data including standards and methods of a technical nature pertaining to signal communications and photographic equipment and supplies.

(xvii) *Homing pigeons.* Establishes and operates facilities for the breeding and training of homing pigeons for the Army.

(xviii) *Joint agencies.* Operates and administers, for the Army in conjunction with the Navy and the Air Force, the Armed Services Electro-Standards Agency and operates and administers, in coordination with the Air Force and the Navy, the Communications Electronics Nomenclature system for signal communications equipment.

(xix) *Research and development.* Formulates plans, policies, and programs for research and development of all items of signal equipment and supplies required by the Army including equipment and supplies for photography, radar, meteorology, and electronic countermeasures, except those items for which responsibility is assigned to other agencies; conducts research and development in the fields of thermionics, wire communications, radio communications, radar, television, direction finding, navigation aids, radiological instrumentation, guided missiles instrumentation, sound and light, infrared, meteorology and ground photography, and ancillary devices pertaining to these major fields; and conducts and supports basic and applied research in the fields of electrical, magnetic, sonic, molecular, atomic, and nuclear physics, the fields of atmospheric physics, organic, inorganic, and physical chemistry, mineralogy, seismology, climatology, geomagnetism, electromagnetic theory and wave propagation, and mathematics.

(xx) *Procurement, storage, and distribution.* Procures, stores, and issues communications equipment and supplies, including meteorological supplies and stores and issues photographic equipment.

(xxi) *Electronic countermeasures.* Coordinates Army electronics countermeasures operational policy with the Navy and the Air Force and is responsible for Army electronics countermeasures pertaining to preparation of methods, procedures, doctrine, tables of organization and equipment, and the training of electronics-countermeasures units and personnel, provision of funds and facilities, and defense of budget items pertaining to the electronic-countermeasures program and the development of antijamming equipment and methods.

(xxii) *Intelligence.* In accordance with policies established by the Director of Intelligence, General Staff plans and directs the preparation for the collection, in the zone of interior, during combat operations, of technical information pertaining to signal material, organizations and operations, exercises technical supervision over the collection and processing of the collected information in theaters of operation and provides signal technical intelligence for the Army.

(7) *Organization*—(i) *Administrative Office.* (a) Prepares or edits for compliance with policy and Army directives, and authenticates all orders, instructions, regulations, memorandums and reports issued by order of the Chief Signal Officer.

(b) Directs action on correspondence and directives received from higher authority.

(c) Studies, evaluates, and advises on the functions, organization, and administration of the Office of the Chief Signal Officer and activities under his control, investigating sources of difficulty and recommending corrective action.

(d) Distributes mail and messages, administers the control of recurring reports, maintains basic record files, and exercises staff supervision over records administration in the Office of the Chief Signal Officer and in Signal Corps field installations and activities.

(e) Assigns officers to duty in the subdivisions of the Office of the Chief Signal Officer; maintains a military personnel information locator; prepares morning reports; and issues or processes temporary duty travel orders for military personnel of the Office of the Chief Signal Officer and the Signal Corps Photographic Library and Laboratory.

(f) Performs office service functions such as: operates messenger service; allocates office space; arranges for motor-pool transportation, building maintenance, telephone and reproduction service; arranges for supply and repair of office furniture and equipment; operates machine tabulating service; and exercises staff supervision over the utilization of IBM equipment in activities under control of the Chief Signal Officer.

(g) Performs public relations activities for the Office of the Chief Signal Officer and maintains liaison with public relations officers at Signal Corps field installations and activities and reviews material concerning the Signal Corps, such as articles, speeches, radio scripts and exhibits, prior to their dissemination to the public through Department of Defense channels.

(h) Handles requests for information submitted to the Chief Signal Officer and furnishes promotional material on recruiting to The Adjutant General.

(ii) *Fiscal Division.* (a) Exercises accounting control of funds allocated or allotted to the Chief Signal Officer, maintains centralized fiscal accounts, and effects transfer of funds between the Signal Corps and other Army and Government agencies.

(b) Exercises technical supervision over property and pay-roll accounting records.

(c) Reviews renegotiation agreements and takes action to collect monies due the United States from contractors.

(d) Prepares consolidated Signal Corps and the Alaska Communications System budget estimates and justifications, prepares funding programs, and recommends allocations and allotments of Signal Service of the Army and Alaska Communications System funds, and funds from other appropriations expended by the Signal Corps.

(e) Coordinates the preparation of drafts of legislation affecting appropriations.

(f) Analyzes procurement directives issued by the Office of the Chief Signal Officer as to propriety and cost.

(g) Represents the Chief Signal Officer in matters relating to the construction, alteration, easing, and acquisition or disposition of land and buildings and space control for the Signal Corps.

(h) Publishes equipment lists for and prescribes forms to be used in connection with real or installed property accounts.

(i) Determines necessity for and adequacy of insurance required of Signal Corps contractors and subcontractors.

(iii) *Legal Division.* (a) Act as general counsel to and represents the Chief Signal Officer on legal matters, including those relating to patents, copyrights, inventions, licenses, and legislation, and those involving congressional inquiries and labor relations matters.

(b) Reviews and advises the Chief Signal Officer on pending legislation; drafts, coordinates, and processes in the Office of the Chief Signal Officer proposed legislation on matters affecting Signal Corps activities; and prepares

reports to higher authority on proposed legislation.

(c) Drafts, reviews, and publishes Signal Corps procurement instructions; advises and assists procurement personnel in negotiation of special contract and contract clauses; and drafts forms of contracts and other legal documents.

(d) Reviews contracts for conformity with law, regulations, and directives, and obtains corrections of irregularities.

(e) Reviews renegotiation agreements for legal sufficiency and assists the Judge Advocate General and Justice Department in preparation of litigated cases.

(f) Reviews appeals to the Chief Signal Officer from findings and decisions of contracting officers and processes and assists in preparation of appeals before the Army Board of Contract Appeals and the Appeal Board of the Office of Contract Settlement.

(g) Processes claims against the Government and prepares recommendations for submission to the General Accounting Office.

(h) Prepares, processes, and files applications for letters patent and amendments and investigates and settles claims against the Government for infringement of patents.

(i) Advises Signal Corps military personnel on personal legal matters.

(j) Exercises staff supervision over the the Philadelphia Field Office of the Legal Division and the Signal Patent Agency (Fort Monmouth).

(iv) *Signal Plans and Operations Division.* (a) Assigns radio frequencies and radio call signs for Army activities.

(b) Represents the Chief Signal Officer on and recommends signal communications policies to committees of the Joint Communications-Electronics Committee and Combined Communications Board; implements decisions of the Joint Communications-Electronics Committee and Combined Communications Board referred to the Chief Signal Officer, and exercises staff supervision over matters referred to these agencies by the Chief Signal Officer.

(c) Serves on the Executive Council of the Central Radio Propagation Laboratory.

(d) Represents the Army in liaison with Government, national, and international agencies concerned with frequency allocation, call signs, radio interference, and radio propagation phenomena and on the Interdepartment Radio Advisory Committee and other boards and committees concerned with national and international radio frequency allocation and radio propagation matters.

(e) Participates in the negotiation and formulation of international telecommunications treaties, conventions, regulations, and executive agreements.

(f) Approves the technical characteristics of radio electronic equipment prior to standardization with respect to frequency range, location in the radio frequency spectrum, antenna radiation characteristics, emission, and power.

(g) Assigns frequency tolerance limits for the production of electronic equipment and processes Army applications thereon to the Frequency Allocation Panel, Joint Communications-Electronics Committee, and Combined Communications Board.

(h) Reviews and approves, with respect to frequency, requisitions and purchase requests for crystals and maintains liaison with using arms in connection with the frequency of crystals to be issued.

(i) Collects, compiles, analyzes, and disseminates essential types of radio propagation information and noise data and conducts operational research on radio propagation problems.

(j) Exercises technical supervision over and assigns the mission of the Radio Propagation Unit, Signal Corps, Ionosphere Sounding Teams in the field, and the Signal Corps Monitoring Station at Fort Riley.

(k) Exercises staff supervision within the Office of the Chief Signal Officer over postwar, strategical, tactical, logistical, mobilization, and national emergency projects, plans, and policies concerning signal communications and electronics portions of Army directives, predicts personnel and equipment requirements, and assists in the development of over-all industrial mobilization policies and plans.

(l) Reviews and makes recommendations on organization and equipment tables for Signal Corps, signal communications, electronics, and photographic units within the Army and reviews job specifications of MOS's associated with Signal Corps, signal communications, electronics, and photographic units and activities.

(m) Recommends and initiates action on the constitution, activation, organization, designation, allotment, movement, assignment, inactivation, disbandment, reorganization and redesignation of units commanded by the Chief Signal Officer.

(n) Prepares troop basis, troop lists, troop programs, troop deployments, tables of organization and equipment, equipment modification lists, and changes for units assigned to the Chief Signal Officer as a table of organization and equipment responsibility, and tables of allowances assigned to the Chief Signal Officer and reviews signal portion of tables of organization and equipment, tables of allowances, etc., as may be requested by other agencies.

(o) Reviews and authorizes requests for supplies and equipment in excess of or not included in approved allowances and predicts personnel and equipment requirements in excess of tables of organization and equipment and tables of allowances.

(p) Reviews objectives, projects, and plans for installation, retention, operation, or disposition of domestic and oversea fixed signal communications systems and facilities.

(q) Maintains staff supervision over actions taken on operational messages and exercises staff supervision over the Signal Corps Board.

(r) Exercises staff supervision over Signal Corps participation in Armed Forces Special Weapons Project and Atomic Energy Commission activities and coordinates job and security clearances for access to Restricted data.

(s) Coordinates for the Chief Signal Officer electronics countermeasures, radiological measures, deception responsibilities, and tactical signal communications procedures and prepares military characteristics and requirements for electronics countermeasures equipment and requirements for electronic countermeasures personnel and units.

(t) Formulates, reviews, and recommends tactical doctrines and techniques for the utilization of Signal Corps units and equipment under control of the Chief Signal Officer and reviews and recommends tactical doctrines and techniques for the employment of signal communications units and equipment assigned to Army Field Forces.

(u) Exercises staff supervision over security, intelligence, and counterintelligence activities in the Signal Corps; exercises technical supervision over and assigns the mission of the Signal Corps Intelligence Agency; processes individual and contractor security clearance in connection with Signal Corps activities; and acts as Control and Record Office for classified and other Restricted data, cryptographic material, and correspondence within the Office of the Chief Signal Officer.

(v) Exercises staff supervision over standardization of signal equipment and procedures with foreign countries and releases of critical equipment or supplies to foreign countries.

(w) Provides, under the direction and supervision of the Director of Intelligence, General Staff, signal technical intelligence for the Army.

(x) Prepares, under the supervision of the Director of Intelligence, General Staff, telecommunications sections of the United States Strategic Vulnerability Survey and the Strategic Intelligence Studies on all foreign countries.

(y) Supervises direct exchange of signal technical information with foreign nationals and arranges for clearance of foreign nationals to visit Signal Corps establishments and private plants.

(z) In accordance with Army policy, exercises technical staff supervision over captured signal equipment returned to the United States for intelligence purposes, except signal intelligence and communications security equipment of special interest to the Army Security Agency.

(v) *Army Communications Service Division.* (a) Develops detailed engineering plans for and initiates and technically supervises the installation, operation, maintenance, consolidation, and disposition of Army fixed communications systems and equipment.

(b) Maintains liaison with Army and other agencies on matters concerning plans and policies for the establishment, expansion, reduction, integration, utilization, and disposition of fixed Army communications systems and facilities.

(c) Directs and supervises operation of the Army Command and Administrative Communications Agency, including the Army Communications Center, the Alaska Communications System, and the Signal Corps Plant Engineering Agency.

(d) Supervises negotiation and administration of contracts for the procurement of commercial communication facilities and services used by the Army.

(e) Controls, makes assignment, and publishes routing indicators for Army networks employing tape relay methods of operation and assigns and publishes delivery groups for Army stations and activities.

(f) Provides technical supervision of the installation and maintenance of radio communications stations, radio direction finding equipment, radar and Loran for use on Army vessels and boats, with the exception of those items peculiar to the Air Force.

(g) Provides staff supervision of the organization, coordination, and operation of the Military Amateur Radio System as pertains to the Army.

(h) Prepares, revises, and reviews Army publications covering general policies, procedures, standards, and methods of a technical nature governing the operation of fixed plant communication systems and facilities.

(i) Based upon program analysis and projected operations, compiles budget estimates and recommends allocation of funds for fixed communications service and facilities.

(j) Performs technical inspections of Army fixed communications systems and facilities.

(vi) *Army Pictorial Service Division.* (a) Exercises staff supervision over the production, distribution, storage, issue, and exhibition of motion pictures, film strips, and still pictures for which the Chief Signal Officer is responsible.

(b) Authorizes the establishment or discontinuance of, and maintains technical control of the operation of, film libraries and photographic laboratories at class I and II installations and in oversea departments and commands.

(c) Supervises custody, in collaboration with The Adjutant General, of the permanent motion picture, film strip, and still picture records of the Army for which the Chief Signal Officer is responsible.

(d) Recommends plans and procedures for the training and assignment of military personnel in photographic specialties.

(vii) *Engineering and Technical Division.* (a) Exercises control and coordination of the Signal Corps research and development program.

(b) Prepares and coordinates broad and long-range plans for research and development personnel, facilities, and activities.

(c) Consolidates and prepares justification of the Signal Corps research and development budget.

(d) Acts as the Secretariat of the Signal Corps Technical Committee.

(e) Assigns and reviews Signal Corps research and development priorities and project numbers and prepares and distributes reports on research and development program.

(f) Coordinates the activities of the Signal Corps Engineering Laboratories Development Detachment.

(g) Exercises operating control over the Signal Corps Engineering Laboratories and Army Electronics Standards Agency in connection with research and development activities pertaining to specifications, maintenance engineering, and quality control of Signal Corps equipments.

(h) Prepares modification work orders, maintenance parts catalog, parts control lists, repair specifications, etc.

(i) Analyzes unsatisfactory equipment reports and takes corrective action to remedy deficiencies.

(j) Furnishes recommendations for tables of organization and equipment requirements and determines type classification of components upon reclassification of equipment by Signal Corps Technical Committee.

(k) Maintains liaison between supply control points and Signal Corps Engineering Laboratories to assure availability of procurement data for items scheduled for procurement before procurement directives are issued.

(l) Authorizes expendable Signal Corps supplies and exercises staff supervision over preparation of tables of allowances of expendable supplies.

(m) Analyzes and processes parts requirements for tactical equipment and foreign aid programs.

(n) Exercises staff supervision over assignment of nomenclature for the Signal Corps and Communications-Electronics Nomenclature System.

(o) Assigns security classification on Signal Corps equipment.

(p) Disseminates information on the security classification of all communications and electronic and associated equipment coming within the scope of Communications-Electronic Nomenclature and Signal Corps and Navy Systems.

(q) Reviews research reports and patent applications and recommends security classification thereof.

(r) Supervises Signal Corps research and development projects pertaining to equipment and system, major changes in standard equipment, improvement and elimination of duplication in existing equipment, initiation of special investigations, arrangement for service test, dissemination of technical information on research and development projects, and implementation of approved recommendations of the Signal Corps Board.

(s) Coordinates with using agencies on installation of radar and meteorological equipment.

(t) Prepares and coordinates subcommittee reports for the Signal Corps Technical Committee.

(u) Prepares recommendations pertaining to authorization of establishment, change in echelon, or discontinuance of field and/or depot maintenance facilities in zone of interior for Signal Corps equipment.

(viii) *Personnel and Training Division.* (a) Evaluates and defends before higher authority Signal Corps military and civilian manpower requirements and recommends allotments of military and civilian personnel for all activities under command of the Chief Signal Officer.

(b) Studies missions, functions, and organizational structure of all Signal Corps field installations and activities and recommends as to their establishment, elimination, transfer, and modification to effect improvement and economy and processes the establishment, activation, and inactivation of Technical Service Units.

(c) Studies and recommends management programs and methods (work programming and measurement, work simplification, cost analysis, manpower control, progress and statistics, and time and motion study), and develops policies and procedures and prepares instructions.

(d) Administers Signal Corps cost productivity analysis and Signal Corps work measurement-personnel utilization programs.

(e) Plans, develops and maintains a program of civilian personnel administration for Signal Corps employees, departmental and field, including recruitment, hiring, in-service placement, oversea employment, veterans reemployment, reductions in force, employee utilization, classification and wage administration, leave, efficiency ratings, suggestions, awards and grievances, and formulates policies and operating practices and methods.

(f) Furnishes staff assistance and guidance to Signal Corps field activities by means of surveys in connection with civilian personnel administration and directs the installation of mandatory procedures, records, and forms.

(g) Represents the Signal Corps in liaison activities with Civilian Personnel Division, Office of the Secretary of the Army, the Civil Service Commission, Veterans' organization, and labor union officials.

(h) Exercises staff supervision over the training of units and individuals in field of signal communications and electronics, ground photography, signal supply and procurement, and over the Army Pigeon Service.

(i) Prepares and revises training aids, posters, and instructional material, and recommends production of revision of training films and film strips for signal training.

(j) Processes new or revised MOS's for Signal Corps personnel.

(k) Supervises the troop information and education program in elements under the control of the Chief Signal Officer.

(l) Assists in the preparation of tables of allowances for Signal Corps schools and training installations.

(m) Processes special requests for training equipment, supplies, and commercial publications.

(n) Prepares budget estimates for and maintains administrative control of funds for training, pigeon activities, and printing and binding.

(o) Exercises staff supervision over the Signal Corps Publications Agency, over the preparation and processing of publications initiated by the Chief Signal Officer, and over the processing of Joint Chiefs of Staff publications in which the Chief Signal Officer has primary interest.

(p) Plans and controls all procurement or production and disposition of Signal Corps training and technical literature.

(q) Performs printing control and forms standardization for the Signal Corps.

(r) Recommends policies and procedures relating to and exercises staff

supervision over enlisted personnel activities and the administration, classification, demotion, transfer, retirement, and discharge of officer personnel under control of the Chief Signal Officer.

(s) Performs functions of career management for Signal Corps officers (except general officers) and warrant officers and processes permanent changes of station for Signal Corps officers (except general officers) and warrant officers within the zone of interior to oversea commands and to zone of interior assignments upon return from overseas.

(t) Processes the promotion, appointment, and declaration of all military personnel under the control of the Chief Signal Officer, as well as matters pertaining to reclassification and disciplinary cases referred to the Chief Signal Officer for recommendation and/or action.

(u) Processes application of officers for Regular Army commissions in the Signal Corps and applications for direct appointment in the Signal Section, Officers Reserve Corps.

(v) Maintains records of Signal Corps officers and enlisted men and efficiency records of Signal Corps officers assigned in the Office of the Chief Signal Officer.

(w) Prepares and maintains files on all Signal Corps units, including strength and location.

(x) Surveys enlisted requirements of the oversea commands, army areas and class II installations and activities and recommends the assignment of Signal Corps school graduates to maintain an equitable distribution of enlisted specialists for zone of interior and oversea commands.

(y) Administers the promotion program for enlisted men of the first three grades under control of the Chief Signal Officer and maintains supervisory control over the promotion of all Signal Corps enlisted men who have been classified into career fields monitored by the Chief Signal Officer.

(z) Plans the selection of and completes negotiations with industrial concerns for the sponsorship of Signal Corps Organized Reserve Corps Affiliated Units and represents the Chief Signal Officer on matters related to the affiliation program prior to activation of affiliated units.

(ix) *Procurement and Distribution Division.* (a) Exercises staff supervision over Signal supply control operations, including the establishment, development, and review of policies and procedures on the computation of requirements and allowances of Signal supplies.

(b) Analyzes and interprets troop basis and directives pertaining thereto.

(c) Determines availability of Signal Corps equipment and supplies; implements instructions to the oversea commands authorizing the return or disposal of equipment and supplies; computes, reviews, and revises replacement factors for Signal Corps equipment; and authorizes or obtains authorization for issue of Signal Corps equipment to Army, Air Force, Navy, and other governmental agencies and to other governments.

(d) Prepares the Signal Corps Supply Program and the Signal Corps portion of the Army Program of Procurement.

(e) Directs and supervises the Signal Corps Stock Control Agency in the regulation and maintenance of satisfactory stock positions of signal depots and signal sections of general depots.

(f) Represents the Chief Signal Officer on the Procurement Assignment Board.

(g) Exercises staff supervision over purchasing, pricing, production, inspection, and contract settlement activities of the Signal Corps and directs and supervises the procurement activities of the Signal Corps Procurement Agency and Army Security Agency Office.

(h) Secures departmental printing, binding, and blank book work for the Signal Corps.

(i) Makes emergency purchases and processes interbranch and interdepartmental procurement.

(j) Directs and supervises the Signal Corps Depot System including the exercise of staff supervision over the disposition of excess and surplus military property in the System.

(k) Supervises the preparation of and evaluates the Depot Master Plan.

(l) Exercises staff supervision over the reconditioning, repair, modification, and fabrication of Signal Corps property at Signal Corps depots and signal sections of general depots.

(m) Exercises staff supervision over industrial mobilization planning in the Signal Corps and directs and coordinates planning and preparatory action necessary to assure timely productions, procurement, and distribution of Signal Corps materials in an emergency.

(x) *Signal Civilian Components Division.* (a) Exercises staff supervision over Signal Corps participation in the Army Civilian Components program.

(b) Prepares and maintains long-range training plans for the Signal Civilian Components; maintains liaison with Signal units and personnel of the Organized Reserve Corps and Reserve Officers Training Corps to determine the status of training, adequacy of programs of instruction, training procedures and equipment; recommends action necessary to correct deficiencies; and reviews and recommends techniques for the training of Signal units and personnel of the Civilian Components.

(c) Reviews and makes recommendations on the type and extent of training of Reserve personnel at activities under control of the Chief Signal Officer; coordinates publications for, and recommends distribution to, the Signal Civilian Components; and prepares special studies on Signal Civilian Components.

(d) Maintains liaison with and renders advice and assistance to other Army and outside agencies for the purpose of carrying out the Signal portion of the Civilian Components mission.

(e) Maintains records of the status of Signal Civilian Components Units; reviews and recommends additions, deletions, or changes to the Organized Reserve Corps troop basis; recommends revisions of tables of organization and equipment and tables of allowances applicable to Signal units of the Organized Reserve Corps; reviews inspection reports of training activities or units of the Organized Reserve Corps; and recommends remedial action, if required.

(f) Represents the Chief Signal Officer on boards, committees, and at conferences concerning matters pertaining to Signal Civilian Components.

Major General, USA,
The Adjutant General.

[F. R. Doc. 50-8029; Filed, Sept. 13, 1950; 8:46 a. m.]

DEPARTMENT OF COMMERCE

National Production Authority

ESTABLISHMENT AND FUNCTIONS

1. *Purpose.* The purpose of this notice is to establish the organization necessary to carry out the functions assigned to the Secretary of Commerce by Executive Order 10161, "Delegating Certain Functions of the President Under the Defense Production Act," and is issued pursuant to the authority vested in the Secretary by such order and by Reorganization Plan No. 5 of 1950.

2. *Establishment of National Production Authority.* There is hereby established in the Department of Commerce a National Production Authority which shall be headed by an Administrator appointed by the Secretary. The National Production Administrator shall report and be responsible to the Secretary.

The National Production Authority shall perform the functions and exercise the powers vested in the Secretary of Commerce by Executive Order 10161, "Delegating Certain Functions of the President Under the Defense Production Act of 1950." These functions shall include but not be limited to: (1) Determination of the requirements for materials and commodities needed for defense, civilian, foreign, and all other purposes; and (2) formulation and execution of the policies and programs necessary for the fulfillment of such requirements.

3. *Establishment and functions of the Advisory Committee on Priorities Administration.* There is hereby established an Advisory Committee on Priorities Administration consisting of the Administrator as Chairman and representatives from the following agencies and such other agencies as the Secretary may designate from time to time: (1) Department of Defense; (2) Department of the Interior; (3) Department of Agriculture; (4) Department of State; (5) Department of Labor; (6) Department of the Treasury; (7) Office of International Trade (Department of Commerce); (8) Economic Cooperation Administration; (9) Atomic Energy Commission; and (10) Housing and Home Finance Agency.

The National Security Resources Board shall be invited to designate an observer to attend all meetings of the Advisory Committee on Priorities Administration.

The Advisory Committee on Priorities Administration shall serve in an advisory capacity with respect to policy and program matters affecting the interests of the represented agencies. More specifically, the Committee shall: (1) Consider all factors relevant to the determination of the direct and indirect military, civilian, and foreign requirements for essential and critical raw materials and industrial products; (2) recommend programs for the production and allocation of such materials and products; and (3) review proposed orders and regulations and perform such other functions as the Chairman may assign.

The Administrator, as Chairman, is authorized to: (1) Establish such subcommittees and working groups subsidiary to the Committee as he may determine to be necessary; and (2) establish rules and regulations governing the procedures and operations of the Committee and its sub-groups.

4. *Organizational adjustments.* The following industry divisions of the Office of Industry and Commerce of the Bureau of Foreign and Domestic Commerce, together with their personnel, are transferred to the National Production Authority: Iron and Steel; Metals and Minerals; Rubber; Textiles and Leather; Chemicals; Forest Products; Construction; Machinery and Equipment; General Products; Motion Pictures; Food; Petroleum; Fuels and Energy.

The Division of Small Business and the Marketing Division of the Office of Industry and Commerce are transferred to the National Production Authority, together with related personnel.

5. *Administrative and Field Services.* Pending further development of the organization and facilities of the National Production Authority and until otherwise directed, the central personnel, accounting, information, and other administrative service facilities of the Office of the Secretary shall provide administrative and other services to the National Production Authority.

In addition, any necessary field services will be provided by the Department Field Service pending development of a sufficient volume of field work to justify separate field offices for the National Production Authority.

6. *Reemployment rights.* All permanent employees of the Office of Industry and Commerce who are transferred by the terms of this order to the National Production Authority and who remain with that organization and perform satisfactory service shall be entitled to reemployment rights in an appropriate position of at least the same grade held on the effective date of this order, when the transferred functions are returned to that Office. Other permanent employees of the Department who are transferred individually to the National Production Authority shall be entitled to reemployment rights under the same terms in the bureau or office from which transferred when their services are no longer needed in the National Production Authority.

7. *Internal organization.* The temporary internal organization of the National Production Authority shall consist of the following: (1) Administrator; (2) Deputy Administrator; (3) General Counsel; (4) Executive Officer; (5) Director of Public Information; (6) Office of Civilian Requirements; (7) Office of Labor Production; (8) Office of Manpower Requirements; (9) Office of Small Business; (10) Assistant Administrator for Program Determination; and (11) Assistant Administrator for Industry Operations.

8. *Status in the Department.* The National Production Authority shall operate as a primary organization unit of the Department of Commerce and shall be administered in conformance with established Departmental policies, regulations and procedures as set forth in the Department of Commerce "Manual of Orders."

9. *Records transfer.* All records remaining in the custody of the Department of Commerce relating to the War Production Board and its predecessor and successor agencies and transferred to the Department by Executive Order 9841 of April 23, 1947, are transferred to the custody and use of the National Production Authority.

(E. O. 10161; Reorg. Plan No. 5 of 1950)

[SEAL] CHARLES SAWYER,
Secretary of Commerce.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 9784]

GARFIELD MEDICAL APPARATUS CO.

ORDER DESIGNATING MATTER FOR HEARING ON STATED ISSUES

In the matter of Garfield Medical Apparatus Company, New York, New York; Withdrawal of Type-Approval Certificate No. D-503 for medical diathermy apparatus; request for issuance of type-approval for new medical diathermy apparatus.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration its order dated August 2, 1950, providing that (1) Type-Approval Certificate No. D-503 held by Garfield Medical Apparatus Company covering that Company's Model G-50 medical diathermy machine should be withdrawn because of apparent violation by Garfield of the terms and conditions of that type-approval but that such withdrawal should be held in abeyance if Garfield filed a timely request for hearing on such withdrawal, and that (2) the Commission would not determine whether to issue a further type-approval to Garfield covering any new equipment until final disposition of the withdrawal proceedings, and having under consideration a request filed on August 17, 1950, by Garfield for (1) a hearing on the order of withdrawal of Certificate No. D-503 and (2) modification of that order by deletion of the provision deferring determination of the issuance of a further type-approval, and having under consideration a pending request filed by Garfield for type-approval of a new model medical diathermy machine submitted to the Commission's laboratory for testing;

It appearing, that Garfield's request for hearing on the order of withdrawal of Certificate No. D-503 is responsive to that order; and

It further appearing, that Garfield has failed to allege in support of its request for modification of that order any new information which was not before the Commission when such order was adopted which would warrant the Commission in modifying such order as requested or in undertaking to determine whether to issue a further type-approval to Garfield prior to the conclusion of the withdrawal proceedings herein; and

It further appearing, that the facts and circumstances leading to the withdrawal proceedings herein have raised a question whether Garfield should be entrusted with a further type-approval of models of its medical diathermy machines and that evidence pertinent thereto must be obtained and considered by the Commission before the Commission may make any determination whether to issue to Garfield any further type-approval; and

It further appearing, that it would facilitate and expedite the ultimate determination whether to issue a further type-approval to Garfield if full opportunity were afforded to Garfield and to the Commission coincident with the withdrawal proceedings herein to provide evidence with respect to whether Garfield should be entrusted with any further type-approval; and

It further appearing, that under the provisions of sections 4 (i), 303, and 403 of the Communications Act of 1934, as amended, the Commission may on its own motion designate for hearing the matter of Garfield's aforesaid request for further type-approval and may consolidate that hearing with the requested hearing on the order of withdrawal of Certificate No. D-503.

It is ordered, That the request of Garfield for hearing on the aforesaid order of withdrawal of Certificate No. D-503 is granted, and such order, together with the pending request of Garfield for favorable Commission action upon a new model of medical diathermy machine which has been submitted for type-approval, are hereby designated for consolidated hearing at 10:00 a. m., September 19, 1950, at Washington, D. C., on the following issues:

(1) To determine whether Garfield's Model G-50 medical diathermy machine manufactured and sold by Garfield, bearing label of type-approval under the authority of Type-Approval Certificate No. D-503, contained changes in design or performance, or both design and performance, which constituted a violation of the terms and conditions of that type-approval.

(2) To determine, if such violation occurred, the facts and circumstances relating to such violation.

(3) To determine, if such violation occurred, the present plans of Garfield with respect to any outstanding Model G-50 machines bearing label of type-

approval that may have been manufactured and sold in violation of the terms and conditions of type-approval covering that model, and with respect to the manufacture and sale of any further Model G–50 machines bearing label of type-approval which would be in conformity with the prototype upon which Type-Approval Certificate No. D–503 was issued, and the ability of Garfield to carry out any such plans.

(4) To determine whether Garfield, its officers, directors and stockholders, can be relied upon to take the necessary steps to insure that any medical diathermy machines manufactured and sold bearing any label of type-approval which might be issued to Garfield in the future, will conform in every respect to the approved prototype for such machine.

(5) To determine whether, in the light of the evidence adduced under the above issues, the public interest would be served by continuing in effect Type-Approval Certificate No. D–503 issued to Garfield for its Model G–50 medical diathermy machine, or by issuing to Garfield any new type-approval for the medical diathermy machine the prototype of which has been submitted to the Commission for approval, in the event that such machine be found to comply with the technical requirements for type-approval as set out in the Commission's rules and regulations.

It is further ordered, That the request of Garfield for modification of the Commission's aforesaid Order of August 2, 1950, is denied.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25399]

PULPBOARD FROM DENVER, COLO., TO ACME, TEX.

APPLICATION FOR RELIEF

SEPTEMBER 11, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3904.

Commodities involved: Pulpboard or fibreboard, carloads.

From: Denver, Colo.

To: Acme, Tex.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3904, Supplement 16.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 25400]

WOOL AND MOHAIR FROM WEST TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 11, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to fourth-section application No. 24951.

Commodities involved: Wool and mohair, carloads.

From: Points in the west.

To: Points in official territory.

Grounds for relief: Competition with rail carriers, circuitous routes and to maintain grouping.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

FEDERAL POWER COMMISSION

[Project No. 2054]

FRENCH BROAD ELECTRIC MEMBERSHIP CORP.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

SEPTEMBER 8, 1950.

Public notice is hereby given that French Broad Electric Membership Corporation, of Marshall, North Carolina, has filed application for preliminary permit under the Federal Power Act (16 U. S. C. 791a–825r) for a proposed hydroelectric development, designated as Project No. 2054, to be located on Cane River, North Carolina.

Any protest against the approval of this application or request for hearing thereon, with the reason for such protest or request and the name and address of the party or parties so protesting or requesting should be submitted on or before October 19, 1950, to the Federal Power Commission, Washington 25, D. C.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8020; Filed, Sept. 13, 1950; 8:45 a. m.]

[Docket No. G–1469]

MICHIGAN GAS STORAGE CO.

NOTICE OF APPLICATION

SEPTEMBER 8, 1950.

Take notice that on August 24, 1950, Michigan Gas Storage Company (Applicant), a Michigan corporation with its principal office at Jackson, Michigan, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described natural-gas transmission facilities:

Two compressor units of 2,200 h. p. each, together with the necessary auxiliary equipment, at Applicant's Muskegon River Compressor Station, located in Winterfield Township, Clare County, Michigan.

Applicant states that, because of a recent and unprecedented demand for natural gas for space-heating purposes, and the inadequacy of gas supply to meet such increased demands, Consumers Power Company (Consumers), its only customer, has found it necessary to secure an order from the Michigan Public Service Commission permitting Consumers to discontinue the acceptance of additional applications for gas for space heating. The Applicant further states that Consumer's estimates it will require approximately 233,000 Mcf of gas from Applicant in order to enable it to meet maximum day demands of firm customers during the winter of 1950–1951; that presently authorized facilities of the Applicant will not be adequate to pump from the storage fields the volumes of gas required to supply Consumers on peak days in the winter of 1950–1951; that to enable the supply of such volumes to Consumers will require the installation of approximately 3,200 horsepower of compressor capacity in the Muskegon River Compressor Station additional to that now authorized; and that the proposed compressor additions will thus provide about 1,200 horsepower of spare capacity, which it believes good operating practice requires.

The estimated cost of the proposed facilities is $765,000, which Applicant proposes to finance from net income not paid out in dividends, from depreciation reserves and, to the extent required, by bank loans (which have been arranged), or the sale of securities when and if appropriate or advisable.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 28th day of September 1950. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

AUGUST WAGNER

In re: Rights of August Wagner under insurance contract. File No. F–28–11263–H–1.

Under the authority of the Trading With the Enemy Act, as amended. Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That August Wagner, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany):

2. That the net proceeds, due or to become due, under a contract of insurance evidenced by Policy No. 1,056,415 issued by the Sun Life Assurance Company of Canada, Montreal, Quebec, Canada, to Karl Wagner, together with the right to demand, receive and collect said net proceeds (including, without limitation, the right to proceed for collection against branch offices and legal reserves maintained in the United

States), is property within the United States, owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 15028]

FRANK MEYER

In re: Debt owing to Frank Meyer, also known as Frank Mayer and as Franz Meier. F-28-7795-D-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Frank Meyer, also known as Frank Mayer and as Franz Meier whose last known address is Bergstrasse 6, Hainsberg bei, Dresden, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of Friendship Federal Savings and Loan Association of Pittsburgh, 6106 Penn Avenue, Pittsburgh 6, Pennsylvania, arising out of a savings share account numbered 270, entitled Frank Meyer and Fred Erndt, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Frank Meyer, also known as Frank Mayer and as Franz Meier, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 15029]

MAUREEN REEVES

In re: Back account owned by Maureen Reeves, also known as Maureen Reeves Splettstoesser. D-28-9975-G-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maureen Reeves, also known as Maureen Reeves Splettstoesser, who, on or since the effective date of Executive Order 8389, as amended, and on or since December 11, 1941, has been a resident of Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of the Guaranty Trust Company of New York, 140 Broadway, New York 15, New York, arising out of a special account, entitled Maureen Reeves, maintained with the aforesaid company, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Maureen Reeves, also known as Maureen Reeves Splettstoesser, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 15039]

FRIDA DOSTER

In re: Rights of Frida Doster under insurance contract. File No. F-28-30686-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Frida Doster, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 738,710 M, issued by the Metropolitan Life Insurance Company, New York, New York, to Frida Doster, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be sold, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[Vesting Order 15031]

SHOWA MENKA KAISHA LTD. ET AL.

In re: Debt owing to Showa Menka Kaisha Ltd., and others. F-29-178-C-1, F-39-1631-C-3, F-39-143-C-6, F-39-2124-C-2, F-39-593-C-1, F-39-1991-C-3.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Showa Menka Kaisha Ltd., the last known address of which is 2 Nakanoshima, Osaka, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Osaka, Japan, and is a national of a designated enemy country (Japan);

2. That Mitsubishi Shoji Kaisha Ltd., the last known address of which is Osaka, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Osaka, Japan, and is a national of a designated enemy country (Japan);

3. That Toyo Menka Kaisha Ltd., the last known address of which is Osaka, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Osaka, Japan, and is a national of a designated enemy country (Japan);

4. That Nippon Menkwa K. K., also known as Nippon Menkwa Kabushiki Kaisha, the last known address of which is Osaka, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Osaka, Japan, and is a national of a designated enemy country (Japan);

5. That Gosho K. K., also known as Gosho Kabushiki Kaisha, the last known address of which is Osaka, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order 8389, as amended, has had its principal place of business in Osaka, Japan, and is a national of a designated enemy country (Japan);

6. That the property described as follows: That certain debt or other obligation of Bunge Corporation, 80 Broad Street, New York, New York, arising out of a Special Dollar Account, maintained with Bunge Corporation, New York, New York, in behalf of Bunge & Co., Ltd., London, England, and representing funds due the following named firms in the amounts set forth opposite each such name:

Name	*Amount*
Showa Menka Kaisha Ltd.	$4,683.28
Mitsubishi Shoji Kaisha Ltd.	126.71
Toyo Menka Kaisha Ltd.	5,932.31
Nippon Menkwa K. K., also known as Nippon Menkwa Kabushiki Kaisha	5,273.99
Gosho K. K., also known as Gosho Kabushiki Kaisha	2,664.11
Total	$18,680.40

together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Showa Menka Kaisha Ltd., Mitsubishi Shoji Kaisha Ltd., Toyo Menka Kaisha Ltd., Nippon Menkwa K. K., also known as Nippon Menkwa Kabushiki Kaisha, and Gosho K. K., also known as Gosho Kabushiki Kaisha, the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

7. That to the extent that the persons named in subparagraphs 1, 2, 3, 4 and 5 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

KOMAGUSA AND SAYO NAKATANI

In re: Rights of Komagusu Nakatani and Sayo Nakatani under insurance contract. File No. F-39-6561-H-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Komagusu Nakatani and Sayo Nakatani, whose last known address is Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 1,131,626, issued by the Sun Life Assurance Company of Canada, Montreal, Quebec, Canada, to Komagusu Nakatani, together with the right to demand, receive and collect said net proceeds (including without limitation the right to proceed for collection against branch offices and legal reserves maintained in the United States), is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, Komagusu Nakatani or Sayo Nakatani, the aforesaid nationals of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

Chapter II—The Loyalty Review Board

PART 210—THE OPERATIONS OF THE LOYALTY REVIEW BOARD

APPENDIX A—LIST OF ORGANIZATIONS DESIGNATED BY THE ATTORNEY GENERAL PURSUANT TO EXECUTIVE ORDER NO. 9835

The following material is added to Appendix A:

In a letter dated August 24, 1950 the Attorney General has advised the Loyalty Review Board that the Young Communist League and the American Youth for Democracy, which were previously designated as organizations coming within the purview of Part III, section 3, of Executive Order 9835, have ceased to exist and the Labor Youth League has taken the place of the two prior organizations as the organization for young Communists. Accordingly, Labor Youth League bears the same designation as a Communist organization under Executive Order 9835 as the two previous entities of which it is but a continuation.

(Part III, E. O. 9835, Mar. 21, 1947, 12 F. R. 1935; 3 CFR, 1947 Supp.)

LOYALTY REVIEW BOARD,
UNITED STATES CIVIL SERVICE COMMISSION,
SETH W. RICHARDSON,
Chairman.

Chapter IX—Production and Marketing Administration

PART 986—MARKETING AGREEMENT AND ORDER REGULATING THE HANDLING OF HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND OF HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

SALABLE QUANTITY OF 1950 CROP

§ 986.202 *Salable quantity of the 1950 crop of hops*—(a) *Findings.* (1) Notice of proposed rule making with respect to the salable quantity of the 1950 crop of hops was published in the FEDERAL REGISTER of August 16, 1950 (15 F. R. 5457), pursuant to the provisions of Marketing Agreement No. 107 and Order No. 86 regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States (7 CFR 986.1 et seq.). In said notice, in which it was proposed to fix the salable quantity of 1950 crop hops at 50,000,000 pounds, opportunity was afforded interested parties to submit to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., written data, views, or arguments for consideration prior to the final issu-

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

ance of the order fixing the salable quantity. Such documents were filed during the period specified, favoring salable quantities ranging from 49,000,000 to 53,000,000 pounds.

Views of those favoring 49,000,000 pounds as the salable quantity were in the nature of substantiating the majority opinion of the Hop Control Board that its estimate of consumptive demand, both domestic and export, and its allowance for an increase in carryover of 1,500,000 pounds on September 1, 1951, as compared with September 1, 1950, were adequate.

Views of those favoring an increase in the salable quantity above the 50,000,000 pounds proposed, were that imports will be small during the 1950–51 marketing season and that exports may be greater than those of the 1949–50 season, in which they are likely to exceed 13,000,000 pounds.

Information available to the Department indicates that its estimate of exports of 12,800,000 pounds during the 1949–50 season are reasonably probable. Firm evidence for increasing or decreasing this estimate was not submitted by any person.

It appears that there has been no appreciable change in the price of hops not under contract since the announcement of the proposed rule. It is evident, therefore, that the proposal to fix the salable quantity at 50,000,000 pounds has not weakened the market, and that grower income for the 1950 crop will be greater with a salable quantity of 50,000,000 pounds than 49,000,000 pounds.

Hop stocks during the 1949–50 marketing season were reduced to a level which appears to be less than brewers considered adequate. This is evidenced by increasing domestic prices during the season. The Board's allowance for an increase in stocks during the 1950–51 marketing year of 1,500,000 pounds appears to be justified.

The evidence as to the probable export level, the desire of brewers to increase their stocks, and the firm market for hops not under contract does not appear to justify an increase or a decrease in the proposed salable quantity of 50,000,000 pounds.

Therefore, after consideration of all relevant matters, including the estimates and recommendation of the Hop Control Board, the written data, views, and arguments received, and other pertinent data available to the Department, the salable quantity of 1950 crop hops is fixed as indicated in the order below.

(2) It is necessary to make effective not later than three days after publication of this section in the FEDERAL REGISTER this regulation as to the salable quantity of the 1950 crop of hops for the reason that the shipment of the current crop of hops is about to begin and it is necessary to have the salable quantity fixed in order to regulate such shipments. No preparation for this section is required which cannot be completed prior to such effective date. Therefore, good cause exists for not delaying the effective date of this section beyond three days after the publication of this section in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 60 Stat. 237; 5 U. S. C. 1001 et seq.).

(b) *Order.* The maximum quantity of hops produced during 1950 which may be handled in the form of hops and in the form of any hop product shall be 50,000,000 pounds (net dry weight).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 11th day of September 1950, to become effective at 12:01 a. m., P. s. t., on the 3d day after the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1950 CCC Cotton Bulletin 1]

PART 607—COTTON

SUBPART—1950 COTTON LOAN PROGRAM

1950 COTTON LOAN BULLETIN

Correction

In Federal Register Document 50-7032, appearing at page 5187 of the issue for Friday, August 11, 1950, as corrected on page 5990 of the issue for Wednesday, September 6, 1950, the following additional change should be made in the schedule under § 607.130: For Spotted, Middling, under Staple length (inches) 1 3/16, "–153" should read "–155".

TITLE 13—BUSINESS CREDIT

Chapter I—Reconstruction Finance Corporation

[Reg. 11]

PART 4—CLAIMS ARISING UNDER FOOD SUBSIDY PROGRAMS

Sec.
4.1 Purpose.
4.2 Filing of protests.
4.3 Applicability.

AUTHORITY: §§ 4.1 to 4.3 issued under sec. 2, 66 Stat. 24, as amended, 56 Stat. 765; 50 U. S. C. App. 902, 961, 962. Sec. 202 (c), E. O. 9841, Apr. 23, 1947, 12 F. R. 2645, 3 CFR, 1947 Supp.

§ 4.1 *Purpose.* The last period in respect of which meat subsidies were payable was the October 1946 subsidy period. All other food subsidy programs were earlier terminated. All claims for food subsidies heretofore presented have received administrative consideration. No new claims could, under the applicable regulations, be filed at this late date. It is, therefore, appropriate and administratively necessary to complete these programs by requiring all unsettled items to be formally presented so that they may be finally disposed of.

§ 4.2 *Filing of protests.* The refusal or failure of Reconstruction Finance Corporation by the date of issuance of this part to make payment of, or to give appropriate credit for, claimed food subsidies shall be deemed an order denying such payment or credit. No protest against an order denying such payment or credit, in whole or in part, will be considered unless filed with Reconstruction Finance Corporation on or before December 15, 1950. The failure to file a protest on or before such date will be presumed conclusively to constitute an abandonment of any claim to such payment or credit.

§ 4.3 *Applicability.* This part shall apply to claims arising under Regulation No. 2 of Defense Supplies Corporation (butter subsidies) (8 F. R. 10825, 15798; 12 F. R. 66; 32 CFR Part 7002, 1943–1946 Supps.); Regulation No. 3, as amended (8 F. R. 10826, 15799; 9 F. R. 1820; 10 F. R. 4241, 7539, 8073, 11155; 12 F. R. 66; 32 CFR Part 7003, 1943–1946 Supps.), of Defense Supplies Corporation, and Revised Regulation No. 3, as amended, and Regulation No. 10 of Reconstruction Finance Corporation (meat subsidies); and Regulation No. 4, as amended (9 F. R. 1822, 7710, 12092; 10 F. R. 524; 12 F. R. 66; 32 CFR Part 7004, 1944–1946 Supps.), of Defense Supplies Corporation and Regulation No. 9 of Reconstruction Finance Corporation (flour subsidies). This part shall not apply to those claims on which completion of administrative action has been suspended because of referral to the Department of Justice.

This regulation shall become effective upon issuance.

Issued this 14th day of September 1950.

RECONSTRUCTION FINANCE CORPORATION,
[SEAL] LEO NIELSON,
Secretary.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of Industry and Commerce

[5th Gen. Rev. of Export Regs., Amdt. P. L. 15]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

COTTON

Section 399.1 Appendix A—*Positive List of Commodities* is amended in the following particulars:

The following commodities are added to the Postive List. In addition, linters classified under Schedule B Nos. 300405 and 300406, now on the Positive List, are changed from R to RO commodities as set forth below.

Department of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Cotton, unmanufactured:				
	Raw cotton, except linters (averaging approximately 510 to 520 pounds per running bale):				
200605	American Egyptian (Pima) and Sea Island	Pound / Bale	TEXT	250	RO
200606					
200205	Upland, staple length 1 1/8 inches and over (U. S. Official Standard).	Pound / Bale	TEXT	250	RO
200206					
200201	Upland, staple length 1 1/16 up to but not including 1 1/8 inches (U. S. Official Standard).	Pound / Bale	TEXT	250	RO
200202					
200203	Upland, staple length 1 5/16 up to but not including 1 1/16 inches (U. S. Official Standard).	Pound / Bale	TEXT	250	RO
200204					
200207	Upland, staple length under 1 5/16 inch (U. S. Official Standard).	Pound / Bale	TEXT	250	RO
200208					
200311	Foreign cotton, re-exported (when shipped by the bale, staple length and country of origin to be reported by the shipper).	Pound / Bale	TEXT	250	RO
200312					
	Linters (averaging approximately 615 to 625 pounds per running bale):				
200402	Grades 1 to 4 inclusive (U. S. Official Standard) (Motes included).	Pound / Bale	TEXT	100	RO
200403					
200405	Grades 5 to 7 inclusive (U. S. Official Standard) (Cottonseed hull fiber included).	Pound / Bale	TEXT	100	RO
200406					

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth above which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to the effective date of this amendment may be exported under the previous general license provisions.

(63 Stat. 7; E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

This amendment shall become effective as of September 8, 1950, 11 a. m., e. d. t.

Issued this 12th day of September 1950.

[SEAL] RAYMOND S. HOOVER,
Issuance Officer.

[F. R. Doc. 50-8032; Filed, Sept. 14, 1950; 8:46 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52554]

PART 1—CUSTOMS DISTRICTS AND PORTS

CHANGE IN AREA; REPUBLIC OF HAITI, DOMINICAN REPUBLIC

Section 1.5, Customs Regulations of 1943 (19 CFR 1.5), is amended by deleting the period at the end of the area shown for Customs Agency District No. 6, and inserting in lieu thereof a comma followed by "the Republic of Haiti, the Dominican Republic."

(R. S. 161; sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1624)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: September 8, 1950.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.114]

PART 67—EMERGENCY AID TO SELECTED CITIZENS OF CHINA

Pursuant to the provisions of the Chinese Students section of Title I of the Foreign Aid Appropriations Act, 1950 (Public Law 327, 81st Congress) and the China Area Aid Act of 1950 (Title II, section 202 of the Foreign Economic Assistance Act of 1950, Public Law 535, 81st Congress), Part 67 of Title 22 of the Code of Federal Regulations is revised to read as follows:

Sec.
67.1 Definitions.
67.2 Purpose of the program.
67.3 Qualifications for participation.
67.4 Categories of persons eligible.
67.5 Terms and conditions.
67.6 Application procedure.
67.7 Employment privileges.
67.8 Payments in advance of expenditures.
67.9 Payees and mode of payment.
67.10 Individual authorization.
67.11 Emergency payments.

AUTHORITY: §§ 67.1 to 67.11 issued under Pub. Laws 327, 535, 81st Cong.

§ 67.1 *Definitions.* (a) The term "program" refers to the program of emergency aid to selected citizens of China.

(b) "Selected citizens of China" means citizens of China, as evidenced by a passport or other acceptable identifying document, who shall apply for assistance under this program and who, because they fulfill all requirements as set forth in this part, are deemed eligible for assistance in one of the following categories:

(1) A "student" for the purpose of study or to perform research or both, at or in connection with an established institution of learning and/or research; or,

(2) A "teacher" for the purpose of imparting knowledge to others at the elementary, secondary school, and junior college levels, or one who trains or directs others seeking knowledge; or,

(3) A "professor" as one who functions as a lecturing or teaching officer in a university, college or other accredited institution approved under this part; or,

(4) "Research scholar" as one who undertakes a bona fide project within the scope of the basic legislative authorization under the direct supervision of or in connection with an established college or university, private laboratory or research center, government agency or similar institution as well as an industrial concern which has adequate research and supervisory facilities.

(c) The term "eligible" means legally acceptable for assistance within the meaning and intent of either the Chinese Students section of Title I of the Foreign Aid Appropriations Act, 1950 (Public Law 327, 81st Congress) or the China Area Aid Act of 1950 (Public Law 535, 81st Congress).

(d) The term "approved institution" means any college, university, research center or other educational institution approved by the Divison of Exchange of Persons with such advice and recommendations from competent agencies and private organizations as deemed necessary.

(e) The term "official representative" means a person designated by the president of the approved institution to the Division of Exchange of Persons who will issue application forms on behalf of the Department of State and such institution, advise applicants, report to the Department any change in the grantee's financial or academic status, certify to the accuracy of applications, and transmit grants.

§ 67.2 *Purpose of the program.* The purpose of the program shall be to provide financial assistance to worthy and needy Chinese students, teachers, professors and scholars in fields of specialized knowledge and skill to permit their achievement of approved educational objectives, and/or to make possible their pursuance of advanced research and related academic and technical activities in the United States in accordance with the provisions of the Chinese Students section of Title I of the Foreign Aid Appropriations Act, 1950 (Public Law 327, 81st Congress) and the China Area Aid Act of 1950 (Public Law 535, 81st Congress, Title II, section 202).

§ 67.3 *Qualifications for participation.* In order to qualify for assistance under the program, an individual: (a) Shall be a citizen of China as that term is defined in § 67.1; (b) shall be in financial need as certified by his official representative and his references; (c) shall be acceptable for study, teaching or research in an accredited college, university, or other educational institution in the United States as approved by the Department of State; (d) shall, in the case of an applicant for a research grant, demonstrate to the satisfaction of appropriate officials in the Department of State that he is fully equipped to perform advanced research or related academic or technical activities.

§ 67.4 *Categories of persons eligible.* Selected citizens of China, in order to be eligible for this program, shall have been legally admitted into the United States on appropriate visas and have a valid immigration status at the time of application for a grant (except for persons qualifying for admittance under paragraph (c) of this section who shall be otherwise qualified for admission to the United States under the general immigration laws and regulations), and must fall within one of the following categories:

(a) They shall be persons in the United States prior to January 1, 1950, unless exceptional hardship can be proved, who were eligible under the policies governing previous authorizations;

(b) They shall be persons located in the United States prior to January 1, 1950, unless exceptional hardship can be proved, who are eligible under Public Law 535, 81st Congress, and who have been ineligible for assistance under previous authorizations; or

(c) They shall be bona fide students, teachers, professors, scholars or research workers resident outside of China and outside the United States, and those persons in Free China eligible under Public Law 535, 81st Congress, who have not been eligible under previous authorizations.

§ 67.5 *Terms and conditions.* A citizen of China, when selected for a grant under this program, may receive any or all of the following:

(a) *Transportation expenses.* When travel is authorized, funds to cover the case shall be made available as follows:

(1) For selected grantees in paragraphs (a) and (b) of § 67.4, necessary minimum transportation within the United States to the educational institution concerned and return travel to China when authorized.

(2) For participants in the program who fall within paragraph (c) of § 67.4, necessary minimum transportation from place of residence abroad to nearest port of embarkation, third class boat passage from that port to port of entry into the United States, and coach transportation from the port of entry into the United States to his place of study or assignment in the United States; provided, however, that higher class transportation may be allowed in individual cases when specifically authorized or approved in the travel order.

(3) For all participants upon completion of assignment, attainment of academic objectives, or discharge from participation because of failure to maintain satisfactory academic standards, or for the convenience of the Government, coach transportation from residence or place of study or assignment in the United States to San Francisco, California (or other convenient port of departure), and third class boat passage from that port to port of entry in China (or nearest port accessible to China for disembarkation at time of departure of grantee), or to place of residence abroad when the grant was awarded: *Provided, however,* That higher class transportation may be allowed in individual cases when specifically authorized or approved in the travel order.

(b) *Subsistence.* Such subsistence allowance as is sufficient to cover room and board commensurate with a normal standard of living will be provided for all needy participants. Provisions for the payment of back debts are expressly not made, except as provided in § 67.5 (d). In no case may such payments be made for a period prior to the enactment of Public Law 535, 81st Congress, June 5, 1950. Additional subsistence may be granted if the participant has dependents in the United States (spouse and minor children) for whose financial support he is solely responsible.

(c) *Tuition and incidental expenses.* Grantees under this program may be granted such tuition and incidental expense funds as are considered essential to the attainment of their educational objectives.

(d) *Emergency medical care.* Participants in this program may receive additional minimum and necessary funds to cover expenses actually arising from emergency medical and surgical treatment. This provision expressly excludes payments for routine examinations and treatments not considered by the appropriate official representative as being emergency in character. When an emergency arises involving medical care the Department of State shall be notified immediately. Payments authorized under this provision shall be made only upon the receipt of an itemized bill and an appropriate affidavit from the official representative and for limited expenses incurred after the enactment of Public Law 535, 81st Congress, June 5, 1950.

(e) *Grants in general.* All grants shall be made for a period not exceeding one year. Grants shall be effective only so long as the grantee is undertaking the specific project at the particular institution for which he was approved, is performing satisfactorily, and reports all changes in his economic and financial status to the official representative at the university which may be the basis for adjustment or cancellation of his grant. Grants may be terminated at the Department's discretion.

§ 67.6 *Application procedure.* (a) Application forms DSP-42, "Application for Emergency Aid to Chinese Students", shall be supplied to designated official representatives of the program in each participating institution. Chinese students located in the United States shall apply through the institution's designated official representative who will supply the necessary forms on behalf of the Department, advise and assist students in the preparation of their applications, certify to the accuracy and completion of the applications, and submit the applications to the Division of Exchange of Persons, Department of State, Washington, D. C.

(b) Form DSP-42a, "Application for Emergency Aid to Chinese Students, Teachers, Professors, Researchers and Scholars", shall be used by all applicants except students residing in the United States. This form is obtainable from the designated official representatives or at the Department's missions.

§ 67.7 *Employment privileges.* Citizens of China who have been admitted for the purpose of study, or who are now studying in the United States under this program may be granted permission to accept employment upon application filed in accordance with regulations to be prescribed by the Attorney General. Official representatives at universities must report all changes in the economic and financial status of the grantee, including new income or cessation of income from employment, to the Department for the purpose of making appropriate adjustments in the individual's grant.

§ 67.8 *Payments in advance of expenditures.* Participants in this program who receive awards may be authorized to have payments made to them in advance of the actual expenditures.

§ 67.9 *Payees and mode of payment.* All payments for tuition, subsistence, incidental expenses, and emergency medical care shall be made payable to the individual grantee. Checks issued in the name of the grantee shall be transmitted to the appropriate official representative.

§ 67.10 *Individual authorization.* Where the regulations in this part provide for payments, no payment may be made therefor unless a grant is made in the individual case.

§ 67.11 *Emergency payments.* Any emergency, unusual, or additional payments deemed necessary under this program, if allowable under existing authority, may be authorized whether or not specifically provided for in this part.

NOTE: See Department of State, Public Notice 59, in Notices section, *infra*.

For the Secretary of State.

CARLISLE H. HUMELSINE,
Deputy Under Secretary.

SEPTEMBER 11, 1950.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter B—Property Improvement Loans

PART 201—CLASS 1 AND CLASS 2 PROPERTY IMPROVEMENT LOANS

REPORT OF LOANS AND MILITARY SERVICE CASES

1. Section 201.10 is hereby amended to read as follows:

§ 201.10 *Report of loans.* Loans shall be reported on the prescribed form to the Federal Housing Administration at Washington, D. C., within 31 days from the date of the note or date upon which it was purchased. Any loan refinanced as provided in § 201.9 shall likewise be reported on the prescribed form within 31 days from date of refinancing. In any case, the Commissioner may, in his discretion, accept a late report. During the period Regulation W, issued by the

Board of Governors of the Federal Reserve System, effective September 18, 1950, is in effect, the execution and submission of a loan report pursuant to this section shall be deemed a representation by the insured that it has complied with all requirements of said Regulation W applicable to the transaction reported for insurance.

2. Section 201.11 (c) is hereby amended by adding at the end thereof the following new subparagraph (3):

§ 201.11 *Claims.* • • •

(c) *Maximum claim period.* • • •

(3) Military Service cases. If at any time during default a person primarily or secondarily liable for the repayment of any loan is a "person in military service," as such term is defined in the Soldiers' and Sailors' Civil Relief Act of 1940, as amended, the period during which he is in military service shall be excluded in computing the time within which claim must be made for reimbursement under the provisions of this part.

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. and Sup., 1703)

Issued at Washington, D. C., September 12, 1950.

WALTER L. GREENE,
Acting Federal Housing Commissioner.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

PENNSYLVANIA

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12 and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92 are corrected in the following respect:

In the last paragraph of Item 6 of Amendment 277 to §§ 825.1–12 and Amendment 274 to §§ 825.81–92, relative to the decontrol of the Borough of Lemoyne in Cumberland County, Pennsylvania, the words "Pittsburgh, Pennsylvania, Defense-Rental Area" are corrected to read "Harrisburg, Pennsylvania, Defense-Rental Area."

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This correction shall be effective as of September 1, 1950.

Issued this 12th day of September 1950.

TIGHE E. WOODS,
Housing Expediter.

[Controlled Housing Rent Reg., Amdt. 282]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 279]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

ILLINOIS, NEW JERSEY, PENNSYLVANIA, OHIO, AND CONNECTICUT

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. Schedule C, Item 88, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In LaSalle County, the Cities of Oglesby and Streator.

This adds to Schedule C the City of Oglesby in LaSalle County, Illinois, a portion of the LaSalle County, Illinois, Defense-Rental Area, based on a declaration made on August 28, 1950, by the local governing body of said City in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

2. In Schedule C, Item 188a, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Camden County, the City of Camden and the Boroughs of Lindenwold and Oaklyn.

This adds to Schedule C the City of Camden in Camden County, New Jersey, a portion of the Southern New Jersey Defense-Rental Area, based on a declaration made on August 24, 1950, by the local governing body of said City in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

3. In Schedule C, Item 190, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Bergen County, the Cities of East Rutherford and North Arlington and the Boroughs of Fort Lee and Teterboro; in Hudson County, the Cities of Bayonne, Hoboken, Jersey City and Union City, the Town of West New York, and the Township of North Bergen; in Union County, the City of Linden and the Borough of Roselle; in Essex County, the City of Newark; in Morris County, the Township of Hanover; and in Monmouth County, the City of Long Branch.

This adds to Schedule C the Town of West New York in Hudson County, New Jersey, a portion of the Northeastern New Jersey Defense-Rental Area, based on a declaration made on August 28, 1950, by the local governing body of said Town in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

4. In Schedule C, Item 191, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Mercer County, the City of Trenton, the Townships of Ewing and Hamilton, and all unincorporated localities; in Hunterdon County, all unincorporated localities; and in Warren County, except the Townships of Pahaquarry, Hardwick and Frelinghausen, all unincorporated localities.

This adds to Schedule C Ewing Township in Mercer County, New Jersey, a portion of the Trenton, New Jersey, Defense-Rental Area, based on a declaration made on August 4, 1950, by the local governing body of said Township in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

5. In Schedule C, Item 267, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Allegheny County, the City of McKee's Rocks; and in Beaver County, the Boroughs of Aliquippa and Ambridge.

This adds to Schedule C the borough of Ambridge in Beaver County, Pennsylvania, a portion of the Pittsburgh, Pennsylvania, Defense-Rental Area, based on a declaration made by the local governing body of said borough on August 14, 1950, in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

6. In Schedule C, Item 48, the description of localities affected by declarations for continuance of rent controls after December 31, 1950, is amended to read as follows:

'In Hartford County, the city of New Britain.

This deletes from Item 48 of Schedule C the city of Ansonia in New Haven County, Connecticut, which is added to Item 49 of Schedule C by Item 7 of this amendment, said city of Ansonia being a portion of the New Haven, Connecticut, Defense-Rental Area.

7. The following net items are incorporated in Schedule C:

Name of defense-rental area	State	Localities affected by declarations for continuance of rent control after Dec. 31, 1950
(49) New Haven	Connecticut	In New Haven County, the city of Ansonia and the town of West Haven.
(241a) Washington Court House	Ohio	In Fayette County, the city of Washington Court House (coextensive with Washington township).

This addition to Schedule C is based upon (1) a declaration made on August 18, 1950, by the local governing body of the town of West Haven, Connecticut, and (2) a declaration made on August 23, 1950, by the local governing body of the city of Washington Court House, Ohio, both in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended. The city of Ansonia in New Haven County, Connecticut, was previously incorporated in Schedule C, effective as of August 14, 1950, and the listing thereof is hereby transferred from Item 48 of Schedule C to Item 49 thereof.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Supp. 1894)

This amendment shall be effective with respect to each locality covered thereby as of the date on which the declaration affecting that locality was made.

Issued this 12th day of September 1950.

TIGHE E. WOODS,
Housing Expediter.

[F. R. Doc. 50-8077; Filed, Sept. 14, 1950; 8:51 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 526—INDUSTRIES OF A SEASONAL NATURE

DRYING AND STORING, INCLUDING RECEIVING, OF ROUGH SOUTHERN RICE

Application was filed by the Texas Rice Driers Association, The American Rice Growers Cooperative Association of Louisiana, and the Arkansas Rice Growers Cooperative Association for amendment of the determination (5 F. R. 2758) that the movement to storage and the receiving into storage of rough southern rice is an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 (52 Stat. 1063; 29 U. S. C. 207 (b) (3) and Part 526 of the regulations issued thereunder (29 CFR Part 526) to include the artificial drying of rice prior to placing it in storage.

It appears from the application that:

(1) At the time the original determination was issued (August 1, 1940) rice was dried in shocks in the field and normally not threshed until the moisture content was low enough to permit safe storage. Since that time the binder and stationary thresher used in that process have been almost entirely supplanted by the direct-combine-drier method of harvesting. At the present time, combine rice is harvested with a relatively high moisture content and must be dried artificially before storage. The use of the combine has necessitated the addition of drying equipment in the movement of rough southern rice to storage.

(2) The industry in Texas, Arkansas, Louisiana and other southern States which engages in the movement to storage and the receiving into storage of rough southern rice, heretofore determined to be of a seasonal nature, now also engages in the drying of rough southern rice prior to storage.

(3) Rough southern rice is harvested in Louisiana, Texas, Arkansas and other southern States commencing about August 1 each year and continuing until about December 15. The bulk of the rice crop produced in these states moves to rice-driers and warehouses immediately after harvesting.

(4) As received from the farm, rice is a perishable commodity which must be dried to a moisture content of approximately 13.5 percent and such drying must be performed within a period of approximately 24 hours from the time the rice is cut.

(5) The industry engages in the handling, extracting, or processing of materials during a season occurring in a regularly annually recurring part of the year and ceases production apart from work such as maintenance, repair, clerical, and sales work in the remainder of the year because of the fact that the rice is not available.

On August 21, 1950, upon consideration on the facts stated in said application I determined, pursuant to § 526.5 (b) (2), that a prima facie case had been shown for finding that the industry engaged in drying or storing or drying and storing, including receiving, of rough southern rice in the States of Texas, Louisiana, Arkansas and other southern States constitutes an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and § 526.3 (a). This preliminary determination was published in the FEDERAL REGISTER on August 24, 1950, and interested persons were given 15 days from such date to file objections or a request for a hearing.

No objections or request for hearing have been received within the said 15 days.

Accordingly, pursuant to § 526.5 (b) (2), I hereby find that there is an industry engaged in the drying or storing or drying and storing, including receiving, of rough southern rice in the States of Texas, Arkansas, Louisiana and other southern States, that such industry is of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and § 526.3 (a).

The term "drying or storing or drying and storing, including receiving, of rough southern rice" includes the unloading, weighing, marking for identification, artificial drying, sacking, placing into storage and storing of rough rice in the States of Texas, Arkansas, Louisiana and other southern States, and any operations or services necessary or incident to the foregoing during the period or periods when rice is received for drying or storing or drying and storing.

In view of the fact that the industry in question is in the midst of its season at the present time, I find that it is necessary to make this determination effective immediately. Accordingly it shall become effective upon publication in the FEDERAL REGISTER.

(52 Stat. 1060; 29 U. S. C. 201 et seq.)

Signed at Washington, D. C., this 12th day of September 1950.

WM. R. MCCOMB,
Administrator.

TITLE 44—PUBLIC PROPERTY AND WORKS

Chapter IV—Department of Commerce

[Foreign Excess Property Order 1, as Amended Aug. 23, 1950]

PART 401—DISPOSAL OF FOREIGN EXCESS PROPERTY

IMPORTATION INTO THE UNITED STATES OF NONAGRICULTURAL FOREIGN EXCESS PROPERTY

EDITORIAL NOTE: Federal Register Document 50-7518, published at page 5847 of the issue for Wednesday, August 30, 1950, as Title 44, Chapter VI, Part 601, should be designated Chapter IV, Part 401, and §§ 601.1 to 601.10 should be designated §§ 401.1 to 401.10. The references to § 508.15 of Chapter V of this title, appearing in §§ 401.4 and 401.5, should be changed to § 308.15 of Chapter III of this title.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 865]

PART 95—CAR SERVICE

DEMURRAGE ON FREIGHT CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 11th day of September A. D. 1950.

It appearing, that freight cars are being delayed unduly in loading and unloading, or while held for orders, bill of lading, payment of freight charges, reconsignment, diversion, reshipment, inspection, or forwarding directions, causing a shortage of equipment and impeding and diminishing the use, control, supply, movement, distribution, exchange, interchange, and return of such cars; in the opinion of the Commission an emergency requiring immediate action to promote the National Defense and car service in the interest of the public and the commerce of the people, exists in all sections of the country: It is ordered, that:

§ 95.865 *Demurrage on freight cars*—(a) *Freight cars not subject to an average agreement.* When demurrage detention of cars occurs, for which charges are or may be lawfully provided by tariffs, the demurrage charges on freight cars not included in an average agreement, held by consignors or consignees for any purpose, shall be: $5.00 per car per day or fraction thereof for the first and second days; $10.00 per car per day or fraction thereof for the third and fourth days; $20.00 per car per day for each succeeding day or fraction thereof.

(b) *Freight cars subject to an average agreement.* When demurrage detention occurs to cars held for loading or unloading under average agreement rules for which charges are or may be lawfully provided by tariffs, the demurrage charges on freight cars shall be: $5.00 per car per day or fraction thereof for the first and second days; $10.00 per car per day or fraction thereof for the third and fourth days; $20.00 per car per day for each succeeding day or fraction thereof. Each $5.00 debit day charge shall be offset or reduced by accrued credits only at the ratio of two (2) credits for one (1) debit, an odd credit to be disregarded. Charges at rates in excess of $5.00 per car per day shall not be offset or reduced by accrued credits.

(c) *Application.* (1) The provisions of this section, subject to the following exceptions, shall apply to intrastate and interstate traffic as well as foreign traffic, including commerce with insular possessions and the territories of Alaska and Hawaii.

Exceptions. Export, coastwise, or intercoastal bulk freight (including coal, coke, and vessel fuel) during the period such bulk freight is held in cars at ports (including Great Lakes) for transfer to vessels is not subject to this order. Bulk freight means any carload freight consisting of any non-liquid, non-gaseous commodity shipped loose or in mass and which in the unloading thereof is ordinarily shoveled, scooped, forked, or mechanically conveyed, or which is not in containers or in units of such size as to permit piece by piece unloading.

(2) Description of cars subject to this section: This section shall apply to all freight cars subject to published demurrage rules and charges on file with the Interstate Commerce Commission or State Commissions.

(3) Allowance for bunching of cars subject to an average agreement: The provisions of section E, Rule 9 of Freight Tariff I. C. C. No. 4257, as amended, or reissues thereof, or similar rules in other tariffs, are hereby suspended insofar as they prohibit the cancellation or refunding of demurrage charges account bunching of cars for unloading. The provisions of Paragraph 2, section B, Rule 8, of Tariff I. C. C. No. 4257, or similar rules in other tariffs, shall be applicable to the extent that the allowances provided therein shall be made only on cars originating at the same point, moving via the same route, and consigned to one consignee at one point, which are tendered for delivery in accumulated numbers in excess of the daily rate of shipment, provided written claim is filed in accordance with the provisions of that rule or similar rules in other tariffs; however, allowance shall be made only on cars accruing charges at rates in excess of $5.00 per car per day.

(d) *Effective date.* This section shall become effective at 7:00 a. m., September 15, 1950, and the provisions of this section shall apply to all chargeable detention occurring on and after the effective date and hour hereof.

(e) *Expiration date.* This section shall expire at 7:00 a. m., April 1, 1951, unless otherwise modified, changed, suspended or annulled by order of the Commission.

(f) *Tariff provisions suspended.* (1) Except as provided in subparagraph (2) of this paragraph the operation of all rules, regulations or charges, insofar as they conflict with the provisions of this section, is hereby suspended.

(2) This section shall not change Demurrage Rule 8 of Tariff I. C. C. No. 4257 as amended or as reissued or similar rules in other tariffs relating to adjusting, canceling, or refunding demurrage charges arising from the unusual conditions or circumstances described in the said Rule 8 or similar rules in other tariffs except as provided herein.

(g) *Announcement of suspension.* Each railroad, or its agent, shall publish, file and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the conflicting provisions therein, and establishing the substituted provisions set forth herein.

It is further ordered, that a copy of this order and direction be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 50-8073; Filed, Sept. 14, 1950; 8:51 a. m.]

[S. O. 866]

PART 95—CAR SERVICE

RAILROAD OPERATING REGULATIONS FOR FREIGHT CAR MOVEMENT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 11th day of September A. D. 1950.

It appearing, that an acute shortage of freight cars exists in all sections of the country; that cars loaded and empty are unduly delayed in terminals and in placement at industries; that present rules, regulations, and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of freight cars are insufficient to promote the most efficient utilization of cars; in the opinion of the Commission an emergency requiring immediate action to promote the National Defense and car service in the interest of the public and the commerce of the people, exists in all sections of the country: it is ordered, that:

§ 95.866 *Railroad operating regulations for freight car movement.* (a) Each common carrier by railroad subject to the Interstate Commerce Act shall observe and enforce the following rules, regulations, and practices with respect to its car service:

(1) Place or constructively place all in-bound loaded cars within twenty-four hours after the first 7:00 a. m. following arrival at destination station or serving yard, Sundays and holidays excepted.

(2) Remove empty cars after release from load within twenty-four hours after the first 7:00 a. m. following release, Sundays and holidays excepted, unless such cars are ordered or appropriated within such twenty-four hour period by the shipper for reloading.

(3) Remove all outbound loaded freight cars within twenty-four hours after the first 7:00 a. m. following tender and acceptance by carrier of the shipping order or bill of lading covering the cars, and forward within twenty-four hours after the first 7:00 a. m. following receipt in terminal, Sundays and holidays excepted.

Exceptions.

Nonrevenue cars in company material service;
Railroad fuel;
Company material, the unloading of which must await preparation of track or bridge structures, requiring special work train service;
Cars released on lines where less than daily service is provided, and efficient transportation would not warrant operation of a train for a few cars only;
Cars released at outlying stations where switching is not performed on Saturdays due to the majority of industries not working, and efficient transportation would not warrant operation of a train for a few cars only;
Privately owned or leased cars held or stored on private tracks when the ownership of the car and the track is the same;
Cars held for export, coastwise (including Great Lakes) or intercoastal shipment;
Cars held for reconsignment;
Cars held for Customs inspection;
Cars held for order notify bill of lading;
Causes beyond the control of each railroad.

(4) Restriction on holding cars for prospective loading: With due regard for efficient railroad operating practices hold no more cars for prospective loading at any time for any industry which it serves than those needed to protect current outbound loading, and where one or more other railroads also serve an industry each railroad shall arrange to prevent the aggregate holding of empty cars in excess of the industry's current needs.

Exception. Cars assembled for peak or seasonal movements and special types of cars for specific types of loading.

(5) Repair tracks: Weather conditions permitting, repair any cars taken out of service for repairs, or carded for repairs, at the earliest time consistent with efficient railroad operating practices.

(6) Notification of arrival of cars: Send or give notice of arrival or constructive placement as required by Rule No. 4 or Rule No. 5 of the Demurrage Tariff I. C. C. 4257 to the consignee or party entitled to receive same, within twenty-four hours, Sundays and holidays excepted, after arrival of car and billing at destination.

(7) Special car orders: Observe, obey, and comply with Special Car Orders now outstanding issued by Arthur H. Gass, Chairman, Car Service Division, Association of American Railroads, and said Chairman is hereby appointed Agent of the Commission with directions and authority to issue such orders as may be necessary with respect to the location, relocation, and distribution of freight cars throughout the United States.

(8) Yard checks, supervision, and records: Make the necessary yard and track checks and maintain sufficient supervision and records to comply with the above provisions of this section.

(b) *Application.* The provisions of this section shall apply to intrastate, interstate and foreign commerce, including commerce with insular possessions and the territories of Alaska and Hawaii.

(c) *Regulations suspended; announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended and each railroad subject to this section, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter), announcing such suspension.

(d) *Effective date.* This section shall become effective at 7:00 a. m., September 15, 1950.

(e) *Expiration date.* This section shall expire at 7:00 a. m., April 1, 1951, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

It is further ordered, that a copy of this order and direction shall be served upon the railroad regulatory body of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads, subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 50-8074; Filed, Sept. 14, 1950; 8:51 a. m.]

[S. O. 867]

PART 95—CAR SERVICE

RESTRICTIONS ON TRAP AND FERRY CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 11th day of September A. D. 1950.

It appearing that there is a shortage of freight cars in every section of the country; that the use of such cars in so-called "trap" or "ferry" car service prevents or impedes the full utilization of such cars and contributes to the general car shortage; in the opinion of the Commission an emergency requiring immediate action to promote the National Defense and car service in the interest of the public and the commerce of the people, exists in all sections of the country: It is ordered, that:

§ 95.867 *Restrictions on trap and ferry cars.* (a) No common carrier by railroad subject to the Interstate Commerce Act shall provide, use or permit the use of a trap car or a ferry car between points in the same municipality or between contiguous municipalities or within a zone adjacent to or a part of any such municipality or municipalities, on its lines, except as follows:

(1) A car which is not suitable for interchange.

(2) Where there is no other common carrier or common carriers capable of transporting the shipment contained in the car.

(3) Where necessary to relieve congestion of carriers' freight house facilities because of inability to obtain transportation of the shipment or shipments by motor vehicle.

(4) Where motor vehicles are not available with which to move the shipment.

(5) Where the carriers' freight house or transfer facilities or consignor's or consignee's facilities are so located or constructed as to make it impracticable to transport the shipment by motor vehicles.

(6) A car containing perishable or explosives and dangerous articles.

(7) A pick-up or concentration car operated between points which from previous experience or actual present knowledge will arrive at destination with a net load of at least 10 tons.

(8) Shipments described in section 2 of Rule 27 of Consolidated Freight Classification.

(9) When authorized by special or general permit issued by the Director, Bureau of Service, Interstate Commerce Commission, Washington 25, D. C.

(b) *Definition.* For the purpose of this section a trap or ferry car is any railroad car utilized for intra-terminal or so-called crosstown switching irrespective of whether the freight is moving at LCL rates, at per car rates or carload rates based on carload minimum specified in tariffs.

(c) *Application.* The provisions of this section shall apply to intrastate as well as interstate and foreign traffic.

(d) *Regulations suspended; announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended and each railroad subject to this section, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter), announcing such suspension.

(e) *Effective date.* This section shall become effective at 11:59 p. m., September 20, 1950.

(f) *Expiration date.* This section shall expire at 11:59 p. m., March 31, 1951, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that a copy of this order and direction be served upon the State railroad regulatory bodies of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 50-8075; Filed, Sept. 14, 1950; 8:51 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 656]

HAIRNET INDUSTRY IN PUERTO RICO

MINIMUM WAGE RATE

On March 17, 1950, pursuant to section 5 (a) of the Fair Labor Standards Act of 1938, as amended, hereinafter called the act, I, as Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 395, appointed Special Industry Committee No. 7 for Puerto Rico, hereinafter called the Committee, and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the hairnet industry, and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the hairnet industry in Puerto Rico, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the hairnet industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the hairnet industry in Puerto Rico, the Committee filed with me a report containing its recommendation for a minimum wage rate of 40 cents an hour to be paid employees in the Industry who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on June 13, 1950, and circulated to all interested persons, a public hearing upon the Committee's recommendation was held before Hearing Examiner Clifford P. Grant, as presiding officer, in Washington, D. C. on July 12, 1950 at which all interested parties were given an opportunity to be heard. After the hearing was closed

the record of the hearing was certified to me by the presiding officer.

Upon reviewing all the evidence in this proceeding and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the Committee for a minimum wage rate in the hairnet industry in Puerto Rico, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator" in the matter of the recommendation of Special Industry Committee No. 7 for Puerto Rico of a minimum wage rate in the hairnet industry in Puerto Rico, a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding (15 F. R. 3701), that I propose to approve such recommendation of the Committee and to issue a wage order for the hairnet industry in Puerto Rico, to read as set forth below, to carry such recommendation into effect. Interested parties may submit written exceptions within 15 days from publication of this notice in the FEDERAL REGISTER. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Sec.
656.1 Approval of recommendation of industry committee.
656.2 Wage rate.
656.3 Notices of order.
656.4 Definition of the hairnet industry in Puerto Rico.

AUTHORITY: §§656.1 to 656.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 656.1 *Approval of recommendation of industry committee.* The Committee's recommendation is hereby approved.

§ 656.2 *Wage rate.* Wages at the rate of not less than 40 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the hairnet industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 656.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the hairnet industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 656.4 *Definition of the hairnet industry in Puerto Rico.* The hairnet industry in Puerto Rico, to which this part shall apply, is hereby defined as follows: The manufacturing and packaging of hairnets made from any material.

This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

Signed at Washington, D. C., this 11th day of September 1950.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[29 CFR, Part 662]

CEMENT INDUSTRY IN PUERTO RICO

MINIMUM WAGE RATE

On March 17, 1950, pursuant to section 5 (a) of the Fair Labor Standards Act of 1938, as amended, hereinafter called the act, I, as Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 395, appointed Special Industry Committee No. 7 for Puerto Rico, hereinafter called the Committee, and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the cement industry, and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the cement industry in Puerto Rico, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the cement industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the cement industry in Puerto Rico, the Committee filed with me a report containing its recommendation for a minimum wage rate of 65 cents per hour to be paid employees in the industry who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on June 13, 1950, and circulated to all interested persons, a public hearing upon the Committee's recommendation was held before Hearing Examiner Clifford P. Grant, as presiding officer, in Washington, D. C., on July 13, 1950, at which all interested parties were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to me by the presiding officer.

Upon reviewing all the evidence adduced in this proceeding and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the Committee for a minimum wage rate in the cement industry in Puerto Rico, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator" in the matter of the recommendation of Special Industry Committee No. 7 for Puerto Rico of a minimum wage rate in the cement industry in Puerto Rico, a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding (15 F. R. 3701), that I propose to approve such recommendation of the Committee and to issue a wage order for the cement industry in Puerto Rico to read as set forth below to carry such recommendation into effect. Interested parties may submit written exceptions within 15 days from publication of this notice in the FEDERAL REGISTER. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Sec.
662.1 Approval of recommendation of industry committee.
662.2 Wage rate.
662.3 Notices of order.
662.4 Definition of the cement industry in Puerto Rico.

AUTHORITY: §§ 662.1 to 662.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 662.1 *Approval of recommendation of industry committee.* The Committee's recommendation is hereby approved.

§ 662.2 *Wage rate.* Wages at the rate of not less than 65 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the cement industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 662.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the cement industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 662.4 *Definition of the cement industry in Puerto Rico.* The cement industry in Puerto Rico, to which this part shall apply, is hereby defined as follows: The manufacture of hydraulic cement including the extraction of raw materials therefor.

This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

Signed at Washington, D. C., this 11th day of September 1950.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

HOSIERY INDUSTRY IN PUERTO RICO

MINIMUM WAGE RATE

On March 17, 1950, pursuant to section 5 (a) of the Fair Labor Standards Act of 1938, as amended, hereinafter called the "act," I, as Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 395, appointed Special Industry Committee No. 7 for Puerto Rico, hereinafter called the "Committee," and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the hosiery industry, and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the hosiery industry in Puerto Rico, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the hosiery industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the hosiery industry in Puerto Rico, the Committee filed with me a report containing its recommendation for a minimum wage rate of 40 cents per hour to be paid employees in the industry who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on June 13, 1950, and circulated to all interested persons, a public hearing upon the Committee's recommendation was held before Hearing Examiner Clifford P. Grant, as presiding officer, in Washington, D. C., on July 12, 1950, at which all interested parties were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to me by the presiding officer.

Upon reviewing all the evidence adduced in this proceeding and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the Committee for a minimum wage rate in the hosiery industry in Puerto Rico, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator" in the matter of the recommendation of Special Industry Committee No. 7 for Puerto Rico of a minimum wage rate in the hosiery industry in Puerto Rico, a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding (15 F. R. 3701), that I propose to approve such recommendation of the Committee and to issue a wage order for the hosiery industry in Puerto Rico to read as set forth below to carry such recommendation into effect. Interested parties may submit written exceptions within 15 days from publication of this notice in the FEDERAL REGISTER. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Sec.
687.1 Approval of recommendation of industry committee.
687.2 Wage rate.
687.3 Notices of order.
687.4 Definition of the hosiery industry in Puerto Rico.

AUTHORITY: §§ 687.1 to 687.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 687.1 *Approval of recommendation of industry committee.* The Committee's recommendation is hereby approved.

§ 687.2 *Wage rate.* Wages at the rate of not less than 40 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the hosiery industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 687.3 *Notices of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the hosiery industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 687.4 *Definition of the hosiery industry in Puerto Rico.* The hosiery industry in Puerto Rico, to which this part shall apply, is hereby defined as follows: The manufacturing or processing of full-fashioned and seamless hosiery including among other processes the knitting, dyeing, clocking, and all phases of finishing hosiery, but not including the manufacturing or processing of yarn or thread.

This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

Signed at Washington, D. C., this 11th day of September, 1950.

ARTIFICIAL FLOWER INDUSTRY IN PUERTO RICO

MINIMUM WAGE RATE

On March 17, 1950, pursuant to section 5 (a) of the Fair Labor Standards Act of 1938, as amended, hereinafter called the "act", I, as Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 395, appointed Special Industry Committee No. 7 for Puerto Rico, hereinafter called the "Committee", and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the artificial flower industry, and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the artificial flower industry in Puerto Rico, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the artificial flower industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the artificial flower industry in Puerto Rico, the Committee filed with me a report containing its recommendation for a minimum wage rate of 43 cents an hour to be paid employees in the Industry who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on June 13, 1950, and circulated to all interested persons, a

public hearing upon the Committee's recommendation was held before Hearing Examiner Clifford P. Grant, as presiding officer, in Washington, D. C. on July 11, 1950 at which all interested parties were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to me by the presiding officer.

Upon reviewing all the evidence in this proceeding and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the Committee for a minimum wage rate in the artificial flower industry in Puerto Rico, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled "Findings and Opinion of the Administrator" in the matter of the recommendation of Special Industry Committee No. 7 for Puerto Rico of a minimum wage rate in the artificial flower industry in Puerto Rico, a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding (15 F. R. 3701), that I propose to approve such recommendation of the Committee and to issue a wage order for the artificial flower industry in Puerto Rico, to read as set forth below, to carry such recommendation into effect. Interested parties may submit written exceptions within 15 days from publication of this notice in the FEDERAL REGISTER. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Sec.
688.1 Approval of recommendation of industry committee.
688.2 Wage rate.
688.3 Notices of order.
688.4 Definition of the artificial flower industry in Puerto Rico.

AUTHORITY: §§ 688.1 to 688.4 issued under sec. 8, 63 Stat. 915; 29 U. S. C. 208. Interpret or apply sec. 5, 63 Stat. 911; 29 U. S. C. 205.

§ 688.1 *Approval of recommendation of industry committee.* The Committee's recommendation is hereby approved.

§ 688.2 *Wage rate.* Wages at the rate of not less than 43 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the artificial flower industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 688.3 *Notice of order.* Every employer employing any employees so engaged in commerce or in the production of goods for commerce in the artificial flower industry in Puerto Rico shall post and keep posted in a conspicuous place in each department of his establishment where such employees are working such notices of this order as shall be prescribed, from time to time, by the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Division may prescribe.

§ 688.4 *Definition of the artificial flower industry in Puerto Rico.* The artificial flower industry in Puerto Rico, to which this part shall apply, is hereby defined as follows: The manufacturing and assembling of artificial flowers, buds, berries, foliage, leaves, fruits, plants, stems, and branches.

This definition does not include such products as are not commonly or commercially known as "artificial" such as flowers made by blowing glass, molding plastic, or carving wood.

This definition supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

Signed at Washington, D. C., this 11th day of September 1950.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 230]

SECURITIES EXEMPTED

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to amend Regulation A under section 3 (b) of the Securities Act of 1933 to provide that, where securities are offered by means of short-term rights or warrants, the initial market value of the offered securities shall be deemed to be the offering price for purposes of the regulation.

Section 230.220 (Rule 220) under Regulation A provides a limited exemption from registration for certain primary offerings not exceeding $300,000 (paragraph (a)) and secondary offerings not exceeding $100,000 (paragraph (b)), subject to an overall limitation of $300,000 in any period of 12 months (paragraph (d)). In the case of "market" offerings the regulation provides that the aggregate gross proceeds actually received from the public shall not exceed these specified amounts (paragraph (g)).

In order to eliminate certain interpretative problems concerning the application of these provisions to offerings through rights or warrants, the Commission is considering the addition of the following new paragraph (i) to Rule 220:

(i) Where securities are offered through rights or warrants which expire within 90 days after issuance, the offering price of such securities shall be deemed to be their market value as established by bona fide transactions or quotations within a reasonable time of the commencement of the offering, and no separate consideration shall be given to any sales of the rights or warrants.

The proposed new provision would not apply to offerings through rights or warrants with a life of more than 90 days. It is felt that long-term rights or warrants generally do not provide a suitable mechanism for an offering under Regulation A, in view of the greater possibility that market fluctuations will carry the offering beyond the price limits of the regulation and section 3 (b).

The suggested paragraph provides that market value shall be established by "bona fide transactions or quotations within a reasonable time of the commencement of the offering." Generally this provision is intended to permit market value to be determined at the time of the filing of the letter of notification so that it may be stated in that document. However, if there is no market at that time, the proposed language is intended to permit the computation to be based on transactions or quotations occurring thereafter, perhaps shortly after the rights are issued. Of course purchases from the issuer pursuant to the exercise of rights or warrants would not ordinarily determine market value except in the sense of demonstrating that the market value was not less than the exercise price.

As a corollary to the proposed amendment to Rule 220, paragraph (a) (2) of Rule 222 would be amended to provide that, in offerings of this type, the letter of notification filed with the Commission should state the market value of the securities and the exercise price of the rights or warrants.

All interested persons are invited to submit their views and comments on the proposed amendment in writing to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before October 8, 1950.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[Public Notice 58]

APPROVAL OF ORGANIZATIONS TO RENDER SERVICES TO DISPLACED PERSONS

Pursuant to the requirements of section 3 (a) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1002), notice is hereby given that the Advisory Committee on Voluntary Foreign Aid of the Department of State has approved the following organizations for the purpose of extending emigration and resettlement services to certain persons who qualify for admission to the United States under the provisions of the Displaced Persons Act of 1948, as amended:

1. American Committee for Resettlement of Polish Displaced Persons, 1520 West Division Street, Chicago 22, Illinois. This organization is approved for the purpose of extending emigration and resettlement services to former members of the armed forces of the Republic of Poland who qualify for admission to the United States under the provisions of section 3 (b) (3) of the Displaced Persons Act of 1948, as amended.

2. American Fund for Czechoslovak Refugees, Inc., 1775 Broadway, Room 607, New York 19, New York. This organization is approved for the purpose of extending emigration and resettlement services to displaced persons and refugees in or from China who qualify for admission to the United States under the provisions of section 3 (b) (2) of the Displaced Persons Act of 1948, as amended, and to out-of-zone refugees who qualify for admission to the United States under the provisions of section 3 (c) of the said act.

3. International Rescue Committee, Inc., 62 West Forty-fifth Street, New York 19, New York. This organization is approved for the purpose of extending emigration and resettlement services to former members of the armed forces of the Republic of Poland who qualify for admission to the United States under the provisions of section 3 (b) (3) of the Displaced Persons Act of 1948, as amended, and to out-of-zone refugees who qualify for admission to the United States under the provisions of section 3 (c) of the said act.

4. Resettlement Service—National Lutheran Council, 13–15 East Twenty-second Street, New York 10, New York. This organization is approved for the purpose of extending emigration and resettlement services to displaced persons and refugees in or from China who qualify for admission to the United States under the provisions of section 3 (b) (2) of the Displaced Persons Act of 1948, as amended.

The foregoing notice is intended to cover only those provisions of the aforesaid act for which the Department of State is administratively responsible and hence has no application to the services which approved organizations may render in connection with other provisions of the Displaced Persons Act of 1948, as amended.

For the Secretary of State.

H. J. L'HEUREUX,
Chief, Visa Division.

DEPARTMENT OF LABOR

Wage and Hour and Public Contracts Divisions

EMPLOYMENT OF HANDICAPPED CLIENTS BY SHELTERED WORKSHOPS

NOTICE OF ISSUANCE OF SPECIAL CERTIFICATES

Notice is hereby given that special certificates authorizing the employment of handicapped clients at hourly wage rates lower than the minimum wage rates applicable under section 6 of the Fair Labor Standards Act of 1938, as amended, and section 1 (b) of the Walsh-Healey Public Contracts Act, as amended, have been issued to the sheltered workshops hereinafter mentioned, under section 14 of the Fair Labor Standards Act of 1938, as amended (sec. 14, 52 Stat. 1068; 29 U. S. C. 214; as amended 63 Stat. 910) and Part 525 of the regulations issued thereunder, as amended (29 CFR, Part 525), and under sections 4 and 6 of the Walsh-Healey Public Contracts Act (secs. 4, 6, 49 Stat. 2038; 41 U. S. C. 38, 40) and Article 1102 of the Regulations issued pursuant thereto (41 CFR 201.1102).

The names and addresses of the sheltered workshops to which certificates were issued, wage rates, and the effective and expiration dates of the certificates are as follows:

Michigan Veterans' Facility, 3000 Monroe Avenue, Grand Rapids 5, Mich.; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 19 cents per hour, whichever is higher; certificate is effective September 1, 1950 and expires July 31, 1951.

Wisconsin Workshop for the Blind, 2385 North Lake Drive, Milwaukee 11, Wisconsin; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 30 cents per hour, whichever is higher, and a rate of not less than 25 cents for each new client during his initial 4-week evaluation period in the workshop; certificate is effective September 30, 1950, and expires September 29, 1951.

Volunteers of America of Los Angeles, 333 S. Los Angeles St., Los Angeles 13, Calif.; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than 55 cents per hour, whichever is higher; certificate is effective August 28, 1950 and expires August 27, 1951.

The employment of handicapped clients in the above-mentioned sheltered workshops under these certificates is limited to the terms and conditions

therein contained and is subject to the provisions of Part 525 of the regulations, as amended. These certificates have been issued on the applicants' representations that they are sheltered workshops as defined in the regulations and that special services are provided their handicapped clients. A sheltered workshop is defined as, "A charitable organization or institution conducted not for profit, but for the purpose of carrying out a recognized program of rehabilitation for individuals whose earning capacity is impaired by age or physical or mental deficiency or injury, and to provide such individuals with remunerative employment or other occupational rehabilitating activity of an educational or therapeutic nature."

These certificates may be cancelled in the manner provided by the regulations, as amended. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 7th day of September, 1950.

JACOB I. BELLOW,
Assistant Chief of Field Operations.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25404]

COTTON PIECE GOODS FROM OFFICIAL TERRITORY TO THE SOUTH

APPLICATION FOR RELIEF

SEPTEMBER 12, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for and on behalf of carriers parties to Agent Boin's tariff I. C. C. No. A-726.

Commodities involved: Cotton piece goods and flat goods, carloads.

From: Points in Trunk Line and New England territories.

To: Points in Virginia, North Carolina, Kentucky and Tennessee.

Grounds for relief: Circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: C. W. Boin's tariff I. C. C. No. A-726, Supplement 207.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 25405]

VERMICULITE IN THE SOUTH

APPLICATION FOR RELIEF

SEPTEMBER 12, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 998.

Commodities involved: Vermiculite, carloads.

Between: Points in southern territory and between points in southern territory on the one hand and points in Virginia in Trunk Line territory on the other.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 998, Supplement 141.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 25406]

SCRAP IRON FROM THE SOUTH TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 12, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent C. A. Spaninger's tariff I. C. C. No. 950.

Commodities involved: Scrap iron, carloads.

From: Points in the south.

To: Ashland, Ky., Huntington and Charleston, W. Va., Ironton, New Boston, Portsmouth and Sciotoville, Ohio.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger's tariff I. C. C. No. 950, Supplement 120.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 25407]

NEPHELINE SYENITE BETWEEN OFFICIAL AND SOUTHERN TERRITORIES

APPLICATION FOR RELIEF

SEPTEMBER 12, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for and on behalf of carriers parties to the tariff named below.

Commodities involved: Nepheline syenite, carloads.

Between: Points in Trunk Line and New England territories, on the one hand, and points in North Carolina, Virginia, Kentucky and Tennessee, on the other.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: C. W. Boin's tariff I. C. C. No. A-726, Supplement 207.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such applicaton without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[Docket No. G-1470]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

SEPTEMBER 11, 1950.

Take notice that on August 28, 1950, Texas Gas Transmission Corporation (Applicant), a Delaware corporation with its principal office at Owensboro, Kentucky, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of three sales metering stations at three points on its transmission line for the delivery of natural gas to Mississippi Power & Light Company (Buyer) for resale by the purchaser, to the following municipal distribution corporations located in Mississippi:

Delta Natural Gas District.
Bolivar Natural Gas District.
De Soto Natural Gas District.

Applicant proposes by means of the facilities described above to transport and sell natural gas to the Mississippi Power & Light Company for resale and distribution to the inhabitants of Inverness, Isola and Belzoni through facilities to be constructed by the Delta Natural Gas District and leased to the buyer. Applicant likewise proposes to transport and sell to the Mississippi Power & Light Company natural gas for resale and distribution to the inhabitants of Pace and Rosedale, through the facilities constructed and owned by Bolivar Natural Gas District, which are leased from that municipal corporation. The people of the towns of Horn Lake, Nesbitt, Hernando and Coldwater are to be furnished natural gas through the facilities constructed and owned by the De Soto Natural Gas District and leased by the Mississippi Power & Light Company.

Applicant states that the volume of natural gas to be sold and delivered to the Mississippi Power & Light Company as has been estimated is approximately 2,103 Mcf during the first year and 2,946 Mcf during the fifth year of operations, and that it has an adequate reserve to supply the requirements.

The total over-all cost of the facilities proposed is $17,891.98 which will be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 29th day of September 1950. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 59-15]

NORTHERN NEW ENGLAND CO. AND NEW ENGLAND PUBLIC SERVICE CO.

ORDER APPROVING PLAN AS AMENDED

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of September A. D. 1950.

New England Public Service Company ("NEPSCO"), a registered holding company and a subsidiary of Northern New England Company, also a registered holding company, having filed on July 19, 1950, and August 18, 1950, further amendments to NEPSCO's plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the act"), which was approved by this Commission and ordered enforced by the United States District Court for the District of Maine on August 6, 1947; and

NEPSCO having requested the Commission to approve the plan as so amended and to apply to the United States District Court for the District of Maine for an appropriate order approving and enforcing the plan as so amended; and

A public hearing having been held after appropriate notice at which all interested persons were given an opportunity to be heard, and all such persons having been given an opportunity to file briefs; and

The Commission having considered the record and on the basis thereof having this day entered is findings and opinion herein;

It is ordered, Pursuant to section 11 (e) and other applicable provisions of the act and the rules and regulations promulgated thereunder, that:

(1) The plan as amended be and it hereby is approved.

(2) Jurisdiction be and it hereby is reserved to determine the reasonableness and appropriate allocation of all fees and expenses incurred or to be incurred in connection with the plan, as amended, and the transactions incident thereto.

(3) Jurisdiction be and it hereby is reserved to entertain such further proceedings, to make such supplemental findings and orders, and to take such further action as the Commission may deem appropriate in connection with the plan, as amended, the transactions incident thereto and the consummation thereof, and to take such further action as the Commission may deem necessary or appropriate to effectuate the provisions of section 11 (b) of the Act.

(4) This order shall be effective immediately upon its issuance, but, except for the transactions approved by our order dated September 8, 1950, in File No. 70-2438, which are to be consummated forthwith pursuant to said order and to the order of the United States District Court for the District of Maine dated August 6, 1947, shall not be operative to authorize the consummation of any of the transactions proposed in the amendments filed July 19, 1950, and August 18, 1950, until the United States District Court for the District of Maine shall, upon application thereto, enter an order enforcing said amendments.

By the Commission.

[File No. 70-2433]

CENTRAL AND SOUTH WEST CORP. AND WEST TEXAS UTILITIES CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of September A. D. 1950.

Central and South West Corporation, a registered holding company, and its public utility subsidiary company, West Texas Utilities Company ("West Texas"), having filed a joint application, and amendments thereto, pursuant to sections 9 (a) and 10 of the Public Utility Holding Company Act of 1935 ("act"),

with respect to the following proposed transactions:

West Texas, in connection with the sale to non-affiliated interests of a substantial part of its ice property for an aggregate consideration of $520,000, proposes to acquire certain securities, described as vendor's lien notes and purchase money notes, evidencing an aggregate of $421,000 of deferred payments of the sale price. The balance of $99,000 of the sale price is to be paid in cash. The $421,000 principal amount of notes being acquired is payable in installments during the years 1950 through 1954, together with interest at the rate of 5 percent per annum.

It is stated that the proceeds to be received from the proposed sale of ice properties are to be invested in permanent additions to or extensions of West Texas' electric utility properties.

It is further stated that no fees, commissions or other remuneration will be paid by West Texas in connection with the acquisition of the notes except service company fees and expenses estimated at not to exceed $50.

Said application having been filed on July 10, 1950, and the last amendment thereto having been filed on September 6, 1950, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and that no adverse findings are necessary and deeming it appropriate in the public interest and in the interest of investors and consumers that said application, as amended, be granted, and also deeming it appropriate to grant applicants' request that the order herein become effective forthwith upon its issuance:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that said application, as amended, be and the same hereby is granted, and that this order shall become effective upon its issuance.

By the Commission.

[File No. 70-2438]

NEW ENGLAND PUBLIC SERVICE CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of September A. D. 1950.

New England Public Service Company ("NEPSCO"), a registered holding company and a subsidiary of Northern New England Company, also a registered holding company, having filed a declaration and amendments thereto pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 ("the act") with respect to the sale by NEPSCO, pursuant to the competitive bidding requirements of Rule U-50, of 260,000 shares of the common stock of Central Maine Power Company, a public-utility company and a subsidiary of NEPSCO; and

NEPSCO having requested acceleration with respect to the bidding period specified in paragraph (b) of Rule U-50 so as to shorten the period to not less than six days; and

NEPSCO having also requested that our order herein contain appropriate recitals conforming to the pertinent requirements of Supplement R and section 1808 (f) of the Internal Revenue Code, as amended; and

A public hearing having been held after appropriate notice in which all interested persons were given opportunity to be heard and all such persons having been given an opportunity to file briefs; and

The Commission having considered the record and on the basis thereof having this day entered its findings and opinion herein:

It is ordered, Pursuant to section 12 (d) of the act and Rule U-44 thereunder, that said declaration, as amended, be and it hereby is permitted to become effective forthwith, subject however to the provisions of Rule U-24 and to the following terms and conditions:

(1) That the proposed sale of common stock shall not be consummated until the results of competitive bidding shall have been made a matter of record in this proceeding and a further order shall have been entered on the basis of the record so supplemented, which order shall contain such terms and conditions, if any, as may then be deemed appropriate, jurisdiction being reserved for this purpose; and

(2) That jurisdiction be, and it hereby is, reserved with respect to the payment of all fees and expenses incurred or to be incurred in connection with legal and accounting services applicable to the proposed transactions; and

It is further ordered, That the bidding period specified in paragraph (b) of Rule U-50 be shortened to a period of not less than six days.

It is further ordered, That jurisdiction be and it hereby is reserved to enter in our further order with respect to the price at which the Central Maine common stock is proposed to be sold the appropriate recitals conforming to the requirements of Supplement R and section 1808 (f) of the Internal Revenue Code, as amended.

By the Commission.

[File No. 70-2460]

MISSISSIPPI GAS CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 8th day of September A. D. 1950

Mississippi Gas Company ("Mississippi"), a public utility subsidiary of Southern Natural Gas Company, a registered holding company, having filed a declaration with the Commission pursuant to the provisions of section 7 of the Public Utility Holding Company Act of 1935 ("act") regarding the following transaction:

Mississippi proposes to issue and sell at par its unsecured note due one year after date in the principal amount of $200,000 bearing interest at the rate of 2 percent per annum, to The Chase National Bank of the City of New York. The proceeds from the sale of said note will be used to pay for the construction of additions to Mississippi's properties and to reimburse its treasury for working capital previously used for the construction of such additions. Total expenses, including legal fees, are estimated at approximately $500.

Said declaration having been filed on August 21, 1950; notice of such filing having been duly given in the manner prescribed by Rule U-23 under said act; and the Commission not having received a request for hearing with respect to said declaration within the period prescribed in said notice, or otherwise, and not having ordered a hearing thereon; and

The declarant having requested that the Commission's order with respect to said declaration issue at the earliest date possible and become effective upon issuance; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and the rules and regulations thereunder are satisfied; and that no adverse findings are necessary thereunder, and that the estimated expenses in connection with the proposed transaction are not unreasonable, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935 that said declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JOACHIM ROBRAHN

In re: Estate of Joachim Robrahn, deceased. File D-28-12843.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Luise Elise Marie Sandberg nee Robrahn and Maria Elise Henny Robrahn, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the sum of $12,039.79, paid to the State Controller of the State of California pursuant to an order of the Superior Court of the State of California in and for the County of San Joaquin, dated November 1, 1945, in the Matter of the Estate of Joachim Robrahn and any and all additions thereto, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[Vesting Order 15046]

KINGORO KAWASHIMA

In re: Rights of Kingoro Kawashima under insurance contract. File No. F-39-1851-H-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Kingoro Kawashima, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 7 936 595, issued by the New York Life Insurance Company, New York, New York, to Kingoro Kawashima, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

FEDERAL REGISTER

VOLUME 15 NUMBER 180

Washington, Saturday, September 16, 1950

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 4—GENERAL PROVISIONS

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

PART 34—APPOINTMENT, COMPENSATION, AND REMOVAL OF HEARING EXAMINERS

MISCELLANEOUS AMENDMENTS

1. Effective upon publication in the FEDERAL REGISTER, paragraph (a) of § 4.106 is amended and a new paragraph (d) is added; § 4.107 is amended and new §§ 4.108 and 4.109 are added. As amended, §§ 4.106 to 4.109 read as follows:

§ 4.106 *Penalties.* (a) Violations of § 4.1 are by law violations also of section 9 (a) of the Hatch Act, and the penalty required by that act must of necessity be imposed. The employee must be immediately removed from the position or office held and may not again be employed in such position or office unless the Commission by unanimous vote finds that the violation does not warrant removal. In the case of such unanimous finding a suspension of not less than 90 calendar days shall be applied by direction of the Commission. If the appointing officer fails to carry out the instructions of the Commission within ten days after receipt thereof, the Commission shall certify the facts to the head of the agency concerned for proceedings for withholding salary in accordance with § 5.5.

(b) When the Commission directs the removal of an employee for a violation of § 4.1, and the Hatch Act, the penalty laid down in paragraph (a) of this section shall be applied, even where the agency reports that the individual has been removed, on grounds other than a violation of § 4.1 of Rule IV and the Hatch Act. Such individual may not again be employed in the position from which he was removed. The provisions of § 4.107 regarding reemployment in positions other than the one from which removal was effected shall also apply.

(c) The above procedure shall apply also where an employee has resigned from his position or office prior to the Commission's determination that he had violated § 4.1, and the Hatch Act.

(d) In cases where an agency upon investigation finds that an employee occupying an excepted position has violated the provisions of section 9 (a) of the Hatch Act the agency may refer the matter to the Commission with a detailed statement of the facts and evidence for a determination whether the violation is such as to warrant a penalty of less than removal. If the agency effectuates the removal without first consulting the Commission the employee so removed may request the Commission to review his case, and if the Commission finds by unanimous vote that the violation did not warrant removal the individual's record shall be immediately cleared so as to make him eligible for further Federal employment. However, there is no provision of law under which the agency is required to reemploy the excepted employee.

(Applies sec. 9 (b), 53 Stat. 1148, as amended by Pub. Law 732, 81st Cong.; 5 U. S. C. Sup. II, 118 (1))

§ 4.107 *Reemployment.* (a) An employee removed for violation of § 4.1 may not be employed again, in accordance with a decision by the Comptroller General on the law (25 Comp. Gen. 271), in any position the salary or compensation of which is payable under the same appropriation as the position from which removed: *Provided*, That in all cases involving a finding that a Federal employee has engaged in prohibited political activity resulting in removal the Commission may consider the matter from a suitability standpoint and may establish a definite period of debarment applicable to the employee for all Federal positions within the Commission's jurisdiction.

(Applies sec. 9 (b), 53 Stat. 1148, as amended by Pub. Law 732, 81st Cong.; 5 U. S. C. Sup. II, 118 (1))

§ 4.108 *Suspension.* Where an employee is suspended for a period of time (not less than 90 days) at the direction of the Commission such employee is not eligible for Federal employment in other positions or agencies during the entire period of his suspension.

(Applies sec. 9 (b), 53 Stat. 1148, as amended by Pub. Law 732, 81st Cong.; 5 U. S. C. Sup. II, 118 (1))

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

§ 4.109 *Reopening cases.* (a) Employeees removed between August 2, 1939, and August 25, 1950, for established political activity violations may request that the Commission reopen their cases to determine whether the violations warranted removal from the service. The request must be made in writing by the individual concerned and may be accompanied by evidence or affidavits to support the plea that the violation did not warrant removal.

(b) In reopened cases where the original removal was based upon a Commission finding that the individual had engaged in prohibited political activity no further investigation will be made and no hearing will be held, and the Commission's decision will be based upon the existing record plus any evidence or affidavits submitted by the individual in support of his request.

(c) In reopened cases where the original removal was based upon a finding of the employing agency that the individual had engaged in prohibited political activity the Commission will secure from the employing agency any files or copies of files relating to the case and will conduct such further inquiry as the circumstances may require. The final decision of the Commission will be based on this record plus any evidence or affidavits submitted by the individual in support of his request.

(d) If in either of the cases described in paragraph (b) or (c) of this section the Commission finds by unanimous vote that the heretofore established violation was not such as to warrant the individual's removal from the service the Commission shall issue an order revoking any restrictions against the individual's future Federal employment. However, no such revocation shall become effective until at least 90 days have elapsed following the date of removal of the individual.

(e) A Commission revocation order issued in accordance with paragraph (d) of this section will merely clear the individual's record for further Federal employment and will not in itself effectuate such reemployment or require that the individual be reemployed in the position from which removed or any other position in the same agency.

(Applies sec. 9 (b), 53 Stat. 1148, as amended by Pub. Law 732, 81st Cong.; 5 U. S. C. Sup. II, 118 (i))

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp.)

2. Effective upon publication in the FEDERAL REGISTER, a new paragraph (t) is added to § 6.101 as follows:

§ 6.101 *Entire executive civil service.* * * *

(t) Subject to prior approval by the Commission, positions in Federal mental institutions when filled by persons who have been patients of such institutions and been discharged, and are certified by the medical head thereof as recovered sufficiently to be regularly employed but it is believed desirable and in the interest of the persons and the institution that they be employed at the institution.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp. E. O. 9973, June 28, 1948, 13 F. R. 3600; 3 CFR, 1948 Supp.)

3. Effective upon publication in the FEDERAL REGISTER subparagraph (1) of § 34.5 (b) is amended and a new subparagraph (4) is added. As amended, § 34.5 (b) reads as follows:

§ 34.5 *Promotion, reassignment, and transfer.* * * *

(b) *From a position other than a hearing examiner position.* (1) Except as provided in subparagraphs (3) and (4) of this paragraph, when an agency desires to fill a vacancy in a hearing examiner position by the promotion, reassignment, or transfer of an employee who has a competitive status and is serving in a position other than a hearing examiner position, it shall submit the name of the person to the Commission, together with an application form executed by him. The Commission will rate the qualifications of the applicant in accordance with the experience and training requirements of the open competitive examination (except the maximum age requirement), including an investigation of character and suitability and an oral interview. The name of the person proposed will be entered on the open competitive register in accordance with the rating received. If his name is then within reach for certification, the Commission will approve the promotion, reassignment, or transfer; otherwise it will disapprove the request.

(2) An employee without competitive status, serving in a position other than a hearing examiner position, may be appointed to a hearing examiner position only after competition in the open competitive examination and upon certification by the Commission from the open competitive register.

(3) Positions which have been allocated as hearing examiner positions subsequent to June 11, 1947, on the basis of legislation, Executive order, or decision of a court, may be filled by the promotion or reassignment in accordance with Part 8 of this chapter, of qualified employees with competitive status who were serving in the agency concerned on the date of the action on which the allocation of the position was based: *Provided,* That recommendation for such promotion or reassignment is received by the Commission not later than six months following said date. Prior approval of the Commission must be secured before a promotion or reassignment is effected.

(4) An employee with competitive status may acquire an absolute appointment as a hearing examiner provided he meets the other requirements set for acquisition of competitive status by nonstatus incumbents of hearing examiner positions under Executive Order 10157 of August 28, 1950.

518.267 Amendment.

AUTHORITY: §§ 518.255 to 518.267 issued under sec. 32, 49 Stat. 774, as amended; 7 U. S. C. and Sup., 612c.

§ 518.255 *General statement.* (a) The United States Department of Agriculture (hereinafter referred to as USDA) hereby offers to make payments to U. S. exporters in connection with the exportation of concentrated orange juice to ECA countries for use in experimental feeding programs subject to the terms and conditions hereinafter set forth.

(b) The purpose of this offer is to make available, to not more than six ECA countries which desire it, a small quantity of concentrated orange juice for experimental feeding of children and expectant mothers to correct a common dietary deficiency of vitamin C.

(c) The United Kingdom and Norway are excluded because they have already developed such programs.

§ 518.256 *Provisions of program.* (a) The representative or agency of any ECA country which desires to participate in this program should forward a written request to USDA giving the following information:

1. The quantity of concentrated orange juice desired, not to exceed 1,800 gallons (this quantity is sufficient to supply 1,000 persons a 5-ounce daily serving of reconstituted orange juice for a period of one year);

2. The approximate number of persons to be served; and

3. A brief description of the proposed plan of operation and the approximate duration of the program.

Such representative or agency shall also agree (1) to use the concentrated orange juice only for experimental feeding programs for children and expectant mothers; (2) that a report on the acceptability of the product and the results of the experiment will be furnished USDA at the end of the experiment; and (3) that no funds appropriated under any law of the United States providing for the furnishing of assistance or relief to foreign countries will be used in payment of any part of the purchase price of this commodity.

(b) Upon approval of the application by USDA the representative or agency of the participating country will be free to make contract arrangements directly with any U. S. exporter for the procurement and shipment of the product. The name of the U. S. exporter with whom such contract has been negotiated shall be furnished USDA.

(c) After exportation of the product and receipt by USDA of a claim supported by documents evidencing exportation and compliance with the terms of this offer, payments will be made to U. S. exporters who supply the concentrated orange juice.

(d) Further information concerning this program may be obtained by communicating with F. N. Andary, Fruit and Vegetable Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C., or J. Henry Burke, % Agricultural Attaché, American Embassy, Paris, France.

§ 518.257 *Specifications.* All concentrated orange juice delivered pursuant to this offer shall be processed and packed in the United States, shall be made from sound oranges, shall be prepared and packed under sanitary conditions, and shall meet the requirements for U. S. Grade A concentrated orange juice as defined in the "United States Standards for Grades of Canned Concentrated Orange Juice," effective August 16, 1943, as amended November 1, 1944. The Brix value shall be not less than 65°, when determined in accordance with the Refractometric Method and corrected for anhydrous citric acid. Ascorbic Acid (vitamin C) shall be present in the amount of not less than 2 milligrams per gram of concentrated juice. The concentrated orange juice shall be pasteurized sufficiently to assure preservation of the product in hermetically sealed containers. Juice in any amount processed from navel oranges shall not be included.

§ 518.258 *Inspection.* Exporters shall furnish certificates of inspection without cost to USDA for each lot of concentrated orange juice exported pursuant to this offer. Such certificates shall be issued by representatives of the Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, U. S. Department of Agriculture. Samples for inspection shall be furnished without cost to USDA. Inspection shall be performed as soon as practicable prior to loading for shipment to the port of exportation.

§ 518.259 *Containers.* Concentrated orange juice exported pursuant to this offer shall be packed in No. 3 cylinder cans (404 x 700) 12 cans per case; No. 10 cans (603 x 700) 6 cans per case; or gallon cans (603 x 812) 6 cans per case. Such cans shall be the "sanitary" type, either plain or enamel lined and shall be filled with concentrated orange juice as full as practicable. Cases shall be suitable for export shipment.

§ 518.260 *Labels and markings.* Regular commercial labels may be used but shall include instructions for rehydration of the product. Each case shall be marked on one end in large letters as follows: "Store at 45° F. or less; 7° C. or less. Product of the USA."

§ 518.261 *Period of operation.* Sales for export under this offer shall be made on or before June 30, 1951, and exportation must be accomplished before September 1, 1951.

§ 518.262 *Rates of payment.* The rates of payment to U. S. exporters shall be as follows but in no event shall the rates of payment exceed the market price of the product, basis f. o. b. processing plant:

For shipments made from U. S. ports on or:

Before Nov. 1, 1950	After Nov. 2, 1950	Unit
$3.50	$2.50	Gallon can.
2.65	1.90	No. 10 can.
1.30	.95	No. 3 cylinder can.

By establishing two sets of rates for different seasons, recognition is given to the probable changes in market prices after November 1, 1950, when the new crop of oranges becomes available.

§ 518.263 *Claims for payment.* Exporters shall file claims for payment in an original and three copies on voucher form FDA-564 "Public Voucher—Diversion Programs," and each claim shall be supported by (a) two certified copies of the sales contract; (b) two certified copies of the sales invoice to the buyer; (c) the original and one copy of the inspection certificate; (d) two copies of the ocean on-board bill of lading signed by an agent of the steamship company; and (e) such other documents, if any, as may be required evidencing exportation of the product and compliance with the terms of this offer. All claims shall be submitted prior to September 30, 1951, to F. N. Andary, Fruit and Vegetable Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C.

§ 518.264 *Set-off.* USDA may set off against any amount owed to any exporter hereunder, any amount owed by such exporter to USDA or any other agency of the United States.

§ 518.265 *Assignments.* No exporter shall, without the written consent of the Director, Fruit and Vegetable Branch, assign any right of the exporter against USDA hereunder.

§ 518.266 *Persons not eligible.* No member of or delegate to Congress, or resident Commissioner, shall be admitted to any share or part of any payment made under this offer or to any benefit that may arise therefrom, but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 518.267 *Amendment.* This offer may be amended by USDA at any time upon not less than 10 days notice by public announcement of such amendment. Public announcement may be made by press release or by publication in the FEDERAL REGISTER. Notice of such amendment will be transmitted promptly to every country and exporter participating in the program, as reflected by the records of the Fruit and Vegetable Branch. Any such amendment shall not be applicable to sales for export made prior to the effective time and date of such amendment.

Effective date. This offer shall be effective on September 18, 1950.

Dated this 13th day of September 1950.

[SEAL] FLOYD F. HEDLUND,
Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 50-8128; Filed, Sept. 15, 1950; 8:52 a. m.]

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM

SUBPART—1951

Correction

In Federal Register Document 50-7948, published at page 6109 in the issue for Tuesday, September 12, 1950, the following changes should be made:

1. In § 701.241 (c) the second line in subparagraph (2) under *Maximum assistance* should read, "than land preparation) of sodding or sprig-".

2. In the table in § 701.273 (c) the 33d line in the column *Amount of payment computed* should read "$33 to $33.99".

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 348]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.455 *Lemon Regulation 348*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 13, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 17, 1950, and ending at 12:01 a. m., P. s. t., September 24, 1950, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 275 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 347 (15 F. R. 6070), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR Part 953; 14 F. R. 3612)

Done at Washington, D. C., this 14th day of September 1950.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

PART 959—IRISH POTATOES IN THE COUNTIES OF CROOK, DESCHUTES, JEFFERSON, KLAMATH, AND LAKE IN OREGON, AND MODOC AND SISKIYOU IN CALIFORNIA

LIMITATION OF SHIPMENTS

§ 959.304 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to the provisions of Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR, Part 959), regulating the handling of Irish potatoes grown in the counties of Crook, Deschutes, Jefferson, Klamath, and Lake in the State of Oregon, and Modoc and Siskiyou in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and upon the basis of the recommendation and information submitted by the Oregon-California Potato Committee, and other available information, it is hereby found that the limitation of shipments of such potatoes as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. (1001 et seq.) in that: (i) Shipments of 1950 crop of Irish potatoes grown in the production area have begun; (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by regulating the shipment of potatoes in the manner set forth below on and after the effective date hereinafter set forth; (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date hereof; (iv) a reasonable time is permitted, under the circumstances, for such preparation; (v) the time intervening between the date information necessary for the issuance of such limitation of shipments became available and the time such limitation must become effective to effectuate the declared policy of the act is insufficient; and (vi) information regarding the committee's marketing policy and its recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period beginning September 18, 1950, and ending June 30, 1951, both dates inclusive, no handler shall ship potatoes which do not meet the requirements of U. S. No. 2 or better grade, and which are of sizes smaller than 2 inches minimum diameter or 4 ounces minimum weight, as such grades and sizes are defined in the U. S. Standards for Potatoes (14 F. R. 1955, 2161), including the tolerances set forth therein: *Provided,* That the aforesaid grade and size limitations shall not be applicable to any shipment of potatoes of 20 hundredweight or less at any one time.

(2) During the period beginning September 18, 1950, and ending November 1, 1951, both dates inclusive, no handler shall ship potatoes which do not comply with the aforesaid grade and size requirements and which are more than "slightly skinned" as such term is defined in the U. S. Standards for Potatoes (14 F. R. 1955, 2161), which means not more than 10 percent of the potatoes in any lot may have more than 25 percent of skin missing or feathered: *Provided,* That one lot of not to exceed 300 hundredweight of each variety of potatoes of each producer may be handled without regard to the aforesaid skinning requirements if the handler thereof reports, prior to such handling, the name and address of the producer of each such lot, and each such lot is handled as an identifiable entity.

(3) The limitations set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to (i) shipments of potatoes for the purpose of having such potatoes graded or stored in the production area, (ii) shipments of potatoes for export, (iii) shipments of potatoes for distribution by the Federal Government, for distribution by relief agencies, or for consumption by charitable institutions, (iv) shipments of potatoes for the purpose of having such potatoes manufactured or converted into starch, glucose, alcohol and dehydrated livestock feed products, (v) shipments of potatoes for livestock feed, and (vi) shipments of seed potatoes: *Provided,* That each handler making shipments for any of such purposes shall, prior to effecting each shipment, file an application with the committee to do so and have each of such shipments inspected and pay assessments in connection therewith, except that the payment of assessments and the procurement of inspection shall not be required for shipments of potatoes for the purpose of having such potatoes graded or stored in the production area.

(4) The terms used herein shall have the same meaning as when used in Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR Part 959).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 14th day of September 1950.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Orange Reg. 340]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.486 *Orange Regulation 340*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2 It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available

and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on September 14, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 17, 1950, and ending at 12:01 a. m., P. s. t., September 24, 1950, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1: unlimited movement; (*b*) Prorate District No. 2: 1,150 carloads; (*c*) Prorate District No. 3: unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1: No movement; (*b*) Prorate District No. 2: no movement; (*c*) Prorate District No. 3: no movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as given to the respective term in § 966.107 of the current rules and regulations (14 F. R. 6588) contained in this part.

Orange Regulation 332 (7 CFR 966.478, 15 F. R. 3863) fixes the sizes of designated oranges which may be handled during the aforesaid period.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 15th day of September 1950.

[SEAL] FLOYD F. HEDLUND,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. W]

PART 222—CONSUMER INSTALMENT CREDIT

AUTOMOBILE APPRAISAL GUIDES

§ 222.101 *Automobile Appraisal Guides.* (a) This part as issued effective September 18, 1950, provides in § 222.9, Part 4, that the credit value of any automobile is based on the lower of either (1) the cash price or (2) the average retail value stated in one of the appraisal guides designated by the Board of Governors of the Federal Reserve System.

(b) For these purposes, the Board has designated certain editions and issues of the appraisal guides listed below. Detailed information as to the designations may be obtained from any Federal Reserve Bank or Branch. A dealer is not required to use any particular automobile appraisal guide but, for purposes of complying with this part, may use quotations from any of the appraisal guides that are designated for use in his territory.

(c) The automobile models for which designations will initially apply are limited to used cars of model years 1941 to 1950, inclusive. In the case of these cars, the maximum credit value on and after September 18, 1950, will be the specified percentage (now 66⅔ percent) of whichever is the lower of (1) the cash purchase price or (2) the "appraisal guide value" (as determined from any designated guide). For those automobiles which do not have an "appraisal guide value" (new automobiles, used 1951 models, and used cars of 1940 and older models) the maximum credit value will be the specified percentage of the cash purchase price.

(d) The "appraisal guide value" to be used for the purposes of Part 222 does not include any added value for cars equipped with a radio or heater, but it may include the added value specified in the appraisal guide for cars having an overdrive or automatic transmission as extra equipment.

AUTOMOBILE APPRAISAL GUIDES DESIGNATED FOR PURPOSES OF PART 222 AND TERRITORIES FOR WHICH EACH GUIDE IS DESIGNATED

Name of Guide, Publisher and Address; Issues Designated; and Territory for Which Guide Is Designated

PART 224—DISCOUNT RATES

MISCELLANEOUS AMENDMENTS

Pursuan to section 14 (d) of the Federal Reserve Act, and for the purpose of adjusting discount rates with a view of accomodating commerce and business in

[1] The regions for which publication is designated comprise the following States:

Region A: Alabama, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois—except Madison, St. Clair and Rock Island Counties, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin—except Douglas County.

Region B: Arkansas, Colorado, Illinois—Madison, St. Clair and Rock Island Counties, Iowa, Kansas, Louisiana, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin—Douglas County, and Wyoming.

Region C: Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

[2] The regions for which each of the five territorial editions of N. A. D. A. Official Used Car Guide is designated are as follows:

Region "A": Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Tennessee—Sullivan County only, Vermont, and Virginia.

Region "B": Arkansas—Miller County only, Colorado, Louisiana, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming.

Region "C": Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

Region "D": Alabama, Arkansas—except Miller County, Florida, Georgia, Illinois—Madison, Rock Island, St. Clair Counties only, Kansas, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Tennessee—except Sullivan County, South Carolina, and Wisconsin—Douglas County only.

Region "E": Illinois—except Madison, Rock Island, St. Clair Counties, Indiana, Kentucky, Michigan, Ohio, West Virginia, and Wisconsin—except Douglas County.

accordance with other related rates and the general credit situation of the country, Part 224 is amended as set forth below.

1. Section 224.2 is amended to read as follows:

§ 224.2 *Advances and discounts for member banks under sections 13 and 13a.* The rates for all advances and discounts under section 13 and 13a of the Federal Reserve Act (except advances under the last paragraph of such section 13 to individuals, partnerships or corporations other than member banks) are:

Federal Reserve Bank of—	Rate	Effective
Boston	1¾	Aug. 21, 1950
New York	1¾	Do.
Philadelphia	1¾	Aug. 25, 1950
Cleveland	1¾	Do.
Richmond	1¾	Do.
Atlanta	1¾	Aug. 24, 1950
Chicago	1¾	Aug. 25, 1950
St. Louis	1¾	Aug. 23, 1950
Minneapolis	1¾	Aug. 22, 1950
Kansas City	1¾	Aug. 25, 1950
Dallas	1¾	Do.
San Francisco	1¾	Aug. 24, 1950

2. Section 224.3 is amended to read as follows:

§ 224.3 *Advances to member banks under section 10 (b).* The rates for advances to member banks under section 10 (b) of the Federal Reserve Act are:

Federal Reserve Bank of—	Rate	Effective
Boston	2¼	Aug. 21, 1950
New York	2¼	Do.
Philadelphia	2¼	Aug. 25, 1950
Cleveland	2¼	Do.
Richmond	2¼	Do.
Atlanta	2¼	Aug. 24, 1950
Chicago	2¼	Aug. 25, 1950
St. Louis	2¼	Aug. 23, 1950
Minneapolis	2¼	Aug. 22, 1950
Kansas City	2¼	Aug. 25, 1950
Dallas	2¼	Do.
San Francisco	2¼	Aug. 24, 1950

3. In § 224.4, relating to certain advances to persons other than member banks, the percentage rate for the Federal Reserve Bank of Cleveland is Changed to 2¾, effective August 25, 1950, and the percentage rate for the Federal Reserve Bank of Atlanta is changed to 2¾, effective August 24, 1950.

Section 224.5 is amended to read as follows:

§ 224.5 *Buying rates on bills.* The minimum buying rates for prime bankers' acceptances [1] are:

Federal Reserve Bank of—	Rate	Effective
Boston	1¾	Aug. 21, 1950
New York	1¾	Do.
Philadelphia	1¾	Aug. 25, 1950
Cleveland	1¾	Do.
Richmond	1¾	Do.
Atlanta	1¾	Aug. 24, 1950
Chicago	1¾	Aug. 25, 1950
St. Louis	1¾	Aug. 23, 1950
Minneapolis	1¾	Aug. 22, 1950
Kansas City	1¾	Aug. 25, 1950
Dallas	1¾	Do.
San Francisco	1¾	Aug. 24, 1950

[1] Rates shown for bankers' acceptances also apply, with same effective dates, to purchases of Government securities under resale agreement at the following Federal Reserve Banks: Boston, New York, Philadelphia, Cleveland, Chicago, and San Francisco. New York, Atlanta, and St. Louis have minimum buying rates on trade acceptances of 1¾ per cent, 2 per cent and 2 per cent, respectively, with same effective dates.

5. In § 224.7, relating to loans to financing institutions under section 13b of the Federal Reserve Act, the percentage rate for the Federal Reserve Bank of St. Louis on discounts or purchases on the portion for which the institution is obligated, is changed to 1¾–2¼, effective August 23, 1950.

For the reasons and good cause found as stated in § 224.8, there is no notice, public participation, or deferred effective date in connection with this action.

(Sec. 11.38 Stat. 262; 12 U. S. C. 248. Interpret or apply sec. 14, 38 Stat. as amended; 12 U S. C. 357)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 283]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 280]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CERTAIN STATES

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. Schedule A, Item 33, is amended to describe the counties in the Defense-Rental Area as follows:

Merced County; Stanislaus County except the City of Modesto.

This decontrols the City of Modesto in Stanislaus County, California, a portion of the Modesto-Merced, California, Defense-Rental Area based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

2. Schedule A, Item 92, is amended to describe the counties in the Defense-Rental Area as follows:

Boone County, except the Village of Capron and all unincorporated localities in said County; and Winnebago County, except the Cities of Loves Park and Rockford and all unincorporated localities in said County.

De Kalb County, except all unincorporated localities in said County.

This decontrols the City of Loves Park in Winnebago County, Illinois, a portion of the Rockford, Illinois, Defense-Rental Area on the Housing Expediter's own initiative in accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended.

3. Schedule A, Item 94b, is amended to read as follows:

(94b) [Revoked and decontrolled.]

This decontrols (1) the City of Bloomington in Monroe County, Indiana, a portion of the Bloomington, Indiana, Defense-Rental Area, and all unincorporated localities in said defense-rental area, based on a resolution submitted with respect to said City of Bloomington in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, said City of Bloomington being the major portion of said defense-rental area, and (2) the remainder of said defense-rental area, on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

4. Schedule A, Item 125a, is amended to read as follows:

(125a) [Revoked and decontrolled.]

This decontrols the entire Mayfield, Kentucky, Defense-Rental Area, on the Housing Expediter's own initiative in accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended.

5. Schedule A, Item 168e, is amended to read as follows:

(168e) [Revoked and decontrolled.]

This decontrols the entire Chillicothe, Missouri, Defense-Rental Area based on a resolution submitted with respect to the City of Chillicothe, Missouri, in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, said City of Chillicothe being coextensive with the said defense-rental area.

6. Schedule A, Item 228, is amended to describe the counties in the Defense-Rental Area as follows:

Cuyahoga County, except the Cities of Bedford, Berea, Shaker Heights, and University Heights, and the Villages of Bay, Bentleyville, Brecksville, Chagrin Falls, Gates Mills, Highland Heights, Hunting Valley, Independence, Lyndhurst, Moreland Hills, North Olmsted, North Royalton, Orange, Pepper Pike, Seven Hills, Valley View, Westlake and West View; and in Lake County those parts of Kirtland Township included within the corporate limits of the Villages of Waite Hill and Willoughby, and Willoughby Township, except the Village of Wickliffe.

Lake County, other than Willoughby Township and those parts of Kirtland Township included within the corporate limits of the Villages of Waite Hill and Willoughby.

This decontrols the City of Shaker Heights in Cuyahoga County, Ohio, a portion of the Cleveland, Ohio, Defense-Rental Area based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

7. Schedule A, Item 356, is amended to describe the counties in the Defense-Rental Area as follows:

Wayne County; and Cabell County, except the Districts of Grant, McComas and Union, and except the Village of Barboursville.

In Lawrence County, the Townships of Upper, Perry, Fayetter, Union and Hamilton.

Boyd County; and Greenup County except Magisterial Districts 1, 2, 3, 4, 5, and 6.

This decontrols Magisterial Districts 1, 2, 3, 4, 5, and 6 in Greenup County, Kentucky, portions of the Huntington, West Virginia, Defense-Rental Area on the Housing Expediter's own initiative in accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Supp. 1894)

This amendment shall become effective September 13, 1950.

Issued this 12th day of September 1950.

TIGHE E. WOODS,
Housing Expediter.

[F. R. Doc. 50-8109; Filed, Sept. 15, 1950; 8:49 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 580—WOMEN'S ARMY CORPS

MISCELLANEOUS AMENDMENTS

Sections 580.2 and 580.12 are rescinded and the following substituted therefor:

§ 580.2 *Mission.* The mission of the Women's Army Corps is to provide for the assimilation and appropriate utilization within the Army of the volunteer womanpower of the Nation, with the exception of those women officers appointed in the Army Medical Service.

§ 580.12 *Discharge of enlisted women.*—(a) *Pregnancy.* Discharge of any enlisted woman whose pregnancy is certified by a medical officer, or who gives birth to a living child, will be effected.

(b) *Laws and regulations.* All laws and regulations governing the discharge of enlisted men are also applicable to the discharge of enlisted women.

[C3, AR 625–5, 30 Aug. 1950] (R. S. 161, 5 U. S. C. 22. Interpret or apply 62 Stat. 356, 10 U. S. C. 316–316e)

[SEAL] EDWARD F. WITSELL,
Major General, U. S. A.,
The Adjutant General.

Chapter VII—Department of the Air Force

Subchapter C—Claims and Accounts

PART 833—DEATH GRATUITY

REVISION OF REGULATIONS

The material contained in Chapter VII, Department of the Air Force (13 F. R. 8751; 32 CFR and 1949 Supp., 833), pertaining to the applicability of certain portions of Army Regulations to the Department of the Air Force is hereby amended by revoking the reference of Chapter VII, Part 833, Department of the Air Force to Chapter V, Part 533, Department of the Army, and substituting therefor Part 833, Death Gratuity.

Pursuant to the authority conferred by sections 207 (f) and 208 (e) of the National Security Act (61 Stat. 503, 504; 5 U. S. C., Sup., II, 626 (f), 626c (e)), Transfer Order 25, October 14, 1948 (13 F. R. 6270), and cited laws, the following regulation is hereby prescribed:

Sec.
833.1 Purpose.
833.2 General.
833.3 Definitions of categories.
833.4 Eligible beneficiaries.
833.5 Ineligible beneficiaries.
833.6 Evidence required.
833.7 Payments.
833.8 Forms.
833.9 Special instructions.
833.10 Deceased personnel other than Air Force.

AUTHORITY: §§ 833.1 to 833.10 issued under 41 Stat. 367, as amended; sec. 5, 53 Stat. 557, as amended; sec. 4, 62 Stat. 205; 10 U. S. C. 903, 10 U. S. C. and Sup. 456, 50 U. S. C app., Sup., 454.

DERIVATION: AFR's 173–28; 173–28A.

§ 833.1 *Purpose.* The regulations in this part outline the responsibilities of, and the procedures followed by the Air Force in connection with payment of the six months' death gratuity to eligible beneficiaries of deceased Air Force military personnel, hereinafter referred to as members.

§ 833.2 *General.* In accordance with the provisions of §§ 833.1 to 833.10, immediately upon official notification of the death, or presumptive finding of death, of any member from wounds or disease, not the result of his or her own misconduct, a death gratuity in an amount equal to six months' pay at the rate received by the deceased on the day of death, is payable to the eligible beneficiary of any such member. This includes compensation of every kind and character received at the date of death, as distinguished from allowances.

§ 833.3 *Definitions of categories.* Members whose eligible beneficiaries may receive payment of death gratuity are divided into three categories:

(a) *Category I.* Members of the Regular Air Force, Air Force of the United States on active duty and the Reserve Forces (the United States Air Force Reserve, the Air National Guard of the United States, and the Air National Guard while in the Federal service on extended active duty).

(b) *Category II.* Members of the United States Air Force Reserve and Air National Guard on active duty for training or undergoing inactive duty training, as authorized by competent authority where death is due to injury as distinguished from disease.

(c) *Category III.* Members reported missing in accordance with current regulations, who are subsequently determined to be dead or for whom presumptive findings of death are made by the Secretary of the Air Force.

§ 833.4 *Eligible beneficiaries.* Regulations require all members to execute Department of Defense Form 93, "Record of Emergency Data for the Armed Forces of the United States," indicating in the appropriate space thereon the person to receive the six months' death gratuity payment. Under the provisions of the laws governing such payment, the eligibility of the person or persons to whom such payment may be made depends upon relationship, designation, the ability to show an insurable interest in the continuance of the life of the deceased, a dependency upon the deceased, or a combination of all these factors. Such payment will be made to beneficiaries as follows:

(a) If there be a lawful widow (widower), payment will be made to such person only, regardless of whether designated.

(b) If there be no widow (widower), payment will be made to the child or children equally of any lawful marriage, regardless of whether designated.

(c) If decedent is not survived by a widow (widower) or child (children), the designated relative is eligible to receive payment without regard to order of precedence. Eligibility of certain classes of beneficiaries to receive payment, although designated, is dependent, however, upon the ability of the beneficiary to show dependency upon, or an insurable interest in the continued life of the decedent. Such beneficiaries are grandparents, aunts and uncles, nieces and nephews, and other more distant relatives.

(d) If decedent is not survived by a widow (widower) or child (children), and the first designated beneficiary is nonexistent or determined to be ineligible, the alternate designated beneficiary must be considered.

(e) If decedent is not survived by a widow (widower) or child (children), and Department of Defense Form 93 does not show a designation, the next of kin by class in the order of precedence indicated below will be considered and, is eligible, payment will be divided equally among such benficiaries:

(1) Grandchildren.
(2) Parents.
(3) Brothers—sisters.
(4) Grandparents.

Example. If more than one grandchild survives, each will be entitled to an equal share of the amount payable. If three grandchildren survive and only two submit claims, the two claiming will receive one-third each, the remaining share being considered as an amount payable in the event a claim is submitted by the third grandchild. This method of prorating amounts payable is applicable to each class of beneficiary enumerated in this paragraph.

§ 833.5 *Ineligible beneficiaries.* Persons who are not considered eligible to receive payment of the six months' death gratuity are:

(a) Any married child, notwithstanding the allegation of dependency or insurable interest upon the deceased.

(b) Any unmarried child over 21 years of age who is not actually a dependent of the deceased, regardless of the ability to show insurable interest.

(c) Any person who has taken the life of the deceased, even though such person would otherwise qualify as a beneficiary.

(d) Persons alleging loco parentis relationship, other than dependent relatives.

(e) Any person alleging common-law marriage to decedent where such allegation is not supported by the same quality and quantity of evidence which would be required to establish the validity of the marriage before the courts of the jurisdiction where contracted.

(f) Adoptive parents who cannot support allegation by documentary proof.

(g) Alleged widow who claims dissolution of former marriage, unless documentary proof is furnished.

(h) Any person not related to deceased by consanguinity (by blood) or by affinity (by marriage).

§ 833.6 *Evidence required.* The evidence required to establish the right of any person to receive payment of the six months' death gratuity is set forth in figure 1 for the different classes of beneficiaries. However, the accounting and disbursing officer responsible for effecting payment may require any additional evidence considered necessary.

FIGURE 1

Class of beneficiary	Evidence required					
	Nonexistence of widow (widower)	Relationship	Age	Conjugal condition	Dependency or insurable interest	Designation as beneficiary
Widow (widower):						
Previously designated	No	No	No	No	No	Yes.[1 4 7]
Not previously designated	No	Yes	No	No	No	No.[1 4 7]
Unmarried child or children under 21 years of age:						
Previously designated	Yes	No	Yes	Yes	No	Yes.[1 5]
Not previously designated	Yes	Yes	Yes	Yes	No	No.[1 5]
Unmarried child or children over 21 years of age:						
Previously designated	Yes	Yes	Yes	Yes	Yes	Yes.
Not previously designated	Yes	Yes	Yes	Yes	Yes	No.
Grandchild (grandchildren) nonexistence of widow (widower) child (children):						
Previously designated	Yes	No	Yes	No	No	Yes.[6]
Not previously designated	Yes	Yes	Yes	No	Yes	No.[6]
Parents:						
Previously designated	Yes	No	No	No	No	Yes.[3]
Not previously designated	Yes	Yes	No	No	No	No.[3]
Brothers and sisters:						
Previously designated	Yes	No	Yes	No	No	Yes.[6]
Not previously designated	Yes	Yes	Yes	No	No	No.[6]
More distant relatives (grandparents, aunts, uncles):						
Previously designated	Yes	Yes	No	No	Yes	Yes.[3]
Not previously designated	Yes	Yes	No	No	Yes	No.[3]

[1] The fact that the widow (widower) or child (children), as the case may be, was designated as beneficiary, will in itself be regarded ordinarily as sufficient to establish the identity of the payee.

[2] Where a payment is to be made to a widow (widower) not previously designated as beneficiary, affidavits from two disinterested persons, not related by blood, attesting to the following facts will be obtained and filed with the voucher: The length of time they have known the widow (widower), that they have known her (him) to be the lawful wife (husband) of the decedent at the time of his (her) death, and that to the best of their knowledge and belief no divorce has been granted.

[3] Where payment is to be made to a child (children) not previously designated, affidavits from two disinterested persons, not related by blood, attesting to the following facts will be obtained and filed with the voucher: That they knew the decedent, knew the mother (father), know that the child (children) is (are) the legitimate child (children) of the decedent, and know that the decedent was not survived by a lawful widow (widower) at the time of his (her) death and that the child (children) is (are) the only living child (children) of the decedent.

[4] In an instance where available information shows that the decedent had been at one time married to other than widow (widower) claiming the right to payment, she (he) must furnish evidence of dissolution of former marriage or marriages, i. e., divorce decree, annulment decree, or death certificate, whichever is appropriate. This evidence must also be furnished in the event claimant had been married previously.

[5] In an instance where a child (children) of decedent is (are) being considered for payment, evidence of dissolution of all prior marriages of parent is necessary. (See footnote 4.)

[6] In an instance where a relative(s) other than a widow (widower), child (children) is being considered, the person (persons) must furnish evidence of dissolution of any marriage the decedent may have entered into as well as nonexistence of child (children). (See footnotes 4 and 5.)

[7] In an instance where widow (widower) claims common-law marriage relationship to decedent, evidence to substantiate that marriage should be of the same quality and quantity which would be required to establish the validity of the marriage before the courts of the jurisdiction where contracted.

§ 833.7 *Payments.* Determination of the accounting and disbursing officer who will make payment of the six months' death gratuity is dependent upon the categorization of the decedent and the class of beneficiary to be considered for payment.

(a) *Category I.* Claims for payment of gratuity resulting from the death of members in this category will be paid by the accounting and disbursing officer serving the organization or installation to which the decedent was assigned at time of death. (See exception in par. (d) of this section.)

NOTE: If the misconduct status is in question no action will be taken by way of providing forms or in connection with the payment of gratuity until such misconduct status is determined in accordance with applicable regulations.

(b) *Category II.* (1) Gratuity pay claims resulting from the death of members in this category will be paid by the accounting and disbursing officer designated to pay the accounts of the Reserve Forces as prescribed by current regulations. (See exception in paragraph (d) of this section.)

(2) Gratuity pay claims resulting from the death of members in this category who are not in a pay status but who are nevertheless entitled to the benefits set forth in the act of June 20, 1949 (Pub. Law 108, 81st Cong.); 10 U. S. C., Sup. III, 456), will be paid by the accounting and disbursing officers charged with disbursements for the areas in which the decedents resided. (See exception in par. (d) of this section.)

(3) Since a line of duty investigation is required in any case in this category in accordance with current regulations, the accounting and disbursing officer will take no action in connection with gratuity payment until the Death Report is received from the Casualty Branch, Director of Military Personnel, Headquarters United States Air Force, through channels. The accounting and disbursing officer will then take immediate steps to furnish Finance Department Form 6 or Standard Form 1034 to the potential beneficiary.

(c) *Category III.* (1) Gratuity pay claims resulting from the death of members in this category will be paid by the accounting and disbursing officer serving the organization or installation to which the decedent was assigned at the time a determination or finding of death is made, as in the case of Category I, except that payment will not be effected until the Death Report is issued. (See exception in paragraph (d) of this section.) The accounting and disbursing officer will then take immediate steps to furnish Finance Department Form 6 or Standard Form 1034 to the potential beneficiary.

(2) Where the determination or presumptive finding of death is made by the Deputy Chief of Staff, Personnel, the accounting and disbursing officer at Bolling Air Force Base, Washington 25, D. C., will effect payment of the gratuity.

(d) *Exception; beneficiaries who must show dependency or insurable interest.* (1) If the beneficiary is one who must show a dependency upon or an insurable interest in the continued life of the decedent, a determination of the proper payee and the accounting and disbursing officer who will make payment will be made by the Director of Finance, Headquarters United States Air Force, Washington 25, D. C., in accordance with the approved policies of the Department of the Air Force, regardless of the category of the decedent.

(2) In these cases, the appropriate accounting and disbursing officer (depending upon the category of the decedent) will forward Finance Department Form 6 or Standard Form 1034 to the potential beneficiary, with instructions to return the executed claim to the Director of Finance, Headquarters United States Air Force, Washington 25, D. C.

§ 833.8 *Forms.* Claim for payment will be made on Finance Department Form 6, "Public Voucher for Six Months' Death Gratuity Pay"; however, if this form is not available, Standard Form 1034, "Public Voucher for Purchases and Services Other than Personal," appropriately modified, may be used. Forms will be forwarded to the potential beneficiary by the accounting and disbursing officer in accordance with the provisions of § 833.7.

§ 833.9 *Special instructions*—(a) *Six months' death gratuity exempt from indebtedness.* The amount of the six months' pay may not be used for the debts of the officer or airman, not even for overpayment. (See MS Comp. Dec., May 14, 1913.)

(b) *Relinquishment of right to payment.* If the deceased member had designated two beneficiaries to receive the six months' death gratuity payment, and the claim of the first designated beneficiary is disapproved because the evidence does not clearly establish dependency upon the deceased for support, or otherwise an insurable interest in him, the claim of the second designated beneficiary may not be considered unless the first beneficiary—who may desire to submit additional evidence tending to show dependency—has relinquished the right to claim the gratuity payment. (See 22 Comp. Gen. 676.)

(c) *Will; not a designation.* A will is not a designation within the meaning of the act providing the six months' death gratuity pay, since the gratuity payment is not a debt or money due the officer or airman and canont become a part of the decedent's estate. (See 21 Comp. Dec. 856.)

(d) *Advanced in grade after date of death.* Section 2 of the act of March 7, 1942, as amended (sec. 2, 56 Stat. 144; 50 App. U. S. C. 1002), which entitles any member in active service officially reported as missing, missing in action, interned in a neutral country, captured by an enemy, beleagured or besieged, etc., to continue to receive, or have credited to his account, the pay and allowances to which he was then, or thereafter became entitled, does not authorize computation of the six months' death gratuity payment on the basis of pay for a grade to which a person was advanced after being officially reported missing, where it was later determined that the person had died prior to such advancement in grade. (See 22 Comp. Gen. 395.)

(e) *Declared dead after missing.* In the case of a member who was officially carried in a missing status and subsequently declared dead as of a certain date, the death gratuity in an amount equal to six months' pay at the rate received at the date of death should be computed on the pay rate to which the person was entitled on the date on which he was declared dead, rather than on the rate he was receiving at the beginning of the missing status. (See 22 Comp. Gen. 1053.)

(f) *Flying requirements not met when on flying status.* If a member dies while assigned to flying duty and has not made any flights during the three months succeeding the quarter in which he last complied with the flight requirements, his rate of pay for the payment of six months' death gratuity includes the increased pay for flying, although no flying pay had accrued to him on the date of his death and provided that he had not been indefinitely suspended from flying on that date. (See 7 Comp. Gen. 476.)

(g) *Waiver by lawful widow (widower).* A waiver by the lawful widow (widower) of a deceased person of her (his) statutory right to the six months' death gratuity pay is without force or effect, and does not operate to entitle the mother of the deceased, the designated beneficiary, to payment of the gratuity. (See 22 Comp. Gen. 676: 24 Comp. Gen. 46.)

(h) *Absent without leave.* During periods of absence without leave, service members shall continue in a pay status, but shall forfeit all pay and allowances during the absence. The six months' death gratuity is not a part of a member's "pay and allowances," therefore, if a member dies during an absence without leave, whether the absence is excused as unavoidable or not, and provided that the absence without leave does not exceed three months, payment of the six months' death gratuity at the rate of pay accruing to such member at the date of death is authorized if otherwise payable. This determination applies to all cases where absence without leave and death occurred subsequent to August 31, 1946. (See sec. 4 (b), 60 Stat. 964, as amended; 37 U. S. C., Sup., 33; and 29 Comp. Gen. 294.)

(i) *Death of beneficiary.* In the event of the death of any beneficiary before payment to and collection by such beneficiary of the amount authorized, payment will be made to the next living beneficiary in the order of succession stated in § 833.4.

(j) *Stepparents not designated.* Stepparents who are not designated as beneficiaries are not entitled to payment of the six months' death gratuity.

§ 833.10 *Deceased personnel other than Air Force.* Air Force accounting and disbursing officers are not authorized to make payment of the six months' death gratuity to beneficiaries of the United States Army, Navy, or Marine personnel, either Regular or Reserve, although they were responsible for the maintenance of the pay accounts of such personnel at time of death.

[SEAL] L. L. JUDGE,
Colonel, U. S. Air Force,
Air Adjutant General.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1763]

PART 149—EXCHANGES FOR THE CONSOLIDATION OR EXTENSIONS OF INDIAN RESERVATIONS OR INDIAN HOLDINGS

PUEBLO INDIANS AND CANONCITO NAVAJO GROUP IN NEW MEXICO

The following center head and sections are added to Part 149 immediately after § 149.83:

EXCHANGES FOR THE CONSOLIDATION OF INDIAN HOLDINGS IN CERTAIN AREAS SET APART FOR THE PUEBLO INDIANS AND THE CANONCITO NAVAJO GROUP IN NEW MEXICO

Sec.
149.84 Policy.
149.85 Applications for exchange; consent of Indians.
149.86 Deed of conveyance of offered land or interest.

AUTHORITY: §§ 149.84 to 149.86 issued under sec. 2, Pub. Law 226, 81st Cong.

§ 149.84 *Policy.* For the purpose of consolidating Indian lands, as authorized by section 2 of Public Law 226, 81st Congress (63 Stat. 604), private or State-owned lands or interests therein, including improvements and water rights, situated within the boundaries of the Indian area described in section I of the notice dated March 25, 1950, and published in the FEDERAL REGISTER (15 F. R. 1851, 1852–1855), may be offered in exchange for lands or interests therein, including improvements and water rights, selected within the boundaries of such Indian area, or within the public domain area described in section II of the notice dated March 25, 1950 (15 F. R. at pp. 1855–1857), or within any public domain in New Mexico.

§ 149.85 *Applications for exchange; consent of Indians.* (a) Except as modified by this section and § 149.86, applications for exchanges pursuant to §§ 149.84–149.86 must be filed, and the exchanges will be made, in accordance with §§ 146.2–146.9 of this chapter, covering exchanges of privately owned lands, and in accordance with §§ 147.2–147.12 of this chapter, covering exchanges of State-owned lands.

(b) The selected land or interest and the offered land or interest need not be in the same grazing district.

(c) Exchanges will be made only if the offered land or interest is similar in value to the selected land or interest.

(d) Each application for exchange must be accompanied by the written consent of the tribal authorities of the Pueblo or Navajo tribe within whose area either the offered or the selected land or interest is situated.

§ 149.86 *Deed of conveyance of offered land or interest.* The deed should recite that it is made "for and in consideration of the exchange of certain lands (or interests therein), as authorized by section 2 of the act of August 13, 1949 (63 Stat. 604)," and that the conveyance is made to the United States, as grantee in trust for the appropriate Pueblo Indian or Canoncito Navajo group.

OSCAR L. CHAPMAN,
Secretary of the Interior.

SEPTEMBER 11, 1950.

[F. R. Doc. 50-8087; Filed, Sept. 15, 1950; 8:45 a. m.]

[Circular No. 1765]

PART 166—ORIGINAL, ADDITIONAL, SECOND, AND ADJOINING FARM HOMESTEADS, AUTHORIZED BY THE GENERAL PROVISIONS OF THE HOMESTEAD LAWS

ADDITIONAL ENTRY FOR LAND CONTIGUOUS TO ORIGINAL ENTRY

In order to show amended requirements made by the act of August 3, 1950 (Public Law 639, 81st Congress), §§ 166.82, 166.84 and 166.85, together with the center head for such sections, are amended to read as follows:

1. The center head is amended to read: "Additional entry for land contiguous to original entry".

2. Sec. 166.82 is amended to read:

§ 166.82 *Statutory authority.* Section 2 of the act of April 28, 1904 (33 Stat. 527; 43 U. S. C. 213), as amended by the act of August 3, 1950 (Public Law 639, 81st Cong.), authorizes any person who heretofore entered, or might thereafter enter, less than 160 acres of land under the homestead laws who has not perfected the entry, or, if proof has been made, who still owns and occupies the land, to enter other and additional land lying contiguous to the original entry which, with the land first entered and occupied, will not in the aggregate exceed 160 acres. Section 3 of the act of April 28, 1904 (33 Stat. 527; 43 U. S. C. 213), prohibits the sub-

mission of commutation proof of an entry made under that act.

(R. S. 2478; 43 U. S. C. 1201)

3. Section 166.84 is amended to read:

§ 166.84 *Final proof.* Before proof may be submitted as a basis for patent under the act of April 28, 1904, as amended, the entryman must show that he has cultivated an amount equal to one-eighth of the area of the additional entry for at least one year after the additional entry is made and until the submission of final proof thereon. The cultivation may be performed on the original entry, on the additional entry, or on both, but where it is performed on the original entry it must be shown at the time of submission of final proof on the additional entry that the entryman still owns and occupies the original entry, and the cultivation must be in addition to that required and relied upon in making final proof on the original entry. No proof of residence will be required with respect to the additional entry.

The act of April 28, 1904, as amended, provides that final proof for the additional entry may be submitted only at the time of final proof for the original entry, or subsequent thereto, but it must be submitted within five years after the additional entry is made.

(R. S. 2478; 43 U. S. C. 1201)

4. Section 166.85 is amended to read:

§ 166.85 *Cancellation of original entry.* An additional entry under the act of April 28, 1904, as amended, cannot be based on an original entry which has been canceled. If for any reason an original entry is canceled after the additional has been allowed, the additional will be canceled also.

(R. S. 2478; 43 U. S. C. 1201)

OSCAR L. CHAPMAN,
Secretary of the Interior.

SEPTEMBER 11, 1950.

[F. R. Doc. 50-8089; Filed, Sept. 15, 1950; 8:45 a. m.]

[Circular No. 1764]

PART 257—LEASE OR SALE OF SMALL TRACTS, NOT EXCEEDING FIVE ACRES, FOR HOME, CABIN, CAMP, HEALTH, CONVALESCENT, RECREATIONAL, OR BUSINESS SITES

This part is completely revised as follows, effective 60 days after date of issuance hereof by the Secretary of the Interior:

Sec.

257.1 Statutory authority; lands which may be leased or sold.
257.2 Definitions.
257.3 Policy.
257.4 Classification of land.
257.5 Qualifications of lessees; restrictions on lease.
257.6 Preference rights of offerors; veterans' preference.
257.7 Offer to lease; general procedure.
257.8 Special procedure; drawing; notice.
257.9 Filing fee.
257.10 Rental payment.
257.11 Issuance of lease.
257.12 Assignment of lease; subleasing not permitted.
257.13 Option to purchase; sale; patent.
257.14 Renewal of lease.
257.15 Minerals; timber.
257.16 Rectangular surveys; supplemental plats; streets and roads.
257.17 Irregular tracts; cost of special survey.
257.18 Tracts on unsurveyed land.
257.19 Termination or cancellation; removal of improvements.
257.20 Appeals.

AUTHORITY: §§ 257.1 to 257.20 issued under 52 Stat. 609, as amended; 43 U. S. C. 682a.

§ 257.1 *Statutory authority; lands which may be leased or sold.* (a) The act of June 1, 1938 (52 Stat. 609), as amended by the act of July 14, 1945 (59 Stat. 467; 43 U. S. C. 682a) authorizes the Secretary of the Interior, in his discretion, to lease or sell a tract, not exceeding 5 acres in reasonably compact form, of any vacant, unreserved, surveyed public land, or surveyed public land withdrawn or reserved by the Secretary of the Interior for any purposes, or surveyed lands withdrawn by Executive Orders Nos. 6910 of November 26, 1934, and 6964 of February 5, 1935, for classification, which the Secretary may classify as chiefly valuable as a home, cabin, camp, health, convalescent, recreational, or business site. The act is applicable to lands in such areas as grazing districts, but is not applicable to lands withdrawn by the Secretary solely under delegated authority (e. g., under Executive Order No. 9337, of April 24, 1943), or to land in such reservations as national forests, national parks or national monuments, or to the revested Oregon and California Railroad or the reconveyed Coos Bay Wagon Road grant lands, in Oregon. The lands may not be leased or sold until classified for small tract purposes; and may not be occupied until a lease is executed and delivered to the lessee.

(b) The act applies to public lands in Alaska, and permits employees of the Department of the Interior stationed in Alaska, in the discretion of the Secretary, to purchase or lease one tract in Alaska for any purpose under the act, except as a business site.

§ 257.2 *Definitions.* (a) "Secretary" means Secretary of the Interior.

(b) "Director" means Director, Bureau of Land Management.

(c) "Regional administrator" means the proper regional administrator, Bureau of Land Management.

(d) "Manager" means manager of the land office for the district where the land is situated. Where there is no land office, it means the regional administrator.

(e) "The act" means the act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended.

(f) Sites: (1) A "home site" is a site suitable for a permanent, year-round residence for a single person or a family.

(2) A "cabin site" is a site suitable for a summer, week-end, or vacation residence.

(3) A "camp site" is a site suitable for temporary camping and for the erection of simple or temporary structures and shelters, such as tents, tent platforms, etc.

(4) A "health site" is a site suitable for the temporary or permanent residence of a single person or of a family for the prevention or cure of disease or illness.

(5) A "convalescent site" is a site suitable for residence of a single person or family for the purpose of recuperation from a disease or illness.

(6) A "recreational site" is a site chiefly suitable for noncommercial outdoor recreation.

(7) A "business site" is a site suitable for some form of commercial enterprise.

§ 257.3 *Policy.* (a) It is the policy of the Secretary in the administration of the act of June 1, 1938, to promote the beneficial utilization of the public lands subject to the terms thereof, and at the same time to safeguard the public interest in the lands. To this end offers to lease sites will be considered in the light of their effect upon the conservation of natural resources and upon the welfare not only of the offerors themselves but of the communities or areas in which they propose to settle. Leases will not be awarded, for example, which would lead to private ownership or control of scenic attractions, or water resources, or other areas that should be kept open to public use. Nor will isolated or scattered settlement be permitted which would impose heavy burdens upon State or local governments for roads, schools, and police, health, and fire protection. Types of settlements or businesses which might create "eyesores" along public highways and parkways will be guarded against, and lands will not be leased or sold under the act if such action would unreasonably interfere with the use of water for grazing purposes or unduly impair the protection of watershed areas.

(b) No direct sale of lands will be made under the act. Use and improvement of the land under lease will be required before it may be purchased. Leases of lands which are classified for lease and sale will contain an option permitting the lessee to purchase as provided in § 257.13. Lands classified for lease only will not be sold and the option to purchase clause will not apply to such lands.

§ 257.4 *Classification of land.* (a) The regional administrator may classify lands under the act either on his own motion or upon the filing of an offer to lease, but no lease will be issued or sale authorized prior to classification of the land for such disposal. If the offer is in proper form and the status of the land warrants its consideration for classification under the act, the regional administrator upon receipt of the offer will proceed to make a determination whether ceed to make a determination whether the land should be classified for small tract purposes. If the tract is not suitable for such purposes, the offer to lease will be denied. Where the land has been withdrawn under the statutory powers of the Secretary, the concurrence of the bureau or agency having supervision over the land must be obtained prior to classification.

(b) Land may be classified as suitable for one or more of the types of sites specified in § 257.2, for disposal in tracts of 5 acres or less, depending on the character of the land, and either for lease and

sale, or for lease only, as specified in the classification order. Lands may be classified for lease and sale where found to be primarily suitable for use in accordance with the act, and where the disposal will not interfere with the use of private lands or with the administration of other Federal lands.

§ 257.5 *Qualifications of lessees; restrictions on lease.* (a) An offer to lease may be made by any person who is a citizen of the United States, or has declared his or her intention to become a citizen, who is 21 years of age or more, or, if under that age, is the head of a family. Unless warranted by special circumstances, where a husband and wife are living together, only one of them may acquire a tract under the act. Employees of the Department of the Interior stationed in Alaska may lease or purchase one tract in Alaska for any purpose under the act except business.

(b) Generally, no person will be permitted to hold, by lease or purchase, more than one tract under the act. Where more than one tract is needed, however, except as otherwise authorized by the regional administrator, each tract must be the subject of a separate offer to lease, complete in itself, and must be accompanied by a satisfactory showing that the allowance of more than one lease is warranted by the circumstances. In each offer to lease the offeror must furnish data sufficient to identify all other offers or applications under the act, if any, filed by him or by any member of his family residing with him. Such data should include the serial number of each such offer or application, the land office where filed, and the name and relationship to offeror.

§ 257.6 *Preference rights of offerors; veterans' preference.* (a) Where an offer to lease a tract is filed prior to the receipt by the manager of notice from the regional administrator that the area is under consideration for small tract classification, a preference right to lease will be accorded the offeror only if the land is thereafter classified for the type of site for which the offer was made, and the offeror agrees to conform his offer to the area and dimensions of the tract as specified in the classification order. An offer to lease, filed subsequent to the receipt by the manager of notice of contemplated classification and prior to issuance of the order, will not be accorded such preference right, but the offer will be retained by the manager pending classification of the land. If the land is classified for disposal under the act, the offer will be considered as a filing during an applicable period for simultaneous filings, provided the offer covers a tract subsequently established by the classification order, or the offeror conforms his offer thereto. If, however, the classification order provides for the use of the special procedure pursuant to § 257.8, such offer will be returned to the offeror, and will be accompanied by Form 4–775, "Drawing Entry Card", where it appears from the offer that the offeror, because of veterans' preference, is entitled to participate in the drawing under the special procedure.

(b) Where, prior to September 27, 1954, land is classified by the regional administrator on his own motion or the classification order embraces additional land, other than the tract for which a preference right is accorded under paragraph (a) of this section, veterans of World War II only and other persons entitled to credit for service of veterans of World War II, in accordance with 43 CFR 181.40 and 181.41, will have a preference right, for 90 days after the effective date of the classification of the lands, to file an offer to lease any of the remaining tracts (sec. 4, act of September 27, 1944; 58 Stat. 748; 43 U. S. C. 282). This preference right does not apply to veterans of World War I or other wars of the United States.

(c) Upon the expiration of the veterans' preference period, referred to in paragraph (b) of this section, any lands in the classification order not disposed of or embraced in pending valid offers to lease will become subject to filing of offers to lease by the public generally.

§ 257.7 *Offer to lease; general procedure.* (a) An offer to lease a site under the act must be filed on Form 4–776, "Offer to Lease and Lease under Small Tract Act", and in conformity with the instructions therein. Copies of the form may be obtained from the manager or the Director; and must be completed and filed in duplicate (in triplicate, if for a business site), with the manager or, if there is no land office in the State, with the Director. The duplicate forms need not be executed under oath but they must be signed by the offeror.[1] The offeror's signature to the offer will also constitute his signature to the lease, when the offer is accepted and executed by the proper officer on behalf of the United States.

(b) If the land has not been classified under this act, the offeror should describe the desired tract, not to exceed five acres, by aliquot parts of a legal subdivision. Where the land has been classified, the offeror should describe the selected tract in accordance with the classification order or plat of survey. In such cases the offeror may also indicate that in the event the selected tract is not available for lease to him, he is willing to accept a lease for any other available tract described in the classification order, which the manager may allocate to him.

§ 257.8 *Special procedure; drawing; notice.* (a) The special procedure provided in this section will be used whenever, in the opinion of the regional administrator or of the Director, a multiplicity of filings by those entitled to claim veterans' preference for service in World War II is anticipated during a simultaneous filing period to be provided for in an order of classification, in excess of the number of tracts available for lease, necessitating a drawing to determine priority. In such event, the classification order will state that the special procedure will be used and that a drawing, limited to persons claiming veterans' preference, will be held; it will indicate the number of small tracts available for lease; it will set out the minimum requirements, including veterans' credit for service in World War II; and other information, including the amount of rental and filing fees to be paid by those successful in the drawing.

(b) Any person who believes he has the necessary qualifications, including veterans' preference, upon request to the manager or the Director designating the classification order by number, may obtain Form 4–775, "Drawing Entry Card." The entry card, completely filled out in accordance with the accompanying instructions, must be returned within the filing period specified in the classification order in order to be eligible to participate in the drawing; it should not be accompanied by any payment of filing fee or rental. An entrant may file only one entry card under each classification order; if more than one card is filed, the entrant shall be ineligible to participate in the drawing or to obtain a lease under the classification order. A drawing of all properly filed cards will be held on the day stated in the classification order to establish an adequate list of eligibles and of alternates to whom will be allocated; in consecutive order, the available tracts.

(c) The successful entrants, to whom a tract has been awarded in the drawing, will be furnished in duplicate Form 4–776, "Offer to Lease and Lease", bearing the description of the tract allocated to the entrant. The forms must be completely filled out, signed and returned, accompanied by the proper rental and filing fees and evidence of qualification, within the time allowed by the manager. Where an entrant does not sign the lease forms or he was not qualified to enter the drawing, or for any reason fails to comply with the requirements within the time allowed, the award will be withdrawn and canceled upon the records, and the lot will become available to the alternate next in line of drawing.

(d) Entrants who are unsuccessful in the drawing and to whom no lot was allocated will be informed thereof by the return of their respective drawing-entry cards carying a notation to that effect. After the lots have been awarded and leases executed, the entry cards of the remaining unsuccessful alternates will be returned to them.

§ 257.9 *Filing fee.* Every offer to lease a small tract must be accompanied by a filing fee of $10. No fee is required for the filing of a "Drawing Entry Card" or with an application for purchase, or for renewal of a lease, based on an outstanding lease. The filing fee will be retained in all cases, except where for any reason no lease is awarded to the offeror and no tract is allocated to him in accordance with § 257.7 (b).

§ 257.10 *Rental payment.* (a) If the land has been classified, the offer to lease must also be accompanied by the rental, as specified in the classification order, for the entire lease period. If, for any reason, a lease is not issued, the rental payment will be returned.

[1] 18 U. S. C. 1001 makes it a crime for any person knowingly and wilfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

(b) Unless otherwise provided in the classification order, land classified for lease and sale will be leased for a three-year term with a rental of $15; land classified for lease only, except a business site lease, will be for a five-year term with a rental of $25 for the lease period. For a business site lease for five years the minimum rental is $100 for the lease period; the annual rental, however, will be based on percentages of the gross income as specified in the lease, Form 4–776.

Where the land has not yet been classified, an offer to lease a tract, for other than a business site, must be accompanied by a minimum rental payment of $15, and for a business site, $100. If the rental provided in the subsequent order of classification is greater than the rental payment accompanying the offer to lease, the deficiency must be paid before the lease will issue.

(c) If an offer to lease is not properly executed or is not accompanied by the required filing fee and rental payment or is otherwise irregular, it will not be accepted but will be returned to the offeror in the form received.

§ 257.11 *Issuance of lease.* The manager may issue leases for not to exceed five years, upon lands classified for lease only, and for not to exceed three years upon lands classified for lease and sale: *Provided*, (a) The offeror upon issuance of the lease will have only one tract under the act, and (b) the offer covers a tract established by the classification order. All other leases will be issued by the regional administrator. The lease, part of Form 4–776, will issue and be valid when executed by the proper officer on behalf of the United States. The lease will contain provisions relating to the improvements to be placed on the lands and such other conditions of occupancy as are set forth in the order of classification, including an appropriate set-back of the improvements from the boundaries of the leased tract. Plans for improvements may be submitted to the regional administrator for approval in advance of construction.

§ 257.12 *Assignment of lease; subleasing not permitted.* (a) The manager may act upon and approve assignments of leases, except that where the assignee already holds a small tract under the act, approval of the assignment will be in the discretion of the regional administrator. No assignment will be recognized unless and until approved by the appropriate officer. An assignment will not be approved until substantial improvements, suitable to the type of use for which the lease issued, are constructed on the land, except where, upon a showing made by the lessee satisfactory to the regional administrator and corroborated by the statement of at least one witness, the lessee's failure to construct such improvements was caused by unforeseen or unavoidable misfortune.

(b) Proposed assignments of leases must be submitted for approval in duplicate within 90 days from the date of execution. The proposed assignment must contain all the terms and conditions agreed upon by the parties thereto, must be accompanied by the same showing as to qualifications and holdings of the assignee as was required of the lessee in § 257.5, and must be supported by a statement that the assignee agrees to be bound by the provisions of the lease.

(c) The subleasing, in whole or in part, of a tract leased under the act will not be approved, and will constitute a violation of the terms of the lease.

§ 257.13 *Option to purchase; sale; patent.* (a) Lands will not be sold directly under the act but only on the basis of an outstanding lease, containing an applicable option to purchase clause. The option to purchase will apply only to tracts classified for lease and sale, and will afford the lessee or his duly approved successor in interest an opportunity to purchase the tract at or after the expiration of one year from the date the lease issued, provided the improvements required by the lease have been made, and the lessee or his successor in interest has otherwise complied with the terms and conditions of the lease. The option to purchase clause will set forth the appraised value of the unimproved land at the date the lease was issued. The net price at which the land may be purchased will consist of the appraised value plus the cost of survey, if any, necessary to describe the land properly, as provided in § 257.17, and minus an amount equal to the advance rental for each full lease year, if any, subsequent to the filing of the application to purchase.

(b) An application to purchase should be filed with the manager in duplicate on Form 4–775a during the term of the lease but not more than 30 days prior to the expiration of one year from the date of lease issuance, together with a statement as to the cost, type, and character of the improvements constructed on the land.

(c) If a sale is authorized, the applicant will be allowed 60 days from service of notice thereof to pay the amount required. If the purchase price is $100 or less, the entire amount must be paid within the 60-day period. If the price is more than $100 and not more than $200, at least $100 must be paid within the 60-day period and the balance within one year after such payment. If the price is more than $200, at least one-third of the purchase price but not less than $100 must be paid within the 60-day period, and the balance in two equal installments due, respectively, within one and two years after the date of the first payment.

§ 257.14 *Renewal of lease.* (a) An offer for the renewal of a lease must be filed not more than six months or less than 60 days prior to the expiration of the lease, and will accord the lessee or his approved successor in interest a preference right to a new lease only if it is determined that a new lease should issue, and upon such conditions and for such duration as may be fixed.

(b) The manager may act upon offers for renewal and issue new leases only if the land was classified for lease only, and the lessee has constructed satisfactory improvements on the tract appropriate to the type of use for which the lease originally issued, such as a substantial and presentable dwelling suitable for year-round or seasonal use where the land was classified for residence purposes. A lease for land classified for lease only will not be renewed if satisfactory improvements have not been constructed thereon during the lease term.

(c) A lease for land classified for lease and sale is not subject to renewal, except upon a showing satisfactory to the regional administrator, corroborated by the statement of at least one witness, that the lessee's failure to apply for sale of the tract is justified under the circumstances and that non-renewal of the lease would work an extreme hardship on the lessee.

§ 257.15 *Minerals; timber.* (a) Any lease or patent issued under the act will reserve to the United States (1) all deposits of coal, oil, gas, or other minerals, together with the right to prospect for, mine, and remove the same under such regulations as the Secretary may prescribe, and (2) all fissionable source materials, together with the right to prospect for, mine, and remove the same in accordance with the act of August 1, 1946 (60 Stat. 755; 42 U. S. C. 1801–1809). Any minerals subject to the leasing laws in the lands patented or leased under the terms of the act may be disposed of to any qualified person under applicable laws and regulations in force at the time of such disposal. No provision is made at this time to prospect for, mine, or remove the other kinds of minerals that may be found in such lands; and until rules and regulations have been issued, such reserved deposits will not be subject to prospecting or disposition.

(b) A lessee will not be permitted to cut timber from the leased lands without first obtaining permission from the regional administrator. Such permission will not be granted except where the timber is to be cut to clear the land or to make improvements thereon.

§ 257.16 *Rectangular survey; supplemental plats; streets and roads.* (a) The official township plats ordinarily provide the basis for descriptions of tracts, in compact form, in units of 5 acres or aliquot parts thereof. However, as an aid in the identification of the tracts on the ground, frequently it is desirable to subdivide, by survey, the areas classified for administration as small tracts in order that at least one corner of each such tract be marked on the ground. The condition of the original survey and the ease of identification of the individual tracts on the ground are governing factors in deciding whether additional surveys should be made. Such surveys, made simply for the purpose of marking corners of legal subdivisions of the rectangular surveys, are not considered as "special surveys," and the cost thereof will not enter into the selling price of the land. For convenience in description the tracts may be identified by lot numbers, but only by preparation of an official supplemental plat for that purpose by protraction from the subsisting record or based upon supplemental surveys in the field. Such identification will be effected as of the date of official filing of the plat in the land office.

(b) Where a tract is situated in the fractional portion of a sectional lotting, a supplemental plat may be required to afford a suitable description. The plat will be prepared at the time the lease issues. If the subdivision of the sectional lotting would result in narrow strips or other areas containing less than 2½ acres, not suitable for sale or lease as separate units, such excess areas, in the discretion of the regional administrator, may be included in the adjoining 5-acre tracts.

(c) Unless otherwise provided in the classification order, the leased land will be subject to a right-of-way of not to exceed 33 feet in width along the boundaries of the tract for street and road purposes and for public utilities. The location of such access streets or roads may be indicated on a working copy of the official plat maintained in the land office; or where the land has been classified for lease and sale, the right-of-way may be definitely located prior or subsequent to the issuance of patents; and an appropriate clause reserving the easement for such right-of-way will be incorporated into each lease or patent.

§ 257.17 *Irregular tracts; cost of special survey.* Where, in the opinion of the regional administrator, the rectangular form is not the most desirable plan for development of an area, tracts irregular in form, not in excess of 5 acres each, may be leased or sold in accordance with the regulations in this part. In this matter the regional administrator may initiate action as an administrative measure, or may act upon an offer to lease. An offer to lease such tract should contain a metes and bounds description sufficiently complete to identify the location and boundaries of the land. A special official survey will be required of an irregular tract for purpose of identification and description in the lease or patent. If the action is initiated upon an offer to lease, the offeror will be required to make an advance payment to the manager, equal to the estimated cost of executing the survey, before the field work will be undertaken; he will be credited with any excess payments prior to the issuance of lease or patent. In the case of special surveys as administrative measures the cost of the survey will be considered as a normal expense under the regular appropriation available for surveying the public lands; and when the tracts are sold, the selling price shall not be less than the cost of survey of the particular tract. If there is a group of contiguous or closely associated tracts to be surveyed at one time, the cost of survey will be prorated among the several tracts on an acreage basis.

§ 257.18 *Tracts on unsurveyed land.* Unsurveyed public lands are not subject to lease or sale under the act. An offer filed for such lands will be rejected. However, if desired, the offeror may file a request for the survey of the lands with the regional administrator. The description must be sufficiently complete to identify the location, boundary, and area of the land. There should also be given, if possible, the approximate description or location of the land by section, township and range. A person who requests the survey of an area acquires no preferential right to apply for the land under the act upon the completion of the survey and the official filing of the plat. After the survey is completed and the official plat is placed on record, the surveyed area will be subject to the provisions of the act and an offer to lease may then be filed.

§ 257.19 *Termination or cancellation: removal of improvements.* (a) The lessee may terminate the lease, if he is not in default thereunder, subject to the consent of the regional administrator, by filing a notice of relinquishment of the lease in the proper land office. The manager may cancel any lease where the lessee has failed to comply with any of the terms, covenants, and stipulations of the lease, or to abide by any of the regulations in this part, and such default has continued for 30 days after written notice thereof.

(b) No refund will be made of rental for the unexpired term of a lease relinquished by the lessee or canceled by the manager for cause.

(c) Upon the termination, cancellation, or expiration of a lease, the lessee will have a period of 90 days within which to remove his improvements from the land or to make other disposition thereof; upon his failure to do so within the time allowed, the improvements will become the property of the United States.

§ 257.20 *Appeals.* An appeal pursuant to the rules of practice, Part 221 of this chapter, may be taken from the decision of any subordinate officer of the Bureau of Land Management to the Director, and from the Director's decision to the Secretary.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

OSCAR L. CHAPMAN,
Secretary of the Interior.

Appendix—Public Land Orders

[Public Land Order 671]

ALASKA

RESERVING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE AIR FORCE FOR MILITARY PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Air Force for military purposes:

Beginning at a point on the mean high tide line on the Bering Sea at the northwestern tip of St. Lawrence Island, approximate latitude 63°50′ N., longitude 171°36′ W., thence by metes and bounds:
S. 21°00′ W., 2.7 miles.
N. 48°30′ W., 1.1 miles.
N. 15°00′ E., 1.7 miles to a point on the mean high tide line of Bering Sea.
N. 76°00′ E., 1.6 miles to point of beginning.

The tract described contains approximately 1,700 acres.

Two road rights-of-way, 30 feet wide, described as follows:

Beginning at CAA Housing Site located near the village at Gambell, St. Lawrence Island, Alaska, a right-of-way 15 feet on each side of center line as follows:

Road No. 1. From point of beginning, South 63° 00′ E. one and three-tenths (1.3) miles, more or less, to point of intersection with Western boundary of the above described tract.

Road No. 2. From point of beginning, South between the Runway and Troutman Lake two and three-quarters (2.75) miles; thence running Southeasterly generally along the South bank of stream one and one-half (1.5) miles; thence North 21°00′ East generally two and three-quarters (2.75) miles; thence two-tenths (0.2) miles, more or less, to points of intersection with East Boundary of the above-described site.

This order shall take precedence over but not otherwise affect the Executive Order of January 7, 1903, withdrawing lands as a reindeer reserve, so far as such order affects above-described lands.

It is intended that the lands described above shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

OSCAR L. CHAPMAN,
Secretary of the Interior.

SEPTEMBER 11, 1950.

[Public Notice 57]

ORGANIZATIONAL CHANGE IN BUREAU OF INTER-AMERICAN AFFAIRS

Pursuant to the requirements of section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002; 60 Stat. 238), notice is hereby given that:

Effective September 1, 1950, the following organizational change is made for the Bureau of Inter-American Affairs of the Department of State:

(a) The Office of East Coast Affairs and the Office of North and West Coast Affairs are abolished.

(b) The Office of South American Affairs is established.

For the Secretary of State.

SEPTEMBER 11, 1950.

H. J. HENEMAN,
Director, Management Staff.

[F. R. Doc. 50-8129; Filed, Sept. 15, 1950; 8:52 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA RAILROAD TOWNSITE; MOOSE PASS TOWNSITE

NOTICE OF PUBLIC SALE

SEPTEMBER 6, 1950.

Notice is hereby given that the following lots in Moose Pass Townsite will be sold as hereinafter provided:

Block 1: Lots 3–6, inclusive.
Block 2: Lots 1–8, inclusive.
Block 3: Lots 2–5, inclusive.
Block 4: Lots 1–10, inclusive.
Block 5: Lots 1–10, inclusive.
Block 6: Lots 1–6, inclusive.

Appraised Price of Lots

All lots in Blocks 1 to 5 inclusive	$100.00
All lots in Block 6	25.00

Preference rights. Any person occupying any of the above lots on June 25, 1946, the date of completion of the subdivision survey of Moose Pass Townsite, or their assigns thereafter, will be given preference right of entry to lots occupied.

Claimants must file their applications for entry with the undersigned setting forth the basis of their claims for each lot included in their application. Each lot applied for must have valuable improvements and no person may apply for more than two lots. Each application must be verified by the affidavit of the claimant and corroborated by two witnesses. The affidavits may be subscribed and sworn to before any officer authorized to administer oaths and must bear his seal.

Applications must be accompanied by money order or certified check made payable to the Treasurer of the United States for the full appraised value of the lot or lots applied for as shown above.

Application blanks may be obtained from the undersigned, Box 480, Anchorage, Alaska, or from Robert A. Hall, Moose Pass Townsite Committee, Moose Pass, Alaska.

Any person claiming preference by reason of occupancy at the time of the subdivision survey must file his application in the U. S. Land Office at Anchorage, Alaska, on or before October 13, 1950, in order to obtain a preference right of entry.

All lots for which entry has not been made on the date of public sale will be subject to disposition at public sale as provided below in this notice.

Notice is hereby given that there will be offered at public sale to the highest bidder at 10:00 a. m. on the twenty-fifth day of October 1950, at the Sportsmen's Club, Moose Pass, all unsold lots in Moose Pass Townsite.

MOOSE PASS TOWNSITE

Terms of public sale. No lot will be sold for less than the appraised price. No bid exceeding that amount will be accepted unless made in multiples of five dollars.

The purchase price must be paid to the Manager of the U. S. Land Office at Anchorage within ten days after the date of the sale. Payment will also be accepted by the officer conducting the sale at the time of sale.

For each lot offered, the lot, block number and the appraised value will be announced by the Superintendent of Sales. Bids may then be offered by all who may care to do so, when it appears that there will be no further offers the lot will be declared sold to the last and highest bidder. No person shall acquire more than two lots, except that a person who has already bought two lots may make a bid on any other lots and if no other bids are made he may be declared the successful bidder.

The successful bidder will receive from the Supt. of Sales a Memorandum Certificate, Form 4–013a, stating he is the successful bidder for the lot, the amount of the bid and the description of the lot.

This certificate together with an application to purchase, Form 4–013, must be presented to the Manager of the U. S. Land Office at Anchorage within ten days after date of issue and must be accompanied by the purchase price or the memorandum receipt obtained from the Supt. of Sales, if payment was made at time of sale. Thereupon, if all else be regular, the Manager will issue a certificate of sale. Patent will be issued by the Bureau of Land Management, Washington, D. C.

The officer conducting the sale is authorized to reject any and all bids for any lot, and to suspend, adjourn, or postpone the sale of any lot or lots. After all the lots have been offered, the sale will be adjourned or closed, as the officer in charge may deem proper. Lots remaining unsold at the close of the sale will be subject to private entry for cash at the appraised prices.

Patents for the lots, when issued, will contain a reservation of fissionable materials.

Your careful attention is directed to Sec. 2373 R. S. which reads as follows:

"Every person who, before or at the time of the public sale of any of the lands of the United States, bargains, contracts or agrees, or attempts to bargain, contract or agree with any other person, that the last-named person shall not bid upon or purchase the land so offered for sale, or any parcel thereof, or who by intimidation, combination, or unfair management, hinders or prevents, or attempts to hinder or prevent, any person from bidding upon or purchasing any tract of land so offered for sale, shall be fined not more than $1,000.00 or imprisoned not more than 2 years, or both."

LOWELL M. PUCKETT,
Regional Administrator and Superintendent of Sales, Alaska Railroad Townsites.

[F. R. Doc. 50-8102; Filed, Sept. 15, 1950; 8:48 a. m.]

ALASKA RAILROAD TOWNSITES; WASILLA TOWNSITE

NOTICE OF PUBLIC SALE

AUGUST 9, 1950.

Notice is hereby given that there will be offered at public sale to the highest bidder, but at not less than the minimum appraised price of each lot, at ten a. m., on the sixth day of October 1950, at the Community Hall, Wasilla, the following unsold and forfeited lots:

Wasilla Townsite

Block 4: Lots 3 to 21, inclusive.
Block 5: All.
Block 6: Lots 3 to 11, inclusive.

Any other vacant or forfeited lot in Wasilla Townsite will be offered at this sale upon request to the Superintendent on the date of the sale.

LOWELL M. PUCKETT,
Regional Administrator and Superintendent of Sales, Alaska Railroad Townsites.

WASILLA TOWNSITE

Terms of sale. No lot will be sold for less than the appraised price. No bid exceeding that amount will be accepted unless made in multiples of five dollars.

Globe Slide & Film Co., Albion, Mich., effective 8–24–50 to 2–23–51; one learner; developer, printer, enlarger, and colorist, 320 hours, 60 cents (stereopticon slides).

H. B. Hat Co., Inc., Fall River, Mass., effective 8–23–50 to 2–22–51; two learners; sewing machine operators, 240 hours; trimmers, 240 hours, 65 cents (millinery).

F. T. Shank, 122 Western Street, Johnstown, Pa., effective 8–23–50 to 2–22–51; three learners; seat-back maker, 320 hours; sewing machine operator, 480 hours, 60 cents except in sewing machine operations—60 cents for the first 320 hours and not less than 65 cents for the remaining 160 hours (making chair seats and backs).

Shastid Manufacturing Corp., Houston, Tex., effective 8–28–50 to 2–23–51; four learners; sewing machine operators, 480 hours; springers, 480 hours; upholsterers, 480 hours; wood working machine operators, 480 hours, 60 cents per hour for the first 320 hours and 65 cents per hour for the remaining 160 hours (upholstered furniture).

Wizard Weavers, Columbus, Ohio, effective 8–23–50 to 2–22–51; four learners; reweaver, 480 hours, 60 cents per hour for the first 320 hours and 65 cents per hour for the remaining 160 hours (reweaving damages in clothing).

The following special learner certificates were issued in the Shoe Industry. These certificates authorize the employment of learners in any occupations except custodial, maintenance, supervisory, and office and clerical occupations. The learning period is 480 hours at not less than 65 cents an hour for the first 240 hours and not less than 70 cents an hour for the next 240 hours, except as otherwise indicated in parenthesis.

Blue Grass Shoe Co., Nicholasville, Ky., effective 8–31–50 to 10–15–50; 35 learners.

Boyertown Shoe Corp., Philadelphia and Reading Avenues, Boyertown, Pa., effective 8–31–50 to 10–15–50; 10 percent learners.

Maisak Handler Shoe Co., Inc., Senath, Mo., effective 8–31–50 to 10–15–50; 55 learners.

Truitt Bros. Inc., Belfast, Maine, effective 8–31–50 to 10–15–50; six learners.

Independent Telephone Learner Regulations (29 CFR 522.82 to 522.93; as amended January 25, 1950 (15 F. R. 398).

Commerce Telephone Co., Commerce exchange, Commerce, Ga., effective 8–31–50 to 4–30–51.

The following special learner certificates were issued to the school-operated industries listed below:

Adelphian Academy, Holly, Mich., effective 9–1–50 to 9–1–51; wood shop, assembler, millman and related skilled and semiskilled operation; 45 learners; 250 hours at 50 cents, 250 hours at 55 cents, 250 hours at 65 cents.

Auburn Academy, Auburn, Wash., effective 9–16–50 to 9–15–51; wood shop, milling machine helpers, grader, inspector, finisher, packer; 60 learners; 250 hours at 50 cents, 250 hours at 55 cents, 250 hours at 65 cents.

Forest Lake Academy, Route 2, Maitland, Fla., effective 9–1–50 to 9–1–51; print shop, typesetting, press, bindery, and related skilled and semiskilled operations; 15 learners; 350 hours at 50 cents, 325 hours at 55 cents, 325 hours at 65 cents.

Ozark Academy, Gentry, Arkansas, effective 9–16–50 to 9–15–51; broom shop, broom maker (winder) stitcher, sorter and related skilled and semiskilled operation; eight learners; 150 hours at 50 cents, 125 hours at 55 cents, 125 hours at 65 cents.

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available except that employers of student-workers employed in school-operated industries were not required to certify to the non-availability of experienced workers. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 11th day of September 1950.

ISOBEL FERGUSON,
Authorized Representative of the Administrator.

CIVIL AERONAUTICS BOARD

[Docket No. 3213]

AEROVIAS "Q", S. A., ET AL.; HAVANA-NEW YORK FOREIGN AIR CARRIERS PERMIT CASE

NOTICE OF HEARING

In the matter of the applications of Aerovias "Q", S. A., Compania Cubana de Aviacion, S. A., and Expreso Aereo Inter-Americano, S. A., under section 402 of the Civil Aeronautics Act of 1938, as amended, for temporary or permanent foreign air carrier permits authorizing foreign air transportation between Havana, Cuba, and New York, N. Y.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 of said act, that a hearing in the above-entitled proceeding is assigned to be held on October 2, 1950, at 10:00 a. m. (e. s. t.) in Room E–214, Wing "C", Temporary Building No. 5, 16th Street and Constitution Avenue NW., Washington, D. C., before Examiner J. Earl Cox.

Without limiting the scope of the issues presented by said applications, particular attention will be directed to the following matters and questions:

1. Whether the proposed air transportation will be in the public interest.

2. Whether applicants are fit, willing, and able to perform such transportation.

3. Whether the authorization of the proposed transportation is consistent with any obligation assumed by the United States in any treaty, convention, or agreement in force between the United States and Cuba or any other foreign country.

4. Notice is further given that any person, other than a party of record, desiring to be heard in this proceeding must file with the Board on or before October 2, 1950, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details of the service proposed and authorization requested, interested parties are referred to the application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., September 13, 1950.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 50–8107; Filed, Sept. 15, 1950; 8:49 a. m.]

[Dockets Nos. 4443, 4480]

EASTERN AIR LINES, INC., ET AL.; TOUR BASING FARES

CORRECTED NOTICE OF HEARING

In the matter of the investigation to determine the lawfuness of certain tour basing fares proposed by Eastern Air Lines, Inc., National Airlines, Inc., Pan American World Airways, Inc., Braniff Airways, Inc. and other carriers.

Notice is hereby given that the Notice of Hearing in this proceeding dated September 8, 1950, originally issued in this proceeding is corrected to show that the hearing will be held on September 25, 1950, at 10:00 a. m. (e. d. s. t.) in Conference Room A, Departmental Auditorium, between 12th and 14th Streets on Constitution Avenue NW., Washington, D. C., before Examiner F. Merritt Ruhlen, instead of in Room 5130, Commerce Building, 14th and Constitution Avenue, as stated in the original notice.

Dated at Washington, D. C., September 12, 1950.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G–1422]

DELTA NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 12, 1950.

On June 19, 1950, Delta Natural Gas Co. (Applicant), a Kentucky corporation with its principal place of business in Stanton, Kentucky, filed an application for a certificate of public convenience and necessity authorizing the construction and operation of certain natural-gas facilities, subject to the jurisdiction of the Commission, all as more fully described in such application on file with the Commission and open to public inspection. By amendment thereto, filed on June 28, 1950, Applicant requested issuance of an order under section 7 of the Natural Gas Act, as amended, di-

recting Central Kentucky Natural Gas Company to sell and deliver such reasonable quantities of gas to Applicant as may be required to operate its feeder transmission and distribution systems.

Temporary authorization to construct and operate the requested facilities was granted by the Commission on August 22, 1950.

On August 22, 1950, the Commission granted Applicant's request for an order directing Central Kentucky Natural Gas Company to connect its facilities with those of the Applicant and to deliver and sell natural gas to Applicant for resale in Owingsville and Frenchburg, Kentucky.

The Commission finds:

(1) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on July 7, 1950 (15 F. R. 4327).

(2) Good cause exists for the prescribing of a shorter period of notice than provided for in §§ 1.19 and 1.20 of the Commission's rules of practice and procedure (18 CFR 1.20).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, a hearing be held on September 28, 1950, at 9:45 a. m. in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the said rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 12, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 50–8091; Filed, Sept. 15, 1950; 8:46 a. m.]

[Docket No. G–1402]

NEW YORK STATE NATURAL GAS CORP.

ORDER FIXING DATE OF HEARING

SEPTEMBER 12, 1950.

On May 31, 1950, New York State Natural Gas Corporation (Applicant), a New York Corporation, having its principal office at 30 Rockefeller Plaza, New York, New York, filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, authorizing the construction and operation of a natural-gas compressor station subject to the jurisdiction of the Commission as fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on June 13, 1950 (15 F. R. 3704).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on October 4, 1950, at 9:30 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 12, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G–1455]

HOPE NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 12, 1950.

On August 3, 1950, Hope Natural Gas Company (Applicant), a West Virginia corporation, with its principal place of business in Clarksburg, West Virginia, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas facilities subject to the jurisdiction of the Commission, all as more fully described in such application on file with the Commission and open to the public.

Applicant has requested that this application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for non-contested proceedings, and it appears to be a proper one for disposition under the aforesaid rule, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on August 18, 1950 (15 F. R. 5518).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing be held on October 5, 1950, at 9:30 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 12, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G–1461]

UNITED NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 12, 1950.

On August 11, 1950, United Natural Gas Company (Applicant), a Pennsylvania corporation having its principal place of business in Oil City, Pennsylvania, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural-gas transmission facilities, subject to the jurisdiction of the Commission, as fully described in such application on file with the Commission and open to public inspection.

Applicant has requested that this application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure for non-contested proceedings, and this proceeding appears to be a proper one for disposition under the aforesaid rule, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on August 30, 1950 (15 F. R. 5855).

The Commission orders:

(A) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing be held on October 3, 1950, at 9:30 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by § 1.8 and 1.37 (f) (18 CFR 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 12, 1950.

[Docket No. E–6306]

NEW HAMPSHIRE ELECTRIC CO.

ORDER SETTING HEARING AND DIRECTING HOLDING OF PRE-HEARING CONFERENCE

SEPTEMBER 12, 1950.

An order to show cause has been issued; a response and motions to dismiss the proceeding have been filed by New Hampshire Electric Company; and request has been made for a hearing on all matters involved both of fact and law, and for a pre-hearing conference under § 1.18 of the Commission's general rules and regulations.

The Commission orders:

(A) A public hearing be held in Washington, D. C., at a time and place hereafter to be designated, on the issues in this proceeding, including those raised by the motions to dismiss.

(B) A pre-hearing conference be held to be presided over by the trial examiner assigned to this case at the offices of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., at 10:00 a. m. (e. s. t.) on September 19, 1950, under the provisions of § 1.18 of the Commission's general rules and regulations (18 CFR 1.18).

(C) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's general rules and regulations (18 CFR 1.8 and 1.37 (f)).

Date of issuance: September 12, 1950.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25408]

WALLBOARD TAPE FROM OFFICIAL TERRITORY TO THE SOUTH

APPLICATION FOR RELIEF

SEPTEMBER 13, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and I. N. Doe, Agents, for and on behalf of carriers parties to the tariff named below.

Commodities involved: Tape, wallboard, jointing or reinforcing, carloads.

From: Points in Trunk Line and New England territories.

To: Points in North Carolina, Virginia, Kentucky and Tennessee.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: C. W. Boin's tariff I. C. C. No. A–726, Supplement 207.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 25409]

WOOL FROM THE WEST TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

SEPTEMBER 13, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for and on behalf of carriers parties to his tariffs I. C. C. Nos. A–3776 and 1539.

Commodities involved: Wool and mohair, carloads.

From: Points in Western Trunk Line and Pacific Coast territories.

To: Points in Official territory.

Grounds for relief: Competition with rail carriers, circuitous routes and to maintain grouping.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 25410]

SAND FROM ATTICA, IND., TO TAYLORVILLE, ILL.

APPLICATION FOR RELIEF

SEPTEMBER 13, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for and on behalf of the Wabash Railroad Company.

Commodities involved: Sand, carloads.

From: Attica, Ind.

To: Taylorville, Ill.

Grounds for relief: Competition with motor carriers and wayside pit competition.

Schedules filed containing proposed rates: Wabash Railroad Company's tariff I. C. C. No. 7324, Supplement 259.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 31–569, 70–2296—70–2298]

AMERICAN POWER AND LIGHT CO. ET AL.

ORDER RELEASING JURISDICTION OVER COUNSEL FEES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of August A. D. 1950.

In the matter of American Power & Light Company, File No. 70–2298; Bear, Stearns & Co., File No. 70–2296; A. C. Allyn and Company, Inc., File No. 70–2297; B. J. Van Ingen & Co., Inc., et al., File No. 31–569.

The Commission by order dated February 3, 1950, having permited to become effective a declaration, as amended, filed by American Power & Light Company ("American"), a registered holding company, regarding the sale by American of 500,000 shares (100 percent) of the common stock of its then electric utility subsidiary, Pacific Power & Light Company, for a base cash price of $16,125,000; and

Said order of February 3, 1950, not having contained a release of jurisdiction with respect to the payment of counsel fees by American and the Commission's Memorandum Findings and Opinion dated June 28, 1950, herein having stated that before final payment by American of any counsel fees in connection with said sale American should advise the Commission as to the amount of any fees proposed to be paid and indicate the character and extent of services rendered; and

The record having now been completed in respect to the foregoing and indicating that American proposes to pay the following fee:

Root, Ballantine, Harlan, Bushby & Palmer, $26,700.

The Commission, on the basis of its examination of the record, as completed, finding that the payment of the fee as set forth above is not unreasonable, and finding it appropriate to release jurisdiction over the payment of such fee:

It is ordered, That jurisdiction be, and it hereby is, released over the fees and expenses of counsel for American in this proceeding.

By the Commission.

[File No. 70–2452]

UTAH POWER & LIGHT CO.

SUPPLEMENTAL ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE UNDER CERTAIN CONDITIONS

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of September A. D. 1950.

Utah Power & Light Company ("Utah"), a registered holding company and a utility operating company, having filed a declaration and an amendment thereto, pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (a) and 7 thereof and Rule U-50 thereunder, regarding the issue and sale at competitive bidding of 166,604 additional shares of its common stock, subject to a rights offering to its present stockholders, and $8,000,000 principal amount of its First Mortgage Bonds, ____% Series due 1980; and

The Commission having by order dated August 29, 1950 permitted said declaration, as then amended, to become effective subject to the condition that the proposed sales of securities not be consummated until the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order entered by the Commission in the light of the record as so completed, and subject to a reservation of jurisdiction with respect to the payment of all counsel fees and expenses in connection with the proposed transactions, including the fees and expenses of counsel for the successful bidders; and

Utah having filed a further amendment to its declaration setting forth that it had requested bids for the common stock only, bids for the bonds to be requested at a later date, and that in response to such invitations the following bids for the common stock were received:

Underwriter	Price to company (per share) [1]	Underwriter's compensation	Aggregate net proceeds
Union Securities Corp. and Smith, Barney & Co.	$24.25	$193,260.63	$3,846,886.37
Blyth & Co., Inc.	24.125	206,566.00	3,752,753.50
Lehman Bros.	24.25	209,887.20	3,749,259.80
Kidder, Peabody & Co. and Merrill Lynch, Pierce, Fenner & Beane	24.00	204,733.75	3,753,762.25
W. C. Langley & Co. and Glore, Forgan & Co.	22.50	244,500.00	3,501,000.00

[1] The price to the company indicates the subscription price to stockholders.

The amendment further stating that Utah has accepted the bid of the underwriting group jointly headed by Union Securities Corporation and Smith, Barney & Co., as set forth above; and it appearing that the underwriting agreement provides that the said underwriters will purchase from the company at the subscription price indicated above such of the shares as are not purchased upon exercise of subscription warrants, and that if any such shares are sold by the underwriters after the expiration of the subscription period and prior to 21 days after such expiration at a price in excess of the subscription price, the underwriters will pay to the company in addition to the subscription price one-half of such excess; and

The record not having been completed with respect to fees and expenses incurred in connection with the sale of said stock:

It is ordered, Subject to the terms and conditions prescribed in Rule U-24 that the said declaration, as amended, be and the same hereby is permitted to become effective forthwith subject to the following conditions:

(1) That jurisdiction heretofore reserved with respect to the sale of the bonds in that such sale shall not be consummated until a further amendment shall be filed setting forth the results of competitive bidding and a further order entered by the Commission in the light of the record so completed, be and the same hereby is continued; and

(2) That jurisdiction heretofore reserved with respect to counsel fees and expenses in connection with the sale of bonds and common stock, including the fees and expenses of counsel for the successful bidders, be and the same hereby is continued.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–2454]

NATIONAL FUEL GAS CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of September A. D. 1950.

National Fuel Gas Company ("National"), a registered holding company, having filed a declaration pursuant to the provisions of sections 9 (a) and 10 of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder, with respect to the following transaction:

National as the holder of 52.53 percent of the outstanding common capital stock of its utility subsidiary, Pennsylvania Gas Company, proposes to purchase 24,000 shares of such stock from the Executors of the Estate of Mary C. Jefferson, deceased, at a net cost to National of $16.50 per share. National also proposes to offer to purchase any other shares of such stock at the above price as may be tendered to it by any other stockholder of Pennsylvania Gas Company at any time within 20 days after the mailing of notice of such offer to said stockholders.

Said declaration having been filed and notice of said filing having been duly given in the form and manner prescribed by Rule U-43 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said declaration be permitted to become effective, and deeming it appropriate to grant a request of declarant that the order become effective at the earliest date possible:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that the said declaration be, and hereby is permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[File No. 70–2458]

UNITED GAS CORP. AND ELECTRIC BOND AND SHARE CO.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of September A. D. 1950.

Notice is hereby given that Electric Bond and Share Company ("Bond and Share"), a registered holding company, and its gas-utility subsidiary, United Gas Corporation ("United"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935. The application-declaration states that the contract proposed to be entered into shall not become effective until approved by the Commission or until the Commission shall have advised the companies that it is without jurisdiction with respect to the proposed contract. The nature of the proposed transaction is summarized as follows:

United and Bond and Share have entered into a contract with National Research Corporation ("National"), a nonaffiliated company engaged in industrial research. Under the terms of the contract, National is to engage in certain research work in an effort to develop new processes or products based on natural gas and its constituents. Such services are to be performed by National at cost plus certain amounts for overhead as specified in the contract. The duration of the contract is to be until December 31, 1955.

Under the terms of the contract, United and Bond and Share will each contribute 50 percent of the costs of such research. The rights of the parties in all results of the work subject to the agreement are 40 percent each for Bond and Share and United, and 20 percent for National.

The contract provides that Bond and Share and United, between them, are committed to expend in each year on work to be done by National the following amounts:

1950 [1]	$12,500	1953	$250,000
1951	150,000	1954	250,000
1952	200,000	1955	250,000

[1] Times the number of full calendar months remaining in 1950 subsequent to the effective date of the agreement.

The contract provides that on or before October 1 of each year, National will submit a budget for the work to be done in the succeeding calendar year. If United and Bond and Share by December 1 of each year agree upon a program involving a budget of at least the amount shown in the above commitment for the succeeding calendar year then such program shall be adopted. If United and Bond and Share cannot agree upon such program then National is to proceed with the work and the amount of the budget for the succeeding calendar year shall be the amount set forth for such year in the above commitment.

The application-declaration states that expenditures by United and Bond and Share for any calendar year aggregating in excess of $1,000,000 will not be made unless the companies shall have given the Commission at least ten days prior notice of their intention to make such expenditure, and (1) no notice shall have been given to the companies by the Commission within such ten-day period that an application or declaration need be filed with respect to such expenditures, or that the Commission shall have given notice within such ten-day period that no application or declaration is required; or (2) an application or declaration filed by the companies with respect to the transactions shall have been granted or permitted to become effective by order of the Commission.

United and Bond and Share further state that the transactions contemplated under the contract are limited to the actual research work to be done by National and the expenditure of funds by United and Bond and Share in connection with such research work, as distinguished from the commercial exploitation of any patents or inventions resulting from such research work, either by way of licensing under such patents, or by way of organizing a corporation or other joint venture for the purpose of using or working such patents.

The Commission having on August 22, 1950, issued a Notice of Filing giving interested persons until September 7, 1950, at 5:30 p. m., e. d. s. t., to request a hearing, and such request having been made by Samuel Okin, a stockholder of Bond and Share, in a petition dated September 6, 1950, which petition set forth certain issues of fact and law which he desires to controvert, and the Commission having also received a request from the common stockholders' committee of Bond and Share that should the Commission approve the transaction, it impose a condition retaining jurisdiction to require cancellation, modification, or amendment of said contract; and

The Commission having considered said request for hearing and the allegations contained therein, and the request made for imposition of a condition, and it appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application-declaration and that said application-declaration shall not be granted nor permitted to become effective except pursuant to a further order of the Commission;

It is ordered, That a hearing on said application-declaration and on the matters relating thereto pursuant to the applicable provisions of the act and the rules of the Commission, be held on September 19, 1950, at 10:00 a. m., e. d. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing is to be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before September 18, 1950, a request relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Harold B. Teegarden or any other officer or officers of this Commission designated by it for that purpose shall preside at such hearing. The officer or officers so designated to preside at such hearing are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Commission having considered the allegations contained in the request for hearing, and the Division of Public Utilities having advised the Commission that upon the basis of its examination of said request for hearing and the request for a condition, and its examination of the application-declaration, the following matters and questions are presented for consideration, without prejudice to the Commission's specifying additional matters and questions upon further examination:

(1) Whether the proposed transactions are subject to the jurisdiction of the Commission by reason of the provisions of sections 9 (a) and 10 of the act.

(2) Whether, in the light of the public interest or for the protection of investors or consumers or to prevent circumvention of the act, the rules, regulations, or orders thereunder, any action should be taken by the Commission with respect to the proposed transactions under the provisions of section 12 (f); and, if so, what such action should be.

(3) Whether the proposed transactions satisfy the provisions of section 10 of the act, particularly sections 10 (b) and 10 (c).

(4) Whether, in the event that the Commission shall grant the application and permit the declaration to become effective, it is necessary in the public interest, or for the protection of investors and consumers or to prevent circumvention of the act, the rules, regulations, or orders thereunder, to impose any terms and conditions with respect to the said transactions.

(5) Whether, in the event that the Commission shall grant the application and permit the declaration to become effective, jurisdiction should be reserved over the proposed contract and the parties thereto, so that the Commission may, upon its own motion, or upon the application of any interested person, or in connection with any proceeding under Section 11 of the Act involving Bond and Share, require such contract to be cancelled, modified, or amended.

(6) Whether action by the Commission on the application-declaration should be deferred pending determination of the application of Bond and Share (File No. 54–127) to be relieved

of its commitment to dispose of its holdings of the common stock of United.

It is ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this Notice and Order by registered mail to the applicants-declarants herein, to all persons who have been granted leave to participate in the proceedings relating to the application of Bond and Share to be relieved of its commitment with respect to United (File No. 54–127), and that additional notice be given to all other persons by publication of this notice and order in the FEDERAL REGISTER and general release of this notice and order distributed to the Press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 50–8100; Filed, Sept. 15, 1950; 8:47 a. m.]

[File No. 70–2477]

STANDARD POWER AND LIGHT CORP. AND STANDARD GAS AND ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 8th day of September 1950.

Notice is hereby given that there has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), a joint application-declaration by Standard Power and Light Corporation ("Standard Power"), a registered holding company, and its subsidiary Standard Gas and Electric Company ("Standard Gas"), also a registered holding company. Applicants-declarants have designated sections 6 and 7 of the act and Rules U-23 and U-24 promulgated thereunder as applicable to the proposed transaction.

Notice is further given that any person may, not later than September 29, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter said application-declaration may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of the Commission, for a statement of the transaction therein proposed, which may be summarized as follows:

Standard Power is the holder of a 4 percent unsecured promissory note issued by Standard Gas in the principal amount of $983,930. Such note originally was due October 10, 1949, but was extended to October 10, 1950, by agreement of the parties and with the approval of the Commission. (See H. C. A. R. No. 9402.) Such note was issued pursuant to authorization of this Commission in File No. 70–1211 in lieu of the payment of cash by Standard Gas to Standard Power in retirement of the latter's holdings of certain notes and debentures of Standard Gas. Such authorization permitted the issuance of the note by Standard Gas "upon the condition that Standard Power and Light Corporation hold such note subject to the infirmities, if any, which presently inhere in its holdings of notes and debentures of Standard Gas and Electric Company and without prejudice to the right of the Commission to take such further action as may from time to time be appropriate under the applicable provisions of the act and the rules and regulations thereunder". The nature or extent of the aforementioned infirmities, if any, not having been determined, the original maturity date of such note was previously extended in order to maintain the status quo. Applicants-declarants state that the nature or extent of the infirmities, if any, are still undetermined and therefore propose a further extension of the maturity date from October 10, 1950, to October 10, 1951.

Applicants-declarants estimate that the attorneys' fees in connection with the proposed transaction will not exceed $700 and that other expenses will not exceed $100.

Applicants-declarants request that the Commission's order be issued as soon as possible and that it become effective forthwith upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70–2478]

COLUMBIA GAS SYSTEM, INC.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of September A. D. 1950.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by The Columbia Gas System, Inc. ("Columbia"), a registered holding company. Declarant has designated section 12 (b) of the act and Rule U-45 promulgated thereunder as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than September 27, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 27, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Columbia proposes to make a cash capital contribution of $300,000 to its wholly owned subsidiary, Binghamton Gas Works ("Binghamton"). In connection therewith, Columbia proposes to increase its investment in the common stock of Binghamton by a like amount. The cash to be received by Binghamton will be used to finance its 1950 construction program.

By the Commission.

[Vesting Order 15017]

ALLIANZ LEBENSVERSICHERUNGS, A. G.

In re: Debts owing to Allianz Lebensversicherungs, A. G. F–28–22181–A–1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Allianz Lebensversicherungs, A. G., the last known address of which is 1 Jebenstrasse, Berlin-Charlottenburg, Germany, is a corporation, partnership, association or other business organization, organized under the laws of Germany, and which has, or since the effective date of Executive Order 8389, as amended, has had its principal place of business in Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Those certain debts or other obligations, matured and unmatured, evidenced by fifty (50) 4¼ percent Corporate Stock Certificates of the City of New York for the Construction of Rapid Transit Railroads, issue of April 19, 1916, of $1,000.00 face value each, said certificates bearing the numbers 1751–R–14/1800–R–14 and due April 1, 1966, together with any and all accruals to the aforesaid debts or other obligations, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under the aforesaid certificates, and

b. Those certain debts or other obligations, matured and unmatured, evidenced by one hundred (100) coupons, detached from the Certificates for 4¼ percent Corporate Stock of the City of New York, described in the aforesaid subparagraph 2 (a), said coupons each of $21.25 face value, fifty (50) due October 1939 and fifty (50) due April 1940, together with any and all accruals to the aforesaid debts or other obligations, and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under the aforesaid coupons,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Allianz Lebensversicherungs, A. G., the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all actions required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[Vesting Order 15022]

FRANZ AND IDA GOERG

In re: Bonds and banks accounts owned by Franz Goerg and Ida Goerg, F–28–30594–A–1; E–1; E–2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Franz Goerg, whose last known address is Klose Str. 28, Karlsruhe, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That Ida Goerg, on or since the effective date of Executive Order 8389, as amended, and on or since December 11, 1941, has been a resident of Germany and is a national of a designated enemy country (Germany);

3. That the property described as follows:

a. An undivided two-thirds (⅔) interest in three (3) Republic of Chile Ext. S/F 6 percent Bonds, due May 1, 1963, each of $1,000.00 face value, in bearer form, bearing the numbers 508/10 inclusive, presently in the custody of The National City Bank of New York, New York 15, New York, in a safekeeping account numbered B27825, entitled, "Credit Suisse, sub-account Estate of Alice Goerg, deceased, Blocked Account, Zurich, Switzerland," together with any and all rights thereunder and thereto,

b. An undivided two-thirds (⅔) interest in that certain debt or other obligation of The National City Bank of New York, New York 15, New York, arising out of a cash account entitled "Credit Suisse, sub-account Estate of Alice Goerg, deceased, Blocked Account, Zurich, Switzerland," maintained at the aforesaid bank, and any and all rights to demand, enforce and collect the same,

c. An undivided two-thirds (⅔) interest in that certain debt or other obligation of J. P. Morgan and Co., Incorporated, 23 Wall Street, New York 8, New York, arising out of an account entitled "Credit Suisse-Sub A/C Estate of Alice Goerg, deceased, Blocked A/C," maintained at the aforesaid company, and any and all rights to demand, enforce and collect the same,

d. An undivided two-thirds (⅔) interest in that certain debt or other obligation of Brown Brothers Harriman and Co., 59 Wall Street, New York 5, New York, arising out of an account entitled "Credit Suisse, Zurich, Sub Account Estate of Alice Goerg, deceased—Blocked Account," maintained at the aforesaid company, and any and all rights to demand, enforce and collect the same, and

e. An undivided two-thirds (⅔) interest in that certain debt or other obligation of the Bankers Trust Company, 16 Wall Street, New York 15, New York, arising out of an account, entitled "Credit Suisse, Zurich, Sub-Account Estate of Mrs. Alice Goerg, deceased," maintained at the aforesaid company, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Franz Goerg and Ida Goerg, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 and 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

B. H. RATERMANN

In re: Estate of B. H. Ratermann, deceased. File No. D-28-9971; E. T. sec. 14138.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Heinrich Eggemann and Maria Theresia Emma Eggemann, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Theodore Eggemann, also known as Johann Theodor Eggemann, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate of B. H. Ratermann, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by John Lager, as executor, acting under the judicial supervision of the County Court of Clinton County, Illinois;

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof and the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Theodore Eggemann, also known as Johann Theodor Eggemann, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 15049]

SHINJIRO KODAMA

In re: Rights of Shinjiro Kodama under Insurance Contract. File No. F-39-4872-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law after investigation, it is hereby found:

1. That Shinjiro Kodama, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 1,005,024, issued by the Sun Life Assurance Company of Canada, Montreal, Quebec, Canada, to Shinjiro Kodama, together with the right to demand, receive and collect said net proceeds (including without limitation the right to proceed for collection against branch offices and legal reserves maintained in the United States), is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 15048]

ALOIS KNAUER

In re: Rights of Alois Knauer under insurance contract. File No. F-28-30790-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Alois Knauer, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 97 825 271, issued by the Metropolitan Life Insurance Company, New York, New York, to Alois Knauer, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

FRITZ LIMPERT

In re: Rights of Fritz Limpert under Insurance Installment Certificate. File No. F-28-26651-H-7.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Fritz Limpert, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under Continuous Installment Certificate No. D-92-520-J, issued by The Mutual Benefit Life Insurance Company, Newark, New Jersey, to Fritz Limpert, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[Vesting Order 15052]

MIMAJI MITSUBOSHI

In re: Rights of Mimaji Mitsuboshi under Insurance Contract. File No. F-39-4123-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Mimaji Mitsuboshi, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the net proceeds due or to become due under Agreement and Account Book No. 56842, executed in settlement of a contract of insurance evidenced by policy No. 9,232,494, issued by the New York Life Insurance Company, New York, New York, to Mimaji Mitsuboshi, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

THE NATIONAL ARCHIVES
LITTERA SCRIPTA MANET
FEDERAL REGISTER
OF THE UNITED STATES 1934
VOLUME 15 NUMBER 181
Washington, Tuesday, September 19, 1950

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 958—IRISH POTATOES GROWN IN COLORADO

APPROVAL OF BUDGET OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget and rate of assessment, to be made effective under Marketing Agreement No. 97 and Order No. 58 (7 CFR 958.1 et seq.), regulating the handling of Irish potatoes grown in the State of Colorado was published in the FEDERAL REGISTER (15 F. R. 5477). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the area committee for Area No. 2 (established pursuant to said agreement and order), the following rules and regulations are hereby approved.

§ 958.205 *Budget of expenses and rate of assessment, Area No. 2.* (a) The expenses necessary to be incurred by the area committee for Area No. 2, established pursuant to Marketing Agreement No. 97 and Order No. 58, to enable such committee to perform its functions pursuant to the provisions of the aforesaid marketing agreement and order and regulations duly issued thereunder, during the fiscal period ending May 31, 1951, will amount to $5,880.00.

(b) The rate of assessment, to be paid by each handler who first ships potatoes from Area No. 2, shall be one-sixth of one cent per hundredweight of potatoes shipped by him therefrom as the first shipper thereof during such fiscal period: *Provided*, That no assessment shall be paid for a shipment or shipments of potatoes for consumption by a charitable institution or institutions or for distribution for relief purposes or for distribution by a relief agency or agencies.

(c) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 14th day of September 1950, to become effective 30 days after publication hereof in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50-8191; Filed, Sept. 18, 1950; 8:56 a. m.]

PART 960—IRISH POTATOES GROWN IN THE STATES OF MICHIGAN, WISCONSIN, MINNESOTA AND NORTH DAKOTA

APPROVAL OF BUDGET OF EXPENSES AND RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget and rate of assessment, to be made effective under Marketing Order No. 60 (7 CFR 960), regulating the handling of Irish potatoes grown in the States of Michigan, Wisconsin, Minnesota, and North Dakota, was published in the FEDERAL REGISTER (15 F. R. 5434). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the North Central Potato Committee (established pursuant to said marketing order), the following rules and regulations are hereby approved.

§ 960.204 *Budget of expenses and rate of assessment*—(a) *Findings.* It is hereby found that good cause exists for making the following rules and regulations effective upon publication in the FEDERAL REGISTER because: (1) Shipments of the 1950 crop of Irish potatoes grown in the production area have begun; (2) § 960.12 provides that each per-

son who first ships such potatoes shall pay assessments in connection therewith, regardless of the date during the fiscal year on which the assessment rate is fixed; and (3) more orderly administration, tending to effectuate the declared policy of the act, will be attained if the effective date of the assessment rate so fixed is as close as possible to the date of such shipments, so that handlers will be able to ascertain and pay their obligation promptly. The information upon which the budget and rate of assessment is based did not become available in sufficient time to permit both notice of proposed rule making and a 30-day delay in the effective date thereof after publication in the FEDERAL REGISTER.

(b) *Order.* The expenses necessary to be incurred by the North Central Potato Committee, established pursuant to Marketing Order No. 60, to enable such committee to carry out its functions pursuant to provisions of the aforesaid marketing order, during the fiscal year ending June 30, 1951, will amount to $62,441.00;

The rate of assessment to be paid by each handler who first ships potatoes during the current fiscal year shall be $1.00 per railroad car or per truckload of more than 20,000 pounds of such potatoes, and fifty cents per truckload of 20,000 pounds or less of such potatoes, and one-quarter cent per hundredweight for other units, whether by floor lot, bin, or warehouse: *Provided*, That a minimum assessment of fifty cents shall be paid by each handler who first ships each truckload or other unit of potatoes during the current fiscal year: *Provided*, That no assessment shall be paid for a shipment or shipments of potatoes for consumption by a charitable institution, or for distribution for relief purposes, or for distribution by a relief agency or agencies; and

Terms used in this section shall have the same meaning as when used in Marketing Order No. 60.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 14th day of September 1950, to become effective upon publication hereof in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

PART 979—IRISH POTATOES GROWN IN EASTERN SOUTH DAKOTA PRODUCTION AREA

APPROVAL OF BUDGET OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding rules and regulations relative to a proposed budget and rate of assessment, to be made effective under Marketing Agreement No. 103 and Order No. 79 (7 CFR 979.1 et seq.), regulating the handling of Irish potatoes grown in the Eastern South Dakota production area was published in the FEDERAL REGISTER (15 F. R. 5319). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051). After consideration of all relevant matters presented, including the rules and regulations set forth in the aforesaid notice, which rules and regulations were adopted and submitted for approval by the South Dakota Potato Committee (established pursuant to said agreement and order), the following rules and regulations are hereby approved.

§ 979.203 *Budget of expenses and rate of assessment.* (a) The expenses necessary to be incurred by the South Dakota Potato Committee, established pursuant to Marketing Agreement No. 103 and Order No. 79, to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal year ending June 30, 1951, will amount to $2,500.00;

(b) The rate of assessment to be paid by each handler who first ships potatoes shall be one-half cent per hundredweight of potatoes handled by him as the first handler thereof during said fiscal year; and

(c) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 103 and Order No. 79.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 14th day of September 1950, to become effective 30 days after publication thereof in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 10—ATOMIC ENERGY

Chapter I—United States Atomic Energy Commission

PART 4—SECURITY CLEARANCE PROCEDURES

GENERAL PROVISIONS

Sec.
4.1 Purpose.
4.2 Scope.
4.3 Reference.
4.4 Policy.

PROCEDURES

4.10 Determination of employment status.
4.11 Notice to individual.
4.12 Additional information.
4.13 Failure of individual to file answers.
4.14 Appointment of Boards.
4.15 Conduct of proceedings.
4.16 Recommendations of the Board.
4.17 New evidence.
4.18 Actions on the recommendations.

MISCELLANEOUS

4.20 Modification of procedure.

AUTHORITY: §§ 4.1 to 4.20 issued under 60 Stat. 755; 46 U. S. C. 1801 et seq.

GENERAL PROVISIONS

§ 4.1 *Purpose.* This part establishes procedures and methods for the conduct of local board hearings and administrative review of questions or recommendations concerning eligibility of an individual for security clearance pursuant to the Atomic Energy Act of 1946.

§ 4.2 *Scope.* The procedures outlined in this part will be used in those cases in which there are questions as to eligibility for security clearance as a re-

sult of application of the standards set forth in "AEC Personnel Security Clearance Criteria for Determining Eligibility" (14 F. R. 42) and which involve:

(a) Employees and applicants for employment with or as consultants to the Atomic Energy Commission.

(b) Applicants, employees, and consultants of contractors, agents and licensees of Atomic Energy Commission, subject to the security control of the Atomic Energy Commission, or

(c) Those other persons designated by the General Manager of the Atomic Energy Commission.

§ 4.3 *References.* The pertinent sections of the Atomic Energy Act of 1946 are as follows:

SEC. 10. (a) *Policy.* It shall be the policy of the Commission to control the dissemination of restricted data in such a manner as to assure the common defense and security.

SEC. 10. (b) (5) (B) (i). No arrangement shall be made under section 3, no contract shall be made or continued in effect under section 4, and no license shall be issued under section 4 (c) or 7, unless the person with whom such arrangement is made, the contractor or prospective contractor, or the prospective licensee agrees in writing not to permit any individual to have access to restricted data until the Federal Bureau of Investigation shall have made an investigation and report to the Commission on the character, associations and loyalty of such individual and the Commission shall have determined that permitting such person to have access to restricted data will not endanger the common defense or security.

(ii) Except as authorized by the Commission in case of emergency no individual shall be employed by the Commission until the Federal Bureau of Investigation shall have made an investigation and report to the Commission on the character, associations, and loyalty of such individual.

(iii) Notwithstanding the provisions of subparagraphs (i) and (ii), during such period of time after the enactment of this act as may be necessary to make the investigation, report, and determination required by such paragraphs.

(a) Any individual who was permitted access to restricted data by the Manhattan Engineer District may be permitted access to restricted data, and

(b) The Commission may employ any individual who was employed by the Manhattan Engineer District.

§ 4.4 *Policy.* Consistent with the security requirements, it is the policy of the Atomic Energy Commission to afford to those individuals listed in § 4.2 maximum opportunity for administrative review of any determination to deny or revoke security clearance.

PROCEDURES

§ 4.10 *Determination of employment status.* In those cases where information is received which raises questions concerning the eligibility of an employee for security clearance, the Manager of the office concerned (or in the case of an employee at Washington, D. C., the Deputy General Manager) will, prior to making any recommendation as to the employee's eligibility for security clearance, consult with appropriate AEC staff members and, in the case of a contractor's employee (or consultant), representatives of the employing contractor, and decide, without undue delay, the employment status of the individual to be effective pending the final security clearance determination resulting from the operation of the procedures provided in this part.

§ 4.11 *Notice to individual.* The Manager, or his designated representative, will present personally to the individual a notification letter which shall state:

(a) That information obtained as a result of the investigation has created a question concerning the individual's eligibility for security clearance.

(b) The information, stated in as much detail and as specifically as considerations of security permit, upon which doubt arises regarding the individual's eligibility for security clearance.

(c) That a hearing will be scheduled before a Personnel Security Board for the purpose of eliciting information to assist in determining the eligibility of the individual for security clearance.

(d) That within ten days of the date of receipt of the notification letter the individual shall file with the Manager from whom he received such letter his written answer to the matters contained therein and indicate his intention to be present at the hearing.

(e) That the individual will be notified in writing of the membership of a Personnel Security Board when it is appointed by the Manager.

(f) That the individual will have the right to appear personally before a Personnel Security Board, be present during the entire hearing, be represented by counsel of his own choosing, and present evidence in his own behalf, through witnesses, or by documents, or both.

(g) That the individual's failure to file written answer and indicate his intention to be present at the hearing, shall be considered as a relinquishment by him of the opportunity of availing himself of the privileges accorded to him under the hearing and review procedure provided in this Part and that in such event a recommendation of the final action to be taken will be made by the Manager of Operations and submitted to the General Manager on the basis of the existing records without reference to a Personnel Security Board.

(h) His employment status until further notice.

(i) The name of the designated AEC official to contact for any further information desired.

§ 4.12 *Additional information.* An informational copy of the procedure for hearings and review shall be given to the individual with the notification letter.

§ 4.13 *Failure of individual to file answers.* In the event the individual fails to file written answer to the notification letter within the prescribed time, a recommendation as to the final action to be taken will be made to the General Manager on the basis of the existing record. The Manager may for good cause, at the request of the individual, extend the time for filing written answers to the matters contained in the notification letter.

§ 4.14 *Appointment of Boards.* (a) Upon the receipt from the individual of his written answer to the notification letter, signifying his desire to appear before a Personnel Security Board, the Manager shall forthwith appoint a Board consisting of three members, one to be designated as the Chairman.

(b) The personnel of the Boards, when practicable as determined by the Manager, shall consist of at least one member who is familiar with the general field of work of the individual.

(c) The personnel shall be selected from a panel composed of Atomic Energy Commission employees, employees of contractors of the Atomic Energy Commission, or of such other persons as the Manager determines possess the necessary qualifications for sitting as members of a Personnel Security Board. All persons sitting as members of Personnel Security Boards shall have a full "Q" clearance.

(d) No person shall sit in a case as a member of a Personnel Security Board who has prejudged the matter, or who possesses information that would make it embarrassing to render an impartial recommendation, or who for bias or prejudice generated for any reason would be unable to render a fair and impartial recommendation.

(e) Immediately upon the appointment of a Personnel Security Board, the Manager will notify the individual of the names of the members of the Board and of his right to challenge any member for cause, such challenge or challenges to be submitted to the Manager within seventy-two hours of the receipt of the notice.

(f) In the event that the individual challenges a member or members of the Board, the justification of the action of the individual shall be determined by the Manager. Where the challenge of the individual is sustained, the Manager should forthwith appoint such new members to the Board as will constitute a full Board and notify the individual of his action. The Manager will likewise notify the individual of his rejection of any challenge.

(g) At least forty-eight hours' advance notice from time of receipt will be given the individual by the Chairman of a Personnel Security Board of the date, hour, and place the Board will convene for the purpose of receiving the evidence that the individual chooses to present.

§ 4.15 *Conduct of proceedings.* (a) The proceedings shall be presided over by the Chairman of the Board and shall be conducted in an orderly and decorous manner with every effort made to protect the interests of the Government and of the individual. In no case will undue delay be tolerated nor will the individual be hampered by unduly restricting the time necessary for proper preparation and presentation. In performing their duties, the members of the Board shall avoid the attitude of a prosecutor and shall always bear in mind and make clear to all concerned that the proceeding is an inquiry and not a trial.

(b) The proceedings shall be open only to duly authorized representatives of the staff of the Atomic Energy Commission, the individual, his counsel, and such persons as may be officially authorized by the Board.

(c) During the course of the proceedings the Chairman shall rule in open session on all questions presented to the Board for its determination, subject to the objection of any member of the Board. In the event of an objection by any member of the Board, a majority vote of the Board will be determinative and constitute the ruling of the Chairman. Voting may be either in open or closed session on all questions except recommendations to grant or deny security clearance, which shall be in closed session.

(d) In the event that it appears in the course of the hearing that restricted data may be disclosed, it shall be the duty of the Chairman to assure that disclosure is not made to persons who are not authorized to receive it.

(e) The Board will ask the individual, AEC representatives, and other witnesses any questions calculated to obtain the fullest possible disclosure of relevant and material facts. The proponent of a witness shall conduct the direct examination of that witness.

(f) The Board will not engage in any arguments with either the individual, his witnesses, or his counsel. Nor will the Board permit any person to argue from the witness stand.

(g) The Board will admit in evidence any matters either oral or written which, in the minds of reasonable men, is of probative value to determine the issues involved. The utmost latitude will be given the subject with respect to relevancy, materiality, and competency. Every reasonable effort will be made to obtain the best evidence reasonably available. Hearsay evidence will be admitted without regard to technical rules of admissibility and accorded such weight as the circumstances warrant.

(h) Witnesses will be permitted to testify either under oath, affirmation, or without either, and such weight will be given to this testimony as the circumstances warrant. Attention of the witness shall be invited to 18 U. S. C. 1001 or 18 U. S. C. 1621, as appropriate.

(i) The individual will be afforded the opportunity of testifying in his own behalf. His failure to testify may be considered by the Board in reaching its recommendation.

(j) The Board shall endeavor to obtain all the facts that are reasonably available in order for it to arrive at its recommendations. If, prior to or during the proceeding, in the opinion of the Board the allegations in the notification letter are not sufficient to cover all matters into which inquiry should be directed, the Board shall suggest to the Manager concerned that, in order to give fuller notice to the individual, the notification letter should be amended. If, in the opinion of the Board, the circumstances of such an amendment may involve an undue hardship to the individual, because of limited time to answer the new allegations in the notification letter, an appropriate adjournment shall be granted upon the request of the individual.

(k) The entire proceedings shall be taken down verbatim and transcribed into a written record, a copy of which shall be furnished the individual without cost at his request. In the event restricted data are disclosed in the transcription, such restricted data shall be deleted and notation made to such effect before furnishing the transcript to the individual.

(l) The reports of the Federal Bureau of Investigation shall not be disclosed to the individual or to his representative.

(m) When the presence of a witness is deemed by the Board to be necessary to a proper determination of the issues before it, the Board shall request the Manager to make arrangements if possible, for such witness to appear, be confronted by the individual, and be subject to examination by the individual and by the Board. Upon receipt of such request the Manager shall make every effort through proper administrative channels to comply with the Board's request. Because of the confidential nature of the sources of information or for other reasons, confrontation may not be possible.

(n) The Board may request the Manager to arrange for additional investigation on any points which are material to the deliberations of the Board and which the Board believes need extension or clarification. In this event, the Board will set forth in writing that issue upon which more evidence is requested, identifying where possible persons or sources from which evidence should be sought. The Manager will make every effort through appropriate sources to obtain additional information upon the matters indicated by the Board.

(o) When the nature of the case is complex or the Board desires assistance in conducting the hearing, the Manager should designate such person or persons to aid the Board as may be necessary. The person thus named shall not be a member of the Board, shall not participate in the deliberations of the Board, shall express no opinion to the Board concerning the merits of the case, but shall assist the Board in such manner as to bring out a full and complete disclosure of all facts having any bearing upon the issues before the Board.

§ 4.16 Recommendations of the Board. (a) The Board shall carefully consider all material before it including reports of the Federal Bureau of Investigation, the testimony of all witnesses, the evidence presented by the individual, and the standards set forth in "AEC Personnel Security Clearance Criteria for Determining Eligibility" (14 F. R. 42). In considering the material before the Board, the members of the Board, as practical men of affairs, should be guided by the same consideration that would guide them in making a sound decision in the administration of their own lives. In reaching its determination the Board shall consider the manner in which the witnesses have testified before the Board, their demeanor on the witness stand, the probability or likelihood of their testimony, their credibility, the authenticity of documentary evidence, or the lack of evidence upon some material points in issue.

(b) If, after considering all the factors, they are of the opinion that it will not endanger the common defense and security to grant security clearance to the individual, they should so recommend. If they are unable to find that it will not endanger the common defense and security to grant security clearance, they should recommend that clearance be denied.

(c) The Board shall make specific findings as to the allegations contained in the notification letter whether they are true or false and the significance which they attach to the allegations. These findings shall be supported fully by a statement of reasons made with respect to such findings.

(d) The recommendation shall be determined by a majority vote. In the event of a dissent from the majority, a recommendation from the minority shall be made of record together with a statement of the reasons leading to the conclusion of the minority.

(e) The recommendation of the Board shall be predicated upon its findings, which shall take into consideration whether they establish a pattern of conduct falling within the criteria or a specific category thereof, and shall be submitted to the Manager accompanied by a statement of reasons leading to the Board's conclusions.

§ 4.17 *New evidence.* (a) In the event of the discovery of new evidence, such evidence will be submitted to:

(1) The Board in the event the Board has not transmitted its recommendations to the Manager, or

(2) The Manager in all other cases.

(b) It shall be the duty of those to whom application is properly made for the presentation of the new evidence to ascertain its materiality and relevancy and further, that the individual and his representative are without fault in failing to present the evidence before. In the event it is determined that such new evidence should be received, those making such decisions will also determine in what form it shall be received, whether by deposition, affidavit, or orally.

§ 4.18 *Actions on the recommendations.* (a) The recommendations of the Board and any dissent therefrom will be written out, signed by all of the members of the Board, and, together with the record of the case, shall be transmitted with the least practicable delay to the Manager of Operations concerned.

(b) Upon receipt of the recommendation of the Board and the record of the case, the Manager shall forthwith review the entire record. Before making any determination concerning his recommendation as to the granting or denial of security clearance, the Manager shall obtain all relevant data concerning the effect which denial of security clearance would have upon the atomic energy program. Such data shall not be disclosed to the individual or his representative.

(c) In making the determination concerning his recommendation to grant or deny security clearance the Manager shall be guided by the standards set forth in "AEC Personnel Security Criteria for Determining Eligibility" (14 F. R. 42) and shall set forth in writing his recommendation to the General Manager. Such recommendation along with the entire record will be forwarded to the General Manager.

(1) In the event of a recommendation for a denial of security clearance, the individual shall be immediately notified in writing of that fact by the Manager and shall be furnished a copy of the Manager's findings. This letter will also notify the individual of his right to request a review of his case by the AEC Personnel Security Review Board and of his right to submit a brief in support of his contentions. The brief shall be filed with the Manager not later than 20 days after receipt of such notification by the individual. The request for a review should be submitted to the Manager within five days of the receipt of the notice. The individual will also be notified of any change in the status of his employment.

(d) In the event the individual fails to request a review by the AEC Personnel Security Review Board of an adverse recommendation within the prescribed time, the Manager of Operations shall recommend the closing of the case and arrange for any necessary action in connection with the termination of the individual's employment. In such cases the Manager will advise the Director of Security in Washington by letter of the failure of the individual to file a request for further review.

(e) Where the individual requests a review of the adverse recommendation, the Manager shall send the entire record of the proceedings, with all findings and recommendations, to the General Manager via the Director of the Division of Security, Washington, D. C.

(f) Where the Manager has made a recommendation favorable to the individual and the General Manager proposes to transmit the entire record to the Personnel Security Review Board for its recommendation, the General Manager will immediately cause the individual to be notified of that fact and will further inform the individual that he may submit any briefs considered necessary by the individual to sustain his contention. Such brief to be filed not later than 20 days from the receipt of the notice by the individual. The brief will be forwarded to the General Manager via the Director of Security for transmission to the Personnel Security Review Board.

(g) The General Manager will submit the entire record to the AEC Personnel Security Review Board.

(h) The AEC Personnel Security Review Board shall make its deliberations upon the entire record, supplemented by additional testimony, briefs, or arguments, as determined by the AEC Personnel Security Review Board.

(i) After its deliberations, the AEC Personnel Security Review Board shall make its recommendation and submit such recommendation in writing to the General Manager for his decision.

(j) The General Manager will then make a final determination from the entire record, accompanied by all recommendations, whether security clearance shall be granted or denied.

(k) The individual, the Manager, and Directors of the Divisions concerned will be notified of the decision of the General Manager as soon as practicable.

MISCELLANEOUS

§ 4.20 *Modification of procedure.* This procedure may be modified by the General Manager as experience and circumstances may make desirable.

Dated in Washington, D. C., this 12th day of September 1950.

GORDON DEAN,
Chairman.

[F. R. Doc. 50-8085; Filed, Sept. 18, 1950; 8:51 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52555]

PART 16—LIQUIDATION OF DUTIES

COUNTERVAILING DUTIES; SPIRITS FROM UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND AND FROM IRELAND

The Bureau is in receipt of information that, by the Finance Act of 1950, the 3 pence per gallon export bounty on spirits exported from the United Kingdom of Great Britain and Northern Ireland was repealed effective May 1, 1950.

In view of the above-mentioned information, T. D.'s 34466 and 47753, issued pursuant to section IV/E, Tariff Act of 1913, and section 303, Tariff Act of 1930 (19 U. S. C. 1303), respectively, are hereby modified so as not to require the assessment of countervailing duties on imported "plain British spirits" and "spirits in the nature of spirits of wine" exported directly or indirectly from the United Kingdom of Great Britain and Northern Ireland on or after May 1, 1950.

Section 16.24 (a), Customs Regulations of 1943 (19 CFR 16.24 (a)), is hereby amended by deleting the material appearing opposite "Great Britain" and "United Kingdom, Great Britain, Northern Ireland, and Ireland," respectively, and by substituting the following:

Country	Commodity	Treasury decision	Action
Great Britain	Spirits—compounded	34466	Bounties declared—rates.
		34732	Descriptions.
		34982	No bounty on rum.
		35089	Proof gallons.
		35510	Alcoholic perfumery.
		35668	Orange bitters.
		47753	Supplemental rates.
		47826(7)	Quantity for computing duty.
		52555	Bounty on plain spirits terminated.
	Silk and artificial silk articles	42895	Bounties declared—rates.
		43634	Bounties—additional articles.
		44712	New rates.
		47475	Do.
		47502	Do.
		47594	Do.
	Sugar	46355	Bounties declared—rates.
		49981	New rates.
		50108	Do.
		50127	Do.
Ireland	Spirits—plain and compounded	47753	Bounties declared—rates.
		47826(7)	Quantity for computing duty.

(R. S. 251, secs. 303, 624, 46 Stat. 687, 759; 19 U. S. C. 66, 1303, 1624)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: September 7, 1950.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 50-8172; Filed, Sept. 18, 1950; 8:53 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5807]

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

EXTENSION OF TIME FOR FILING CERTAIN CLAIMS FOR CREDIT OR REFUND

In order to conform Regulations 103 (26 CFR Part 19) and Regulations 111 (26 CFR Part 29) to section 2 of Public Law 271 (81st Congress), approved August 27, 1949, and also to conform Regulations 111 to section 3 of such Public Law, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.22 (b) (9)-1 of Regulations 111 and immediately preceding § 29.22 (b) (10)-1 of Regulations 111 the following:

PUBLIC LAW 271 (81st Cong.), approved August 27, 1949.

* * * * * *

SEC. 3. EXTENSION OF TIME IN THE CASE OF DISCHARGE OF INDEBTEDNESS.

Section 22 (b) (9) and section 22 (b) (10) of the Internal Revenue Code are hereby amended by striking out "1949" and inserting in lieu thereof "1950".

PAR. 2. Section 29.22 (b) (9)-1 of Regulations 111, as amended by Treasury Decision 5576, approved September 5, 1947, is further amended by striking from the first paragraph and from the third paragraph "January 1, 1950" and inserting in lieu thereof in each instance "January 1, 1951".

PAR. 3. Section 29.22 (b) (10)-1 of Regulations 111, as amended by Treasury Decision 5576, is further amended by striking from the first sentence and from the last sentence "January 1, 1950" and inserting in lieu thereof in each instance "January 1, 1951".

PAR. 4. There is inserted immediately preceding § 19.322-1 of Regulations 103 and immediately preceding § 29.322-1 of Regulations 111 the following:

PUBLIC LAW 271 (81st Cong.), approved August 27, 1949.

* * * * * *

SEC. 2. EXTENSION OF TIME FOR CLAIMING REFUND WITH RESPECT TO WAR LOSSES.

The joint resolution of June 29, 1948 (Public Law 828, 80th Cong.), is hereby amended by striking out "1949" wherever appearing therein and inserting in lieu thereof "1950".

PAR. 5. Section 19.322-7 of Regulations 103, as amended by Treasury Decision 5657, approved October 1, 1948, and § 29.322-7 of Regulations 111, as amended by said Treasury Decision 5657, are further amended by striking out in the last sentence of paragraph (a) of each such section the following: "extending to December 31, 1949," and by inserting in lieu thereof the following: "as amended by section 2 of Public Law 271 (81st Cong.), approved August 27, 1949, extending to December 31, 1950,".

PAR. 6. Inasmuch as the amendments made by this Treasury decision would merely change the dates from those specified by prior law to those now specified by Public Law 271 (81st Congress), which extends the application of section 22 (b) (9) and (10) of the Internal Revenue Code and extends the time for filing certain claims for credit or refund with respect to war losses, it is hereby found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 3 (c) of said act.

(53 Stat. 32; 26 U. S. C. 62)

[SEAL] GEORGE J. SCHOENEMAN,
Commissioner of Internal Revenue

Approved: September 12, 1950.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

Subchapter E—Administrative Provisions Common to Various Taxes

[T. D. 5808]

PART 458—INSPECTION OF RETURNS

CERTIFICATION OF COPIES OF CERTAIN TAX RETURNS

In order to permit collectors, internal revenue agents in charge, and the heads of field divisions of the Technical Staff to furnish certified copies of tax returns to certain persons, Treasury Decision 4945, approved September 20, 1939 (26 CFR 458.200-458.209), is amended, in the interest of the internal management of the Government, by amending § 458.205 (26 CFR 458.205) (formerly § 463D.5) to read as follows:

§ 458.205 *Furnishing copies of returns; certified copies.* In accordance with the regulations in this part, a copy of a return may be furnished to any person who is entitled to inspect such return, upon written application therefor, and the submission of evidence satisfactory to the Commissioner of his right to receive the copy. The application and evidence of right to receive the copy of the return should be submitted to the Commissioner at Washington, except that if the applicant is (a) the Attorney General, The Assistant to the Attorney General, and Assistant Attorney General or a United States Attorney, or (b) the taxpayer or his duly authorized attorney in fact, or (c) in the case of an estate tax return, the executor, administrator, or his successor in office, or his duly authorized attorney in fact, or (d) in the case of a gift tax return, the donor or his duly authorized attorney in fact, and the return is in the custody of a collector of internal revenue, an internal revenue agent in charge, or the head of a field division of the Technical Staff, the application and evidence of right to receive the copy may be submitted to such collector, agent in charge or head of division, who may furnish a copy of the return and certify such copy upon request. Except as provided above, certified copies will be furnished only by the Commissioner upon specific request therefor by the applicant.

The Commissioner may prescribe a reasonable fee for furnishing copies of returns.

This Treasury decision shall be effective upon its filing for publication in the FEDERAL REGISTER.

(53 Stat. 29, 111, 116, 171, 186, 467; 54 Stat. 974, 989, 1008; 55 Stat. 722; 26 U. S. C. 55, 508, 603, 702 (a), 729 (a), 1204, 1604 (c), and 3791)

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: September 12, 1950.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

Subchapter B—Bureau of the Public Debt

[1950 Dept. Cir. No. 530, 6th Rev., dated Feb. 13, 1945, Amdt. 7]

PART 315—UNITED STATES SAVINGS BONDS

LIMITATION ON HOLDINGS

SEPTEMBER 12, 1950.

Pursuant to Section 22 (a) of the Second Liberty Bond Act, as amended (55 Stat. 7, 31 U. S. C. 757c), Subpart C of Department Circular No. 530, Sixth Revision, dated February 13, 1945 (31 CFR Part 315), as amended, is hereby further amended and revised to read as follows:

SUBPART C—LIMITATION ON HOLDINGS

§ 315.8 *Amount which may be held.* As provided by Section 22 of the Second Liberty Bond Act, added February 4, 1935, as amended (31 U. S. C. 757c), and by regulations prescribed by the Secretary of the Treasury pursuant to the authority of that section, as amended, the amounts of savings bonds of the several series issued during any one calendar year that may be held by any one person at any one time are limited as follows:

(a) *Series A, B, C, and D.* $10,000 (maturity value) of each series for each calendar year.

(b) *Series E.* $5,000 (maturity value) for each calendar year up to and including the calendar year 1947, and $10,000 (maturity value) for each calendar year thereafter.

(c) *Series F and G.* $50,000 (issue price) for the calendar year 1941, and $100,000 (issue price) for each calendar year thereafter, of either series or of the combined aggregate of both, except that, in the case of commercial banks authorized to acquire such bonds in accordance with § 315.5, the limitation shall be such as may have been or may hereafter be provided specifically in official circulars governing the offering of other Treasury securities, but in no event in excess of $100,000 (issue price) for any calendar year.

(d) *Special limitation for Series F and G Bonds purchased by institutional investors and commercial banks from July 1 through July 15, 1948.* $1,000,000 (issue price) of either series or of the combined aggregate of both for institutional investors holding savings, insurance and pension funds and $100,000 (issue price) of either series or of the combined aggregate of both for commercial and industrial banks holding savings deposits or issuing time certificates of deposit in the names of individuals and of corporations, associations, and other organizations not operated for profit, subject to the following conditions:

(1) For the purposes of this paragraph the classes of institutional investors will be limited to: (i) Insurance companies, (ii) savings banks, (iii) savings and loan associations and building and loan associations, and cooperative banks, (iv) pension and retirement funds, including those of the Federal, State and local governments, (v) fraternal benefit associations, (vi) endowment funds, and (vii) credit unions.

(2) Any bonds of Series F–1948 and Series G–1948 purchased under this special limitation, including any bonds in excess of $100,000 (issue price) purchased by eligible institutional investors, must be purchased during the period from July 1 through July 15, 1948.

(e) *Special limitation for Series F and G Bonds purchased by institutional investors and commercial banks during certain periods in the calendar year 1950.* (1) There is hereby provided for certain classes of institutional investors, and for certain commercial and industrial banks, a special limitation on holdings for bonds of Series F and of Series G purchased on original subscription from October 2 through October 10, 1950, for bonds dated October 1, 1950; those purchased from November 1 through November 10, 1950, for bonds dated November 1, 1950; and for those purchased from December 1 through December 11, 1950, for bonds dated December 1, 1950.

(2) The classes of institutional investors to which this offering is made are limited to: (i) Insurance companies (including organizations insuring the payment of hospital, medical and surgical expenses); (ii) savings banks; (iii) savings and loan associations and building and loan associations, and cooperative

banks; (iv) pension and retirement funds constituting separate legal entities, including those of the Federal, State and local governments; (v) fraternal benefit associations; (vi) endowment funds; (vii) trusts for charitable, educational, religious or other public purposes (whether or not incorporated), and State and municipal sinking funds; and (viii) credit unions. The aggregate purchases of Series F or Series G bonds, or the two series combined, made by an investor of any such class during the three periods will be limited to one million dollars (issue price) for the calendar year 1950 in excess of the existing limitation.

(3) Commercial and industrial banks holding savings deposits or issuing time certificates of deposit in the names of: (i) Individuals; and (ii) corporations, associations, and other organizations not operated for profit, will be permitted to purchase bonds of either Series F or Series G, or the two series combined, up to an aggregate during the three periods of $100,000 (issue price).

(f) The regulations set forth in this part are hereby modified to accord with the provisions of paragraphs (d) and (e) of this section.

(Sec. 22, 49 Stat. 41, as amended; 31 U. S. C. 757c)

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be impracticable and unnecessary with respect to these regulations. They enlarge rather than restrict the rights of purchasers of United States Savings Bonds.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

[F. R. Doc. 50-8173; Filed, Sept. 18, 1950; 8:53 a. m.]

[1950 Dept. Circ. 654 3d Rev.]

PART 318—OFFERING OF UNITED STATES SAVINGS BONDS, SERIES F AND G

SEPTEMBER 12, 1950.

Sec.
318.1 Offering of United States Savings Bonds of Series F and Series G.
318.2 Description and terms of bonds.
318.3 Purchase of bonds.
318.4 Limitation on holdings.
318.5 Authorized forms of registration.
318.6 Delivery and safekeeping of bonds.
318.7 Payment at maturity or redemption prior to maturity.
318.8 Series designation.
318.9 Lost, stolen, or destroyed bonds.
318.10 General provisions.

AUTHORITY: §§ 318.1 to 318.10 issued under sec. 22, 49 Stat. 41, as amended; 31 U. S. C. 757c.

SOURCE: §§ 318.1 to 318.10 contained in 1944 Department Circular No. 654, Second Revision, as amended (31 CFR 318.1 to 318.10).

§ 318.1 *Offering of United States Savings Bonds of Series F and Series G.* (a) The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, offers for sale, to the people of the United States, through the Federal Reserve Banks, United States Savings Bonds of Series F and Series G, which may hereinafter be referred to as bonds of Series F and Series G. The sale of bonds of Series F and Series G will continue until terminated by the Secretary of the Treasury.

(b) United States Savings Bonds of Series F and Series G include bonds of any designation issued under this circular as originally published and amended, and those issued under this circular as previously or as now revised. As their terms are identical, no distinction is to be made between any bonds of Series F or Series G so issued.

§ 318.2 *Description and terms of bonds.* (a) Bonds of Series F and Series G will be issued only in registered form, in denominations of $25 (for Series F only), $100, $500, $1,000, $5,000 and $10,000 (maturity values), at prices hereinafter set forth. Each bond will bear the facsimile signature of the Secretary of the Treasury, and will bear an imprint in color (brown for Series F and blue for Series G) of the Seal of the Treasury. At the time of issue, on the face of each bond, the issuing agent will inscribe the name and address of the owner and the name of the coowner or beneficiary, if any, will enter the issue date (which is the first day of the month in which payment of the issue price is received by the Treasury or an authorized issuing agent), and will imprint his dating stamp (to show the date the bond is actually inscribed). Bonds of Series F and Series G shall be valid only if duly inscribed and dated, as above provided, and delivered by an authorized agent following receipt of payment therefor.

(b) The bonds of each series will, in each instance, be dated as of the first day of the month in which payment of the issue price is received by an agent authorized to issue the bonds, which date is herein referred to as the issue date; the bonds will mature and be payable at face value 12 years from such issue date. The issue date is the basis for determining the redemption or maturity period of the bond, and the date appearing in the issuing agent's stamp should not be confused therewith. The bonds of either series may not be called for redemption by the Secretary of the Treasury prior to maturity, but they may be redeemed prior to maturity, after six months from the issue date, at the owner's option, at fixed redemption values.

(c) Bonds of Series F will be issued on a discount basis at 74 percent of their maturity value. No interest as such will be paid on the bonds, but they will increase in redemption value at the end of the first year from issue date, and at the end of each successive half-year period thereafter until their maturity, when the face amount becomes payable. The increment in value will be payable only upon redemption of the bonds. A table of redemption values appears on each bond. The purchase price of bonds of Series F has been fixed so as to afford an investment yield of about 2.53 percent per annum compounded semiannually if the bonds are held to maturity; if the owner exercises his option to redeem a bond prior to maturity the investment yield will be less.

(d) Bonds of Series G will be issued at par, and will bear interest at the rate of 2½ percent per annum, payable semiannually from issue date. Interest will be paid by check drawn to the order of the registered owner. Interest will cease at maturity, or, in case of redemption before maturity, at the end of the interest period next preceding the date of redemption. A table of redemption values appears on each bond, and the difference between the face amount of the bond and the redemption value fixed for any period represents an adjustment (or refund) of interest. Accordingly, if the owner exercises his option to redeem a bond prior to maturity, the investment yield will be less than the interest rate on the bond. Bonds of Series G may be redeemed at par, in whole or in part, (1) upon the death of the owner, or a coowner, if a natural person, or (2) as to bonds held by a trustee or other fiduciary, upon the death of any person which results in termination of the trust. If the trust is terminated only in part, redemption at par will be made only to the extent of the pro rata portion of the trust so terminated, to the next lower multiple of $100. In any case request for redemption at par must be received by the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, or by a Federal Reserve Bank or Branch in accordance with the regulations governing savings bonds.[1]

(e) Tables A and B appended to this circular show separately for bonds of Series F and those of Series G: (1) The redemption values, by denominations, during the successive half-year periods following issue, (2) the approximate investment yield on the issue price from issue date to the beginning of each half-year period, and (3) the approximate investment yield on the current redemption value from the beginning of each half-year period to maturity at the end of the 12-year period.

(f) Bonds of Series F and Series G will not be transferable, and will be payable only to the owner named thereon, except in case of death or disability of the owner or as otherwise specifically provided in the regulations governing savings bonds, and in any event only in accordance with said regulations. Accordingly they may not be sold, discounted, hypothecated as collateral for a loan or the performance of a service, or disposed of in any manner other than as provided in the regulations governing savings bonds, and, except as provided in said regulations, the Treasury Department will recognize only the inscribed owner, during his lifetime and competency, and thereafter his estate or heirs.

[1] See Department Circular No. 530, Sixth Revision, as amended (31 CFR Part 315), for current regulations.

(g) Taxation: For the purpose of determining taxes and tax exemptions, the increment in value represented by the difference between the price paid for bonds of Series F (which are issued on a discount basis), and the redemption value received therefor (whether at or before maturity) shall be considered as interest, and that interest and interest on bonds of Series G are not exempt from income or profits taxes now or hereafter imposed by the United States.[2] The bonds shall be subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

§ 318.3 *Purchase of bonds*—(a) *Agencies.* Bonds of Series F and Series G may be purchased, while this offer is in effect, upon application to any Federal Reserve Bank or Branch, or to the Treasurer of the United States, Washington 25, D. C. Sales agencies, duly qualified under the provisions of Treasury Department Circular No. 657 (31 CFR Part 317) as amended and supplemented, and banking institutions generally, may submit applications for account of customers, but only the Federal Reserve Banks and Branches and the Treasury Department are authorized to act as official agencies, and the receipt of application and payment at an official agency will govern the dating of the bonds issued.

(b) *Payment for bonds.* Every application must be accompanied by payment in full of the issue price. Any form of exchange, including personal checks, will be accepted, subject to collection. Checks, or other forms of exchange, should be drawn to the order of the Federal Reserve Bank or the Treasurer of the United States, as the case may be. Checks payable by endorsement are not acceptable. Any depositary qualified pursuant to the provisions of Treasury Department Circular No. 92, Revised (31 CFR Part 203) will be permitted to make payment by credit for bonds applied for on behalf of its customers up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its district.

(c) *Postal savings.* Subject to regulations prescribed by the Board of Trustees of the Postal Savings System, the withdrawal of postal savings deposits will be permitted for the purpose of acquiring savings bonds.

(d) *Form of application.* In applying for bonds under this circular, care should be exercised to specify whether those of Series F or Series G are desired, and there must be furnished: (1) Instructions for registration of the bonds to be issued, which must be in one of the authorized forms (see § 318.5); (2) the post office address of the owner; (3) address for delivery of the bonds; and (4), in case of bonds of Series G, address for mailing interest checks. The use of an official application form is desirable, but not necessary. The application should be forwarded to the Federal Reserve Bank, or Branch, of the district, or to the Treasurer of the United States, accompanied by remittance to cover the purchase price ($74 for each $100 face amount of bonds of Series F, or $100 for each $100 face amount of bonds of Series G).

(e) *Issue prices.* The issue prices of the various denominations of bonds of Series F and Series G follow:

SERIES F

Denomination (maturity value)	$25.00	$100	$500	$1,000	$5,000	10,000
Issue (purchase) price	18.50	74	370	740	3,700	$7,400

SERIES G

Denomination (maturity value)	$100	$500	$1,000	$5,000	$10,000
Issue (purchase) price	100	500	1,000	5,000	10,000

§ 318.4 *Limitation on holdings.* (a) The amount of United States Savings Bonds of Series F, or of Series G, or the combined aggregate amount of both series originally issued during any one calendar year to any one person, including those registered in the name of that person alone, and those registered in the name of that person with another named as coowner, that may be held by that person at any one time shall not exceed such amount as may be prescribed from time to time by the Secretary of the Treasury by regulation.[3]

(b) Any bonds acquired on original issue which create an excess must immediately be surrendered for refund of the purchase price or for such other adjustment as may be possible, as provided in the regulations governing savings bonds.

§ 318.5 *Authorized forms of registration.* (a) United States Savings Bonds of Series F and Series G may be registered only in one of the following forms:

(1) In the names of natural persons (that is, individuals), whether adults or minors, in their own right, as follows: (i) In the name of one person; (ii) in the names of two (but not more than two) persons as coowners; and (iii) in the name of one person payable on death to one (but not more than one) other designated person.

(2) In the name of an incorporated or unincorporated body in its own right; but may not be registered in the names of commercial banks, which are defined for this purpose as those accepting demand deposits, except as provided in and to the extent and under such conditions as may be provided by regulations promulgated from time to time by the Secretary of the Treasury.[3]

(3) In the name of a fiduciary (except where the fiduciary would hold the bonds merely or principally as security for the performance of a duty or obligation).

(4) In the name of the owner or custodian of public funds.

(b) *Restrictions.* Only residents (whether individuals or others) of the United States (which for the purposes of this section shall include the Territories, insular possessions and the Canal Zone), citizens of the United States temporarily residing abroad and nonresident aliens employed in the United States by the Federal Government or an agency thereof may be named as owners, coowners or designated beneficiaries of savings bonds originally issued on or after April 1, 1940, or of authorized reissues thereof, except that such persons may name as coowners or beneficiaries of their bonds American citizens permanently residing abroad or nonresident aliens who are not citizens of enemy nations. American citizens permanently residing abroad and nonresident aliens who become entitled to bonds under the regulations governing savings bonds, by right of survivorship or otherwise upon the death of another, will have the right only to receive payment either at or before maturity.

(c) Full information regarding authorized forms of registration will be found in the regulations currently in force governing United States Savings Bonds.

§ 318.6 *Delivery and safekeeping of bonds.* (a) Federal Reserve Banks and Branches and the Treasurer of the United States are authorized to deliver bonds of Series F and Series G, duly inscribed and dated, upon receipt of the issue price. Bonds not delivered in person will be delivered by mail at the risk and expense of the United States, at the address given by the purchaser, but only within the United States, its territories and insular possessions and the Canal Zone.[4] No mail deliveries elsewhere will be made. If purchased by citizens of the United States temporarily residing abroad, bonds will be delivered at an address in the United States, or held in safekeeping, as the purchaser may di-

[2] For information concerning the taxable and exempt status under Federal tax laws of the interest (increment in value) on United States Savings Bonds issued on a discount basis (including bonds of Series F), and alternate methods of reporting such interest, see Internal Revenue Mimeograph, Coll. 6327, R. A. No. 1680, dated November 9, 1948.

[3] The current regulations are contained in Department Circular No. 530, Sixth Revision, as amended (see 31 CFR 315.8), *supra*.

[4] During any war emergency the Treasury may suspend deliveries to be made at its risk and expense from or to the continental United States and its territories, insular possessions and the Canal Zone, or between any of such places.

rect. Personal delivery should not be accepted by any purchaser until he has verified that the correct name, or names, and address are duly inscribed, that the issue date (the first day of the month in which payment of the issue price was received by the agent) is duly entered, and that the dating stamp of the issuing agent is duly imprinted with current date—all on the face of the bond. If received by mail, the same verification should be made, and if any error in inscription or dating appears, such fact should immediately be reported to the issuing agent, and instructions requested.

(b) Savings bonds of Series F and Series G will be held in safekeeping without charge by the Secretary of the Treasury if the holder so desires, and in such connection the facilities of the Federal Reserve Banks,[1] as fiscal agents of the United States, and those of the Treasurer of the United States, will be utilized. Arrangements may be made for such safekeeping at the time of purchase, or subsequently.

§ 318.7 *Payment at maturity or redemption prior to maturity*—(a) *General.* Any savings bond of Series F or Series G will be paid in full at maturity, or, at the option of the owner, after six months from the issue date, will be redeemed in whole or in part at the appropriate redemption value prior to maturity, on the first day of any calendar month, on one month's notice in writing, following presentation and surrender of the bond, with the request for payment properly executed, all in accordance with the regulations governing savings bonds.

(b) *Notice of redemption.* When a savings bond of Series F or Series G is to be redeemed prior to maturity, a notice in writing of the owner's intention must be given to and be received by a Federal Reserve Bank or Branch, or the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, not less than one calendar month in advance. A duly executed request for payment will be accepted as constituting the required notice.

(c) *Execution of request for payment.* The registered owner, or other person entitled to payment under the regulations governing savings bonds, must appear before one of the officers authorized by the Secretary of the Treasury to witness and certify requests for payment, establish his identity, and in the presence of such officer sign the request for payment, adding the address to which the check is to be mailed. After the request for payment has been so signed, the witnessing officer should complete and sign the certificate provided for his use. Unless otherwise authorized in a particular case, the form of request appearing on the back of the bond must be used.

[1] Safekeeping facilities may be offered at some Branches of Federal Reserve Banks, and in such connection an inquiry may be addressed to the Branch.

(d) *Officers authorized to witness and certify requests for payment.* The officers authorized to witness and certify requests for payment of savings bonds are fully set forth in the regulations governing savings bonds, and include but are not limited to (1) United States postmasters and certain other post office officials or designated employees; and (2) officers (or designated employees) of all banks or trust companies incorporated in the United States or its organized territories, including officers at domestic branches (within the United States or its territories or insular possessions and the Canal Zone), or at foreign branches. All certificates should be authenticated by official seal, if there is one, or by an imprint of an issuing agent's dating stamp.

(e) *Presentation and surrender.* After the request for payment has been duly executed by the person entitled and by the certifying officer, the bond must be presented and surrendered to a Federal Reserve Bank or Branch, or to the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, at the expense and risk of the owner. For the owner's protection, the bond should be forwarded by registered mail, if not presented in person.

(f) *Disability or death.* In case of the disability of the registered owner, or the death of the registered owner not survived by a coowner or a designated beneficiary, instructions should be obtained from a Federal Reserve Bank or Branch, or the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, before the request for payment is executed.

(g) *Method of payment.* The only agencies authorized to pay or redeem savings bonds are the Federal Reserve Banks and Branches, and the Treasurer of the United States. Payment in all cases will be made by check drawn to the order of the registered owner or other person entitled to payment, and mailed to the address given in the request for payment.

(h) *Partial redemption.* Partial redemption at current redemption value of a bond of Series F, of a denomination higher than $25 (maturity value), or of a bond of Series G, of a denomination higher than $100, is permitted, but must correspond to an authorized denomination. In case of partial redemption the remainder will be reissued in authorized denominations bearing the same issue date as the bond surrendered.

§ 318.8 *Series designation.* Bonds of Series F, issued during the calendar year 1950 are designated Series F–1950, and those of Series G are similarly designated Series G–1950, and those of either series which may be issued in subseuent calendar years will be similarly designated by the series letter, F or G, followed by the year of issue.

§ 318.9 *Lost, stolen, or destroyed bonds.* (a) If a bond of Series F or Series G is lost, stolen, or destroyed, a duplicate may be issued on the owner furnishing a description of the bond and establishing its loss, theft, or destruction.

(b) In any case of the loss, theft, or destruction of a bond of Series F or Series G, the owner should give immediate notice to the Treasury Department, Division of Loans and Currency, Merchandise Mart, Chicago 54, Illinois, briefly stating the facts and giving a description of the bond. On receipt of such notice, full instructions for procedure will be given the owner.

(c) A descriptive record of each bond of Series F or Series G held should be kept by the owner, apart from the bonds, so that a full description of the bonds will be available if they are lost, stolen, or destroyed. The record for each bond should show: (1) The denomination; (2) the serial number (with its prefix and suffix letters); (3) the inscription (name or names, and address, on the face of the bond); and (4) the issue date (month and year of issue).

§ 318.10 *General provisions.* (a) All bonds of Series F and Series G, issued pursuant to this circular, shall be subject to the regulations prescribed from time to time by the Secretary of the Treasury to govern United States Savings Bonds. The present regulations governing savings bonds are set forth in Treasury Department Circular No. 530, Sixth Revision, as amended, copies of which may be obtained on application to the Treasury Department or to any Federal Reserve Bank or Branch.

(b) The Secretary of the Treasury reserves the right to reject any application for savings bonds of either Series F or Series G, in whole or in part, and to refuse to issue or permit to be issued hereunder any such savings bonds in any case or any class or classes of cases if he deems such action to be in the public interest, and his action in any such respect shall be final.

(c) Federal Reserve Banks and Branches, as fiscal agents of the United States, are authorized to perform such services as may be requested of them by the Secretary of the Treasury in connection with the issue, delivery, safekeeping, redemption, and payment of savings bonds of Series F and Series G.

(d) The Secretary of the Treasury may at any time or from time to time supplement or amend the terms of this circular, or of any amendments or supplements thereto, information as to which will be promptly furnished the Federal Reserve Banks and Branches.

Compliance with the notice, public procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is found to be impracticable and unnecessary with respect to these regulations. They enlarge rather than restrict the rights of purchasers of United States Savings Bonds.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

APPENDIX A—UNITED STATES SAVINGS BONDS—SERIES F

TABLE OF REDEMPTION VALUES AND INVESTMENT YIELDS

Table showing: (1) How United States Savings Bonds of Series F, by denominations, increase in redemption value during successive half-year periods following issue; (2) the approximate investment yield on the purchase price from issue date to the beginning of each half-year period; and (3) the approximate investment yield on the current redemption value from the beginning of each half-year period to maturity. Yields are expressed in terms of rate percent per annum, compounded semiannually.

Maturity value / Issue price	$25.00 / $18.50	$100.00 / $74.00	$500.00 / $370.00	$1,000 / $740	$5,000 / $3,700	$10,000 / $7,400	(2) Approximate investment yield on purchase price from issue date to beginning of each half-year period	(3) Approximate investment yield on current redemption value from beginning of each half-year period to maturity
Period after issue date	(1) Redemption values during each half-year period							
							Percent	*Percent*
First ½ year	Not redeemable							[1] 2.53
½ to 1 year	$18.50	$74.00	$370.00	$740	$3,700	$7,400	0.00	2.64
1 to 1½ years	18.55	74.20	371.00	742	3,710	7,420	.27	2.73
1½ to 2 years	18.62	74.50	372.50	745	3,725	7,450	.45	2.82
2 to 2½ years	18.72	74.90	374.50	749	3,745	7,490	.61	2.91

[1] Approximate investment yield for entire period from issuance to maturity.

APPENDIX B—UNITED STATES SAVINGS BONDS—SERIES G

TABLE OF REDEMPTION VALUES AND INVESTMENT YIELDS

Table showing: (1) How United States Savings Bonds of Series G (paying a current return at the rate of 2½ percent per annum on the purchase price, payable semiannually) change in redemption value by denominations during successive half-year periods following issue; (2) the approximate investment yield on the purchase price from issue date to the beginning of each half-year period; and (3) the approximate investment yield on the current redemption value from the beginning of each half-year period to maturity. Yields are expressed in terms of rate percent per annum, compounded semiannually, and take into account the current return.

Maturity value / Issue price	$100.00 / $100.00	$500.00 / $500.00	$1,000 / $1,000	$5,000 / $5,000	$10,000 / $10,000	(2) Approximate investment yield on purchase price from issue date to beginning of each half-year period	(3) Approximate investment yield on current redemption value from beginning of each half-year period to maturity
Period after issue date	(1) Redemption values during each half-year period						
						Percent	*Percent*
First ½ year	Not redeemable						[1] 2.50
½ to 1 year	$98.80	$494.00	$988	$4,940	$9,880	0.10	2.62
1 to 1½ years	97.80	489.00	978	4,890	9,780	.30	2.73
1½ to 2 years	96.90	484.50	969	4,845	9,690	.44	2.84
2 to 2½ years	96.20	481.00	962	4,810	9,620	.61	2.94
2½ to 3 years	95.60	478.00	956	4,780	9,560	.75	3.04
3 to 3½ years	95.10	475.50	951	4,755	9,510	.88	3.13
3½ to 4 years	94.80	474.00	948	4,740	9,480	1.04	3.20

TITLE 32—NATIONAL DEFENSE

Chapter IV—Joint Regulations of the Armed Forces

Subchapter D—Military Renegotiation Regulations

[Amdt. 9]

PART 427—MILITARY RENEGOTIATION FORMS

MISCELLANEOUS AMENDMENTS

The following amendments are made to Subpart A of Part 427 of this subchapter, as follows:

§ 427.704 *Contractor's Information and Work Sheet (MRR704).* In certain cases the Board may send to a contractor a form designated as the Contractor's Information and Work Sheet which is designed to assist him in preparing and presenting information and data which are pertinent to the consideration of his case (see §§ 422.224 and 422.242 of this subchapter).

While the Contractor's Information and Work Sheet is sufficiently broad in scope to apply to most businesses, it may not lend itself readily to use by certain contractors, such as construction contractors, architects, and engineers. These contractors should consult with the Renegotiation Policy and Review Board as to an acceptable form for presenting the necessary data.

The contents of the Contractor's Information and Work Sheet are as follows:

INTRODUCTORY NOTE

Information requested in sections A to O, inclusive, and in the Exhibits attached hereto, is required for renegotiation under the Renegotiation Act of 1948. Any part of this information which has been submitted in the "Standard Form of Contractor's Report" may be omitted, provided reference is made to the date of its submission. If any statement or information requested is inapplicable in a particular case, so state and give the reason therefor.

All data requested herein should be submitted without regard to any previous filings under the Renegotiation Acts of 1942 and February 25, 1944, as amended.

All information and data submitted (subject to qualifications, if any, specifically set forth) must be certified by the contractor as true and correct.

Regulations, interpreting and applying the renegotiation statutes and prescribing standards and procedure for determining and eliminating excessive profits under the renegotiation statutes, have been published under the title of "Military Renegotiation Regulations." The subscription price for the Military Renegotiation Regulations, including amendments thereto and lists of prime contracts containing the Renegotiation Article, printed on sheets punched for a standard loose leaf binder, is $2.50. Subscriptions should be addressed to the Superintendent of Documents, Washington 25, D. C. The Military Renegotiation Policy and Review Board cannot honor requests for this item.

SECTION A. FINANCIAL STATEMENTS

One copy of each of the following should be furnished for the fiscal year under review unless previously filed pursuant to this Act:

1. Published annual report.

2. Audit report by independent public accountants—preferably long form audit report.

NOTE: If an annual report to security holders or an audit report by independent public accountants has not been prepared, the following financial statements, prepared from your books, should be submitted:

(a) Statement of Income or Profit and Loss for the fiscal year. The income statement should show: (1) Gross sales, less discounts, returns and allowances; (2) cost of goods sold (net of discounts on purchases), including opening and closing inventories and a classification of manufacturing costs and factory burden; and (3) a classified list of selling and administrative expenses and miscellaneous items.

(b) Statement of Surplus for the fiscal year, and

(c) Balance Sheet as of the close of the fiscal year. The balance sheet should show, in addition to the usual classifications of current assets and current liabilities, the gross plant account and related reserve for depreciation, other major reserves stated as separate amounts and their purposes clearly captioned, and details of the capital accounts.

3. Federal income tax return (latest amended return, if amended):

(a) If a corporation, U. S. Corporation Income Tax Return (Form 1120).

(b) If a partnership or joint venture, U. S. Partnership Return of Income (Form 1065) and all personal income tax returns, or returns of the entities, listed in schedule or "Partners' Shares of Income and Credits".

(c) If an individual, the personal income tax return of the person (or person and spouse) in which the income has been reported.

4. Reconcilement of any differences between income per annual or audit report and income per Federal income tax return, including an explanation of the effect on renegotiable income of any of such differences. (See Regulations § 423.381–4 (a), (b), (c)—also Note on Exhibit 1, MRR 704.1.)

5. A copy of your Income Statement, preferably in comparative form, for each of the 2 fiscal years immediately preceding the year under review, unless submitted in a previous year's renegotiation proceedings under the Renegotiation Act of 1948.

6. An income statement for the fiscal year under review, separated as to renegotiable and non-renegotiable business as defined in the Regulations, is required. The attached Exhibits 1 and 1 (a), with instructions, are provided for use in this connection. The income data, segregated between renegotiable and non-renegotiable business, may be submitted on other sheets, but the classifications provided on Exhibits 1 and 1 (a) should be followed. See section A–7, pertaining to financial statements required if renegotiation is to be conducted on a consolidated basis.

Sales and cost of goods sold should be stated net of discounts, returns and allowances.

Supporting schedules of items requiring further analysis should be provided. If there are several types of widely divergent operations, it may be desirable to supplement Exhibits 1 and 1 (a) with schedules showing operating results by separate fields of activity. Federal and State taxes measured by income should be shown separately on the lines provided on Exhibit 1.

7. Consolidated basis: If the financial statements are submitted on a consolidated basis, financial statements for each subsidiary having renegotiable business and included in such consolidation must also be submitted. A consolidating Balance Sheet and consolidating Income Statement are required. The consolidating Income Statement may be submitted for Exhibit 1, if the same line captions and column headings are used. The amount of inter-company sales or other inter-company transactions, and whether or not eliminated in consolidation, should be reported, and the method of setting intercompany prices explained. (See sec. H 3 (c).)

NOTE: In financial statements all cents may be omitted.

SECTION B. INCOME TAX DATA

1. Items A3 and A4, pages 2 and 3, must be submitted, and in addition:

2. State the latest taxable year examined by the Bureau of Internal Revenue and report any significant adjustments resulting in a change in taxable income or capital assets as a result of such examination.

3. If taxes measured by income, other than Federal taxes (including so-called franchise taxes), are significant in amount, submit a schedule showing the amounts paid, the kind of tax and the tax authority to which such taxes were paid, the period for which the tax was billed, the basis on which accruals for the respective taxes were made and a reconcilement of any differences between such basis and the periods for which the taxes were levied. Explain the basis of allocation of these taxes (Line 12, Exhibit 1) between renegotiable and non-renegotiable business.

SECTION C. ORGANIZATION, OWNERSHIP, AND AFFILIATIONS

1. A brief history of the business, including date and state of organization, changes in name, a general statement as to character of operations, a list of plants and branch offices and the functions performed by plants engaged in renegotiable business, is required.

2. Any recapitalization during the period under review should be described.

3. Indicate any changes during the period under review in the form or control of organization, such as reorganization, the acquisition, disposal or dissolution of subsidiaries, etc.

4. A copy of the latest brochure, catalog or other material describing your company's business and products, if not previously submitted, is requested.

SECTION D. BUSINESS OF CONTRACTOR

1. List major products or services sold during the fiscal year under review and during the 2 fiscal years immediately preceding the one under review.

2. List major competitors and the articles in competition.

3. List the approximate amount of renegotiable sales, (a) in quantity (if readily available) and (b) in dollars, of each principal type or group of products, and the functions performed with respect to each, such as manufacturing, assembling, distributing.

4. Furnish a statement as to the dollar amount included in costs allocated to renegotiable business (see Exhibit 1 (a), Line 19) which arose from any portion of your manufacture subcontracted in the year under review. Give a list (in duplicate) of principal suppliers of material, subassemblies, and finished parts. Also, a statement of materials and subassemblies, if any, furnished to subcontractors. Show the relations with subcontractors as to the degree of supervision, inspection, and financing furnished.

5. As to subcontracts, list (in duplicate) major customers for renegotiable business, the types of products or services furnished to them and their approximate dollar amount.

SECTION E. PRICE RECORD AS TO RENEGOTIABLE BUSINESS

1. If feasible, list the dollar unit prices and types of important products and services included in renegotiable business.

2. Furnish details of any rebates or refunds, price reductions or increases made during the year under review affecting renegotiable business (fixed price, CPFF, incentive or other type of contracts). The details should include: (a) Amounts, dates and to whom rebates or refunds were made; (b) original and revised unit prices, the quantities affected, and the amounts involved; (c) reason for change in price, or for refund or rebate; (d) whether or not reflected in the financial statements for the year under review, and, if reflected, the extent thereof; and (e) if a subcontractor, the name of its customer.

3. Explain status of any contractual price redetermination provisions which could affect, retroactively, the renegotiable income as reported for fiscal year under review. (See Regulations §§ 423.307 and 424.403–2).

4. Explain purchasing policy with respect to suppliers and subcontractors.

5. Explain any substantial difference between profit margins on renegotiable and non-renegotiable business.

SECTION F. GOVERNMENTAL AND OTHER ASSISTANCE

1. Explain assistance received (estimated if necessary), such as—

(a) Value of machinery borrowed;
(b) Value of plants provided;
(c) Value of customer furnished ("free issue") materials;
(d) Advances on contracts;
(e) Other financial or technical assistance received, and amount of former.

The above refers to both governmental assistance and that received from other contractors; however, each item should be shown separately. The amount of rentals paid for Government plant should be given; also, estimated dollar volume of renegotiable production therefrom.

SECTION G. PLANT FACILITIES

1. If not previously furnished, summarize in tabular form the gross values, related reserves and net values of property, plant and equipment, showing beginning balances, additions, and retirements during the period under review and closing balances. Values of the facilities should be set forth on the basis of original cost; any deviations therefrom should be explained.

2. Give an estimate of the cost of plant and equipment additions during the fiscal year under review occasioned by renegotiable business.

3. Submit a statement of losses from sale, exchange or other disposal of facilities used in the performance of renegotiable contracts or subcontracts. (See Regulations, paragraphs 423.384–2 (c) and 423.385–4.)

4. Report the cost of any completely amortized facilities and state what portion, if any, of such facilities was used in renegotiable business.

NOTE: Detailed lists need not be prepared. It will be sufficient to report by classifications such as buildings, machinery, etc.

SECTION H. SEGREGATION OF SALES AND ALLOCATION OF COSTS AND EXPENSES

1. Unless previously filed with the Military Renegotiation Policy and Review Board, include a complete description of the methods followed in segregating renegotiable and non-renegotiable sales shown in Exhibits 1 and 1 (a) MRR Forms 704.1 and 704.1 (a)).

2. Describe the methods used (job order or process cost system, etc.) in computing or allocating costs, expenses, and other income and deductions applicable to renegotiable and non-renegotiable business shown in Exhibits 1 and 1 (a). State whether such methods were consistent with procedure under the company's system of cost accounting. State whether your cost accounting system is under general ledger control. Explain fully any significant changes made during the subject fiscal year in the basis or method of allocating costs to company products or to renegotiable and non-renegotiable business. State in which plants renegotiable business operations were conducted.

3. Explain or furnish schedules, showing segregation where applicable, between renegotiable and non-renegotiable business, with respect to each of the following:

(a) In the case of an integrated producer, a computation supporting the exemption of raw materials or agricultural commodities (see par. 423.343 of the Regulations);

(b) Sales to subcontractors of materials entering into repurchases from them;

(c) Interdepartmental sales and profit not eliminated (see Consolidated basis—sec. A–7);

(d) Provision for normal depreciation, accelerated depreciation, and depreciation on idle plant;

(e) Method of inventory valuation—materials, work in process and finished goods; character of charges included in such valuations, if readily ascertainable; date as of which physical inventory was taken, and information as to whether or not supervised by independent public accountants; write-downs and losses, by types and amounts, on disposal of inventory items, giving basis therefor;

(f) Basis of allocation of selling and advertising expenses unless previously furnished. (See MRR 423.387 re advertising expense);

(g) Contractor's attention is called to the fact that no expense for contributions may be allocated to renegotiable business. (See MRR 423.388–2.)

NOTE: Adequate explanations are essential to the equitable consideration of your case—see Part 423 of the Regulations.

(There is no section capitioned I.)

SECTION J. SALARIES AND OTHER COMPENSATION

1. A schedule showing salaries and all other compensation (including commissions, bonuses, royalties, and other forms of extra compensation) paid or accrued to the 10 highest paid officers and employees, or to those who received in excess of $10,000 per annum (whichever is the lesser in number) for the period under review, and in each of the 2 fiscal years immediately preceding, is required.

2. Describe briefly any bonus, pension trust, or other employee compensation plans in effect or provided for, with comment as to how they are applicable to personnel listed under Item 1, preceding, showing the dates that such plans were adopted and whether approved by the Bureau of Internal Revenue and the basis of computation of amount deductible in computing taxable income.

3. Detail compensation of whatever character (fees, commissions, etc.) aggregating $10,000 or more per payee, to other individuals or organizations, paid or accrued during the period under review, and the two fiscal periods immediately preceding. Indicate the basis for computation of such compensation.

NOTE: The statements of compensation should show for each individual or organization: Name, title or relationship, duties (unless self-explanatory), time devoted to business, total compensation; portion of the compensation paid to any of the individuals listed disallowed by the Bureau of Internal Revenue as a taxable deduction in the two latest years examined. Any compensation, based on sales or profits, which has been or will be affected by renegotiation should be reported.

SECTION K. RESERVES

1. If any portion of an amount included in costs and expenses as provision for a reserve was allocated to renegotiable business, although part or all of such provision was not deducted for tax purposes, state the amount allocated to renegotiable business and explain the basis for such allocation and the purpose of the related reserve. If no such charges were made, so state. (See section A–4.)

SECTION L. COST-PLUS-FIXED-FEE (CPFF) CONTRACTS

1. The following data should be submitted for each CPFF contract subject to the Renegotiation Act of 1948:

(a) For prime contracts, date, product, and contract number; for subcontracts, name of prime contractor and prime contract number, if known;

(b) Total cost and fee as originally estimated, stated separately;

(c) Changes in original cost estimates;

(d) Adjustments to fee for changes and reasons therefor;

(e) Fees received or accrued in year under review and basis on which computed; amount, if any, of fees accrued on partially completed contracts but not billed or booked;

(f) Costs incurred or accrued in year under review;

(g) Estimate of cost to complete;

(h) Amounts and types of disallowed and non-reimbursable costs and costs not submitted, summarized and explained by major classifications;

(i) An explanation of variations, if any, between estimated and actual costs.

NOTE: See Regulations § 424.043–2.

SECTION M. TERMINATED CONTRACTS

1. Furnish a statement of the aggregate receipts or accruals (exclusive of those based on the termination claims of own subcontractors) applicable to claims based on renegotiable contracts and subcontracts terminated during the period under review and a statement as to the status of such claims. Also, furnish an estimate of any amounts not included in your financial statements for which you had or may have a claim relating to contracts terminated during the year under review.

2. Include an estimate of the total amount involved in terminations during the period under review on which claim for compensation has been waived (so-called "no cost" settlements) together with the percentages thereof represented by (a) raw materials and (b) fabricated or semi-fabricated materials. Explain the disposition of inventories or charges.

NOTE: The attached Exhibit 2 is provided for use in reporting the information and data called for under Items 1 and 2 above. Separate statements should be submitted for terminations under fixed-price operations and cost-plus-fixed-fee operations.

SECTION N. STATEMENT OF FACTORS

You are invited to furnish a statement of the salient facts with regard to each of the following factors (which must be taken into consideration in renegotiation):

(a) Efficiency, with particular regard to attainment of quantity and quality production, reduction of costs and economy in the use of materials, facilities, and manpower;

(b) Reasonableness of costs and profits, with particular regard to (1) volume of production, earnings on business not subject to renegotiation, both for the year under review and for prior years; (2) comparison of products under subject contracts and subcontracts with products not subject to renegotiation; (3) the different economic conditions existing on or after the effective date of the 1948 Act from those prevailing during the period 1942 through 1945.

(c) Amount and source of public and private capital employed and net worth;

(d) Extent of risk assumed; including the risk incident to reasonable pricing policies;

(e) Nature and extent of contribution to the national security, including inventive and developmental contribution and cooperation with the Government and other contractors in supplying technical assistance;

(f) Character of business, including complexity of manufacturing technique, character, and extent of subcontracting, and rate of turn-over.

NOTE: Only facts relevant to results for the fiscal year under review should be submitted, and generalizations avoided. (See MRR 424.409 through 424.416.)

SECTION O. MISCELLANEOUS

1. Include a statement relative to each of the following:

(a) Royalties paid or incurred, or received or accrued, segregated as to amounts applicable to renegotiable and non-renegotiable business. (Exhibit 3 may be used to present this information).

(b) A list of any claims against the Government arising out of contracts and subcontracts subject to renegotiation under the Renegotiation Act of 1948.

(c) Describe briefly any pending litigation, the outcome of which might affect renegotiable profits for the period under review.

§ 427.704–1 *Statement of Income (MRR 704–1).* (a) This form is generally referred to as Exhibit 1 and, together with the detail supporting this statement on its reverse side which is known as Exhibit 1 (a), accompanies the Contractor's Information and Work Sheet described above in § 427.704. The contractor is requested to submit on this form his income statement for the fiscal year under review showing in Column A, Total Business, in Columns B and C, Renegotiable Business separated as to Cost-Plus-A-Fixed-Fee (CPFF) Business and Fixed Price Business, and, in Columns D and E, Non-renegotiable Business separated as to CPFF and Fixed Price Business.

(b) The content of the form is as follows:

SALES, LESS DISCOUNTS, RETURNS, AND ALLOWANCES

PRIME CONTRACTS AND PURCHASE ORDERS, SUBCONTRACTS AND PURCHASE ORDERS, OTHER RENEGOTIABLE BUSINESS

1. Net sales, including CPFF billings.
2. Cost of goods sold.
3. Selling and advertising expense.
4. General and administrative expenses.
5. Additional spaces provided.
6.
7. Total costs and expenses.
8. Operating profit.
9. Other income (itemize on separate schedule):
   a. Allocable in part or wholly to renegotiable business.
   b. Allocable wholly to nonrenegotiable business.
   c. Additional spaces provided.
   d.
10. Other deductions (itemize on separate schedule):
   a. Allocable in part or wholly to renegotiable business.
   b. Allocable wholly to nonrenegotiable business.
   c. Additional spaces provided.
   d.
11. Profit for renegotiation before State income taxes.
12. State taxes measured by income.
13. Net profit before provision for Federal taxes on income and for extraordinary reserves.
14. Provision for Federal taxes on income.
15. Net profit before extraordinary reserves.
16. Provision for extraordinary reserves.
17. Net income per books.

NOTE: An itemized reconcilement of any differences between income per books or audit report and income per Federal income tax return, including an explanation of the

effect on renegotiable income of any such differences, should be submitted on a separate schedule.

§ 427.704–1a *Details of Exhibit 1 (MRR 704–1 (a)).* (a) The contractor is requested to furnish on Exhibit 1 (a) detailed data to substantiate certain items appearing in Exhibit 1. These details are to be separated as in Exhibit 1 to show: Total Business, Renegotiable Business, separated as to Cost-Plus-A-Fixed Fee (CPFF) Business and Fixed Price Business, and Non-renegotiable Business, also separated as to CPFF and Fixed Price Business.

(b) The content of this form, generally referred to as Exhibit 1 (a), is as follows:

18. Cost of goods sold:
    a. Materials purchased, less discounts.
    b. Goods purchased for resale.
    c. Direct labor.
    d. Indirect labor.
    e. Maintenance and repairs.
    f. Rent.
    g. Royalties.
    h. Depreciation.
    i. Other costs (itemize on separate schedule).
    j. Additional space provided.
    k. Inventory increase or (decrease).
    l. Total (per line 2, Exhibit 1).
19. Approximate amount of work subcontracted included in cost of sales.
20. Selling and Advertising expense:
    Selling:
    a. Salaries (other than branch office salaries).
    b. Commissions paid to outsiders.
    c. Branch office salaries and expenses.
    d. Other, including depreciation (itemize on separate schedule).
    e. Additional space provided.
    f. Total Selling expense.
    Advertising:
    a. Trade papers.
    b. Additional space provided.
    c. Total Advertising expense.
    Total Selling and Advertising expense (per line 3, Ex. 1).
21. General and Administrative expense:
    a. Officers' salaries.
    b. Other office salaries.
    c. Other expense (itemize on separate schedule).
    d. Additional spaces provided.
    e.
    f. Contributions (see § 423.388–2 of Regulations).
    g. Total (per line 4, Exhibit 1).

§ 427.704–1b *Instructions for Preparation of Exhibits 1 and 1 (a) (MRR 704.1 and 704.1 (a)). General.* When the contractor is engaged in two or more types of renegotiable business of a widely divergent nature or operates on a divisional basis, it is preferable that the sales, costs and expenses be reported separately. In such cases, Exhibits 1 and 1 (a) may be expanded as required.

Renegotiable sales. Opposite line titled "Prime contracts and purchase orders", enter in columns (B) and (C) direct sales to the Department of Defense, including the Departments of the Army, the Navy, and the Air Force, under renegotiable prime contracts and purchase orders.

NOTE: Sales under Cost-Plus-a-Fixed-Fee contracts (CPFF) are total billings and related accruals, including fees.

Opposite line titled "Subcontracts and purchase orders," enter in columns (B) and (C) renegotiable sales under subcontracts of any tier or purchase order falling within the definition of a subcontract, except those required to be reported on the line titled "Other renegotiable business."

Opposite the line titled "Other renegotiable business" enter in columns (B) and (C) renegotiable sales or revenues such as royalties, commissions, management fees, etc.

Receipts and accruals, estimated if necessary, relative to the uncompleted portions of terminated contracts or subcontracts should be set out in a separate column under the appropriate caption, CPFF or Fixed Price. If these include amounts based on own subcontractors' claims, the aggregate of the latter should be shown as a footnote to Exhibit 1.

Line 1. Enter total renegotiable and non-renegotiable sales on Line 1, in the appropriate columns. If your aggregate net sales shown on this line are not in agreement with sales shown in your published income statement or your audit report, submit a reconciliation of such variation.

Lines 2, 3, 4, and 7. In allocating costs and expenses between renegotiable and non-renegotiable business, the contractor's cost system, if adequate, should be employed. Otherwise, percentages or other formulae may have to be used, either as to individual products or groups of products, or by departments, divisions, etc. Each major item of selling and general expenses should be allocated in accordance with the most equitable method in view of the particular situation. The amounts reported in columns (B) and (D) of line 7 should be those costs and expenses incurred or accrued and allocated to CPFF contracts in accordance with the contractor's system of accounts, rather than the amount of reimbursable cost and expense.

Line 9. Other income.

Line 10. Other deductions.

Lines 9 and 10, a., b., c. Amounts representing non-operating income and expenses, which are wholly or partially applicable to renegotiable business, should be entered on lines 9a and 10a, respectively.

Losses from write-downs and disposal of inventory items (if significant) should be entered on line 10c and not merged with cost of sales. Non-operating items not applicable to renegotiable business should be entered on lines 9b and 10b. Examples of these are profit on disposal of fixed assets, adjustments applicable to prior years, dividends received, write-off of intangibles, etc.

Lines 18a to 1. Cost of Goods Sold. The cost of goods sold summary illustrated contemplates the summarization of the cost of sales by account classifications reflecting beginning and ending inventories.

If the contractor's cost system does not lend itself readily to the captions provided under this heading, the contractor may submit in lieu thereof a schedule prepared from his own classification of accounts. Where unit costs are compiled, an over-all approximation (expressed either in dollars or per cent) of the material, labor, and overhead elements will be sufficient. While it is desired that the schedule of cost of sales be filled-in, it is not required if the allocation would cause an undue amount of work on the part of the contractor, or if the cost of sales is allocated in proportion to the dollar value of sales, but the reasons for omissions should be stated.

Line 20, Selling and Advertising Expenses. If the contractor's accounts contain any significant amounts included under captions not listed, a separate schedule should be submitted. Salaries should include all forms of compensation, that is salaries, bonuses, etc.

Line 20b applies only to commissions paid to non-employees, such as brokers, manufacturers' agents, etc.

As to Advertising, it is important that § 423.387–2 of this chapter be reviewed.

Line 21. General and Administrative Expenses. Six lines have been provided for the insertion of any relatively large items. Should the captions and lines provided be considered inadequate, a separate schedule should be submitted, in line with the classifications customarily used by the contractor.

PART 428—STATUTES, ORDERS AND DIRECTIVES

RAW MATERIALS EXEMPTION

The following amendment is made to § 428.841 of Subpart D of Part 428 of this subchapter.

§ 428.841 *Raw materials exemption.* The Military Renegotiation Policy and Review Board has determined that contracts and subcontracts for any of the following products are exempt from renegotiation pursuant to provisions of subsection (i) (1) (B) of the Renegotiation Act of February 25, 1944, as amended, adopted by reference by section (d) of the 1948 act, and that said products shall be added to the list of products heretofore determined to be so exempt (15 F. R. 5197). See § 423.343–1 of this subchapter.

NOTE: This list may be modified from time to time.

Timber, standing; logs; logs sawed into length, and logs with or without bark.

(Sec. 3, 62 Stat. 259; 50 U. S. C. App. Sup., 1193)

Adopted by the Board: July 6, August 4, September 1, 1950.

FRANK L. ROBERTS,
Chairman, Military Renegotiation Policy and Review Board.

[F. R. Doc. 50–8185; Filed, Sept. 18, 1950; 8:55 a. m.]

Chapter VII—Department of the Air Force

Subchapter G—Personnel

PART 881—PERSONNEL REVIEW BOARDS

MISCELLANEOUS AMENDMENTS

Sections 881.2, 881.3 (a), 881.5 (a) and (b), and 881.10 (a) are amended as follows:

§ 881.2 *Authorization and jurisdiction.* (a) The Board is an administrative agency, established in the Office of the Secretary of the Air Force, pursuant to section 207 of the Legislative Reorganization Act of 1946 (60 Stat. 837; 5 U. S. C. 191a), National Military Establishment Transfer Order 23 (13 F. R. 5837), Joint Army and Air Force Adjustment Regulations 1–11–45, October 7, 1948, and National Military Establishment Transfer Order 40 (14 F. R. 4908), as amended by Department of Defense Amendment One thereto (14 F. R. 6411), which authorize the Secretary of the Air Force to correct any military record under the jurisdiction of the Department of the Air Force or of the United States Air Force where in his judgment such action is necessary to correct an error or to remove an injustice. Section 131 of the Legislative Reorganization Act of 1946 (60 Stat. 831) provides that no bill authorizing or directing the correction of a military record shall be received or considered in either the Senate or the House of Representatives. This statutory authority, therefore, is construed as a substitute for the correction of military records by Congressional action and as conferring jurisdiction upon the Secretary of the Air Force, consistent with existing law, substantially equivalent to that previously exercised by the Congress (40 Ops. Atty. Gen. 504).

(b) Unless directed by the Secretary of the Air Force, or the designated official acting for him, the Board will not review any case in which final action has been taken by him or by higher authority. No application will be considered until the applicant has exhausted all remedies afforded him by existing law or regulations.

§ 881.3 *Application.* (a) The applicant for relief will submit a written request on Department of Defense Form 149, Application for Correction of Military or Naval Record, to the Secretary of the Air Force, Attention: Headquarters United States Air Force, Air Adjutant General, Washington 25, D. C. Copies of Department of Defense Form 149 may be obtained from Headquarters United States Air Force, Air Adjutant General, Washington 25, D. C.

* * * * *

§ 881.5 *Hearing.* (a) When an application is found to be within the jurisdiction of the Board and when the Air Adjutant General has determined that all other appeal channels have been exhausted, the applicant will be entitled to appear before the Board in open session, either in person or by counsel of his own selection. At the discretion of the Board, the applicant may present witnesses to testify in support of his claim. As used in §§ 881.1 to 881.13 the term "counsel" will be construed to include members of the Federal bar in good standing, the bar of any State in good standing, accredited representatives of veterans' organizations recognized by the Veterans' Administration under section 200 of the act of June 29, 1936 (sec. 200, 49 Stat. 2031; 38 U. S. C. 101), and such other persons who, in the opinion of the Board, are considered to be competent to present equitably and comprehensively the claim of the applicant for review. In no case will the expenses of the applicant or expenses or compensation of witnesses or counsel for the applicant be paid by the Government.

(b) In each case in which hearing is granted the Board will transmit to the applicant a written notice stating the time and place of hearing. The notice will be mailed to the applicant at least 30 days prior to the date of hearing. The applicant must inform the Board in writing after receipt of notice of hearing and at least 15 days before the date of the hearing that he and/or witnesses or counsel will be present at the time and place set for the hearing. The applicant will be responsible for notifying his witnesses, if any. The record will contain evidence that written notice was given the applicant, and the time and manner thereof.

* * * * *

§ 881.10 *Transmittal of records and action.* (a) The record of proceedings and the recommendation of the Board will be forwarded to the Secretary of the Air Force or the designated official acting for him. After review, the Secretary, or the designated official acting for him, will issue a directive to the Chief of Staff, United States Air Force, Washington 25, D. C., for appropriate action.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—National Production Authority, Department of Commerce

[NPA Reg. 1]

PART 10—INVENTORY CONTROL

This regulation is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950. Consultation with industry representatives in advance of the issuance of this regulation has been rendered impracticable by the fact that the regulation applies to all trades and industries.

Sec.
10.1 Purpose.
10.2 Materials covered.
10.3 Persons affected.
10.4 Practicable minimum working inventory.
10.5 Restriction on receipts.
10.6 Restriction on delivery.
10.7 Restriction on ordering.
10.8 Adjustment of orders.
10.9 Receipts permitted after adjustment of orders.
10.10 Separate operating units.
10.11 Imported materials.
10.12 Minimum sales quantity.
10.13 Defense against claims for damages.
10.14 Records, reports and audits.
10.15 Applications for adjustment or exception.
10.16 Violations.

AUTHORITY: §§ 10.1 to 10.16 Issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong., sec. 101, E. O. 10161, Sept. 12, 1950, 15 F. R. 6105.

§ 10.1 *Purpose.* The purpose of this part is to prevent the accumulation of excessive inventories of materials in short supply. It does this by limiting the quantities of such materials that can be ordered, received, or delivered.

§ 10.2 *Materials covered.* This part applies only to those materials listed in the attached Table I in the shapes and forms therein specified.

§ 10.3 *Persons affected.* This part does not apply to ultimate consumers buying for personal or household use but does apply to everyone else buying or selling either for use or for resale (including resale in export trade).

§ 10.4 *Practicable minimum working inventory.* As used in this part, the term "practicable minimum working inventory" means the smallest quantity of material from which a person can reasonably meet his deliveries or supply his services on the basis of his currently scheduled method and rate of operation. In the absence of unusual circumstances, if the ratio of a person's inventory to his currently scheduled operations is substantially greater than the ratio which he found it necessary to maintain between inventory and operations during the recent past, his inventory will be considered excessive.

§ 10.5 *Restriction on receipts.* (a) No person may receive or accept delivery of material listed in table I if his inventory of that material is, or by such receipt would become, more than a practicable minimum working inventory.

(b) In figuring his inventory, a person must include all such material in his possession or held for his account by others but not that held by him for the account of others. Material is considered to be in inventory until actually put into process or actually installed or assembled.

(c) This part does not provide for disposal of excess inventory which may be on hand. Excess inventory may, however, be subject to requisition, under certain circumstances, as provided in section 201 (a) of Title II of the Defense Production Act of 1950.

(d) Any person engaged in a seasonal business or industry who normally stocks inventory in advance of the season may, notwithstanding the restriction in paragraph (a) of this section, accept such advance delivery of his seasonal requirements provided that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated seasonal requirements.

§ 10.6 *Restriction on delivery.* No person may deliver any material if he knows or has reason to believe that his customer is not permitted to receive it under this part.

§ 10.7 *Restriction on ordering.* (a) No person may place any order calling for delivery of any material earlier or in larger amounts than he would be permitted to receive under this part.

(b) A person may not place orders with different suppliers totalling more than he is permitted to receive even though he intends to cancel one or more of the orders before delivery.

§ 10.8 *Adjustment of orders.* (a) Outstanding orders, placed before the effective date of this part, for delivery earlier or in greater quantities than a person is permitted to receive, must be promptly cancelled, reduced or deferred to the extent that the original scheduled delivery would result in his exceeding his practicable minimum working inventory.

(b) A person whose requirements change, either because of an alteration in operations, slowing or stoppage of production, delayed delivery by suppliers, or otherwise, must promptly cancel, reduce or defer his outstanding

orders to the extent that the original scheduled delivery would result in his exceeding his practicable minimum working inventory.

§ 10.9 *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders as required by § 10.8, delivery of the material involved may be made and received and the restrictions on receipts may be exceeded to the following extent only:

(a) Delivery may be made and accepted if the supplier has shipped the material or loaded it for shipment before receipt of the instruction to adjust.

(b) Delivery may be made and accepted of any special item which the supplier actually has in stock or in production, or for the production of which he has acquired special components or special materials. For the purpose of this part, a special item is one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others.

(c) Delivery may be made by, and accepted from a producer, if the material has already been produced or is in production before receipt of the instruction to adjust and cannot be used to fill other orders on the producer's books.

§ 10.10 *Separate operating units.* In the case of a person who keeps separate inventory records for them, this part applies to each such operating unit independently.

§ 10.11 *Imported materials.* A person may import any material acquired prior to landing without regard to the inventory restrictions of this part. However, if his inventory of a material thereby becomes in excess of the amount permitted, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this part do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him is permitted to receive.

§ 10.12 *Minimum sales quantities.* In the case of materials that are mass produced or are normally marketed only in minimum sales quantities, a person may order and receive from a producer a minimum production run of such a material, or from any other supplier a minimum sales quantity, provided it is not practicable for him to procure his needs from other suppliers in smaller quantities, even though his inventory of such material is thereby increased beyond a practicable minimum working inventory. He may not receive additional quantities, however, until his inventory is reduced below a practicable minimum working inventory.

§ 10.13 *Defense against claims for damages.* Persons complying with this part are entitled to the protection afforded by section 707 of the Defense Production Act of 1950, which provides in part that "No person shall be held liable for damages or penalties for any act or failure to act resulting directly or indirectly from his compliance with a rule, regulation, or order issued pursuant to this act, notwithstanding that any such rule, regulation, or order shall thereafter be declared by judicial or other competent authority to be invalid."

§ 10.14 *Records, reports and audits.* (a) From the date of issuance of this part, each person subject to its provisions shall retain in his possession the records which he customarily maintains of inventories, receipts, deliveries and use. This does not require any addition to present accounting records and methods and does not specify any particular accounting method.

(b) Persons subject to this part shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act.

(c) All records required shall be made available at the usual place of business where maintained, for inspection and audit by duly authorized representatives of the National Production Authority.

§ 10.15 *Applications for adjustment or exception.* Any person affected by any provision of this part may file an application for an adjustment or exception upon the ground that such provision works an exceptional and unreasonable hardship upon him not suffered generally by others in the same trade or industry or that its enforcement against him would not be in the interest of the national defense program. All such applications, as well as any other letters or questions, should be addressed to the National Production Authority, Washington 25, D. C., Ref: R–I.

§ 10.16 *Violations.* Any person who wilfully violates any provision of this part, or furnishes false information or conceals any material fact in the course of operation under it, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to compel necessary adjustment of his inventories or to suspend his privilege of making or receiving further deliveries of materials subject to this part.

NOTE: All reporting and record-keeping requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation shall take effect on September 18th, 1950.

NATIONAL PRODUCTION AUTHORITY,
[SEAL] WILLIAM H. HARRISON,
Administrator.

TABLE I—MATERIALS TO WHICH THIS REGULATION APPLIES

BUILDING MATERIALS

Portland cement.
Gypsum board, sheathing and lath.

CHEMICALS

Alcohol, industrial (ethyl alcohol).
Benzene (benzol).
Caustic soda, all grades, liquid and solid.
Chlorine, gaseous and liquid.
Glycerine, crude and refined.
Soda ash (sodium carbonate), all grades.

FOREST PRODUCTS

Lumber:
Softwood and hardwood, rough-sawed, dressed, or worked to a pattern, including: box, crates and package shook manufactured from sawed lumber; softwood cut stock, and hardwood small dimension stock; but not including railway cross ties, mine ties and hardwood flooring.
Softwood plywood:
Softwood plywood including: softwood plywood made in hardwood plywood mills; plywood which has a softwood face; and softwood plywood which has been overlaid with paper, plastic, metal, or other material, but not including hardwood veneer.
Wood pulp:

IRON AND STEEL

Iron:
Pig iron.
Gray iron castings, rough and semifinished; malleable iron castings, rough and semifinished.
Steel (Carbon and alloy, including stainless)
Ingots and semifinshed steel, including skelp; steel castings, rough and semifinished; structural shapes and piling; plates; rails and track accessories; wheels and axles; bars, including reinforcing and cold finished bars; standard pipe and tubing; wire, wire rods and wire products; tin plate, terne plate and black plate; hot rolled sheet and strip; cold rolled sheet and strip; galvanized sheet and strip; electrical sheet and strip; and other mill shapes and forms.
Forgings, rough.
Iron and steel scrap.

METALS AND MINERALS

Aluminum:
Primary and secondary in crude form.
Semifabricated shapes: castings (including die); plate, sheet and strip; rolled structural shapes, rod, bar and wire; extruded shapes; tube blooms and tubings; powder, flake and paste.
All aluminum and aluminum base scrap containing commercially recoverable aluminum.
Columbium:
Ferro-columbium, potassium columbium fluoride, columbium oxide, and columbium carbide.
All scrap or secondary material containing commercially recoverable columbium.
Cobalt:
Cobalt, the element in any form and combination with other elements in which cobalt is an essential constituent, except: cobalt concentrates; cemented carbide tipped tools, cast cobalt-chrome-tungsten-molybdenum tools, alloy hard-facing welding rods and materials, and paints, varnishes, lacquers, inks, and similar products, containing cobalt driers.
All scrap or secondary materials containing commercially recoverable cobalt.
Copper:
Refined copper (fire refined and electrolytic).
Secondary copper and copper-base alloys.
Copper and copper base alloys: alloy plate, sheet and strip; alloy rod, bar and wire (including extruded shapes); alloy tube and pipe; unalloyed rod, bar and wire (including extruded shapes); unalloyed tube and pipe; copper wire and wire products; copper and copper-base alloy castings.
All copper and copper base alloy scrap containing commercially recoverable copper.
Magnesium:
Magnesium, primary and secondary ingots.
Semifabricated shapes.
All magnesium base alloy scrap containing commercially recoverable magnesium.
Manganese:
Manganese metal, ferro-manganese, spiegeleisen and all other compounds and alloys in which manganese is an essential and recognizable component.
All scrap and material containing sufficient manganese to be of commercial value.
Nickel:
Nickel, alloyed or unalloyed.
Imported nickel matte.
Nickel and nickel alloy, metal (cathode nickel, pigs, shot, and other primary forms).
Nickel and nickel alloy, secondary.
Nickel and nickel alloy, semifinished; bars, rods, tubes, sheet bar, ingot, blooms, billets, sheet strip and similar mill products not further manufactured.
All nickel and nickel base alloy scrap and nickel silver scrap containing commercially recoverable nickel.
Tin:
Tin, primary and secondary.
All tin and tin base alloy scrap containing commercially recoverable tin.
Tungsten:
Tungsten, in any form or shape into which it may be fabricated: except such finished forms as are fabricated for installation (without further processing) into electrical communication systems, incandescent lamps, and electronic equipment such as radio, radar and similar products.
Tungsten, ferro, metal powder and any other ferrous combination of the element tungsten in semimanufactured or manufactured form, excluding alloy steel, high speed steel and tool steel.
Tungsten, all nonferrous mixtures or alloys containing tungsten, prepared for any purpose requiring further processing, whether the same or manufactured by means of melting, pressing, sintering, brazing, soldering or welding, including but not limited to mixtures or alloys to be used in the production of tools and tool blanks or as hard facing materials; but not including any finished tools.
Tungsten, all chemical compounds having tungsten as a recognizable and essential component.
Tungsten, all scrap or secondary material containing commercially recoverable tungsten.
Zinc:
Zinc, slab (all grades).
Zinc, base alloy in crude form.
Zinc, dust and oxide.
Zinc, and zinc-base alloy scrap containing commercially recoverable zinc.
Nonferrous scrap not covered above.

RUBBER MATERIALS

Natural rubber, dry latex.
Synthetic rubbers, including latices, GR–S, butyl, neoprene, and N-types.

TEXTILE MATERIALS

Burlap (Hessian).
Cotton pulp.
High tenacity rayon yarn.
Nylon staple and nylon filament yarn.

[F. R. Doc. 50–8241; Filed, Sept. 18, 1950; 8:45 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 41—THE PRIVACY AND SAFEGUARDING OF THE MAILS

MAIL RECEIVED UNSEALED OR IN BAD ORDER; PARCELS

In § 41.15 *Mail received unsealed or in bad order* (39 CFR 41.15), amend paragraph (b) to read as follows:

(b) *Parcels.* (1) When a parcel in bad order is received in transit in a post office or by a postal transportation clerk, it will be endorsed "Received in Bad Condition at _____," and dated with an appropriate stamp. It will be reconditioned if necessary, and if improper handling on the part of a certain railroad employee, star route carrier, mail messenger, etc., contributed to the damage, a report of the essenial facts will be made on Form 5257 (No duplicate copy to be made) to the district superintendent, Postal Transportation Service, of the district in which the office discovering the damaged parcel is located. The same procedure will be followed at the post office of address before delivery, unless the parcel has already been endorsed "Received in Bad Condition at _____." Damage due to fires occurring in a storage car, railway post office car, or other Postal Transportation Service unit, except in joint stations, shall not be reported on Form 5257 when more than 10 parcels are involved, but general report thereof shall be made.

(2) Transfer clerks in railroad stations may open parcels at the rewrap table if necessary in order to obtain essential information for the complete preparation of Form 5257. Other postal transportation clerks may hand transfer clerks the parcel and a brief statement of facts written on a facing slip whenever a bad order parcel is handled under the same conditions mentioned above, and it is impossible to furnish all the information required on Form 5257 without opening the parcel.

(3) When a bad order domestic parcel is reconditioned at the post office of address, the clerk at the rewrap table will fill out card Form 1833 and notify the office of mailing when the damage can be attributed to improper preparation for mailing, except that not more than 10 of these forms will be filled out in any one day. These forms should be completed at different times on different days in order that they may be representative of all incoming mails. The contents will be appropriately described on this form in a brief manner, such as, eggs, hardware, printed matter, clothing, rubber goods, glassware, books, and the like.

(4) When Form 1833 is received at the office of mailing, and the office is of the first class, it will be referred to a designated supervisor for corrective action with the mailer. Corrective action may be in the form of a brief letter, a telephone call, or a personal visit to a firm when three or more forms have been received. Corrective action will be the responsibility of the postmaster at all other class post offices. Separate alphabetical firm and private individual files will be maintained at first-class post offices. These forms will be retained 6 months at all post offices.

NOTE: See §§ 59.84 and 59.86 of this chapter as to registered matter received unsealed or in bad order.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] J. M. DONALDSON,
Postmaster General.

[F. R. Doc. 50–8134; Filed, Sept. 18, 1950; 8:45 a. m.]

PART 45—DEAD MAIL MATTER

WAR SAVINGS SECURITIES

In § 45.11 *Disposal of letters containing valuables* (39 CFR 45.11) amend paragraph (c) to read as follows:

(c) *War savings securities.* Any war savings securities, either registered or unregistered, which shall be found in unclaimed letters, or be found loose in the mails, in railway postal cars, letter boxes, or on post office premises, shall, with the single exception hereinafter noted, be delivered to the Bureau of Finance for disposition, the proceeds of which shall be deposited as Miscellaneous Receipts of the Postal Service. The single exception referred to is that securities of the 1918–21 series affixed to a certificate or card on which the name of a person has been inscribed, shall be transmitted to the Secretary of the Treasury, Division of Loans and Currency, Washington, D. C., for disposition.

(R. S. 161, 396, 3938, as amended, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 408)

[SEAL] J. M. DONALDSON,
Postmaster General.

[F. R. Doc. 50–8139; Filed, Sept. 18, 1950; 8:46 a. m.]

PART 97—STAR, STEAMSHIP, AND STEAMBOAT ROUTES, AND VEHICLE SERVICE IN CITIES

PART 135—GENERAL

NEW CONTRACTS; RETIRED BONDS

a. In § 97.29 *New contracts* (39 CFR 97.29), amend the first paragraph of paragraph (b) to read as follows:

(b) *With present contractors or subcontractors.* The Postmaster General may, in his discretion and in the interest of the postal service, (1) notwithstanding the provisions of section 3949 of the Revised Statutes, as amended (39 U. S. C. 429) (§ 97.28), by mutual agreement with the holder of any star-route contract, renew such contract at the rate prevailing at the end of the contract term for additional terms of four years with such bond as may be required by the Postmaster General, or (2) in any case in which a contractor has sublet the route in accordance with law and does not indicate in writing to the Postmaster General at least ninety days before the end of the contract term that he desires to renew the contract, the Postmaster General may enter into a contract upon the same terms with such bond as may be required by the Postmaster General, without advertising the route for bids, with a subcontractor then operating the route who has performed the services required under the contract to the satisfaction of the Postmaster General for a period of at least one year. Any such contract may be terminated at the end of any four-year term at the option of the Postmaster General or the contractor or terminated at any time by operation of any existing law.

(R. S. 3951, as amended; 39 U. S. C. 434; Pub. Law 577, approved June 27, 1950)

b. In § 135.15 *Bonds of carriers in the Rural Delivery Service* (39 CFR 135.15; 15 F. R. 1891), amend paragraph (e) to read as follows:

(e) *Retired bonds.* All retired bonds should be kept on file by the disbursing postmaster and under no circumstances returned to the sureties. Such bonds may be disposed of in accordance with the provision of § 6.21, Postal Laws and Regulations, five years after the services of the employee have been terminated.

PART 114—TREATMENT OF MAILS: POSTAGE REFUNDS: INTERNATIONAL REPLY COUPONS: DISPOSITION OF FOREIGN DEAD MATTER

WAYBILLS

In § 114.21 *Waybills* (39 CFR 114.21), amend paragraghs (a) and (b) to read as follows:

§ 114.21 *Waybills*—(a) *For closed foreign mails.* Inland waybills shall be prepared and shall accompany all diplomatic pouches in transit through the United States. Inland waybills shall also be prepared for ordinary closed mails for foreign countries made up at United States exchange offices in transit through the United States to ports of exit. Any such registered closed mails shall be billed on manifold registry bills. Closed mails of foreign origin and destination in transit through the United States (foreign closed transit mails) shall not be accompanied by waybills. Any such registered closed transit mails shall be billed on manifold registry bills.

(b) *Preparation and checking.* The inland waybills mentioned in paragraph (a) of this section (except those covering diplomatic pouches) shall not accompany the mails but shall be forwarded by air direct by the office preparing the dispatches to the post office of the port of exit and upon arrival there these closed mails shall be checked with the waybills. The inland waybills and the manifold registry bills mentioned in paragraph (a) of this section covering the closed mails made up at United States exchange offices in transit through the United States to ports of exit, shall include the net weight of each class of mail (letters, prints, and parcel post separately) for each country of destination, as well as the total number of sacks for each country comprising the dispatch. Mails exchanged between Canada, Cuba, and Mexico (mails from any of which countries, when addressed to either of the others) will pass through the United States under the original waybill prepared by the foreign office of origin and will be checked against such waybills.

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

GERMANY, PARAGUAY, AND SWEDEN

a. In § 127.264 *Germany* (39 CFR 127.264) make the following changes:

1. Amend paragraph (a) (7) by deleting subdivision (iii) and by amending subdivision (vii) to read as follows:

(vii) Box numbers may be used as part of the address provided the name of the box holder is shown.

2. Amend paragraph (a) (8) by deleting subdivision (vii) and by amending subdivision (xiii) to read as follows:

(xiii) To the Soviet Zone, including the Soviet Sector of Berlin, the following are prohibited in addition to the foregoing:

Photographic and microphotographic films.
Cigarettes and other tobacco products.

b. In § 127.326 *Paraguay* (39 CFR 127.326) amend paragraph (b) (6) to read as follows:

(6) *Observations.* (i) Addresses in Paraguay must present import permits in order to effect the customs clearance of all parcels, regardless of value. Parcels are accepted for mailing with the understanding that responsibility for producing the required import permits rests with the addressee.

(ii) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

c. In § 127.359 *Sweden* (39 CFR 127.359) amend subdivision (iv) (*d*) of paragraph (b) (4) to read as follows:

(*d*) Tobacco in any form, unless addressed to the Tobacco Monopoly. However, manufactured tobacco may be imported for the Royal Family and by envoys accredited to the Swedish Court for personal use, and by authorized tobacco dealers. Machines, tools, and paper for tobacco manufacture require government authorization to be imported.

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 151—PROCEDURE BEFORE THE SOLICITOR

Correction

In Federal Register Document 50-7969, published at page 6081 in the issue for Saturday, September 9, 1950, the following change should be made:

The sixth line of § 151.10 (b) should read "the event of the refusal by the respond-".

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 865, Amdt. 1]

PART 95—CAR SERVICE

DEMURRAGE ON FREIGHT CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 13th day of September A. D. 1950.

Upon further consideration of Service Order No. 865 (15 F. R. 6197), and good cause appearing therefor: It is ordered, that:

Section 95.865 *Demurrage on freight cars*, of Service Order No. 865 be, and it is hereby further amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Effective date.* This section shall become effective at 7:00 a. m., September 20, 1950, and the provisions of this section shall apply to all chargeable detention occuring on and after the effective date and hour hereof.

It is further ordered, that a copy of this order and direction be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C. and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[Docket No. AO-220]

HANDLING OF IRISH POTATOES GROWN IN UPSTATE NEW YORK

FINDINGS AND DETERMINATIONS ON RESULTS OF REFERENDUM ON PROPOSED MARKETING ORDER

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Part 900), a public hearing was held at Syracuse, New York, on May 15-17, 1950, pursuant to notice thereof which was published in the FEDERAL REGISTER (15 F. R. 2364), upon a proposed marketing agreement and a proposed marketing order regulating the handling of potatoes grown in New York (except the counties of Suffolk, Nassau, Queens, Kings, New York, Bronx, and Richmond). The recommended decision (15 F. R. 4399) of the Assistant Administrator, Production and Marketing Administration, and the decision (15 F. R. 5095) of the Secretary of Agriculture, setting forth a proposed marketing agreement and order as the appropriate and detailed means for effectuating the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, were published in the FEDERAL REGISTER on July 12 and August 8, 1950, respectively. The Secretary also issued an order (15 F. R. 5101) directing that a referendum be conducted among producers of potatoes in New York (except the counties of Suffolk, Nassau, Queens, Kings, New York, Bronx and Richmond) to determine whether the requisite majority of such producers favor the issuance of the proposed marketing order.

It is hereby found and determined, on the basis of the results of the referendum conducted pursuant to the aforesaid referendum order, that the issuance of the proposed marketing order regulating the handling of Irish potatoes grown in New York (except the counties of Suffolk, Nassau, Queens, Kings, New York, Bronx, and Richmond), is not approved or favored by the requisite percentage of producers or of the total volume of production voting in the aforesaid referendum.

It is hereby further determined that the proposed marketing order set forth in the Secretary's decision of August 3, 1950 (15 F. R. 5095), cannot be made effective because of the failure of producers to approve or favor its issuance by the requisite percentage of producers or of the total volume of production voting in the referendum conducted among such producers.

Done at Washington, D. C., this 14th day of September 1950.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 50-8188; Filed, Sept. 18, 1950; 8:56 a. m.]

[7 CFR, Part 934]

[Docket No. AO-83 A 14]

HANDLING OF MILK IN LOWELL-LAWRENCE, MASS., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Lawrence, Massachusetts, on June 26, 27 and 28, 1950, pursuant to notice thereof which was issued on June 13, 1950 (15 F. R. 3940).

A recommended decision and opportunity to file written exceptions with respect to the issues raised at the aforesaid public hearing was filed with the Hearing Clerk, United States Department of Agriculture, on August 23, 1950 (15 F. R. 5762). Exceptions have been filed to that recommended decision and were considered in arriving at the findings and conclusions contained herein. The material exceptions are discussed specifically in the findings and conclusions with respect to the points to which such exceptions refer. However, to the extent that the findings and conclusions contained

herein are at variance with any exception pertaining thereto, such exception is overruled.

The material issues of record related to:

(a) Whether the payments to producers should be blended in a market-wide uniform price.

(b) The provisions to be included in an order providing for a market-wide pool. The evidence on this issue involved:

(1) Definition of "producer," "handler," "pool plant," "city plant," "country plant," "outside milk," "exempt milk" and other terms.

(2) Assignment of classified milk and milk products to receipts from producers and other sources.

(3) Determination of price differentials applicable to Class I and Class II milk at various distances from the market.

(4) Determination of the uniform price to producers with appropriate differentials.

(5) Basis of assessment on milk received from another Federal order market.

Findings and conclusions. Upon the basis of the evidence adduced at the hearing and on the record thereof, it is hereby found and concluded that:

(a) *Market-wide or dealer pool.* The payments by handlers for milk purchased from producers should be blended into a composite uniform price reflecting the value of milk disposed of by all handlers in the market. The dealer pool in the market maintained reasonably uniform prices during the war years when milk supplies were generally short in the region. During those years a high percentage of the milk delivered by producers was used in Class I by all handlers. With the recent increase in supplies of milk in the Lowell-Lawrence market and in the surrounding area, handlers with a relatively high Class I utilization have been able to attract producers from the fringes of the supply area who previously had received prices reflecting considerably more excess milk. Meanwhile, producers nearer to the market have at times been unable to find a market for their milk except as excess milk through the facilities of the local producers cooperative association.

The incentive on the part of handlers purchasing milk on a dealer pool basis to reach out to distant points to purchase milk lies in the possibility that the handler can obtain his entire requirements for Class I use from a region in which producers generally receive a surplus price for a substantial part of their milk deliveries. Producers in such an area are willing to sell to the high Class I use handler even though that handler may charge excessive hauling rates for farm to plant transportation. The disparity in prices paid producers by different handlers in the Lowell-Lawrence market has created a situation in which unwarranted variations in prices paid to farmers for milk results in unequal cost of milk to handlers and consequent instability in the market.

The evidence in the record indicates that handlers have been reaching out for milk supplies beyond the former boundaries of the milkshed. Some of the expansion is necessary to meet increasing fluid milk requirements in the market. However, the record indicates that some handlers purchasing milk at certain points enjoy a substantial competitive advantage over other milk buyers.

The proposed market-wide pool will provide that all handlers in the Lowell-Lawrence market pay a uniform price to producers at similar locations.

The marked difference between the uniform blend price paid to producers supplying the Boston market and the prices paid to certain dealers in the Lowell-Lawrence market invites the Lowell-Lawrence handler to impose on his producers higher hauling charges. The Boston and Lowell-Lawrence milk supply areas are intermingled and the larger Boston market draws considerably more milk from this overlapping area. The proposed market-wide pool provisions are designed to bring about alignment of prices paid producers at competitive points in each of these markets.

(b) From the evidence it is concluded that the proposed amendment providing for a market-wide pool as hereinafter set forth, meets the needs of the Lowell-Lawrence market and will tend to effectuate the declared policy of the act. The following findings and conclusions are made with respect to the applicable provisions of the marketing agreement and order:

(1) *Definitions.* The term "producer" should be defined in order to identify those dairy farmers who are considered the regular source of supply for the market and to whom the uniform market blended price should be paid. Determination of producer status should be made on the basis of delivery of milk from the producer's farm to a pool plant. Dairymen who deliver milk to pool plants in such a way that the milk is not available regularly to the market should be identified as "dairy farmers for other markets." The proposed method of determining which plants are pool plants is discussed later in this section.

The term "handler" shall be defined so as to identify the operator of a plant as the person responsible for reporting the receipts and use of milk and for making required payments on such milk. The proposed "pool handler" definition fixes this responsibility for payments to producers on the operator of a pool plant at which the milk is received from farmers. The exception to permit handlers to divert milk from the plant at which it is regularly received to another plant temporarily although the producer is maintained on the payroll of the diverting plant should be continued. The market administrator should be advised of the diversion promptly. This enables the administrator to verify the diversion and maintain the necessary check on the weights and tests of milk diverted.

All bulk milk delivered from a farm to a handler's plant, regardless of whether the dairy farmer is also a handler, should be regarded as a delivery by a dairy farmer. It was suggested at the hearing that dairy farmers who are also handlers be permitted to deliver a limited quantity of milk to another handler for processing on a price exempt basis. Several producers who have milk processed by handlers on an exempt basis at the present time opposed any limitation on this privilege.

The proposed market-wide pool provides that all producers delivering bulk milk to handlers in the market receive the same uniform blended price. Several dairy farmers would be required to accept a blended price under this plan whereas they have been receiving the full Class I price.

None of these dairy farmers or any other dairy farmers or handlers indicated at the hearing any objection to the exemption from pooling requested by the dairy farmers who deliver bulk milk to handlers for processing and return to the same farmers. The number of persons and the quantity of milk affected by this type of transaction is small and is apparently considered no threat to market stability by the persons who would participate in the proposed market pool. It is concluded, therefore, that dairy farmers who deliver milk to handlers for packaging and return to them be exempt at this time from pooling on that quantity of milk. If the exempt milk does grow to a volume which threatens market stability, we can expect those producers and handlers who are participants in the market pool to request immediate amendment to the order to limit the exemption.

The term "exempt milk" should be defined to identify the quantity of milk packaged by a handler for a dairy farmer.

The definition of "pool plants" as those which meet specific requirements is necessary to establish their relation to the market as a regular or reserve supply. The provisions governing pool plant status determine which dairy farmers are to be included in the market-wide pool.

Pool plant status was proposed for all city plants provided that 10 percent of the plant's total receipts of fluid milk products were disposed of in the marketing area, and for all city plants operated by cooperative associations of producers. The 10-percent requirement for pooling permits fringe area handlers to avoid pooling if they have only a small part of their business in the area. Applicable licensing requirements of the local health authorities are a further condition of pooling for all plants defined as city or country plants. The proposed method for qualifying city plants is similar to that effective in the Boston, Springfield, and Worcester markets. No objection to these requirements for qualification was indicated at the hearing except with reference to the inclusion in this category of one plant operated by a cooperative association at a location about 30 miles from the cities of Lowell and Lawrence. The definition proposed herein does not include as a city plant this particular plant. The only plant of a cooperative association which would be covered by this provision is a plant located within the marketing area and used primarily to process surplus milk diverted to it by handlers.

The proposed basis for qualifying city plants as pool plants should be adopted.

The supply area for the Lowell-Lawrence market is intermingled with the Boston supply area both near the market and in the country plant area. Country plants supplying other New England markets are located in the same general area. Since the number of milk plants located within an economic distance for shipment of milk to the Lowell-Lawrence market far exceeds the number required to provide an adequate supply to consumers in the area, it is important to establish standards which will identify a plant which is primarily supplying the Lowell-Lawrence Class I milk market.

One proposal made at the hearing would qualify country plants substantially on the basis that 50 percent of the receipts from dairy farmers at such plant were shipped to city plants or directly to consumers in the market area during any of the months of October through February. Such a requirement would operate to include in the pool only country plants which are needed to supply Class I milk to the market in each of these five months to the extent of 50 percent of the plant receipts from dairy farmers.

Several witnesses opposed the condition that a country plant be required to ship 50 percent of its total receipts to the Lowell-Lawrence market during each of the months October through February in order to maintain pool plant status. One handler demonstrated that a plant which had shipped substantial quantities to the market on a regular basis would have been unable to qualify continuously under the 50-percent rule.

An alternative proposal that the handler satisfy a minimum requirement of 50 percent Class I milk at all plants was proposed by this handler. The counter proposal appears to contemplate a minimum Class I use which a handler would have to attain in order to participate in the pool. Utilization of only 50 percent of total milk receipts in Class I is far below the market average and appears to be unreasonably low except for a plant which functions only as a reserve supply for the market. The shipping requirement rather than the handler's Class I utilization appears to be the more reasonable method of determining which plants belong in the market pool.

The 50-percent figure may impose at times on certain handlers an obligation to ship unnecessary quantities of milk to the market in order to maintain qualification. Proponents of the 50-percent proposal observed that the handler could split his shipments with sales to the Springfield and Worcester markets. The reasonableness of this alternative is questionable in view of the distances between the market and the fact that there is now no plant regularly supplying the Lowell-Lawrence market and either the Worcester or the Springfield market. Certain plants do supply the Lowell-Lawrence market and the Boston market but such plants are either Boston pool plants or receive only a Class II credit for milk sent to Boston.

In order to maintain price alignment between the Lowell-Lawrence and Boston markets, it is necessary to assure continued participation in the Lowell-Lawrence market of at least as much country plant milk as was supplied to the market during the first five months of 1950. In order to assure the continued inclusion in the Lowell-Lawrence market of adequate country plant supplies of milk at all plants in the region, the qualifying shipment percentage should be 30 percent for the months October through February. Plants which attain pool status by making such shipments in the months of seasonal short supply should be permitted to retain pool status in the months March through September upon the request of the handler who operates the plant.

Exceptions were filed to the finding that the qualifying percentage should be 30 percent rather than 50 percent on the grounds that handlers would be in a position to withhold from the market 70 percent of the milk receipts at the country plant even though the milk was needed for fluid sales in the city. If the order as a whole encouraged handlers to withhold milk which was needed for Class I uses at the city market, it would be necessary to revise immediately the pricing provisions which gave rise to such a situation. The withholding from the fluid market of 50 percent of the receipts at a plant would be nearly as serious as the withholding of 70 percent. The remedy in such a situation should remove the incentive for withholding needed supplies of milk regardless of the shipping percentage.

The term "city plant" is needed to identify the nearby plants which have direct distribution to consumers in the area and which are located within the area of direct distribution from plants located in the marketing area. Plants located within 10 miles of the boundaries of the marketing area should be designated as "city plants." This area includes about the same territory as that covered by the current provisions of the order and will establish a fringe area of equal width at all points surrounding the area.

It was proposed at the hearing that the "city plant" area be extended to a 30-mile radius measured from the City Halls in Lowell and Lawrence. This proposed extension of the city plant area was intended to include a plant located at Manchester, New Hampshire, which disposed of bulk and packaged fluid milk products to handlers in the marketing area. This plant has retail distribution in the Manchester area in sufficient quantity that it could not qualify for the Lowell-Lawrence pool under a requirement that 50 percent of its total receipts be shipped to the Lowell-Lawrence market during each of the months October through February. This plant, as its operations were described in the record, functions more like a country plant than a city plant with respect to the Lowell-Lawrence market. The record indicates that the plant could have qualified in 1949 and 1950 as a country plant under a requirement that 30 percent be shipped in the qualifying months to the Lowell-Lawrence market.

The 30-mile radius would include urban areas such as Fitchburg, Leominster and Framingham not contiguous to the Lowell-Lawrence area in addition to Manchester. These noncontiguous urban areas are served by milk handlers who do not distribute regularly in the Lowell-Lawrence market. The privilege of participation in the market pool should not be extended to such handlers on the basis of only 10 percent of their sales being made in the area. The requirement that a "city plant" be located within 10 miles of the market area will extend that privilege to plants in a small area surrounding the market without including any large urban area which is not directly bordering on the defined marketing area.

The term "country plant" is needed for convenience in referring to plants which are not defined as "city plants."

The definition of "outside milk" proposed at the hearing and the proposed payments into the pool on outside milk would assure that the Class I price for all Class I milk disposed of in the marketing area was paid to farmers supplying the Lowell-Lawrence Market for another Federal order market where such payment can be verified. It would permit also the disposition of surplus milk to plants in the marketing area or small quantities of milk to consumers without requiring the handler who made the disposition to pool all receipts at his plant. Milk disposed of in the marketing area from plants regulated by another Federal order would be subject to a payment into the Lowell-Lawrence pool only if the price applicable under the Lowell-Lawrence order were higher than the price applicable under the other Federal order.

(2) *Assignment of classified products to various receipts.* No change should be made in the general plan of milk classification. In adapting the order to a market-wide pool, it is necessary to provide specifically for the classification of milk received at pool plants from handlers regulated by other Federal orders. It is desirable to establish a system of assignment of receipts by each handler to allocate the volumes of Class I and Class II utilization between producer milk and nonproducer milk handled at the same plant.

This system of assignment of Class I milk to the plants of each handler, with the bulk of the milk assigned to nearby plants, affects the amount deducted from the value of the pool in the form of transportation differentials. It appears reasonable to require handlers to pay for Class I milk on the basis of most economical movement of such milk to the market. However, since certain country plants regularly supply Class I milk to markets other than Lowell-Lawrence, such direct sales of Class I milk from country plants should be assigned to the country plant from which the disposition was made.

(3) *Differentials applicable to class prices at various locations.* The schedule of price differentials on Class I milk proposed for plants located beyond 40 miles from the market is identical to the schedule of rates effective in the Springfield and Worcester markets. The rates are slightly higher than those established for the Boston market in recognition of the higher cost of transporting smaller quantities to these smaller markets.

Each of these markets is slightly nearer the country milk plant supply area and thus the higher unit cost of transportation is offset by the shorter haul with resulting comparable cost of milk at the same country point.

The present order provides for a reduction of 17 cents in established f. o. b. city prices for all milk received at plants located 21–40 miles from the market. The two cooperative associations, one of which is a cooperative handler whose plant is located outside the city plant area but within 40 miles of Lawrence, proposed that the differential be reduced from 17 cents to 10 cents. However, the representative of the cooperative association handler operating the plant testified that the established class prices less the 17 cents allowed in the present order had not been returned to member producers in current monthly payments during recent months. Since the testimony of the cooperative handler affected by this differential indicates that the cooperative has been deducting a sum greater than 17 cents, there is no reason to believe that the cooperative would not continue to deduct from current payments more than the proposed 10-cent differential. In effect, therefore, the proposed reduction in the differential in this nearby country zone would apply only to handlers who are not cooperative associations.

The 21–40 mile area from the Lowell-Lawrence market lies within the country plant area under the Boston milk order. The differential established under the Boston order for the plant at Manchester, New Hampshire, which is located in this overlapping area would be 38.5 cents less than the Boston and Lowell-Lawrence city plant prices. The price plan proposed herein is designed to bring about reasonable alignment at receiving plants of prices under the Boston and Lowell-Lawrence orders so that the incentive to shift producers or plants from one market to the other is minimized. Increasing the difference in Class I prices applicable in this nearby country plant area would be a move in the opposite direction. Therefore, the 17-cent differential should be continued on Class I milk received at the country plants located less than 41 miles from the City of Lawrence.

The Class II differential for country plants located less than 41 miles from the market should be 2 cents under the proposed schedule as it is under the present order. Although the hearing proposal called for no differential for plants in this zone, no evidence was presented to support a change in the rate.

The mileage distances from the market should be measured from the City Hall in Lawrence. The single basing point in Lawrence rather than the dual points in Lowell and Lawrence makes no significant difference in the zone location of plants or producers now supplying the market.

(4) *Uniform price to producers.* Provision should be made for a market-wide type of pool in order that all producers delivering milk to all handlers may receive a uniform price for all milk so delivered, irrespective of the uses made of such milk by the individual handler to whom it is delivered. This method of paying producers will require a producer settlement fund for making adjustments in payments by handlers so that the total sum paid by each handler shall equal the value of milk received by him and utilized in the classes for which prices are established by the proposed marketing agreement and order.

The uniform price paid to producers should reflect differentials for the location at which the milk is delivered and for the generally higher prices paid to producers located near the sales area.

Differentials which vary with the distance from the market of the plant at which a producer delivers his milk reflect the varying value of the product at different locations. To reflect this value difference, payments to producers in the Lowell-Lawrence area and in other New England markets are modified according to the schedule of differentials applicable to the Class I price. The amount of such differentials is discussed in connection with the previous issue.

A system of differentials to be paid producers located near to the marketing area similar to the plan in effect under the Boston Federal milk order was supported by the producers who proposed the amendment providing for a market-wide type of pool.

Most of the dairy farms in Massachusetts are close to urban centers. This probably explains why prices to Massachusetts farmers for milk sold wholesale average considerably more than the prices paid to Maine, New Hampshire and Vermont producers. The difference is usually more than transportation cost alone.

The nearby-differential plan has been a part of the payment plan in the Boston milk order for many years. The nearby-differential area for the Boston market completely surrounds the Lowell-Lawrence market. Producers in the area need not accept a price less than the Boston price including the nearby differential. The proposed differential plan is necessary in the Lowell-Lawrence market to reflect this customary differential.

The first differential area, or 46-cent zone, would extend 40 miles from the Lowell-Lawrence market and would overlap the Boston 41–80 mile zone at certain points. Certain witnesses at the hearing contended that the boundary of this differential area should correspond to the similar boundary of the 40-mile area from the Boston market. It is true that the Lowell-Lawrence handler will have a competitive buying advantage in this overlapping area. However, the record indicates that in this area there are many farms close together all supplying the Lowell-Lawrence market. No group of producers shipping to the Boston market was described. This is a normal supply area for the Lowell-Lawrence market and should continue to supply that market predominantly.

It was proposed and appears reasonable that the arc outlining the 80-mile distance from Boston should be used to measure the outside boundaries of the intermediate 23-cent differential zone.

Payments to producers should be made twice monthly with the option on the part of the handler to make a total payment in one amount not later than the 17th day after the end of the month. If the handler does not elect to make a final payment as early as the 17th day of the month following that in which the milk is delivered, he must make an advance payment on or before the 10th day after the end of the month in which the milk is delivered and the final payment on the 25th day after the end of the month of delivery. This practice is similar to that effective in other Federal order markets in New England.

(5) *Basis of assessment.* The basis of assessment should be modified to provide for assessing milk received from other Federal order plants in an amount equal to the assessment cost under the Lowell-Lawrence order less the assessment charged under the other Federal order. Other Federal order milk requires the additional expenditure of administrative funds for verification of handlers' reports. This added cost should not be imposed on handlers who purchase milk from producers but should be borne by handlers who purchase other Federal order milk.

Renumbering. The amendment includes in addition to the substantive changes discussed in this decision republication of the entire order to permit renumbering the sections thereof and the redesignation of section headings in compliance with the applicable FEDERAL REGISTER regulations (1 CFR Part 1).

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Lowell-Lawrence, Massachusetts, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Lowell-Lawrence, Massachusetts, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 14th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order,[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Lowell-Lawrence, Massachusetts, Marketing Area*

§ 934.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary to and in addition to the findings and determinations made in connection with the issuance of this order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Lawrence, Massachusetts, on June 26, 27, and 28, 1950, upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for milk in the said marketing area and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

(b) *Additional findings.* (1) It is hereby found that a pro rata assessment of handlers on the basis and at the rate set forth in § 934.71, as amended, and as hereby further amended will provide the funds necessary for the maintenance and functions of the market administrator in the administration of this order and such assessment is approved.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended to read as follows:

DEFINITIONS

§ 934.1 *General definitions.* (a) "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Lowell-Lawrence, Massachusetts, marketing area," also referred to as the "marketing area," means the territory included within the boundary lines of the following Massachusetts cities and towns:

Andover.	Methuen.
Billerica.	North Andover.
Chelmsford.	Tewksbury.
Dracut.	Tyngsboro.
Lawrence.	Westford.
Lowell.	

(c) "Order," used with the name of a marketing area other than the Lowell-Lawrence, Massachusetts, marketing area, means the order issued by the Secretary regulating the handling of milk in the other marketing area.

(d) "Month" means a calendar month.

§ 934.2 *Definitions of persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Dairy farmer" means any person who delivers bulk milk of his own production to a plant.

(d) "Dairy farmer for other markets" means any dairy farmer whose milk is received by a handler at a pool plant during the months of March through September from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk on more than 3 days in any one of the preceding months of October through February, except that the term shall not include any person who was a producer-handler during any of the preceding months of October through February.

(e) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a dairy farmer with respect to exempt milk delivered. The term shall also include a dairy farmer who ordinarily delivers to a handler's pool plant, but whose milk is diverted to another plant, if the handler, in filing his monthly report pursuant to § 934.30, reports the milk as receipts from a producer at such pool plant and as moved to the other plant. The term shall not apply to a dairy farmer who is a producer under the Boston, Worcester, or Springfield orders, with respect to milk diverted from the plant subject to the other order to which the dairy farmer ordinarily delivers.

(f) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Handler" means any person who in a given month operates a pool plant or any other plant from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(h) "Pool handler" means any handler who operates a pool plant.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, and who receives no milk other than exempt milk from dairy farmers except producer-handlers.

(j) "Buyer-handler" means any handler who operates a bottling or processing plant from which more than 10 percent of his total receipts of fluid milk products other than cream are disposed of by him as Class I milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(k) "Dealer" means any person who engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(l) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

§ 934.3 *Definitions of plants.* (a) "Plant" means the land, buildings, surroundings, facilities, and equipment, whether owned or operated by one or more persons, constituting a single oper-

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

ating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "Receiving plant" means any plant currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weight sheets or other records of dairy farmers' deliveries.

(c) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in §§ 934.20, 934.21 and 934.22 for being considered a pool plant in that month.

(d) "Regulated plant" means any pool plant; any pool handler's plant which is located in the marketing area and from which Class I milk is disposed of in the marketing area; any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

(e) "City plant" means any plant which is located within 10 miles of the marketing area.

(f) "Country plant" means any plant which is located beyond 10 miles of the marketing area.

§ 934.4 *Definitions of milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 16 percent, frozen milk, and reconstituted milk.

(b) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing or is separated from it by centrifugal force, in all forms including sweet, sour, frozen, and aerated cream, and milk and cream mixtures.

(c) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(d) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, and buttermilk, either individually or collectively.

(e) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(f) "Outside milk" means:

(1) All milk received from dairy farmers for other markets.

(2) All fluid milk products, other than cream, received at a regulated plant from an unregulated plant, up to the total quantity of nonpool milk received at the unregulated plant; except receipts from New York order pool plants which are assigned to Class I milk pursuant to § 934.27 and from regulated plants under the Boston, Worcester, or Springfield orders.

(3) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant, except a regulated plant under the Boston order, without its intermediate movement to another plant.

(g) "Exempt milk" means milk of a dairy farmer's own production which he delivers in bulk to a plant and for which an equivalent quantity of packaged milk is returned to him during the same month.

MARKET ADMINISTRATOR

§ 934.10 *Designation of market administrator.* The agency for the administration of this order shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 934.11 *Powers of market administrator.* The market administrator shall have the following powers with respect to this order:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

§ 934.12 *Duties of the market administrator.* The market administrator, in addition to the duties described in other sections of this order, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Pay, out of the funds provided by § 934.71, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(c) Keep such books and records as will clearly reflect the transactions provided for in this order and surrender the same to his successor, or to such other person as the Secretary may designate;

(d) Unless otherwise directed by the Secretary, publicly disclose, within 30 days after such nonperformance becomes known to the market administrator, the name of any person who, within 2 days after the date on which he is required to perform such acts, has not made reports or payments pursuant to this order.

(e) Prepare and disseminate for the benefit of producers, consumers, and handlers statistics and information concerning the operation of this order;

(f) Promptly verify the information contained in the reports submitted by the handlers; and

(g) Give each of the producers delivering to a plant as reported by the handler prompt written notice of their actual or potential loss of producer status for the first month in which the plant's status has changed or is changing to that of a nonpool plant.

CLASSIFICATION

§ 934.15 *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to §§ 934.16, 934.17 and 934.18, the classes of utilization shall be as follows:

(a) Class I milk shall be all fluid milk products the utilization of which is not established as Class II milk.

(b) Class II milk shall be all fluid milk products the utilization of which is established:

(1) As being sold, distributed, or disposed of other than as or in milk; and other than as or in flavored milk or flavored skim milk, buttermilk, or cultured skim milk, for human consumption; and

(2) As plant shrinkage, not in excess of 2 percent of the volume handled.

§ 934.16 *Classification of interplant movements of fluid milk products other than cream.* Fluid milk products, except cream, moved to another plant from a pool plant or from the city plant of an association of producers shall be classified as follows:

(a) If moved to another pool plant, they shall be classified in the class to which they are assigned at the plant of receipt pursuant to §§ 934.25 and 934.26.

(b) If moved to a buyer-handler's plant, they shall be classified as Class I milk, unless Class II utilization is established.

(c) If moved to a producer-handler's plant, or to any unregulated plant except a plant subject to the Boston, Worcester, or Springfield orders, they shall be classified as Class I milk up to the total quantity of the same form of fluid milk products utilized as Class I milk at the plant to which they were moved.

(d) If moved to a plant subject to the Boston, Worcester, or Springfield orders, they shall be classified in the same class to which the receipt is assigned under such order.

(e) If moved to a regulated plant of a nonpool handler, except the city plant of an association of producers, or to any unregulated plant except a plant subject to the Boston, Worchester, or Springfield orders, they shall be classified as Class I milk if retransferred to either of these types of regulated or unregulated plants.

§ 934.17 *Classification of interplant movements of cream, and of milk products other than fluid milk products.* Cream and milk products other than fluid milk products moved from the regulated plant of a pool handler to another plant shall be classified as Class II milk.

§ 934.18 *Responsibility of handlers in establishing the classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) In establishing the classification of any pool milk received in the form of cream or milk products other than fluid milk products, or any other milk or milk products received by a handler which is not pool milk, the burden rests upon the receiving handler to account for such milk and milk products and to prove that such milk and milk products should not be classified as Class I milk.

DETERMINATION OF POOL PLANT STATUS

§ 934.20 *Requirements for all receiving plants.* Each receiving plant shall be a pool plant during each month in which it meets the applicable requirements contained in § 934.21 or § 934.22, together with the following basic requirements:

(a) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, sections 16C and 16G, of the Massachusetts General Laws.

(b) The handler operating the plant holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plant are approved by such an inspector as sources of supply for milk for sale in his municipality.

(c) The plant is operated neither as the plant of a producer-handler, nor as a pool plant pursuant to the provisions of the Boston, New York, Worcester, or Springfield orders.

(d) Each of a handler's plants which is a nonpool receiving plant during any of the months of October through February shall not be a pool plant in any of the following months of March through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through February was in the handler's capacity, as a producer-handler.

§ 934.21 *Additional requirements for city receiving plants.* Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products other than cream is disposed of in the marketing area as Class I milk, or in which it is operated by an association of producers.

§ 934.22 *Additional requirements for country receiving plants.* (a) Each country receiving plant shall be a pool plant in any month in which more than 30 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk directly to consumers in the marketing area or is shipped as milk to city plants at which more than 50 percent of the total receipts of fluid milk products, other than cream, is disposed of as Class I milk.

(b) Any country plant which is a pool plant continuously from the effective date of this order through February 1951 and any country plant which thereafter is a pool plant continuously in each of the months from October through February shall be a pool plant continuously for the following months of March through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such seven months' period is received by the market administrator before March 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

ASSIGNMENT OF RECEIPTS TO CLASSES

§ 934.25 *Assignment of pool handlers' receipts to Class I milk.* For the purpose of computing the net quantity of each pool handler's Class I milk for which a value is to be computed pursuant to § 934.50, his receipts of milk and milk products shall be assigned to Class I milk in the following sequence:

(a) Receipts of exempt milk.

(b) Receipts from regulated plants under other Federal orders, which are assigned to Class I milk pursuant to § 934.27.

(c) Receipts of fluid milk products, other than cream and skim milk, from the regulated city plants of other handlers.

(d) Receipts of milk from producers at a handler's country plant equal to the volume of fluid milk products disposed of directly from the country plant as Class I milk outside the marketing area without being received at a city plant.

(e) Receipts of milk directly from producers at the handler's city plant.

(f) Receipts of outside milk at the handler's city plant.

(g) Receipts of fluid milk products, other than cream and skim milk, from the country pool plants of other handlers, in the order of the nearness of the plants to the City Hall in Lawrence.

(h) Receipts of milk from producers at the handler's country plants not previously assigned pursuant to paragraph (d) of this section in the order of the nearness of the plants to the City Hall in Lawrence.

(i) Receipts of outside milk at the handler's country plants, in the order of the nearness of the plants to the City Hall in Lawrence.

(j) Receipts of skim milk from regulated city plants and then from regulated country plants.

(k) All other receipts or available quantities of fluid milk products, from whatever source derived.

§ 934.26 *Assignment of pool handlers' receipts to Class II milk.* Each pool handler's receipts of milk and milk products which are not assigned to Class I milk pursuant to § 934.25 shall be assigned to Class II milk.

§ 934.27 *Receipts from other Federal order plants.* Receipts of fluid milk products from plants regulated by other Federal orders shall be assigned as follows:

(a) Receipts of fluid milk products from regulated plants under the Boston order shall be assigned to the class in which they are classified under that order.

(b) Receipts of fluid milk products, other than cream, from regulated plants under the Worcester or Springfield orders shall be assigned to Class I milk, unless the operators of the shipping plant and of the receiving plant file a joint written request to the market administrator for assignment to Class II milk of the fluid milk products so received. In such event, the fluid milk products shall be assigned to Class II milk up to the total Class II uses of fluid milk products other than cream at the receiving plant.

(c) Receipts from New York order pool plants shall be assigned to Class I milk if classified in Classes I–A or I–B under the New York order.

REPORTS OF HANDLERS

§ 934.30 *Pool handlers' reports of receipts and utilization.* On or before the 8th day after the end of each month each pool handler shall, with respect to the milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(a) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(b) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to §§ 934.25, 934.26 and 934.27;

(c) The receipts of outside milk and exempt milk at each plant; and

(d) The quantities from whatever source derived which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to §§ 934.15, 934.16 and 934.17.

§ 934.31 *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

§ 934.32 *Reports regarding individual producers.* (a) Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(b) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

§ 934.33 *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer payroll for such month, which shall show for each producer:

(a) The daily and total pounds of milk delivered with the average butterfat test thereof; and

(b) The net amount of such handler's payments to each producer with the prices, deductions, and charges involved.

§ 534.34 *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

§ 934.35 *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by this section or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(a) Verify the information contained in reports submitted in accordance with this section;

(b) Weigh, sample, and test milk and milk products; and

(c) Make such examination of records, operations, equipment, and facilities as the market administrator finds necessary for the purpose specified in this paragraph.

§ 934.36 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASS PRICES

§ 934.40 *Class I price at city plants.* The Class I price per hundredweight at city plants shall be determined for each month pursuant to this section. The latest reported figures available to the market administrator on the 25th day of the preceding month shall be used in making the following computations, except that if the 25th day of the preceding month falls on a Sunday or legal holiday, the latest reported figures available on the next succeeding work day shall be used:

(a) Divide by .98 the monthly wholesale price index for all commodities as reported by the Bureau of Labor Statistics, United States Department of Labor, with the year 1926 as the base period.

(b) Divide by 3 the sum of the three latest monthly indexes of department store sales in the Boston Federal Reserve District adjusted for seasonal variations, as reported by the Federal Reserve System, with the years 1935–39 as the base period, and divide the result so obtained by 1.26.

(c) Compute an index of grain-labor costs in the Boston milkshed in the following manner:

(1) Compute the simple average of the four latest weekly average retail prices per ton of dairy ration in the Boston milkshed, as reported by the United States Department of Agriculture, divide by 0.5044 and multiply by 0.6.

(2) Compute the weighted average of the monthly composite farm wage rates for the latest available month for Maine, Massachusetts, New Hampshire, and Vermont, as reported by the United States Department of Agriculture, divide by 0.5952, and multiply by 0.4. In computing the weighted average, weight the respective rates as follows: Maine, 10; Massachusetts, 6; New Hampshire, 7; and Vermont, 77.

(3) Add the results determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Divide by 3 the sum of the final results computed pursuant to the preceding paragraphs of this section. Express the result as a whole number by dropping fractions of less than one-half or by raising fractions of one-half or more to the next whole number. The result shall be known as the formula index.

(e) Subject to the succeeding paragraphs of this section, the Class I price per hundredweight at city plants shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Formula index	Class I Price per Hundredweight		
	Jan.-Feb.-Mar.-July-Aug.-Sept.	April-May-June	Oct-Nov.-Dec.
80–86	$2.21	$1.77	$2.65
87–63	2.43	1.99	2.87
64–70	2.65	2.21	3.09
71–77	2.87	2.43	3.31
78–84	3.09	2.65	3.53
85–90	3.31	2.87	3.75
91–97	3.53	3.09	3.97
98–104	3.75	3.31	4.19
105–111	3.97	3.53	4.41
112–118	4.19	3.75	4.63
119–125	4.41	3.97	4.85
126–132	4.63	4.19	5.07
133–139	4.85	4.41	5.29
140–146	5.07	4.63	5.51
147–152	5.29	4.85	5.73
153–159	5.51	5.07	5.95
160–166	5.73	5.29	6.17
167–173	5.95	5.51	6.39
174–180	6.17	5.73	6.61
181–187	6.39	5.95	6.83
188–194	6.61	6.17	7.05

If the formula index is more than 194, the price shall be increased at the same rate as would result from further extension of this table at the rate of extension in the six highest index brackets.

(f) The Class I price shall be 44 cents more than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, less than 33 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents above the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent increase as will result in a Class I price equal to the Class I price for the same month of the preceding year plus 93 cents.

(g) The Class I price shall be 44 cents less than the price prescribed in paragraph (e) of this section if, under the provisions of the Boston order, more than 41 percent of the milk received by all pool handlers from producers during the 12-month period ending with the second preceding month was Class II milk, except that if the operation of this paragraph would cause the Class I price to be more than 88 cents below the Class I price for the same month of the preceding year, its application shall be limited to only such portion of the 44-cent reduction as will result in a Class I price equal to the Class I price for the same month of the preceding year minus 83 cents.

(h) Notwithstanding the provisions of the preceding paragraphs of this section, the Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month, and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(i) The Class I price determined under the preceding paragraphs of this section shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of milk in carlots in tank cars for mileage distances of 201–210 miles, inclusive, as published in the New England Joint Tariff M No. 6 and supplements thereto or revisions thereof. The adjustment shall be made to the nearest one-half cent per hundredweight, and shall be effective in the first complete month in which such increase or decrease in the rail tariff applies.

§ 934.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined for each month pursuant to this section.

(a) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month during which such milk is delivered, and multiply the result by 3.7.

(b) Multiply by 7.5 the average price per pound of roller process nonfat dry milk solids for human consumption, in carlots, f. o. b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month during which such milk is received.

(c) Add the results obtained in paragraphs (a) and (b) of this section, and from the sum subtract the amount shown below for the applicable month.

Month:	Amount (cents)
January and February	57.5
March and April	69.5
May and June	75.5
July	69.5
August and September	63.5
October, November, and December	57.5

§ 934.42 *Country plant price differentials.* In the case of receipts at country plants, the prices determined pursuant to §§ 934.40 and 934.41 shall be subject to differentials based upon the zone location of the plant at which the Class I milk or Class II milk was received. The zone location of each plant shall be based on the distance ascertained by the market administrator as the shortest distance from the plant to the City Hall in Lawrence, over highways on which the highway departments of the governing States permit milk tank trucks to move, or on the railway mileage distance to Lawrence from the nearest railway shipping point for such plant, whichever is shorter. The applicable differentials shall be those set forth in the following table, as adjusted pursuant to § 934.43:

A Zone (miles)	B Class I price differentials (cents per cwt.)	C Class II price differentials (cents per cwt.)
Less than 40½	−1.0	−2.0
41–50	−41.5	−2.0
51–60	−42.5	−3.0
61–70	−43.0	−3.0
71–80	−44.5	−3.0
81–90	−45.0	−3.0
91–100	−45.5	−3.0
101–110	−45.5	−4.5
111–120	−47.0	−4.5
121–130	−47.0	−4.5
131–140	−48.0	−4.5
141–150	−50.5	−4.5
151–160	−52.0	−6.0
161–170	−52.0	−6.0
171–180	−54.5	−6.0
181–190	−54.5	−6.0
191–200	−56.0	−6.0
201–210	−56.0	−7.0
211–220	−60.0	−7.0
221–230	−60.5	−7.0
231–240	−61.5	−7.0
241–250	−61.5	−7.0
251–260	−62.5	−8.0
261–270	−63.0	−8.0
271–280	−63.5	−8.0
281–290	−64.5	−8.0
291 and over	−65.5	−8.0

§ 934.43 *Automatic changes in country plant differentials.* In case the rail tariff for the transportation of milk in 40-quart cans in carlots of 200 or more cans or for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 6 and supplements thereto or revisions thereof, is increased or decreased, the country plant price differentials set forth in the table in § 934.42 shall be correspondingly increased or decreased in the manner and to the extent provided in this section. Such adjustment shall be effective beginning with the first complete month in which the changes in rail tariffs apply. If such rail tariff on milk is changed, the differentials set forth in Column B of the table shall be adjusted to the extent of any such change. If such rail tariff on cream is changed, the differentials set forth in Column C of the table shall be adjusted to the extent of any such change divided by 9.05. Adjustment shall be made to the nearest one-half cent per hundredweight.

§ 934.44 *Use of equivalent prices in formulas.* If for any reason a price, index, or wage rate specified by this order for use in computing class prices and for other purposes is not reported or published in the manner described in this order, the market administrator shall use a price, index, or wage rate determined by the Secretary to be equivalent to or comparable with the factor which is specified.

§ 934.45 *Announcement of class prices.* The market administrator shall make public announcements of the class prices, as follows:

(a) He shall announce the Class I price for each month on the 25th day of the preceding month, except that if such 25th day is a Sunday or legal holiday he shall announce the Class I price on the next succeeding work day.

(b) He shall announce the Class II price on or before the 5th day after the end of each month.

BLENDED PRICES TO PRODUCERS

§ 934.50 *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute in the following manner the net value of milk which is sold, distributed, or used by each pool handler:

(a) From the handler's total Class I milk, subtract all receipts which have been assigned to Class I milk pursuant to § 934.25 (a), (b), (c), (g), and (j);

(b) From the handler's total Class II milk, subtract all receipts which have been assigned to Class II milk pursuant to § 934.26, except receipts of milk from producers;

(c) Multiply the remaining quantities of Class I milk and Class II milk by the prices applicable pursuant to §§ 934.40, 934.41, and 934.42;

(d) Add together the resulting value of each class;

(e) Add the total amount of the payment required from the pool handler pursuant to § 934.66; and

(f) Subtract the value obtained by multiplying the quantities assigned to Class I milk pursuant to § 934.25 (f), (i), and (k) by the price applicable pursuant to §§ 934.41 and 934.42.

§ 934.51 *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(a) Combine into one total the respective net values of milk, computed pursuant to § 934.50, for each pool handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to § 934.61 (b) for milk received during each month since the effective date of the most recent amendment to this order;

(b) Add the total amount of payments required from handlers pursuant to § 934.65 and from buyer-handlers and producer-handlers pursuant to § 934.66;

(c) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to §§ 934.61, 934.62, 934.65, 934.66, and 934.67;

(d) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 934.64;

(e) Divide by the total quantity of producer milk for which a value is determined pursuant to paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents for the purpose of retaining a cash balance in connection with the payments set forth in §§ 934.61 and 934.62. This result, which is the minimum price payable to producers for milk containing 3.7 percent butterfat received from them at city plants, shall be known as the basic blended price.

§ 934.52 *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(a) Such of these computations as do not disclose information confidential pursuant to the act;

(b) The zone blended prices per hundredweight resulting from adjustment of the basic blended price by the country plant price differentials pursuant to § 934.64; and

(c) The names of pool handlers, designating those whose milk is not included in the computations.

PAYMENTS

§ 934.60 *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this paragraph shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by § 934.61 (a).

§ 934.61 *Final payments.* Each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 934.50, as follows:

(a) On or before the 25th day after the end of each month, to each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in §§ 934.63 and 934.64, for the quantity of milk delivered by such producer; and

(b) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments at the basic blended price adjusted by the plant and farm location differentials provided in § 934.64 are less than or exceed the value of milk as required to be computed for each such handler pursuant to § 934.50, as shown in a statement

rendered by the market administrator on or before the 20th day after the end of such month.

§ 934.62 *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments pursuant to §§ 934.61 (b), 934.65, and 934.66, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 934.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

§ 934.63 *Butterfat differential.* Each handler shall, in making payments to each producer for milk received from him, add for each one-tenth of 1 percent of average butterfat content above 3.7 percent, or deduct for each one-tenth of 1 percent of average butterfat content below 3.7 percent, an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, subtract 1.5 cents, and divide the result by 10.

§ 934.64 *Location differentials.* The payments to be made to producers by handlers pursuant to § 934.61 (a) shall be subject to the Class I price differentials applicable pursuant to § 934.42, and to further differentials as follows:

(a) With respect to milk delivered by a producer whose farm is located more than 40 miles from the City Hall in Lawrence, but not more than 80 miles from the State House in Boston, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 934.40 and 934.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(b) With respect to milk delivered by a producer whose farm is located not more than 40 miles from the City Hall in Lawrence, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to §§ 934.40 and 934.42 which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

§ 934.65 *Payments on outside milk.* Within 23 days after the end of each month, handlers shall make payments to producers, through the market administrator, as follows:

(a) Each buyer-handler or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity at the difference between the Class I and Class II prices pursuant to §§ 934.40, 934.41, and 934.42, effective for the location or freight mileage zone of the plant at which the handler received the outside milk.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the Class I and Class II prices pursuant to §§ 934.40, 934.41, and 934.42 effective for the location or freight mileage zone of the handler's plant.

§ 934.66 *Payments on Class I receipts from other Federal order plants.* Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler who received Class I milk from a New York, Boston, Worcester, or Springfield order regulated plant during the month shall make such payment to producers, through the market administrator, as results from the following computation:

(a) Adjust the Class I price pursuant to §§ 934.40 and 934.42 effective for the location or freight mileage zone of the plant from which the Class I milk was received by the butterfat differential calculated pursuant to § 934.63.

(b) Adjust the zone Class I price applicable under the other Federal order (Class I–A or I–B in the case of a New York order plant) by the butterfat differential applicable under that order.

(c) If the adjusted Class I price calculated under paragraph (a) of this section exceeds the corresponding price calculated under paragraph (b) of this section, multiply the quantity of Class I receipts from the other Federal order plant by the difference in price.

§ 934.67 *Adjustment of overdue accounts.* Any balance due, pursuant to §§ 934.61, 934.62, 934.65, and 934.66, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective the 11th day of such month.

§ 934.68 *Statements to producers.* In making the payments to producers prescribed by § 934.61 (a), each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and average butterfat test of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of § 934.61 (a);

(d) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under §§ 934.69 and 934.70, together with a description of the respective deductions; and

(f) The net amount of payment to the producer.

§ 934.69 *Marketing service deductions; nonmembers of an association of producers.* In making payments to producers pursuant to § 934.61 (a), each handler shall, with respect to all milk delivered by each producer other than himself during each month, except as set forth in § 934.70, deduct 3 cents per hundredweight, or such lesser amount as the market administrator shall determine to be sufficient, and shall, on or before the 25th day after the end of each month, pay such deductions to the market administrator. Such moneys shall be expended by the market administrator only in providing for market information to, and for verification of weights, samples, and tests of milk delivered by, such producers. The market administrator may contract with an association or associations of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by, such producers.

§ 934.70 *Marketing service deductions; members of an association of producers.* In the case of producers who are members of an association of producers which is actually performing the services set forth in § 934.69, each handler shall, in lieu of the deductions specified in § 934.69, make such deductions from payments made pursuant to § 934.61 (a) as may be authorized by such producers and pay, on or before the 25th day after the end of each month, such deduction to such associations.

§ 934.71 *Expense of administration.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this order, based on the handler's receipts of fluid milk products, other than cream, during the month. The payment shall be at the rate of 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, on the handler's receipts of milk from producers, including receipts from his own production, and his receipts of outside milk, except receipts of outside milk from other Federal order plants; and at the rate by which the rate applicable to milk received from producers exceeds the rate of assessment applicable under the other Federal order, on his receipts from other Federal order plants.

§ 934.72 *Termination of obligation.* The provisions of this section shall apply to any obligation under this order for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable.

Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books or records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

MISCELLANEOUS PROVISIONS

§ 934.80 *Effective time.* The provisions of this order, or any amendments to its provisions, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or temminated pursuant to § 934.81.

§ 934.81 *Suspension or termination.* The Secretary may suspend or terminate this order or any provision thereof whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 934.82 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations arising under it, the final accrual or ascertainment of which requires further acts by any person, such further acts shall be performed notwithstanding such suspension or termination.

§ 934.83. *Liquidation after suspension or termination.* Under the suspension or termination of any or all provisions of this order, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this order, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 934.84 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this order.

[Docket No. AO–83 A 14]

HANDLING OF MILK IN THE LOWELL-LAWRENCE, MASS., MARKETING AREA

ORDER OF SECRETARY DIRECTING THAT A REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION OF A REPRESENTATIVE PERIOD; AND DESIGNATION OF AN AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608 (c) (19)), it is hereby directed that a referendum be conducted among the producers who, during the month of June 1950, were engaged in the production of milk for sale in the Lowell-Lawrence, Massachusetts, marketing area as defined in the aforesaid order, as amended, to determine whether such producers favor the issuance of the order amending the order, as amended, which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.[1]

The month of June 1950 is hereby determined to be a representative period for the conduct of the referendum.

[1] See F. R. Doc. 50–8166, *supra*.

Richard D. Aplin is hereby designated as agent of the Secretary to conduct such referendum, and except as set forth herein, such referendum shall be conducted in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177).

The above-designated agent of the Secretary shall not be required to transmit with his report to the Secretary a copy of each statement concerning the referendum as it appeared in each newspaper, but he shall transmit with his report a copy of the release which he presented to newspapers generally distributed in the area along with a summary of the numbers and types of newspapers to which it was presented.

This referendum shall be completed on or before 20 days after the date of issuance of this referendum order.

Issued at Washington, D. C., this 14th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[7 CFR, Part 978]

[Docket No. AO 184–A5]

HANDLING OF MILK IN NASHVILLE, TENNESSEE, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Nashville, Tennessee, on April 6, 1950, pursuant to notice thereof which was issued on March 30, 1950 (15 F. R. 1875).

Upon the basis of the evidence introduced at the hearing and the record thereof the Assistant Administrator, Production and Marketing Administration, on August 7, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on August 11, 1950 (15 F. R. 5211).

No exceptions were filed on behalf of interested parties.

The material issue and the findings and conclusions of the recommended decision (F. R. Doc. 50–7033, 15 F. R. 5211) are hereby approved and adopted as the material issue and the findings and conclusions of this decision as if set forth in full herein.

This decision filed at Washington, D. C., this 14th day of September, 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50–8187; Filed, Sept. 18, 1950; 8:55 a. m.]

[7 CFR, Part 986]

HANDLING OF HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND OF HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

BUDGET OF EXPENSES FOR MARKETING SEASON BEGINNING AUGUST 1, 1950; CONTINUATION OF RATE OF ASSESSMENT

Consideration is being given to the approval of proposals, hereinafter set forth, which were submitted by the Hop Control Board, established under Marketing Agreement No. 107 and Order No. 86 (7 CFR 986.1 et seq.), regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States, as the agency to administer the terms and provisions thereof.

All persons who desire to submit written data, views, or arguments in connection with the proposals should file the same with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this notice in the FEDERAL REGISTER.

The Hop Control Board, at a duly called meeting in San Francisco, California, on July 21 and 22, 1950, adopted by a unanimous vote, a budget of expenses of $134,400.00 for the marketing season beginning August 1, 1950, and requested the approval of the budget by the Secretary.

Also adopted unanimously at the aforesaid meeting was a resolution that the assessment rate of three-tenths of one cent per pound, net dry weight, of hops handled, which rate was approved by the Secretary and published in the FEDERAL REGISTER on September 24, 1949 (14 F. R. 5828), should be retained for the marketing season beginning August 1, 1950. Said assessment rate is the minimum rate which would reasonably afford sufficient funds to provide for the proposed budget of expenses.

Therefore, the proposed rules are as follows:

§ 986.301 *Budget of expenses for the marketing season beginning August 1, 1950; and continuation of rate of assessment*—(a) *Budget of expenses.* Expenses in the amount of $134,400.00 are reasonable and likely to be incurred by the Hop Control Board (including, but not limited to, the Growers Allocation Committee and the several Growers Advisory Committees) for its maintenance and functioning during the marketing season beginning August 1, 1950.

(b) *Continuation of rate of assessment.* The rate of assessment of three-tenths of a cent per pound, net dry weight, of hops handled, established in § 986.300 (a) on September 24, 1949 (14 F. R. 5828) shall continue in effect throughout the marketing season beginning August 1, 1950.

Done at Washington, D. C., this 14th day of September 1950.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 10]

[Docket No. 9783]

STATE GUARD RADIO SERVICE

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 10, rules governing Public Safety Radio Services to add Subpart K, State Guard Radio Service.

1. Notice is hereby given of proposed rule making in the above-entitled matter. The proposed amendment is set forth below.

2. Authority for the issuance of the proposed amendment is vested in the Commission by virtue of sections 4 (i) and 303 (a), (b), (c), (f) and (r) of the Communications Act of 1934, as amended.

3. Any interested party who is of the opinion that the proposed amendment or any part thereof should not be adopted, or should not be adopted in the form set forth may file with the Commission on or before October 16, 1950, a written statement or brief setting forth his comments. Before taking final action in the matter, the Commission will consider all comments received, and if any comments appear to warrant the Commission in holding an oral argument or hearing, notice of the time and place of such oral argument or hearing will be given interested parties.

4. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: September 6, 1950.

Released: September 8, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

SUBPART K—STATE GUARD RADIO SERVICE

§ 10.501 *Eligibility.* (a) Authorizations for stations in the State Guard Radio Service will be issued only to the official State guard or comparable organization of a State, territory, possession, or the District of Columbia and only where such organization has been duly created by law and is completely subject to the control of the Governor, or highest official of the creating governmental entity.

(b) To facilitate a determination of eligibility, the first application from each organization for a new station in the State Guard Radio Service shall be accompanied by a statement citing the statute, executive order, or other legal authority under which the guard was created and definitely indicating whether or not the guard is under the absolute authority of the Governor or highest official of the governmental entity.

§ 10.502 *Permissible communications.* (a) Stations in the State Guard Radio Service are primarily authorized to transmit emergency communications directly relating to public safety and the protection of life and property.

(b) Stations in the State Guard Radio Service are secondarily authorized to transmit essential non-emergency communications necessary for training and maintaining an efficient organization: *Provided,* That all communications authorized by this paragraph shall be kept to an absolute minimum and shall cause no harmful interference to stations in other services nor to other stations in the State Guard Radio Service when such stations are transmitting communications authorized by paragraph (a) of this section.

(c) The transmission of non-essential communications is strictly prohibited.

§ 10.503 *Points of communication.* (a) State guard base, mobile and fixed stations are primarily authorized to intercommunicate with all other State guard stations authorized to the same licensee.

(b) State guard base, mobile and fixed stations are secondarily authorized to intercommunicate with other stations in the Public Safety Radio Services and to transmit to receivers at fixed location: *Provided,* That no harmful interference will be caused to the service of any station transmitting to a point of communication for which that station is primarily authorized.

§ 10.504 *Station limitations.* (a) Mobile relay stations will not be authorized in the State Guard Radio Service.

(b) Each operator of a station in the State Guard Radio Service shall listen on the licensed frequency of the station prior to transmitting and shall not transmit until it has been reasonable determined that harmful interference will not be caused to any authorized communication in progress on the frequency.

§ 10.505 *Frequencies available to the State Guard Radio Service.* (a) The frequency 2726 kilocycles is available for assignment to base and mobile stations in the State Guard Radio Service for use on a shared basis with stations in the Special Emergency Radio Service.

(b) In instances where circumstances in a particular state appear to warrant the use of a second frequency in the band 2505-3500 kilocycles and where a frequency can be made available through appropriate arrangements, with Government agencies if necessary, for restricted area use on a shared basis with other assignments such additional frequency may be assigned. The maximum power input, emission and hours of operation authorized for use on any frequency assigned under the provisions of this paragraph will be determined on the basis of the technical conditions involved in using the selected frequency in the paraticular area.

(c) The frequencies indicated in paragraphs (a) and (b) of this section will also be assigned to fixed stations in the State Guard Radio Service subject to the condition that harmful interference will not be caused to the mobile service.

CALIFORNIA

NOTICE OF FILING OF PLAT OF SURVEY

SEPTEMBER 13, 1950.

Notice is given that the plat of (1) Dependent Resurvey of the NE¼ sec. 26, T. 13 S., R. 23 E., S. B. M., delineating a retracement and reestablishment of the lines of the original survey as shown upon the plat approved May 22, 1879, and (2) Extension Survey in T. 13 S., R. 23 E., S. B. M., California, of the following described lands, accepted December 14, 1948, will be officially filed in the Land Office, Los Angeles, California, effective at 10:00 a. m. on the 35th day after the date of this notice:

SAN BERNARDINO MERIDIAN

T. 13 S., R. 23 E.,
Sec. 26, NW¼, S½,
Sec. 27, all,
Sec. 28, all,
Sec. 29, all,
Sec. 30, all,
Sec. 31, all,
Sec. 32, all,
Sec. 33, all,
Sec. 34, all,
Sec. 35, all.

The area described, exclusive of segregations, aggregates 6,323.08 acres.

All the lands involved were reserved by Executive Order 8685 of February 14, 1941, and included in the Imperial National Wildlife Refuge, LC February 27, 1941—1814082.

Anyone having a valid settlement or other right to any of these lands initiated prior to the date of the withdrawal of the lands should assert same within three months from the date on which the plat is officially filed by filing an application under the appropriate public land laws, setting forth all facts relative thereto.

All inquiries relating to these lands should be addressed to the Manager, Land Office, Los Angeles, California.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

CALIFORNIA

CLASSIFICATION ORDER

SEPTEMBER 1, 1950.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 319 dated July 19, 1948 (43 CFR 50.451 (b) (3), 13 F. R. 4278), I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. section 682a), as hereinafter indicated, the following described land in the Los Angeles, California, land district, embracing approximately 15 acres.

CALIFORNIA SMALL TRACT CLASSIFICATION No. 235

For lease and sale for homesites only:
T. 1 S., R. 4 E., S. B. M.,
Sec. 31, NW¼SE¼SE¼, E½SW¼SE¼SE¼.

The lands are situated in the Morongo Valley area of San Bernardino County, California. They are approximately 120 miles east of Los Angeles and 32 miles west of Twentynine Palms. They can be reached over Highway 60-70-99 and thence by secondary roads. These tracts are rough and not particularly desirable, but can be reached and improved with the expenditure of considerable money. The area in which these tracts are situated is considered ideal for health and recreational purposes and is being developed rapidly.

2. As to applications regularly filed prior to 8:30 a. m., March 20, 1946, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit leasing under the Small Tract Act until 10:00 a. m., November 3, 1950. At that time such land shall, subject to valid existing rights, become subject to application as follows:

(a) Ninety-day preference period for qualified veterans of World War II from 10:00 a. m., November 3, 1950, to close of business on February 1, 1951.

(b) Advance period for veterans' simultaneous filings from 8:30 a. m., March 20, 1946, to 10:00 a. m., November 3, 1950.

4. Any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally, commencing at 10:00 a. m., February 2, 1951.

(a) Advance period for simultaneous nonpreference filings from 8:30 a. m., March 20, 1946, to 10:00 a. m., February 2, 1951.

5. Applications filed within the periods mentioned in paragraph 3 (b) and 4 (a) will be treated as simultaneously filed.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All of the land will be leased in tracts of approximately 5 acres, each being approximately 330 by 660 feet, the longer dimension to extend north and south.

7. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 6.

8. Where only one five-acre tract in a ten-acre subdivision is embraced in a preference right application, an application for the remaining five-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 6.

9. Leases will be for a period of five years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $20.00 per acre, application for which may be filed at or after the expiration of one year from date the lease is issued.

10. Tracts will be subject to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the State, County or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands should be addressed to the Manager, Land Office, Los Angeles, California.

L. T. HOFFMAN,
Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

TRANSFERRING EXISTING DELEGATIONS OF AUTHORITY TO CHIEF, COMMON CARRIER BUREAU

ORDER AMENDING ORDER

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 6th day of September 1950;

It appearing, that the Commission heretofore on the 3d day of March 1950, adopted an order transferring certain existing delegations of authority to the Chief, Common Carrier Bureau, and on the 30th day of March, 1950, adopted an order amending the order of March 3, 1950; and that such order may not be entirely clear with respect to its purpose and intent;

It is ordered, That paragraph B of the order of March 30, 1950, is hereby amended to read as follows:

B. (1) Authority is hereby delegated to the Chief, Common Carrier Bureau or his nominee to act upon matters set forth in the following sections of the Commission rules:

Secs.	Secs.
0.142 (e)	0.145 (a)
0.142 (j)	0.145 (c)
0.143 (g)	0.145 (d)

insofar as the above-listed sections apply to the Fixed Public, Fixed Public Press, Domestic Public Land Mobile Radio, or common carrier experimental radio services, or any of them; and

Sec.	Sec.
0.143 (b)	0.143 (c)

insofar as these sections apply to records or papers involved in common carrier matters:

Sec. 0.143 (h)

insofar as this section applies to common carrier rule making; and

Secs.	Secs.
0.142 (l)	0.146 (a)
0.143 (f)	0.147

(2) Actions taken by the Chief, Common Carrier Bureau or his nominee in accordance with the foregoing delegation of authority shall be recorded each week in writing and filed in the official minutes of the Commission.

(3) The authorizations issued by the Chief, Common Carrier Bureau, or his nominee, in accordance with his assigned functions, shall bear the seal of the Commission and the signature of the Secretary of the Commission.

This order shall become effective immediately.

Released: September 8, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8156; Filed, Sept. 18, 1950; 8:49 a. m.]

TRANSFERRING EXISTING DELEGATIONS OF AUTHORITY TO CHIEF, SAFETY AND SPECIAL RADIO SERVICES BUREAU

ORDER AMENDING ORDER

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

It appearing, that the Commission heretofore on the 29th day of June, 1950, issued an order, effective July 31, 1950, for the purpose of transferring certain existing delegations of authority to the Chief, Safety and Special Radio Services Bureau, and that such order may not be entirely clear with respect to its purpose and intent, such order is hereby amended, effective immediately, by substituting after the words *"It is ordered,* Under the authority of the Communications Act of 1934, as amended, that;" the following:

1. The delegated authority set forth in sections 0.121, 0.141, 0.142, 0.143 and 0.144 is hereby transferred to the Chief of the Safety and Special Radio Services Bureau or, in his absence, the Acting Chief of said Bureau, in so far as such delegated authority relates to and is necessary to carry out the functions set forth in the order establishing the Safety and Special Radio Services Bureau adopted at a session of the Federal Communications Commission on the 29th day of June 1950, and effective July 31, 1950.

2. The Chief of the Safety and Special Radio Services Bureau or, in his absence, the Acting Chief of said Bureau, is designated to act upon the administration and application of regulations promulgated by the Commission pursuant to sections 320, 321, 322 or any other sections of the Communications Act or any treaty to which the United States is a party, which relate to safety of life and property at sea or in the air.

3. With respect to the following sections of the Rules which deal with motions, briefs and other pleadings and procedure in hearing cases before the Commission, namely:

Secs.	Secs.
1.746	1.849
1.747	1.852
1.843 (c)	1.853
1.846	1.854
1.848	

such authority as is provided for the General Counsel is, in any safety and special service proceeding, hereby vested in the Chief, or in his absence, the Acting Chief, of the Safety and Special Radio Services Bureau.

4. Actions taken by the Chief or Acting Chief of the Safety and Special Radio Services Bureau in accordance with the foregoing delegations shall be recorded each week in writing and filed in the official minutes of the Commission.

5. The authorizations issued by the Bureau in accordance with its assigned functions and the delegations of authority transferred hereby shall bear the seal of the Commission and the signature of the Secretary of the Commission.

6. The delegated authority set forth in section 0.144 is hereby modified by inserting the word "Aviation" in paragraph (a) so that it will read:

(a) Applications for the Aviation, Public Safety, Ship, Industrial, Land Transportation, and Citizens Radio Services, except those rendering a common carrier service and those falling under sections 0.141, 0.142, and 0.143.

Released: September 8, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket Nos. 9574, 9778]

COMMONWEALTH BROADCASTING CORP. (WELS) AND KINSTON BROADCASTING CO. (WFTC)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Commonwealth Broadcasting Corporation (WELS), Kinston, North Carolina, Docket No. 9574, File No. BMP-4917; Kinston Broadcasting Company (WFIC), Kinston, North Carolina) Docket No. 9778, File No. BP-7752; for modification of construction permit and construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of August 1950;

The Commission having under consideration the above-entitled application of the Kinston Broadcasting Company for a construction permit to change facilities from 1230 kc, 250 watts power, unlimited time to 960 kc, 1 kw, unlimited time, with directional antenna at night at Station WFTC, Kinston, North Carolina;

It appearing, that the above-enttiled application of the Commonwealth Broadcasting Corporation for modification of construction permit to change facilities from 1010 kc, 1 kw power, daytime only to 960 kc, 1 kw power, daytime only at Station WELS, Kinston, North Carolina, was on January 26, 1950, designated for hearing in a consolidated proceeding with an application of the Coastal Broadcasting Company (WHIT) because of mutually prohibitive interference;

It further appearing, that the abovementioned consolidated proceeding, originally scheduled to be heard on April 5, 1950, was, after three continuances, on June 16, 1950, scheduled to be heard on August 9, 1950;

It further appearing, that on July 26, 1950, the Coastal Broadcasting Company (WHIT) petitioned to dismiss its application without prejudice, which petition was denied on August 4, 1950, insofar as it requested dismissal without prejudice, and was granted insofar as it requested that its application be dismissed;

It further appearing, that, on August 4, 1950, when the Coastal Broadcasting Company (WHIT) application was dismissed, the above-entitled application of the Commonwealth Broadcasting Corporation (WELS) was retained in a hearing status, which hearing was continued until September 19, 1950;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled application of the Kinston Broadcasting Company (WFTC) is designated for hearing in a consolidated proceeding with the above-entitled application of the Commonwealth Broadcasting Corporation (WELS), upon the following issues:

1. To determine the technical, financial and other qualifications of the corporate applicant, its officers, directors and stockholders to operate Station WFTC as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WFTC as proposed, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station WFTC as proposed would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station WFTC as proposed would involve objectionable interference with the services proposed in the above-entitled application of the Commonwealth Broadcasting Corporation (WELS), or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station WFTC as proposed would be in compliance with the Commission's Rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine the overlap, if any, that will exist between the service areas of Station WFTC as proposed and of Stations WRRF, Washington, North Carolina, and WRRZ, Clinton, North Carolina,, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

8. To determine on a comparative basis which, if either of the applications in this consolidated proceeding, should be granted.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket Nos. 9205, 9206]

STANDARD BROADCAST STATION KPMO AND VALLEY BROADCASTING CO.

ORDER CONTINUING ORAL ARGUMENT

In the matter of renewal of license of Standard Broadcast Station KPMO, Pomona, California, Docket No. 9205, File No. BR-1697; and application for consent to assignment of license of Station KPMO from Myron E. Kluge and Dean H. Wickstrom, d/b as Valley Broadcasting Company to Dean H. Wickstrom and Warner H. J. Sorenson, d/b as Valley Broadcasting Company, Docket No. 9206, File No. BAL-655.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 31st day of August 1950;

The Commission having under consideration a letter, dated August 18, 1950, from Dean H. Wickstrom, one of the members of the applicant partnership, requesting that oral argument in this proceeding, now scheduled for September 15, 1950, be continued to a date during the period of November 3-16, 1950; and

It appearing, that in support of this request for a continuance, Mr. Wickstrom states that he desires to personally present oral argument to the Commission; that his schedule of employment will not permit him to come to Washington prior to November 3, 1950; that the Commission's General Counsel has no objection to the continuance requested; that the applicants are not represented by counsel; and that under these circumstances, said request should be granted and the oral argument should be continued, without date;

Accordingly, it is ordered, That the above-described request of the applicants is granted in part; and that oral argument in the above-entitled proceeding, now scheduled for September 15, 1950, is continued, without date.

Released: August 31, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8160; Filed, Sept. 18, 1950; 8:50 a. m.]

[Docket Nos. 9785, 9786]

STAR BROADCASTING CO., INC. (KCSJ), AND RADIO STATION WOW, INC. (WOW)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of The Star Broadcasting Company, Inc. (KCSJ), Pueblo, Colorado, Docket No. 9786, File No. BR-1610; for renewal of license. Radio Station WOW, Inc. (WOW), Omaha, Nebraska, Docket No. 9785, File No. BR-686; for renewal of license.

1. The Commission has before it the following: (1) The decision of the United States Court of Appeals for the District of Columbia Circuit in Radio Station WOW, Inc., v. Federal Communications Commission, No. 10350 and No. 10359 (decided July 17, 1950); (2) A petition filed May 11, 1949, by The Star Broadcasting Company, Inc., licensee of Radio Station KCSJ, Pueblo, Colorado, requesting reconsideration of the Commission's action of April 20, 1949, granting an application of Radio Station WOW, Inc., licensee of Radio Station WOW, Omaha, Nebraska, for renewal of license of Radio Station WOW (File No. BR-686); (3) A motion filed May 23, 1949, by Radio Station WOW, Inc., requesting that the said petition of The Star Broadcasting Company be stricken from the Commission's records; (4) A letter dated January 4, 1950, from the Commission to The Star Broadcasting Company advising it that action on the petition would be upheld; and (5) A letter dated January 10, 1950, from Radio Station WOW, Inc., requesting that the Commission act on its motion filed May 23, 1949.

2. The facts involved in these matters are fully set forth in the Court's decision in Radio Station WOW, Inc. v. Federal Communications Commission, 6 Pike & Fischer, R. R. 2026 and in the Commission's Memorandum Opinion and Order dated June 30, 1949, 5 Pike & Fischer, R. R. 408e which was the basis for the appeal. However, an understanding of our ruling on the Court's decision and on the subject petition requires that we review briefly the previous proceedings.

3. On August 25, 1948, and April 5, 1949, Radio Station WOW, Inc., Omaha, Nebraska (hereinafter referred to as WOW), filed petitions with the Commission requesting, respectively, that the Commission issue to The Star Broadcasting Company (hereinafter referred to as KCSJ) and order to show cause why the license of KCSJ should not be modified to afford additional protection to WOW by use of the present nighttime direc-

tional antenna during the day time, and that the Commission designate for hearing the application of KCSJ for renewal of its license. (File No. BR–1610).[1] The Commission denied both of the petitions in its memorandum and order dated June 30, 1949; and on July 20, 1949, the Commission granted KCSJ's application for renewal of license. Thereafter, on July 15 and July 22, 1949, WOW filed notices of appeal to the Court of Appeals for the District of Columbia Circuit. In No. 10350, WOW appealed from the denial of its petition for a rule to show cause why Star's original license should not be modified. In No. 10359, it appealed from the denial of its petition that the Star application for renewal be set down for hearing. On July 17, 1950, that Court handed down its decision (Radio Station WOW, Inc. v. Federal Communications Commission) dismissing the appeal in No. 10350 and reversing the order of the Commission involved in No. 10359 and remanding the case to the Commission holding that WOW was entitled to a hearing in respect to Star's application for a renewal of its license.

4. Pursuant to the mandate of the court's decision, we are required to and do set aside our memorandum opinion and order of June 30, 1949, insofar as that order denies the petition of WOW requesting that the Commission designate for hearing the application of KCSJ for renewal of its license and such application is hereby set down for hearing on the issues set out below.

5. There remains for consideration the petition filed may 11, 1949, by Star and the motion filed May 23, 1949, by WOW, both of which are referred to in paragraph 1.

6. In support of its petition filed on May 11, 1949 requesting that the Commission reconsider its action of April 20, 1949, granting, without hearing, the application for renewal of license of WOW, and to designate the said application for hearing, KCSJ alleged that:

> Petitioner takes the position that it and WOW are in equal positions since WOW, which was under a duty to make an independent investigation and to challenge the representations made, if any, concurred in, but did not do so, though the Commission's rules provide the means of doing so; that the interference, if any, which WOW receives from KCSJ is comparatively slight, and that the public interest, convenience and necessity would be served by operation of the two stations as at present rather than by operation of KCSJ during the daytime hours with its directional antenna. Since the public interest is the Commission's primary consideration and the parties are in equal position, petitioner submits that there is no more reason to designate the KCSJ renewal application for hearing than to take the same action with respect to the WOW renewal application.

It is further alleged by KCSJ that WOW causes objectionable interference within the normally protected contours of KCSJ.[2] In support of the allegation that KCSJ and WOW "are in equal positions" KCSJ alleges that:

> Section 307 (d) of the Communications Act of 1934, as amended, provides that actions of the Commission with reference to the granting of applications for the renewal of licenses shall be limited to and governed by the same considerations and practice which affect the granting of original applications. Interference within the normally protected contours of KCSJ would, certainly, be a consideration if WOW were making an original application to operate as authorized in its license. The interests of petitioner are adversely affected, and it is an aggrieved party, by reason of the grant of the application for renewal of the license of WOW, therefor.

7. By letter dated January 4, 1950, to KCSJ, a copy of which was sent to Radio Station WOW, the Commission stated that the subject petition filed by KCSJ and the petitions filed by WOW on August 25, 1948 and, particularly, on April 5, 1949 (which were the subject of the Commission's memorandum opinion and order of June 30, 1949) appeared to raise substantially the same questions and that it did not appear necessary for the Commission to take any action at that time with respect to the petition filed by KCSJ; and the parties were advised that action would be withheld on the said petition filed by KCSJ pending disposition of the appeal taken by WOW. Thereafter, by letter dated January 10, 1950, to the Commission, WOW stated that the Commission's conclusion that "substantially the same questions" are presented by KCSJ's petition and WOW's appeal "is not correct" and requested that the Commission dismiss KCSJ's petition and grant the Motion filed by WOW on May 23, 1949, which requested that the said petition be stricken from the Commission's records.

8. The foregoing recital of the history of these proceedings presents two questions for our determination: (1) Whether the subject petition filed by KCSJ raises substantially the same questions presented by WOW's appeal; and (2) Whether the Star petition filed on May 11, 1949 requesting reconsideration of the Commission's action of April 20, 1949 granting the application of WOW for renewal of license should be granted. In Radio Station WOW, Inc. v. Federal Communications Commission, supra, the Court stated: "Obviously, the provisions for renewal (47 U. S. C. 307 (d)) contemplate the possibility of changes in conditions after the original grant and also of errors in the original grant • • • The statute says that the renewal must be governed by the same considerations which affect the grant of the original application. Certainly actual interference with an existing station within its protected area is a consideration affecting the grant of an application. An error in good faith as to a proposed operation seems to us to leave that particular matter open for determination upon application for renewal." The Court, however, expressly made clear that Star is and was in every respect an existing licensee entitled to be protected as such. WOW admits in its "Motion to Strike Petition for Reconsideration" dated May 23, 1949, that, "KCSJ has caused, and is causing, interference to WOW. In addition to the predicted interference from KLZ, KCSJ is experiencing interference from WOW." It is clear that, if WOW's measurements are correct, this interference is greater than reference to the soil conductivity map would have lead Star or the Commission to believe at the time of its original application. The ultimate end which must be served is, of course, the public interest. In the present posture of the case, in the light of all the circumstances, we cannot therefore say from an examination of the application of WOW for renewal of its license that public interest, convenience, or necessity would be served by the granting thereof. It follows, under the mandate of section 309 (a) of the act, that WOW's renewal application must be set down for hearing.

9. A further problem merits our consideration here. In its "Petition to Designate Application for Hearing" filed on April 5, 1949, WOW incorporated by reference its petition of August 25, 1948 in which WOW requested the Commission to issue to KCSJ a rule to show cause why its license should not be modified. The incorporated petition included an engineering report of field intensity measurements and an analysis of these measurements. The petition, according to the "interference study" attached thereto alleged that the operation of KCSJ was producing objectionable interference during the daytime within the normally protected 0.5 mv/m contour of WOW throughout an area comprising 5,900 square miles containing 69,600 persons. It was also alleged that the objectionable daytime interference being caused by KCSJ to WOW could be eliminated provided KCSJ was required to operate during daytime hours with the directional antenna which it was using during nighttime hours. Accordingly, on the basis of this engineering study WOW requested that the application of KCSJ for renewal of its license should be designated for hearing "to determine whether or not KCSJ should, in the public interest, be required to operate during daytime hours with the identical directional antenna that is now being used during nighttime hours • • •." This suggestion contemplates that KCSJ be required to employ its present nighttime directional antenna array during the day. By so stating, WOW has made it possible for any other station which might be adversely affected by the daytime utilization of KCSJ's present nighttime array to protect its interests by intervening in any hearing held on the WOW petition.

10. The petition filed by KCSJ on May 11, 1949, requesting reconsideration of the Commission's action of April 20, 1949 granting the application of WOW for renewal of its license, similarly suggests that public interest does not necessarily require an outright denial of WOW's renewal application but merely that it "be required to install a directional antenna or to correct its present antenna so as to protect KCSJ from objectionable interference • • •" But unlike the case of WOW's position, that filed by KCSJ sheds no light as to the type of antenna it desires WOW to employ. It may well be that any given modification of WOW's present non-directional antenna pattern, in order to afford additional protection to KCSJ, would result in interference to other stations. But it is impossible, in the absence of any suggestion by the petitioner as to the nature of such modification, for the Commission, and any other existing stations which might be affected, to know, in advance, what the effect of any such modification of WOW's existing mode of operation would be. It would, therefore, be difficult, if not impossible, for any other station, which might be affected, to protect its interests by intervening in the hearing on the KCSJ petition and such other stations would clearly be unable to prepare evidence on this matter in advance for introduction at such a hearing. This would likewise be true with respect to both WOW, itself, and the Commission. We therefore think that while the KCSJ petition in its present form makes a sufficient case to put in issue the question of whether any renewal of station WOW's license would be in the public interest, in the absence of a more specific proposal by KCSJ, we are not in a position to consider at such a hearing any proposal by which WOW's license would be conditioned upon its installing a directional antenna to protect KCSJ. We, therefore, propose to eliminate any such issue from the consolidated hearing, which is ordered by this opinion, subject only to the condition that we will allow KCSJ to file a petition to modify the issues, together with a detailed plan for such modification duly supported by proper engineering exhibits, not later than 30 days after the release date of the instant opinion in order to include an appropriate issue as to whether the public interest might not be served by some other alternative to an outright grant or denial of WOW's renewal application.

11. Accordingly, it is ordered, this 6th day of September 1950, that the said petition of Radio Station WOW, Inc., requesting that the Commission designate the above-entitled application of The Star Broadcasting Company for renewal of license of KCSJ for hearing is granted, the grant by the Commission on July 20, 1949, of KCCJ's application for renewal of its license is set aside and vacated and the license of KCSJ is extended on a temporary basis to March 1, 1951, and the Commission's memorandum opinion and order of June 30, 1949 is set aside insofar as it denies the said petition.

12. It is further ordered that the said petition of The Star Broadcasting Company, Inc., requesting reconsideration of the Commission's action of April 20, 1949, granting the application of Radio Station WOW for renewal of license of WOW is granted, the grant by the Commission on April 20, 1949 of WOW's application for renewal of its license is set aside and vacated, the license of WOW is extended on a temporary basis to March 1, 1951, and the said motion filed May 23, 1949 by Radio Station WOW, Inc., requesting that the said petition of The Star Broadcasting Company be stricken from the Commission's records is hereby denied.

13. It is further ordered that pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Radio Station WOW, Inc., for renewal of its license and the said application of The Star Broadcasting Company for renewal of its license, are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on February 26, 1951 at Washington, D. C., upon the following issues:

a. To determine the areas and populations presently served by WOW and KCSJ and the character of other broadcast services available to such areas and populations.

b. To determine whether the operation of WOW and KCSJ involve objectionable interference, each with the other, or with the services of any other broadcast station, and if so the nature and extent thereof, the areas and populations affected thereby and the character of the other broadcast services available to such areas and populations.

c. To determine the areas and populations which would gain, or lose, service as a result of the operation of KCSJ during daytime hours with the identical directional antenna that is now being used by KCSJ during nighttime hours, and the character of other broadcast services available to such areas and populations.

d. To determine whether the operation of KCSJ during daytime hours with the identical directional antenna that is now being used by KCSJ during nighttime hours would involve objectionable interference with services of any other broadcast station or with services proposed in any pending application for broadcast facilities, and if so the nature and extent thereof, the areas and populations affected thereby and the character of the other broadcast services available to such areas and populations.

e. To determine whether, in the light of the evidence adduced under Issues a, b, c, and d, the license of KCSJ should be modified so as to require operation during daytime hours with the identical directional antenna that is now being used during nighttime hours.

f. To determine whether, in the light of the evidence adduced pursuant to Issues a and b, the public interest would be served by a grant of the application for renewal of WOW's license.

NOTE: Commissioner Jones dissented in the opinion.

Released: September 11, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50–8161; Filed, Sept. 18, 1950; 8:50 a. m.]

[Docket Nos. 9594, 9595]

PACIFIC COAST BROADCASTING CO. (KXLA)

ORDER AMENDING ISSUES

In re applications of Pacific Coast Broadcasting Company (KXLA), Pasadena, California, Docket No. 9594, File Nos. BML–1328 and BP–7717; for construction permit and modification of license; In re order to show cause directed to Pacific Coast Broadcasting Company (KXLA), Pasadena, California, Docket No. 9595, File No. BS–1189.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration a petition, filed August 23, 1950, by Pacific Coast Broadcasting Company, Pasadena, California, requesting that the issues specified in the Commission's order of March 6, 1950, designating for consolidated hearing, now scheduled to commence September 11, 1950, at Washington, D. C., and the above-entitled application for modification of license of KXLA and the above-entitled order to show Cause directed to Pacific Coast Broadcasting Company, be revised and enlarged as will appear more specifically below, and an opposition thereto filed September 1, 1950, by KFAB Broadcasting Company, party respondent in the above-entitled proceeding; and

It appearing, that petitioner requests that Issue No. 1 specified in the Commission's order of March 6, 1950, be deleted for the reason that it relates to a matter which by Commission Order of July 21, 1950, was severed from this proceeding; that Issue No. 1 in form appears to relate to said severed matter; that findings concerning the areas and populations presently receiving service from Station KXLA would appear to be necessary to decision in this proceeding; that evidence concerning such matters could not be adduced under the remaining issues as presently specified; and that, therefore, Issue No. 1 should be revised rather than deleted; and

It further appearing, That petitioner has requested that Issue No. 2 specified in the Commission's order of March 6, 1950, be revised to permit the showing of the nature of the program service available to certain interference areas; and that the nature of such program service may be pertinent to a decision in this proceeding; and

It further appearing, that petitioner has requested a minor modification of Issue No. 3 specified in the Commission's order of March 6, 1950; and that said

---

[1] WOW's position as summarized by the Commission in its Memorandum Opinion and Order dated June 30, 1949, is that: "• • • since KCSJ obtained its grant upon representations that no interference would result to WOW, which, though made in good faith, have turned out to be erroneous, KCSJ must assume the burden of correcting the interference condition which has resulted; that both WOW and the Commission relied on WCSJ's representation; and that as a result, WOW's license has been indirectly modified through a reduction of its service area without it having been accorded proper notice and hearing."

[2] KCSJ alleges that "An area of 5,900 square miles, in which reside 14,875 persons, within the 0.5 mv/m contour of KCSJ receives interference from WOW during daytime hours. At night the KCSJ interference-free contour is the 11.6 mv/m contour. If interference from WOW were eliminated, the 7.1 mv/m contour would be the interference-free contour and the area and population served would be increased from 438 square miles and a population of 64,568 to 1,063 square miles and a population of 66,461."

modification would make Issue No. 3 more definite and specific but would not change the sense of said issue; and

It further appearing, that petitioner has requested the inclusion of an additional issue to permit the showing, in connection with the above-entitled order to show cause, of the areas and populations which would lose service by reason of a reduction in power of KXLA and the nature of the program service provided by KXLA to such areas and populations; that testimony and exhibits with respect to such matters, being pertinent and material to a determination of the questions presented by the order to show cause, may be received in evidence under the order to show cause; and that, therefore, the specification of the requested issue is unnecessary; and

It further appearing, that the opposition of KFAB Broadcasting Company herein alleges that the revision of Issues No. 2 and 3 requested by petitioner will serve only to confuse such issues but that the opposition does not set forth the manner in which such confusion may arise, and that for reasons set forth above the Commission is of the opinion that said issues should be amended substantially as requested; and

It further appearing, that petitioner alleges that the subject petition was not filed within the time specified in § 1.389 of the Commission's rules and regulations for the reason, among others, that petitioner was under a misapprehension as to the meaning of the present issues until an informal ruling by the Hearing Examiner on August 17, 1950; that KFAB has not alleged that consideration of the instant petition at this time will in any wise prejudice KFAB Broadcasting Company; and that the Commission is of the opinion that good cause has been shown why said petition was filed within the time specified in § 1.389 of the Commission's rules and regulations;

It is ordered, That the said petition, filed August 23, 1950, by Pacific Coast Broadcasting Company, requesting modification and enlargement of the issues in the above-entitled proceeding is granted in part; and

It is further ordered, That the Commission's order of March 6, 1950, designating the above-entitled matters for consolidated hearing is amended by striking therefrom Issues Nos. 1, 2, and 3 and substituting therefor the following issues:

1. To determine the areas and populations which receive primary service from the present operation of Station KXLA and the character of other broadcast service available to those areas and populations.

2. To determine whether the operation of Station KXLA involves objectionable interference with Station KFAB, Omaha, Nebraska, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, the availability of other broadcast services to such areas and populations, and the nature and character of the program service provided to such areas and populations by Station KFAB and other broadcast services available to such areas and populations.

3. To determine whether the installation and operation of Station KXLA is in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to the protection to be afforded United States Class I–B stations, particularly Station KFAB, Omaha, Nebraska.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50–8162; Filed, Sept. 18, 1950; 8:50 a. m.]

[Docket Nos. 9429–9432, 9511]

ARKANSAS AIRWAVES CO. (KXLR) ET AL.

ORDER CONTINUING HEARING

In re applications of Arkansas Airwaves Company (KXLR), North Little Rock, Arkansas, Docket No. 9429, File No. BR–1248; West Memphis Broadcasting Corporation (KWEM), West Memphis, Arkansas, Docket No. 9430, File No. BR–1506; Harrison Broadcasting Corporation (KHOZ), Harrison, Arkansas, Docket No. 9431, File No. BR–1387; Stuttgart Broadcasting Corporation (KWAK), Stuttgart, Arkansas, Docket No. 9432, File No. BR–2085; Arkansas Airwaves Company (KXLR), North Little Rock, Arkansas, Docket No. 9511, File No. BP–6747; for renewal of licenses and for construction permit.

The Commission having under consideration a joint petition filed August 25, 1950, by Arkansas Airwaves Company (KXLR), North Little Rock, Arkansas, and Stuttgart Broadcasting Corporation (KWAK), Stuttgart, Arkansas, requesting an indefinite continuance of the hearing presently scheduled for September 25, 1950, at Little Rock, Arkansas, in the proceeding upon the above-entitled applications for renewal of licenses and for construction permit; and

It appearing, that all applicants in the above proceeding have pending before the Commission petitions for reconsideration and grant without hearing;

It is ordered, This 1st day of September 1950, that the petition is granted; and that the hearing in the above-entitled proceeding is continued indefinitely, pending action on the said petitions for reconsideration and grant without hearing.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50–8163; Filed Sept. 18, 1950; 8:51 a. m.]

[Docket Nos. 9582, 9708]

POPLAR BLUFF BROADCASTING CO. AND LEE BROADCASTING, INC. (WTAD)

ORDER CONTINUING HEARING

In re application of The Poplar Bluff Broadcasting Company, Poplar Bluff, Missouri, Docket No. 9582, File No. BP–7342; Lee Broadcasting, Inc. (WTAD), Quincy, Illinois, Docket No. 9708, File No. BP–7566, for construction permits.

The Commission having under consideration a motion filed August 21, 1950 by The Poplar Bluff Broadcasting Company, requesting a continuance of the hearing in the above-entitled case from September 6, 1950 to October 24, 1950, so as to permit more time for the parties to evaluate the engineering aspects of the application as amended;

It appearing, that no opposition to the requested continuance has been filed and that good cause for continuance is shown; now therefore,

It is ordered, This 1st day of September 1950, that the motion is granted and the hearing now scheduled to begin on September 6, 1950, is hereby continued to October 24, 1950, at Washington, D. C.

FEDERAL POWER COMMISSION

[Docket No. G–1426]

TEXAS GAS TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

SEPTEMBER 12, 1950.

On June 26, 1950, Texas Gas Transmission Corporation (Applicant), a Delaware corporation with its principal place of business in Owensboro, Kentucky, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas facilities subject to the jurisdiction of the Commission, all as more fully described in such application on file with the Commission and open to the public.

Applicant has requested that this application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for non-contested proceedings, and it appears to be a proper one for disposition under the aforesaid rule, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on July 14, 1950 (15 F. R. 4471–2).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing be held on October 5, 1950, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided however*, That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: September 12, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8132; Filed, Sept. 18, 1950; 8:45 a. m.]

[Docket No. G–1471]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

SEPTEMBER 13, 1950.

Take notice that on August 28, 1950, Texas Gas Transmission Corporation (Applicant), a Delaware corporation with its principal office at Owensboro, Kentucky, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described natural-gas facilities:

Approximately 3.75 miles of 8⅝ inch pipeline and 3.5 miles of 6⅝ inch pipeline extending westerly from a point on Applicant's 12 inch main transmission pipeline near Henderson, Kentucky, to the plant of the Spencer Chemical Company, together with a metering station and appurtenances thereto, all of said facilities to be located in Henderson County, Kentucky.

Applicant proposes to sell and deliver natural gas to the Spencer Chemical Company, through the facilities proposed for industrial use upon a firm industrial basis, not in excess of 7,000 Mcf per day and on an interruptible basis not to exceed 10,000 Mcf per day.

The total over-all capital cost of the facilities proposed is $163,863.48, which will be financed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 2d day of October 1950. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8133; Filed, Sept. 18, 1950; 8:45 a. m.]

[Docket No. E–6314]

PHILADELPHIA ELECTRIC CO. ET AL.

ORDER INSTITUTING RATE INVESTIGATION

SEPTEMBER 12, 1950.

In the matter of Philadelphia Electric Company, Atlantic City Electric Company, and Delaware Power & Light Company; Docket No E–6314.

On July 11, 1950, Philadelphia Electric Company (Philadelphia Electric) filed a new agreement with Atlantic City Electric Company (Atlantic City) together with a Certificate of Concurrence with Delaware Power & Light Company (Delaware Power), on July 14, 1950, filed its Certificate of Concurrence.

The agreement with Atlantic City has been designated Philadelphia Electric Company Rate Schedule FPC No. 11 (superseding Supplement No. 4 to Philadelphia Electric's Rate Schedule FPC No. 3) and the agreement with Delaware Power has been designated Philadelphia Electric Rate Schedule FPC No. 12 (superseding Philadelphia Electric's Rate Schedule FPC No. 4, as supplemented). The Certificates of Concurrence of Atlantic City and Delaware Power have been designated Atlantic City Electric Company Rate Schedule FPC No. 2 (superseding Atlantic City's Rate Schedule FPC No. 1) and Delaware Power & Light Company Rate Schedule FPC No. 19 (superseding Delaware Power's Rate Schedule FPC No. 1, as supplemented).

The agreements described above were consummated and filed as a result of the acquisition by Atlantic City of Deepwater Light and Power Company's portion of Deepwater Generating Station, formerly owned jointly by Deepwater and Atlantic, and of a two-circuit 66 kv transmission line extending from the 66 kv substation at the plant to the New Jersey-Delaware State line, which acquisition was authorized and approved by the Commission on July 18, 1950, in FPC Docket No. E–6303, and in connection with the construction by Delaware Power of new generating facilities to take care of the requirements of its Northern Division which are presently being supplied for the most part by Philadelphia Electric. Delaware Power is interconnected with Philadelphia Electric by three 66 kv circuits from Chester, Pennsylvania, to Wilmington, Delaware, and with Atlantic City by two 68 kv transmission circuits and submarine cables running under the Delaware River.

The rate schedules described above are essentially pooling contracts, under the terms of which Philadelphia Electric is granted the right to include the loads, reserves and capacities of Atlantic City and Delaware Power within its own loads, reserves and capacities for any interconnected operation. Such interconnected operation includes the participation by Philadelphia Electric under an interconnection agreement dated September 16, 1927, as amended, with Public Service Electric and Gas Company and Pennsylvania Power & Light Company, which agreement is on file with the Commission as Philadelphia Electric Company Rate Schedule FPC No. 5, as supplemented.

On the basis of data presently available to the Commission, the rates, charges, services or classifications for or in connection with the transmission or sale of electric energy under Philadelphia Electric's Rate Schedules FPC Nos. 11 and 12, Atlantic City's Rate Schedule FPC No. 2 and Delaware Power's Rate Schedule FPC No. 19 may be unjust, unreasonable, unduly discriminatory or preferential.

The Commission finds: It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Federal Power Act, that an investigation be instituted by the Commission into and concerning any rates, charges, services, or classifications demanded, observed, charged, or collected or to be demanded, observed, charged or collected under Philadelphia Electric Company's Rate Schedules FPC Nos. 11 and 12, Atlantic City Electric Company's Rate Schedule FPC No. 2 and Delaware Power & Light Company's Rate Schedule FPC No. 19, for or in connection with the transmission or sale of electric power and energy subject to the Commission's jurisdiction, and any rules, regulations, practices, or contracts affecting such rates, charges, services or classifications.

The Commission, on its own motion, orders: An investigation be and the same hereby is instituted for the purpose of enabling the Commission:

(A) To determine whether any rates, charges, services or classifications demanded, observed, charged or collected, or to be demanded, observed, charged or collected under Philadelphia Electric Company's Rates Schedules FPC Nos. 11 and 12, Atlantic City Electric Company's Rate Schedule FPC No. 2, and Delaware Power & Light Company's Rate Schedule FPC No. 19 for or in connection with the sale or transmission of electric energy, or any rule, regulation, practice, or contract affecting such rates, charges, services, or classification are unjust, unreasonable, unduly discriminatory or preferential.

(B) If, after hearing, it shall find that any such rates, charges, services, classifications, rules, regulations, practices or contracts are unjust, unreasonable, unduly discriminatory or preferential, to determine and fix by appropriate order or orders, just, reasonable, non-discriminatory or non-preferential rates, charges, services, classifications, rules, regulations, practices or contracts to be thereafter observed and in force.

Date of issuance: September 13, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50–8147; Filed, Sept. 18, 1950; 8:48 a. m.]

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25411]

COAL FROM THE SOUTHWEST TO ILLINOIS AND INDIANA

APPLICATION FOR RELIEF

SEPTEMBER 14, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 3763.

Commodities involved: Coal and articles taking the same rates, carloads.

From: Points in the southwest.

To: Points in Illinois and Indiana.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: D. Q. Marsh's tariff I. C. C. No. 3763, Supplement 108.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 50-8149; Filed, Sept. 18, 1950; 8:48 a. m.]

[4th Sec. Application 25412]

ALCOHOL FROM LOUISIANA TO KINGSPORT, TENN.

APPLICATION FOR RELIEF

SEPTEMBER 14, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to the tariff named below.

Commodities involved: Isopropanol, isopropyl and ethly alcohol, carloads.

From: New Orleans and Port Chalmette, La.

To: Kingsport, Tenn.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates: W. P. Emerson, Jr.'s tariff I. C. C. No. 377, Supplement 58.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1248]

INLAND STEEL CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of September A. D. 1950.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of Inland Steel Company, a security listed and registered on the New York Stock Exchange and on the Midwest Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to September 25, 1950, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File No. 70-2422]

SOUTHERN CO., ET AL.

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of September A. D. 1950.

In the matter of The Southern Company, Alabama Power Company, Georgia Power Company. File No. 70-2422.

The Southern Company ("Southern"), a registered holding company, and two of its public utility subsidiaries, Alabama Power Company ("Alabama") and Georgia Power Company ("Georgia"), having filed with this Commission joint applications-declarations, and amendments thereto, pursuant to sections 6 (a), 7, 9 (a), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 (the "act"), and Rules U-43 and and U-50 promulgated thereunder, relating to the following proposed transactions:

Southern proposes, pending consummation of a proposed sale of 1,000,000 additional shares of its common stock, to borrow $12,000,000 from banks, to be evidenced by its unsecured notes payable on or before one year from the date of such notes, with interest at the rate of 2% per annum. The proceeds of the borrowing will be utilized by Southern to assist its subsidiaries Alabama and Georgia in financing their construction programs through the investment by Southern of $6,000,000 in Alabama by the purchase of 60,000 additional shares of the no par value common stock of that company and $6,000,000 in Georgia by the purchase of 353,000 additional shares of the no par value common stock of Georgia. Southern states that it will sell 1,000,000 shares of its common stock as soon as practical and feasible for the purpose of repaying the proposed bank loans.

Said applications-declarations and the amendments thereto having been duly filed and notice of such filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing with respect to said applications-declarations, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The applications-declarations having requested that the Commission's order become effective forthwith upon issuance; and

The Commission finding with respect to said applications-declarations, as amended, insofar as they relate to the proposed bank borrowings by Southern and Southern's investment of the proceeds thereof in the common stocks of Alabama and Georgia, that the requirements of the applicable provisions of the act and the rules promulgated thereunder are satisfied, that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications-declarations, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said applications-declarations, as amended, insofar as they relate to the proposed bank borrowings by Southern and Southern's investment of the proceeds thereof in the common stocks of Alabama and Georgia, be, and the same hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and subject to the additional condition that jurisdiction be reserved with respect to all fees and expenses to be paid in connection with the proposed transactions.

By the Commission.

[File No. 70-2434]

PHILADELPHIA CO. AND DUQUESNE LIGHT CO.

SUPPLEMENTAL ORDER GRANTING AND PERMITTING APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of September 1950.

Philadelphia Company, a registered holding company, and its public utility subsidiary, Dequesne Light Company ("Duquesne"), both subsidiaries of Standard Gas and Electric Company and Standard Power and Light Corporation, registered holding companies, having filed a joint application-declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 ("act") and the rules and regula-

tions promulgated thereunder, particularly sections 6, 7, 9, 10, 11 (b), 12 (c) and 12 (f) of the act and Rules U-42, U-43 and U-50, regarding, among other things, the issuance and sale by Duquesne, pursuant to the competitive bidding requirements of said Rule U-50, of $7,500,000 par value, of its new ----% Preferred Stock, par value $50 per share; and

The Commission, by order dated August 21, 1950, having granted and permitted to become effective said application-declaration subject, among other things, to the condition that the proposed sale of such Preferred Stock shall not be consummated until the results of competitive bidding, held with respect thereto, shall have been made a matter of record in this proceeding and a further order shall have been issued by this Commission on the basis of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate; and

A further amendment to said amended application-declaration having been filed on September 13, 1950, setting forth the action taken to comply with the requirements of Rule U-50 and stating that pursuant to the invitation for competitive bids the following bids were received:

Bidder	Annual dividend rate (percent per share)	Price to company [1] (per share)	Annual cost to pany (percent)
The First Boston Corp	3.75	$50.05	3.74625
Kuhn, Loeb & Co. and Smith, Barney & Co	3.80	50.61	3.75419
Kidder, Peabody & Co.; Merrill Lynch, Pierce, Fenner & Beane; and White, Weld & Co	3.80	50.6011	3.75485
Lehman Bros	3.90	51.2113	3.80775

[1] Exclusive of accrued dividends from July 1, 1950.

And Duquesne having stated that it has accepted the bid of The First Boston Corporation and that the 3.75% Preferred Stock is to be offered to the public at a price of $51.00 per share, plus accrued dividends from July 1, 1950, resulting in an underwriters' spread of $0.95 per share, aggregating $142,500; and

The Commission having examined said amendment filed herein on September 13, 1950, and having considered the record and finding no basis for imposing terms and conditions with respect to the price to be received for the 3.75% Preferred Stock, the underwriters' spread and allocation thereof, or otherwise, and it appearing appropriate to the Commission that jurisdiction heretofore reserved to consider the results of the competitive bidding with respect to the 3.75% Preferred Stock be released:

It is ordered, That jurisdiction heretofore reserved to consider the results of the competitive bidding with respect to the sale of the 3.75% Preferred Stock be, and hereby is, released and that said application-declaration, as further amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and the reservations of jurisdiction contained in the Commission's order herein dated August 21, 1950.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 50-8143; Filed, Sept. 18, 1950; 8:47 a. m.]

[File No. 70-2468]

SOUTHWESTERN GAS AND ELECTRIC CO.

NOTICE OF FILING AND ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of September A. D. 1950.

Notice is hereby given that a declaration, and amendments thereto, have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), by Southwestern Gas and Electric Company ("Southwestern"), a public utility subsidiary of Central and South West Corporation ("Central"), a registered holding company. Declarant has designated sections 6 (a) and 7 of the act and Rule U-62 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to said declaration, as amended, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

Southwestern has outstanding 100,000 shares of preferred stock which is publicly held and 1,566,800 shares of common stock all of which is owned by Central. Each share of preferred stock and of common stock is entitled to one vote, the preferred stock representing approximately 6% and the common stock approximately 94% of the aggregate voting power. Southwestern proposes to submit to a vote of its stockholders at a special meeting called for such purpose an amendment to its Certificate of Incorporation with respect to the voting rights of the holders of its outstanding preferred stock. The proposed amendment would eliminate the voting rights of the preferred stockholders except the special voting rights provided for in subparagraphs 6, 7 and 9 of Paragraph D of Subdivision I of Article Fourth, or as may be required by law. Such special voting rights, which are to be retained intact, include the right to elect a majority of the Board of Directors if and so long as preferred dividends shall be in default in an amount equivalent to four quarter-yearly dividends.

The proposed amendment requires the favorable vote of two-thirds of the outstanding shares of preferred stock voting as a class and the favorable vote of a majority of the outstanding shares of stock of all classes.

The stated purpose of the proposed amendment is to enable Southwestern to file Federal consolidated income tax returns with Central and Central's other subsidiaries. Declarant states that to be eligible to file such returns under the provisions of the Internal Revenue Code Central must own at least 95% of the voting stock of Southwestern. If the proposed amendment is adopted, Central would own 100% of the voting stock of Southwestern.

Southwestern further proposes to solicit its stockholders in connection with said special meeting and to submit proxy material to its stockholders in the form attached to the amendment to the declaration. It is stated that if Southwestern should retain the services of a professional proxy solicitor to aid in the solicitation of proxies from preferred stockholders, it is estimated that the fees and expenses of such organization will not exceed $1,000. It is further stated that all other expenses to be incurred by Southwestern in connection with the proposed transactions will approximate $1,000.

It is represented that no state commission and no Federal commisison, other than this Commission, has jurisdiction over the proposed transactions.

Southwestern has requested that the Commission enter an order, pursuant to Rule U-62, on or before September 13, 1950, authorizing the solicitation of proxies in connection with said special meeting, and that the Commission's order with regard to all other matters set forth in the declaration, as amended, be issued as soon as practicable and become effective forthwith upon its issuance.

Notice is further given that any interested person may, not later than September 25, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on the matters set forth in the declaration, as amended, other than the proposal to solicit proxies in connection with said special meeting of stockholders, stating the reasons for such request, the nature of his interest, and the issues, if any, of fact or law raised by said declaration, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street, NW., Washington 25, D. C. At any time after September 25, 1950, said declaration, as amended, excepting such portion thereof as is permitted to become effective herein, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers to grant the request of declarant for an order, pursuant to Rule U-62, authorizing the solicitation of proxies from the stockholders of declarant:

It is ordered, That, without passing upon the merits of the declaration, as amended, filed pursuant to sections 6 (a) and 7 of the act, the declaration, as amended, filed pursuant to Rule U-62 promulgated under the act, as to the solicitation of proxies from the stockholders of Southwestern be, and hereby is, permitted to become effective forthwith.

By the Commission.

[Vesting Order 15009]

CHARLES BATTEKA ET AL.

In re: Charles Batteka, on behalf of himself and all other stockholders of 39 Broadway, Inc., similarly situated, plaintiff, vs. 39 Broadway, Inc., et al., defendants. File No. D-28-12721; E. T. sec. 16899.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ludwig Carle, Frieda Carle, Anna Muench, Mrs. Claire Poppe, William A. Seegers, Adele Thoss, Karl Uhe and Josefine Uhe, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown of Wilhelm Muhlig, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That the property described as follows: Those certain debts or other obligations owing to the persons identified in subparagraphs 1 and 2 hereof, by the New York Trust Company, 100 Broadway, New York, New York, pursuant to an order entered February 1, 1949, by the Supreme Court in and for New York County, New York, in an action entitled Charles Batteka, on behalf of himself and all other stockholders of 39 Broadway, Inc., similarly situated, plaintiff, vs. 39 Broadway, Inc., et al., defendants, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof and the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of Wilhelm Muhlig, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

DAVID ROOS

In re: Estate of David Roos, deceased. File D 28-12869 E. T. sec. 17034.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Anna Schlotz, Barbara Abendschein, Karoline Kolb, Karoline Wilhelmine Hermann, Karl August Kolb, Eugen Kolb, Anna Pauline Troscher, Fredrich Kolb and Louise Kolb, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs, issue, next of kin, legatees and distributees, names unknown, of Karoline Kolb, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate of David Roos, deceased, is property payable or deliverable to, or claimed by the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by George C. Reuter, Executor, Hopkins, Minnesota, acting under the judicial supervision of the Probate Court of Hennepin County, Minnesota,

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof and the domiciliary personal representatives, heirs, issue, next of kin, legatees and distributees, names unknown, of Karoline Kolb, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

RONALD THOMAS

In re: Estate of Ronald Thomas, deceased. File D 28-12786 G-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Baroness Walpurga Von Gemmingen, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof, in, to and against the estate of Ronald Thomas, deceased, arising out of and by virtue of her claim for monies loaned to and had and received by the said Ronald Thomas, including but not by way of limitation all rights, claims, demands and causes of action of any kind or nature whatsoever of the person named in subparagraph 1 hereof against the estate of Ronald Thomas, deceased, by reason of the rejection of any claim filed by or on behalf of the said person named in subparagraph 1 hereof, for the payment of any and all amounts due her by virtue of her claim against the said estate of Ronald Thomas, deceased, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof, is not within a designated enemy country, the national interest of the United States requires that such person be treated as a

national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

[Vesting Order 15051]

HENRY MERCKLE

In re: Trust u/w of Henry Merckle, deceased. File No. D 28-8723; E. T. Sec. 10578.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Marie Wieland, whose last known address was, on August 3, 1950, Germany, was on such date a resident of Germany and a national of a designated enemy country (Germany);

2. That the sum of $436.40 was paid to the Attorney General of the United States by Frida Hodgkinson, Trustee, of the Trust under the will of Henry Merckle, deceased;

3. That the said sum of $436.40 was accepted by the Attorney General of the United States on August 3, 1950, pursuant to the Trading With the Enemy Act, as amended;

4. That the said sum of $436.40 is presently in the possession of the Attorney General of the United States and was property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

5. That to the extent that the person named in subparagraph 1 hereof was not within a designated enemy country on August 3, 1950, the national interest of the United States required that such person be treated as a national of a designated enemy country (Germany), on such date.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

This vesting order is issued nunc pro tunc to confirm the vesting of the said property by acceptance as aforesaid.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

ANNA M. RAU

In re: Rights of Anna M. Rau under insurance contract. File No. F-28-481-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Anna M. Rau, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under the disability provisions of a contract of insurance evidenced by policy No. 5,580,363, issued by the Prudential Insurance Company of America, Newark, New Jersey, to Anna M. Rau, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON.
Deputy Director,
Office of Alien Property.

[Vesting Order 15057]

GUSTAV RIEKERT ET AL.

In re: Rights of Gustav Riekert et al. under insurance contract. File No. F-28-30651-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Gustav Riekert and Martha Riekert, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. P 24829, issued by The Prudential Insurance Company of America, Newark, New Jersey, to Gustav Riekert, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, Gustav Riekert or Martha Riekert, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[Vesting Order 15056]

ELIZABETH REDDEL

In re: Rights of Elizabeth Reddel under insurance contract. File No. F-28-30779-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Elizabeth Reddel, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 82 939 549, issued by The Prudential Insurance Company of America, Newark, New Jersey, to Elizabeth Reddel, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

EXPORTKREDITBANK, A. G.

In re: Stock, bonds and other property owned by and debts or other obligations owing to Exportkreditbank, A. G., F-28-180-A-6; C-2; E-7.

Vesting order 9068, dated May 26, 1947, as amended, is hereby further amended as follows and not otherwise:

a. By deleting from Exhibit A, attached to and by reference made a part of the aforesaid Vesting Order 9068, as amended, the Certificate number "SN-73392" set forth with respect to three (3) shares of capital stock of the American Telephone & Telegraph Company and substituting therefor the Certificate number "SN72392".

b. By deleting from Exhibit A, attached to and by reference made a part of Vesting Order 9068, as amended, the Certificate number "F89173" set forth with respect to one (1) share of capital stock of the Anaconda Copper Mining Company and substituting therefor the Certificate number "F895173",

c. By deleting from Exhibit A, attached to and by reference made a part of Vesting Order 9068, as amended, the name "Otto Rennan" set forth with respect to the registered owner of forty (40) shares of common stock of The Atchison, Topeka & Santa Fe Railway Company and substituting therefor the name "Otto Rennau",

d. By deleting from Exhibit A, attached to and by reference made a part of Vesting Order 9068, as amended, the word "Delaware" set forth with respect to the place of incorporation of the Studebaker Corporation and substituting therefor the words "New Jersey",

e. By adding to Exhibit A, attached to and by reference made a part of Vesting Order 9068, as amended, the following:

Name and address of issuer	Place of incorporation	Type of stock	Par value	Certificate No.	Number of shares	Registered owner
United Fruit Co., 1 Federal St., Boston, Mass.	New Jersey	Common	No	54881	100	Hurley & Co.

f. By deleting from Exhibit B, attached to and by reference made a part of Vesting Order 9068, as amended, the numbers "2946", "2947" and "27554" as set forth with respect to National Railways of Mexico Secured Assented 6% Notes and substituting therefor the numbers "29846", "29847" and "24554", respectively,

g. By deleting from subparagraph II-13 of the aforesaid Vesting Order 9068, as amended, the number "3883" set forth with respect to one (1) Province of Buenos Aires Arrears Certificate and substituting therefor the number "16", and

h. By deleting from subparagraph II-22 of the aforesaid Vesting Order 9068, as amended, the number "V97563" set forth with respect to one (1) Seaboard Trust Company Voting Trust Certificate and substituting therefor the number "VT 7563".

All other provisions of said Vesting Order 9068, as amended, and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on August 11, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

KARL RIPPELMEIER

In re: Rights of Karl Rippelmeier under insurance contract. File No. F-28-26599-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Karl Rippelmeier, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 5 916 534, issued by The Prudential Insurance Company of America, Newark, New Jersey, to Karl Rippelmeier, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest.

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

DOMENICO AND PIETRO BRUNI

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date

SEP 25 '50

of the publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant and Property and Location

Domenico Bruni and Pietro Bruni, Sequals, Udine, Italy; Claim No. 18527; $13,013.40 in the Treasury of the United States in two equal shares, one each to Domenico Bruni and Pietro Bruni.

This notice supersedes and cancels the notice of intention to return vested property to Peter Pellarin which was published in the FEDERAL REGISTER on December 17, 1948 (13 F. R. 7812). Mr. Pellarin died October 20, 1948, and the present claimants are his heirs.

Executed at Washington, D. C., on September 13, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General, Director, Office of Alien Property.

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter E—Determination of Sugar Commercially Recoverable

[Sugar Determination 833.2 Amdt. 1]

PART 833—MAINLAND CANE SUGAR AREA

1950 AND SUBSEQUENT CROPS

Pursuant to the provisions of section 302 (a) of the Sugar Act of 1948, the Determination of Sugar Commercially Recoverable for the Mainland Cane Sugar Area, issued October 20, 1949, as § 833.2 (14 F. R. 6514) is hereby amended, effective as to the 1950 and subsequent crops, by deleting paragraphs (a), (b), and (c), and substituting new paragraphs (a), (b), and (c), as follows:

(a) The rates shown in paragraphs (b) and (c) of this section shall apply to the 1950 crop and the rates applicable to each succeeding crop shall be established by the Production and Marketing Administration from data for the next preceding five crops in a manner similar to that used in computing the rates applicable to the 1950 crop.

(b) For farms in Louisiana:

Percentage of sucrose in normal juice: [1]	*Hundredweight of sugar*
8.0	0.903
9.0	1.071
10.0	1.269
11.0	1.446
12.0	1.602
13.0	1.762
14.0	1.924
15.0	2.088
16.0	2.255
17.0	2.424
18.0	2.595

[1] Sugar recoverable for the intervening tenths of 1 percent shall be calculated by straight interpolation.

(c) For farms in Florida:

Percentage of sucrose in normal juice: [1]	*Hundredweight of sugar*
8.0	0.960
9.0	1.136
10.0	1.343
11.0	1.528
12.0	1.693
13.0	1.861
14.0	2.031
15.0	2.204
16.0	2.379
17.0	2.556
18.0	2.735

[1] Sugar recoverable for the intervening tenths of 1 percent shall be calculated by straight interpolation.

Statement of bases and considerations. The original determination established rates of commercially recoverable sugar on the basis of simple averages of the results for all of the crops of 1944 through 1948, except that the rates for Louisiana were adjusted to show recoveries on the basis of trash-free sugarcane. The statement of bases and considerations included in that determination specified that "In Louisiana, the net weight of the cane will be determined by reducing the gross weight to a trash-free basis as defined in Sugar Determination 874.2, issued September 26, 1949." Under the definition of "trash" in Sugar Determination 874.2, trash-free cane contained a small amount of trash which was reflected in the recovery rates as set forth in paragraph (b) of Sugar Determination 833.2. However "trash" in sugarcane has been redefined in the determination of prices for the 1950 sugarcane crop in Louisiana, Sugar Determination 874.3, issued August 30, 1950, eliminating all tolerance for trash. Consequently, the rates set forth in paragraph (b) of this amendment have been adjusted to eliminate all trash tolerance. Otherwise these rates and those for Florida, as shown in paragraph (c), have been computed in accordance with the provisions of the original determination.

Except for the modifications explained above, the determination as issued October 20, 1949, together with the Statement of Bases and Considerations, remains unchanged.

Accordingly, I hereby find and conclude that the foregoing amendment to the Determination of Sugar Commercially Recoverable from the Mainland Cane Sugar Area will effectuate the purposes of section 302 (a) of the Sugar Act of 1948.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies Sec. 302, 61 Stat. 930; 7 U. S. C. Sup. 1132)

Issued this 15th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter A—Meat Inspection Regulations

PART 14—TANKING AND DENATURING CONDEMNED CARCASSES AND PARTS

PART 17—LABELING

PART 24—EXPORT STAMPS AND CERTIFICATES

PART 25—TRANSPORTATION

PART 27—IMPORTED PRODUCTS

MISCELLANEOUS AMENDMENTS

On July 19, 1950, there was published in the FEDERAL REGISTER (15 F. R. 4606) a notice of proposed amendments of the regulations governing the meat inspection of the United States Department of Agriculture (9 CFR, Chapter I, Subchapter A, as amended). After due consideration of all relevant matters presented and pursuant to the authority conferred upon me by the Meat Inspection Act, as amended (21 U. S. C. 71–91), the so-called Horse Meat Act (21 U. S. C. 96), and section 306 of the Tariff Act of 1930 (19 U. S. C. 1306), the aforesaid regulations are hereby amended as follows:

1. Section 14.6 (a) is amended to read as follows:

§ 14.6 *Livers condemned because of parasitic infestation and for other causes; conditions under which may be disposed of as fish feed.* (a) Livers condemned on account of fluke infestation may be forwarded as fish feed if they are first freely slashed, then denatured, and then frozen. The denaturing shall be accomplished by dipping the slashed livers in a hot solution composed of one part of FD&C Green #3 or Methyl Violet to 5,000 parts of water, followed by washing in fresh water until the washings are no longer colored, or by the application of finely powdered charcoal. Freezing shall be preceded by chilling the livers to a temperature not above 40° F. Livers packed in containers not more than 7 inches thick shall then be held for a period of not less than 10 days at a temperature not higher than 15° F. or for a period of not less than five days at a temperature not higher than 10° F. Livers packed in containers over 7 inches but less than 27 inches thick shall be held not less than 20 days at a temperature not higher than 15° F., or for not less than ten days at a temperature not higher than 10° F. In lieu of freezing, the livers may be thoroughly cooked and then slashed and denatured in the manner indicated above. It is essential that

the livers be sufficiently denatured through discoloration by the dye or charcoal to preclude their use as human food. Freezing may be accomplished in the regular freezer in a properly separated compartment or receptacle held under division lock.

2. Section 17.2 (c) is amended to read as follows:

(c) Stencils and box dies shall not include the inspection legend or any abbreviation or representation thereof, and inserts, tags, and like devices shall not bear such inspection legend, abbreviation, or representation: *Provided, however*, That, with the approval of the chief of division, box dies including such legend or an abbreviation or representation thereof may be used in marking wooden boxes of light material having a maximum capacity of five pounds, fiberboard containers, and wooden wire-bound boxes and crates with at least 90 percent of the total wood surface being veneer wood not over ⅛ of an inch thick and of such a quality that matter imprinted on it is legible.

3. Section 17.8 (c) (31) is amended to read as follows:

(31) Product labeled "Tamales" shall be prepared with at least 25 percent meat computed on the weight of the uncooked fresh meat in relation to all ingredients of the tamales. When tamales are packed in sauce or gravy, the name of the product shall include a prominent reference to the sauce or gravy, for example "Tamales With Sauce" or "Tamales With Gravy." Product labeled "Tamales With Sauce" or "Tamales With Gravy" shall contain not less than 20 percent meat, computed on the weight of the uncooked fresh meat in relation to the total ingredients making up the tamales and sauce or the tamales and gravy.

4. Section 17.8 (c) is amended by adding thereto the following subparagraphs:

(44) Canned product labeled "Tripe With Milk" shall be prepared so that the finished canned article, exclusive of the cooked-out juices and milk, will contain at least 65 percent tripe. The product shall be prepared with not less than 10 percent milk.

(45) Product labeled "Beans With Frankfurters in Sauce," "Sauerkraut With Wieners and Juice," and the like, shall contain not less than 20 percent frankfurters or wieners computed on the weight of the smoked and cooked sausage prior to its inclusion with the beans or sauerkraut.

(46) Product labeled "Lima Beans With Ham in Sauce," "Beans With Ham in Sauce," "Beans With Bacon in Sauce," and the like, shall contain not less than 12 percent ham or bacon computed on the weight of the smoked ham or bacon prior to its inclusion with the beans and sauce.

(47) Product labeled "Chow Mein Vegetables With Meat" and "Chop Suey Vegetables With Meat" shall contain not less than 12 percent meat computed on the weight of the uncooked fresh meat prior to its inclusion with the other ingredients.

5. Section 24.4 (a) (4) (ii) is amended to read as follows:

(ii) Preservatives other than common salt, sugar, dextrose, glucose, saltpeter, wood smoke, vinegar, spices, alcohol, refined sodium nitrate, and refined sodium nitrite (not to exceed 200 parts per million in the finished product), or coloring matter, shall not be used in or upon meat, meat byproducts, or any preparation of either of them.

6. Section 24.4 (a) (4) (xxv) is amended to read as follows:

(xxv) Processed lard shall be the food product made by adding to lard a small proportion of a stabilizer consisting of one or more of the following ingredients: gum guaiacum; vegetable oil containing tocopherols; lecithin; citric acid, tartaric acid, ascorbic acid; and propyl gallate. Such stabilizers, singly or in combination, shall not exceed two-tenths of one (0.2) percent by weight of the finished product, except propyl gallate which shall not exceed one-hundredth of one (0.01) percent by weight of the finished product. The label or marking of every package or container in which processed lard is offered for sale shall display a statement in immediate conjunction with the name of the product naming the stabilizer: e. g. "Contains propyl gallate."

7. Section 24.4 (c) (3) is amended to read as follows:

(3) The lymphatic glands and/or serous membranes are required to be in close anatomical relationship to fresh meat cuts imported into England and Wales.

8. Section 24.4 (c) (4) is amended by deleting from the end thereof the following note:

NOTE: The foregoing recommendations of the Association of Port Sanitary Authorities of the British Isles as to the inclusion of lymphatic glands in cuts of imported meat appear not to be applicable to mutton and lamb for importation into England or Wales in view of a recent amendment of the Public Health (Imported Food) Regulations, 1937, issued by the Ministry of Food in the United Kingdom, which permits the importation into England and Wales of mutton and lamb from which the lymphatic glands have been removed, and requires the incision of certain lymphatic glands of sheep (not lamb) carcasses for importation into England and Wales. See subparagraphs (5) (iii) and (7) of this paragraph.

9. Section 24.4 (c) (5) (iii) is amended to read as follows:

(iii) Meat from which a lymphatic gland, except a gland necessarily removed in preparing the meat, has been taken out.

10. Section 24.4 (c) (7) is revoked.

11. Section 25.6 (d) is amended to read as follows:

(d) When shipments are made under this section, the inspector in charge at the point of origin shall immediately notify the inspector in charge at the point of destination by means of Form MI 408–1. One copy of the form shall be placed in a sealed envelope and tacked, or otherwise securely fastened, to the inside of one of the doors of the railroad car, truck, wagon, etc., and one copy shall be mailed to the inspector in charge at destination immediately after the vehicle has been sealed.

12. Section 25.9 (c) is amended to read as follows:

(c) When a shipment is made in a sealed car, truck, wagon, etc., under this section, the inspector in charge at the point of origin shall immediately notify the inspector in charge at point of destination in accordance with instructions in § 25.6 (d). When a shipment is made under this section in properly sealed and marked closed containers, the inspector in charge at point of origin shall immediately notify the inspector in charge at destination by means of an appropriately modified Form MI 408–1, furnishing complete information.

13. Section 25.14 (a) is amended to read as follows:

§ 25.14 *Denaturing of uninspected or inspected meat known to be unsound, grease, etc., required prior to shipment; certificate for shipment; statement to appear on waybills, etc., of connecting carrier.* (a) No uninspected product, and no inspected and passed product which is known to have become unsound, unhealthful, unwholesome, or in any way unfit for human food, including any rendered or unrendered grease, tallow, or other fat derived from the carcasses of cattle, sheep, swine, or goats and possessing the physical characteristics of an edible product, shall be transported from one State or Territory or the District of Columbia to any other State or Territory or the District of Columbia, or to any place under the jurisdiction of the United States, or to a foreign country, unless it is first denatured or otherwise destroyed for food purposes. The shipper shall not offer nor the carrier receive for such transportation any such article until it has been denatured or otherwise destroyed for food purposes as required by this section. The carrier shall require and the shipper shall make and deliver to the carrier a certificate in duplicate in the following form:

Date ---------- 19----

Name of carrier----------
Consignor ----------
Point of shipment----------
Consignee ----------
Destination ----------

I hereby certify that the following described meat or product, or grease, tallow, or other fat, which is offered for shipment in interstate or foreign commerce, has been denatured or otherwise destroyed for food purposes.

Kind of product	*Amount and weight*
----------	----------
----------	----------
----------	----------

---------- (Signature of shipper)

---------- (Business or occupation of shipper)

---------- (Address of shipper)

The signature of the shipper or of his agent shall be written in full. This certificate shall be separate and apart from any waybill, bill of lading, or other form ordinarily used in the transportation of meat. The duplicate certificate shall be forwarded immediately by the initial carrier to the Chief of the Meat Inspection Division, Washington, D. C. If the product is transported by the shipper himself a certificate shall nevertheless be forwarded by him to the Chief of the Meat Inspection Division.

14. Section 25.14 is amended by adding thereto a new paragraph (c) as follows:

(c) No dog food or other animal food prepared, in whole or in part, from materials derived from the carcasses of cattle, sheep, swine, goats, or horses, either in an official establishment or elsewhere, shall be transported from one State or Territory or the District of Columbia to any other State or Territory or the District of Columbia, or to any place under the jurisdiction of the United States, or to a foreign country, unless (1) it is properly identified as dog food or other animal food, (2) it is not represented as being a human food, and (3) if, possessing the physical characteristics of an edible product, it has been treated (denatured or decharacterized) so as to be readily distinguishable from an article of human food: *Provided*, That such dog food or other animal food packed in hermetically sealed, retort processed, conventional retail-size containers need not be denatured or decharacterized if the name of the canned article, as for example "Dog Food," "Cat Food," "Dog and Cat Food," "Animal Food," and the like, appears on the label in a conspicuous manner. To be considered conspicuous, the letters in the name of the canned article, as for example "Dog Food," must be at least three times as high, wide, and thick as the letters in the words denoting the use, as ingredients in the article, of the materials derived from the carcasses of cattle, sheep, swine, goats, or horses. The letters in the name of such article shall contrast as markedly with their background as the letters in the words denoting the use of such ingredient materials contrast with their background.

15. Section 25.17 (a) (2) is amended by changing the period at the end thereof to a semicolon.

16. Section 25.17 (a) (3) is amended by omitting the word "and" at the end thereof and changing the final comma in the subparagraph to a semicolon.

17. Section 25.17 (a) (4) is renumbered 25.17 (a) (5), and a new subparagraph (4) is added as follows:

(4) To material or specimens of product for laboratory examination, research, or other purposes, when authorized by the Chief of the Division and under conditions prescribed by him; and

18. Section 27.6 (f) is amended to read as follows:

(f) Except as provided in § 27.18 and paragraph (g) of this section, each consignment of any product of a kind prepared customarily to be eaten without cooking (such as summer sausage, "Italian" and "Westphalia" hams, and the like), which contains any muscle tissue of pork, shall be accompanied, in addition to any other certificate required by this section, by a separate foreign meat-inspection certificate in the following form:

OFFICIAL MEAT-INSPECTION CERTIFICATE FOR PORK AND PORK PRODUCTS

(For shipment to the United States of articles of a kind prepared customarily to be eaten without cooking, and which contain muscle tissue of pork.)

Place ----------
Date ----------, 19----

I hereby certify that the article or articles herein described are of a kind prepared customarily to be eaten without cooking, and contain muscle tissue of pork, which, when fresh or freshly cured in salt, were subjected to a temperature not higher than five (5) degrees F. for not less than twenty (20) days, or otherwise treated as specified by the Chief of the Meat Inspection Division, and that said articles contain no muscle tissue of pork which has not been treated as herein specified.

Kind of product	*Number of pieces or packages*	*Weight*
----------	----------	----------
----------	----------	----------
----------	----------	----------

Identification marks on meats and packages ----------
Consignor ----------
Address ----------
Consignee ----------
Destination ----------
Shipping marks ----------
(Signature) ----------
(Name of official of national foreign government authorized to issue inspection certificates for meat and meat food products exported to the United States)
(Official title) ----------

NOTE: A certificate in the above form is required to accompany each consignment of any product of a kind prepared customarily to be eaten without cooking (such as summer sausage, "Italian" and "Westphalia" hams, and the like), which contains any muscle tissue of pork. This certificate is to be delivered by the consignee, or his agent, to the inspector of the Meat Inspection Division at the point of inspection in the United States.

Each such foreign meat-inspection certificate shall be subject to the provisions of paragraphs (b) to (d), inclusive, of this section.

19. Section 27.6 is amended by adding thereto the following paragraphs:

(g) The official meat-inspection certificate for pork and pork products of the national government of a foreign country, the form of which has been approved by the Department and which is issued for any pork and pork products, may be accepted in lieu of the certificate prescribed in paragraph (f) of this section, notwithstanding the fact that the name of the foreign official who signed the certificate has not been published by the Department.

(h) The foreign official meat-inspection certificate for pork and pork products as provided for in paragraph (f) of this section, accompanied with a foreign meat-inspection certificate approved in accordance with paragraph (e) of this section, may be accepted even though the name of the foreign official who signed it has not been published by the Department, provided, that it agrees with the signature of the foreign official who signed the certificate approved in accordance with paragraph (e) of this section.

(34 Stat. 1264, as amended, 41 Stat. 241, sec. 306, 46 Stat. 689; 21 U. S. C. 71–91, 96, 19 U. S. C. 1306)

The purposes of the foregoing amendments are to bring into the regulations orders and instructions that have been given to the field operating force of the Meat Inspection Division and inspected establishments over the past year, and to incorporate new material controlling the composition of certain meat food products along lines which have been thoroughly investigated by that Division.

The foregoing amendments shall become effective October 20, 1950.

Done at Washington, D. C., this 14th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50–8205; Filed, Sept. 19, 1950; 8:46 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 10 to Rev. of May 10, 1949]

PART 550—FEDERAL AID TO PUBLIC AGENCIES FOR DEVELOPMENT OF PUBLIC AIRPORTS

PROJECT COSTS

Acting pursuant to the authority vested in me by the Federal Airport Act, I hereby amend Part 550 of the regulations of the Administrator of Civil Aeronautics as follows:

Footnote 1 is deleted, and § 550.4 (a) (5) is amended to read:

§ 550.4 *Project costs* • • •

(a) *Eligibility* • • •

(5) The cost of non-expendable machinery, tools or equipment owned by a sponsor and used in accomplishing work under a project by sponsor's force account, except to the extent of the fair rental value of such machinery, tools or equipment for the period used on the project.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(60 Stat. 170–180; 49 U. S. C. 1101–1119)

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III, LOAN GUARANTY

DIRECT LOANS

In Part 36, §§ 36.4500 through 36.4524, inclusive, are added as follows:

The following regulations govern the making of direct loans by the Administrator of Veterans Affairs to eligible

World War II veterans pursuant to section 512 of Title III of the Servicemen's Readjustment Act of 1944, as amended:

DIRECT LOANS

Sec.
36.4500 Applicability.
36.4501 Definitions.
36.4502 Use of guaranty entitlement.
36.4503 Amount and amortization.
36.4504 Loan closing expenses.
36.4505 Maturity of loan.
36.4506 Recasting.
36.4507 Refunding of outstanding indebtedness.
36.4508 Transfer of property by borrower.
36.4509 Joint loans.
36.4510 Prepayment, acceleration and liquidation.
36.4511 Advances after loan closing.
36.4512 Taxes and insurance.
36.4513 Foreclosure and liquidation.
36.4514 Eligibility requirements.
36.4515 Estate of veteran in real property.
36.4516 Lien requirements.
36.4517 Incorporation by reference.
36.4518 Supplementary administrative action.
36.4519 Reasonable value requirements.
36.4520 Delegation of authority.
36.4521 Minimum construction requirements.
36.4522 Waivers, consents and approvals.
36.4523 Geographical limits.
36.4524 Sale of loans.

AUTHORITY: §§ 36.4500 to 36.4524 issued under sec. 504, 59 Stat. 293, as amended; 38 U. S. C. 694d.

NOTE: Those requirements, conditions, or limitations which are expressly set forth in the act are not restated herein and must be taken into consideration in the interpretation or application of the regulations concerning direct loans to veterans.

§ 36.4500 *Applicability.* The regulations concerning direct loans to veterans shall be applicable to loans made by Veterans' Administration pursuant to section 512 of Title III of the Servicemen's Readjustment Act of 1944, as amended.

§ 36.4501 *Definitions.* Wherever used in section 512 of the act or the regulations concerning direct loans to veterans, unless the context otherwise requires, the terms defined in this section shall have the meaning herein stated, namely:

(a) "Act" means Public Law 346, 78th Congress (58 Stat. 284), cited as "Servicemen's Readjustment Act of 1944, as amended by Public Law 268, 79th Congress (59 Stat. 626), Public Law 864, 80th Congress, chapter 784, 2d Session (62 Stat. 1206), and Public Law 475, 81st Congress, 2d Session (38 U. S. C., Supp. 694, et seq.).

(b) "Administrator" means the Administrator of Veterans' Affairs.

(c) "Cost" means the entire consideration paid or payable for or on account of the application of materials and labor to tangible property.

(d) "Default" means failure of a borrower to comply with the terms of a loan agreement.

(e) "Dwelling" means a building designed primarily for use as a home, consisting of one residential unit only and not containing any business unit.

(f) "Farmhouse" means a dwelling intended for occupancy by one engaged in farming on a full- or part-time basis and so situated as to suit the intended purpose.

(g) "Guaranty" means the obligation of the United States, incurred pursuant to title III of the act, to repay a specified percentage of a loan upon the default of the primary debtor.

(h) "Home" means a place of residence.

(i) "Improvement" means any addition or alteration which enhances the utility of the property for residential purposes.

(j) "Indebtedness" means the unpaid principal and interest plus any other sums a borrower is obligated to pay Veterans' Administration under the terms of the loan instruments or of the regulations concerning direct loans to veterans.

(k) "Loan" means a loan made to a veteran by Veterans' Administration pursuant to the provisions of section 512 of the act and the regulations concerning direct loans to veterans.

(l) "Purchase price" means the entire legal consideration paid or payable upon or on account of the sale of property, exclusive of acquisition costs, or for the cost of materials and labor to be applied thereto.

(m) "Reasonable value" means that figure which represents the amount a reputable and qualified appraiser, unaffected by personal interest, bias, or prejudice, would recommend to a prospective purchaser as proper price or cost in the light of prevailing conditions.

(n) "Repairs" means any alteration of existing realty which is necessary or advisable for protective, safety, or restorative purposes.

(o) "Veterans' Administration" means the Administrator of Veterans' Affairs, or any employee of the Veterans' Administration authorized by him to act in his stead.

§ 36.4502 *Use of guaranty entitlement.* Fifty percent of the loan, or $4,000, whichever is less, will be charged to the entitlement of the veteran to whom a direct loan is made. Any remaining entitlement will be available for the veteran's use in connection with subsequent loans, if any, reported to the Veterans' Administration for guaranty or insurance.

§ 36.4503 *Amount and amortization.* (a) The original principal amount of any loan shall not be in excess of $10,000. This limitation shall not preclude the making of advances, otherwise proper, subsequent to the making of the loan pursuant to the provisions of § 36.4511. Loans made by Veterans' Administration shall bear interest at the rate of 4 percent per annum.

(b) Each loan shall be repayable on the basis of approximately equal monthly installments.

(c) The first installment payment on a construction loan or a loan for the improvement of a farmhouse may be postponed for a period not exceeding 12 months from the date of the loan instruments. The first installment payment for a loan for the purchase of a home may not be postponed more than 60 days from the date of loan closing.

(d) The final installment on any loan shall not be in excess of two times the average of the preceding installments, except that on a construction loan the final installment may be for an amount not in excess of 5 percent of the original principal amount of the loan. The limitations imposed by this paragraph on the amount of the final installment shall not apply in the case of any loan extended or recast pursuant to §§ 36.4505 or 36.4506.

§ 36.4504 *Loan closing expenses.* (a) Veterans' Administration will designate a loan closer to represent Veterans' Administration at the closing and in advance thereof will agree with him upon the fee to be paid by the Veterans' Administration for preparing the loan closing instruments and attending at the closing of the loan. The loan closer as such is neither an agent nor employee of the Veterans' Administration.

(b) Except as provided in paragraph (a) of this section, any costs or expenses entailed in closing a loan or financing a purchase and normally paid by a purchaser or lienor incident to loan closing shall be paid by the veteran-borrower and may not be paid out of the proceeds of the loan. No service or brokerage fee shall be charged against the veteran borrower for procuring the loan or in connection therewith.

(c) Any commission or other consideration paid or payable by the veteran to a sales broker or another, as agent of the veteran or otherwise, shall not be considered as acquisition or closing costs but shall be treated as part of the purchase price for the purpose of determining that the purchase price of the property is not in excess of the reasonable value. No such commission or consideration may be paid out of the proceeds of the loan.

(d) No application for a loan to purchase a dwelling not previously occupied will be approved by Veterans' Administration unless it is furnished a certification either (1) by the builder that he has not paid and will not pay any charges or fees in excess of those allowed in the applicable schedule approved by Veterans' Administration, or (2) by the lender which made the construction loan, that it has not imposed and will not impose charges in relation to the construction of such dwelling which are in excess of those allowed in said schedule.

(e) The veteran will be required to make a payment equivalent to 5 percent of the purchase price of the property or the cost of construction. The expenses paid by the veteran pursuant to paragraph (b) of this section for closing the loan may be deducted from the required down payment. With respect to construction loans the fair market value of the lot, if owned by the veteran, may be considered pro tanto as satisfying the down payment requirement: *Provided*, That in connection with such loans the veteran, in addition to the required down payment, will deposit with Veterans' Administration or in an escrow satisfactory to Veterans' Administration 10 percent of the estimated cost of construction or such alternative sum, in cash or its equivalent, as Veterans' Administration may determine to be necessary in order to afford adequate assurance that sufficient funds will be available, from the proceeds of the loan or from other

sources, to assure completion of the construction in accordance with the plans and specifications upon which Veterans' Administration based its loan commitment.

§ 36.4505 *Maturity of loan.* The maturity of a loan shall not exceed 20 years from the date of the loan, except that:

(a) If Veterans' Administration determines that the income and expenses of a veteran applicant at the time of his application for a loan, or at the time of closing of the loan, are such that under customary credit standards he would be unable to maintain the required schedule of amortized payments for a loan which matures in 20 years, but taking into consideration the veteran's current and prospective income and expenses he would be able to make the payments on the loan if amortized over a longer period of time, the loan may be made with a maturity for such longer period of time but not in excess of 30 years: *Provided*, That in no event will the maturity exceed the estimated economic life of the property securing the loan.

(b) At any time more than 6 months subsequent to the date of a loan which has a maturity of less than 30 years, if there be no existing default, Veterans' Administration shall upon the written request of the veteran borrower review the current income status of such borrower and if it is found that he is unable to maintain the existing schedule of required payments, the maturity will be extended and the loan reamortized over such longer period as may conform with the veteran's indicated ability to pay, not to exceed a maturity of 30 years from the date of the loan.

§ 36.4506 *Recasting.* In the event of default, or to avoid imminent default, Veterans' Administration may at any time enter into an agreement with the borrower which will permit the latter temporarily to repay his obligation on a basic appropriate to his apparent current ability to pay, or may enter into an appropriate recasting or extension agreement: *Provided*, That no such agreement shall extend the ultimate repayment of a loan beyond the expiration of 30 years from the date of the loan, or 40 years in the case of a loan for the construction or improvement of a farmhouse.

§ 36.4507 *Refunding of outstanding indebtedness.* Advances made by the veteran applicant, or obligations incurred by him, incident to the purchase, construction, or improvement of the property which is to be financed further through the direct loan may be reimbursed to him or paid for him out of the proceeds of such loan: *Provided:*

(a) The proceeds of such indebtedness were actually paid out in full, or the last expenditure by the veteran occurred within 60 days prior to the date of his application, or

(b) The obligation represents the balance due for the purchase of land on which new construction is to be financed through the proceeds of the loan, or

(c) The loan is for the purpose of completing construction of a dwelling, or

(d) That with respect to the construction or improvement of a farmhouse a portion of the proceeds may be used to obtain the discharge or release of any liens on the site for such home or farmhouse.

§ 36.4508 *Transfer of property by borrower.* Veterans' Administration shall not include in the loan contract any provisions which will impede the right of a veteran to convey, transfer, or otherwise alienate whatever right or title he may have in the property purchased or constructed with the aid of the proceeds of a direct loan, except that Veterans' Administration may include in the loan instruments such provisions as may be deemed necessary for the protection of the security and the Federal Government.

§ 36.4509 *Joint loans.* (a) No loan will be made unless an eligible veteran is the sole principal obligor, or such veteran and his spouse are the principal obligors thereon, nor unless such veteran alone, or he and his spouse, acquire the entire fee simple or other permissible estate in the realty for the acquisition of which the loan was obtained. Nothing in this section shall preclude other parties from becoming liable as comaker, endorser, guarantor, or surety.

(b) Notwithstanding that an applicant and his spouse both be eligible veterans and will be jointly and severally liable as borrowers the original principal amount of the loan may not exceed $10,000.

§ 36.4510 *Prepayment, acceleration and liquidation.* (a) Any credit on the loan not previously applied in satisfaction of matured installments, other than the gratuity credit required by section 512 (c) of the act to be credited to principal, may be reapplied by Veterans' Administration at the request of the borrower for the purpose of curing or preventing a default.

(b) Veterans' Administration shall include in the instruments evidencing or securing the indebtedness provisions relating to the following:

(1) The right of the borrower to prepay at any time without premium or fee, the entire indebtedness or any part thereof: *Provided*, That any such prepayment, other than payment in full, may not be made in any amount less than the amount of one installment, or $100, whichever is less: *And provided further*, That any prepayment made on other than an installment due date will not be credited until the next following installment due date.

(2) The right of Veterans' Administration to accelerate the maturity of the entire indebtedness in the event of default.

(3) The right of Veterans' Administration to foreclose or otherwise proceed to liquidate or acquire property which is the security for the loan in the event of the borrower's delinquency in the repayment of his obligation or in the event of his default in any other provisions of the loan contract.

(c) Veterans' Administration shall have the right to accelerate the entire indebtedness and to foreclose or otherwise proceed to liquidate, or acquire the security for the loan, in the event the veteran is adjudged a bankrupt, or if the property has been abandoned by the borrower or subjected to waste or hazard, or in the event conditions exist which warrant the appointment of a receiver by court.

(d) If, subsequent to the closing of the loan, title to the property which is security for such loan is restricted against sale or occupancy on the ground of race, color, or creed, by restrictions created and filed of record by the borrower, such action, at the election of Veterans' Administration, shall constitute an event of default entitling Veterans' Administration to declare the unpaid balance of the loan immediately due and payable.

§ 36.4511 *Advances after loan closing.* (a) The Veterans' Administration may at any time advance any sum or sums as are reasonably necessary and proper for the maintenance, repair, alteration, or improvement of the security for a loan or for the payment of taxes, assessments, ground or water rights, or casualty insurance thereon: *Provided*, That no advance shall be made for alterations or improvements which are not necessary for the maintenance or repair of the security if such advance will increase the indebtedness to an amount in excess of $10,000.

(b) All sums disbursed incident to the making of advances under this section shall be added to the indebtedness. Veterans' Administration may require any such advances to be secured ratably and on a parity with the principal indebtedness, or otherwise secured. The sum so advanced shall be evidenced by a supplemental note or otherwise as may be required by Veterans' Administration.

(c) Veterans' Administration may pay and charge against the indebtedness, or against the proceeds of the sale of any security therefor, any expense which is reasonably necessary for collection of the debt, protection, repossession, preservation, or liquidation of the security or of the lien thereon, including a reasonable amount for trustees' and legal fees.

§ 36.4512 *Taxes and insurance.* (a) In addition to the monthly installment payments of principal and interest payable under the terms of the loan agreement, the borrower will be required to make payments monthly to Veterans' Administration in such amounts as may be determined by Veterans' Administration from time to time to be necessary for the purpose of accumulating funds sufficient for the payment of taxes and assesments, ground rents, insurance premiums, and similar levies or charges on the security property.

(b) The borrower shall maintain insurance against fire and such other hazards as may be required by Veterans' Administration, in such type or types and in such amounts as may be satisfactory to Veterans' Administration, covering the improvements then or thereafter on the property securing the loan. Such insurance shall be carried with a company or companies satisfactory to Veterans' Administration and the policies and renewals thereof shall be held in the possession of Veterans' Administration and have attached thereto a mortgagee loss payable clause in favor of and in

form satisfactory to Veterans' Administration.

(c) The borrower at loan closing shall pay in cash to Veterans' Administration such sum as it estimates may be necessary as the initial deposit to the borrower's tax and insurance reserve account.

§ 36.4513 *Foreclosure and liquidation.* In the event of a foreclosure sale or other liquidation of the security for a loan, Veterans' Administration shall credit upon the indebtedness the greater of:

(a) The net proceeds of the sale, or

(b) The current market value of the property as determined by Veterans' Administration, less the costs and expenses of liquidation. In no event shall the credit pursuant to this paragraph exceed the amount of the gross indebtedness, nor shall such credit be less than the amount legally required to be credited to the indebtedness under local law.

§ 36.4514 *Eligibility requirements.* Prior to making a loan, or a commitment therefor, Veterans' Administration shall determine that:

(a) The applicant is an eligible veteran.

(b) The applicant has full capacity under local law to enter into binding contracts.

(c) The applicant has not heretofore availed himself of any part of his guaranty entitlement except as to entitlement excluded by Veterans' Administration pursuant to section 500 (a) of the act.

(d) The applicant is a satisfactory credit risk and has an ability to repay the obligation proposed to be incurred by him and that the proposed monthly payments on such obligation bear a proper relationship to his present and anticipated income and expenses.

(e) Private capital is not available in the area at an interest rate not in excess of 4 percent per annum for the purpose for which the loan is proposed to be made.

(f) The applicant is unable to obtain a loan for such purpose from the Secretary of Agriculture, under the Bankhead-Jones Farm Tenant Act, as amended, or under the Housing Act of 1949.

§ 36.4515 *Estate of veteran in real property.* (a) The estate in the realty acquired by the veteran, wholly or partly with the proceeds of a loan hereunder, or owned by him and on which improvements on a farmhouse are to be financed by such loan, shall be not less than:

(1) A fee simple estate therein, legal or equitable; or

(2) A leasehold estate running or renewable at the option of the lessee for a period of not less than 14 years from the maturity of the loan, or to any earlier date at which the fee simple title will vest in the lessee, which is assignable or transferrable, if the same be subjected to the lien; or

(3) A life estate, provided that the remainder and reversionary interests are subjected to the lien. The title to such estate shall be such as is acceptable to informed buyers, title companies, and attorneys, generally, in the community in which the property is situated, except as modified by paragraph (b) of this section.

(b) Any such property or estate will not fail to comply with the requirements in paragraph (a) of this section by reason of the following:

(1) Encroachments.
(2) Easements.
(3) Servitudes.
(4) Reservations for water, timber, or subsurface rights.
(5) Right in any grantor or co-tenant in the chain of title, or a successor of either, to purchase for cash, which right by the terms thereof is exercisable only if
(i) An owner elects to sell,
(ii) The option price is not less than the price at which the then owner is willing to sell to another, and
(iii) Exercised within 30 days after notice is mailed by registered mail to the address of optionee last known to then owner, of the then owner's election to sell, stating his price and the identity of the proposed vendee.
(6) Building and use restrictions whether or not enforceable by a reverter clause if there has been no breach of the conditions affording a right to an exercise of the reverter.
(7) Any other covenant, condition, restriction, or limitation approved by Veterans' Administration in the particular case. The limitations on the quantum or quality of the estate or property that are indicated in this paragraph, insofar as they may materially affect the value of the property for the purpose for which it is used, shall be taken into account in the appraisal of reasonable value.

(c) No loan will be made if the title to the real property or a leasehold interest therein, which is to be security for a loan, is restricted against sale or occupancy on the ground of race, color, or creed, by restrictions created and filed of record subsequent to February 15, 1950.

§ 36.4516 *Lien requirements.* (a) Loans for the purchase or construction of a dwelling or for the construction or improvement of a farmhouse shall be secured by a first lien on the property or estate. Veterans' Administration may except any loan for the construction or improvement of a farmhouse from the first lien requirement hereof.

(b) Tax or special assessment liens or ground rents not due and payable on the date of loan closing shall be disregarded with respect to any requirement that loans shall be secured by a lien of specified dignity.

§ 36.4517 *Incorporation by reference.* The regulations concerning direct loans to veterans in effect on the date a loan is closed shall govern the rights, duties, and liabilities of the parties to such loan during the period Veterans' Administration is the holder thereof, and any provisions of the loan instruments inconsistent with such regulations are hereby amended and supplemented to conform thereto.

§ 36.4518 *Supplementary administrative action.* Notwithstanding any requirement, condition, or limitation stated in or imposed by the regulations in this part concerning direct loans to veterans, the Administrator, within the limitations and conditions prescribed in the act, may take such action as may be necessary or appropriate to relieve any undue prejudice to a debtor, or other person, which might otherwise result, provided such action shall not impair the vested rights of any person affected thereby. If such requirement, condition, or limitation is of an administrative or procedural nature, such action may be taken by any employee authorized to act under § 36.4520.

§ 36.4519 *Reasonable value requirements.* (a) A loan may be made only when the proceeds thereof will be expended for property, construction, or improvements, the purchase price or cost of which is not in excess of the reasonable value of the same as determined by a proper appraisal made by an appraiser designated by Veterans' Administration.

(b) If any portion of the proceeds of a loan for the construction and improvement of a farmhouse are used for the purpose of obtaining a release of the home site, the amount paid for the release shall not exceed the reasonable value of the property so released and the loan shall not exceed the reasonable value of the property as improved. If the first lien requirement is waived by Veterans' Administration with respect to any loan for construction or improvement of a farmhouse, the loan plus the amount of the prior lien shall not exceed the reasonable value of the property as improved.

§ 36.4520 *Delegation of authority.* (a) Except as hereinafter provided each employee of the Veterans' Administration heretofore or hereafter appointed to, or otherwise lawfully filling, any position designated in paragraph (b) of this section is hereby delegated authority, within the limitations and conditions prescribed by law, to exercise the powers and functions of the Administrator with respect to the making of loans and the rights and liabilities arising therefrom, including but not limited to the collection or compromise of amounts due, in money or other property, the extension, rearrangement, or sale of loans, the management and disposition of secured or unsecured notes and other property. Incidental to the exercise and performance of the powers and functions hereby delegated each such employee is authorized to execute and deliver (with or without acknowledgment) for, and on behalf of, the Administrator evidence of guaranty and such certificates, forms, conveyances, and other instruments as may be appropriate in connection with the acquisition, ownership, management, sale, transfer, assignment, encumbrance, rental, or other disposition of real or personal property or of any right, title, or interest therein, including, but not limited to, contracts of sale, installment contracts, deeds, leases, bills of sale, assignments, and releases; and to approve disbursements to be made for any purpose authorized by title III of the act.

(b) Designated positions:

Assistant Administrator for Finance.
Director, Loan Guaranty Service.
Assistant Director, Loan Guaranty Service.
Division Chief, Loan Guaranty Service.
Assistant Division Chief, Loan Guaranty Service.
Loan Guaranty Officer.
Assistant Loan Guaranty Officer.

(c) Nothing in this section shall be construed (1) to authorize any such employee to exercise the authority vested in the Administrator under section 504 or section 508 (b) of the act or to sue or enter appearance for and on behalf of the Administrator or confess judgment against him in any court without his prior authorization.

§ 36.4521 *Minimum construction requirements.* No loan shall be made for the purchase or construction of residential property on which construction was begun after June 19, 1950, unless Veterans' Administration determines that the property conforms to the applicable minimum construction requirements prescribed by Veterans' Administration for the area in which the property is situated.

§ 36.4522 *Waivers, consents and approvals.* No waiver, consent, or approval required or authorized by the regulations concerning direct loans to veterans shall be valid unless in writing signed by Veterans' Administration.

§ 36.4523 *Geographical limits.* Any real property purchased, constructed, or improved with the proceeds of a loan under section 512 of the act shall be situated in the United States, defined in the act as the several States, Territories and possessions, and the District of Columbia: *Provided*, That no loan shall be made pursuant to section 512 unless the real property is located in one of the areas designated from time to time by Veterans' Administration as an area in which private capital is not available under title III of the act to eligible veterans for financing of the purchase or construction of dwellings, or the construction or improvement of farmhouses, as the case may be.

§ 36.4524 *Sale of loans.* In the event a direct loan is purchased from Veterans' Administration at any time pursuant to the provisions of section 512 (d) of the act, Veterans' Administration may issue a guaranty in connection therewith within the maxima contained in section 500 (a) of the act on the same basis as to percentage and amount as if the loan had been automatically guaranteed when made, and such loan shall thereafter be subject to the applicable provisions of the regulations governing the guaranty or insurance of loans to veterans, and such part of the regulations concerning direct loans to veterans as may be inconsistent therewith or variant therefrom shall no longer govern the subsequent disposition of the rights and liabilities of any interested parties.

These regulations effective September 20, 1950.

[SEAL] O. W. CLARK,
Deputy Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR, Part 16]

CONVERSION OF CURRENCY

INSTRUCTIONS IN CASES WHERE MULTIPLE RATES OF EXCHANGE ARE CERTIFIED BY FEDERAL RESERVE BANK OF NEW YORK

Notice is hereby given that, pursuant to section 251 of the Revised Statutes and sections 522 and 624 of the Tariff Act of 1930 (19 U. S. C. 66, 31 U. S. C. 372, 19 U. S. C. 1624), it is proposed to amend the instructions contained in § 16.4 of the Customs Regulations of 1943 (19 CFR 16.4) for the conversion for customs purposes of foreign currencies for which multiple rates of exchange are certified by the Federal Reserve Bank of New York, the terms of which proposed amendments, in tentative form, are as follows

The United States Customs Court in its opinions in United States v. Gothic Watch Co. (1949), Reap. Dec. 7712, and Gruen Watch Co. v. United States (1950), C. D. 1216, has indicated that the use of multiple rates by a foreign country and certification of such multiple rates by the Federal Reserve Bank of New York does not result in different classes of such foreign currency for customs purposes. It has been determined that an amendment of § 16.4 of the Customs Regulations of 1943 (19 CFR 16.4) is necessary to reflect the opinion expressed by the Customs Court in these cases.

Accordingly, § 16.4 (d), Customs Regulations of 1943 (19 CFR 16.4 (d)), as amended, is hereby further amended as follows:

1. Subparagraphs (2) and (3) are amended to read as follows:

(2) Whenever appraisement is made in a multiple-rate currency, or the use of rates of exchange for a multiple-rate currency has been necessary in connection with the determination whether the foreign or export value is the higher, or the use of rates for a multiple-rate currency appears involved in any other manner in the process of appraisement or liquidation, the appraiser shall include in his report to the collector an advisory statement of his views as to what type of certified rate or combination of types of certified rates is applicable to the merchandise involved. If there is disagreement, which cannot be resolved locally, between the collector and appraiser as to what type of certified rate or combination of types of certified rates is applicable in a particular case, a detailed report shall be submitted to the Bureau so that appropriate instructions may be issued.

(3) For all purposes of appraisement and assessment of duties, the type of rate used for any value expressed in a currency for which two or more rates have been certified shall be the type of certified rate, designated by the Federal Reserve Bank of New York, which the appraiser or collector is satisfied, from information in his own files, information obtained and presented to him by the importer, or information obtained from other sources, is uniformly applicable under the laws and regulations of the country of exportation to the particular class of commodity on the date of exportation. In cases where two or more types of certified rates are uniformly applicable on a percentage basis, each type of certified rate shall be used for the percentage of the value to which it is applicable. The percentages used shall be those which reflect realistically the percentage for which each type of rate is uniformly applicable under the laws and regulations of the country of exportation on the date of exportation.

2. Subparagraph (4) is amended by inserting "type of" before "rate" and "types of" before "rates".

3. Subparagraph (5) is amended by inserting "type of" before "rate" and "types of" before "rates" in the first sentence; and by inserting "type of" before "rate" in each place where the latter word occurs in the second sentence.

(R. S. 251, secs. 505, 624, 46 Stat. 732, 759, sec. 522, 46 Stat. 739; 19 U. S. C. 66, 1505, 1624, 31 U. S. C. 372)

This notice is published pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). Prior to the issuance of the proposed amendments, consideration will be given to any relevant data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., and received not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] D. B. STRUEINGER,
Acting Commissioner of Customs.

Approved: September 14, 1950.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 961]

[Docket No. AO–160 A 12]

HANDLING OF MILK IN PHILADELPHIA, PA., MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Philadelphia, Pennsylvania, on August 29 and 31, 1950, pursuant to notice thereof which was issued on August 18, 1950 (15 F. R. 5513) and on August 25, 1950 (15 F. R. 5709).

The material issues of record related to:

1. The price to be paid producers for Class I milk during the months of October 1950 through March 1951.

2. Price adjustments applicable to Class I products containing: (a) More than 6 percent butterfat but less than 18 percent butterfat; and (b) less than 3 percent butterfat.

3. The emergency character of the need for action on the Class I price, including adjustments relating to butterfat differentials.

1. *Class I price.* The price for Class I milk received from producers during the months of October, November, and December, 1950, should be $5.84 per hundredweight, and during January, February, and March, 1951, $5.44 per hundredweight for milk testing 4.0 percent butterfat delivered in the City of Philadelphia.

Producers proposed that the price for Class I milk during October, November, and December, 1950, should be $5.84 per hundredweight. The proposed increase of 60 cents per hundredweight over the price in the third calendar quarter was described as made up of the customary 40 cents seasonal increase and a 20-cent increase in the basic annual level.

The supply of milk in the supply area of Philadelphia market has in recent months been ample. Estimated milk production in the State of Pennsylvania during July 1950 was about 3 percent over production in July 1949. Milk received from Philadelphia producers in July this year was about 2 percent less than last year. This decrease in producer milk resulted from a reduction in number of producers, inasmuch as production per dairy was somewhat higher than a year ago.

Although the supply of milk in recent months has been ample, there are some indications of the likelihood of a lower rate of milk production in this area during fall months of this year than last year. During the first four months of 1950 the milk produced per herd was considerably in excess of a year earlier, but the most recent data indicate a somewhat lower rate of production in August this year than in August of 1949. Estimated number of milk cows in the State of Pennsylvania in July was about 1 percent under a year earlier. The currently higher cost of supplies used in the production of milk would tend to retard milk production.

The cost to farmers in the supply area of mixed dairy feed has increased about 9 percent over a year ago. Costs of other commodities purchased by farmers for use in production of milk have also increased considerably over a year ago. The reported cost of farm labor on July 1 was about the same as last year.

The relationship of milk and beef prices may affect milk production in this area considerably, since dairy farmers can use their resources for the production of beef. Data in the record shows that the Philadelphia Class I price has in recent months been lower in relation to the price of beef cattle than is usual in recent years. Attractive prices for cattle sold as beef tend to induce dairy farmers to market their poorer milk cows which they might otherwise maintain in their herds. In this connection it is noted that milk cow numbers in Pennsylvania, which had shown a rising trend throughout 1949 and early 1950, have in recent months declined.

Examination of changes during the latest 12 months in cost of purchased dairy feed shows that most of the increase has occurred since April. The hearing upon which the current Class I price level was determined was held in April and early May. It is noted that some decline occurred in the wholesale prices of dairy feeds in early August, but the latest data in the record indicate a level considerably over a year ago.

About half of the increase during the July 1949–July 1950 period in cost of other commodities purchased by farmers for use in milk production also occurred since April this year. Estimated milk cow numbers in July were about 2 percent less than in April.

Sales of Class I milk in the marketing area during the first seven months of 1950 averaged about the same as in 1949. July Class I sales were about 2.4 percent less than in July 1949. Estimated total employment in the Philadelphia area is somewhat higher than a year ago, and weekly earnings are up about 4 percent.

Estimates of the New York order Class I–A prices for the months of October, November and December this year based upon the formula used in establishing that price, indicate the price will average about 50 cents higher than in 1949. The price proposed by Philadelphia producers for these months would be approximately the same as the price a year earlier. Within the 51–60-mile zone of Philadelphia, the Philadelphia Class I price for milk testing 3.7 percent fat would be about 48 cents lower than the New York Class I–A price. Although the price of $5.84 for Class I milk during October, November, and December proposed by producers would be approximately the same as the price during the same months of 1949, it represents a basic annual level 20 cents per hundredweight higher than the current level. It is concluded that Class I price level should be adjusted upwards by 20 cents, and that the usual seasonal increase in the last calendar quarter should be carried out, thus resulting in a price of $5.84 for Class I milk in these months. The price for January, February, and March 1951 should be 40 cents per hundredweight less, to carry out the usual seasonal adjustment.

2. *Skim value and fat value adjustment.* There should be no change from the 5-cent butterfat differential as to regular Class I milk, but on items of fluid disposition containing less than 3.0 percent butterfat or more than 6.0 percent butterfat the Class II cream value differential should apply.

The record shows several Class I items sold by handlers carrying less than 3.0 percent of butterfat, such as chocolate drink, skim milk, fat free milk and others, and smaller quantities of items with a fat content above 6 percent. Prior to the July amendment when the cream value butterfat differential applied to Class I there was a residual skim value of milk which varied inversely with the butterfat value. The July cost of fat free milk in Class I increased 92 cents by reason of the change from the cream value differential to the fixed 5-cent differential. Handlers testified that such a disproportionate increase for items below 3.0 percent would sharply reduce the outlet for fresh milk in such items. The Class II differential has hovered close to 7.0 cents per point for twelve months. The differential was 7.3 cents in July, the most recent month in the record, which is about the midpoint value for the twelve months. The amount of the butterfat differential is of no concern to the handler whose weighted average test of all Class I milk is 4.0 percent. The average test of principal items of Class I sale is about 3.7 percent. Both producers and handlers advised against any change in Class I milk definition, but desired to remove the present relatively high cost of skim milk in low fat items and the relative low cost of fat in high fat items. The range of 3.0 to 6.0 percent would seem to cover the extremes to which any bottled natural milk might go even by accident.

3. *Need for emergency action.* The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Assistant Administrator, Production and Marketing Administration, and exceptions thereto.

The emergency nature of the conditions with which this decision deals is due to the fact that on October 1 the price established by the order would drop from $5.24 to $5.16 at a time when the regular seasonal increase should occur. Inasmuch as the price which would result if this amendment were not effective would be obviously inconsistent with marketing conditions, it is necessary that this amendment be made effective by October 1, 1950, in order to establish and maintain such orderly marketing conditions as will effectuate the policy of the act on and after that date. To make the amendment effective on October 1, 1950, requires the omission of the recommended decision and the period for exceptions thereto because of insufficient time for such procedure. The proposed change relative to the butterfat differential as applied to certain Class I products is also urgently needed at the earliest possible date to correct the distortion of values of these products which may result from present provisions of the order.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area and the minimum prices specified in the proposed marketing agreement and in the order, as amended and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producer and handler organizations. The briefs contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Determination of representative period. The month of August 1950 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Philadelphia, Pennsylvania, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Philadelphia, Pennsylvania, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 14th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Philadelphia, Pennsylvania, Marketing Area

§ 961.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for milk in the said marketing area and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Philadelphia, Pennsylvania, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 961.4 (a) delete subparagraph (1) and substitute:

(1) *Class I milk.* $5.84 per hundredweight for milk received from producers during the months October, November and December, 1950, and $5.44 per hundredweight for milk received during the months of January, February, and March 1951.

2. In § 961.4 (b) (1) change the period to a colon and add the following: "*Provided*, That in case of Class I items containing less than 3.0 percent butterfat or more than 6.0 percent butterfat, the rate of differential prescribed in subparagraph (2) of this paragraph based on cream quotations shall apply."

[F. R. Doc. 50–8209; Filed, Sept. 19, 1950; 8:47 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 3]

TELEVISION BROADCAST SERVICE

ORDER ACCEPTING ENGINEERING STATEMENT AS COMMENT

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations, and engineering standards concerning the television broadcast service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 6th day of September 1950;

The Commission having under consideration the petition filed August 9, 1950, by Michigan State College requesting permission to file a late comment in above-entitled proceedings proposing that Channel 10 be allocated to Lansing, Michigan; and

It appearing, that good and sufficient reason has been advanced in said petition for the delay in the filing thereof; and that the hearing date for consideration of the proposed allocations has not yet been announced;

It is ordered, That the petition of Michigan State College is granted; that the petition and attached supporting engineering statement are accepted as a comment in the above-entitled proceeding; and that interested parties may file oppositions thereto within 10 days from the date of this order.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8222; Filed, Sept. 19, 1950; 8:50 a. m.]

[47 CFR, Part 3]

[Docket Nos. 8736, 8975, 8976, 9175]

TELEVISION BROADCAST SERVICE

FURTHER NOTICE OF PROPOSED RULE MAKING

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and engineering standards concerning the television broadcast service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

Sixth notice of amendment of notice of further proposed rule making and notice of issuance of volume II of the report of Ad Hoc Committee.

1. On June 8, 1949, the Commission issued a "Notice of Issuance of Report of Ad Hoc Committee" (FCC 49-773). That notice dealt with Volume I of said Committee's report and with Reference Reports C to H, inclusive. Volume I, upon which the Commission relied in the preparation of its "Notice of Further Proposed Rule Making" (FCC 49-948) issued herein on July 11, 1949, did not provide a basis for a proposed method of evaluating broadcast service in the presence of multiple sources of interference and consequently said notice contained no proposal with respect to this issue.

2. Notice is hereby given of the issuance by the Ad Hoc Committee of Volume II of its report together with the following references:

Reference I—Report No. 748, "Report on Interference Caused by More Than One Signal", by Raymond M. Wilmotte.

Reference J—FCC TID Report 4.2.3, "Combination of Several Interfering Signals in the VHF Range", by Harry Fine.

Reference K—Unpublished Report, "The Effect on Television Service of Transmitting Antenna Height, Radiated Power, the Use of Off-Set or Synchronized Co-Channel Carriers, and of Correlation Among the Radio Fields Received from Several Transmitters", by Harold Staras.

Reference L—FCC TRR Report 4.2.4, "An Abbreviated Method for Calculating Multiple Interference", by Harry Fine.

Reference M—Unpublished Report, "A Statistical Analysis of Multiple Radio Interference to Television Service", by Harold Staras and Marvin Blum.

The above report deals with a description of a broadcast service in somewhat more detail than the treatment given in Volume I of the Report, and, in addition, describes four methods of evaluating broadcast service in the presence of multiple sources of interference. Condensations of the portions of the references which are pertinent to the description of the four methods have been attached as Appendices to Volume II.

3. Copies of Volume II and associated references have been filed in the docket of the above-entitled proceedings and are available for inspection by interested parties. Copies of Volume II and References I, J and L are available for public distribution while References K and M are not available for such distribution. It should be pointed out that the above Volume II and associated references are highly technical in nature and are somewhat voluminous. The material available for distribution has been reproduced in sufficient quantity to permit distribution to all interested persons, and in particular to those parties who expect to participate in the further proceedings to be conducted herein. Accordingly, copies of Volume II, and of the available references if desired, may be obtained at the Commission's Office of Information or by addressing a request therefor to the Secretary, Federal Communications Commission, Washington 25, D. C.

4. The above "Notice of Further Proposed Rule Making" (FCC 49-948) is hereby amended so that new paragraph IV is added to Appendix B, reading as follows:

IV. *Multiple sources of interference.* The foregoing specifications for the determination of station separations and service radii for the various grades of service do not include the effects of multiple sources of interference. Accordingly, the Commission will consider evidence at the hearing to be held herein concerning the effects of multiple sources of interference (as, for example, interference resulting from ignition, diathermy, oscillators of other television receivers, receiver noise, and one or more co-channel or adjacent channel television stations) on television broadcast service and, in particular, the effects of such interference on the specification of the grades of service set forth in paragraph III-B of Appendix A herein.

5. The Appendix in the Commission's "Fifth Notice of Amendment, etc." (FCC 50-1066) issued on September 1, 1950, is amended so that the following issue shall be listed after issue "A": "Appendix B of Notice of Further Proposed Rule Making (FCC 49-948)".

6. Interested persons (including all parties herein) desiring to submit evidence concerning new paragraph IV to Appendix B as set forth above may do so by filing a letter with the Commission not later than September 26, 1950, indicating their intention to offer such evidence. Persons who so file will be permitted to testify at the hearing herein scheduled to commence at 10 a. m. on October 2, 1950, in the U. S. Department of Commerce Auditorium, 14th Street between E Street and Constitution Avenue NW., Washington, D. C.

Adopted: September 13, 1950.

Released: September 14, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 50-8223; Filed, Sept. 19, 1950; 8:50 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 54652]

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LAND

SEPTEMBER 14, 1950.

In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934, (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

GILA AND SALT RIVER MERIDIAN

T. 9 S., R. 1 W.,
Sec. 16, S½,
T. 7 S., R. 4 W.,
Sec. 2, lots 3 and 4, S½NW¼, E½SE¼,
Sec. 36, NW¼, N½SW¼, SW¼SW¼,
T. 9 S., R. 6 W.,
Sec. 36, SE¼SE¼,
T. 8 S., R. 10 W.,
Sec. 36, S½SE¼, NE¼SE¼,
T. 10 N., R. 10 W.,
Sec. 2, lot 4,
Sec. 16, SE¼,
Sec. 32, N½,
T. 4 S., R. 15 W.,
Sec. 2, S½SE¼,
T. 23 N., R. 17 W.,
Sec. 2, SE¼,
Sec. 16,
T. 7 S., R. 1 E.,
Sec. 36, N½, W½SW¼, NE¼SW¼,
T. 8 S., R. 1 E.,
Sec. 2, 16, 32 and 36,
T. 13 S., R. 28 E.,
Sec. 29, N½SE¼, SW¼SE¼,
T. 10 S., R. 31 E.,
Sec. 36, N½NE¼, SW¼NE¼, SE¼SW¼.

The areas described aggregate 5,666.37 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

[SEAL] WILLIAM ZIMMERMAN, JR.,
Assistant Director.

[F. R. Doc. 50-8194; Filed, Sept. 19, 1950; 8:45 a. m.]

[Misc. 55181]

NEVADA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 14, 1950.

In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 42 N., R. 19 E.,
Sec. 2, SE¼;
Sec. 3, N½NW¼, NW¼NE¼.
T. 14 N., R. 25 E.,
Sec. 33, NW¼NE¼.
T. 37 N., R. 62 E.,
Sec. 16, N½NW¼.
T. 16 N., R. 63 E.,
Sec. 24, W½NW¼.
T. 17 S., R. 67 E.,
Sec. 19, E½SE¼.

The areas described aggregate 568.26 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Reno, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Reno, Nevada.

[SEAL] WILLIAM ZIMMERMAN, JR.,
Assistant Director.

DEPARTMENT OF DEFENSE

Department of the Army

[General Order No. 1]

OPERATION OF RAILROADS

1. *Regional administration.* In order to effectuate the purposes of Executive Order No. 10155 and to provide for the orderly administration, supervision and direction of the transportation systems, possession, control and operation of which have been or hereafter may be taken and assumed in accordance with the terms thereof, seven Regions have been created and established and are hereby confirmed to embrace and include all the real and personal property and other assets used or useful in connection with the operation of the transportation systems of the respective carriers named in Appendix A hereto. At the head of each such Region there shall be a Regional Director, Department of the Army Operation of Railroads, whose name, principal office address and telephone number are also designated in Appendix A hereto, who shall be responsible and report directly to the Chief of Transportation, Department of the Army as Director of Operations. Additionally, and under the jurisdiction of and reporting to the Regional Director in whose Region they are located, subregional offices have been established at Atlanta, Georgia, in the Southern Railway Building, 99 Spring Street SW., Atlanta, Georgia (Southeastern Region), at Houston, Texas, in the Southern Pacific Lines Building, 913 Franklin Avenue, Houston, Texas (Southwestern Region), and at San Francisco, California, in the Southern Pacific Building, 65 Market Street, San Francisco, California (Central Western Region).

2. *Operation of transportation systems by existing management.* The authority and functions of the Managements of the carriers whose transportation systems have been taken under, or may be taken pursuant to the provisions of Executive Order No. 10155 shall be as prescribed in the Executive order, subject to such further orders or regulations as the Secretary of the Army or his authorized delegate, the Assistant Secretary of the Army (GM), may prescribe as therein provided. Any protest against any such order or regulation shall be made to the Assistant Secretary of the Army (GM) through the Chief of Transportation, Department of the Army, as Director of Operations, by the carrier or other person aggrieved, by registered mail or telegram, within fifteen (15) days after the receipt of the particular order or regulation or the publication of such order or regulation in the FEDERAL REGISTER, whichever first occurs. The Chief Executive Officers of the carriers will also report any such protest directly to the Regional Director to whose region their carriers are assigned for administration as indicated in Appendix A.

3. *Suits, attachments and garnishments permitted until further order.* Until further order, carriers will remain subject to suit as heretofore and to the levy of attachments by mesne process, garnishment, execution or otherwise, on or against the property and assets of the carriers, but no receivership, reorganization or similar proceeding affecting any carrier whose transportation system has been, or may hereafter be, taken pursuant to the provisions of Executive Order No. 10155 shall be instituted without the prior written consent of the Chief of Transportation, Department of the Army. Nothing herein shall be deemed to prevent or require approval of any action authorized or required by any interlocutory or final decree of any United States court in reorganization proceedings now pending under the Bankruptcy Act or in any equity receivership cases now pending.

By order of the Assistant Secretary of the Army (GM).

[SEAL] F. A. HEILEMAN,
Major General, U. S. A., Chief of Transportation, Department of the Army, Director of Operations.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

CHIEF OF FOREST SERVICE

DELEGATION OF AUTHORITY TO DETERMINE AND ADVISE DIRECTOR, BUREAU OF LAND MANAGEMENT, WITH RESPECT TO DEVELOPMENT AND UTILIZATION OF MINERAL DEPOSITS

By virtue of the authority vested in the Secretary of Agriculture, I, Charles F. Brannan, Secretary of Agriculture, do hereby delegate to the Chief of the Forest Service the authority to determine and advise the Director, Bureau of Land Management, whether development and utilization of mineral deposits under authority of the Secretary of the Interior pursuant to the act of June 30, 1950 (Public Law 594, 81st Cong., 2d Sess.), may be permitted and to consent to such development and utilization in accordance with the authority vested in the Secretary of Agriculture pursuant to the said act of June 30, 1950, subject to such conditions as the Chief of the Forest Service may prescribe for the protection and management of the lands for the purposes for which they have been reserved or are being administered.

The Chief of the Forest Service may delegate to other officers and employees of the Forest Service such of the authority granted hereunder as he may consider desirable.

(5 U. S. C. 22; Pub. Law 594, 81st Cong.)

Done at Washington, D. C., this 14th day of September 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

DEPARTMENT OF LABOR

Wage and Hour Division

WESTERN UNION TELEGRAPH CO.

APPLICATION FOR PERMISSION TO EMPLOY MESSENGERS AT WAGES LOWER THAN MINIMUM WAGE STANDARD; FINAL DECISION OF THE ADMINISTRATOR

Pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (Sec. 14, 52 Stat. 1068; 29 U. S. C. 214), and § 523.4 of the regulations applicable to the employment of messengers, issued thereunder (29 CFR 523.4) the Western Union Telegraph Company on December 13, 1949, filed an application for authority to employ messengers at a rate lower than the minimum wage applicable under section 6 of the act. After due notice, a public hearing on the Company's application was held on December 22 and 23, 28 to 30, 1949, and January 4, 1950, before a Presiding Officer designated by me. Upon the basis of the record made at the hearing, the Presiding Officer on March 3, 1950, concluded that no showing had been made that it is necessary, in order to prevent curtailment of opportunities for employment, to provide for the employment of messengers in the telegraph industry at a subminimum wage, and recommended that the application be denied.

Notice of the findings and recommendation of the Presiding Officer was published in the FEDERAL REGISTER on March 9, 1950 (15 F. R. 1288) and interested parties were given an opportunity to file exceptions and objections within 15 days. In accordance with the notice, the Western Union Company submitted objections to the Presiding Officer's findings and recommendation and requested oral argument before the Administrator thereon. After due notice to interested parties, oral argument was presented to the Deputy Administrator on June 20, 1950. After reviewing the entire record of the hearing and the arguments presented by the parties both orally and in writing, the Deputy Administrator concurred in the findings and recommendation of the Presiding Officer, and certified the entire record of the proceeding to me.

On the basis of all the evidence adduced in this proceeding and after giving consideration to the provisions of the act, particularly section 14 thereof, and to Part 523 of the regulations issued thereunder, I have concluded that the findings and the recommendation of the Presiding Officer and the Deputy Administrator were made in accordance with law, are supported by the evidence and will carry out the purposes of section 14 of the act.

Accordingly, I hereby adopt the findings and recommendation of the Presiding Officer and of the Deputy Administrator as my own, and the application of the Western Union Telegraph Company for permission to employ messengers at wages lower than the minimum wage applicable under section 6 of the Fair Labor Standards Act of 1938, as amended, is denied.

Signed at Washington, D. C., this 15th day of September 1950.

WM. R. MCCOMB,
Administrator.

FEDERAL POWER COMMISSION

[Docket No. G-1382]

NORTHERN NATURAL GAS CO.

HEARING ORDER AND REVERSING RULINGS OF PRESIDING EXAMINER

SEPTEMBER 12, 1950.

On motion made September 2, 1950, the hearing in the above-entitled matter was recessed by the Presiding Examiner to reconvene on September 18, 1950, at a place to be designated by the Commission.

During the said hearing Northern Natural Gas Company appealed to the Commission under § 1.28 of the rules of practice and procedure certain rulings of the Presiding Examiner, who referred the appeal to the Commission for determination. The rulings in question pertain to the striking and sustaining of objections to evidence concerning estimated costs and revenues of a system capacity designed to transport and sell 600,000,000 cubic feet of natural gas per day.

Upon consideration of the motion and the appeal of Northern Natural Gas Company the Commission concludes that the reconvened hearing should be held

in Omaha, Nebraska, and that the said rulings of the Presiding Examiner as to excluding evidence on the basis of the transportation and sale of 600,000,000 cubic feet daily of natural gas should be reversed.

The Commission orders: The hearing in this matter be reconvened on September 18, 1950, in Omaha, Nebraska, and the aforesaid rulings of the Presiding Examiner be and the same hereby are reversed insofar as such rulings are based on the aforesaid 600,000,000 cubic feet daily system capacity.

Date of Issuance: September 14, 1950.

By the Commission. Acting Chairman Buchanan concurring as to reconvening of hearing in Omaha, but dissenting as to reversal of the rulings of the Presiding Examiner.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50-8196; Filed, Sept. 19, 1950; 8:45 a. m.]

[Docket No. G-1382]

NORTHERN NATURAL GAS CO.

ORDER POSTPONING HEARING

SEPTEMBER 14, 1950.

The Commission having under further consideration the time and place for reconvening the hearing in the above-entitled proceeding now set for September 18, 1950, in Omaha, Nebraska, and as the evidence to be adduced at the reconvened hearing by Northern Natural Gas Company will relate to estimated revenues, expenses and costs applicable to a larger system capacity for the transportation and sale of natural gas than existed at the time of the filing of the suspended rate schedules, further time should be afforded the Commission's staff to make an investigation relating thereto.

The Commission orders: The hearing in this matter now set to reconvene on September 18, 1950, in Omaha, Nebraska, be and it hereby is postponed to commence at 10:00 a. m., on October 23, 1950, in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of Issuance: September 14, 1950.

By the Commission. Acting Chairman Buchanan dissenting for the reason that he favors postponement for a longer period.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50-8197; Filed, Sept. 19, 1950; 8:45 a. m.]

[Docket No. G-1444]

MIDSOUTH GAS CO. AND ARKANSAS POWER AND LIGHT CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 14, 1950.

On July 19, 1950, MidSouth Gas Company (Applicant) an Arkansas Corporation with its principal place of business in Little Rock, Arkansas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the acquisition and operation of certain natural gas facilities subject to the jurisdiction of the Commission, all as more fully described in such application on file with the Commission and open to the public.

Applicant has requested that this application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) for non-contested proceedings, and it appears to be a proper one for disposition under the aforesaid rule, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on August 2, 1950 (15 F. R. 4960-61).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing be held on September 26, 1950, at 9:45 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application; provided, however, that the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of Issuanee: September 14, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 50-8198; Filed, Sept. 19, 1050; 8:45 a. m.]

[Docket No. E-6313]

GULF PUBLIC SERVICE CO., INC.

ORDER TO SHOW CAUSE, DIRECTING SERVICE OF STAFF REPORT, AND SETTING HEARING

SEPTEMBER 12, 1950.

Under the provisions of Electric Plant Accounts Instruction 2-D of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees, effective January 1, 1937, and the Commission's order of May 11, 1937, relating to original cost and reclassification studies, public utilities within the meaning of that term as used in the Federal Power Act were required to complete and file with the Commission reclassification and original cost studies of electric plant not later than two years after the effective date of the system of accounts, namely, January 1, 1939.

On June 27, 1947, the Commission, in authorizing Gulf Public Service Company, Inc. (hereinafter and in the attached staff report sometimes referred to as Gulf Public Service Company) to issue securities found that company to be such a "public utility" (Docket No. IT-6062). The Company did not seek judicial review of the Commission's determination but subsequently refused to file its reclassification and original cost studies, stating that it was not a "public utility". On August 19, 1949, after extended correspondence, the Company filed its studies but refused to grant the Commission's staff access to its books and records for the purpose of reviewing these studies. Following more correspondence and conversations the Company by letter dated January 3, 1950, agreed to accord such access beginning May 15, 1950. Subsequently, it requested that the review of the books and records be deferred until the completion of a field study by the staff to determine whether the Company owns or operates facilities for the transmission and sale at wholesale of electric energy in interstate commerce.

Members of the Commission's staff have recently completed such field examination and have submitted a report entitled "Field Study of Gulf Public Service Company—De Quincy, DeRidder-Leesville District, Crowley-Eunice, Jeanerette-New Iberia and Covington District Systems," which report is herewith served on Gulf Public Service Company.

From the staff's report it appears that the Company may own and operate facilities in each of the above named systems for the transmission or sale at wholesale of electric energy which is generated in the States of Texas or Mississippi and consumed at points outside the State in which it is generated, including facilities which are in addition to, and do not include facilities for the generation of electric energy, facilities used in local distribution, or only for the transmission of electric energy in intrastate commerce, or facilities for the transmission of electric energy consumed wholly by the transmitter. The Company may, therefore, be a public utility within the meaning of that term as used in the Federal Power Act.

The Commission orders:

(A) Gulf Public Service Company shall show cause, if any there be, under oath:

(i) Why the Commission should not find and determine that it is a "public utility" within the meaning of that term as used in the Federal Power Act.

(ii) In the event that Gulf Public Service Company is found to be a "public utility" within the meaning of that term as used in the Federal Power Act, why the Commission should not require it to comply with the provisions of the Federal Power Act, and the general rules and regulations promulgated thereunder, applicable to public utilities.

(B) The Secretary shall serve upon Gulf Public Service Company a copy of the staff's report, referred to above, concurrently with the service of this order.

(C) Gulf Public Service Company shall submit its response to this order and to the above-mentioned report in writing, on or before September 25, 1950.

(D) Gulf Public Service Company's response shall be in the form of an offer of proof; shall set forth with particularity the facts upon which it relies; shall state whether it admits or denies the accuracy of the facts as stated in the report; and shall state upon what facts, if any, or what conclusions, it desires opportunity to introduce evidence and to be heard. Denials of the allegations of this order and of the statements in the staff report which are general and unsupported by specific facts upon which it relies will not be considered as complying with this order.

(E) A public hearing be held in the Commission's Hearing Room, 1800 Pennsylvania Avenue NW., Washington, D. C., commencing at 10:00 a. m. (e. s. t.) on October 4, 1950, with respect to the issues involved in this proceeding.

(F) Interested State commissions may participate in the hearing ordered in paragraph (E), as provided by §§ 1.8 and 1.37 (f) of the Commission's general rules and regulations including rules of practice and procedure, dated January 1, 1948 (18 CFR 1.8 and 1.37 (f)).

Date of issuance: September 14, 1950.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 50-8199; Filed, Sept. 19, 1950; 8:45 a. m.]

FEDERAL TRADE COMMISSION

[Docket No. 5741]

NORLON CORP. ET AL.

ORDER APPOINTING TRIAL EXAMINER

In the matter of Norlon Corporation, a corporation, and E. Edward Shinkel, Milton L. Marks, Ralph S. Marks and John J. Anthony, individually and as officers of said corporation.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That Clyde M. Hadley, a trial examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

Issued: September 13, 1950.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1249]

NEW YORK STATE ELECTRIC & GAS CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 14th day of September A. D. 1950.

In the matter of Application by the Boston Stock Exchange for unlisted trading privileges in New York State Electric & Gas Corporation, Common Stock, No. Par Value. File No. 7-1249.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of New York State Electric & Gas Corporation, a security listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to September 26, 1950, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

INTERNATIONAL PACKERS LIMITED

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 14th day of September A. D. 1950.

In the matter of Application by the Boston Stock Exchange for unlisted trading privileges in International Packers Limited, Common Stock, $15 Par Value, File No. 7-1247.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, $15 Par Value, of International Packers Limited, a security listed and registered on the New York Stock Exchange and on the Midwest Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to September 26, 1950, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25416]

PETROLEUM FROM AGAWAM, OKLA., TO INTERSTATE POINTS

APPLICATION FOR RELIEF

SEPTEMBER 15, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: D. Q. Marsh, Agent, for and on behalf of carriers parties to the tariffs listed below.

Commodities involved: Petroleum and its products, carloads.

From: Agawam, Okla.

To: Points in Southwestern, Illinois, Western Trunk Line, Official and Southern territories.

Grounds for relief: Competition with rail carriers, circuitous routes and to maintain grouping.

Schedules filed containing proposed rates: D. Q. Marsh's tariffs I. C. C. Nos. 3585, 3821, 3802, 3825, 3651, 3724, 3723 and 3494, Supplements 425, 54, 70, 75, 235, 120, 130, and 198, respectively.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

[4th Sec. Application 25417]

MOTOR-RAIL RATES—THE NEW YORK, NEW HAVEN AND HARTFORD RAILROAD COMPANY

APPLICATION FOR RELIEF

SEPTEMBER 15, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York, New Haven and Hartford Railroad Company for itself and on behalf of the Moshassuck Transportation Co.

Commodities involved: Class and commodity rates.

Between: Springfield and Worcester, Mass., on the one hand, and Harlem River, N. Y., on the other.

Grounds for relief: Competition with motor carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL, *Secretary.*

[4th Sec. Application 25418]

VEHICLE PARTS FROM JACKSON, MISS., TO PACIFIC COAST POINTS

APPLICATION FOR RELIEF

SEPTEMBER 15, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for and on behalf of carriers parties to Agent L. E. Kipp's tariffs I. C. C. Nos. 1536 and 1537.

Commodities involved: Vehicle material, unfinished, bows (automobile), wooden, in the white or creosoted, carloads.

From: Jackson, Miss.

To: North and South Pacific Coast points.

Grounds for relief: Circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

AUTHORITY: 40 Stat. 411, 55 Stat. 839, Pub. Laws 322, 671, 79th Cong., 60 Stat. 50, 925; 50 U. S. C. and Supp. App. 1, 616, E. O. 9193, July 6, 1942, 3 CFR, Cum. Supp., E. O. 9567, June 8, 1945, 3 CFR, 1945 Supp., E. O. 9788, Oct. 14, 1946, 11 F. R. 11981.

[Vesting Order 15037]

ELWA-ELEKTRO A. G.

In re: U. S. Letters Patent No. 2,211,474 owned by Elwa-Elektro A. G., Zurich, Switzerland.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Willy Müller, who, on or since the effective date of Executive Order 8389, as amended and on or since December 11, 1941, has been a resident of Germany, is a national of a designated enemy country (Germany);

2. That Elwa-Elektro A. G. is a corporation organized under the laws of Switzerland, whose principal place of business is located in Zurich, Switzerland, and is, or since the effective date of Executive Order 8389, as amended, has been controlled by, or a substantial part of the stock of which is, or on or since said date has been owned or controlled, directly or indirectly, by the aforesaid Willy Müller, and is a national of a designated enemy country (Germany);

3. That the property described as follows: All right, title and interest, including all accrued royalties and all

damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof, in and to the following United States Letters Patent:

Patent No.	Date of issue	Inventor	Title
2,211,474	Aug. 13, 1940	Willy Muller	Lifting Platform.

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, and is property of Elwa-Elektro A. G., the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraphs 1 and 2 hereof are not within a designated enemy country (Germany), the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

JUBEI SAIKI

In re: Rights of Jubei Saiki under insurance contract. File No. F-39-4503-H-1.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Jubei Saiki, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 8 994 390, issued by the New York Life Insurance Company, New York, New York, to Jubei Saiki, together with the right to demand, receive and collect said net proceeds, is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 29, 1950.

For the Attorney General.

1. That Anna Michaelis, whose last known address is Hamburg-Schnelsen 5, Burg-Wedel, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. An undivided 90/5120ths interest in and to all of the oil, gas and other minerals in and under and that may be produced from the following described lands situated in Pottawatomie County, State of Oklahoma, to wit:

The Northeast Quarter (NE¼) of the Northeast Quarter (NE¼) of Section Seventeen (17), Township Seven North (7N), Range Four East (4E),

together with any and all claims for rents, refunds, royalties, benefits or other payments arising from the ownership of such interest,

b. An undivided 110/5120ths interest in and to all of the oil, gas and other minerals in and under and that may be produced from the following described lands situated in Pottawatomie County, State of Oklahoma, to wit:

The Southeast Quarter (SE¼) of the Northeast Quarter (NE¼) of Section Seventeen (17), Township Seven North (7N), Range Four East (4E),

together with any and all claims for rents, refunds, royalties, benefits or other payments arising from the ownership of such interest,

c. An undivided 120/5120ths interest in and to all of the oil, gas and other minerals in and under and that may be produced from the following described lands situated in Pottawatomie County, State of Oklahoma, to wit:

The Southwest Quarter (SW¼) of the Northeast Quarter (NE¼) of Section Seventeen (17), Township Seven North (7N), Range Four East (4E),

together with any and all claims for rents, refunds, royalties, benefits or other payments arising from the ownership of such interest,

d. That certain debt or other obligation owing to Anna Michaelis by Sinclair Oil & Gas Company, Sinclair Building, Tulsa, Oklahoma, arising from royalties accrued with respect to the mineral interests described in subparagraphs 2-a, 2-b, and 2-c above, owned by said Anna Michaelis, and any and all rights to demand, enforce and collect the same,

e. That certain debt or other obligation owing to Anna Michaelis by Gulf Oil Corporation, Gulf Building, Pittsburgh 30, Pennsylvania, arising from royalties accrued with respect to the mineral interest described in subparagraph 2-b above, owned by said Anna Michaelis, and any and all rights to demand, enforce and collect the same, and

f. That certain debt or other obligation owing to Anna Michaelis by Deep Rock Oil Corporation, Atlas Life Building, Tulsa 2, Oklahoma, arising from royalties accrued with respect to the mineral interest described in subparagraph 2-c above, owned by said Anna Michaelis, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-a to 2-c hereof, inclusive, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 2-d to 2-f hereof, inclusive,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on September 12, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8236; Filed, Sept. 19, 1950; 8:51 a. m.]

[Return Order 741]

MRS. ANTONIA PECHAR AND JOHANN ROBERT PECHAR

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim Number, Notice of Intention to Return Published, and Property

Mrs. Antonia Pechar and Johann Robert Pechar, both of Gratkorn, Styria, Austria; Claim No. 11472; August 2, 1950 (15 F. R. 4966); to Mrs. Antonia Pechar, $2,432.68 cash in the Treasury of the United States; to Mrs. Antonia Pechar and Johann Robert Pechar all right, title and interest of Mrs. Antonie (Antonie) Pechar and Johann Robert Pechar in and to the trust established under the Will of John Pechar, deceased;

SEP 25 '50

trust is being administered by Irving Trust Company, New York, N. Y.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on September 14, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8238; Filed, Sept. 19, 1950; 8:51 a. m.]

[Return Order 742]

EMIL OETTINGER AND ROBERT GOLDSCHMIDT

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim Number, Notice of Intention to Return Published, and Property

Emil Oettinger, New York, N. Y.; and Robert Goldschmidt, London, England; Claim No. 32591; August 4, 1950 (15 F. R. 5036); $45.00 in the Treasury of the United States to each claimant.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on September 14, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8239; Filed, Sept. 19, 1950; 8:51 a. m.]

[Return Order 743]

CHRISTINE TILL

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim Number, Notice of Intention to Return Published, and Property

Christine Till, Braybourne, Sasqua-Hills, East Norwalk, Conn., Claim No. 6389; August 12, 1950 (15 F. R. 5324); $1,748.67 in the Treasury of the United States.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C. on September 14, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[F. R. Doc. 50-8240; Filed, Sept. 19, 1950; 8:52 a. m.]

[Return Order 714]

EMILIANO FERRARI ET AL.

Having considered the claim set forth below and having issued a determination allowing the claim, which is incorporated by reference herein and filed herewith,

It is ordered, That the claimed property, described below and in the determination, be returned, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim Number, Notice of Intention to Return Published, and Property

Emiliano Ferrari, Borgo Val di Taro, San Quirico, Cacciarasca, Parma, Italy, Claim No. 45400; Ida Ferrari, Borgo Val di Taro, San Quirico, Cacciarasca, Parma, Italy, Claim No. 45401; Giuseppina Ferrari, Borgo Val di Taro, San Quirico, Cacciarasca, Parma, Italy; Claim No. 45402; July 4, 1950 (15 F. R. 4254); all right, title, interest and claim of any kind or character whatsoever of Emiliano Ferrari, Ida Ferrari and Giuseppina Ferrari, and each of them, in and to the Estate of David Ferrari, deceased, presently in the process of administration by Palmira Mambretti, Administratrix, acting under the judicial supervision of the Superior Court of the State of California, in and for the City and County of San Francisco.

Appropriate documents and papers effectuating this order will issue.

Executed at Washington, D. C., on September 14, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

FEDERAL REGISTER

VOLUME 15 NUMBER 183

Washington, Thursday, September 21, 1950

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter II—The Loyalty Review Board

PART 210—THE OPERATIONS OF THE LOYALTY REVIEW BOARD

AMENDMENT TO LIST OF SUBVERSIVE ORGANIZATIONS

The following is added at the end of Appendix A:

In a letter dated September 5, 1950, in response to inquiries from the Chairman, Loyalty Review Board, in which the designation of organizations pursuant to Part III, section 3, of Executive Order No. 9835 was discussed, the Attorney General has advised the Loyalty Review Board as set out below.

You have inquired specifically whether the designation of International Workers Order as a communist organization includes, as well, the national group societies of that organization. The original designation of International Workers Order, arrived at after appropriate investigation and determination, as provided by the Executive order, contemplated and was intended to include all of its subdivisions, subsidiaries and affiliates, however entitled. To clarify and remove any question as to the scope of the original designation of November 24, 1947, therefore, the following national group societies of International Workers Order are hereby specifically designated pursuant to Executive Order No. 9835:

American-Russian Fraternal Society.
Carpatho-Russian Peoples Society.
Cervantes Fraternal Society.
Croatian Benevolent Fraternity.
Finnish-American Mutual Aid Society.
Garibaldi American Fraternal Society.
Hellenic-American Brotherhood.
Hungarian Brotherhood.
Jewish Peoples Fraternal Order.
Polonia Society of the IWO.
Romanian-American Fraternal Society.
Serbian-American Fraternal Society.
Slovak Workers Society.
Ukrainian-American Fraternal Union.

In your recent communications you have requested to be advised whether the Boston School for Marxist Studies and the Pacific Northwest Labor School are to be considered as adjuncts of the Communist Party as were the several schools named in the letter of Attorney General Clark of November 24, 1947. A review of all of the evidence available establishes that the Boston School for Marxist Studies is in fact an adjunct of the Communist Party; likewise that the Pacific Northwest Labor School was in effect but another name for the previously designated Seattle Labor School; and that the Joseph Weydemeyer School of Social Science of St. Louis, Missouri, is likewise a Communist School. Therefore, pursuant to the mandate and authority of Executive Order No. 9835, the following schools are designated as adjuncts of the Communist Party:

Boston School for Marxist Studies, Boston, Mass.

Joseph Weydemeyer School of Social Science, St. Louis, Mo.

Pacific Northwest Labor School, Seattle, Wash.

In your letter of October 14, 1949, you refer to the activities of the members of the Partido del Pueblo of Panama within the Canal Zone. The Partido del Pueblo is operating as the Communist Party of Panama and it is hereby designated pursuant to the authority of Executive Order No. 9835.

In previous communications from Attorney General Clark there were designated the Ku Klux Klan, the Association of Georgia Klans, and the Original Southern Klans, Inc. I hereby designate within the same category the Associated Klans of America, an organization consisting of a merger of earlier Ku Klux Klan groups.

Also previously designated was the National Council of Americans of Croatian Descent. Subsequent to its designation this organization has effected a change of name. The designation applies alike to the new organization known as the Union of American Croatians. I also designate at this time as a Communist organization the American Branch of the Federation of Greek Maritime Unions.

In your letter of January 9, 1950, you inquire whether the designation of the Communist Political Association includes, as well, the constituent state and local groups, specifically the Peoples Educational and Press Association of Texas and the Virginia League for Peoples Education. The designation of the Communist Party, USA, and of the Communist Political Association includes not only the national organization but all state, local, regional and other subdivisions thereof. Therefore, the Peoples Educational and Press Association of Texas and the Virginia League for Peoples Education were included in the designation by Attorney General Clark in his letter to you of November 24, 1947.

It may well be that hereafter as well, from time to time, additional inquiry may arise as to the effect and scope of existing designations and in that event I shall be most happy to have you communicate with me.

(Part III, E. O. 9835, Mar. 21, 1947, 12 F. R. 1935; 3 CFR, 1947 Supp.)

Subchapter B—Farm Ownership Loans

PART 324—CONSTRUCTION AND REPAIR

SUBPART C—PERFORMING FARM DEVELOPMENT

INSPECTIONS OF CONSTRUCTION AND REPAIR WORK

Section 324.45 in Title 6, Code of Federal Regulations (13 F. R. 9408), is amended to revise paragraphs (a) and (b) as follows:

§ 324.45 *Inspections*—(a) *Work done by or under the direction of the borrower*—(1) *Periodic inspections.* The County Supervisor will make periodic inspections of all farm development work in progress. After each inspection, the County Supervisor will record in the borrower's field folder the date the inspecton was made, the percentage of work completed, and any other pertinent information. The inspection and acceptance of material as delivered to the site and the storage of material will be the responsibility of the borrower. The County Supervisor will advise the borrower of these responsibilities. The Engineer also will make such additional inspections as the nature and character of the work may require.

(2) *Final inspections.* The County Supervisor will make a final inspection of immediate development promptly after completion, provided that the cash cost of the item has not exceeded $500. If the cash cost of the item exceeds $500, the Engineer will make the final inspection. When any item of immediate development performed by or under the direction of the borrower has been completed and the Engineer's inspection is required, the County Supervisor will notify the Engineer in writing. At the earliest feasible date after such notification, the Engineer will make the final inspection of the item.

(b) *Work done by contract*—(1) *Periodic inspections.* As the work proceeds, the Engineer will make necessary periodic inspections to determine whether the work conforms with plans, specifications, and change orders, and whether the contractor is complying with other provisions of Form FHA–296.

(i) When adverse conditions involving plans, specifications, change orders, or labor provisions are found at the time of inspection by the Engineer, he will request the contractor in writing to correct such adverse conditions in conformance with the contract. A copy of this request will be sent to the County Supervisor who will endeavor to have the contractor comply with the Engineer's request. If the County Supervisor cannot secure compliance, he will report the facts to the State Director who will determine the action to be taken.

(ii) The County Supervisor will make such periodic inspections as he and the Engineer agree upon. After each inspection, the County Supervisor will report his findings to the Engineer in writing and place one copy of the report in the borrower's County Office case file.

(2) *Final inspections.* The Engineer will make a final inspection of all items included in the contract as soon as possible after the County Supervisor advises him that the contract work has been completed.

(Sec. 41, 60 Stat. 1064, as amended; 7 U. S. C. and Sup., 1015)

DERIVATION: § 324.45 contained in FHA Instruction 424.3.

[SEAL] DILLARD B. LASSETER,
Administrator,
Farmers Home Administration.

AUGUST 30, 1950.

Approved: September 15, 1950.

CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 50–8282; Filed, Sept. 20, 1950; 8:51 a. m.]

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 909—HANDLING OF ALMONDS GROWN IN CALIFORNIA

SALABLE AND SURPLUS PERCENTAGES FOR 1950–51 CROP YEAR

§ 909.200 *Almond salable and surplus percentages for the 1950–51 crop year—*

(a) *Findings.* (1) Upon the basis of estimates and the recommendation of the Almond Control Board, established and functioning pursuant to Marketing Agreement No. 119 and Order No. 9 (15 F. R. 4993), regulating the handling of almonds grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and other available information, it is hereby found that the designation of a salable percentage at 100 and a surplus percentage at 0 is reasonable and in accordance with the requirements of § 909.62 of said order. These are the same percentages recommended by the board. The board estimated that almonds to be produced during the 1950–51 crop year would be 37,000,000 pounds and that total trade demand taking into consideration economic conditions and the anticipated market price, within the limitations of the act, would be 38,500,000 pounds, which would result in a reduction of 1,500,000 pounds in handler carryover.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section later than three days after the date of publication of this section in the FEDERAL REGISTER. This action regarding salable and surplus percentages for the 1950–51 crop year with respect to almonds is necessary for the reason that shipment of the current crop of such almonds will soon begin, and it is necessary to have these percentages fixed as near the beginning of the crop year as it is practicable in order to regulate such shipments effectively. No preparation for this section is required which cannot be completed prior to this effective date. In addition, the effect of this action will be wholly for the benefit of the persons affected thereby. Therefore, good cause exists for not delaying the effective date of these regulatory requirements beyond three days after the date of publication of this section in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.).

(b) *Order.* The salable and surplus percentages for almonds, during the crop year beginning August 4, 1950, and ending June 30, 1951, shall be 100 and 0, respectively.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 15th day of September 1950, to become effective at 12:01 a. m., P. s. t., on the 3d day after the date of the publication of this document in the FEDERAL REGISTER.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

[F. R. Doc. 50–8283; Filed, Sept. 20, 1950; 8:51 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 20–9]

PART 20—PILOT CERTIFICATES

ISSUANCE OF PRIVATE AND COMMERCIAL PILOT CERTIFICATES BASED ON MILITARY COMPETENCE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 15th day of September 1950.

Currently effective Part 20 provides for the issuance of pilot certificates with private or commercial ratings and appropriate category, class, and type ratings on the basis of military competence to members of the armed forces of the United States and civilian employees thereof who are serving on solo flying status or who have been discharged therefrom within 12 months preceding date of application therefor. Generally, an applicant for a private rating may be issued such rating if he is currently serving with the armed forces or, if discharged, he has had at least 10 hours of solo flying in military aircraft within 12 months preceding the date of application, irrespective of the date of discharge. On the other hand, an applicant for a commercial rating must be on duty or, if discharged, must have served on active duty as a rated pilot for at least 6 months within 18 months preceding the date of application. Thus, no provision is currently effective which would authorize the issuance of a commercial rating to an individual who has been discharged longer than 12 months. In each instance he must pass an examination covering the provisions of Parts 43 and 60 of this chapter.

The Board has recently received requests for waiver of the time limits in which an applicant must file after discharge from former military pilots who did not apply for pilot certificates within the currently specified period but who have since found that the holding of civilian pilot ratings is essential to their livelihood.

This amendment provides for the issuance of pilot certificates with private or commercial ratings to members of the armed forces of the United States and civilian employees of the ferry or transport services thereof who have been on solo flight status as rated pilots or the equivalent (as currently provided) and to graduates of military flying schools who are considered to be technically qualified to act as rated military pilots but who, because of budgetary or other limitations, may not have served on active duty with the armed forces as rated military pilots. In addition, this amendment provides for the issuance of commercial ratings to such military pilots who have been discharged for a period longer than 12 months preceding the date of application therefor. (The current regulations provide for such issuance only to applicants for private ratings.) This amendment does not change the current rule with respect to the issuance of private and commercial ratings to military pilots who apply therefor during the time they are on ex-

tended active duty and within 12 months subsequent to their discharge or release, except to authorize graduates of military flying schools to apply for such ratings even though, as previously explained, they may not have served on active duty as rated pilots. Those ratings will be issued to such graduates on a basis similar to that established for other military pilots.

Provision is also made whereby subsequent to 12 months after discharge or release an applicant for a private pilot rating may be issued such rating if he has had, within 12 months preceding the date of application therefor, at least 10 hours of flight time as pilot in command in military aircraft. However, an applicant for a commercial rating who has been discharged or released for a period longer than 12 months preceding the date of application therefor will have to pass an appropriate flight test. Because of the privileges accorded the holder of a commercial rating, i. e., of carrying passengers and cargo for compensation or hire, we believe that former military pilots applying for a commercial rating who have been discharged or released for a period longer than 12 months should demonstrate, by passing a flight test, that they are competent to exercise those privileges safely.

Accordingly, a military pilot or former military pilot, if he passes a written examination covering Parts 43 and 60 of this chapter and applies for such rating within the periods specified, may obtain a pilot certificate with a private rating based upon military competence without taking the flight test required of all applicants for a private rating. An applicant for a commercial rating, on the other hand, will be relieved of taking the prescribed extensive written examination if he passes a written examination covering only Parts 43 and 60 of this chapter and applies therefor either while a member of the armed forces or within 12 months subsequent to the date of his honorable discharge or release therefrom, or graduation from a military flying school, or at any time subsequent to 12 months from the date of such discharge, or release, or graduation, if he passes a flight test.

This rule continues the current provision that an applicant for a particular aircraft category, class, or type rating either coincident with or subsequent to the original issuance of a pilot certificate with appropriate aircraft ratings on the basis of military competence or otherwise may be issued such aircraft ratings upon the submission of reliable documentary evidence that he has had at least 10 hours of flight time as pilot in command in miltary arcraft of the same category, class, and type for which the rating is sought. It also provides for the issuance of such ratings for each aircraft in which a flight test is taken.

It should be noted that the current requirements provide that the flight time acquired in military aircraft shall be either "solo flying" time or shall have been flown as "first pilot or as sole manipulator of the controls." To avoid using several terms having the same meaning, we are substituting in lieu of the aforementioned terms, the phrase "pilot in command." That phrase is currently defined in § 20.80 as meaning the pilot responsible for the operation and safety of the aricraft during the time defined as flight time, and includes flight time acquired as sole occupant of the aircraft, as first pilot, and as sole manipulator of the controls. Moreover, this amendment removes any possibility of interpreting the 10-hour "solo flying" time requirement for a private rating as meaning that such flight time must be acquired while the applicant was the sole occupant of the aircraft.

We realize that the issuance of pilot certificates on the basis of military competence is not dictated by safety considerations. However, we believe that the service of individuals as pilots in the armed forces of the United States may properly be recognized since by so doing the administrative burden of certificating those men by compliance with usual procedures is lessened and safety is not jeopardized.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 20 of the Civil Air Regulations (14 CFR, Part 20, as amended) as follows, effective October 20, 1950:

1. By amending § 20.55 to read as follows:

§ 20.55 *Military competence.* Pilot certificates and appropriate ratings granted on the basis of military competence shall be issued in accordance with the provisions of paragraphs (a), (b), (c), and (d) of this section.

(a) *Private pilot rating.* An applicant for a pilot certificate with a private rating shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and either is on solo flying status as a rated pilot or the equivalent or has, within 12 months preceding the date of application, been graduated from and rated as a pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces and was, at the time of such discharge or release, on solo flying status as a rated pilot or the equivalent or had been graduated from and rated as a pilot by a military flying school: *Provided*, That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by § 20.26, unless he can show that he has had, within 12 months preceding the date of application, at least 10 hours of flight time as pilot in command in military aircraft.

(b) *Commercial pilot rating.* An applicant for a pilot certificate with a commercial rating shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and has been on active duty on solo flying status as a rated pilot or the equivalent for a period of at least 6 consecutive months prior to the date of application or has, within 12 months preceding the date of application, been graduated from and rated as a pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces, and had been on active duty on solo flying status as a rated pilot or the equivalent for a period of 6 consecutive months preceding such discharge or release or had been graduated from and rated as a pilot by a military flying school: *Provided*, That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by § 20.36.

(c) *Aircraft category, class, and type ratings.* An applicant for a particular category, class, and type rating who has applied for or holds a pilot certificate issued on the basis of military competence or otherwise shall be issued appropriate ratings upon the presentation of reliable documentary evidence that he has had, within 12 months preceding the date of application, at least 10 hours of flight time as pilot in command in military aircraft of a category, class, and type for which the rating is sought, or has taken a flight test.

(d) *Instrument rating.* An instrument rating shall be issued to an applicant who holds a currently effective military instrument rating if the requirements for the issuance of such a rating and the privileges authorized by it are not less than those of the Civil Air Regulations with respect to such rating.

2. By adding § 20.83 to read as follows:

§ 20.83 *Authorized representative of the Administrator.* An authorized representative of the Administrator shall mean any employee of the Civil Aeronautics Administration or any private person, authorized by the Administrator to perform any of the duties imposed upon him by the provisions of this part.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, as amended 1008; 49 U. S. C. 551 and Sup., 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[Civil Air Regs. Amdt. 22-2]

PART 22—LIGHTER-THAN-AIR PILOT CERTIFICATES

ISSUANCE OF PRIVATE AND COMMERCIAL PILOT CERTIFICATES BASED ON MILITARY COMPETENCE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 15th day of September 1950.

Currently effective Part 22 provides for the issuance of private and commercial lighter-than-air pilot certificates on the basis of military competence to members of the armed forces of the United States and civilian employees thereof who are serving on solo flying status or who have been discharged therefrom within 12 months preceding date of application therefor. Generally an applicant for a private certificate may be issued such certificate if he is currently serving with the armed forces or, if discharged, he has had at least 10 hours of solo flying in military aircraft within 12 months preceding the date of application, irrespective of the date of discharge. On the other hand, an applicant for a commercial certificate must be on duty or, if discharged, must have served on active duty as a rated pilot for at least 6 months within 18 months preceding the date of application. Thus, no provision is currently effective which would authorize the issuance of a commercial certificate to an individual who has been discharged longer than 12 months. In each instance he must pass an examination covering the provisions of Parts 43 and 60 of this chapter.

The Board has recently received requests for waiver of the time limits in which an applicant must file after discharge from former military pilots who did not apply for pilot certificates within the currently specified period but who have since found that the holding of civilian pilot certificates is essential to their livelihood.

This amendment provides for the issuance of pilot certificates to members of the armed forces of the United States and civilian employees of the ferry or transport services thereof who have been on solo flight status as rated lighter-than-air pilots or the equivalent (as currently provided) and to graduates of military flying schools who are considered to be technically qualified to act as rated military pilots but who, because of budgetary or other limitations, may not have served on active duty with the armed forces as rated military pilots. In addition, this amendment provides for the issuance of commercial certificates to such military pilots who have been discharged for a period longer than 12 months preceding the date of application therefor. (The current regulations provide for such issuance only to applicants for private certificates.) This amendment does not change the current rule with respect to the issuance of private and commercial certificates to military pilots who apply therefor during the time they are on extended active duty and within 12 months subsequent to their discharge or release, except to authorize graduates of military flying schools to apply for such certificates even though, as previously explained, they may not have served on active duty as rated pilots. Those certificates will be issued to such graduates on a basis similar to that established for other military pilots.

Provision is also made whereby subsequent to 12 months after discharge or release an applicant for a private lighter-than-air pilot certificate may be issued such certificate, if he has had, within 12 months preceding the date of application therefor, at least 10 hours of flight time as pilot in command in military aircraft. However, an applicant for a commercial certificate who has been discharged or released for a period longer than 12 months preceding the date of application therefor will have to pass an appropriate flight test. Because of the privileges accorded the holder of a commercial certificate, i. e., of carrying passengers and cargo for compensation or hire, we believe that former military pilots applying for a commercial certificate who have been discharged or released for a period longer than 12 months should demonstrate, by passing a flight test, that they are competent to exercise those privileges safely.

Accordingly, a military pilot or former military pilot, if he passes a written examination covering Parts 43 and 60 of this chapter and applies for such certificate within the periods specified, may obtain a lighter-than-air private pilot certificate based upon military competence without taking the flight test required of all applicants for a private certificate. An applicant for a commercial certificate, on the other hand, will be relieved of taking the prescribed extensive written examination if he passes a written examination covering only Parts 43 and 60 of this chapter and applies therefor either while a member of the armed forces or within 12 months subsequent to the date of his honorable discharge or release therefrom, or graduation from a military flying school, or at any time subsequent to 12 months from the date of such discharge, or release, or graduation, if he passes a flight test.

It should be noted that the current requirements provided that the flight time acquired in military aircraft shall be either "solo flying" time or shall have been flown as "first pilot or as sole manipulator of the controls." To avoid using several terms having the same meaning, we are substituting in lieu of the aforementioned terms the phrase "pilot in command." This amendment adds to the provisions of Part 22 the definition of that phrase which is the pilot responsible for the operation and safety of the aircraft during the time defined as flight time, and includes flight time acquired as sole occupant of the aircraft, as first pilot, and as sole manipulator of the controls. Moreover, this amendment removes any possibility of interpreting the 10-hour "solo flying" time requirement for a private rating as meaning that such flight time must be acquired while the applicant was the sole occupant of the aircraft.

We realize that the issuance of pilot certificates on the basis of military competence is not dictated by safety considerations. However, we believe that the service of individuals as pilots in the armed forces of the United States may properly be recognized since by so doing the administrative burden of certificating those men by compliance with usual procedures is lessened and safety is not jeopardized.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 22 of the Civil Air Regulations (14 CFR, Part 22, as amended) as follows, effective October 20, 1950:

1. By amending § 22.11 (i) to read as follows:

(i) *Military competence.* An applicant for a private lighter-than-air pilot certificate shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and either is on solo flying status as a rated lighter-than-air pilot or the equivalent or has, within 12 months preceding the date of application, been graduated from and rated as a lighter-than-air pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces and was, at the time of such discharge or release, on solo flying status as a rated lighter-than-air pilot or the equivalent or had been graduated from and rated as a lighter-than-air pilot by a military flying school: *Provided*, That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by paragraph (h) of this section, unless he can show that he has had, within 12 months preceding the date of application, at least 10 hours of flight time as pilot in command in lighter-than-air military aircraft.

2. By amending § 22.12 (j) to read as follows:

(j) *Military competence.* An applicant for a commercial lighter-than-air pilot certificate shall be deemed to have met the aeronautical knowledge, experience, and skill requirements for the issuance of such certificate, if he passes a written examination on Parts 43 and 60 of this chapter and presents reliable documentary evidence showing:

(1) That he is a member of the armed forces of the United States or a civilian employee of the ferry or transport services thereof, and has been on active duty on solo flying status as a rated lighter-than-air pilot or the equivalent for a period of at least 6 consecutive months prior to the date of application or has, within 12 months preceding the date of application, been graduated from and rated as a lighter-than-air pilot by a military flying school; or

(2) That he has been honorably discharged or released from such forces, and had been on active duty on solo flying status as a rated lighter-than-air pilot or the equivalent for a period of 6 consecutive months preceding such discharge or release or had been graduated from and rated as a lighter-than-air pilot by a military flying school:

Provided, That if he has been honorably discharged or released from such forces for a period longer than 12 months preceding the date of application, he shall pass the flight test prescribed by paragraph (h) of this section.

3. By adding § 22.43 to read as follows:

§ 22.43 *Pilot in command.* Pilot in command shall mean the pilot responsible for the operation and safety of the aircraft during the time defined as flight time.

4. By adding § 22.44 to read as follows:

§ 22.44 *Flight time.* Flight time shall mean the total time from the moment the aircraft first moves under its own power for the purpose of flight until the moment it comes to rest at the end of the flight.

5. By adding § 22.45 to read as follows:

§ 22.45 *Authorized representative of the Administrator.* An authorized representative of the Administrator shall mean any employee of the Civil Aeronautics Administration or any private person, authorized by the Administrator to perform any of the duties imposed upon him by the provisions of this part.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 52 Stat. 1007, as amended, 1008; 49 U. S. C. 551 and Sup. 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg. Amdt. 284]

[Controlled Housing Rent Reg., Amdt. 284] Other Establishments Rent Reg., Amdt. 281]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

COLORADO AND ARKANSAS

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. Schedule A, Item 44b, is amended to read as follows:

(44b) [Revoked and decontrolled.]

This decontrols (1) the City of Greeley in Weld County, Colorado, a portion of the Greeley, Colorado, Defense-Rental Area, and all unincorporated localities in said Defense-Rental Area, based on a resolution submitted with respect to said City of Greeley in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, said City of Greeley constituting the major portion of said Defense-Rental Area, and (2) the remainder of said Defense-Rental Area on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

2. In Schedule A, Item 293, all of said item which relates to Crittenden County, Arkansas, is deleted.

This decontrols the City of West Memphis in Crittenden County, Arkansas, a portion of the Memphis, Tennessee, Defense-Rental Area, based on a resolution submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, and leaves under control Shelby County, Tennessee, as the Memphis, Tennessee, Defense-Rental Area.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall become effective September 19, 1950.

Issued this 18th day of September 1950.

ED DUPREE,
Acting Housing Expediter.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1766]

HOMESTEADS SUBJECT TO MORTGAGE LOANS

MISCELLANEOUS AMENDMENTS

The following new sections are added to Title 43, in order to show the procedure which should be followed by homestead entrymen including such entrymen in reclamation projects, who wish to obtain loans in accordance with the act of October 19, 1949 (63 Stat. 883, 7 U. S. C. 1946 ed. Supp III secs. 1006a, 1006b) from the Farmers Home Administration of the Department of Agriculture:

Subchapter A—Alaska

PART 65—HOMESTEADS

Sections 65.30 and 65.31 are added, as follows:

HOMESTEADS SUBJECT TO MORTGAGE LOANS

§ 65.30 *Mortgage loans on existing homestead entries; allowance on homestead applications for lands subject to mortgages held by the United States acting through the Secretary of Agriculture; occupancy of the land.* A homestead entryman who desires to secure a loan on an existing homestead entry, or a homestead applicant who wishes to make a homestead entry for lands in a canceled or relinquished homestead entry subject to a mortgage lien held by the United States acting through the Secretary of Agriculture under the act of October 19, 1949 (63 Stat. 883, 7 U. S. C., Supp. III secs. 1006a, 1006b), should proceed in accordance with § 166.102 of this chapter.

§ 65.31 *Mortgage liens.* A mortgage lien held by the United States acting through the Secretary of Agriculture shall not extend to mineral deposits in the lands, which have been or may be reserved to the United States pursuant to law.

(R. S. 2478, as amended, sec. 1, 30 Stat. 409, as amended; 43 U. S. C. 1201, 48 U. S. C. 371)

PART 66—HOMESTEADS ON COAL, OIL, AND GAS LANDS

Sections 66.11 and 66.12 are added as follows:

§66.11 *Mortgage loans on existing homestead entries allowance of homestead applications for lands subject to mortgages held by the United States acting through the Secretary of Agriculture; occupancy of the land.* A homestead entryman who desires to secure a loan on an existing homestead entry or a homestead applicant who wishes to make a homestead entry for lands in a canceled or relinquished homestead entry subject to a mortgage lien held by the United States acting through the Secretary of Agriculture under the act of October 19, 1949 (63 Stat. 883, 7 U. S. C., Supp. III, secs. 1006a, 1006b), should proceed in accordance with §166.102 of this chapter.

§ 66.12 *Mortgage liens.* A mortgage lien held by the United States acting through the Secretary of Agriculture shall not extend to mineral deposits in the lands, which have been or may be reserved to the United States pursuant to law.

(R. S. 2478, as amended; 43 U. S. C. 1201)

Subchapter I—Homesteads

PART 166—ORIGINAL, ADDITIONAL, SECOND AND ADJOINING FARM HOMESTEADS, AUTHORIZED BY THE GENERAL PROVISIONS OF THE HOMESTEAD LAWS

Sections 166.102 and 166.103 are added to Part 166.

HOMESTEAD SUBJECT TO MORTGAGE LOANS

§ 166.102 *Mortgage loans on existing homestead entries; allowance of homestead applications for lands subject to mortgages held by the United States acting through the Secretary of Agriculture; occupancy of the land.* (a) A homestead entryman desiring a loan on an existing homestead entry under the act of October 19, 1949 (63 Stat. 883, 7 U. S. C., Supp. III, secs. 1006a, 1006b) should consult the Farmers Home Administration of the Department of Agriculture.

(b) Where a homestead entry subject to a mortgage loan is canceled or relinquished and the loan has not been satisfied, a lien held by the United States acting through the Secretary of Agriculture would attach to the land under the act of October 19, 1949, and such land becomes subject to homestead entry for a period of one year from the date the canceled entry was closed or for one year from the date the entry was relinquished by an applicant who is qualified for an initial loan and who has not exercised his homestead rights. An applicant for such land must first consult the Farmers Home Administration. Such a homestead application must not be filed in the land office until the applicant has been selected and directed to do so by the Farmers Home Administration.

(c) The final arrangements of a mortgage loan between the homestead applicant and the Farmers Home Administration are not completed until after the homestead application has been allowed as an entry. Upon the allowance of such an application the entryman will be notified not to occupy the land until he has completed the arrangements of the loan and he has been instructed to occupy the land by the Farmers Home Administration.

(d) Decisions canceling homestead entries subject to such mortgage liens for defaults on the mortgage or for noncompliance with the homestead laws will contain a clause allowing 15 days from receipt of notice of the decision within which to respond or to appeal.

(e) If the land in a relinquished or canceled homestead entry subject to a mortgage lien is not entered during the period of one year from the date of relinquishment or one year from the date the canceled homestead entry was closed, the land will become subject to sale by the Farmers Home Administration.

§ 166.103 *Mortgage liens.* A mortgage lien held by the United States acting through the Secretary of Agriculture shall not extend to mineral deposits in the lands, which have been or may be reserved to the United States pursuant to law.

(R. S. 2478, as amended; 43 U. S. C. 1201)

PART 167—ENLARGED HOMESTEADS

Sections 167.35 and 167.36 are added as follows:

ENLARGED HOMESTEAD SUBJECT TO MORTGAGE LOANS

§ 167.35 *Mortgage loans on existing homestead entries; allowance of homestead applications for lands subject to mortgages held by the United States acting through the Secretary of Agriculture; occupancy of the land.* A homestead entryman who desires to secure a loan on an existing homestead entry, or a homestead applicant who wishes to make a homestead entry for lands in a canceled or relinquished homestead entry subject to a mortgage lien held by the United States acting through the Secretary of Agriculture under the act of October 19, 1949 (63 Stat. 883, 7 U. S. C. Supp. III secs. 1006a, 1006b), should proceed in accordance with § 166.102 of this chapter.

§ 167.36 *Mortgage liens.* A mortgage lien held by the United States acting through the Secretary of Agriculture shall not extend to mineral deposits in the lands, which have been or may be reserved to the United States pursuant to law.

(R. S. 2478, as amended; 43 U. S. C. 1201)

Subchapter Q—Reclamation and Irrigation

PART 230—RECLAMATION OF ARID LANDS BY THE UNITED STATES

Sections 230.5a and 230.5b are added to Part 230.

§ 230.5a *Mortgage loans on existing reclamation homestead entries; reclamation homestead applications for lands subject to a mortgage lien held by the United States acting through the Secretary of Agriculture; occupancy of the land.* (a) A reclamation homestead entryman or a recognized assignee thereof desiring a loan on an existing reclamation homestead entry under the act of October 19, 1949 (63 Stat. 883, 7 U. S. C., Supp III secs. 1006a, 1006b), should consult the Farmers Home Administration of the Department of Agriculture and the Bureau of Reclamation of the Department of the Interior.

(b) Where a reclamation homestead entry subject to a mortgage loan is canceled or relinquished and the loan has not been satisfied, a lien held by the United States acting through the Secretary of Agriculture would attach to the land under the act of October 19, 1949, and such land would be subject to reclamation homestead entry for a period of one year from the date the canceled entry was closed or for one year from the date the entry was relinquished. An applicant for such land should first consult the Farmers Home Administration and the Bureau of Reclamation. Such a reclamation homestead application must not be filed in the land office until the applicant has been selected by the Farmers Home Administration and the Bureau of Reclamation, and he has been directed by the Farmers Home Administration to file the application.

(c) The final arrangements of a mortgage loan between the homestead applicant and the Farmers Home Administration are not completed until after the reclamation homestead application has been allowed as an entry. Upon the allowance of such an application the entryman will be notified not to occupy the land until he has completed arrangements of the loan and he has been instructed to occupy the land by the Farmers Home Administration.

(d) Decisions canceling reclamation homestead entries subject to such mortgage liens for defaults on the mortgage or for noncompliance with the reclamation or homestead laws will contain a clause allowing 15 days from receipt of notice of the decision within which to respond or to appeal.

(e) If the land in a relinquished or canceled reclamation homestead entry subject to a mortgage lien is not entered during the period of one year from the date of relinquishment or one year from the date the canceled reclamation homestead entry was closed, the land will become subject to disposition by the Secretary of Agriculture.

§ 230.5b *Mortgage liens.* A mortgage lien held by the United States acting through the Secretary of Agriculture shall not extend to mineral deposits in the lands, which have been or may be reserved to the United States pursuant to law.

(Sec. 10, 32 Stat. 390, as amended 43 U. S. C. 373)

OSCAR L. CHAPMAN,
Secretary of the Interior.

SEPTEMBER 12, 1950.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Rev. S. O. 867]

PART 95—CAR SERVICE

RESTRICTIONS ON TRAP AND FERRY CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 15th day of September A. D. 1950.

It appearing, that there is a shortage of freight cars in every section of the country; that the use of such cars in so-called "trap" or "ferry" car service prevents or impedes the full utilization of such cars and contributes to the general car shortage; in the opinion of the Commission an emergency requiring immediate action to promote the National Defense and car service in the interest of the public and the commerce of the people, exists in all sections of the country: It is ordered, that:

§ 95.867 *Restrictions on trap and ferry cars.* (a) No common carrier by railroad subject to the Interstate Commerce Act shall provide, use or permit the use of a trap car or a ferry car, on its lines, except as follows:

(1) A car which is not suitable for interchange.

(2) Where there is no other common carrier or common carriers capable of transporting the shipment contained in the car.

(3) Where necessary to relieve congestion of carriers' freight house facilities because of inability to obtain transportation of the shipment or shipments by motor vehicle.

(4) Where motor vehicles are not available with which to move the shipment.

(5) Where the carriers' freight house or transfer facilities or consignor's or consignee's facilities are so located or constructed as to make it impracticable to transport the shipment by motor vehicles.

(6) A car containing perishable or explosives and dangerous articles.

(7) A trap or ferry car operated between points which from previous experience or actual present knowledge will arrive at destination with a net load of at least 10 tons.

(8) Shipments described in section 2 of Rule 27 of Consolidated Freight Classification.

(9) When authorized by special or general permit issued by the Director, Bureau of Service, Interstate Commerce Commission, Washington 25, D. C.

(b) *Application.* The provisions of this section shall apply to intrastate as well as interstate and foreign traffic.

(c) *Regulations suspended; announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended and each railroad subject to this section, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's

Tariff Circular No. 20 (§ 141.9 (k) of this chapter), announcing such suspension.

(d) *Effective date.* This section shall become effective at 11:59 p. m., September 20, 1950.

(e) *Expiration date.* This section shall expire at 11:59 p. m., March 31, 1951, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that a copy of this order and direction be served upon the State railroad regulatory bodies of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 50-8263; Filed, Sept. 20, 1950; 8:49 a. m.]

[S. O. 868]

PART 95—CAR SERVICE

SUSPENSION OF FOLLOW-LOT RULE AND TWO-FOR-ONE RULE

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 11th day of September A. D. 1950.

It appearing, that an acute shortage of freight cars exists in all sections of the country; that the provisions contained in Rule 24 and Rule 34 of Consolidated Freight Classification No. 19, as amended, and other tariffs containing similar provisions in respect to the furnishing, substitution, and use of multiple cars for single shipments, subject to carload rates, result in wasteful car service, that such misuse and wasteful use of railroad equipment is detrimental to the public interest; in the opinion of the Commission an emergency exists in all sections of the country; requiring immediate action to promote the National Defense and car service in the interest of the public and the commerce of the people: It is ordered, that:

§ 95.868 *Suspension of follow-lot rule and two-for-one rule.* (a) The operation of Rule 24 of Consolidated Freight Classification No. 19, as amended, be and it is hereby suspended.

(b) The operation of Rule 34 of Consolidated Freight Classification No. 19, as amended, insofar as it permits railroad freight cars to be used for the shipment of carload freight otherwise than subject to the carload minimum weight for each car used be, and it is hereby suspended: *Provided,* That this paragraph shall not be deemed to apply to or affect those portions of Rule 34 which provide carload minimum weights graduated according to car length or capacity.

(c) The operation of all provisions in all other tariffs filed by common carriers by railroad which, in like manner as, or in modification or extension of Rule 24 and of that portion of Rule 34 herein suspended, permit railroad freight cars to be used for the shipment of carload freight, otherwise than subject to the established carload minimum weight for each car used, be and they are hereby suspended: *Provided,* That this paragraph shall not be deemed to apply to or affect the provisions of Rule 29 of Consolidated Freight Classification No. 19, as amended, or any similar provisions in other tariffs relating to minimum weights for carload shipments of articles which by reason of their length require two or more open cars for their transportation.

(d) *Exceptions.* (1) This section shall not apply (i) to shipments of livestock, (ii) to shipments of any commodity on flat cars when the car furnished and used is longer than that ordered by the shipper, and (iii) to shipments of any commodity loaded by carriers not subject to any direction or control by shipper with respect either to the actual loading or the selection of equipment used.

(2) *Overloaded cars.* When part of the contents (hereinafter termed the excess) of an overloaded car of carload freight is transferred to another car and both cars forwarded without other freight therein the following shall govern:

Freight charges. All common carriers by railroad subject to the Interstate Commerce Act shall:

(i) On the original car assess and collect freight charges, origin to final destination in effect at time of shipment, based upon the actual weight of freight left in that car after the excess has been removed, but not less than the tariff minimum weight for such car;

(ii) On the car loaded with the excess freight assess and collect freight charges at the carload rate, applicable on the commodity as originally shipped, from transfer point to final destination in effect at time of original shipment, based on the actual weight of such excess freight subject to the following minima:

(a) When the tariff minimum weight depends on the length of the car, 50 percent of the minimum weight applicable to a car 40 feet 6 inches in length; or

(b) When the tariff minimum weight depends on capacity of the car, 40,000 pounds; or

(c) When the tariff minimum weight does not depend on the length or capacity of a car, 50 percent of the minimum weight applicable to the shipment as originally billed.

(iii) But in no instance shall the charges be less than the charges which would have applied on the same shipment transported without transfer of the excess freight to another car.

(e) *Application.* The provisions of this section shall apply to intrastate, interstate and foreign commerce.

(f) *Effective date.* This section shall become effective at 12:01 a. m., September 20, 1950.

(g) *Expiration date.* This section shall expire at 11:59 p. m., March 31, 1951, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

(h) All outstanding orders of this Commission, insofar as they conflict with the provisions of this section, be, and they are hereby suspended.

(i) *Regulations suspended; announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended and each railroad subject to this section, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commisson's Tariff Circular No. 20 (§ 141.9 (k) of this chapter), announcing such suspension.

It is further ordered, that a copy of this order and direction shall be served upon the State railroad regulatory body of each State and upon the Association of American Railroads, Car Service Division, as agent of the railroads, subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Secs. 1, 15, 24 Stat. 379, as amended, 384, as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR, Part 21]

GENERAL CREDIT TO INDIANS

INTEREST; EDUCATIONAL LOANS

Notice is hereby given of intention to amend §§ 21.6 and 21.16 of the regulations approved by the Secretary of the Interior December 18, 1945 and amended August 21, 1947 and June 25, 1948, which were promulgated under authority contained in the acts of June 18, 1934 (48 Stat. 986), and June 26, 1936 (49 Stat. 1967), as amended and supplemented, to read as hereinafter indicated:

§ 21.6 *Interest.* Corporations, unincorporated tribes and bands, and credit associations shall pay two per cent interest annually on loans from the date made until paid, on the basis of 360 days per annum. Cooperative associations and individual borrowers shall be charged interest at the rate of four per cent annually, except loans made to individuals for educational purposes, which shall be governed by the provisions of § 21.16 of the regulations in this part. Borrowers from Indian organizations shall pay the rate of interest specified in the governing loan agreement, but not less than two per cent.

§ 21.16 *Educational loans.* Loans for educational purposes may be made under the regulations in this part. The interest rate on loans by the United States shall be three per cent per annum. The rate on loans by Indian organizations shall be not less than two per cent per annum, and may not exceed the rate charged borrowers on loans for other purposes.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or arguments in writing to Dillon S. Myer, Commissioner of Indian Affairs, Washington 25, D. C., within 30 days from the date of the publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

Dated: September 14, 1950.

MASTIN G. WHITE, *Acting Assistant Secretary of the Interior.*

NOTICES

DEPARTMENT OF THE TREASURY

Fiscal Service, Bureau of the Public Debt

[1950 Dept. Circ. 870]

1¼ PERCENT TREASURY NOTES OF SERIES G-1951

OFFERING OF NOTES

SEPTEMBER 18, 1950.

I. *Offering of notes.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for notes of the United States, designated 1¼ percent Treasury Notes of Series G-1951, in exchange for Treasury Certificates of Indebtedness of Series H-1950, maturing October 1, 1950.

II. *Description of notes.* 1. The notes will be dated October 1, 1950, and will bear interest from that date at the rate of 1¼ percent per annum, payable with the principal at maturity on November 1, 1951. They will not be subject to call for redemption prior to maturity.

2. The income derived from the notes shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. The notes will not be issued in registered form.

5. The notes will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States notes.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of notes applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for notes allotted hereunder must be made on or before October 2, 1950, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series H-1950, maturing October 1, 1950, which will be accepted at par, and should accompany the subscription. The full year's interest on the certificates surrendered will be paid to the subscriber following acceptance of the certificates.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for notes allotted, to make delivery of notes on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] JOHN W. SNYDER, *Secretary of the Treasury.*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 55180]

NEVADA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 12, 1950.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MOUNT DIABLO MERIDIAN

T. 27 N., R. 18 E.,
Sec. 4, SE¼NW¼,
Sec. 5, lots 3, 4 and 7, NE¼, SE¼NW¼,
Sec. 8, lots 1, 2, 3 and 4,
Sec. 20, lots 1 and 3.
T. 27 N., R. 19 E.,
Sec. 31, N½SE¼.
T. 14 N., R. 26 E.,
Sec. 23, SW¼,
Sec. 26, E½NW¼, SW¼NW¼, SW¼,
Sec. 27, SE¼,
Sec. 34, NW¼SE¼, NE¼SW¼, NE¼NE¼, SW¼NE¼.

The areas described aggregate 1,582.34 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Reno, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Reno, Nevada.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

CIVIL AERONAUTICS BOARD

[Docket No. 4340 et al.]

FRONTIER AIRLINES, INC., AND UNITED AIRLINES, INC., FRONTIER RENEWAL PROCEEDING

NOTICE OF HEARING

In the matter of the renewal of temporary certificates of public convenience and necessity for Routes Nos. 73 and 74 held by Frontier Airlines, Inc., and a temporary suspension of authority of United Airlines, Inc., to serve Rock Springs and Cheyenne, Wyoming.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 and 1001 of said act, that the above-indicated proceeding is assigned for hearing on October 2, 1950, at 10:00 a. m., e. s. t., in Conference Room A, Departmental Auditorium, Constitution Avenue between 12th and 14th Streets NW., Washington, D. C., before Examiner Herbert K. Bryan.

Without limiting the scope of the issues to be considered, particular attention will be directed to the following matters:

1. Whether public convenience and necessity require the alteration, amendment, modification or suspension of the temporary certificates of public convenience and necessity held by Frontier Airlines, Inc., and the certificates of public convenience and necessity held by United Airlines, Inc., as set forth in Order Serial No. E–3914 or as requested in applications filed with the Board under Dockets Nos. 4270, 4271, 4517, 4521 and 4610, consolidated herein for purposes of hearing, and

2. Whether Frontier Airlines, Inc., is fit, willing, and able to perform such services as may be found required by public convenience and necessity, and to conform to the provisions of the act and the rules, regulations and requirements of the Board thereunder.

Notice is further given that any person other than the parties of record desiring to be heard in this proceeding shall file with the Board on or before October 2, 1950, a statement setting forth the issues of fact and law which he desires to controvert.

For further details with respect to this proceeding, interested parties are referred to the pertinent orders of the Civil Aeronautics Board on file in the docket.

Dated at Washington, D. C., September 15, 1950.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

OTTER TAIL POWER CO.

NOTICE OF APPLICATION

SEPTEMBER 13, 1950.

Take notice that on September 12, 1950, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Otter Tail Power Company, a corporation organized under the laws of the State of Minnesota and doing business in the States of Minnesota, North Dakota, and South Dakota, with its principal business office at Fergus Falls, Minnesota, seeking an order authorizing the issuance of $5,000,000 in First Mortgage Bonds, 2.85 percent Series due 1980, to be dated September 1, 1950, and to mature September 1, 1980, bearing interest at the rate of 2.85 percent per annum, payable semi-annually on December 1 and June 1 of each year, except that the first interest payment on December 1, 1950, and the last interest payment on September 1, 1980, will be for quarter yearly periods. The Bonds will be sold to the New York Life Insurance Company, $3,000,000 of said Bonds to be purchased as soon as may be, and the remaining $2,000,000 of said Bonds to be purchased on or before February 28, 1951; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 4th day of October 1950, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. G–1474]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 15, 1950.

Take notice that on September 5, 1950, El Paso Natural Gas Company (Applicant), a Delaware corporation with its principal place of business in El Paso, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described facilities:

(1) A meter and regulating station to be located in Lot 13, Block 1, Buena Vista Addition to the City of El Paso, El Paso County, Texas, with a delivery capacity of at least 50,000,000 cubic feet of gas per year, and with a daily delivery capacity of at least 200,000 cubic feet of gas per day.

(2) A 2⅜ inch O. D. pipeline approximately 150 feet in length and capable of transporting the gas referred to in paragraph (1) above, to be located at a point beginning at Engineering Station 50+95 on Applicant's existing 12¾ inch O. D. pipeline and extending in a northeasterly direction to the metering and regulating station referred to in paragraph (1) above.

Applicant proposes to use these facilities to deliver natural gas to Lea County Gas Company for distribution to the residents and other consumers of gas in the community of Buena Vista, El Paso County, Texas. Applicant alleges that there are no other gas companies rendering service to these consumers that would be served through the facilities for which it is seeking a certificate.

The estimated total over-all cost of the proposed facilities is $2,300, which Applicant proposes to finance out of its current working funds, without additional financing.

The application is on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 4th day of October 1950.

[SEAL] LEON M. FUQUAY,
Secretary.

GENERAL SERVICES ADMINISTRATION

HOUSING AND HOME FINANCE ADMINISTRATOR

DELEGATION OF AUTHORITY WITH RESPECT TO ALLEVIATION OF DISASTER CAUSED BY RECENT FLOODS IN GREAT BEND, KANS.

1. Whereas, the President on September 2, 1950, found pursuant to Public Law 266, 81st Congress, that hardship and suffering in Great Bend, Kansas, are of sufficient severity and magnitude to warrant assistance by the Federal government, and designated the General Services Administration as the agency of the Government authorized to expend funds to alleviate hardship and suffering caused thereby, and to enter into agreements with the Governor of that State giving assurance, as required by law of the expenditure of a reasonable amount of State or local funds for the same purpose, and authorized the Administrator of General Services to delegate such authority as he deems necessary and, whereas, pursuant to Public Law 233, 80th Congress, the President on September 2, 1950, found that the severe flood conditions in Great Bend, Kansas, are of such severity and magnitude as to make it necessary and appropriate to utilize surplus personal property to alleviate damage, hardship and suffering caused thereby, now therefore, the Administrator of General Services hereby delegates to the Housing and Home Finance Administrator acting through the Community Facilities Service, an organizational unit in the Office of the Administrator of the Housing and Home Finance Agency, the following authorities:

a. Pursuant to Public Laws 266 and 583, 81st Congress, and the delegation of authority by the President thereunder, the authority to expend the sum of $30,000, which is hereby allocated, which sum may be expended in alleviating hardship and suffering in the municipality of Great Bend occasioned by the disaster, and the authority to enter into agreements with the Governor of the State of Kansas giving assurance as required by law of the expenditure of a reasonable amount of state or local funds in conjunction with the expenditure of the funds hereby allocated. The funds hereby allocated shall be expended in accordance with the provisions of the aforesaid laws for repair and cleaning of sanitary and storm sewers and draining of the storm area. It is desirable that all possible efforts of the state and local agency and the American National Red Cross be exercised prior to any expenditure from this allocation.

b. Pursuant to authority contained in the Federal Property and Administrative Services Act of 1949, any authority vested in the Administrator of General Services by Public Law 233, 80th Congress, such authority to be exercised to alleviate damages, hardship, and suffering caused by flood conditions in Great Bend, Kansas.

2. The authority conferred herein shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall further be exercised in cooperation with the Special Assistant to the Administrator in such Administration.

3. Grants or other expenditures of funds allotted from the Emergency Fund for the President shall be accounted for as expenditures of the General Services Administration under allotments established by it within the scope of this delegation.

4. This delegation of authority shall be effective as of September 8, 1950.

Dated: September 8, 1950.

JESS LARSON,
Administrator.

Consented to: September 13, 1950.

RAYMOND M. FOLEY,
Administrator, Housing and Home Finance Agency.

[F. R. Doc. 50-8259; Filed, Sept. 20, 1950; 8:48 a. m.]

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

DIRECTOR, DIVISION OF SLUM CLEARANCE AND URBAN REDEVELOPMENT

ORGANIZATION DESCRIPTION, INCLUDING DELEGATIONS OF FINAL AUTHORITY

The Director, Division of Slum Clearance and Urban Redevelopment, is hereby authorized, on behalf of the Housing and Home Finance Administrator:

(A) To execute contracts for advances for surveys and plans in the administration of Title I of the Housing Act of 1949 (63 Stat. 414-421, 42 U. S. C. 1451-1460 (Supp. 1949)), including amendatory, supplementary and superseding contracts, in such amounts and with such local public agencies as are authorized and approved by the Administrator, and to execute waivers with respect to such contracts;

(B) To approve requisitions and vouchers for funds to be disbursed under the foregoing types of contracts;

(C) To extend and cancel reservations of capital grant monies made under Title I of the Act (63 Stat. 416-417, 42 U. S. C. 1453-1455 (Supp. 1949)); and

(D) In connection with carrying out any of the powers set forth in paragraphs (A) and (B) above, to carry out the functions and responsibilities vested in the Administrator under section 109 of Title I of the Act (63 Stat. 419, 42 U. S. C. 1459 (Supp. 1949)).

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 25119]

CUMENE FROM LOUISIANA TO KANSAS CITY, MO.

APPLICATION FOR RELIEF

SEPTEMBER 18, 1950.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. P. Emerson, Jr., Agent, for and on behalf of carriers parties to his tariff I. C. C. No. 369.

Commodities involved: Cumene, tank carloads.

From: Norco and North Baton Rouge, La.

To: Kansas City, Mo.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: W. P. Emerson, Jr.'s tariff I. C. C. No. 369, Supplement 59.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 25120]

COAL TO HOLT AND TARRANT, ALA.

APPLICATION FOR RELIEF

SEPTEMBER 18, 1950.

The Commission is in receipt of the above entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Chesapeake and Ohio Railway Company for itself and on behalf of The Kanawha Central Railway Company and other carriers named in the application.

Commodities involved: Bituminous coal, cannel coal and bituminous coal briquettes, carloads.

From: Points in Kentucky, Virginia and West Virginia.

To: Holt and Tarrant, Ala.

Grounds for relief: Circuitous routes and market competition.

Schedules filed containing proposed rates: C. & O., tariff I. C. C. No. 13007, Supplement 11.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2432]

THE COLUMBIA GAS SYSTEM, INC.

ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of September A. D. 1950.

The Commission having, by order dated July 25, 1950, permitted to become effective a declaration filed pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935, by The Columbia Gas System, Inc. ("Columbia"), a registered holding company, with respect to the issue and sale of $90,000,000 principal amount of Series B debentures due 1975, and the Commission having reserved jurisdiction over the payment of all legal fees and expenses in connection with the proposed transaction; and

The legal fees and expenses proposed to be incurred in connection with the issue and sale of the said debentures having been stated as follows:

	Fees	Expenses
Cravath, Swaine & Moore, counsel for Columbia	$12,000	
Shearman & Sterling & Wright, counsel for bidders	9,000	$1,300
Local counsel for Columbia	1,000	
	22,000	1,300

It appearing to the Commission that the proposed legal fees and expenses enumerated above are not unreasonable and that jurisdiction with respect thereto should be released:

It is ordered, That jurisdiction heretofore reserved over the legal fees and expenses enumerated above in connection with the issue and sale by Columbia of $90,000,000 principal amount of Series B debentures due 1975, be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2463]

CONSOLIDATED ELECTRIC AND GAS CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of September A. D. 1950.

Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, having filed a declaration with this Commission pursuant to section 7 of the Public Utility Holding Company Act of 1935 ("act") and certain rules and regulations promulgated thereunder with respect to the following transactions:

The issuance and sale by Consolidated to The Chase National Bank of the City of New York ("Chase"), on or before September 20, 1950, of a one year promissory note in the face amount of $800,000 bearing interest at the rate of 2¼ percent a year and providing for sinking fund payments of $150,000 each on December 31, 1950, March 31, 1951, and June 30, 1951, the declaration stating that it is the firm intention of Consolidated to eliminate all such bank indebtedness on or prior to the date of maturity September 20, 1951; and the pledging by Consolidated, as security for said note, of certain portfolio securities owned by Consolidated and its wholly owned subsidiary, The Islands Gas and Electric Company;

It being represented in said declaration that the proceeds of said note, together with other corporate funds, are to be used to discharge a presently outstanding note maturing September 20, 1950, this latter note, originally in the amount of $3,500,000, and bearing interest at the rate of 2¾ percent a year, having been issued September 20, 1949, and being outstanding in the amount of $1,000,000 at the present time;

Notice of the filing of this declaration having been duly given in the form and manner prescribed by Rule U-23 promulgated under the act and the Commission not having received a request for a hearing with respect thereto and not having ordered a hearing thereon;

The Commission finding with respect to this filing that all of the applicable statutory standards are satisfied, observing no basis for making any adverse findings with respect thereto, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration be permitted to become effective forthwith;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of the act, that the declaration be, and the same hereby is, permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[Vesting Order 14939]

JOHANNA IRMGARD KURTH SCHMITZ

In re: Bank account and securities owned by the personal representatives, heirs, next of kin, legatees and distributees of Johanna Irmgard Kurth Schmitz, deceased. F-28-11778-A-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees of Johanna Irmgard Kurth Schmitz, deceased, who there is reasonable cause to believe are residents of Germany are nationals of a designated enemy country (Germany);

2. That the property described as follows: a. That certain debt or other obligation of City National Bank and Trust Company of Chicago, 208 South La Salle Street, Chicago 90, Illinois, not heretofore vested by Vesting Order 14725, arising out of a Savings Account, Account Number 87886, entitled Johanna Kurth, maintained with the aforesaid Company and any and all rights to demand, enforce and collect the same,

b. One-half (½) interest in that certain debt or other obligation of Illinois

Timber Co., evidenced by a note, in the face value of $559.31, due July 1, 1945, issued by Illinois Timber Co., payable to Johann Kurth, and presently in the custody of City National Bank and Trust Company of Chicago, 208 South La Salle Street, Chicago 90, Illinois, and any and all rights to demand, enforce and collect said one-half (½) of the aforesaid debt or other obligation and any and all accruals thereto, together with the right to possession of the aforesaid note, and

c. One-half (½) interest in those certain shares of stock described in Exhibit A, attached hereto and by reference made a part hereof, registered in the names of the persons set forth in Exhibit A, and presently in the custody of City National Bank and Trust Company of Chicago, 208 South La Salle Street, Chicago 90, Illinois, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to or which is evidence of ownership or control by, the personal representatives, heirs, next of kin, legatees and distributees of Johanna Irmgard Kurth Schmitz, deceased, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the personal representatives, heirs, next of kin, legatees and distributees of Johanna Irmgard Kurth Schmitz, deceased, referred to in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 4, 1950.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[Vesting Order 15019]

MARTHA BERG

In re: Stock and bank account owned by the personal representatives, heirs, next of kin, legatees and distributees of Martha Berg, also known as Martha Gnadke, deceased. F-28-30714-A-1, F-28-30714-E-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the personal representatives, heirs, next of kin, legatees and distributees, of Martha Berg; also known as Martha Gnadke, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation of Central Savings Bank in the city of New York, 2100 Broadway, New York 23, New York, arising out of a savings account, account number 45383, entitled Martha Berg in trust for Anna Gnadke, maintained at the aforesaid bank, and any and all rights to demand, enforce and collect the same, and

b. One (1) share of $1.00 par value Class B stock of Middle States Petroleum Corporation, 170 Broadway, New York 7, New York, a corporation organized under the laws of the State of Delaware, evidenced by Trust Certificate numbered VBO 24390, registered in the name of Martha Gnadke, and presently in the custody of Mrs. Hilda Rattasep, 523 Summit Avenue, Maplewood, New Jersey, together with all declared and unpaid dividends thereon, and

c. One (1) Certificate of Deposit for five (5) shares of Class B $5.00 Preferred stock and ten (10) shares of common stock of the Standard Textile Products Company, said certificate numbered 391, registered in the name of Mrs. Martha Berg, and presently in the custody of Mrs. Hilda Rattasep, 523 Summit Avenue, Maplewood, New Jersey, together with any and all rights thereunder and thereto,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the personal representatives, heirs, next of kin, legatees and distributees of Martha Berg, also known as Martha Gnadke, deceased, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the personal representatives, heirs, next of kin, legatees, and distributees of Martha Berg, also known as Martha Gnadke, deceased, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

[Vesting Order 15027]

ALFRED MEYER

In re: Securities owned by Alfred Meyer. F-28-25635-D-1, F-28-25635-D-2.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Alfred Meyer, whose last known address is Rosa Luxemburg Strasse 16, Glienicke, Nordb. bei Berlin, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation, matured or unmatured, evidenced by one (1) Montrose-Fair Oaks, Inc., five percent first mortgage bond, due February 1952, of $250 face value, bearing the number T-217, registered in the name of Alfred Meyer, and any and all rights to demand, enforce and collect the aforesaid debt or other obligation, together with all rights in, to and under the said bond, and

b. Any and all rights, interest and claims in, to and under one (1) Participation Certificate for five (5) shares of Montrose-Fair Oaks, Inc., Series A, common stock, said certificate numbered 219, registered in the name of Alfred Meyer, including any and all distributions thereunder,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Alfred Meyer, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 28, 1950.

For the Attorney General.

FEDERAL REGISTER

VOLUME 15 NUMBER 184

Washington, Friday, September 22, 1950

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10162

AUTHORIZING THE APPOINTMENT OF FREDERICK C. KILGUSS TO THE POSITION OF DEPUTY ADMINISTRATIVE ASSISTANT ATTORNEY GENERAL IN THE DEPARTMENT OF JUSTICE WITHOUT COMPLIANCE WITH THE COMPETITIVE PROVISIONS OF THE CIVIL SERVICE RULES AND REGULATIONS

By virtue of the authority vested in me by section 2 of the Civil Service Act (22 Stat. 404) and by section 1753 of the Revised Statutes of the United States, I hereby authorize the appointment of Frederick C. Kilguss to the position of Deputy Administrative Assistant Attorney General in the Department of Justice without compliance with the competitive provisions of the Civil Service Rules and Regulations.

This order is recommended by the Attorney General.

HARRY S. TRUMAN

THE WHITE HOUSE,
September 19, 1950.

[F. R. Doc. 50-8337; Filed, Sept. 20, 1950; 2:05 p. m.]

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 2—APPOINTMENT THROUGH THE COMPETITIVE SYSTEM

EMERGENCY-INDEFINITE APPOINTMENT

Effective upon publication in the FEDERAL REGISTER, a new paragraph (i) is added to § 2.114 as set out below.

§ 2.114 *Temporary appointment* • • •

(i) *Emergency-indefinite appointment pending return of employees from armed forces.* When an employee leaves a position to enter the armed forces, the agency may make an emergency-indefinite appointment to the position pending the return of such employee. Such appointments shall be made from the Commission's registers of eligibles in the same manner as probational appointments. Any eligible who accepts an emergency-indefinite appointment pending return of an employee from the armed forces shall have his eligibility suspended from the register, except for certification for probational appointment in the agency in which serving, until he is separated from such emergency-indefinite appointment. An emergency-indefinite appointment may be terminated as required by the return of the employee from the armed forces but must be terminated not later than five years after entrance on duty. Persons given such appointments do not thereby acquire a permanent civil service status.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633. E. O. 9830, Feb. 24, 1947, 12 F. R. 1259; 3 CFR, 1947 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] HARRY B. MITCHELL,
Chairman.

TITLE 7—AGRICULTURE

Chapter VI—Soil Conservation Service, Department of Agriculture

PART 600—FUNCTION AND PROCEDURE

PROHIBITED ACTS ON LANDS ACQUIRED UNDER OR TRANSFERRED TO TITLE III; CORRECTION

Pursuant to the provisions of section 3 (a) of the Administrative procedure Act of June 11, 1946 (60 Stat. 237, 238, 5 U. S. C. 1002) paragraph (e) of § 600.5 of Chapter VI, Title 7, Code of Federal Regulations, is corrected to read as follows:

§ 600.5 *Prohibited acts on lands acquired under or transferred to Title III* • • •

(e) *Penalty.* Under the terms of section 32 (f), Title III, of the Bankhead Jones Farm Tenant Act, any violation of this section is punishable as prescribed in section 5388 of the Revised Statutes as amended (18 U. S. C. 104).

(Sec. 4, 49 Stat. 164, sec. 32, 50 Stat. 525, 58 Stat. 725; 7 U. S. C. 1011, 16 U. S. C. 590d)

Issued this 11th day of September 1950.

[SEAL] E. A. NORTON,
Acting Chief,
Soil Conservation Service.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52560]

PART 25—CUSTOMS BONDS

IMMEDIATE DELIVERY AND CONSUMPTION ENTRY BOND

Section 25.4 (a) (10), Customs Regulations of 1943 (19 CFR 25.4 (a) (10)), as amended by T. D. 52403, is hereby further amended to read as follows:

(10) Immediate delivery and consumption entry bond (single entry), customs Form 7551, in an amount equal to the value of the articles, as set forth in the entry, plus the estimated duty [1] (including any taxes required by law to be treated as duties) and the estimated amount of any other taxes imposed upon or by reason of importation, as determined at the time of entry except:

(i) When the merchandise involved will remain in customs custody until (*a*) examination has been completed, (*b*) it is found to be truly and correctly invoiced, and (*c*) it is determined that its release is not precluded by law or regulation and it is entitled to admission into the commerce of the United States, the bond shall be in an amount equal to the aggregate sum of double the estimated amount of ordinary customs duty on the merchandise (including any taxes required by law to be treated as duties) plus the estimated amount of any other tax or taxes on the merchandise collectible by the collector.

(ii) When the merchandise appears to the satisfaction of the collector to be unconditionally free of duty and not prohibited from admission into the commerce of the United States, the amount of the bond may be in such lesser amount (disregarding the value of the articles) as, in the opinion of the collector, will be sufficient to accomplish the purpose for which the bond is given, but in no case less than $100.

(iii) When the bond relates to an application for immediate delivery prior to entry, the amount shall be fixed as above set forth on the basis of the information shown in the application.

[1] When the bond is to cover merchandise granted a conditional right of entry at a reduced rate of duty, the amount of the bond shall be fixed on the basis of the maximum rate of duty prescribed by the law.

(R. S. 161, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1624. Interprets or applies secs. 485, 623, 46 Stat. 724, as amended, 759, as amended; 19 U. S. C. 1485, 1623)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: September 18, 1950.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 285]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 282]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

ILLINOIS, NEW JERSEY, WEST VIRGINIA, AND PUERTO RICO

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. In Schedule C, Item 83, the description of localities affected by declaration for continuance of rent control after December 31, 1950, is amended to read as follows:

In Cook County, the Cities of Calumet City, Chicago and Evanston, the Villages of Arlington Heights, Bedford Park, Glencoe, Justice, Morton Grove, Niles, Riverside and Schiller Park, and all unincorporated localities; in Lake County, the City of Waukegan, the Villages of Antioch and Libertyville, and all unincorporated localities; in Du Page County, the City of Elmhurst and all unincorporated localities; and in Kane County, all unincorporated localities.

This adds to Schedule C the following localities in the Chicago, Illinois, Defense-Rental Area, all based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The Village of Glencoe, Illinois, based on a declaration made on July 13, 1950.

(2) The Village of Justice, Illinois, based on a declaration made on August 3, 1950.

(3) The Village of Riverside, Illinois, based on a declaration made on August 14, 1950.

(4) The Village of Antioch, Illinois, based on a declaration made on August 15, 1950.

(5) The Village of Bedford Park, Illinois, based on a declaration made on August 17, 1950.

(6) The Cities of Elmhurst and Waukegan, Illinois, and the Villages of Arlington Heights and Schiller Park, Illinois, based on declarations made on August 21, 1950.

(7) The Village of Morton Grove, Illinois, based on a declaration made on August 22, 1950.

(8) The City of Calumet City, Illinois, based on a declaration made on August 24, 1950.

2. In Schedule C, Item 88, the description of localities affected by declarations for continuances of rent control after December 31, 1950, is amended to read as follows:

In La Salle County, the Cities of La Salle, Marseilles, Mendota, Oglesby, Ottawa and Streator, and all unincorporated localities.

This adds to Schedule C the following localities in the La Salle County, Illinois, Defense-Rental Area, all based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The City of La Salle, Illinois, based on a declaration made on August 7, 1950.

(2) The City of Ottawa, Illinois, based on a declaration made on August 15, 1950.

(3) The City of Mendota, Illinois, based on a declaration made on August 21, 1950.

(4) The City of Marseilles, Illinois, based on a declaration made on August 28, 1950.

(5) The unincorporated localities in the Defense-Rental Area which are added to Schedule C as of August 21, 1950 by virtue of the fact that declarations have been made by the Cities of Oglesby, Streator, La Salle, Ottawa and Mendota, said cities constituting the major portion of the Defense-Rental Area.

3. In Schedule C, Item 88b, the description of localities affected by declarations for continuance of rent control after December 15, 1950, is amended to read as follows:

In Tazewell County, the Cities of East Peoria and Pekin, and all unincorporated localities; and in Peoria County, the City of Peoria, the Villages of Glasford and Peoria Heights, and all unincorporated localities.

This adds to Schedule C the following localities in the Peoria, Illinois, Defense-Rental Area, all based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The Village of Glasford, Illinois, based on a declaration made on August 7, 1950.

(2) The Village of Peoria Heights, Illinois, based on a declaration made on August 21, 1950.

(3) The City of East Peoria, based on a declaration made on August 29, 1950.

4. In Schedule C, Item 94, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Logan County, the City of Lincoln; in Macon County, the Cities of Decatur and Maroa, the Village of Argenta and all unincorporated localities; and in Sangamon County, the City of Springfield and all unincorporated localities.

This adds to Schedule C the following localities in the Springfield-Decatur, Illinois, Defense-Rental Area, all based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The City of Lincoln, Illinois, and the Village of Argenta, Illinois, based on declarations made on August 21, 1950.

(2) The City of Springfield, Illinois, based on a declaration made on August 24, 1950.

(3) The City of Maroa, Illinois, based on a declaration made on August 28, 1950.

(4) The unincorporated localities in the Defense-Rental Area which are added to Schedule C as of August 24, 1950, by virtue of the fact that declarations have been made by the Cities of Decatur, Lincoln and Springfield, Illinois, and the Village of Argenta, Illinois, said municipalities constituting the major portion of the Defense-Rental Area.

5. In Schedule C, Item 188a, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Camden County, the City of Camden and the Boroughs of Lindenwold, Oaklyn, and Woodlynne; and in Burlington County, the City of Burlington.

This adds to Schedule C the following localities in the Southern New Jersey Defense-Rental Area, both based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The Borough of Woodlynne, New Jersey, based on a declaration made on August 9, 1950.

(2) The City of Burlington, New Jersey, based on a declaration made on September 5, 1950.

6. In Schedule C, Item 190, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Bergen County, the Cities of East Rutherford and North Arlington and the Boroughs of Closter, Fort Lee and Teterboro; in Hudson County, the Cities of Bayonne, Hoboken, Jersey City and Union City, the Town of West New York and the Township of North Bergen; in Union County, the City of Linden and the Borough of Roselle; in Essex County, the City of Newark; in Morris County, the Township of Hanover; and in Monmouth County, the City of Long Branch and the Borough of Red Bank.

This adds to Schedule C the following localities in the Northeastern New Jersey Defense-Rental Area, both based on declarations made by local governing bodies in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended:

(1) The Borough of Closter, New Jersey, based on a declaration made on August 21, 1950.

(2) The Borough of Red Bank, New Jersey, based on a declaration made on September 5, 1950.

7. In Schedule C, Item 354b, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Raleigh County, the Towns of Mabscott and Sophia.

This adds to Schedule C the Town of Mabscott, West Virginia, a portion of the Bluefield, West Virginia, Defense-Rental Area, based on a declaration made on July 24, 1950 by the local governing body of said Town in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

8. In Schedule C, Item 371, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Puerto Rico, the Municipalities of Carolina, Cayey, Cidra, Corozal, Isabella, Loiza, Naranjito, San Lorenza and San Sebastian.

This adds to Schedule C the Municipality of Corozal in the Puerto Rico Defense-Rental Area, based on a declaration made on August 29, 1950, by the local governing body of said Municipality in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947 as amended.

9. The following new items are incorporated in Schedule C:

Name of defense-rental area, State, and localities affected by declarations for continuance of rent control after December 31, 1950.

(83b) Crab Orchard, Illinois; in Jackson County, the City of Carbondale; and in Williamson County, the City of Herrin.

(86) Joliet, Illinois; in Will County, the Cities of Joliet and Lockport and the Village of Rockdale.

(87) Kankakee, Illinois; in Kankakee County, the Villages of Bourbonnais and Bradley.

(89) Quad Cities, Illinois; in Rock Island County, the City of East Moline.

(174) St. Louis, Mo., Illinois; in Madison County, the City of Madison; and in St. Clair County, the City of East St. Louis and the Village of New Athens.

This addition to Schedule C is based upon declarations made in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended, by the local governing bodies of the following localities:

(1) The City of Joliet, Illinois, based on a declaration made on July 24, 1950.

(2) The Village of Rockdale, Illinois, based on a declaration made on July 28, 1950.

(3) The Village of New Athens, Illinois, based on a declaration made on August 7, 1950.

(4) The City of East St. Louis, Illinois, based on a declaration made on August 9, 1950.

(5) The Cities of East Moline and Lockport, Illinois, and the Villages of Bradley and Bourbonnais, Illinois, based on declarations made on August 21, 1950.

(6) The City of Herrin, Illinois, based on a declaration made on August 28, 1950.

(7) The Cities of Carbondale and Madison, Illinois, based on declarations made on August 29, 1950.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Supp. 1894)

This amendment shall be effective with respect to each locality covered thereby as of the date on which the declaration affecting that locality was made.

Issued this 19th day of September 1950.

ED DUPREE,
Acting Housing Expediter.

[F. R. Doc. 50-8320; Filed, Sept. 21, 1950; 8:50 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 522—EMPLOYMENT OF LEARNERS

SINGLE PANTS, SHIRTS AND ALLIED GARMENTS, WOMEN'S APPAREL, SPORTSWEAR AND OTHER ODD OUTERWEAR, RAINWEAR, ROBES AND LEATHER AND SHEEP-LINED GARMENTS DIVISIONS OF THE APPAREL INDUSTRY

By notice dated August 18, 1950, and published in the FEDERAL REGISTER on August 25, 1950 (15 F. R. 5701), the Administrator of the Wage and Hour Division, United States Department of Labor, announced the adoption, effective September 25, 1950, of amended regulations governing the employment of learners in the single pants, shirts and allied garments, women's apparel, sportswear and other odd outwear, rainwear, robes and leather and sheep-lined garments divisions of the apparel industry (29 CFR 522.160–522.166).

Upon further consideration of said amended regulations, as published, it has been determined that several sections thereof require formal correction and clarification. Accordingly, pursuant to the authority vested in me under section 14 of the Fair Labor Standards Act, as amended, notice is hereby given that, effective September 25, 1950, the following amendments to said amended regulations, are adopted:

1. Section 522.161 (a) (1) is amended to read as follows:

(1) Women's Apparel, defined as follows: The production of women's, misses' and juniors' dresses, washable service garments and blouses from woven or purchased knit fabric, women's, misses', children's and infants' underwear, nightwear and negligees from woven fabrics; corsets and other body supporting garments from any material; other garments similar to the foregoing; and infants' and children's outerwear.

2. Section 522.162 (a), Column B (1) and (2) is amended as follows:

B. Duration of learning period.
Maximum learning period of 480 hours [1] for any occupation listed in Column A (1), but not more than a 320-hour learning period in such occupation if, within the previous 2 years, the worker had 160 hours or more of experience in another occupation listed.
Maximum learning period of 160 hours.[1]

[1] If, within the previous 2 years, the worker has been employed for less than 480 hours in any occupation listed in Column A (1), or for less than 160 hours in the occupation of final inspection of assembled garments specified in Column A (2), and is being trained as a learner in the same occupation, the number of hours of previous employment should be deducted from the applicable maximum learning period.

3. Section 522.162 (b), Column B (1) and (2) is amended to read as follows:

B. Duration of Learning Period
Maximum learning period of 480 hours [1] in any occupation listed in Column A (1), but not more than a 320-hour learning period in such occupation if, within the previous 2 years, the worker had 160 hours or more of experience in another occupation listed: *Provided, however,* That the maximum learning period prescribed in this column in any occupation listed in Column A (1), except pressing, is extended by 160 additional hours for learners hired prior to Jan. 1, 1951.[1a]
Maximum learning period of 160 hours.[1]

[1] If, within the previous 2 years, the worker has been employed for less than 480 hours in any occupation listed in Column A (1), or for less than 160 hours in the occupation of final inspection of assembled garments specified in Column A (2), and is being trained as a learner in the same occupation, the number of hours of previous employment should be deducted from the applicable maximum learning period.

[1a] The 160 additional hours for learners hired prior to January 1, 1951, does not apply to workers who, prior to September 25, 1950, completed the maximum learning period authorized under special certificates issued pursuant to previous regulations.

(Sec. 14, 52 Stat. 1068; 29 U. S. C. 214)

Signed at Washington, D. C. this 18th day of September 1950.

WM. R. MCCOMB,
Administrator, Wage and Hour Division, United States Department of Labor.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.335 is hereby revoked, §§ 203.10, 203.75, 203.190 (f), 203.225 (f), 203.245, 203.700, 203.706 (c), 203.711, and 203.714 (c) (1) are hereby amended, the cross reference note following § 203.700 is changed so as to follow § 203.706, and §§ 203.430 and 203.680 are hereby prescribed, as follows:

§ 203.10 *Kennebec River, Me.; Bridges.* (a) The regulations in this section shall govern the operation of the following bridges of the Maine State Highway Commission across Kennebec River, Maine:

(1) Highway and railroad bridge between Bath and Woolwich.

(2) Highway bridge between Richmond and Dresden.

(3) Highway bridge between Gardiner and Randolph.

(b) The owners of or agencies controlling these bridges shall provide the necessary tenders and the proper mechanical appliances for the safe, prompt, and efficient opening of the draws for the passage of vessels.

(c) Except as otherwise provided in paragraphs (d) and (e) of this section, the draw of each bridge shall, upon receiving the prescribed call signal, be opened promptly for the passage of any vessel or other watercraft not able to pass under the closed bridge.

(d) The draw of the bridge between Bath and Woolwich shall not be opened when a train is approaching so closely that it cannot safely be stopped before reaching the bridge, or when a passenger or mail train is approaching within sight or hearing of the draw tender.

(e) The draws of the bridges between Richmond and Dresden and between Gardiner and Randolph shall not be required to be opened between 9:00 p. m. and 5:00 a. m. except when advance notice of the time an opening is desired is given to the draw tender in person or by telephone or letter. The owners of or agencies controlling these bridges shall provide arrangements whereby the draw tenders can be readily reached by telephone or otherwise at any time between 5:00 a. m. and 9:00 p. m. Notices stating exactly how the draw tender may be reached shall be posted in the same manner as the copies of the regulations posted in accordance with paragraph (i) of this section.

(f) Sound signals: To be used if weather conditions are such that sound signals can be heard.

(1) *Call signal for opening of draw.* Three distinct blasts of a whistle, horn, or megaphone, or three loud and distinct strokes of a bell, sounded within reasonable hearing distance of the bridge.

(2) *Acknowledging signals*—(i) *When draw can be opened immediately.* Same as call signal.

(ii) *When draw cannot be opened immediately.* Two distinct blasts of a whistle, horn, or megaphone, or two loud and distinct strokes of a bell.

(g) Visual signals: To be used if weather conditions are such that sound signals may not be heard.

(1) *Call signal for opening of draw.* A flag by day or a lighted lantern by night, swung in circles at arm's length.

(2) *Acknowledging signals*—(i) *When draw can be opened immediately.* A flag by day or a lighted lantern by night, raised and lowered in vertical plane a number of times.

(ii) *When draw cannot be opened immediately.* A flag by day or a lighted lantern by night, swung to and fro horizontally a number of times.

(h) Trains and vehicles shall not be stopped on a bridge for the purpose of delaying its opening, nor shall watercraft be handled so as to hinder or delay the operation of the draw, but all passage over or through a bridge shall be prompt to prevent delay to either land or water traffic.

(i) The owners of or agencies controlling each bridge shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can be read easily at any time, a copy of the regulations in this section.

§ 203.75 *Boston Harbor, Mass., and adjacent waters; bridges.* (a) The regulations in this section shall govern the operation of all drawbridges across Boston Harbor, Massachusetts, including the following waters in and adjacent thereto:

(1) Chelsea River.

(2) Mystic River.

(3) Malden River (excluding the Massachusetts Department of Public Works highway bridge at Medford Street, Malden).

(4) Little Mystic Channel.

(5) Charles River.

(6) Fort Point Channel.

(7) Reserved Channel.

(8) Neponset River.

(9) Weymouth Fore River.

(10) Weymouth Back River.

(b) The owners of or agencies controlling the bridges shall provide the necessary tenders and the proper mechanical appliances for the safe, prompt, and efficient opening of the draws for the passage of vessels and for assisting vessels while passing through the draws. They shall also provide and maintain in good order on the bridge piers or fenders such fixtures as may be necessary to vessels in mooring or making fast while waiting for the draws to open.

(c) Except as otherwise provided in paragraphs (g) to (i), inclusive, of this section, the draw of each bridge shall, upon verbal request or upon receiving the prescribed call signal, be opened promptly for the passage of any vessel or other watercraft not able to pass under the closed bridge: *Provided,* That the draw shall not be opened when a train or vehicle is approaching so closely that it cannot safely be stopped before reaching the draw: *Provided further,* That when any draw shall have been open for 10 minutes or longer it may be closed to permit any waiting trains, vehicles, or persons to cross, and after being so closed for 10 minutes or for such shorter time as may be necessary it shall again be opened promptly for the passage of vessels or other watercraft if there be any such desiring to pass.

NOTE: The length of time that a draw has been open shall be computed from the time the draw begins to move in opening, and the length of time that a draw has been closed shall be computed from the time that the draw ceases to move in closing.

(d) Signals:

(1) *Call signal for opening of draw.* Two long blasts followed immediately by two short blasts, sounded within signalling distance of the bridge: *Provided,* That the call signal for the city of Boston bridge across Chelsea River connecting Meridian Street, East Boston, and Pearl Street, Chelsea, shall be two long blasts followed immediately by two short blasts and one long blast: *Provided further,* That the call signal for those bridges across Mystic River, Charles River, and Fort Point Channel referred to in paragraphs (g), (h), and (i) of this section, to be given by vessels entitled to passage during closed periods under the provisions of paragraphs (f) to (i), inclusive, of this section, shall be four long blasts.

(2) *Acknowledging signals*—(i) *When draw can be opened immediately.* Three long blasts.

(ii) *When draw cannot be opened immediately.* Two long blasts.

NOTE: As used in this section, the term "long blasts" means distinct blasts of a whistle or horn of three seconds' duration, and the term "short blasts" means distinct blasts of a whistle or horn of one second's duration.

(e) Trains and vehicles shall not be stopped on a bridge for the purpose of delaying its opening, nor shall watercraft be handled so as to hinder or delay the operation of the draw, but all passage over or through a bridge shall be prompt to prevent delay to either land or water traffic.

(f) The general regulations contained in paragraphs (a) to (e), inclusive, of this section shall apply to all bridges except as modified by the special regulations contained in paragraphs (g) to (i), inclusive, of this section, prescribed where local conditions require to govern the operation of certain bridges. The special regulations shall not apply to vessels owned or controlled by United States Government or to vessels employed by the city of Boston or other municipality for police and fire protection. All such United States and municipal vessels shall be passed without delay through the draws of all bridges at any hour day or night.

(g) Mystic River:

(1) *Bridges from mouth to and including Boston and Maine Railroad bridge between Somerville and Medford.* The draws of these bridges shall not be required to be opened for the passage of vessels whose draft is less than 18 feet between 7:45 and 9:00 a. m., 9:10 and 10:00 a. m., and 5:00 and 6:00 p. m., except on Sundays and on legal holdays observed in the locality: *Provided*, That any vessel or other watercraft proceeding either upstream or downstream which has passed any of these bridges shall be afforded continuous passage through the succeeding bridges.

(2) *Metropolitan District Commission highway bridge opposite Harvard Street, Medford.* (i) The owner of or agency controlling this bridge will not be required to keep a draw tender in constant attendance.

(ii) Whenever a vessel unable to pass under the closed bridge desires to pass through the draw between 8:00 a. m. and 4:30 p. m. on all days other than Sundays and legal holidays observed in the locality, notice to that effect shall be given to the Superintendent of Bridges, Metropolitan District Commission, Charles River Dam, Boston, Massachusetts, at least one hour in advance of the time passage is desired. Whenever an opening is required between 4:30 p. m. and 8:00 a. m. on all days other than Sundays and legal holidays observed in the locality, notice to that effect shall be given to the Superintendent of Bridges not later than 4:00 p. m. Whenever an opening is required on a Sunday or a legal holiday observed in the locality, notice to that effect shall be given to the Superintendent of Bridges not later than 4:00 p. m. of the day preceding the Sunday or holiday on which the opening is required. In case of emergency, the draw shall be opened promptly upon notification.

(iii) The owner of or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides of the bridge, in such manner that it can easily be read at any time, a copy of the special regulations in this paragraph pertaining to the bridge together with a notice stating how the Superintendent of Bridges may be reached.

(h) Charles River: The draws of the bridges from the mouth to and including the Metropolitan District Commission bridge between Boston and Cambridge (at Charles River Dam) shall not be required to be opened for the passage of vessels between 6:15 and 9:10 a. m. and 4:15 and 7:40 p. m., except on Sundays and on legal holidays observed in the locality: *Provided*, That when high tide at Charleston Navy Yard occurs between 6:15 and 9:10 a. m. the draws shall be opened within 45 minutes before or after high tide for a period of 10 minutes for the passage of all vessels or other watercraft whose draft is 12 feet or over if there be any such desiring to pass, the exact time of opening to be prescribed by the railroad companies, due regard being had for causing minimum interference with railroad schedules, highway traffic, and the interests of navigation, and the opening time of each bridge to be so fixed as to permit continuous passage through the next and following bridges located in direction of course of the vessels or other watercraft.

(i) Fort Point Channel:

(1) *City of Boston highway bridges at Northern Avenue, Congress Street, and Sumner Street.* The draws of these bridges shall not be required to be opened for the passage of vessels whose draft is less than 18 feet between 6:30 and 7:05 a. m., 7:15 and 8:00 a. m., 8:10 and 9:00 a. m., 4:30 and 5:20 p. m., 5:30 and 6:20 p.m., and 6:30 and 7:00 p. m., except on Sundays and on legal holidays observed in the locality: *Provided*, That any vessel or other watercraft proceeding either upstream or downstream which has passed any of these bridges shall be afforded continuous passage through the succeeding bridges.

(2) *Bridges upstream from Sumner Street Bridge.* The draws of these bridges shall not be required to be opened for the passage of vessels between 6:15 and 9:10 a. m. and 4:15 and 7: 40 p. m., except on Sundays and on legal holidays observed in the locality: *Provided*, That when high tide at Charlestown Navy Yard occurs between 6: 15 and 9: 10 a. m. the draws shall be opened within 45 minutes before or after high tide for a period of 10 minutes for the passage of all vessels or other watercraft whose draft is 12 feet or over if there may be any such desiring to pass, the exact time of opening to be prescribed by the railroad companies, due regard being had for causing minimum interference with railroad schedules, highway traffic, and the interests of navigation, and the opening time of each bridge to be so fixed as to permit continuous passage through the next and following bridges located in direction of course of the vessels or other watercraft.

§ 203.190 *Navigable waters in the State of New York and their tributaries; bridges where constant attendance of draw tenders is not required.* • • •

(f) The bridges to which this section applies, and the regulations applicable in each case, are as follows:

• • • • •

(8) Tonawanda Creek; The New York Central Railroad Company bridge between Tonawanda and North Tonawanda. From December 16 to March 31, inclusive, at least 12 hours' advance notice required. From April 1 to December 15, inclusive, the bridges shall be left in full open position whenever a draw tender is not in attendance.

§ 203.225 *Navigable waters in the State of New Jersey; bridges where constant attendance of draw tender is not required.* • • •

(f) The bridges to which this section applies, and the regulations applicable in each case, are as follows:

• • • • •

(3–a) Woodbridge Creek; The Central Railroad Company of New Jersey bridge at Maurer. At least four hours' advance notice required.

• • • • •

§ 203.245 *Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.* • • •

(h) *Waterways discharging into Atlantic Ocean south of Charleston.* • • •

(10) Savannah River, S. C. and Ga.; Charleston & Western Carolina Railway Company bridge near Augusta, Ga. At least three hours' advance notice required.

(11) Ogeechee River, Ga.; • • •

(12) Altamaha River, Oconee River, and Ocmulgee River, Ga. • • •

(13) Satilla River, Ga.; • • •

(14) Nassau Sound, Fla.; • • •

(15) Clapboard Creek and Broward River (Cedar Creek), Fla.; • • •

(16) St. Johns River, Fla.; Florida East Coast Railway Company bridge at Cook's Ferry. • • •

• • • • •

(j) *Waterways discharging into Gulf of Mexico west of Mississippi River.* • • •

(26) Nueces Bay, Tex.; Texas Highway Department bridge between Corpus Christi and Portland. On Sundays, Texas State holidays, and National holidays, and between 9:00 p. m. and 6:00 a. m. on all other days, advance notice required; to be given prior to 8:00 p. m. on a day a draw tender is required to be in attendance: *Provided*, That during a hurricane alert or in the event of a major disaster affecting the Nueces Bay area a draw tender shall be in constant attendance and the draw opened promptly on signal.

§ 203.335 *Aquia Creek, Va.; bridge of Richmond, Fredericksburg and Potomac Railroad.* [Revoked.]

§ 203.430 *St. Johns River, Fla.; State Road Department of Florida bridge (Acosta Bridge) between Riverside Avenue viaduct, Jacksonville, and Miami Road, South Jacksonville.* (a) Between 7:30 a. m. and 9:00 a. m., and between 4:30 p. m. and 6:00 p. m., on all days other than Sundays and legal holidays, the draw need not be opened for the passage of vessels: *Provided*, That the draw shall be opened at any time for the passage of a vessel in an emergency involving danger to life or property, which shall be indicated by four blasts of a whistle, horn, or megaphone.

(b) In all other respects, the regulations contained in this section shall govern the operations of this bridge.

§ 203.680 *Trail Creek, Ind.; The Michigan Central Railroad Company bridge, Michigan City.* (a) The draw shall be opened promptly on signal for the passage of vessels between 6:30 a. m. and 2:30 p. m. daily, except Sundays, from February 16 to December 14, inclusive, of each year.

(b) From December 15 to February 15, inclusive, on all Sundays, and between 2:30 p. m. and 6:30 a. m. on all other days, the owner of or agency controlling the bridge need not keep a draw tender in constant attendance.

(c) Whenever a vessel, unable to pass under the closed bridge, desires to pass through the draw during one of the periods specified in paragraph (b) of this section and a draw tender is not in attendance, the Chief Dispatcher, The Michigan Central Railroad Company, Chicago, Illinois, shall be so notified by telephone (collect). The Chief Dispatcher shall then make arrangements for the draw to be opened within 20 minutes after notification or at such other time as may be specified in the notice.

(d) The owner of or agency controlling the bridge shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can easily be read at any time, a copy of the regulations in this section together with a notice stating exactly how the Chief Dispatcher may be reached by telephone.

§ 203.700 *Saginaw River, Mich.; bridges.* (a) The owners of or agencies controlling drawbridges across the Saginaw River shall provide the necessary tenders and the proper mechanical appliances for the safe, prompt, and efficient opening of the draws for the passage of vessels.

(b) Sound signals: To be used if weather conditions are such that sound signals can be heard:

(1) *Call signal for opening of draw.* One long blast, two short blasts, and one long blast of a whistle, horn, or siren, repeated at intervals until the acknowledging signal is received from the bridge: *Provided*, That when a vessel is about to leave a point between two drawbridges and within sight of hearing of both to pass through the draw upstream, the call signal shall be followed after a brief interval by an additional short blast.

(2) *Acknowledging signals*—(i) *When draw can be opened immediately.* Same as call signal.

(ii) *When draw cannot be opened immediately, or when it is open and must be closed immediately.* Four or more short and rapid blasts of a whistle, horn, or siren, or four or more sharp and rapid strokes of a bell, repeated at intervals until acknowledged by the vessel. The vessel shall acknowledge by one long blast followed by one short blast.

(c) Visual signals: To be used in conjunction with sound signals if weather conditions are such that sound signals may not be heard:

(1) *Call signal for opening of draw.* A white flag by day or a white light by night, swung in full circles at arm's length in full sight of the bridge and facing the draw.

(2) *Acknowledging signals*—(i) *When draw can be opened immediately.* A white flag by day or a green light by night swung up and down vertically a number of times in full sight of the vessel.

(ii) *When draw cannot be opened immediately, or when it is open and must be closed immediately.* A red flag by day or a red light by night, swung to and fro horizontally in full sight of the vessel, repeated until acknowledged by the vessel. The vessel shall acknowledge by the same signal.

(d) Trains and vehicles shall not be stopped on a bridge for the purpose of delaying its opening, nor shall watercraft be handled so as to hinder or delay the operation of the draw, but all passage over or through a bridge shall be prompt to prevent delay to either land or water traffic.

(e) Except as otherwise provided in paragraph (g) of this section, the draw of each bridge shall, upon receiving the prescribed call signal, be opened promptly for the passage of any vessel or other watercraft of 20 tons or more not able to pass under the closed bridge: *Provided*, That the opening of the draw of a railroad bridge may be delayed not to exceed five minutes after receipt of signal to permit the passage thereover of a mail or passenger train which is ready to cross at the time the signal is given.

(f) Except as otherwise provided in paragraph (g) of this section, the draw of each bridge shall, upon receiving the prescribed call signal, be opened as soon as practicable for the passage of any vessel or other watercraft of less than 20 tons: *Provided*, That no such vessel shall be delayed for a longer period than 15 minutes.

(g) Special regulations for bridges at Saginaw: (1) The owners of or agencies controlling drawbridges at Saginaw need not keep draw tenders in constant attendance.

(2) For openings of the draws of the City of Saginaw highway bridge at Sixth Avenue and bridges upstream therefrom below the Court Street fixed bridge, from November 16, to March 31, inclusive, and between 11: 00 p. m. and 7: 00 a. m. from April 1 to November 15, inclusive, at least three hours' advance notice is required.

(3) For openings of the draws of bridges upstream from the Court Street fixed bridge, at least 24 hours' advance notice is required.

(4) Advance notice as required by this paragraph shall be given to the Bridge Operations Officer, Police Department, City of Saginaw, whose telephone number is 8191. Charges for long-distance telephone calls directed to that officer may be reversed. In the case of bridges which are not owned or controlled by the City of Saginaw, the Bridge Operations Officer shall be responsible for relaying the necessary information to the owners or agencies concerned. Advance notice shall include the name of the vessel, its location at the time notice is given, if inbound the exact destination and expected time of arrival, and if outbound the point and time of departure. The actual opening in each case will be accomplished only after exchange of the prescribed signals.

(h) The owner of or agency controlling each bridge shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can be easily read at any time, a copy of the regulations in this section pertaining to the particular bridge.

CROSS REFERENCE: Black Rock Canal, Ferry Street Bridge, see § 207.590. (This note eliminated.)

§ 203.706 *Sandusky Bay, Ohio.*

(c) *The New York Central Railroad Company Bridge across East Cove at foot of Washington Street, Sandusky.* (1) The draw shall be in full open position at all times from March 16 to December 31, inclusive, except that it may be closed five minutes in advance of the time a train is expected to cross the bridge. The cycle of the draw from open position through closed position to open position shall not exceed 20 minutes.

• • • • •

(4) From January 1 to March 15, inclusive, whenever a vessel unable to pass under the closed bridge desires to pass through the draw, at least 24 hours' advance notice of the time the opening is required shall be given to the authorized representative of the owner of or agency controlling the bridge.

(5) Upon receipt of such advance notice, the authorized representative shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(6) The owner of or agency controlling the bridge shall keep conspicuously posted on both sides thereof, in such manner that it can be easily read at any time, a copy of the regulations in this paragraph together with a notice stating exactly how the representative specified in subparagraph (4) of this paragraph may be reached.

CROSS REFERENCE: Black Rock Canal, Ferry Street Bridge, see § 207.590. (This note added.)

§ 203.711 *Los Angeles and Long Beach Harbors, Calif.*—(a) *Entrance Channel to Long Beach Inner Harbor; pontoon bridge.* (1) The call signal for opening the draw shall be one long blast followed by two short blasts. This signal shall be acknowledged by two long blasts followed by one short blast when the draw can be opened immediately, and by two long blasts when the draw cannot be opened immediately.

NOTE: As used in this section, the term "long blasts" means distinct blasts of a whistle or horn or calls through a megaphone of four seconds' duration, and the term "short blasts" means distinct blasts of a whistle or horn or calls through a megaphone of one second's duration.

(2) The owner of or agency controlling this bridge shall keep conspicuously posted on the south and north sides thereof, in such manner that they can be easily read from approaching vessels, signs showing the call and acknowledging signals prescribed in subparagraph (1) of this paragraph.

(b) *Cerritos Channel; Commodore Schuyler F. Heim highway bridge, and Henry Ford (Badger) Avenue railroad and highway bridge approximately 130 feet westerly thereof.* (1) From 7:30 a. m. to 8:00 a. m. and from 4:30 p. m. to 5:00 p. m. daily, except Saturdays, Sundays, and holidays, the draw of the Commodore Schuyler F. Heim bridge shall not be opened for the passage of vessels except in case of emergency. The draw of the Henry Ford Avenue bridge shall be opened with the least possible delay at any time on receiving the prescribed signal.

• • • • •

§ 203.714 *San Joaquin River and its tributaries, Calif.* • • •

(c) *Middle River*—(1) *The Atchison, Topeka, and Santa Fe Railway Company bridge near Middle River Station.* (i) The signal for opening this bridge shall be two long blasts followed by one short blast.

(ii) On Sundays and national holidays, and between 5:00 p. m. and 8:00 a. m. on all other days, at least 12 hours' advance notice required, to be given to the railway company's agent at Stockton: *Provided*, That any advance notice shall be sufficient if given verbally to the draw tender while he is on duty, or by telephone to the railway company's agent at Stockton before 4:00 p. m. on any day except a Sunday or national holiday.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[S. O. 865, Amdt. 2]

PART 95—CAR SERVICE

DEMURRAGE ON FREIGHT CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 19th day of September A. D. 1950.

Upon further consideration of Service Order No. 865 (15 F. R. 6197), and good cause appearing therefor: It is ordered, that:

Section 95.865 *Demurrage on freight cars*, of Service Order No. 865 be, and it is hereby further amended by substituting the following paragraph (c) for paragraph (c) thereof:

(c) *Application.* (1) The provisions of this order, subject to the following exceptions, shall apply to intrastate and interstate traffic as well as foreign traffic, including commerce with insular possessions and the territories of Alaska and Hawaii.

Exceptions. Import, Export, coastwise (including Great Lakes) or intercoastal bulk freight (including vessel fuel coal and coke) or explosives during the period such bulk freight or explosive is held in cars at ports for transfer to vessels is not subject to this order. Bulk freight means any carload freight consisting of any non-liquid, non-gaseous commodity shipped loose or in mass and which in the unloading thereof is ordinarily shoveled, scooped, forked, or mechanically conveyed, or which is not in containers or in units of such size as to permit piece by piece unloading.

Effective date. This amendment shall become effective at 7:00 a. m., September 20, 1950.

It is further ordered, that a copy of this order and direction be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 984]

HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

BUDGET OF EXPENSES OF THE WALNUT CONTROL BOARD AND CHANGE IN THE RATE OF ASSESSMENT FOR THE 1950–51 MARKETING YEAR

Notice is hereby given, pursuant to the provisions of section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Congress, 60 Stat. 237), approved June 11, 1946, that the administrative rule herein set forth is proposed in accordance with the provisions of Marketing Agreement No. 105 and Order No. 84 regulating the handling of walnuts grown in California, Oregon, and Washington.

Prior to the final issuance of such administrative rule, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than the close of business on the 10th day after the date of the publication of this notice in the FEDERAL REGISTER, except that, if said 10th day after publication should fall on a holiday or Sunday, such submission may be received by the Director not later than the close of business on the next following workday.

The Walnut Control Board, established pursuant to the provisions of the aforesaid marketing agreement and order, has transmitted to the Secretary of Agriculture its recommendations relating to the proposed budget and change in the rate of assessment.

The material submitted by the board and other information available to the Secretary was considered and it is proposed to accept the board's recommendations.

Therefore, such proposed administrative rule is as follows:

§ 984.302 *Budget of expenses of the Walnut Control Board for the marketing year beginning August 1, 1950.* (a) Expenses in the amount of $82,800.00 are reasonable and are likely to be incurred by the Walnut Control Board for its maintenance and functioning, and for such other purposes as the Secretary may, pursuant to the provisions of the marketing agreement and order, determine to be appropriate, for the marketing year beginning August 1, 1950.

(b) Change in the rate of assessment for the marketing year beginning August 1, 1950: Each handler shall pay to the Control Board on demand by the Control Board, from time to time, the sum of 0.12 cent for each pound of merchantable walnuts handled or certified for handling by him during the marketing year beginning August 1, 1950.

Done at Washington, D. C., this 18th day of September 1950.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Branch.

[F. R. Doc. 50–8307; Filed, Sept. 21, 1950; 8:48 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR, Part 40]

AIR CARRIER OPERATING CERTIFICATION

ROUTE REQUIREMENTS; VISUAL CONTACT NIGHT OPERATION

Notice is hereby given that adoption of the following rules is contemplated.

All interested persons who desire to submit written data, views, or arguments for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Office of Aviation Safety, Washington 25, D. C., within 15 days after publication of this notice in the FEDERAL REGISTER.

§ 40.36–1 *Route requirements; visual contact night operation. (CAA rules which apply to § 40.36).* It has been determined that safe air carrier operation at night can be conducted under visual flight rules, when VFR conditions exist over the entire route utilizing adequate radio navigational aids in lieu of the airway beacons and obstruction lights specified in CAR 40.36 where (a) sufficient radio aids coverage will provide safe aircraft navigation by that means, (b) the radio equipment in the aircraft and the ground navigation aids are in normal operation during the time the flights are being conducted, and (c) airport beacon, obstruction lights, runway (contact) lights, and such other lighting facilities deemed necessary by the Administrator are in operation at all terminals and intermediate stops.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[SEAL] DONALD W. NYROP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 50–8287; Filed, Sept. 21, 1950; 8:45 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Parts 7 and 8]

[Docket No. 9707]

COASTAL AND MARINE RELAY SERVICES, AND SHIP SERVICES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Proposed revisions of Parts 7 and 8 of the Commission's rules are set forth below. The proposed rules represent extensive changes designed to make Parts 7 and 8 appropriate not only to the current but also the anticipated circumstances of the maritime services, including revisions reflecting provisions of applicable international treaties and agreements now in force or which, it is believed, will come into force within the foreseeable future. The proposed rules also provide for the regularization of certain presently experimental uses of maritime mobile frequencies. However, pending the accrual of further experience, other such uses are continued in a developmental status.

3. These proposed rules are issued under authority of Titles II and III of the Communications Act of 1934, as amended, and pursuant to the Radio Regulations in effect annexed to the International Telecommunication Convention (Madrid, 1932) and (Atlantic City, 1947) and the International Convention for the Safety of Life at Sea (London, 1929).

4. Any interested party who is of the opinion that the proposed rules should not be adopted, or should not be adopted in the form set forth herein may file with the Commission on or before November 15, 1950, a written statement or brief setting forth his comments. At the same time, any person who favors the rules as set forth may file a statement in support thereof. The Commission will consider all comments, briefs and statements presented before taking final action in the matter. If any comments are received which appear to warrant the Commission in holding an oral argument before final action is taken, notice of the time and place of such oral argument will be given such interested parties.

5. In accordance with the provisions of § 1.764 of the Commission's Rules, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: September 13, 1950.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

Sec.
7.1 Basis and purpose.

SUBPART A—DEFINITION OF TERMS

7.2 General.
7.3 Maritime mobile service.
7.4 Maritime radiolocation service.
7.5 Maritime fixed services.
7.6 Developmental maritime stations on land.
7.7 Operational.
7.8 Technical.

SUBPART B—APPLICATIONS

7.21 Authorization required for operation and construction of station.
7.22 Administrative classification of stations.
7.23 Statutory eligibility for station license.
7.24 Application precedent to authorization.
7.25 Signature on applications.
7.26 Informal applications.
7.27 Defective applications.
7.28 Amendments of applications.
7.29 Dismissal of applications.
7.30 Partial grant of application.
7.31 Establishment of station.
7.32 Changes prior to completion of station.
7.33 Applications concerning marine-utility stations.
7.34 Temporary and permanent station locations.
7.35 Application for station license.
7.36 Changes during license term.
7.37 Renewal of license.
7.38 Reinstatement of license.
7.39 Applications filed concurrently.
7.40 One application for plurality of stations.
7.41 Application for special temporary authority.
7.42 Application for consent to assignment or transfer of control of construction permit or station license.
7.43 Application precedent to hearing.
7.44 Failure to prosecute applications.
7.45 Inconsistent or conflicting applications.
7.46 Applications for voluntary discontinuance, reduction, or impairment of service at a public coast station.

SUBPART C—STATION AUTHORIZATIONS

7.61 Construction period.
7.62 Forfeiture of construction permit.
7.63 Changes in licensed station.
7.64 Equipment and service tests.
7.65 Normal license period.
7.66 Period of modified license.
7.67 Simultaneous modification and renewal.
7.68 One license for plurality of marine-utility stations.
7.69 Transfer or assignment of station authorization.
7.70 Authorized station location.
7.71 Authorized control point.
7.72 Assignment of call signs.
7.73 Operation during emergency.
7.74 Involuntary suspension of station operation.
7.75 Voluntary suspension or discontinuance of station operation.

SUBPART D—GENERAL STATION REQUIREMENTS

7.101 Inspection of stations.
7.102 Posting of station license.
7.103 Requirements concerning station location.
7.104 Facilities required for public coast stations.
7.105 Special provisions relative to VHF facilities.
7.106 Operating controls.
7.107 Antenna requirements.
7.108 Adjustment of equipment.
7.109 Measurement of emission frequencies.
7.110 Measurement of transmitter power.
7.111 Modulation adjustments for telephony.
7.112 General requirements for receiving apparatus.
7.113 Facilities for busy signal in telephony.
7.114 Required coast station clock.
7.115 Retention and availability of radio station logs.
7.116 Requirements as to control points.

SUBPART E—STANDARD TECHNICAL REQUIREMENTS

7.131 Authorized frequency tolerance.
7.132 Authorized classes of emission.
7.133 Authorized emission bandwidths.
7.134 Authorized transmitter power.
7.135 Suppression of receiver radiation.
7.136 Type approval of transmitters for licensing.
7.137 Special requirements for radiotelephone transmitters.
7.138 Special requirements for radar transmitters.

SUBPART F—OPERATOR REQUIREMENTS

7.151 Authorized operator required.
7.152 Location of authorized operator.
7.153 Unattended operation of fixed stations.
7.154 Adjustment or test of equipment.
7.155 Posting of operator license.

SUBPART G—GENERAL OPERATING REQUIREMENTS

7.171 International regulations applicable.
7.172 Cooperative use of frequency assignments.
7.173 Secrecy of communication.
7.174 Unauthorized transmissions.
7.175 Suspension of transmission.
7.176 Service of public coast stations.
7.177 Service of limited coast stations and marine-utility stations.
7.178 General obligations of land stations.
7.179 Message charges.
7.180 Priority of communications to be observed.
7.181 Order of priority of communications.
7.182 Control by coast station.
7.183 Prevention of interference.

Sec.
7.184 Transmission of traffic lists by coast stations.
7.185 Transmission to plurality of mobile stations.
7.186 Hours of service of land stations.
7.187 Procedure relative to distress communication.
7.188 Radiotelegraph watch by coast stations.
7.189 Radiotelephone watch by coast stations.
7.190 Maintenance tests.
7.191 Inspection of antenna tower lighting.
7.192 Maintenance of station log.

SUBPART H—COAST STATIONS: USE OF TELEGRAPHY

7.201 Supplemental eligibility requirements for public coast station authorization.
7.202 Points of communication of public coast stations.
7.203 Supplemental eligibility requirements for limited coast station authorization.
7.204 Points of communication of limited coast stations.
7.205 Nature of service of limited coast stations.
7.206 Assignable frequencies.
7.207 Frequencies for calling.
7.208 Frequencies for working.
7.209 Use of Morse Code required.
7.210 Identification of stations.
7.211 Procedure in testing.
7.212 Radiotelegraph operating procedure.
7.213 Station documents.
7.214 Station records.

SUBPART I—PUBLIC COAST STATIONS: USE OF TELEPHONY

7.301 Supplemental eligibility requirements.
7.302 Points of communication.
7.303 Duplication of facilities.
7.304 Assignable frequencies.
7.305 Frequencies for calling and distress.
7.306 Availability of frequencies below 30 Mc.
7.307 Availability of frequencies above 100 Mc.
7.308 Conditions imposed upon assignments in 156–162 Mc. band.
7.309 Use of assigned frequency 156.8 Mc.
7.310 Identification of station.
7.311 Procedure in testing.
7.312 Limitations on calling.
7.313 Station documents.
7.314 Station records.

SUBPART J—LIMITED COAST STATIONS AND MARINE-UTILITY STATIONS—USE OF TELEPHONY

7.351 Supplemental eligibility requirements.
7.352 Cooperative use of facilities.
7.353 [Deleted.]
7.354 Points of communication.
7.355 Nature of service.
7.356 Assignable frequencies above 30 Mc.
7.357 Conditions imposed upon assignments in 35–36 Mc. band.
7.358 Conditions imposed upon assignments in 156–162 Mc. band.
7.359 Use of assigned frequency 156.8 Mc.
7.360 Call and reply on working channels.
7.361 Use of assigned frequency 156.6 Mc.
7.362 Limitations on use of marine-utility stations.
7.363 Use of working frequencies for calling.
7.364 Time limitation on communication.
7.365 Frequencies below 3000 kc for business and operational purposes.
7.366 Availability of 2182 kc for limited coast stations.
7.367 Procedure in testing.
7.368 Limitations on calling.
7.369 Station documents.
7.370 Station records.

SUBPART K—STATIONS ON LAND IN THE MARITIME RADIOLOCATION SERVICE

7.401 Limitation on station authorizations.
7.402 Assignable frequencies.
7.403 Special conditions imposed.

SUBPART L—FIXED STATIONS ASSOCIATED WITH THE MARITIME MOBILE SERVICE

MARINE FIXED STATIONS

7.451 Supplemental eligibility requirements.
7.452 Points of communication.
7.453 Showing of need.
7.454 Assignable frequencies.
7.455 Technical requirements.
7.456 Scope of communication.
7.457 Station documents.
7.458 Station records.
7.459 Station identification.
7.460 Procedure in testing.
7.461 Operating procedure.

MARINE RECEIVER-TEST STATIONS

7.471 Eligibility requirements.
7.472 Scope of service.
7.473 Assignable frequencies.
7.474 Technical requirements.
7.475 Station identification.
7.476 Operating limitations.
7.477 Station records.

MARINE CONTROL STATIONS, MARINE REPEATER STATIONS, AND MARINE RELAY STATIONS

7.481 Eligibility requirements.
7.482 Showing of need.
7.483 Points of communication.
7.484 Frequencies assignable.
7.485 Technical requirements.
7.486 Limitation on station authorizations.

SUBPART M—DEVELOPMENTAL STATIONS

7.501 Supplemental eligibility.
7.502 Showing and statement required.
7.503 Assignable frequencies.
7.504 Use of developmental stations.
7.505 Developmental program.
7.506 Report of operation required.
7.507 Identification of station.

SUBPART N—VIOLATIONS

7.551 Answers to notice of violation.
7.552 Reports of infringements of the International Radio Regulations.

SUBPART A—DEFINITION OF TERMS

§ 7.2 *General*—(a) *Commission.* The term "Commission" means the Federal Communications Commission.[2]

(b) *Statutes and international agreements.* (1) Communication Act: The Communications Act of 1934, as amended.

(2) International Radio Regulations: The Radio Regulations annexed to the International Telecommunication Convention (Atlantic City, 1947); and the General Radio Regulations (Revision of Cairo, 1938) annexed to the International Telecommunication Convention (Madrid, 1932).

(c) *Telecommunication.* Any transmission, emission, or reception of signs, signals, writing, images, and sounds or intelligence of any nature by wire, radio, visual or other electromagnetic systems.

(d) *Radiocommunication.* Any telecommunication by means of Hertzian waves.

(e) *Public correspondence.* Any telecommunication which the offices and stations, by reason of their being at the disposal of the public, must accept for transmission.

(f) *Station.* A separate radio transmitter, or a combination of radio transmitter(s) and radio receiver(s), including the accessory equipment required for carrying on a radiocommunication service.

(g) *Station authorization.* Any valid construction permit, station license, or special temporary authority for use of a station, issued by the Commission.

(h) *Person.* Includes an individual, partnership, association, joint stock company, trust, or corporation.

(i) *Permittee.* A person who holds a valid station construction permit.

(j) *Station licensee.* A person who holds a valid station license or special temporary authorization.

(k) *Operator licensee.* A person who holds a valid license or valid permit for the actual operation of a licensed station.

(l) *Hours of service.* The period of time during each calendar day when a station is available, in conformity with the terms of the station authorization, for the rendition of its normal service.

(m) *Day.* Where the word "day" is applied to the use of a specific frequency assignment or to a specific authorized transmitter-power, such use of the word "day" shall be construed to mean transmission-power during that period of time included between one hour after local sunrise and one hour before local sunset.

(n) *Landing area.* Any locality, either of land or water, including airdromes and intermediate landing fields, which is used, or intended to be used, for the landing and take-off of aircraft, whether or not facilities are provided for the shelter, servicing, or repair of aircraft, or for receiving or discharging passengers or cargo. (See Title I, section 1 (22) of the Civil Aeronautics Act of 1938, as amended.)

(o) *Radio district.* A prescribed geographic area within the United States which, for the purpose of official inspection of radio stations in behalf of the Commission, is under the jurisdiction of a Commission engineer-in-charge whose official address and specific area of inspection associated therewith are designated by Appendix I to this part.[3]

(p) *Commercial transport vessel.* Any ship or vessel which (1) is used in commerce for transporting passengers or goods to or from any harbor(s) or port(s), or between terminals within a particular harbor or port area, or (2) is used primarily in connection with the construction, modification of construction, maintenance, repair, loading, unloading, movement, or piloting of any vessels of category (1).

(q) *Mile.* As used in this part, the term "mile" means a statute mile or 5280 feet.

§ 7.3 *Maritime mobile service*—(a) *Mobile service.* A service of radiocommunication between mobile and land stations, or between mobile stations.

(b) *Maritime mobile service.* A mobile service between ship stations and coast stations, or between ship stations.[4]

(c) *Mobile station.* A station in a mobile service intended to be used while in motion, or during halts at unspecified points.

(d) *Land station.* A station in the mobile service not intended for operation while in motion.

(e) *Coast station.* A land station in the maritime mobile service carrying on a service with ship stations.[4]

(f) *Public coast station.* A coast station open to public correspondence.

(g) *Limited coast station.* A coast station, not open to public correspondence, which serves the operational and business needs of ships.

(h) *Class I coast station.* A coast station (public or limited) licensed to provide a maritime mobile service, primarily over maximum attainable distances, to ships at sea, whose frequency assignment for this purpose includes appropriate frequencies below 150 kc or between 5,000 kc and 25,000 kc.

(i) *Class II coast station.* A coast station (public or limited) licensed to provide a maritime mobile service, primarily of a regional character, whose frequency assignment does not include any frequency below 150 kc, or between 5,000 kc and 25,000 kc except on a secondary basis under specified conditions intended to minimize the possibility of interference to other stations having priority on these frequencies.

(j) *Class III coast station.* A coast station (public or limited) licensed to provide a maritime mobile service, primarily of a local character, whose frequency assignment does not include any frequency below 25,000 kc.

(k) *Operational designator.* The letter "A", "B", or "F", appended to the term "Class I", "Class II", or "Class III", as these terms are defined in paragraphs (h), (i), and (j) of this section, designates that the coast station is licensed to render its normal service by means of (A) telegraphy, (B) telephony, or (F) facsimile.[5]

(l) *Marine-utility station.* A station in the maritime mobile service, readily portable for use as a limited coast station at unspecified points ashore within a designated local area, or for use as a limited ship station on mobile vessels within a designated local area.

§ 7.4 *Maritime Radiolocation Service*—(a) *Radiolocation.* Determination of a position or direction by means of the constant velocity or rectilinear propagation properties of Hertzian waves.

(b) *Radiolocation service.* A service involving the use of radiolocation.

(c) *Maritime radiolocation service.* A radiolocation service intended for the benefit of ships.

(d) *Radiolocation station.* A station in the radiolocation service.

(e) *Radiolocation land station.* A station in the radiolocation service not intended for operation while in motion.

(f) *Shore radiolocation station.* A radiolocation land station performing a maritime radiolocation service.

(g) *Shore radiolocation-training station.* A shore radiolocation station used solely to train and qualify persons in the effective use of maritime radiolocation.

(h) *Shore radiolocation-test station.* A shore radiolocation station used solely for testing maritime radiolocation apparatus incident to its manufacture, installation, repair, servicing and/or maintenance.

(i) *Radionavigation.* Radiolocation intended solely for the determination of position or direction or for obstruction warning, in navigation.

(j) *Radionavigation service.* A radiolocation service involving the use of radionavigation.

(k) *Maritime radionavigation service.* A radionavigation service intended for the benefit of ships.

(l) *Radionavigation station.* A station in the radionavigation service.

(m) *Radionavigation land station.* A station in the radionavigation service not intended for operation while in motion.

(n) *Shore radionavigation station.* A radionavigation land station performing a maritime radionavigation service.

(o) *Radar.* A radiolocation system where transmission and reception are carried out at the same location, and which utilizes the reflecting or retransmitting properties of objects in order to determine their position.

(p) *Primary radar.* Radar using reflection only.

(q) *Secondary radar.* Radar using automatic retransmission on the same or on a different radio frequency.

(r) *Shore-radar station.* A shore radionavigation station utilizing radar for the purpose of detecting above-water objects (primarily ships) with a determination of their direction and distance from the station.

(s) *Radio direction-finding.* Radiolocation in which only the direction of a station is determined by means of its emission.

(t) *Radio direction-finding station.* A radiolocation station intended to determine only the direction of other stations by means of transmissions from the latter.

(u) *Marine radiobeacon station.* A radionavigation land station, the emissions of which are intended to enable a ship station to determine its bearing or its direction in relation to the marine radiobeacon station.

§ 7.5 *Maritime fixed services*—(a) *Fixed service.* A service of radiocommunication between specified fixed points.

(b) *Fixed station.* A station in the fixed service.

(c) *Operational fixed station.* A fixed station, not open to public correspondence, operated by and for the sole use of agencies operating their own radiocommunication facilities in the Public Safety, Industrial, Land Transportation, Marine, or Aviation Services.

(d) *Marine fixed station.* A fixed station, used primarily for safety communication[6] which is established at a designated location in a water area of, or contiguous to, the United States, and isolated from the mainland by water or marsh.

(e) *Marine control station.* An operational fixed station used to control the emissions or operation of a coast station at a separate location.

(f) *Marine repeater station.* An operational fixed station used to retransmit, to a point of destination or to a message routing center, radiocommunications received at a coast station from ship or aircraft stations in the maritime mobile service.

(g) *Marine relay station.* An operational fixed station used for communication between coast stations or between a coast station and an associated remote control point, which is intended to expedite the movement of message traffic to or from mobile stations in the maritime mobile service.

(h) *Marine receiver-test station.* A fixed station used to simulate transmission from a ship station to a coast station for the purpose of periodically testing the normal receiving installation of a licensed coast station to determine that such receiving installation is in good working condition.

§ 7.6 *Developmental maritime stations on land*—(a) *Developmental land station.* A land station operated for the express purpose of developing equipment or a technique solely for use only in that portion of the non-government mobile service which has been specifically allocated the authorized frequency (or frequencies) of the developmental land station.

(b) *Developmental radiolocation station.* A radiolocation station operated

[2] For other definitions, refer to Part 2, Rules Governing Frequency Allocations and Treaty Matters; General Rules and Regulations; Part 8, Rules Governing Stations on Board Ships in the Maritime Services; and Part 14, Rules Governing Radio Stations in Alaska—Other than Amateur and Broadcast.

[3] The address of the Commission's principal office is "Federal Communications Commission, Washington 25, D. C."

[4] This will be identical with appendix attached to Part 12 (47 CFR Part 12).

[4] Aircraft stations, when transmitting on designated frequencies allocated to the maritime mobile service, may communicate in this service with ship stations and coast stations.

[5] Operational designators are used individually or in combinations of two or more, as may be appropriate to a particular coast station. Examples of coast station classification for regulatory and administrative purposes in accordance with these rules: Public I–A, Public III–B, Limited II–A, Limited III–BF, Public II–AB, etc.

[6] See § 7.7 (a) defining "safety communication".

for the express purpose of developing equipment or a technique solely for use only in that portion of the non-government radiolocation service (including the non-government radionavigation service) which has been specifically allocated the authorized frequency (or frequencies) of the developmental radiolocation station.

(c) *Developmental fixed station.* A fixed station operated for the express purpose of developing equipment or a technique solely for use only in that portion of the non-government fixed service which has been specifically allocated the authorized frequency (or frequencies) of the developmental fixed station.

(d) *Specific classification.* The specific classes of developmental stations on land licensed in the maritime mobile service, the maritime radiolocation service (including maritime radionavigation service), and the maritime fixed services, are the same as the classes defined in preceding sections of this Part; however, for purposes of identification, the particular class of station is followed by the parenthetical indicator "(developmental)"; for example: "Public Class III coast station (developmental)".

§ 7.7 *Operational*—(a) *Safety communication.* The transmission or reception of distress, alarm, urgent, or safety signals, or any form of radiocommunication which, if delayed in transmission or reception, may adversely affect the safety of life or property; and occasional test transmission or reception as necessary for determining whether or not the radio equipment is in good working condition for purposes of safety.

(b) *Superfluous radiocommunication.* Any transmission that is not necessary to the conduct of the service for which the station is licensed.

(c) *Harmful interference.* Any radiation or any induction which endangers the functioning of a radionavigation service or of a safety service, or obstructs or repeatedly interrupts a radio service operating in accordance with applicable laws, treaties, and regulations.

(d) *Distress signal.* (1) The distress signal is the radiotelegraph or radiotelephone signal which indicates that a ship, aircraft, or other vehicle is threatened by grave and imminent danger and requests immediate assistance.

(2) In radiotelegraphy, the international distress signal consists of the group "three dots, three dashes, three dots", transmitted as a single signal in which the dashes are emphasized so as to be distinguished clearly from the dots.

(3) In radiotelephony, the international distress signal consists of the oral enunciation of the word "MAYDAY", pronounced as the French expression "m'aider".

(e) *Alarm signal.* The international radiotelegraph signal, consisting of a series of twelve dashes sent in one minute, the duration of each dash being four seconds and the duration of the interval between two consecutive dashes being one second, having for its sole purpose the actuation of automatic devices giving warning by means of an alarm that a distress call or message is about to follow, or that an urgent cyclone warning is about to be sent by a coast station authorized to do so.

(f) *Urgency signal.* (1) The urgency signal is the radiotelegraph or radiotelephone signal which indicates that the calling station has a very urgent message to transmit concerning the safety of a ship, aircraft, or other vehicle, or of some person on board or within sight.

(2) In radiotelegraphy, the international urgency signal consists of three repetitions of the group "XXX", sent before the call, with the letters of each group and the successive groups clearly separated from each other.

(3) In radiotelephony, the international urgency signal consists of three oral repetitions of the word "PAN" pronounced as the French word "panne" and sent before the call.

(g) *Safety signal.* (1) The safety signal is the radiotelegraph or radiotelephone signal which indicates that the station sending this signal is ready to transmit a message concerning the safety of navigation or giving important meteorological warnings.

(2) In radiotelegraphy, the international safety signal consists of three repetitions of the group "TTT", sent before the call, with the letters of each group and the successive groups clearly separated from each other.

(3) In radiotelephony, the international safety signal consists of three oral repetitions of the French word "SECURITE", sent before the call.

(h) *Distress traffic.* All messages relative to the immediate assistance required by the ship, aircraft, or other vehicle in distress.

(i) *500 kilocycles silent period.* The three-minute period twice an hour beginning at x h 15 and x h 45, Greenwich mean time (GMT), during which the International Radio Regulations require that all transmissions (except for certain emissions designated in those Regulations) must cease on all frequencies within a designated frequency-band centered on 500 kc.

(j) *Watch.* The act of listening for or to sound produced by a telephone receiver when the electric wave energy at audio frequency supplied to the telephone receiver—

(1) Results from simultaneous interception and detection of Hertzian waves of a designated radio frequency or frequencies, and

(2) Is substantially equivalent in frequency to the audio frequency or frequencies generated by detection of the intercepted Hertzian waves.

(k) *Calling.* Transmission from a station solely to secure the attention of another station, or other stations, for a particular purpose.

(l) *Working.* Radiocommunication carried on, for a purpose other than calling, by any station or stations using telegraphy, telephone, or facsimile.

(m) *Control point.* An operating position associated with a particular station or stations which is—

(1) Under the control and supervision of the station licensee or his authorized agent; and

(2) A place at which the required monitoring and control facilities are available; and

(3) A place at which a duly licensed operator (or other person if the requirement for a licensed operator is waived by the Commission) responsible for the operation of the transmitter(s) is stationed.

(n) *Dispatch point.* A place from which radiocommunication may be transmitted under supervision of a responsible operator at a control point.

§ 7.8 *Technical*—(a) *Radio frequency.* Any frequency between 10 kilocycles per second and 3,000,000 megacycles per second.

(b) *Audio frequency.* A frequency corresponding to the frequency of a normally audible sound wave, usually between 20 and 15,000 cycles per second.

(c) *Hertzian waves.* Electromagnetic waves of frequencies between 10 kc and 3,000,000 Mc.

(d) *Emission.* Any radiation of energy by means of Hertzian waves.

(e) *Spurious emission.* Any emission from a station at a frequency or frequencies outside an authorized frequency-band.

(f) *Telegraphy.* A system of telecommunication for the transmission of written matter by the use of a signal code.

(g) *Telephony.* A system of telecommunication set up for the transmission of speech or, in some cases, other sounds.

(h) *Facsimile.* A system of telecommunication for the transmission of fixed images with a view to their reception in a permanent form.

(i) *Selective-calling.* A means of calling in which signals are transmitted in accordance with a prearranged code for the purpose of operating a particular automatic attention device in use at the selected station whose attention is sought.

(j) *Crystal oscillator.* A generator of alternating-current energy, the frequency of which is determined by the mechanical properties of a piezoelectric crystal.

(k) *Carrier frequency.* The frequency of the carrier.[7]

(l) *Authorized carrier frequency.* A specific carrier frequency authorized for use by a station, from which the actual carrier frequency is permitted to deviate, solely because of frequency instability, by an amount not to exceed the frequency tolerance.

(m) *Frequency tolerance.* The extent to which a carrier frequency (or when a carrier is not present, a frequency coinciding with the center of an emission-bandwidth) is permitted, by applicable regulations or by the terms of a station authorization, to depart, solely because of frequency instability, from the authorized carrier frequency (or, when a carrier is not present, from the assigned frequency).

(n) *Frequency-band.* A continuous range of frequencies extending between two designated limiting frequencies.

(o) *Bandwidth.* The number of cycles or kilocycles per second expressing the difference between the limiting frequencies of a frequency band.

[7] For the definition of "carrier", see § 2.1 in Part 2 of the Commission's rules.

(p) *Radio-channel.* A frequency-band, sufficient in width to permit its use for radiocommunication, comprised of the emission-band-width, the interference guard bands, and the frequency tolerance.

(q) *Emission-bandwidth.* The bandwidth effectively occupied by the emission of a radio-channel (the band of frequencies comprising 99 percent of the total radiated power extended to include any discrete frequency on which the power is at least 0.25 percent of the total radiated power).[8]

(r) *Interference guard bands.* The two frequency-bands additional to and on either side of, the authorized frequency-band, which may be provided to minimize the possibility of interference between different radio-channels.

(s) *Authorized emission-bandwidth.* A specific emission-bandwidth authorized for use by a station.

(t) *Authorized frequency-band.* A frequency band authorized for use by a station.

(u) *Assigned frequency.* The frequency coinciding with the center of the frequency-band in which the station is authorized to work; this frequency does not necessarily correspond to any frequency in an emission.[9]

(v) *Frequency assignment.* The specific frequency or frequencies authorized for the emission(s) of a particular station; expressed for each radio-channel by—

(1) The authorized carrier frequency, the frequency tolerance, and the authorized emission-bandwidth

(2) The authorized emission-bandwidth in reference to a specific assigned frequency (when a carrier does not exist), or

(3) The authorized frequency-band (when a carrier does not exist).

(w) *Modulation.* The process of producing a wave, some characteristic of which varies as a function of the instantaneous value of another wave called the modulated wave.

(x) *Modulation factor.* (1) In an amplitude-modulated wave, the ratio of half the difference between the maximum and minimum amplitudes to the average amplitude.

(2) In a frequency-modulated wave, the ratio of the actual frequency swing to the frequency swing defined as 100 percent modulation.

(y) *Percentage modulation.* The modulation factor expressed in percent.

(z) *Amplitude modulation (AM).* Modulation in which the amplitude of a wave is the characteristic subject to variation.

[8] This definition coincides with the definition of "Bandwidth Occupied by an Emission," which appears as paragraph 58 of the International Radio Regulations of Atlantic City, 1947. The emission-bandwidth is dependent upon the class of emission and the speed of signalling.

[9] This definition coincides with the definition of "Frequency Assigned to a Station" which appears as paragraph 57 of the International Radio Regulations of Atlantic City, 1947.

(aa) *Frequency modulation (FM).* Modulation in which the instantaneous frequency of a sine-wave carrier[10] is caused to depart from the carrier frequency by an amount proportional to the instantaneous value of the modulating wave.

(bb) *Frequency deviation.* In frequency modulation, the peak difference between the instantaneous frequency of the modulated wave and the carrier frequency.

(cc) *Frequency swing.* In frequency modulation, the peak difference between the maximum and the minimum values of the instantaneous frequency.

(dd) *Deviation ratio.* In frequency modulation, for a sinusoidal modulating wave, the ratio of the frequency deviation to the frequency of the modulating wave.

(ee) *Antenna (aerial).* A means for radiating or intercepting Hertzian waves.

(ff) *Artificial antenna (dummy antenna).* A device which has the equivalent impedance characteristics of an antenna and the necessary power-handling capabilities, but which does not radiate or intercept Hertzian waves.

(gg) *Last radio stage.* In an electron-tube radio transmitter, the radio-frequency oscillator or power amplifier stage which supplies all radio-frequency power to the antenna, either directly or through the medium of a transmission line.

(hh) *Plate (anode) input power.* The electrical power delivered to the plate (anode) of an electron tube by the source of supply; this power being the product of the effective anode voltage and the effective anode current.

(ii) *Antenna power.* The power supplied by a particular radio transmitter to the antenna used in connection with that transmitter, at a radio frequency or frequencies within an authorized frequency-band.

(jj) *Radiated power.* Energy, in the form of Hertzian waves, radiated from an antenna.

(kk) *Authorized transmitter - power.* The power of a particular transmitter as designated in the respective station license or construction permit or in lieu thereof, the power designated in the applicable Commission rule(s) or regulation(s). Unless specifically expressed otherwise, this power is the total plate input power to all electron tubes of the last radio stage of the transmitter which are used to supply radio-frequency power to the antenna measured as prescribed in § 7.134.

(ll) *Telephone receivers.* Whenever use of the following terms occurs in reference to "watch" as defined in paragraph (j) of § 7.7 such use of these terms shall be construed as follows:

(1) *Telephone receiver.* Any instrument used to convert energy consisting of electric waves at audio frequency into energy consisting of substantially equivalent sound waves.

(2) *Hand receiver.* A telephone receiver capable of being held to the ear by the hand and normally used in that manner.

(3) *Head receiver.* A telephone receiver capable of being held to the ear by an attached headband and normally used in that manner.

(4) *Loudspeaker.* A telephone receiver capable of effectively radiating acoustic power for reception by ear at a distance and normally used for that purpose.

[10] For the definition of "carrier", see § 2.1 in Part 2 of the Commission's rules.

SUBPART B—APPLICATIONS[1]

§ 7.21 *Authorization required for operation and construction of station.* (a) Any radio station required by the Communications Act to be licensed shall not be operated in the maritime mobile service, in the maritime radiolocation service, or in any maritime fixed service except under and in accordance with a valid station authorization granted by the Commission.[2] Further, the operation of such apparatus shall be conducted in conformity with the provisions of statute, international treaty or agreement, and the rules of the Commission relative to the licensing of operators.

(b) No license shall be issued by the Commission for the operation of any station subject to this part, unless a permit for its construction has first been granted by the Commission upon written application therefor.

§ 7.22 *Administrative classification of stations.* (a) Stations in the maritime mobile service subject to this part are licensed according to the class of station as designated below:

(1) Public class I coast stations.
(2) Public class II coast stations.
(3) Public class III coast stations.
(4) Limited class I coast stations.
(5) Limited class II coast stations.
(6) Limited class III coast stations.
(7) Marine utility stations.

(b) Stations in the maritime radiolocation service subject to this part (other than those exclusively in the maritime radionavigation service) are licensed according to the class of station as designated below:

(1) Shore radiolocation stations.
(2) Shore radiolocation training stations.
(3) Shore radiolocation test stations.

(c) Stations in the maritime radionavigation service subject to this part are licensed according to the class of station as designated below.

(1) Shore radionavigation stations.
(2) Shore radar stations.

[1] For additional information concerning applications and for information concerning procedure relative to hearings, oral arguments, petitions, etc., refer to Part 1 of the Commission's rules relating to practice and procedure.

[2] The Commission has exempted certain low power radio devices from its general licensing requirements. The extent of this exemption and related matters are set forth in Part 15, rules governing restricted radiation Devices. Licensing procedures and exceptions applicable to radio apparatus used for medical purposes, industrial heating, and other miscellaneous purposes not involving radiocommunication are set forth in Part 18, rules and regulations relating to industrial, scientific and medical service.

(d) Stations in the fixed service subject to this part are licensed according to the class of station as designated below:

(1) Marine fixed stations.
(2) Marine control stations.
(3) Marine repeater stations.
(4) Marine relay stations.
(5) Marine receiver-test stations.

§ 7.23 *Statutory eligibility for station license.* A station license shall not be granted to or held by:

(a) Any alien or the representative of any alien;

(b) Any foreign government or the representative thereof;

(c) Any corporation organized under the laws of any foreign government;

(d) Any corporation of which any officer or director is an alien;

(e) Any corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof, or by any corporation organized under the laws of a foreign country;

(f) Any corporation directly or indirectly controlled by any other corporation of which any officer or more than one-fourth of the directors are aliens, if the Commission finds that the public interest will be served by the refusal or revocation of such license; or

(g) Any corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representatives thereof, or by any corporation organized under the laws of a foreign country, if the Commission finds that the public interest will be served by the refusal or revocation of such license.

§ 7.24 *Application precedent to authorization.* Except as otherwise provided in §§ 7.26 and 7.41, no authorization will be granted for use or operation of any radio station on land in any service governed by this part, nor for any change in station control, facilities, services, equipment or antenna, unless formal written application therefor in proper form [8] first is filed with the Commission. Except as otherwise permitted by this part, a separate application shall be filed in respect to each station and service subject to this part. Each application for radio station authorization, and all correspondence relating thereto, shall be submitted in duplicate (unless otherwise specified in a particular case or with respect to a particular form) to the Secretary of the Commission at Washington 25, D. C. Except as otherwise provided in §§ 7.32, 7.36 and 7.41, an application should be filed at least sixty days prior to the earliest date on which it is desired that the requested authorization be granted by the Commission in order that action thereon may be taken by that date. The application shall be specific and complete with regard to the information required in the application form, or otherwise specifically requested by the Commission.

§ 7.25 *Signature on applications.* One copy of each application for an authorization shall be signed under oath or affirmation by the applicant if the applicant be an individual, or any one of the partners if an applicant be a partnership, or by an officer if the applicant be a corporation, or by a member who is an officer if the applicant be an unincorporated association: *Provided, however,* That applications may be signed by the attorney for an applicant (a) in case of physical disability of the applicant, or (b) his absence from the continental United States. If application is made by a person other than the applicant, such person must set forth in the verification the grounds of his belief as to all matters not stated upon his knowledge and the reason why the application is not made by the applicant. Applications filed on behalf of eligible governmental entities, such as states and territories of the United States and political subdivisions thereof, the District of Columbia, and units of local government including incorporated municipalities, shall be signed by such duly elected or appointed officials as may be competent to do so under the laws of the applicable jurisdiction. When more than one copy of an application is required to be filed with the Commission, only the original need be signed or verified; copies may be conformed.

§ 7.26 *Informal applications.* An application not submitted on a standard form prescribed by the Commission is an informal application. Each informal application shall be submitted in duplicate, normally in letter form, and except as provided in § 7.41, the original copy shall be subscribed and verified as provided in § 7.25. Each application shall be clear and complete within itself as to the facts presented and the action desired.

§ 7.27 *Defective applications.* (a) An application which is defective with respect to completeness of answers to required questions, execution, or other matters of a purely formal character, will not be received for filing by the Commission, unless the Commission shall otherwise direct, and will be returned to the applicant with a brief statement as to the defect.

(b) An application which is not made in accordance with the Commission's rules, regulations, or other requirements, will be considered defective unless accompanied either (1) by a petition to amend the rule or regulation with which the application is in conflict, or (2) by a request of the applicant for waiver of, or exception to, any rule, regulation or requirement with which the application is in conflict. Such request shall show the nature of the waiver or exception desired and set forth the reasons in support thereof.

(c) If an applicant is requested by the Commission to file any documents or information not included in the prescribed application form, a failure to comply with such request will constitute a defect in the application.

§ 7.28 *Amendments of applications.* (a) Any application may be amended as a matter of right prior to the designation of such application for hearing by filing the appropriate number of copies of the amendments duly executed. Requests to amend an application after it has been designated for hearing will be considered only upon written petition properly served upon the parties of record, and will be granted only for good cause shown. A petition which requests either a change in frequency or power must be accompanied by the affidavit of a person with knowledge of facts as to whether or not consideration has been promised to or received by petitioner, directly or indirectly, in connection with the filing of such petition for amendment. If such consideration has been promised or received, the affidavit shall set forth in full detail all the relevant facts. A petition to amend an application will not be accepted (other than an amendment which is merely pro forma in nature, such as the removal of a named person because of death) if it is filed after public notice has been given of the issuance of a proposed decision with respect to such application, or of a recommended or an initial decision, as the case may be, where no proposed decision is to be issued.

(b) When leave to amend has been granted after an application has been designated for hearing, the application will not be removed from the hearing docket unless the Motions Commissioner shall determine that the proposed amendment substantially affects the issues upon which the application has been designated for hearing and orders that the application shall be removed from the hearing docket. An amended application which has been removed from the hearing docket will be reexamined by the Commission and, when necessary, will be redesignated for hearing at a subsequent time.

§ 7.29 *Dismissal of applications.* Any application may be dismissed without prejudice as a matter of right prior to the designation of such application for hearing. Requests to dismiss an application without prejudice after it has been designated for hearing will be considered only upon written petition properly served upon all parties of record. Such petition must be accompanied by the affidavit of a person with knowledge of the facts as to whether or not consideration has been promised to or received by petitioner, directly or indirectly, in connection with the filing of such petition for dismissal of the application. Such petition to dismiss an application without prejudice will be granted only for good cause shown, but will, in no event, be granted after public notice has been given by the Commission of the issuance of a proposed decision proposing to deny the application.

§ 7.30 *Partial grant of application.* Whenever the Commission, without a hearing, grants an application in part, or with any privileges, terms, or conditions other than those requested, the action of the Commission shall be considered as a grant of such application unless the applicant shall, within 20 days from the date on which public announcement of such grant is made, or from its effective date if a later date is specified, file with the Commission a written protest, rejecting the grant as made. Upon receipt of such protest, the Commission will vacate its original action upon the application and, if necessary, set the application for hearing in the same manner as other applications are set for hearing.

§ 7.31 *Establishment of station.* (a) Application for permit to construct a station subject to this Part [4] shall be submitted on FCC Form 401.[5] When actual construction is not involved, the term "construct" as used herein, is construed to mean "installation" or any action of an equivalent nature involved in preparing the station for actual operation prior to the issuance of a station license.

(b) FCC Form 401a, "Description of Proposed Antenna Structure", shall be submitted in quadruplicate with duplicate set of FCC Form 401 in each instance when:

(1) The antenna and supporting structures proposed to be erected will exceed an over-all height of 150 feet above ground level; or

(2) The antenna is to be located within 3 miles of a landing area and will exceed an over-all height of one foot above ground for each 100 feet of distance, or fraction thereof, from the nearest boundary of the landing area.

(c) There shall be attached to each copy of FCC Form 401a a sketch showing the antenna and supporting structure as well as a map showing the location of the antenna, landing areas in the vicinity thereof, and all structures that may affect the marking of the antenna or supporting structure.

(d) The location of the control point shall be specified in the application for construction permit. The location of the control point may be the same as that of the transmitting equipment or it may be a separate location. More than one control point for the same transmitting equipment is permissible if specified in the application and authorized by the Commission.[6]

(e) Each application for construction permit shall include such supplementary information as is prescribed in other applicable sections of this part, with respect to the particular class of station for which a station authorization is requested.

§ 7.32 *Changes prior to completion of station.* (a) When, during the term of a construction permit, any change is to be made in respect to the station which would result in a deviation from the terms of the permit, application for modification of such permit shall be filed on FCC Form 401.

(b) FCC Form 401a, in quadruplicate, shall also be used whenever any change is to be made in the antenna structures if such structures are, or will be, as the result of such change, within 3 miles of a landing area; or whenever the over-all height of the antenna structures exceeds, or as a result of such change will exceed, 150 feet above ground level. In such cases, there shall be attached to Form 401a a sketch and a map as prescribed in paragraph (c) of § 7.31.

(c) FCC Form 701 shall be used whenever it is necessary to request an extension of the time limit specified on a valid construction permit. Such application shall be filed at least 30 days prior to the expiration date of the permit if the facts supporting such application for extension are known to the applicant in time to allow such filing. In other cases, such application will be accepted upon a showing satisfactory to the Commission of the reason for filing within less than 30 days prior to the expiration date. Such application shall contain specific and detailed information showing that failure to complete construction within the authorized period is the result of causes beyond the control of the permittee, or that the applicant has been diligent in his efforts to complete the construction of the proposed station.

§ 7.33 *Applications concerning marine-utility stations.* (a) A permit for construction of a marine-utility station is not required when such station is to be used and operated solely on board mobile vessels. In such circumstances, the marine-utility station is subject to the provisions of Part 8 of the Commission's rules and application for station license may be filed in accordance with the applicable sections of that part.

(b) Whenever a marine-utility station is to be used and operated at any location on land (whether or not it is to be used and operated additionally on board mobile vessels) such station is subject to the applicable provisions of this part [7] and an application for construction permit to establish such station shall be filed with the Commission.

§ 7.34 *Temporary and permanent station locations.* (a) Whenever a station (other than a marine-utility station) is to be used and operated, on and after the effective date of the station license, at any single location for a period of less than six months, the station location is construed to be temporary. An application for construction permit relative to such station shall specify the station location as temporary, and shall designate each temporary location at which the station is to be used and operated or shall specify the general geographic area within which the use and operation of the station will be confined.[8]

(b) Whenever a station (other than a marine-utility station) is to be used and operated, on and after the effective date of the station license, at a single location for six months or more, the station location is construed to be permanent and shall be designated accurately in the application for construction permit.[9]

§ 7.35 *Application for station license.* Upon completion [10] of construction in accordance with the terms of the construction permit (as modified if a modified permit has been issued), an application for station license shall be submitted on FCC Form 403.

§ 7.36 *Changes during license term.* (a) When, during the term of a station license, any change is to be made in respect to the station, or with respect to its use and operation, which would result in a deviation from the terms of the license, an application for construction permit or modification of license, as the case may require, shall be filed as prescribed in paragraphs (b), (c), and (d) of this section.

(b) Authority for any physical change in the construction of the transmitting equipment or installation, or for the addition of radio transmitting apparatus, or for any change in station location, or for any change in antenna structures of the nature designated in paragraph (b) of § 7.32, shall be requested by filing an appropriate application for construction permit on FCC Form 401. If a physical change in the antenna structure(s) is proposed, a description of any marking currently required shall be supplied as part of the necessary application. Upon completion [11] of the construction, installation, or change in station location or antenna structure(s) in accordance with the terms of the construction permit, an appropriate application for modification of station license shall be submitted on FCC Form 403.

(c) Authority for any change in the use and operation of the station, other than physical changes of the nature prescribed in paragraph (b) of this section, shall be requested by filing an appropriate application on FCC Form 403 [12] for modification of station license.

(d) In accordance with § 7.24 an application for modification of a station license shall be submitted not less than 60 days prior to the date contemplated for such modification of license in order that action thereon may be taken by that date.

§ 7.37 *Renewal of license.* Application for renewal of station license shall be submitted on FCC Form 405. Unless otherwise directed by the Commisison, such application should be filed at least 60 days prior to the expiration date of the license sought to be renewed in order that action thereon may be taken by that date.

§ 7.38 *Reinstatement of license.* When the use and operation of a station

[8] Standard forms are prescribed herein for use in connection with the majority of applications submitted for Commission consideration. These forms may be obtained without cost from the Commission at Washington 25, D. C., or from any of its engineering field offices.

[4] With respect to applications for marine-utility stations, see § 7.33.

[5] This form may be obtained without cost, upon request made to the Washington 25, D. C. office of the Commission or to any of the Commission's engineering field offices.

[6] See § 7.71 in respect to authority for control points.

[7] See paragraph (b) of § 7.21; also see §§ 7.39 and 7.40.

[8] A general area may be designated in terms of a specific city, county, state, region, etc., or more than one of these designations may be specified. See also §§ 7.70 and 7.71.

[9] With respect to a subsequent change in permanent station location, see §§ 7.32 and 7.36.

[10] See § 7.64 concerning operation for test purposes upon completion of construction.

[11] See § 7.64 concerning operation for test purposes upon completion of construction.

[12] See § 7.42 if assignment of the license or a change in corporate control of the licensee is involved.

has been discontinued due to the station license having expired by its own terms, and an application for renewal of such station license has not been submitted within a period of 60 days from the expiration date of such license, an applicant shall, if authority is desired to resume operation in exact accordance with the terms of the expired license, submit simultaneously applications for construction permits and licenses on FCC Forms 401 and 403, respectively.

§ 7.39 *Applications filed concurrently.* (a) Applications of different category but in respect to the same station and radio service may be filed concurrently by the same applicant as prescribed herewith:

(1) Application for modification of station license and for renewal of station license. However, no renewal may be granted more than thirty days prior to the expiration of the original license.

(2) Application for construction permit and for station license or related modification of license where the complete transmitter(s) is (are) available for immediate use and operation, including all accessory apparatus required for the service to be rendered, and where no construction is involved: *Provided,* The associated antenna and supporting structures are available for immediate use and do not exceed an over-all height of 150 feet above ground level and (if located within 3 miles of a landing area) do not exceed an over-all height of one foot above ground for each 100 feet of distance, or fraction thereof, from the nearest boundary of a landing area;

(3) Application for modification of construction permit and for station license provided such application for modification of construction permit does not request authority for any additional construction, extension of time in which to complete construction, or change in construction of the station (including the height of the antenna or supporting structures), and further provided that the complete transmitter(s) and all accessory apparatus required for the service to be rendered are available for immediate use and operation in accordance with the terms of the modified permit desired.

(4) Application for modification of station license and for consent to voluntary assignment or transfer of control of station license;

(5) Application for renewal of station license and for consent to voluntary assignment or transfer of control of station license. However, no renewal may be granted more than thirty days prior to the expiration of the original license.

§ 7.40 *One application for plurality of stations.* (a) As indicated below, one application may be submitted to cover two or more stations subject to the conditions prescribed in paragraph (b) of this section, and provided the individual stations covered by each application are clearly identified therein:

(1) Applications for construction permits and for station licenses for marine-utility stations to be used and operated in the same geographic area;

(2) Application for modification of construction permits for marine-utility stations to be used and operated in the same geographic area when the modification requested is the same for all stations covered by the application;

(3) Application for modification of station licenses for any class of station subject to this part when the modification requested is the same for all stations covered by the application;

(4) Application for renewal of station licenses for any class of station subject to this part;

(5) Application for consent to assignment or control of station authorizations.

(b) The provisions of paragraph (a) of this section shall apply only when the following elements are the same in respect to all of the involved stations at the time the application is filed:

(1) Applicant;

(2) Nature of service and class of station;

(3) Legal control of the station;

(4) Expiration date of the station authorization when application is made for modification or renewal thereof.

§ 7.41 *Application for special temporary authority.* (a) Upon receipt of application therefor, the Commission may grant special temporary authorization for a period not to exceed 3 months for the installation and operation of transmitting apparatus in the maritime mobile service or the maritime radiolocation service (provided the proposed operation is not in conflict with the rules and regulations of the Commission) with a station classification in accordance with § 7.6 or § 7.22, under the following conditions:

(1) In cases which require the immediate use of existing and available radio transmitting apparatus not already authorized for the desired operation, provided the associated antenna and supporting structures (if not covered by an existing station authorization) do not exceed an over-all height of 150 feet above ground level and (if located within 3 miles of a landing area) do not exceed an over-all height of one foot above ground for each 100 feet of distance, or fraction thereof, from the nearest boundary of a landing area.

(2) In cases where an urgent need is shown for operation of an authorized station (without the addition of more radio transmitting apparatus or increase in height of antenna structures) for a limited time only, in a manner or for a period of time other than that specified in the existing station authorization;

(3) For the purpose of conducting a field survey to obtain necessary data in connection with the filing of one or more formal applications. In this case, authority shall be requested for developmental operation only, and those sections of this Part applicable to developmental stations shall govern the nature of the application.

(b) Whenever practicable, an application for special temporary authority shall be filed as a formal application on a form or forms prescribed in the applicable section(s) of this part. When necessary, however, such applications may be filed as an informal application as prescribed in § 7.26. The form(s) to be used and the procedure in filing shall be governed by the provisions of this part applicable to the type of document (construction permit, license, modification thereof, etc.) which would be requested normally in a particular case in lieu of special temporary authority.

(c) Upon receipt of written or telegraphic application therefor, the Commission, in an emergency, may grant special temporary authorization for a period not to exceed three months for the voluntary discontinuance, reduction, or impairment of the authorized service of a public coast station operated as a common carrier of communications: *Provided,* Such application shall identify the particular station and shall contain information showing the nature and estimated duration of the conditions causing the discontinuance, reduction or impairment: *Provided further,* That, within five days after the filing of such application, an additional and complete application in written form requesting the same authority shall be filed in accordance with the provisions of paragraph (h) of § 7.46. The initial written or telegraphic request for special temporary authority for emergency discontinuance, reduction, or impairment of authorized service which is filed in accordance with this subsection shall be deemed granted effective as of date of filing unless, on or before the 15th day after date of filing, the Commission shall notify the station licensee to the contrary.

(d) An application for special temporary authority (except as otherwise provided in paragraph (c) of this section) shall be filed in written form not less than ten days prior to the earliest date of proposed operation thereunder unless acceptable explanation of reason for failure to meet this time limitation is included with the application form.

(e) Each application for special temporary authority (except as provided in paragraph (c) of this section) shall contain the following information:

(1) Name and address of applicant.

(2) Official call letters of any valid station authorization already held by applicant, and the station location.

(3) Relation of applicant to the owner of any transmitting equipment for which initial authority is requested.

(4) Class of station and nature of service.[12]

(5) Station(s) or class of station with which communication will be carried on.

(6) Carrier frequency or frequencies, class of emission, and emission bandwidth to be employed,[13] if these elements are involved.

(7) Equipment to be used, specifying the manufacturer, model number, the normal plate input power to the last radio stage, and frequency tolerance that can be maintained,[14] if these elements are involved.

(8) The date(s) and time(s) of the proposed operation.

(9) Complete particulars concerning purpose, nature, and location of proposed operation.

[12] See §§ 7.6 and 7.22.
[13] See paragraphs (k), (l) and (q) of § 7.8.
[14] See paragraphs (m), (gg), (hh) and (kk) of § 7.8.

(10) Explanation of the need for special temporary authority in lieu of normal type of authorization.

(f) Each application for special temporary authority submitted by an applicant who does not hold a valid station authorization issued by the Commission, or has not already filed formal application therefor, shall, in addition to the information required under paragraph (d) of this section, contain such factual statements as may be necessary for the Commission to determine whether or not the granting of the desired authorization will be in accordance with the citizenship eligibility requirements of section 310 of the Communications Act.

§ 7.42 *Application for consent to assignment or transfer of control of construction permit or station license.*—(a) *Voluntary.* Application for consent to voluntary assignment of a construction permit or license covering a station subject to this Part, or for consent to voluntary transfer of control of a corporation holding such a construction permit or license, shall be filed with the Commission on FCC Form 702, "Application for Consent to Assignment of Radio Station Construction Permit or License," or FCC Form 703, "Application for Consent to Transfer of Control of Corporation Holding Construction Permit or Station License," as the case may require, at least 60 days prior to the contemplated effective date of assignment of transfer of control.

(b) *Involuntary.* In the event of the death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(1) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability; and

(2) Within 30 days after the occurrence of such death or legal disability, application on FCC Form 702 or FCC Form 703, as the case may require, shall be filed for consent to involuntary assignment of such station permit or license or for involuntary transfer of control of such corpofation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

§ 7.43 *Application precedent to hearing.* Whenever the Commission regards an application for renewal of license as essential to the proper conduct of a hearing or investigation and specifically directs that the licensee file such application by a certain date, the application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

§ 7.44 *Failure to prosecute applications.* An applicant not desiring to prosecute his application may request that it be dismissed without prejudice. A request of an applicant for the return of an application which has been accepted for filing will be considered as a request to dismiss the same without prejudice. Where an applicant fails to respond to official correspondence or request for additional material, the application will be dismissed without prejudice.

§ 7.45 *Inconsistent or conflicting applications.* When an applicant has an application pending or undecided, no other inconsistent or conflicting application filed by the same applicant, his successor or assignee, or on behalf of or for the benefit of said applicant, will be considered by the Commission.

§ 7.46 *Applications for voluntary discontinuance, reduction, or impairment of service at a public coast station.* (a) Applications for authority to voluntarily discontinue, reduce, or impair the authorized service of a public coast station operated as a common carrier of communication shall be submitted not less than 60 days prior to the date when such change in authorized service is contemplated by the applicant: *Provided, however,* That, in an emergency and upon a showing of good cause, the 60 day limitation requirement may be waived.

(b) Unless otherwise specified, the applicant shall furnish the Commission with an original and 14 copies of such applications, the original copy of which shall be subscribed and verified as provided in § 7.25. Such applications shall be submitted on paper not more than 8½ inches wide and not more than 14 inches long, with a left-hand margin of 1½ inches. The impression shall be on one side of the paper only and shall be double spaced, except that long quotations shall be single-spaced and indented. All papers, except charts and maps which may be offered as exhibits, shall be typewritten or prepared by mechanical processing methods, other than letter press, or printed. All copies must be clearly legible.

(c) Such applications shall include the following information:

(1) The name and address of each applicant;

(2) The name, title, and post office address of the officer to whom correspondence concerning the application is to be addressed;

(3) Nature of proposed discontinuance, reduction, or impairment;

(4) Identification of the station or stations involved and date on which applicant desires to make proposed discontinuance, reduction, or impairment effective; if for a temporary period only, indicate the approximate period for which authorization is desired;

(5) Statement of the effect upon rates to any person in the community.

(6) Description of the service involved and the service area affected including population and general character of business of the community;

(7) The nature of the service which will be available or substituted.

(8) Statement of the reasons for proposed discontinuance, reduction or impairment;

(9) Statement of the factors showing that neither present nor future public convenience and necessity would be adversely affected by the granting of the application;

(10) Description of any previous discontinuance, reduction, or impairment of service to the community affected by the application, which has been made by the applicant during the 12 months preceding filing of application, and statement of any present plans for future discontinuance, reduction or impairment of service to such community;

(11) Statement of the number of messages sent-paid and received-collect and the revenues accruing to the licensee in connection with the service proposed to be discontinued, reduced, or impaired for each of the past 6 months; and, if the volume of such traffic handled in the area has decreased during recent years, the reasons therefor.

(d) Immediately upon the filing of an application for authority to discontinue, reduce, or impair service to a community or part of a community, the applicant shall post a public notice at least twenty inches (20") by twenty-four inches (24"), with letters of commensurate size, in a conspicuous place at the station [15] affected for at least fourteen (14) days, which notice shall be in the following form:

(Date of first posting of notice)

Notice is hereby given that application was made on the ------ day of ----------, 19 ---- by ----------
Company to the Federal Communications Commission to close station -------- (or reduce the hours of service from the present hours of service ----m. to ----m. to the hours ----m. to ----m.). If the application is granted, substituted service will be available from ----m. to ----m. through station(s) ----------, located at ----------
(or give other appropriate general description of substituted service). Any member of the public desiring to protest or support the closing of this station (or the reduction of the hours of service) may communicate in writing with the Federal Communications Commission, Washington 25, D. C., on or before ---------- (fill in date which is 20 days after the date of the first posting of notice.)

(e) Immediately upon the filing of such an application, the applicant shall also cause to be published a notice not less than four (4) column inches in size containing information similar to the notice form specified in (d) above, at least once during each of two consecutive weeks, in some newspaper of general circulation in the community or part of the community affected;

(f) Immediately upon the filing of any application or informal request for authority to discontinue, reduce, or impair service, or any notice of resumption of service, the applicant shall give written notice of the filing, together with a copy of such application to the State Commission of the State in which the station is located.

(g) When the posting, publication, and notification, as required in paragraphs (d) and (e) of this section, have been completed, applicant shall certify

[15] Provided that facilities are maintained at the station for the filing or delivery of messages to public users. When such facilities are not maintained at the station, but are maintained at a nearby public office or offices of the applicant, the notice shall be posted in each such public office.

such fact to the Commission, stating the name of the newspaper in which publication was made, the name of the Commissions notified, and the dates of posting, publication, and notification.

(h) The Commission may authorize temporary or emergency discontinuance, reduction, or impairment of service upon a telegraphic request identifying the station involved and giving the reasons therefor (§ 7.41 (c)): *Provided*, That within 5 days after such telegraphic request the applicant shall file an informal statement in quintuplicate showing:

(1) The nature and estimated duration of the conditions causing the discontinuance, reduction, or impairment;

(2) The facts showing that such conditions could not reasonably have been foreseen by the carrier in sufficient time to prevent such discontinuance, reduction or impairment;

(3) A description of the service involved and the service area affected;

(4) The nature of the service which will be available or substituted;

(5) The effect upon rates to any person in the community;

(6) The efforts made and to be made by the applicant to restore the original service or establish comparable service as expeditiously as possible.

SUBPART C—STATION AUTHORIZATIONS

§ 7.61 *Construction period.* Each radio station construction permit issued by the Commission will specify the date of grant as the earliest date of commencement of construction and installation, and a maximum of eight months thereafter as the time within which construction shall be completed and the installation ready for operation, unless otherwise determined by the Commission in any particular case.

§ 7.62 *Forfeiture of construction permit.* A radio station construction permit shall be automatically forfeited if the construction authorized by such permit is not completed within the time specified therein or within such further time as the Commission may have allowed for completion, unless prevented by causes not under the control of the holder of the construction permit.[1]

§ 7.63 *Changes in licensed station.* (a) A change may be made in licensed transmitting equipment without making application to the Commission and without specific authorization from the Commission: *Provided:*

(1) The change does not result in operation inconsistent with the rules of the Commission nor with the terms of the outstanding authorization for the station involved.

(2) A description of the change is incorporated in the next application for renewal or modification of license.

(b) Prior authorization from the Commission is required[2] before the following antenna changes may be made at any station other than a marine-utility station:

(1) Any change that will increase or decrease by more than five feet the overall height of an antenna used for transmission on any frequency or frequencies above 100 Mc.

(2) Any change that will modify the power gain or radiation pattern of an antenna used for transmission on any frequency or frequencies.

(3) Any change in the antenna or in the location of an antenna which exceeds, or as a result of such change will exceed, 150 feet in height.

(4) Any change in an antenna or in location of an antenna of any height which is, or as a result of such change will be, within 3 miles of a landing area.

(5) Any change in height or location of an antenna or antenna supporting structure which is required to be marked in accordance with Federal Communications Commission or Civil Aeronautics Administration specifications.

(c) Changes, except as designated in paragraph (b) of this section, may be made in the antenna or antenna supporting structure(s) of a licensed station without specific authorization from the Commission, provided that, for stations other than marine-utility stations:

(1) The Commission at Washington, D. C., and the Commission's engineer-in-charge of the inspection district in which the station is located are notified in advance of such changes; and

(2) A description of such changes is incorporated in the next application for renewal or modification of the station license.

§ 7.64 *Equipment and service tests.* (a) Equipment and service tests of any radio transmitting facilities authorized by a construction permit issued by the Commission in respect to a station subject to this Part may be conducted as prescribed in paragraphs (b), (c) and (d) of this section: *Provided*, That necessary precautions are taken to avoid interference to the service of other authorized stations.

(b) Equipment test: Upon completion of construction or installation of radio transmitting facilities in a station in exact accordance with the terms of the related construction permit, the technical provisions of the application therefor, and the rules and regulations governing the class of station concerned, and prior to the filing of an application for license or modification of license, the permittee is authorized to test the equipment in accordance with applicable terms of the construction permit for a period not to exceed 10 days: *Provided*, That the Commission's engineer-in-charge of the radio district in which the station is located is notified two days in advance of the beginning of tests and that the permittee is not notified by the Commission to cancel, suspend, or change the date(s) for such tests.

(c) Service test: When equipment tests have been completed, and after application for station license or modification thereof has been filed with the Commission showing the transmitting equipment and associated apparatus to be in satisfactory operating condition, the permittee is authorized to conduct service tests in exact accordance with the terms of the construction permit for a period not to exceed 30 days: *Provided*, That the Commission's engineer-in-charge of the radio district in which the station is located is notified two days in advance of the beginning of such tests and that the permittee is not notified by the Commission to cancel, suspend, or change the date(s) for such tests.

(d) Limitations: The authorization for tests embodied in paragraphs (b) and (c) of this section shall not be construed as constituting a license to operate but as a necessary part of the authorized construction. Equipment and service tests shall not commence after the expiration date of the construction permit.

(e) Common carrier service tests: When new stations in common carrier services are ready in all respects to be placed in service, equipment and service tests are authorized to be conducted as outlined in paragraphs (b) and (c) of this section: *Provided*, All necessary precautions are taken to avoid interference to any other authorized station. No service may be furnished to the public during the equipment test period. Charges for service furnished during the service test period may be made, pursuant to the provisions of legally applicable tariffs.[3]

§ 7.65 *Normal license period.* (a) A license for a coast station shall be issued for a period of two years, unless otherwise specified in the license, and shall expire at 3:00 a. m., e. s. t., on the first day of February. Unless otherwise ordered, if an application for a new coast station license is granted to become effective three months or less before the normal expiration date of the term of this class of license, the license shall be issued for the unexpired period of the current license term and for the full succeeding term. If granted to become effective more than three months before the expiration date of the current license term, the new license shall be issued for the unexpired period of the current license term only.

(b) A license for any class of station subject to this part, other than a coast station or a developmental station, shall be issued for a period of one year, unless otherwise stated in the license, and shall expire at 3:00 a. m., e. s. t., on the first day of February. Unless otherwise ordered, if an application for a new station license is granted to become effective three months or less before the normal expiration date of the term of this class of license, the new license shall be issued for the unexpired period of the current license term and for the full succeeding term. If granted to become effective more than three months before the expiration of the current license term, the license shall be issued for the unexpired period of the current license term only.

(c) A license for a developmental station subject to this Part shall be issued on a temporary basis and shall be valid for a specified period of time extending not more than one year from the date on which the license becomes effective.

§ 7.66 *Period of modified license.* When an application for modification of station license is granted, a superseding license shall, unless otherwise ordered, be issued for the unexpired period of the superseded license.

§ 7.67 *Simultaneous modification and renewal.* When an application is granted which necessitates the issuance of a modified station license less than 60 days prior to the expiration date of the license sought to be modified, and when an application for renewal of said license is granted subsequent or prior thereto, but within 30 days of expiration of the present license, the modified license as well as the renewal license will be issued to conform to the combined action of the Commission.

§ 7.68 *One license for plurality of marine-utility stations.* (a) Unless otherwise determined by the Commission, one station license may be granted to authorize the use and operation of a designated maximum number of marine-utility stations, normally in multiples of ten stations, whenever the following license elements are the same for each station and the requirement specified in paragraph (b) of this section is fulfilled:

(1) The station licensee;

(2) The conditions which establish and maintain control of the station by the station licensee;

(3) The local geographic area to which use of the particular station will be confined;

(4) The type(s) of transmitting equipment to be authorized;

(5) The authorized transmitter power of identical types of transmitting equipment to be authorized;

(6) The frequency assignment, and the authorized transmitter power, and class or classes of emission authorized for each radio-channel.

(b) The transmitting equipment authorized for use by the station license shall not be authorized in any other instrument of authorization issued by the Commission.

§ 7.69 *Transfer or assignment of station authorization.* Section 310 (b) of the Communications Act expressly provides that a station license granted by the Commission, the frequencies authorized to be used by the licensee, and the rights therein granted shall not be transferred, assigned, or in any manner either voluntarily or involuntarily disposed of, or indirectly by transfer of control of any corporation holding such license, to any person, unless the Commission shall, after securing full information, decide that said transfer is in the public interest, and shall give its consent in writing.[4]

§ 7.70 *Authorized station location.* (a) Whenever a station (other than a marine-utility station) is to be used and operated, on and after the effective date of the station license, at any single location for a period of less than six months, the station location is construed to be temporary and shall be designated in the station authorization as temporary, together with either a specific temporary location or locations or within a prescribed geographic area, in accordance with information included in the related application for station authorization.

(b) Whenever a station (other than a marine-utility station) is to be used and operated, on and after the effective date of the station license, at a single location for six months or more, the station location is construed to be permanent and the particular location shall be specifically designated in the station authorization.

(c) When a station (other than a marine-utility station) which is authorized to be used and operated at a temporary location or locations remains at any single location for more than six consecutive months, an application for modification of the station license to specify such station location as permanent shall be filed not more than thirty days after the expiration of the six-month period involved.

(d) When a station (other than a marine-utility station), which is authorized to be used and operated at more than one temporary location, is moved from one radio inspection district to another for use and operation in the latter district, the station licensee shall so notify the Commission's engineers-in-charge of the respective districts. Such notification shall, if practicable, be given prior to such change in location but in any event not later than forty-eight hours thereafter.

(e) Prior authorization from the Commission is required before a station may be used and operated at any station location not authorized by either the station authorization or applicable rules and regulations of the Commission.[5]

§ 7.71 *Authorized control point.* (a) Unless otherwise permitted in exceptional cases, each station shall be associated with one or more specific control points which shall be designated in the station license as stated herewith:

(1) When no control point location is designated in an application, the control point shall be not more than 500 feet from the location of the authorized radio transmitting apparatus.

(2) When the control point is at a location more than 500 feet from that of the authorized radio transmitting apparatus, the control point location shall be designated as follows:

(i) In urban areas, the street address shall be specified.

(ii) In rural areas, the approximate location shall be specified in distance and direction from the transmitter in terms of feet and geographical quadrant, respectively; or in distance and direction from the center of a nearby established community in terms of statute miles and geographical quadrant, respectively.

(b) Prior authorization from the Commission is required before a change may be made in the location of an authorized control point or before any control point not authorized by the station license, or by applicable rules and regulations, may be utilized in respect to the particular station.[6]

(c) A dispatch point or points may be installed and used without obtaining any instrument of authorization from the Commission, provided, that in respect to public coast stations using telegraphy and limited coast stations using telegraphy, information relative to the location of each permanently established dispatch point, is submitted by the station licensee to the Commission for record purposes at the earliest practicable date relative to the date such dispatch point(s) is (are) permanently established.

§ 7.72 *Assignment of call signs.* (a) Stations subject to this part shall be assigned call signs in accordance with applicable provisions of the International Radio Regulations and the Communications Act as set forth in the following paragraphs of this section.

(b) Class I and Class II coast stations (public or limited) shall be assigned individual call signs each consisting of three letters, taken from either the group KAA through KZZ or the group WAA through WZZ.

(c) Class III coast stations (public or limited) shall be assigned individual call signs each consisting of three letters followed by three digits.

(d) Each station license issued to authorize the use and operation of one or more marine-utility stations shall designate a single call sign consisting of three letters followed by three digits.

(e) Stations on land in the maritime radiolocation service (including the maritime radionavigation service) shall be assigned individual call signs each consisting of three letters followed by three digits.

(f) Marine fixed stations and marine relay stations shall be assigned individual call signs each consisting of three letters followed by two digits.

(g) Marine control stations and marine repeater stations shall be assigned individual call signs each consisting of three letters followed by two digits.

(h) Marine receiver-test stations shall be assigned individual call signs each consisting of three letters followed by three digits.

(i) Developmental stations shall be assigned call signs of the category assignable under the provisions of this section to the class of station associated with the respective developmental station.

(j) In accordance with the preceding paragraphs of this section, call signs shall be assigned on a strict sequence basis, without advance reservation of particular call signs for specific stations or specific purposes.

§ 7.73 *Operation during emergency.*— (a) The licensee of any station subject to this part may, during a period of emergency in which the normal communication facilities are disrupted as a result of hurricane, flood, earthquake, or similar disaster, utilize such station for emergency communication service in communicating in a manner other than

[1] A notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

[2] See § 7.36.

[3] See § 61.62 of Part 61 of the Commission's rules governing the construction, filing, and posting of charges for interstate and foreign communications service.

[4] See § 7.42 in respect to filing related applications.

[5] See §§ 7.32 and 7.34 relative to the filing of pertinent applications.

[6] See § 7.34.

that specified in the instrument of authorization or in the rules and regulations governing the operation of such station: *Provided*, (1) That as soon as possible after the beginning of such emergency use, notice shall be sent to the Commission at Washington 25, D. C., and to the Engineer in Charge of the radio district in which the station is located, stating the nature of the emergency and the emergency use being made of the station; (2) that such emergency use of the station shall be discontinued as soon as substantially normal communication facilities are again available; and (3) the Commission and the Engineer in Charge be notified immediately when such special use of the station is terminated: *and provided further*, That, in no event, shall any station engage in emergency transmission on frequencies other than, or with power in excess of, that specified in the instrument of authorization or as otherwise expressly provided by the Commission, or by law: *And provided further*, That the Commission may, at any time, order the discontinuance of any such emergency communication undertaken under this section.

(b) The Commission may authorize the licensee of any radio station, during a period of national emergency, to operate its facilities upon such frequencies, with such power and points of communication, and in such a manner beyond that specified in the station license as may be requested by the Army, Navy, or Air Force.

§ 7.74 *Involuntary suspension of station operation.* (a) If, for any reason beyond control of the station licensee, a public coast station temporarily reduces its normal scope or hours of service or suspends operation, the station licensee shall immediately notify the Commission at Washington 25, D. C., and the Commission's Engineer in Charge of the radio district in which the station is located. In such cases, the licensee shall furnish full particulars as to the reasons for such discontinuance, reduction or impairment of service, including a statement as to when normal service is expected to be resumed. In the event such action includes reduction or suspension of a watch normally kept on 500 kc or 2182 kc, immediate notification thereof shall be given by the station licensee to the nearest district office of the U. S. Coast Guard and to the Commission's Engineer in Charge of the radio district in which the station is located, together with notification of the estimated or known time of resumption of such watch. When normal service is resumed, immediate notification thereof shall be given to the Commisison at Washington 25, D. C., and to the Commission's Engineer in Charge of the radio district in which the station is located. When the watch to which reference is made herein is resumed, immediate notification thereof shall be given to the Coast Guard and to the Commission's Engineer in Charge.

(b) Notification need not be given with respect to involuntary reduction or suspension of the normal service of a limited coast station (provided a watch normally kept by such station on 500 kc or 2182 kc is not reduced or suspended thereby) or of any other station subject to this Part except public coast stations until such reduction or suspension exceeds 10 days in duration, whereupon a notification thereof shall be given to the Commission's Engineer in Charge of the radio district in which the station is located, together with notification of the known or estimated time of resumption of normal operation. In the event any reduction or suspension of the service of a limited coast station causes a reduction or suspension of a watch normally kept on 500 kc or 2182 kc, immediate notification thereof shall be given by the station licensee to the nearest district office of the U. S. Coast Guard and to the Commission's Engineer in Charge of the radio district in which the station is located, together with notification of the estimated or known time of resumption of such watch.

§ 7.75 *Voluntary suspension or discontinuance of station operation.* (a) The licensee of a public coast station shall not voluntarily discontinue, reduce, or impair service to a community or part of a community unless and until there shall first have been obtained from the Commission a certificate that neither the present nor future public convenience or necessity will be adversely affected thereby. Such certificate may be granted upon application for such authority in accordance with the provisions of section 214 of the Communications Act and the provisions of § 7.46.

(b) When any station subject to this part discontinues or suspends operation for any reason within control of the station licensee, for a period exceeding 10 days, notification thereof shall also be given to the Commission's Engineer in Charge of the radio district in which the station is located, together, in the case of suspension, with a statement of the estimated or known time of resumption of normal operation. In the event any voluntary suspension, reduction, or discontinuance of operation includes discontinuance, reduction, or suspension of a watch normally kept by a coast station on 500 kc or 2182 kc, immediate notification thereof shall be given by the station licensee to the nearest district office of the U. S. Coast Guard and to the Commission's Engineer in Charge of the radio district in which the station is located, together with notification of the estimated or known time of resumption of any such watch that has been suspended.

SUBPART D—GENERAL STATION REQUIREMENTS

§ 7.101 *Inspection of stations.* Pursuant to section 303 (n) of the Communications Act, all stations subject to this part and all station records required by this part shall be available for inspection by authorized representatives of the Commission upon due notice given to the station licensee or his agent at such times and intervals which, within the discretion of the Commission, are considered reasonable and necessary to assure compliance with applicable rules, regulations, laws, treaties and international agreements.

§ 7.102 *Posting of station license.* (a) The current station authorization for each station (other than a marine-utility station) subject to this part, which is authorized for use and operation at a permanent location,[1] or at a single temporary location,[1] shall be posted in a conspicuous place at the principal control point of that station. At all other control points designated on the station authorization, a photocopy of the authorization shall be posted. In addition, a transmitter Identification Card (FCC Form 452–C), properly executed, shall be affixed to each transmitter of such station when such transmitter is not in view of, and readily accessible to, the responsible operator at the principal control position. The following information shall be entered on the Transmitter Identification Card by the permittee or station licensee:

(1) Name of permittee or licensee;

(2) Station call sign assigned by the Commission;

(3) Exact location or locations of the actual station authorization and any station records required by the Commission;

(4) The assigned frequency or frequencies on which the transmitting equipment is authorized to be operated; and

(5) Signature of the permittee or licensee, or his duly authorized agent.

(b) The current station authorization for a single marine-utility station and for each single station of any other class subject to this Part, which is of portable nature and is authorized for use and operation at two or more temporary locations, shall be posted either at the control point of the station or retained in an envelope or other suitable container affixed to the transmitting apparatus, either inside or outside of any cabinet or other structure in which the transmitting apparatus is contained.

(c) With respect to a plurality of marine-utility stations authorized by one station license in accordance with the provisions of § 7.68, the station license shall be retained by the licensee at any location where it is accessible to Commission inspection. In lieu of posting the license, a Transmitter Identification Card (FCC Form No. 452-c Revised) properly executed shall be affixed to each authorized transmitter, provided that where the transmitting equipment (such as may be installed in a land vehicle) is not visible from the operating position or is not readily accessible for governmental inspection, the Transmitter Identification Card shall be affixed to the Control apparatus at the station operating position. The following information shall be entered on the Transmitter Identification Card by the station licensee:

(1) Name of station licensee;

(2) Station call sign assigned by the Commission;

(3) Exact location or locations of the actual station license and any station records required by the Commission;

(4) The assigned frequency or frequencies on which the transmitting equipment is authorized to be operated; and

(5) Signature of the licensee, or his duly authorized agent.

[1] See §§ 7.34 and 7.70.

§ 7.103 *Requirements concerning station location.* (a) Unless otherwise required by exceptional conditions, the radio transmitting and receiving apparatus of each Class I public coast station first authorized by the Commission subsequent to January 1, 1951, shall, when such apparatus is to be used and operated on any frequency assignment below 5000 kc, be located within five statute miles of the open sea.

(b) Unless otherwise required by exceptional conditions, the radio transmitting and receiving apparatus of each Class II public coast station first authorized by the Commission subsequent to January 1, 1951, shall be installed at a location which, according to generally established engineering principles and standards, should result in minimum attenuation of emission, in so far as such attenuation is caused by land intervening between that location and the majority of ship stations with which communication is to be effected.

(c) Unless otherwise required by exceptional conditions, the radio transmitting and receiving apparatus of each Class III public coast station first authorized by the Commission subsequent to January 1, 1951, shall be centrally located, in so far as is practicable, in relation to the center of the geographic water area to which ship-shore communication is to be provided by the particular coast station, as specified in the related application for construction permit.

(d) Applicants for construction permits to establish coast stations for transmission on any frequency assignment(s) within the frequency band 156.35 Mc to 162.05 Mc shall cooperate in the selection of sites for radio transmitting facilities so as to minimize interferences (such, for example, as may be caused by intermodulation) to the service of other coast stations, base stations of any land mobile service, and United States government stations.

§ 7.104 *Facilities required for public coast stations.* (a) As a minimum, public coast stations using telegraphy shall be provided with the facilities designated herewith:

(1) Stations having a frequency assignment within the band 365 to 515 kc shall—

(i) be equipped to transmit efficiently with Classes A1 and A2 emission on the general maritime calling frequency (500 kc assigned frequency) and on at least one additional radio channel authorized for working within the band 365 to 515 kc;

(ii) be equipped to receive efficiently classes A1 and A2 emission on all radio-channels authorized for the maritime mobile service of telegraphy within the frequency band 365 to 515 kc.

(2) Stations having a frequency assignment below 150 kc shall—

(i) be equipped to transmit efficiently with class A1 emission on the calling frequency designated for the maritime service in this portion of the spectrum (assigned frequency 143 kc) and on at least one additional radio-channel authorized for working within the band 100 to 150 kc;

(ii) be equipped to receive efficiently class A1 emission on all radio channels authorized for transmission by mobile stations operating in the maritime mobile service of telegraphy within the band 100 to 150 kc.

(3) Stations having a frequency assignment above 4000 kc shall—

(i) be equipped to receive efficiently on each assigned frequency designated in this part for radiotelegraphy, which is in the same characteristic portion of the spectrum as is each frequency assignment above 4000 kc of the particular coast station.

(b) As a minimum, public coast stations using telephony shall be provided with the facilities designated herewith:

(1) Each coast station using telephony on frequencies within the band 1600 kc to 4000 kc shall be capable of transmitting and receiving (and shall be licensed to transmit) class A3 emission (modulation by voice frequencies) with an antenna power of not less than 100 watts on the radio-channel of which 2182 kc is the authorized carrier frequency; provided that with respect to such stations outside the Great Lakes area, this requirement shall be effective on and after January 1, 1953.

(2) Effective on and after January 1, 1952, each coast station which is licensed to transmit by telephony on any radio-channel for working within the frequency band 156.35 Mc to 162.05 Mc, shall be capable of transmitting and receiving (and shall be licensed to transmit) class F3 emission on the radio-channel of which the authorized carrier frequency is 156.8 Mc.

(c) All coast stations shall comply with the following requirements:

(1) Each coast station which is licensed to transmit on the radio-channel of which 2182 kc is the authorized carrier frequency, shall be capable of efficiently receiving telephony (A3 emission) on this channel, and shall be capable also of transmitting and receiving (and shall be licensed to transmit) class A3 emission (modulation by voice frequencies) on at least one other radio-channel authorized for working with ship stations in the band 2000 to 3500 kc.

(2) Each coast station which is licensed to transmit on the radio-channel of which 156.8 Mc is the authorized carrier frequency, shall be capable of efficiently receiving telephony F3 emission on this channel, and shall be capable also of transmitting and receiving (and shall be licensed to transmit) class F3 emission (modulation by voice frequencies) on at least one other radio-channel authorized for working with ship stations in the band 156.35 Mc to 162.05 Mc.

(3) Marine utility stations used on shore shall comply with the requirement of subparagraph (2) of this paragraph.

§ 7.105 *Special provisions relative to VHF facilities.* (a) Coast stations at locations separated by less than 150 statute miles, which transmit on a radio-channel above 100 Mc, shall minimize any interference between the particular stations using the same radio-channel above 100 Mc by a mutually agreeable time-sharing arrangement, subject to direction by the Commission if agreement cannot be attained by the involved station licensees. In addition, where practicable, such licensees shall use directive antennas to minimize interference between the particular stations.

(b) Coast stations at locations separated 150 statute miles or more, which transmit on a radio-channel above 100 Mc, shall minimize interference between the particular stations using the same radio-channel above 100 Mc in so far as is practicable by adjustment of radiated power (provided the authorized transmitter power is not exceeded), by adjustment of the antenna height (within the physical limitations approved by the Commission with respect to air navigation), or by employing appropriate antenna directivity. Appropriate remedial action in this respect may be specifically required of particular station licensees when, in the discretion of the Commission, such requirement must be imposed by a specific directive.

(c) Coast stations which transmit on a radio-channel above 100 Mc and are located within interference range on such channel of any station within a foreign country bordering on the United States, shall take such measures of the nature prescribed in paragraphs (a) and (b) of this section as may be practicable and appropriate to minimize interference to the involved foreign station(s), and shall keep the Commission fully informed of all pertinent developments.

§ 7.106 *Operating controls.* (a) The transmitting apparatus of stations subject to this part shall be installed and protected so as to be not accessible to other than duly authorized persons.

(b) Effective on and after January 1, 1952, such operating controls as necessarily are used for commencing and discontinuing normal operation of each coast station, such operating controls as necessarily are used for normally changing from each operating radio-channel to any other associated operating radio-channel in the same characteristic portion of the spectrum, and such operating controls as necessarily are used for normally changing from transmission to reception and vice-versa, shall be available at the principal operating location of the station and shall be readily accessible to the authorized operator. This requirement, however, need not be met by equipment intended for use only in emergencies and not used for normal communications.

(c) Effective on and after January 1, 1952, every coast station using telegraphy shall, when an authorized operator is present at the principal operating location, be capable of change-over from telegraph transmission to telegraph reception and vice-versa within a total period of two seconds under circumstances which do not require a change in operating radio-channel at the same time.

(d) Effective on and after January 1, 1952, every coast station using telephony shall, when an authorized operator is present at the principal operating location, be capable of change-over from

telephone transmission to telephone reception and vice-versa within a total period of two seconds under circumstances which do not require a change in operating radio-channel at the same time.

(e) Effective on and after January 1, 1952, every coast station shall, during its hours of service and when the authorized operator is present at the principal operating location, be capable of—

(1) Commencing operation within one minute after the need to do so occurs;

(2) Discontinuing all emission within five seconds after emission is no longer required or after the necessity arises for emission to cease.

(f) Effective on and after January 1, 1953, every coast station using a multichannel installation for telegraphy shall, when the authorized operator is present at the principal operating location, be capable of changing, after the need to do so occurs, from each operating radio-channel for telegraphy to any other operating radio-channel for telegraphy within—

(1) A period of five seconds if the particular radio-channels are within the same characteristic portion of the spectrum; or

(2) A period of fifteen seconds if the particular radio-channels are not within the same characteristic portion of the spectrum;

(3) *Provided, however,* That this requirement need not be met by equipment intended for use only in emergencies and not used for normal communication.

(g) Effective on and after the dates hereinafter designated in this paragraph, every coast station using a multi-channel installation for telephony shall, when the authorized operator is present at the principal operating location, be capable of changing, after the need to do so occurs, from one operating radio-channel for telephony to another operating radio-channel for telephony within—

(1) A period of five seconds, when changing from the calling channel to a working channel and vice-versa within the frequency band 1600 kc to 4000 kc; effective on and after January 1, 1953; or

(2) A period of three seconds, when changing from the calling channel to a working channel and vice-versa within the frequency band 156 Mc to 162 Mc; effective on and after January 1, 1952.

(h) Whenever the same radio-channel is used for radiotelephone transmission and reception, means shall be provided so that transmission of the carrier wave may be either automatically "voice-controlled" or controlled manually by the person whose speech is being transmitted.

(i) Effective on and after January 1, 1952, each coast station located at a municipal harbor or port and using telegraphy on frequencies within the band 365 kc to 515 kc for communication with ship stations within 10 statute miles of the coast station transmitting location (except stations which are not capable of providing a plate input power in excess of 150 watts) must be provided with a device or arrangement readily permitting the use of a plate input power for telegraphy which is not in excess of 100 watts.

§ 7.107 *Antenna requirements.* (a) The antenna(s) of each public coast station shall, in so far as is practicable in each case, have electrical characteristics that will, in conjunction with the particular transmitting apparatus employed, assure maximum attainable efficiency in the conversion of antenna power to radiated power.

(b) All emission of a coast station (public or limited) or a marine-utility station operated on shore, using telephony on any frequency assignment within the frequency band 30 Mc. to 200 Mc. normally shall be polarized vertically at the source: *Provided,* The Commission may authorize the use of any other form of polarization in addition to or in lieu of vertical polarization if the applicant or station licensee makes a satisfactory showing that such authorization is necessary for effective communication or reduction of interference and would be beneficial to reception of the emission by mobile stations.

(c) The licensee of any coast station shall operate the station so as to provide a specified field strength pattern with respect to transmission and reception of signals if and when directed to do so by the Commission. For the purpose of determining the need for a particular field strength pattern, the Commission may require the licensee, prior to renewal of the station license, to conduct an appropriate field strength survey and to file the resultant data as part of the application for renewal of license.

§ 7.108 *Adjustment of equipment.* The transmitting equipment of each station subject to this part shall be operated, tuned, and adjusted so that there will be no radiation of emissions outside the authorized frequency band that interferes with the service of any other station. Any spurious emissions, including radio frequency harmonics and audio frequency harmonics, shall be maintained at the lowest practicable level.

§ 7.109 *Measurement of emission frequencies.*—(a) The licensee of each station subject to this part shall be responsible [2] for measurement of each carrier frequency in use by the station as stipulated in the following subsections of this section: *Provided,* That when a carrier does not exist (except for radar transmitters) [2] measurement shall be made of the frequency coinciding with the center frequency of the emission bandwidth, in lieu of measurement of the carrier frequency.

(b) Measurement of the carrier frequency shall occur during normal operating conditions, including with and without the application of amplitude modulation if such modulation is employed. In the case of a station using frequency modulation, measurement of the carrier frequency shall be made while modulation is not applied.

[2] The licensee of a station on land using a radar transmitter shall take the necessary measures to insure that the transmitter operates within the emission limits specified in § 7.133.

(c) Measurement of the carrier frequency shall be made by means independent of the carrier frequency determining elements of the transmitting apparatus, and the measuring equipment, shall be capable of revealing deviation in cycles per second from the authorized carrier frequency or the assigned frequency of the station with an accuracy of one-half the frequency tolerance authorized by the Commission.

(d) Measurement of the carrier frequency shall, as a minimum requirement, be made at the following times:

(1) When the involved transmitting apparatus is placed in service both initially and on each occasion after it has been removed (other than marine-utility stations and stations of portable nature) physically and temporarily from its place of installation.

(2) As soon as is practicable after any change, replacement, or repair is made of any part of the equipment which determines or affects the frequency of the carrier (including marine-utility stations and stations of portable nature).

(3) As soon as is practicable after the licensee receives an official notice from the Commission that the carrier frequency or the frequency coinciding with the center of the emission band-width has been observed by the Commission to be beyond the frequency tolerance.

(e) Each frequency measurement performed in order to comply with the provisions of this section shall be recorded in the official records of the station. In each instance of measurement the record shall show the location of the transmitter, the location of the measuring equipment, the identity of the transmitter involved, the time and date of measurement, the indicated deviation in cycles per second above or below the authorized carrier frequency or (when a carrier does not exist) above or below the assigned frequency (or other appropriate data in respect to measurement of the frequencies of emission of a radar transmitter) and the signature of the person(s) who made the measurement, together with the name of any measurement service with whom such person(s) may be associated for this purpose. Each original record of measurement shall, wherever practicable, be continuously retained at the particular station until after the date of expiration or cancellation of the current station license, and shall be made available to the Commission upon request or during inspection of the station by an official representative of the Commission. When such retention of these records at the station is deemed by the licensee to be impracticable (such as may be the situation in respect to marine-utility stations and stations of portable nature) the original records shall be retained under jurisdiction of the station licensee at any location in the United States where they can be made readily available for inspection upon request by the Commission or an official representative thereof.

(f) Measurement of frequency required by the provisions of this section may, at the option of the station licensee, be made by any qualified engineering measurement service: *Provided,* That nothing contained in this paragraph shall be construed to change or diminish in any respect the responsibility of the station licensee for proper functioning and operation of the station in accordance with law.

§ 7.110 *Measurement of transmitter power.* (a) The actual power of each radio transmitter of a coast or fixed station, subject to this part, shall be maintained within the following tolerance of the specific power authorized for that transmitter by the Commission:

(1) When the maximum operating power only is indicated, the actual power shall, insofar as is practicable, not be more than that necessary to carry on the service for which the station is licensed and in no event more than 5 percent above the maximum power authorized;

(2) When the exact authorized power is indicated, the actual power shall, at all times, be within the limits of 105 percent and 90 percent of the authorized power.

(b) For the purpose of assuring adherence to the requirement of paragraph (a) of this section, each radio transmitter rated by the manufacturer as being capable of a plate input power in excess of 200 watts or an antenna power in excess of 100 watts and initially placed in service after July 1, 1951, in a coast or fixed station, subject to this Part, shall be fitted with the instrument(s) necessary to indicate the actual plate input power to the transmitter whenever the latter is in use: *Provided,* That on and after January 1, 1956, this requirement shall apply to all such transmitters (including stations of portable nature) rated by the manufacturer with respect to power as set forth in this paragraph.

(c) When the power of a transmitter in a coast or fixed station, subject to this part, as rated by the manufacturer, is capable of being more than 105 percent of the authorized power, the station licensee, effective on and after July 1, 1951, shall employ an approved procedure to determine that the actual power does not exceed the authorized power. This determination shall be made and the result thereof entered in the licensee's records (which shall be made available to the Commission or an official representative thereof, upon request) as follows:

(1) When the involved transmitting apparatus is placed in service, both initially and on each occasion after it has been removed (other than marine-utility stations and other stations of portable nature) physically and temporarily from its place of installation;

(2) As soon as practicable after any change, replacement, or repair is made of any part of the equipment which determines or affects the actual power (including marine-utility stations and stations of portable nature);

(3) When required by an official representative of the Commission on the basis that the actual power appears, from an official inspection of the station, to exceed the authorized power.

§ 7.111 *Modulation adjustments for telephony.* (a) Coast stations, fixed stations, and marine-utility stations subject to this Part and using Class A3 emission for telephony shall be capable of proper technical operation with peak modulation percentage between 75 and 100 percent. In so far as is practicable, the AM transmitting equipment of such stations shall be adjusted so that the transmission of speech normally produces peak modulation percentages within these limits.

(b) Coast stations, fixed stations and marine-utility stations subject to this part using class F3 emission for telephony shall be capable of proper technical operation with peak modulation percentage as high as is practicable in reference to the frequency swing normally regarded as 100 per modulation. In general, the FM transmitting equipment of such stations shall be adjusted so that the transmission of speech normally produces, on this basis, peak modulation percentages between 75 and 100 percent.

(c) The adjustments required by paragraphs (a) and (b) of this section shall be made and recorded in the licensee's records as follows:

(1) When the involved transmitting apparatus is placed in service, both initially and on each occasion after it has been removed (except for marine-utility stations and other stations of portable nature) physically and temporarily from its place of installation.

(2) As soon as is practicable after any change, replacement, or repair is made of any part of the equipment which determines or affects the percentage modulation (including marine-utility stations and other stations of portable nature).

(3) When required by the Commission on the basis that the percentage modulation observed during an official inspection of the station by an official representative of the Commission appears to not comply with the requirement of paragraph (a) or (b) of this section.

§ 7.112 *General requirements for receiving apparatus.* (a) The radio equipment of each coast station, or marine-utility station, using telegraphy or telephony, must be capable of permitting the reception of the class or classes of emission on the frequency or frequencies, normally received for the service carried on. The technical arrangement of the station apparatus shall be such that the necessary reception of emissions can be readily effected prior to the transmission of any signals or communications by the coast or marine-utility station on the associated transmitting frequency.

§ 7.113 *Facilities for busy signal in telephony.* (a) A "busy" signal, when used by a coast station in accordance with the provisions of paragraph (e) of § 7.312 may be transmitted by appropriately modulating the carrier wave of the station by means of a single audio frequency (sine wave) regularly interrupted, as follows:

1. Modulating frequency: 1000 cycles per second.
2. Rate of interruption: 60 times per minute.
3. Duration of each interruption: 0.5 second.
4. Tolerance for each of the factors 1, 2, 3: 5.0 percent.

(b) As an alternative to the technical factors set forth in paragraph (a) of this section, other appropriate technical factors may be authorized by the Commission for the purpose of a "busy" signal pursuant to paragraph (e) of § 7.312.

§ 7.114 *Required coast station clock.* (a) A reliable clock with a second hand shall be installed at the radio operating control point of each coast station licensed for telegraphy on frequencies below 515 kilocycles. This clock shall be mounted in a position that will allow the divisions between minutes to be easily and accurately read by the operator from his normal operating position. In each coast station licensed to transmit on 500 kilocycles, the required clock shall be provided with a sweep second hand and shall be mounted in a position that will allow the second dial to be easily and accurately read by the operator from his normal operating position.

(b) On each day the coast station is operated, the time indicated by this clock shall be compared with standard time and if a deviation is observed, the clock shall be adjusted to accurately coincide with standard time: *Provided,* That this requirement shall not preclude adjustment of this clock to Greenwich mean time pursuant to the International Radio Regulations.

§ 7.115 *Retention and availability of radio station logs.*[4] (a) All station logs which are required under those provisions of this Part pertaining to the particular classes of stations subject to this Part shall be retained by the licensee for a period of one year from date of entry and for such additional periods as required by the following subparagraphs:

(1) Station logs involving communications incident to a distress or disaster shall be retained by the station licensee for a period of 3 years from date of entry;

(2) Station logs which include entries of communications incident to or involved in an investigation by the Commission and concerning which the station licensee has been notified shall be retained by the station licensee until such licensee is specifically authorized in writing by the Commission to destroy them.

(3) Station logs incident to or involved in any claim or complaint of which the station licensee has notice shall be retained by such licensee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

(b) Station logs shall be made available to an authorized representative of the Commission (including any engineers of the Commission's Field Engineering and Monitoring Division) upon request.

[4] See Parts 45 and 46 of the Commission's rules concerning preservation of records of common carriers.

§ 7.116 *Requirements as to control points.* At each control point of each coast or fixed station subject to this part the following facilities shall be provided:

(1) A carrier-operated device which will provide continuous visual indication whenever the transmitting apparatus is supplying power at radio-frequency to the antenna; or, in lieu thereof, a pilot lamp or meter or equivalent device which will provide continuous visual indication whenever the transmitter control circuits have been placed in a condition to actuate the radio transmitting apparatus: *Provided, however,* That the provisions of this subsection shall not apply to marine-utility stations.

(2) Equipment to permit the responsible operator to aurally monitor all transmissions originating at dispatch points under such operator's supervision, if dispatch points are utilized.

(3) Facilities which will readily permit the responsible operator either to disconnect the dispatch point circuits from the radio transmitting apparatus or to render such apparatus inoperative from any dispatch point under the supervision of such operator; and

(4) Facilities which will permit the responsible operator to energize and de-energize the radio transmitting equipment at will.

SUBPART E.—STANDARD TECHINAL REQUIREMENTS

§ 7.131 *Authorized frequency tolerance.* (a) Unless the particular instrument of authorization specifically provides otherwise, the frequency tolerances[1] authorized for stations on land in the maritime services subject to this part shall be as prescribed in the following paragraphs.

(b) Authorized frequency tolerances for coast stations operating on frequencies below 515 kc or within the frequency-band 1,600 kc to 25,000 kc:

Frequency ranges	Applicable until Jan. 1, 1953, to transmitters installed before Jan. 1, 1950	Applicable to transmitters installed after Jan. 1, 1950, and to all transmitters after Jan. 1, 1953
	Percent	*Percent*
(1) From 14 to 515 kc	0.1	0.02
(2) From 1,600 to 25,000 kc	0.02	0.005

(c) Authorized frequency tolerances for coast stations operating on frequencies above 30 Mc and for marine-utility stations:

	Percent
(1) From 30 to 100 Mc:	
For stations licensed to operate with a plate input power not in excess of 3 watts	0.02
For all other stations	.01
(2) From 100 to 200 Mc:	
For stations licensed to operate with a plate input power not in excess of 3 watts	.01
For all other stations	.005

[1] Frequency tolerance is defined by § 7.8 (m).

(d) Authorized frequency tolerances for fixed stations operating in the maritime fixed services:

Frequency range	Applicable until Jan. 1, 1953, to transmitters installed before Jan. 1, 1950	Applicable to transmitters installed after Jan. 1, 1950 and to all transmitters after Jan. 1953
	Percent	*Percent*
(1) From 2100 to 2210 kc; Marine fixed stations and marine receiver-test stations.	0.01	0.005
		Percent
(2) From 72 to 76 Mc: Marine control, marine repeater, and marine relay stations		0.005
(3) From 100 to 200 Mc: Marine receiver-test stations		.005

(e) The frequency tolerance authorized for stations on land operating in the maritime radiolocation service shall be:

(1) When using radar transmitter (s) only, within a frequency band above 2400 Mc, the frequency tolerance is prescribed as follows: The frequency at which maximum emission occurs shall be within the authorized frequency-band and shall not be closer than 1.5/T megacycles per second to the upper and lower limits of the authorized frequency-band, where "T" is the pulse duration in microseconds.

(2) For other stations on land operating in the maritime radiolocation service the authorized frequency tolerance shall be specified in the instrument of authorization issued in behalf of each station.

§ 7.132 *Authorized classes of emission.* (a) When the class of emission is specifically designated in the instrument of authorization, stations on land in the maritime services subject to this Part shall use emission in conformity with the terms of that document. Otherwise, such stations are authorized to employ classes of emission as follows:

Frequency-band and classes of emission authorized

(1) Coast stations using telegraphy:	
14 to 160 kc	A1, and for brief testing AO;
160 to 515 kc	A1, A2,[1] A2a,[1] A2b,[1] and for brief testing AO;
2,200 kc to 25,000 kc	A1, A2,[1] A2a,[1] A2b,[1] and for brief testing AO;
(2) Coast stations and marine-utility stations using telephony:	
1600 kc to 30 Mc	A3, A3a, A3b; and for brief operating signals A1, A2, A2a, A2b; also for brief testing AO;
30 Mc to 50 Mc	A3, A3a, A3b, F3; and for brief operating signals A1, A2, A2a, A2b, F1, F2; also for brief testing AO, FO;
156.35 Mc to 162.05 Mc	F3; and for brief operating signals F1 and F2; also for brief testing FO;
For other frequencies or frequency-bands.	As designated in the station authorizations.
(3) Marine-fixed stations:	
2100 kc to 2210 kc	A3, A3a, A3b; and for brief operating signals A1, A2, A2a, A2b; also for brief testing AO.
Marine receiver-test stations:	
2100 kc to 2210 kc	Primarily A3, A3a, A3b; secondarily for test calling signals; AO, A1, A2, A2a, A2b;
156.25 Mc to 157 Mc	Primarily F3; secondarily for test calling signals; FO, F1, F2.
Marine control, marine repeater and marine relay stations:	
72 Mc to 76 Mc	A1, A2, A2a, A2b, A3, F1, F2, F3; and for brief testing AO, FO.
(4) Stations using radar transmitters only:	
Above 2400 Mc	FO.

[1] Permissible by keying the modulated emission. Keying the modulating audio frequency only, without interruption of the carrier wave, is not permissible. The use of any audio frequency pulse device such as a so-called "chopper" is prohibited. The use of these classes of emission on frequencies between 4,000 kc and 23,000 kc, except for stations of survival craft and for special purposes, will be prohibited when Article 33 of the International Radio Regulations of Atlantic City, 1947, becomes effective.

Stations of any category not designated in subparagraph (1), (2), (3) and (4) of this paragraph shall use the class or classes of emission specified in the particular station authorization.

(b) Classes of emission not authorized in paragraph (a) of this section may be authorized by the Commission in special circumstances, subsequent to a satisfactory showing by the applicant of a need therefor and provided harmful interference will not result from the use thereof. Each application requesting such special authorization shall fully describe the emission described to be used, shall indicate the emission-bandwidth required for effective operation, and shall state the purpose for which such emission is required.[2]

§ 7.133 *Authorized emission-bandwidth.*[3] (a) When the authorized emission-bandwidth is specifically designated in the instrument of authorization, stations on land in the maritime services subject to this part shall use emission-bandwidth(s) in conformity with the terms of that document. Otherwise, such stations shall use emission-bandwidths not exceeding those set forth in this section for the respective classes of emission authorized in § 7.132.

[2] For information regarding the classification of emissions and the calculation of the bandwidth, reference should be made to Part 2 of the Commission's rules.

[3] For definition of the term "emission-bandwidth", see paragraph (g) of § 7.8.

(b) The authorized emission-bandwidths hereinafter designated are established in relation to the operational factors set forth in the following subsubparagraphs:

(1) Class A0 emission means the incidental radiation of an unmodulated carrier wave from a station which is authorized to use normally an amplitude-modulated wave;

(2) Class A1 emission means a carrier wave (without the use of modulating audio frequency) keyed normally for telegraphy so as to transmit intelligence in the International Morse code at a speed not exceeding 40 words per minute, with the average word composed of 5 letters;

(3) Class A2 emission means a carrier wave amplitude-modulated at audio frequency not exceeding 1,250 cycles per second, the modulated carrier wave being keyed normally for telegraphy so as to transmit intelligence in the International Morse code at a speed not exceeding 40 words per minute, with the average word composed of 5 letters. (The authorized emission-bandwidths for classes A2, A2a, and A2b emission are designated hereinafter on this basis);

(4) Class A3 emission means a carrier wave amplitude-modulated at audio frequencies corresponding to those necessary for intelligible speech transmitted at conversational speed. (The authorized emission-bandwidths for classes A3, A3a, and A3b emission are designated hereinafter on this basis);

(5) Class F0 emission means the incidental radiation of an unmodulated carrier wave from a station which is authorized to use normally a frequency-modulated wave;

(6) Class F1 emission means a continuous wave (without the use of modulating audio frequency), the frequency of which is alternately shifted between the normal value and another specific value, by keying normally for telegraphy, so as to transmit intelligence in the International Morse code. The authorized bandwidth for class F1 emission is designated hereinafter on the basis of the bandwidth authorized for class F2 emission;

(7) Class F2 emission means a continuous wave frequency-modulated at such audio frequency and with such deviation ratio as to not exceed the authorized emission-bandwidth, the modulating frequency being keyed normally for telegraphy so as to transmit intelligence in the International Morse code at a speed not exceeding 40 words per minute, with the average word composed of 5 letters.

(8) Class F3 emission means a continuous wave frequency-modulated at audio frequencies corresponding to those necessary for intelligible speech transmitted at conversational speed, with a deviation ratio of any value necesary for effective communication, provided the resulting emission shall not exceed the authorized emission-bandwidth.

(9) The keying of a carrier wave or the amplitude modulation of a carrier wave by means of audio or sub-audible frequency or frequencies, so as to transmit in each instance a selective signalling code intended to actuate a selective-calling device, shall be construed as class A1 emission or class A2, A2a, or A2b emission, respectively, within the limits of the respective authorized emission bandwidths hereinafter set forth; provided that for class A2, A2a, or A2b emission, the frequency of modulation does not exceed 1300 cycles per second on radio-channels authorized for telegraphy, nor 3000 cycles per second on radio-channels authorized for telephony.

(10) The frequency-shift keying of a carrier wave or the frequency-modulation of a carrier wave at audio or sub-audible frequency or frequencies, so as to transmit in each instance a selective signalling code intended to actuate a selective-calling device, shall be construed as class F1 emission or class F2 emission respectively, within the limits of the respective authorized emission-bandwidths hereinafter set forth; provided the frequency deviation used, and in the case of class F2 emission the modulating frequency or frequencies used, is (are) such that the emission in fact does not exceed the respective authorized emission-bandwidth.

(11) Class P0 emission means pulse transmission with the absence of any modulation intended to carry information, as used by ship radar stations licensed by the Commission.

(c) (1) The authorized emission-bandwidths for the classes of emission authorized in § 7.132 shall be as follows:

Class of emission	Emission designator	Emission-bandwidth authorized for transmission of intelligence [1]
A0	None	None.
A1	0.15, A1	150 cycles per second.
A2	2.7, A2	2,700 cycles per second.
A2a	1.35, A2a	1,350 cycles per second.
A2b	2.7, A2b	2,700 cycles per second.
A3	8, A3	8,000 cycles per second.
A3a	4, A3a	4,000 cycles per second.
A3b	8, A3b	8,000 cycles per second.
FO	None	None.
F1:		
For 35 Mc to 76 Mc	36, F3	36,000 cycles per second.
For 156.35 Mc to 162.05 Mc	42, F3	42,000 cycles per second.
F2:		
For 35 Mc to 76 Mc	36, F3	36,000 cycles per second.
For 156.35 Mc to 162.05 Mc	42, F3	42,000 cycles per second.
F3:		
For 35 Mc to 76 Mc	36, F3	36,000 cycles per second.
For 156.35 Mc to 162.05 Mc	42, F3	42,000 cycles per second.
PO	Variable, according to the authorized frequency band.	The frequency at which maximum emission occurs shall be within the authorized frequency band and shall not be closer than 1.5/T megacycles per second to the upper and lower limits of the authorized frequency band, where "T" is the pulse duration in microseconds.

[1] This bandwidth does not take into consideration the effect of modulation caused by any alternating component(s) of electron-tube grid, anode, or cathode electric power supplies, which modulation is not intended to convey intelligence.

(2) With reference to the "emission designator" expressed in subparagraph (1) of this paragraph when the authorized class of emission is specifically designated in the station authorization and is prefixed by a numeral, that numeral specifies the authorized emission-bandwidth in kilocycles per second to be occupied by that class of emission in accordance with all other terms and conditions of the station authorization.

(3) In the actual operation of a station on land subject to this part unless otherwise provided by the station authorization,

(i) When a carrier is present, the frequency coinciding with the center of the frequency-band occupied by the emission-bandwidth shall, when class A2, A2b, A3, F2, or F3 emission is being used, be the same as the carrier frequency;

(ii) When a carrier is not present, the frequency-band occupied by the emission-bandwidth shall be within the authorized frequency-band.

(d) Bandwidths in excess of those set forth in paragraph (c) of this section or emission-bandwidths for other classes of emission may be authorized and set forth in the instrument of authorization if approved by the Commission subsequent to a satisfactory showing by the applicant of need therefor. Each application requesting such special authorization shall fully describe the emission desired to be used, shall indicate the emission-bandwidth required for effective operation, and shall state the purpose for which such emission-bandwidth is required.

§ 7.134 *Authorized transmitter power.* (a) Stations on land subject to this part may use such antenna power as is necessary to carry on the service for which the station is licensed, on condition that the maximum authorized transmitter power shall not be exceeded. Unless the station authorization specifically provides otherwise, the maximum authorized transmitter power (as defined in paragraph (kk) of § 7.8) shall not exceed the particular power set forth in the following subsections which is applicable under the controlling factors designated therein in direct relation to that power.

(b) For coast stations using telegraphy on frequencies below 25,000 kc, the maximum authorized transmitter power shall be:

Maximum authorized transmitter power (with or without modulation)

Frequency-band in which transmission occurs:	*Kilowatts*
70 kc to 150 kc	80
150 kc to 515 kc	20
4,000 kc to 25,000 kc	80

(c) For coast stations using telephony on frequencies below 25,000 kc, the maximum authorized transmitter power shall be:

Class of radio-frequency amplifier used in last radio stage of transmitter	Maximum authorized transmitter power (when no modulation is present) frequency band in which transmission occurs					
	2,000–4,000 kc.		4,000–5,000 kc.		5,000–25,000 kc.	
	Day	Night	Class I station	Class II station	Class I station	Class II station
Class C—plate or plate and screen-grid modulated	*Watts* 1,500	*Watts* 700	*Kilowatts* 70	*Watts* 1,500	*Kilowatts* 70	*Watts* 1,500
Class C—control, screen, or suppressor-grid modulated	3,000	1,400	140	3,000	140	3,000
Class C—cathode modulated	2,400	1,120	112	2,400	112	2,400
Class B—linear	3,000	1,400	140	3,000	140	3,000
Class BC—high efficiency	1,800	840	84	1,800	84	1,800
Other classes	As specified in the station authorization					

(d) For coast stations and marine-utility stations using telephony on any frequency assignment within the frequency-band 35 Mc to 44 Mc and employing amplitude modulation (AM): the maximum authorized transmitter power shall be:

Class of radio-frequency amplifier used in last radio stage of transmitter	Maximum authorized transmitter power (when no modulation is present)	
	Coast stations	Marine-utility stations
	Watts	*Watts*
Class C—plate, or plate and screen-grid modulated	100	10
Class C—control, screen, or suppressor-grid modulated	200	20
Class C—cathode modulated	160	16
Class B—linear	200	20
Class BC—high efficiency	120	12
Other classes	As specified in the station authorization	

(e) For coast stations and marine-utility stations using telephony on any frequency assignment within one or more of the following frequency-bands, and employing frequency modulation (FM), the maximum authorized transmitter power shall be:

Frequency band in which operation occurs	Maximum authorized transmitter power (without reference to modulation)		
	Public coast stations	Limited coast stations	Marine-utility stations
	Watts	*Watts*	*Watts*
35 Mc to 44 Mc	100	100	10
156.25 Mc to 157.05 Mc	250	100	10
161.85 Mc to 162.05 Mc	1,000		

(f) For stations in the maritime fixed services, the maximum authorized power shall be as prescribed herewith:

Frequency band in which operation occurs	Maximum authorized transmitter power (when no modulation is present)
Marine fixed stations and marine receiver-test stations using telephony (amplitude modulation):	
2100 kc to 2210 kc.:	
Class C—plate, or plate and screen-grid modulated	150 watts.
Class C—control, screen, or suppressor-grid modulated	300 watts.
Class C—cathode modulated	240 watts.
Class B—linear	300 watts.
Class BC—high efficiency	180 watts.
Other classes	As specified in authorization.
Marine receiver-test stations using telephony (frequency modulation):	
156.35 Mc to 157.45 Mc	100 watts.

(g) For marine control, marine repeater, and marine relay stations operating within the frequency band 72 to 75 Mc, and for other classes of stations subject to this part operating on frequencies above 162.05 Mc, the authorized transmitter power shall be specified in the respective station authorization.

(h) (1) For the purpose of assuring adherence to the requirements of this section, the authorized transmitter power, with reference to paragraphs (hh) and (kk) of § 7.8, shall be computed for electron-tube transmitters by the method set forth in the following subparagraphs.

(2) The authorized transmitter power shall be the sum of the products obtained by multiplying the effective anode (plate) voltage, applied to each electron tube of the last radio stage supplying radio-frequency power to the antenna, by the effective anode (plate) current flowing through each such tube, or shall be the sum of the actual powers supplied to each such tube.

(3) Measurement of the effective anode (plate) voltage shall be accomplished by means of a direct-current type voltmeter (as applicable) or an alternating-current type voltmeter of proper frequency range (as applicable), each such instrument being of standard accuracy and reliability. Where the same voltage is applied to more than one electron tube, measurement of this voltage shall be regarded as measurement of the voltage applied to each individual electron tube of that particular group.

(4) Measurement of the effective anode (plate) current shall be accomplished by means of a direct-current (d'Arsenval galvanometer movement) type ammeter of standard accuracy and reliability. Where the anode (plate) current through more than one electron tube flows through a common point in the electrical circuit, measurement of the current at this point shall be regarded as measurement of the total effective anode (plate) current flowing through all electron tubes of that particular group.

(5) Measurement of the actual power in watts supplied to the anode (plate) circuit of one or more electron tubes shall be acceptable provided a wattmeter properly activated by the form of voltage and current supplied is employed, and is of standard accuracy and reliability.

(6) When any current, in addition to the actual anode (plate) current, flows through an ammeter or wattmeter being used for measurements in accordance with this paragraph (such as screen-grid current), such current, unless separately measured, shall not be deducted from the current measured for the purpose of this paragraph.

§ 7.135 *Suppression of receiver radiation.* (a) On and after January 1, 1956, the use or operation in coast stations, marine utility stations, or marine fixed stations of the following type of radio receiving equipment shall be prohibited:

(1) Radio receiving equipment which, when used or operated either with or without connection to an actual antenna, creates an electromagnetic field, at any radio frequency, of more than 0.1 microvolt per meter at a distance over seawater of more than one nautical mile from the receiver;

(2) Radio receiving equipment which, when in operation, is capable of delivering more than 400 micromicrowatts of power at any radio frequency to an artificial antenna having electrical characteristics designated by the Commission as equivalent to those of the average receiving antenna(s) used in practice by the class of station involved.

(3) Radio receiving equipment shall be deemed capable of meeting the requirement of subparagraph (1) of this paragraph if, when adjusted for radio reception at each frequency within its tuning range, it is not capable of delivering power of more than 400 micromicrowatts at any radio frequency to an artificial antenna having electrical characteristics designated by the Commission as equivalent to those of the average receiving antenna(s) used in practice by the class of station involved.

§ 7.136 *Type approval of transmitters for licensing.* (a) Upon written request therefore made by the manufacturer or applicant for related station authorization, approval of a specific and readily identifiable type of radio transmitter as being capable of complying with all requirements of the Commission solely for the purpose of authorizing such transmitter in accordance with the provisions of § 7.21 will be given formally by the Commission subsequent to a satisfactory showing of compliance made by the applicant. The necessary showing of compliance shall, as a minimum, be in the form of a written statement (together with such supplemental charts, graphs, illustrations, etc., as may be deemed appropriate by the applicant for type approval) over the signature of a competent radio engineer attesting to actual technical performance of the transmitter in accordance with all pertinent rules, regulations, and international agreements which must be met by the class of station for which the transmitter is intended to be licensed.

(b) Request for type approval and showing of compliance pursuant to the provisions of paragraph (a) of this section shall be submitted in duplicate to the Commission at Washington 25, D. C., and shall be designated for attention of the Marine Division. One copy of such showing of compliance shall be signed under oath or affirmation by the engineer who conducted or supervised the related technical performance of the particular type of transmitter for the purpose of securing type approval by the Commisson.

(c) In the event the written showing of compliance prescribed by paragraphs (a) and (b) of this section is deemed by the Commission to not furnish all information or data which it requires for the purpose of giving type approval to a particular type of radio transmitter, the Commission may supplementally require the applicant for such type approval to demonstrate by actual operation of the involved equipment in the presence of one or more engineers of the Commission that the same will, in fact, comply with all pertinent rules, regulations, and international agreements. In the event the showing of compliance is finally adjudged by the Commission to be unsatisfactory for the purpose of type approval for licensing of the particular type of transmitter, such type approval will not be given and that type of transmitter will not be licensed for the involved class of station.

§ 7.137 *Special requirements for radiotelephone transmitters.* (a) Except for transmitters authorized solely for developmental stations, each radiotelephone transmitter first licensed by the Commission after July 1, 1951, for use and operation in a coast station, a marine fixed station or a marine-utility station on shore, and all radiotelephone transmitters licensed by the Commission after January 1, 1953, for use and operation in such classes of stations shall be provided with a device that will automatically prevent modulation in excess of 100 percent. This requirement, however, shall not apply to transmitters incapable of a plate input power exceeding three watts which are authorized for marine-utility stations and other stations of portable nature.

(b) (1) Each radiotelephone transmitter authorized in a coast station license or a marine-utility station license granted, modified, or renewed by the Commission after July 1, 1951, for use and operation at frequencies above 30 Mc (other than transmitters authorized solely for developmental stations), must be a type which is approved by the Commission pursuant to the provisions of § 7.136.

(2) Before being finally considered for type approval, such transmitters shall, in addition to meeting all other applicable requirements, comply with the following limitations and operating conditions:

(i) When radiating F1, F2, or F3 emission on each marine radio channel within the frequency-band 35 Mc to 44 Mc, with 100 percent [4] modulation applied, the frequency deviation [4] shall not exceed 12 kc.

(ii) When radiating F1, F2, or F3 emission on each marine radio channel within the frequency-band 156 Mc to 158 Mc, with 100 percent [4] modulation applied, the frequency deviation [4] shall not exceed 15 kc.

(iii) When radiating class F1, F2, or F3 emission on each radio channel within the frequency band 35 Mc to 44 Mc, any emission appearing on any radio frequency removed from the carrier frequency be not less than 18 kc nor more than 36 kc shall be attenuated 25 decibels or more below the intensity of the unmodulated carrier. Any emission appearing on any radio frequency removed from the carrier frequency by more than 36 kc shall be attenuated 60 decibels or more below the intensity of the unmodulated carrier: *Provided*, That for transmitters incapable of plate input power of more than 3 watts, this attenuation shall be 40 decibels or more below the intensity of the unmodulated carrier.

(iv) When radiating class F1, F2, or F3 emission on each marine radio channel within the frequency band 156.35 Mc to 162.05 Mc, any emission appearing on any radio frequency removed from the carrier frequency by not less than 21 kc nor more than 42 kc shall be attenuated 25 decibels or more below the intensity of the unmodulated carrier. Any emission appearing on any radio frequency removed from the carrier frequency by more than 42 kc shall be attenuated 60 decibels or more below the intensity of the unmodulated carrier: *Provided*, That for transmitters incapable of plate input power of more than 3 watts, this attenuation shall be 40 decibels or more below the intensity of the unmodulated carrier.

§ 7.138 *Special requirements for radar transmitters.* (a) Each radar transmitter authorized for use in the maritime radiolocation service by any station license granted, modified, or renewed by the Commission after July 1, 1950 (other than licenses for developmental stations) must be type-approved by the Commission pursuant to section 7.136. In addition to meeting all other applicable requirements, such transmitters shall, in addition, comply with the limitations and conditions set forth in paragraph (b) of this section.

(b) (1) The design and construction of the radar transmitter shall be such that, when properly installed, its use will not produce harmful interference to any other radiolocation service or any maritime mobile service;

(2) The radar transmitter shall not have means available for any external adjustment(s) which can result in a deviation from the terms of the station authorization or any deviation from the applicable technical requirements for stations on land using radar stations which are stipulated in this part.

SUBPART F—OPERATOR REQUIREMENTS

§ 7.151 *Authorized operator required.* (a) Except as otherwise provided by any applicable order of the Commission, the actual operation of all transmitting apparatus in any radio station subject to this part shall be carried on only by a person holding an operator license issued by the Commission in accordance with Part 13 of the Commission's rules, subject, however, to the following provisions:

(1) When the station is used for telephony, the person actually operating the transmitting apparatus (normally a person holding an operator license issued by the Commission in accordance with Part 13 of the Commission's rules), may if authorized by the station licensee to do so, permit any person to speak over the station microphone: *Provided*, That during such transmission the station licensee or the licensed operator (acting in this respect as the station licensee's agent) shall exercise his lawful control with respect to operation of the station so as to insure compliance with all applicable laws and regulations. In this respect, a microphone (located, for example at a dispatch point) used in connection with any land-wire telephone circuit which is electrically connected to the modulating system of the radiotelephone transmitting apparatus shall be construed for the purpose of this subsection to be the station microphone.

(2) When the station is used for telegraphy, transmitted manually by means of the international Morse code, the transmitting telegraph key shall, wherever its location, be manipulated only by a person who holds an operator license of the class valid for the operation of the particular class of station being operated.

§ 7.152 *Location of authorized operator.* (a) Whenever the transmitting apparatus of a station subject to this part is being used or operated, and the provisions of section 318 of the Communications Act (in so far as such provisions require the actual operation of such apparatus only by a person holding an operator license of the proper class issued by the Commission) are not waived by the Commission, at least one person hold-

[4] See paragraphs (x), (y), and (cc) of § 7.8.

UNIVERSITY OF MICHIGAN LIBRARIES

ing an operator license of the proper class as prescribed in Part 13 of the Commission's rules shall be on duty at an authorized control point [1] of that station and shall be responsible for proper operation of the station as controlled from that location.

(b) Subject to the conditions stipulated in § 7.151, an unlicensed person at a dispatch point [2] may, after being authorized by the station licensee to do so, operate from that point a coast station or a fixed station: *Provided, however,* That such operation shall be under the direct supervision and responsibility of a person holding an operator license of the proper class issued by the Commission, who is on duty at an authorized control point associated for this purpose with the respective dispatch point.

§ 7.153 *Unattended operation of fixed stations.* (a) No person, whether or not a licensed operator, is required to be in attendance at any marine repeater station subject to this part which is licensed for operation solely on frequencies above 72 Mc with an authorized transmitter power not in excess of 100 watts when such station is being used and operated for re-transmission by self-actuating means of signals or communications being received simultaneously at that station from a marine control station, a marine relay station, or another marine repeater station: *Provided,*

(1) The emission of the station is controlled positively and solely by the received radio signals which, in accordance with the station authorization, are intended to effect such control.

(2) The activation and de-activation of the station is controlled positively by either radio or wire-line signals transmitted from an authorized control point at which a duly licensed operator exercises such control.

(b) Nothing contained in paragraph (a) of this section shall be construed to change or diminish in any respect the responsibility of the station licensee for having and maintaining control of the marine-repeater station or for proper functioning and operation of the station in accordance with law.

§ 7.154 *Adjustment or test of equipment.* Notwithstanding any other provisions of this subpart, all adjustments or tests of radio transmitting apparatus in any station subject to this part during or coincident with the installation, servicing, or maintenance of such apparatus which may affect the proper operation of such station, must be performed by or under the immediate supervision and responsibility of a person holding a first or second class commercial radio operator license, either radiotelephone or radiotelegraph, who shall be responsible for the proper functioning of such transmitting apparatus in accordance with the radio law and the Commission's rules and regulations and for the avoidance and prevention of harmful interference from improper transmitter external effects. Nothing in this section shall be construed to change or diminish in any respect the responsibility of any station licensee for having and maintaining control over the station licensed to him, or for the proper functioning and operation of such station in accordance with the terms of the station license.

§ 7.155 *Posting of operator license.* (a) Except as otherwise provided in paragraph (b) of this section, when a licensed operator is required for the operation of a station subject to this part, each licensed operator involved shall observe the applicable requirements of Part 13 of the Commission's rules with respect to the posting of operator licenses.

(b) The requirement of paragraph (a) of this section with respect to posting of operator licenses shall not apply to marine-utility stations on shore if the posting of a license in the manner required by Part 13 of the Commission's rules is impracticable, upon the express condition that the licensed radio operator engaged in operating the station shall have on his person either his required operator license or a duly issued verification card (FCC Form 758–F) attesting to the existence of that license.

Subpart G—General Operating Requirements

§ 7.171 *International Regulations applicable.* In addition to being regulated by applicable rules of this part, the use and operation of stations subject to this Part shall be governed by applicable provisions of the International Radio Regulations and the applicable radio provisions of all other international agreements in force to which the United States is a party.

§ 7.172 *Cooperative use of frequency assignments.* Unless provided otherwise, by applicable provisions of the International Radio Regulations,[3] by this part, or by the particular station authorization, each radio-channel authorized for use by a station subject to this part is available for such use on a shared basis only and shall not be construed as available for the exclusive use of any one station or any one station licensee. All station licensees shall cooperate in the use of their respective frequency assignment in order to minimize interference and obtain the most effective use of the authorized radio-channels.

§ 7.173 *Secrecy of communication.* The station license, and the responsible radio operators, as well as all persons who may have knowledge of the text or of the existence of the radio communications transmitted or received by a land or fixed station subject to this part, or of any information whatever obtained by means of the radio-communication service of such station, shall be under the obligation of observing and insuring the secrecy of communications to the extent required by the Communications Act and the International Radio Regulations.[4]

§ 7.174 *Unauthorized transmissions.* Stations operating in the maritime mobile service or in any fixed service subject to this part shall not engage in radiocommunication which is superfluous or unnecessary in that service. Except in an emergency which requires otherwise, the transmission by such stations of signals or communications not addressed to an authorized station or stations in an authorized maritime service is prohibited unless radiotelegraphy is used and the transmission, preceded by CQ or CP in accordance with the International Radio Regulations, is intended to be intercepted by authorized stations of the maritime mobile service.

§ 7.175 *Suspension of transmission.* Transmission shall be suspended immediately upon detection or notification of a deviation from the technical requirements of the station authorization until such deviation is corrected, except for transmission concerning the immediate safety of life or property, in which case transmission shall be suspended as soon as the emergency is terminated.

§ 7.176 *Service of public coast stations.* (a) Each public coast station shall, within the scope of its normal operations, be bound to exchange radiocommunication with any ship or aircraft station at sea: *Provided,* That such exchange of radiocommunication shall be without distinction as to radio systems or instruments adopted by each station.

(b) Each public coast station shall, within the scope of its normal operations and without discrimination, acknowledge all calls and receive all messages and communications from mobile stations within range which are addressed or directed to it, transmit all messages and communications delivered to or via the coast station which are addressed or directed to mobile stations within range, and in all respects, render a maritime mobile service of public correspondence without discrimination.

§ 7.177 *Service of limited coast stations and marine-utility stations.* (a) In addition to such messages as are necessary for compliance with § 7.178, and except as may be otherwise limited by the terms of this part governing the use of particular frequencies or by the terms of the station license, a limited coast station or a marine-utility station operated on shore is authorized to transmit within the scope of its normal operations messages necessary for the safe, expeditious or economical operation of ships or (when necessary) for the safety of aircraft.

§ 7.178 *General obligations of land stations.* (a) With respect to distress and the safety of navigation, life, or property, each coast station or marine-utility station shall, within the scope of its normal operation, acknowledge all such safety calls and receive all such safety communication [5] addressed or directed to it by ship or aircraft stations. Notwithstanding the terms and conditions of the station license, such stations may transmit safety communication to any ship or aircraft station in the maritime mobile service.

§ 7.179 *Message charges.* (a) No charge shall be made for the service of any station subject to this part, other than a public coast station. No charge shall be made by any public coast station subject to this part unless effective tariffs applicable to such service are on file with the Commission, pursuant to the requirements of section 203 of the Communications Act and Part 61 of the Commission's rules and regulations.

(b) No charge shall be made by any station in the maritime mobile service of the United States for the transmission of distress messages and replies thereto in connection with situations involving the safety of life and property at sea.

(c) No charge shall be made by any station in the maritime mobile service of the United States for the transmission, receipt, or relay of the information concerning dangers to navigation designated in paragraph (b) of § 8.303 of Part 8 of the rules of the Commission, originating on a ship of the United States or of a foreign country.

(d) Any common carrier subject to the Communications Act may furnish reports of positions of ships at sea to newspapers of general circulation, either at a nominal charge or without charge, provided the name of such common carrier is displayed along with such ship position reports.

(e) Any common carrier subject to the Communications Act may render to any agency of the United States Government free service in connection with the preparation for the national defense. Every such carrier rendering any such free service shall make and file, in duplicate, with the Commission, on or before the 31st day of July and on or before the 31st day of January in each year, reports covering the periods of 6 months ending on the 30th day of June and the 31st day of December, respectively, next prior to said dates. These reports shall show the names of the agencies to which free service was rendered pursuant to this paragraph, the general character of the communications handled for each agency, and the charges in dollars which would have accrued to the carrier for such service rendered to each agency if charges for all such communications had been collected at the published tariff rates.

§ 7.180 *Priority of communications to be observed.* Stations in the maritime mobile service shall observe at all times the priority of communications set forth in § 7.181; in particular, all such stations shall give absolute priority to radio communications or signals relating to any ship or aircraft in distress; shall, when any distress signal or communication is anticipated or intercepted, cease all transmission on frequencies which may interfere with any station hearing such radio communication or signal of distress except when engaged in answering or aiding the ship or aircraft in distress, and shall assist the vessel or aircraft in distress, so far as possible, by complying with its instructions.

§ 7.181 *Order of priority of communications.* (a) The order of priority of radiotelegraph communications in the maritime mobile service on any frequency used for this service shall be as follows:

(1) Distress calls (including the international distress signal SOS) international automatic-alarm signals for distress purposes,[6] distress messages, and distress traffic.

(2) Communications preceded by the international radiotelegraph urgency signal "XXX."

(3) Communications preceded by the international radiotelegraph safety signal "TTT."

(4) Communications relative to radio direction-finding bearings.

(5) Communications relative to the navigation and safe movement of aircraft.

(6) Communications relative to the navigation, movements, and needs of ships; including weather observation messages destined for an official meteorological service.

(7) Government communications for which priority right has been claimed.

(8) Service communications relating to the working of the radio-communication service or to communications previously transmitted.

(9) All other communications.

(b) The order of priority of radiotelephone communications in the maritime mobile service on any frequency used for this service shall be as follows:

(1) Distress calls (including the international telephone distress signal MAYDAY and the telegraphic distress signal SOS transmitted by either telegraphy or telephony), distress messages, and distress traffic.

(2) Communications preceded by the international radiotelephone urgency signal "PAN," or known to the station licensee or his agent to consist of one or more urgent messages concerning the safety of a ship, aircraft, or other mobile unit or of some person on board or within sight of the ship, aircraft, or mobile unit.

(3) Communications preceded by the international radiotelephone safety signal SECURITE, or known to the station licensee or his agent to consist of one or more messages concerning the safety of navigation or important meteorological warnings.

(4) Communications known to the station licensee or his agent to consist of one or more messages relative to the navigation, movements, and needs of ships; including weather observation messages destined for an official meteorological service.

(5) Government communications for which priority right has been claimed.

(6) All other communications.

§ 7.182 *Control by coast station.* When communicating with a mobile station in the maritime mobile service, coast stations may, for the sole purpose of reducing or avoiding interference, expediting communication, and rendering an efficient service give instructions to the mobile station relative to the order and time of transmission, to the choice of authorized frequency, to the suspension of communication, and to the permissible type of message traffic that may be transmitted or received by the particular coast station. This provision, however, shall not apply in the event of distress, either actual or impending, except as provided, in respect to distress situations, by § 7.187 and applicable provisions of the International Radio Regulations.[7]

§ 7.183 *Prevention of interference.* (a) Before any signals or communications are transmitted on any frequency, the licensed operator attending a coast station (or in a public coast station using telephony the land-line telephone operator under the supervision of the licensed operator) shall first listen on the associated receiving frequency, and when necessary on the coast station transmitting frequency, to determine whether transmission by the coast station will interfere with communication already in progress, whenever the involved frequency or frequencies are assigned to other stations within the same interference area: [8] *Provided,* That this requirement may be waived by the Commission upon application therefor in behalf of individual coast stations which employ other effective means to avoid interference.

(b) Whenever a radiocommunication in the maritime mobile service is already in progress between two mobile stations or between a mobile station and a coast station and it appears to be interfered with by a subsequent transmission from another mobile station, the latter must cease transmitting at the first request of either of the other two, except as priority may be otherwise determined by § 7.181. The station requesting this cessation must indicate the approximate length of the wait imposed upon the mobile station whose transmission is suspended.

(c) Except in cases of distress, communications between ship stations or between ship and aircraft stations must not interfere with the work of coast stations. When this work is thus interfered with, the ship or aircraft station which causes it must stop transmitting or change frequency upon the first request of the coast station concerned.

(d) Coast stations when operating on a frequency below 3500 kilocycles or above 30 Mc. shall not carry on, or attempt to carry on, communication with any station which, under the currently prevailing conditions of transmission or

---

[1] The term "control point" is defined by paragraph (m) of § 7.7. See also §§ 7.31 and 7.71.

[2] The term "dispatch point" is defined by paragraph (n) of § 7.7. See also §§ 7.31 and 7.71.

[3] For example, see Article 21, (C), section 7 (1) (c) of the General Radio-communication Regulations (Revision of Cairo, 1938) (Cairo 508).

[4] See sections 501, 502 and 605 of the Communications Act; also Article 21 of the International Radio Regulations, Atlantic City, 1947.

[5] Paragraph (a) of § 7.7 defines "safety communication".

[6] The international auto alarm signal intended for use primarily in radiotelegraphy consists of a series of twelve dashes sent in one minute, the duration of each dash being four seconds and the duration of the interval between two consecutive dashes being one second.

[7] See Article 37 of the International Radio Regulations, Atlantic City, 1947.

[8] For example, all stations in the Great Lakes region are considered to be in the same interference area.

UNIVERSITY OF MICHIGAN LIBRARIES

reception, is not within reliable communication range of the coast station; provided, that this provision shall not apply in event of distress, either actual or impending.

§ 7.184 *Transmission of traffic lists by coast stations.* (a) Public coast stations are authorized to transmit lists of official call signs (or in the use of telephony, the names of the respective ships) of mobile stations for whom they have public correspondence awaiting transmission. The use of calling frequencies for this purpose is prohibited; however, coast stations may announce on a calling frequency (including the assigned frequency 500 kc.) that they are ready to begin transmission of such call lists on a specified radio-channel authorized for working.

(b) In operating pursuant to paragraph (a) of this section, public coast stations using telegraphy shall be governed by the applicable provisions of the International Radio Regulations.[1]

§ 7.185 *Transmission to plurality of mobile stations.* Information for the general benefit of mariners (including storm warnings and ordinary weather and hydrographic information) and press material may be transmitted by a coast station simultaneously to a plurality of mobile stations in the maritime mobile service, provided that the times at which such transmissions (except storm warnings and urgency and safety messages) are scheduled to begin, the maximum duration of each such transmission, and the specific radio-channels and class of emission used therefor, shall, with respect to each coast station, be subject to approval by the Commission.

§ 7.186 *Hours of service of land stations.* (a) Each coast station or marine-utility station on shore whose hours of service are not continuous shall not suspend operation before having concluded all communication required in connection with a distress call or distress traffic;

(b) Each public coast station whose hours of service are not continuous shall not suspend operation before having concluded all communication (in addition to that designated in paragraph (a) of this section), within the scope of its normal operations, involving messages or calls originating in or destined to mobile stations or marine fixed stations which are within normal range of the coast station and which, in the case of mobile stations, have signalled their presence before the effective suspension of operation of the coast station.

(c) Unless otherwise authorized by the Commission upon adequate showing of need therefor, each Class 1 public coast station shall maintain continuous hours of service during the entire period of validity of the station license.

(d) Unless otherwise specified by the Commission for particular stations, the hours of service of each Class II and Class III public coast stations shall, within the scope of its normal operations, be such as to adequately meet the requirements of the particular region served by the station.

(e) Unless otherwise specified by the Commission for particular stations, the hours of service of limited coast stations and marine-utility stations on shore shall be determined by the station licensee in accordance with the requirements of the respective ships served by each station.

(f) The Commission, as public interest, convenience, or necessity requires, may order, at any time, the licensee of a public coast station not authorized for continuous hours of service to increase the hours of service of such station as may, in the discretion of the Commission, be required to provide adequate public service.

§ 7.187 *Procedure relative to distress communication.* In addition to the governing provisions of International Radio Regulations[2] applicable to the transmission and interception of distress signals and the handling of distress traffic, land stations which are subject to this part shall, in cases of distress, be governed by the following paragraphs of this section.[3]

(a) *Acknowledgment of distress message.* Any station in the maritime service which receives a distress message relative to a vessel, aircraft, or other unit which is beyond any possible doubt, in the vicinity of that station, shall, when it has appropriate transmitting apparatus available, immediately acknowledge receipt. If it appears that the vessel, aircraft, or other unit in distress is not in its vicinity, a short interval of time shall elapse before the station acknowledges receipt of the distress message, in order to permit stations that may be nearer to the location of the distress to reply and acknowledge receipt without interference. All stations in the maritime service which hear a distress signal or message must cease immediately any transmission capable of interfering with the distress signal or message and shall listen on the frequency used for the distress signal and message.

(b) *Form of acknowledgment by telegraphy.* The acknowledgment of receipt of a distress signal or message is transmitted, when telegraphy is used, in the following form:

(1) Call sign of the mobile station in distress (transmitted 3 times);

(2) The signal "de";

(3) Call sign of the station acknowledging receipt (transmitted 3 times);

(4) The signal "RRR"; and

(5) The distress signal.

(c) *Control of distress traffic.* (1) The control of distress traffic is the responsibility of the mobile station in distress, or the station which has transmitted the distress call. These stations may, however, delegate the control of the distress traffic to another station.

(2) When any station has assumed control of distress traffic, it shall be responsible for maintaining silence on the distress frequency, or the frequency being used for distress traffic for all emissions except distress signals and distress traffic, and for clearing the distress frequency when the distress traffic has ceased.

(3) The station in distress or the station in control of the distress traffic may impose silence either on all stations of the mobile service in the area or on any station which interferes with the distress traffic. In telegraphy, the service abbreviation "QRT" followed by the distress signal (. . . — — — . . .) is used to impose silence for this purpose.

(4) Any station engaging in radiocommunication with the mobile station in distress or with the station in control of the distress traffic may impose silence on any station which interferes with distress traffic. In telegraphy, this is indicated by using the signal "AS" (. — . . .) followed by the word "distress" and the call sign of the station imposing silence.

(5) The use of the radiotelegraph service abbreviation "QRT" followed by the distress signal (. . . — — — . . .) must be reserved, as far as possible, for the mobile station in distress and for the station controlling distress traffic.

(6) Any station which has been notified to cease transmission in connection with a situation of distress shall not resume transmission on any frequency which may cause interference to distress signals or traffic until notified by the station in control of the distress traffic that the distress traffic has ceased and transmission may be resumed, or until notified by the station issuing the original notice that transmission from the station in question will not interfere with the distress signals or traffic.

(d) *Supplemental transmissions.* (1) A coast station equipped for telegraphy and located in the general vicinity of the vessel, aircraft, or other unit in distress shall, if possible and when deemed appropriate by the licensed radiotelegraph operator on duty at that station, transmit the radiotelegraph alarm signal[10] on the frequency 500 kc using the maximum available power and class A2 emission, when—

(A) A distress call has been transmitted and was not preceded by the alarm signal; or

(B) Upon audible reception of an alarm signal which appears to be ineffective by reason of improper timing, improper class of emission, insufficient signal strength, interference, or excessive deviation from the frequency 500 kc.

(2) When a coast station has heard a distress call or distress message for which acknowledgment of receipt has not been given promptly, and when the intercepting station itself is not in a position to render assistance, it shall, subject to the discretion of the licensed operator on duty at that station, make every effort possible to attract the attention of any station in the maritime service which appears to be in a position to render assistance. For this purpose, transmission of the distress call and distress message may be repeated, if possible on the frequency 500 kc using the maximum available power and if possible class A2 emission, and/or on such other frequency and with such other class of emission as may be deemed necessary or helpful.[11] At the same time all necessary steps shall be taken to notify the authorities who may be able to intervene usefully.

(3) A coast station which repeats a distress call or distress message shall follow it by the words "transmitted for (insert identity of mobile craft in distress) by", and thereafter its own call sign transmitted 3 times. In radiotelegraphy, the repetition of the distress call or distress message on 500 kc shall, when circumstances permit, be preceded by transmission of the 500 kc international alarm signal followed by an interval of 2 minutes.

§ 7.188 *Radiotelegraph watch by coast stations.* (a) All coast stations (public and limited) licensed to use telegraphy on frequencies within the frequency band 365 to 515 kc shall, during their hours of service, take the necessary measures to insure an efficient safety watch by a duly licensed radiotelegraph operator on the international distress frequency 500 kc for three minutes twice each hour, beginning at x h 15 and x h 45, Greenwich mean time (G. M. T.). For this purpose, either a head receiver or a loudspeaker may be used, on condition that use of the loudspeaker is not less effective than use of the head receiver. While maintaining this watch, the operator shall not use or operate any radio equipment (such as, for example, broadcast receivers, or amateur transmitters or receivers) not actually required in connection with maritime mobile service.

(b) All public coast stations licensed to use frequencies in the authorized bands between 365 and 515 kc shall, during their hours of service, remain on watch on the calling frequency 500 kc, except when the operator is transmitting on 500 kc, operating the station transmitting or receiving equipment on any other frequency authorized for transmission or reception in the maritime mobile service (including maintenance of the watch on 143 kc if required as provided by subsection (c) hereof) if it is not possible to maintain at the same time, by any practicable means,[12] the watch for calls on 500 kc. The provisions of this section, however, shall not relieve the coast station from complying with the requirements for a safety watch as prescribed in subsection (a) hereof.

(c) On condition that compliance with the following requirement shall in no way interrupt or reduce the efficiency of the safety watch prescribed in subsection (a) hereof, each coast station equipped and licensed for communication by means of class A1 emission on frequencies within the band 100 to 160 kc shall, during its hours of service when not engaged in communication with another station of the maritime mobile service, keep watch for calls every hour on the frequency 143 kc for five minutes beginning at x h 35, Greenwich mean time (G. M. T.).

§ 7.189 *Radiotelephone watch by coast stations.* (a) Each public coast station licensed to use telephony shall, during its hours of service, keep watch on the radio-channel(s) authorized for working, which are used normally by mobile stations for transmission by telephony to the particular coast station; or in lieu of such watch, the coast station shall, during its hours of service, monitor such radio-channel(s) by any apparatus which will automatically intercept signals from mobile stations with no less efficiency than that attainable by a watch and which automatically indicates the interception of such signals by either aural or visual means.

(b) As an alternative to keeping watch on (or monitoring) the working radio-channels as prescribed by paragraph (a) of this section, a public coast station may, in the discretion of the station licensee, keep watch on (or monitor) the comparable radio-channel(s) designated for calling by telephony (assigned frequency 2182 kc, comparable to working channels within the band 1600 kc to 3500 kc; assigned frequency 156.8 Mc. comparable to working channels within the band 100 to 200 kc).

(c) If and when required by the Commission for safety purposes, a particular public coast station using telephony shall, during its hours of service, keep watch on the radio-channel(s) designated for calling by telephony (assigned frequency 2182 kc or 156.8 Mc.) or, alternatively, shall monitor such radio-channel(s) by automatic apparatus approved by the Commission for safety purposes: *Provided*, That this requirement shall not be prescribed without the consent of the station licensee unless, after hearing, the Commission shall determine that this requirement will substantially promote safety of life and property at sea.

(d) With respect to those provisions of paragraphs (a), (b) and (c) of this section pertaining to watch, the person who keeps such watch shall, in each instance, and at all times during the hours of service of the station, be a person who is authorized by the station licensee to operate, in accordance with applicable law and regulations, the appropriate radiotelephone transmitting apparatus of the particular station.

§ 7.190 *Maintenance tests.* Stations subject to this part are authorized to engage in a minimum amount of test transmissions when considered by the station licensee to be necessary for the proper maintenance of the station: *Provided*, That precautions shall be taken always to avoid, in so far as may be possible, interference to other stations: *Further, provided*, That this test transmission shall conform to such test operating procedure as is prescribed elsewhere in this part for the particular class of station involved.

§ 7.191 *Inspection of antenna tower lighting.* (a) The license of a station subject to this part which has an antenna or antenna supporting structure(s) required to be illuminated pursuant to the provisions of section 303 (q) of the Communications Act shall:

(1) Make a daily check of the tower lights not later than one hour after local sunset either by visual observation of the tower lights or by observation of an automatic indicator to insure that all such lights are functioning properly as required;

(2) Report immediately by telephone or telegraph to the nearest Airways Communication Station or office of the Civil Aeronautics Administration any observed failure of any code and/or rotating beacon light(s) if such failure(s) is (are) not corrected within 30 minutes after observation thereof, regardless of the cause of such failure. Further notification by telephone or telegraph shall be given the above station or office immediately upon resumption of the required illumination; and

(3) Inspect at intervals of at least once each 3 months all code and rotating beacon light(s) and automatic lighting control devices to insure that such apparatus is functioning properly as required.

(b) The station licensee or his representative shall make entries in the radio station log appropriate to the requirements of paragraph (a) of this section, as follows:

(1) The date and time of each day that the tower lights are turned on and off, if manually controlled;

(2) The time that the daily check of proper operation of the tower lights was made, either by visual observation of the tower lights or by observation of an automatic indicator;

(3) In the event of any observed failure of the tower lighting:

(i) Nature of such failure;

(ii) Date and time that the failure was observed;

(iii) Date, time, and nature of the adjustments, repairs, or replacements made;

(iv) Entry showing the identification of the Airways Communication Station (Civil Aeronautics Administration) which was notified of the failure of any code and/or rotating beacon light(s) not corrected within 30 minutes after observation and an entry of the date and time that such notice was given;

(v) Date and time that notice was given to the Airways Communication Station (Civil Aeronautics Administration) that the required illumination was resumed;

(4) Upon completion of the periodic inspection required by subparagraph (3) of paragraph (a) of this section:

(i) The date of the inspection and the condition of all required lights and as-

[1] See Article 30, paragraph 3 of the International Radio Regulations, Atlantic City, 1947.

[2] See Article 37 of the International Radio Regulations, Atlantic City, 1947.

[3] See also Subpart J of Part 8 of the Commission's rules pertaining to mobile stations.

[10] This alarm signal consists of a series of 12 dashes transmitted in one minute, the duration of each dash being 4 seconds and the duration of the interval between 2 consecutive dashes being one second. The distress signal (. . . — — — . . .) shall be transmitted 3 times immediately after the alarm signal, in order to operate such automatic apparatus as may be designed to be actuated by the normal distress signal on 500 kc.

[11] In the Great Lakes region, the frequency 2182 kc may be used with class A3 emission, and additionally in other regions where its use may prove beneficial in securing assistance for the mobile unit in distress.

[12] Any practicable means of maintaining this watch would include a loudspeaker or head receiver energized, if necessary, by an additional radio receiver (other than the receiver actually in use for non-watch purposes) which is tuned to 500 kc.

NATIONAL ARCHIVES AND RECORDS SERVICE LIBRARIES

sociated lighting control devices, together with the measured voltage under normal load at a reference point in the lighting circuit and the computed voltage at each lamp socket.

(ii) Any adjustments, replacements, or repairs made to insure compliance with the lighting requirements and the date such adjustments, replacements, or repairs were made.

§ 7.192 *Maintenance of station log.* (a) Each station subject to this part which is required, under the provisions of this part pertaining to the particular class of station, to keep a radio station log, shall, in addition, comply with the applicable provisions of the following paragraphs of this section; the station licensee and the licensed radio operator (when a licensed operator is required) in charge of the station shall be responsible for compliance with this section;

(b) The log shall be kept in an orderly manner, in useable form, and in such detail that the information required for the particular class of station concerned is readily available. Key letters or abbreviations may be used if their proper meaning or explanation is contained elsewhere in the same log.

(c) The station log or any portion thereof shall not be erased, obliterated, or wilfully destroyed within the period of retention required by § 7.115. However, during this period any necessary correction may be made of such log but only by the person originating the entry and that person shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

SUBPART H—COAST STATIONS: USE OF TELEGRAPHY

§ 7.201 *Supplemental eligibility requirements for public coast station authorization.* (a) Subject to the basic eligibility requirements set forth in § 7.23, an authorization for a public coast station may be granted to any person, or state or local government subdivision, or any agency of the Federal government which is subject to the provisions of section 301 of the Communications Act, provided the applicant is—

(1) Qualified as a common carrier of communications; *or*

(2) Qualified to provide a radio service of public correspondence, without discrimination and without charge of any kind therefor.

§ 7.202 *Points of communication of public coast stations.* (a) Public coast stations using telegraphy are authorized to communicate normally with the classes of stations designated herewith, subject to the conditions and limitations imposed by the terms of the particular coast station license or by the applicable provisions of this part with respect to the use of particular radio-channels:

(1) On the radio-channel of which 500 kc is the authorized carrier frequency, with any ship station or any aircraft station using telegraphy other than for the transmission of public correspondence;

(2) With public ship stations licensed by the Commission and using telegraphy on a frequency assignment designated in Part 8 of the Commission's rules for use by public ship stations.

(3) With ship stations of the United States government (other than limited ship stations subject to section 301 of the Communications Act) using telegraphy on a government frequency assignment or on a frequency assignment designated in Part 8 of the Commission's rules for use by public ship stations;

(4) With ship stations of any foreign country using telegraphy on an appropriate frequency assignment designated in Part 8 of the Commission's rules for use by public ship stations or available in accordance with the International Radio Regulations for ship to shore transmission of public correspondence by telegraphy;

(5) With aeronautical public service stations and United States government stations on board aircraft in flight, using telegraphy on a frequency assignment available for public correspondence as expressed in subparagraphs (2), (3), and (4) of this paragraph (provided neither harmful interference nor intolerable delay is caused to communication with ship stations).

(b) Upon application, a public coast station using telegraphy may be authorized to transmit press material, and meteorological and marine navigational information of benefit to mariners, additionally to designated fixed locations, whenever the same information is transmitted by such coast station simultaneously and primarily to ship stations; provided, a sufficient need for such authorization is shown to exist.

(c) Each public coast station using telegraphy is authorized to communicate additionally with other public coast stations using telegraphy when such communication is necessary to facilitate the disposal of message traffic (public correspondence or safety communication) destined to or originated at mobile stations (public ship stations or aeronautical public service stations aboard aircraft) subject to and in accordance with the express conditions hereinafter set forth:

(1) For the interchange of operating signals, brief service messages or safety communication;

(2) For the transmission or receipt of message traffic destined to a mobile station which, by reason of its known or reported geographic location at the time, can be communicated with more effectively or more expeditiously by the coast station which receives such message traffic for relay to the mobile station: *Provided, however,* That this procedure shall not be used for normal routing of radio traffic, but only when the coast station initially concerned is unable to communicate in an effective manner directly with such mobile station;

(3) For the transmission or receipt of message traffic, which originated at a mobile station, by a public coast station in the Great Lakes region exclusively, when the use of available point-to-point communication facilities would unduly delay the delivery of such message traffic to the addressee(s).

(4) Such communication as is permissible under subparagraphs (2) and (3) of this paragraph shall be conducted only in exceptional circumstances and with discretion, without incurring additional charges: *Provided,* Such utilization of radiotelegraphy shall not in any way replace or be used in lieu of point-to-point communication facilities which are available for the forwarding of message traffic to and from the particular coast stations involved;

(5) Only radio channels authorized for working with ship stations (and used primarily for that purpose) shall be employed for this communication between coast stations and, in so far as may be practicable, only authorized frequencies within the band 415 kc to 5000 kc shall be used;

(6) All communication engaged in under the provisions of this paragraph shall be confined exclusively to that which is actually required to facilitate the transmission or reception of ship-shore public correspondence or to enhance safety at sea;

(7) Neither harmful interference nor intolerable delay shall be caused to communication between mobile stations and land stations, or to communication between mobile stations.

§ 7.203 *Supplemental eligibility requirements for limited coast station authorization.* (a) Subject to the statutory eligibility requirements set forth in § 7.23, an authorization for a limited coast station using telegraphy may be granted to any person, or state or local government subdivision, or any agency of the Federal Government which is subject to the provisions of section 301 of the Communications Act provided the applicant is—

(1) Regularly engaged in performing a service for one or more governmental agencies; or

(2) An organization of which all persons who are members or shareholders are regularly engaged in performing a service for one or more governmental agencies; or

(3) A non-profit corporation or association, organized for the purpose of furnishing a maritime mobile service solely to persons who are regularly engaged in performing a service for one or more governmental agencies.

(b) Each application for station authorization for a limited coast station shall be accompanied by a written statement in detail sufficient to indicate clearly the applicant's eligibility under paragraph (a) of this section.

§ 7.204 *Points of communication of limited coast stations.* (a) Limited coast stations using telegraphy are authorized to communicate normally with the categories of ship stations designated herewith, subject to the conditions and limitations imposed by the terms of their particular station licenses or by the applicable provisions of this part with respect to the use of particular radio-channels:

(1) Any ship station using telegraphy on the assigned frequency 500 kc;

(2) Specified limited ship stations licensed by the Commission and using telegraphy on a frequency assignment designated for this purpose;

(3) Specified public ship stations licensed by the Commission and using telegraphy on a frequency assignment designated for this purpose;

(b) With respect to the terms of paragraphs (a) (2) and (a) (3) of this section, the specific ship stations with which a limited coast station is authorized to communicate shall be designated appropriately in the license of such coast station.

§ 7.205 *Nature of service of limited coast stations.* (a) Limited coast stations using telegraphy shall—

(1) Not be open to public correspondence;

(2) Not be used to render a communications common carrier service;

(3) Not be used for the transmission of press material or news items which are not required to serve a governmental purpose.

(4) Be used exclusively to serve governmental purposes including the transmission of safety communication.[1]

(b) In areas where adequate and appropriate weather and hydrographic information is transmitted by means of telegraphy through the medium of one or more public coast stations or United States government stations, limited coast stations shall not duplicate that service. In all other respects, limited coast stations may transmit by means of telegraphy such weather and hydrographic information as is required for the ships with which they normally communicate.

§ 7.206 *Assignable frequencies.* (a) Each of the specific frequencies in kilocycles hereinafter designated in this subsection may be licensed as an assigned frequency[2] for use by coast stations (public or limited) employing telegraphy subject to and in accordance with the provisions of paragraph (b) of this section and Subpart E of this part: *Provided,* That the use of each of these frequencies may be restricted by the Commission to specific areas or locations in order to avoid or minimize interference between stations: *Further provided,* That frequencies below 150 kc and above 5000 kc are assignable to Class 1 coast stations only:

[1] 8580	12585	16980	

[1] Subject to the special conditions and limitations set forth in paragraph (b) of § 7.206.

(b) (1) The frequency 410 kc shall not be used to communicate with ship stations on the Great Lakes or on inland waters; further, the use of this frequency for communication between coast stations pursuant to paragraph (c) of § 7.202 is authorized only for coast stations located on or near the seacoast which serve primarily ships at sea.

(2) In consideration of the fact that the frequency 455 kc is widely used as a standard intermediate frequency for the superheterodyne type of radio receiver, applications requesting assignment of one or more of the frequencies 448, 452, 454, 460, and 462 kc will be considered in relation to the possibility of general interference with the operation of receiving equipment of this type.

(3) The frequency 2274 kc is authorized for use in communicating with ship stations on the Great Lakes or on inland waters exclusively, upon the express condition that interference shall not be caused to stations of Canada.

(4) The frequency 3030 kc is authorized solely for use by coast stations located in the vicinity of the Mississippi River and connecting inland waters (other than the Great Lakes), upon the express condition that interference shall not be caused to stations of Canada.

(5) The frequencies 8570, 8580, 11295, and 11310 kc are authorized for use by coast stations upon the express condition that interference shall not be caused to intercontinental aeronautical services.

§ 7.207 *Frequencies for calling.* (a) The general international calling frequency is 500 kc; the radio-channel of which this frequency is the assigned frequency shall be appropriately used by any coast station engaged in radiotelegraphy in the authorized bands between 365 and 515 kc. The radio-channel for replying to a call sent on the general calling channel (500 kc assigned frequency) is the same channel as that used for the call. A coast station, however, may reply to calls by transmitting on a working frequency, when a mobile station requests the use of this procedure. (In Region 2, and in other areas of heavy radiotelegraph traffic in this band, ship stations normally request coast stations to answer by means of their normal working channel.) In order to facilitate the reception of distress calls, all stations using the radio-channel of which 500 kc is the assigned frequency shall reduce to the minimum their transmissions on this channel.

(b) The frequency 143 kc is the international calling frequency in the maritime mobile service in the band 100 to 160 kc (class A1 emission only). (When a ship station which uses frequencies within the band 100 to 160 kc desires to establish communication with a coast station, it normally calls that station on the frequency 143 kc, unless the International List of Coast and Ship Stations provides otherwise).[3] This frequency is authorized to be used exclusively for individual calls and replies to such calls and for the transmission of signals preparatory to traffic.

(c) The radio-channels of which the frequencies between 4,000 kc and 23,000 kc, designated for "calling" in paragraph (a) of § 7.206, are the assigned frequencies shall be used primarily for calling and answering; with the exception of 8280 kc they may be used otherwise on a secondary basis only as provided by paragraph (e) of § 7.208.

(d) In addition to the radio-channels of which the assigned frequencies are specifically authorized herein for "calling", all radio-channels within the band 4,000 to 23,000 kc similarly authorized for working may be used for calling also, provided interference is not caused to any communication in progress on the particular working channel.

§ 7.208 *Frequencies for working.* (a) Each assigned frequency listed in paragraph (a) of § 7.206, and which is not identified therein with a specific use or function, is authorized as an assigned frequency for "working".

(b) The calling channel of which 500 kc is the assigned frequency may be used for the transmission of distress, urgency, and safety messages; any other use of this channel for working is prohibited.

(c) In so far as is practicable, coast stations shall use frequency-assignments within the high frequency band (3,000 to 23,000 kc) only when other frequency-assignments will not provide effective communication.

(d) In addition to the frequency-assignment designated for telegraphy in the license of a ship station, such station, when working by means of telegraphy with a coast station, may, on condition that its emission-bandwith and frequency-tolerance shall be within the respective limits thereof permitted for the coast station, transmit—

(1) On a telegraph working channel of a coast station within the band 110 to 194 kc when directed to do so by the

[1] See paragraph (a) of § 7.7 which defines "safety communication".

[2] The definition of "assigned frequency" is set forth in paragraph (u) of § 7.8.

[3] Coast stations reply on their normal working frequency in this band.

FEDERAL REGISTER ARCHIVES

coast station for which the channel is authorized; provided, interference is not caused to the service of any land, fixed, broadcast, or radiolocation station; and provided, that the emission shall be class A1 only.

(2) On a telegraph working channel of a coast station within the bands 385 to 405 kc and 4,000 kc to 23,000 kc when directed to do so by the coast station for which the channel is authorized.

(3) Coast stations are authorized to direct ship stations to operate in accordance with the provisions of this section, whenever such means of operation is possible and appropriate.

(e) In addition to the radio-channels of which the assigned frequencies are designated by paragraph (a) of this section "working", the radio-channels within the band 4 000 kc to 23,000 kc (except 8,280 kc) of which the assigned frequencies are designated in paragraph (a) of § 7.206 for "calling" may be used, additionally and with discretion, for working; on condition that interference shall not result to calling, answering, and the exchange of operating signals on the same channel.

§ 7.209 *Use of Morse code required.* (a) The signal code employed for telegraphy by stations in the maritime mobile service shall be the Morse code signals specified in the Telegraph Regulations annexed to the International Telecommunication Convention (Atlantic City, 1947). However, the radiotelegraph communication of a special character, the use of other signals may be specifically authorized by the Commission in response to an appropriate application therefor.

§ 7.210 *Identification of stations.* (a) All radiotelegraph emissions of a coast station shall be clearly identified by transmission therefrom of the official call letters assigned to that station for telegraphy by the Commission. These call letters shall be transmitted by telegraphy in accordance with § 7.209 and the procedure set forth in the International Radio Regulations, and by means of the class of emission normally used by the station for telegraphy: *Provided*, They shall be transmitted always upon completion of any transmission when the station resumes its watch or suspends transmission for an indefinite time; in addition they shall be transmitted at intervals not exceeding 15 minutes whenever transmission is sustained for a period exceeding 15 minutes.

§ 7.211 *Procedure in testing.* (a) Coast stations must use every precaution to insure that, when conducting operational transmitter tests, the emissions of the station will not cause harmful interference. Radiation must be reduced to the lowest practicable value and if feasible shall be entirely suppressed. When radiation is necessary or unavoidable, the radiotelegraph testing procedure described below shall be followed.

(1) The licensed radiotelegraph operator responsible for operation of the transmitting apparatus shall ascertain by careful listening that the test emissions will not be likely to interfere with transmissions in progress;

(2) The operator shall transmit the signal "IE" (two dots, space, one dot) on the test frequency as a warning that test emissions are about to be made on that frequency. When the frequency or frequencies of the test emissions is/are within the frequency band 365–515 kc, a listening watch shall be maintained on 500 kc by a licensed radiotelegraph operator at the station throughout the test period.

(3) If, as a result of transmitting the test signal "IE", any station indicates, by transmitting the signal "AS" (wait), that it anticipates harmful interference, testing shall be suspended. When transmission of "IE" is resumed and no response is observed, and careful listening indicates that harmful interference should not be caused, the operator shall proceed as set forth in (4);

(4) Test signals composed of a series of "'VVV" followed by the call sign of the testing station shall be transmitted. The call sign shall be sent clearly and at relatively slow speed.

(b) When testing is conducted on the frequency 500 kc, the test signals shall not continue for more than 10 seconds, and no tests shall be conducted during the 500 kc silent periods. Care must be exercised not to so prolong and space the dash portion of the "VVV" series as to form the alarm signal.

§ 7.212 *Radiotelegraph operating procedure.* (a) Except for the transmission of distress or urgency signals, all transmissions by coast stations must cease within the band 480 to 520 kc during each 500 kc silent period, i. e., for three minutes twice an hour beginning at x h 15 and x h 45, Greenwich mean time (G. M. T.).

(b) In order to facilitate radiotelegraph communication in the maritime mobile service, all coast stations transmitting by means of telegraphy shall, whenever practicable, use the service abbreviations ("Q" signals) listed in Appendix 9 of the International Radio Regulations (Atlantic City, 1947).

(c) In addition to compliance with all applicable sections of this Part, the operation of coast stations using telegraphy for call, reply, and the transmission of message traffic shall, in particular, comply with all applicable provisions of Articles 29 (except subparagraph (2) of paragraph 8 thereof), 30, 31, 32, 38, 39, and 40 of the International Radio Regulations (Atlantic City, 1947).

§ 7.213 *Station documents.* (a) All public coast stations using telegraphy shall be provided with the following documents:

(1) A valid station license.

(2) The necessary operator license or licenses.

(3) The station log required by this Part.

(4) The Alphabetical List of Call Signs prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(5) The List of Coast Stations and Ship Stations prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(6) The List of Stations performing Special Services prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938).

(7) The General Radiocommunication Regulations (Revision of Cairo, 1938), and such provisions of the International Telecommunication Convention (Madrid, 1932) as are necessary for the operation of the radiocommunication service rendered by the coast station.

(8) Such provisions of the International Radio Regulations (Atlantic City, 1947), including Articles 29, 30, 31, 32, 35, 37, 38, 39, 40, and 41, as are necessary for the operation of the radiocommunication service rendered by the coast station.

(9) Parts 7 and 8 of the rules of the Commission.

(b) All limited coast stations using telegraphy shall be provided with the documents prescribed by subparagraphs (1), (2), (3), (7), (8), and (10) of paragraph (a) of this section.

(c) These documents shall be continuously and readily available to the licensed operator on duty during the hours of service of the station.

§ 7.214 *Station records.* (a) Public coast stations using telegraphy shall maintain an accurate radiotelegraph log during their hours of service, as hereinafter specified:

(1) Each sheet of the log shall be numbered in sequence and dated and shall include the official call sign of the coast station and also the signature(s) of the licensed operator(s) performing operating duties.

(2) The entry "on duty" shall be made by the operator beginning a duty period, followed by his signature. The entry "off duty" shall be made by the operator being relieved or terminating a duty period, followed by his signature. All log entries shall be currently completed and all entries shall, unless otherwise stated, be made by a licensed operator on duty. The use of initials or signs is not authorized in lieu of any operator's signature required by this section.

(3) The date and time of making an entry shall be shown opposite the entry and the time shall be expressed in Greenwich mean time (GMT),[4] except that in the Great Lakes region, the time shall be expressed in eastern standard time (e. s. t.) (counted from 00:00 to 24:00 o'clock, beginning at midnight), and for coast stations which communicate exclusively with vessels on inland waters of the United States (other than the Great Lakes) the time shall be expressed in local standard time (e. s. t., c. s. t., etc., counted from 00:00 to 24:00 o'clock, beginning at midnight). The first entry in each hour shall consist of 4 figures; additional entries in the same hour may be expressed in 2 figures by omitting the hour designation. The abbreviation "GMT" (e. s. t. in the Great Lakes area) (e. s. t., c. s. t., etc., for stations serving inland waters exclusively) shall be marked at the head of the column in which the time is entered.

[4] For example, 8:01 p. m. eastern standard time should be entered as 0101 GMT; 8:30 a. m. eastern standard time should be entered as 1330 GMT; 7:45 p. m. eastern standard time should be entered as 0045 GMT.

(4) With respect to coast stations which, by reason of the provisions of Subpart G of this part, are required to maintain a watch on the radio-channel designated for radiotelegraph calling and distress (assigned frequency 500 kc), entries shall be made showing each time this watch is begun, suspended, or concluded; without any requirement, however, of making such entries during interruption of this watch as may be necessary during hours of service for calling, answering, and exchanging operating signals and safety communications on this radio-channel. In respect to coast stations which, under applicable provisions of Subpart G of this part are required to maintain a watch on 500 kc during the 500 kc silent periods, a positive entry shall be made in respect to each such silent period, stating whether or not signals were received during that time and, if signals are received, entry shall be made of the call sign(s) of the station(s) heard and the time(s) of such reception. The use of a rubber stamp or equivalent device for making entries to show observation of the silent period is prohibited. Further, in respect to coast stations which, under applicable provisions of Subpart G of this part, are required to maintain a watch on 500 kc during their hours of service (i. e. not limited solely to the 500 kc silent periods), a positive entry shall be made at least once in each 15 minutes stating whether or not signals were received on this radio-channel (assigned frequency 500 kc) and, if signals are received, entry shall be made of the call sign(s) of the station(s) heard and the time(s) of such reception.

(5) All distress calls, alarm signals, urgency or safety signals and communications made or intercepted; the complete text, if possible, of such communications; and any information which may appear to be of importance to safety of life or property shall be entered, together with the time of such observation or occurrence, identification of the radio-channels on which such signals or messages were transmitted or received, and the position of any ship or other mobile unit in need of assistance, if this can be determined.

(6) All calls transmitted from or received by the coast station, together with a brief notation of any messages transmitted or received, shall be entered, showing the respective times, official call signs of the mobile or land stations communicated with, and the assigned frequency(s) on which the operations occurred.

(7) Whenever harmful interference is experienced by or reported to the responsible operator an entry shall be made by such operator to that effect, stating the source of the interference, if known.

(8) All test transmissions shall be entered, together with the time of such transmissions, without regard to whether two-way communication with any other station is established.

(9) A daily entry shall be made regarding comparison of the time indicated by the required clock(s) with standard time, including a statement of any deviations observed and corrections made.

(10) Failure of apparatus to operate as required, failure of power supply, and incidents tending to unduly delay communication shall be entered.

(11) All measurements of the transmitter frequency(s) shall be entered, including such deviations from the assigned frequency(s) as may be observed, and a statement of any corrective action taken.

(12) Entries shall be made giving pertinent details of all installation, service, or maintenance work performed which may affect the proper operation of the station. The entry shall be made, signed and dated by the responsible licensed operator who supervised or performed the work, and unless he is regularly employed on a full-time basis at the station and has his operator license properly posted, shall also include his mail address and class, serial number, and expiration date of his license.

(13) Entries shall be made also in reference to operation of the antenna tower lights when such entries are required by reason of applicable provisions of Subpart G of this Part.

(b) Limited coast stations using telegraphy shall maintain an accurate radiotelegraph log, during their hours of service, in the same manner and to the same extent as is required by paragraph (a) of this section for public coast stations using telegraphy: *Provided, however*, That the entries specified by subparagraphs (6) and (10) thereof shall not be required for limited coast stations.

Subpart I—Public Coast Stations: Use of Telephony

§ 7.301 *Supplemental eligibility requirements.* (a) Subject to the basic eligibility requirements set forth in § 7.23, an authorization for a public coast station may be granted to any person, or State or local government subdivision, or any agency of the Federal Government which is subject to the provisions of section 301 of the Communications Act of 1934, as amended, provided the applicant is—

(1) Qualified as a common carrier of communications; or

(2) Qualified to provide a radio service of public correspondence, without discrimination and without charge of any kind therefor.
